Tokyo University, the Chuo, the Hosei, the Wasedа and gave out the punishment of ring-leaders, fifteen (15) of the Tokyo University, ten (10) of the Chuo, thirty-one of the Hosei and ninty-seven of the Waseda respectively and denoted the firm attitude for the self-government of academy.

Therefore, with the order to suspend the general strike throughout the metropolis on December 20 by the Central Struggle Committee, the students in general had showed the critical attitude for the excess of the struggle in the past and it seemed as if a blast had passed through.

(b) The Memorial Convention for the United Nations held on October 24.

At the Fifth National Convention of the ZEN-GAKUREN (National Student Self-Government Association) on October 25, the International Student Week and the Culture Day of the Tokyo University since November 13, and the War Dead Students Anniversary on December 8 and the

like, the bulletin, bill and others were put up or distributed and though they waited for a chance to revive the vicious struggle in the past, as above-going for the reason of the firm attitude of the anthorities concerned and the separation of the National Student Self-Government Association as well as the Metropolitan Student Self-Government Association from the general students, any struggle by force has not been employed and the trend is increasingly treading its downward path outwardly.

(e) According to the bill which was distributed within the compound of the Tokyo University and that in new system on January 9, 11, 12, 13 and 14 in 1951, the following statement aiming at the establishment of hegemony in concert with the freedom of learning which is the imminent problem for the students is found.

'In the New Year Doctorine, Truman argued the establishment of armed forces of three million five hundred thousand (3,5000,000) and General MacArthur, in the New Year address, announced the separate peace and the enforcement of rearmament trampling down the will of all the Japanese people against the war. Also,ASHIDA Hitoshi claimed the rearmament and all these persons enforce us to repeat the history of that "WADTSUMI (Ocean)"--- the book compiles the will of the war dead students in the Pacific War --- again taking up a gun in place of pen by giving up the freedom of learning and made us stand on such a vital moment as to decide whether or not we will be compelled to share the fate as their man-ballets for ourselves under the present time when the separate peace and the rearmament have completed as the fully fortified military base of them.'

In addition, according to the announcement of the Secretary Bureau of the Tokyo Metropolitan Student Self-Government Association on November 11, the representatives cunncil of the Metropolitan Student Self-Government Association is scheduled to be held on February 1, and the slogan for its activities was put up as follows:

1. All-out peace.
2. Independence of the people.
3. Anti-war and peace.

and they are plotting to wage a nation-wide struggle which implies the execution of force including strike, waiting for a chance by advocating consistently the anti-impeliarism and anti-war, their aims for struggle.

(d) Views of this Bureau:

In these struggle, the dissension between the international and reighning factions with its breakdown in the end of November at the Unified Roundtable Conference has been going on the way of intensification and distributed the agitating bill abuse each

other, continuing the struggle to gain influence. But compared to the time of struggle in October, last year the recent rise of the reigning faction has become so remarkable to be worthy of the general attention.

Attorney-General's Office.

FOR : Lt. Col. Jack P. Napier, Government Section, G. H. Q.

SUBJECT : The concerned organizations of the recent National Student Self-Government Association.

I. & II.

Secretary Uematsu, Fourth Subsection, Third Section, Investigation Division, SIB, initiated investigation into the concerned organizations of the National Student Self-Government Association on Jan. 10. The result of it is as follows:

(a) The international and domestic concerned organizations of the recent National Student Self-Government Association is just as like as the table of annexed paper.

(b) At the end of last year, ex-Buddhist Youth Alliance was dissolved, and the new National Buddhist Youth Alliance was organized. But it is now a preparatory society, but it will be formed in the near future. As the General Council for Student Movement cannot stand independently against the National Student Self-Government Association, two organizations mentioned above, in concert the BUTSU GAKU REN (the All Japan Buddhist Student League which started previously), are trying to operate correctly the student movement independently of the General Council for Student Movement.

(c) The KOKUSAI GAKU REN (The International Student Self-Government Association) has started as anti-fascism movement. And this Association has contained the belivers of Protestantism, Catholicism, Mohammedanism, Judaism and Buddhism, and it has contained socialism and liberalism ideologically. However, this Association adheres to the Marx-Lenin doctrine at present.

III. None.

IV. SIB proposes to close the case for the present.

FOR: Lt.-Col. Jack P. Napier, Government Section, G. H. Q.

SUBJECT: SHINSEINEN-SHIMBUN SHA (New Youngmen's Newspaper Office).

I. II.

From January 17, Secretary KAWAHARA of Fourth Sub-section, Third Investigation Section, SIB, launched the investigation into the above New Youngmen's Newspaper and obtained the following facts:

A. Conditions of publication.

The above paper has been published from around Sep. 21 of last year after publication of the MINSHU SEINEN SHIMBUN (Democratic Youngmen's Newspaper) was suspended on Sep. 13, last year.

1. Name: SHIN-SEINEN SHIMBUN

2. Publishing office: 294, Zaimokuza, Kamakura City.

3. Editor, printer and publisher: KIDE Kazue.

4. First issue: Around Sep. 21, 1950.
Weekly edition.
About 30,000 copies.

5. Connecting place: KAWAGUCHI Shiro (34 years old)
c/o SANKYOSHA, 15, Kanda-Nishiki-cho, Chiyoda Ward, Tokyo.

Around the middle of November last year, a man (his name remains unknown) of about 30 years of age whom he knew by sight at Yoyogi, visited him and told that he is now doing business at Kamakura but is muchincovenienced..

Then the person asked KAWAGUCHI to rent him a space where he will place a desk only for his connecting place. Thus KAWAGUCHI rented him the place. At present, there is found a desk only and a sign-board of 1 shaku (1 shaku--11,93 inches) long and 3 sun (1 sun--1,193 inches) wide, with the letters of "SHIN SEINEN SHIMBUNSHA" is now being set out there.
A young man or woman visits there to establish a

connection once a day, but their names are unknown.

C. Printing office:

From the middle of September, 1950 to December 25 of the same year, the paper was printed at the BUNKYO TAIMUSU SHA (Bunkyo Times Co.) of 16, Suga-cho, Nezu, Bunkyo Ward. The president of the above printing company is ARIMA Teizo.

D. Others:

We don't know for certain but the below-mentioned person is said to be its editor in chief.

TSENG Sheng-chung (about 30 years old)
c/o KORAKU Dormitory (former Manchukuo Hall),
1-1, Koishikawa, Bunkyo Ward, Tokyo.

III. None.

IV. The investigation will be discontinued for the time being but the contents of the paper will be put under our strict watch.

Tada H I.D. Third (4)(Jan. 19, 1951)(27th) 49, C.

January 25, 1951.

FROM: Director Mitsusada YOSHIKAWA of
Special Investigation Bureau, Attorney-General's Office.

FOR: Lt.-Col. Jack P. Napier, Government Section, G.H.Q.

1. The target of struggle of this year.

2. The joint movement of NIKKYO(Japan Communist Party) and SHAKAITO (Japan Social Democratic Party).

Other than these, they talked each other about the production control by laborers at the TSURUMI ZOSEN (Tsurumi Ship-building Co.). As the state of affairs is as follows, we report here.

Concerning the Trend of the KEIHIN CHIKU SEINEN SOKOKU SENSEN (Keihin Area Youth Fatherland Front).

I. This is based on the hearing came to us titled as "the struggle principle of the youth in Keihin area" on January 19, 1951.

II. Initiating his examination, secretary TODA of Fourth Subsection, Third Section, Investigation Division, SIB detected the following state of affairs on January 19, the year.

Having held the headquarters assembly of the Young Women's Section secretly on 9th (the place is unknown) and around thirty persons having gathered backed by several left-wing persons including Communist SUGANO and HARA, a member of the Prefectural Committee, NIKKYO, the KEIHIN CHIKU SEINEN SOKOKU SENSEN (Keihin Area Youth Fatherland Front) seems to have decided the following matters.

"The youth masses of the NIKKYO and the SHAKAI TO, an opinion among them that they must fight against the separate peace and the rearmament of the ministerial party in the cause of the independence and the freedom of Japan rejecting the suppression upon the patriots and cooperating each other being strong, decided following matters as the struggle target of this year.

1. Because of the big influence of the Korean conflict upon neighboring Japan, the various industries in Japan are being transformed into the munition industries.

2. According to this fact, laborers in Japan are being driven into the compulsory labor by and by.

3. If Japan accepts the separate peace, the transformation of Japan into a military base will not be inevitable naturally.

Under the circumstances like these, we place the fundamental slogan on

1). the opposition to the rearmament

2). the independence and peace of our race must be won by the hands of us young women."

Besides, having projecting to carry out the production control by laborers of the TSURUMI ZOSEN (Tsurumi Ship-building Co.) simultaneously with the March Offensive, they also seemsto have talked mutually they will recommend Communist SUGANO (who has been purged) the factory superintendent.

III. None.

IV. We once close this report here and concerning the further movement, we wish to continue our surveillance successively.

Terai M, I.D. Third (4) (Jan, 19, 1951) (~~1~~ 183) 50. C

January 25, 1951

FROM : Director Mitsusada Yoshikawa of Special Investigation Bureau,
Attorney-General's Office.

FOR : ~~Lt.-Col.~~ Jack P. Napier, Government Section, G. H. Q.

SUBJECT : The Trend of the Student concerning the Suspension to take over the Student Hall.

I. This was examined being ordered by the chief of Fourth Subsection, Third Section, Investigation Division, SIB.

II. Initiating the investigation on January 19, secretary TERAI, Fourth Subsection, Third Section, Investigation Division, SIB revealed the facts as follows:

a. In December, 1950, the Central Executive Committee, All-Japan Federation of the Student Self-government Societies despatched the directive

to prepare for the structure of the struggle early next school term in the cause of "peace and independence" and the rehabilitation struggle of the democratic education "under the flag of the International Federation of Student Self-government Societies". But as the students of various schools at present, with the final examination in sight and being extremely critical against the struggle principle of the All-Japan Federation of the Student Self-government Societies, had been in a state of "We have peiped unto you and ye have not danced." Although the indication that the students of the schools concerned were going to align themselves with the leading direction of the All-Japan Federation of the Student Self-government Societies under the slogan of "the defence of the student right of living" and "the opposition against the rearmament" concerned with the requisition problem of the Tokyo Student Hall which is accommodating around six hundred students of the sixty odd schools in Tokyo Metropolis as mentioned above, as the notification which had suspended the requisition of the Tokyo Student Hall was despatched by the Tokyo Jurisdiction of the National Rural Police Reserve

on January 17, the clue of the anti-Imperialism struggle of the All-Japan Federation of the Student Self-government Societies connected with the Tokyo Student Hall once placed in a state that it could not have been but destroyed. The trend of the Executive Section of the All-Japan Federation of the Student Self-government Societies and the students who belong to it requires an extreme attention at the time of the raise of tuition fee at Waseda University in next school year, the visit of Adviser DULLES and the placing on the order of the House of the partial revision of the School Education Law, the University Management Law and the partial revision of the State University Establishment Law.

III. None.

IV. This investigation will be once closed here.

January 26, 1951.

From: Director Mitsusada YOSHIKAWA of Special Investigation Bureau, Attorny-General's Office.

For: Lt.-Col. Jack P. Napier, Government Section, G. H. Q.

Subject: Trend of the Preparatory Society for the NIHON BUKKYOSHA HEIWA KONDANKAI (Japanese Buddhist Peace Round-table Conference).

I. Receiving on January 20, 1951, an information that Japanese Buddhists would hold a national convention on April 8, an investigation was initiated.

II. Secretary TODA of Fourth Sub-section, Third Section, intitiated to make an investigation on January 20, the same year, and has detected the following facts.

Influential Buddhists were making preparation for forming the Japanese Buddhist Peace Round-table Conference since last year, and decided to hold the Japanese Buddhist National Convention in commemoration of the birth day of Sakya Muni on April 8, this year. For that purpose, they have been engaged in the signature Campaign. The influential figures among them are as follows:

EBE Ohson (Professor of Nihon University)
KUBOTA Masabumi (Professor of Rissho University)
IINUMA Ryudo (President of Rissho University)
SATO Kenjun (Taisho University)
MIBU Shojun (Tsukiji Honganji Temple)
SHAKU Tado (Head Family of Rinzai Sect)
HAMADA Honyu (Rissho University)
YAMAZAKI Shoichi (Toyo University)
KOBAYASHI Keizen (President of Toyo University)

They published the following "Peace Statement" on January 11.

"Since its formation, the NIHON BUKKYO KYODAN (Japan Buddhism Order) has mostly been fostered under the protection of political power and has scarcely led the human society of its own free

will. Especially, it came to commit a great error by cooperating with the war without ascertaining its true nature on the occasion of last reckless war.

"Thereupon, we, Buddhists, pledged to reconstruct our nation and to establish the world eternal peace in accordance with the true spirit of the Buddhism, that is, freedom, peace, equality, and mercy, as the New Constitution has come to guarantee the freedom of belief.

"Only five years after the termination of the war, however, the hope for peace has come to betrayed. In the present international political situations, the United States and the Soviet Russia, adding each country in the world, opposed each other, specially, since the Korean disturbance happened to break out, the crisis of the world war has appeared in a corner of Asia. The trend of our nation is thought to be divided into radical and reactional elements and to be combined with the world crisis. Moreover, the terrible possibility of the atomic war means the end of the world.

"For purposes of overcoming such a crisis, we should show the true meaning of the human life preached by the Buddhism.

"Based upon the spirit of mercy,"No killing" means the denial of war and terrorism, while "No Stealing" means the denial of monopolizing resources and not to allow omnipresent wealth. In these circumstances, we should abide by the mission of Buddhists, make every effort for the prevention of the Third World War, in order to establish the world eternal peace at this very time.

"I sincerely hope reflection and cooperation of not only the people in our country, but also of brethren of the world and of the representatives of each country in the United Nations."

III. None.

IV. SIB proposes to close the case without further action.

January 24, 1951

FROM : Director Mitsusada YOSHIKAWA of Special Investigation Bureau, Attorney-General's Office.

FOR : Lt.-Col. Jack P. Napier, Government Section, G.H.Q.

SUBJECT : The SEKAI-SEIFU KYOKAI (World Federation Society)

I. According to the voluntary investigation of the Fifth Sub-Section, Investigation Third Section, SIB.

II. This case has being investigated by Secretary ARIGA of the Fifth Sub-Section, Investigation Third Section of Special Investigation Bureau, AGO, since November 1950 and the following results has been obtained by him. (Cf. The former report B 267 dated Dec. 21, 1950)

a. Conditions of Activities :

1. On December 30, 1950 through January 4, 1951 the JINMIN SEKAI KAIGI (People's World Conference (P.W.C)) was held at Jeneva and the following persons were dispatched by the World Government Society :

Adviser of the World Government Society

NAKAMURA Kaju

Chief of the Youth Department of the SEKAI-SEIFU KENSETSU DOMEI (World Government Establishment League)

KAWANO Kiyozumi

Commander of the NIHON-GAKUSEI SEKAI-SEIFU JUJIGUN (Japanese Students World Government Crusade)

MORII Koji

At this conference, Director-General INAGAKI Morikatsu and eight (8) others were also present dispatched by the World Federation Establishment League, a member of the SEKAI-RENPO SEIFU SEKAI UNDO-KAIGI (World Movement of World Federation Government (W.M.W.F.G.))

b. Action, worthy of special mentioning (including the views inserted in the organ paper) :

1. There have been some such persons stand against the PWC from the begining, in Japan. They are a group of 'the SEKAI KOKKA (World State)' sponsored by KAGAWA Toyohiko (including the World Federation Establishment League).

They are in pursuit of only the World Federation and intending to rule out all other claims even those should be the World People's Movement or the communism or the anarchism. This fact proves not only they own the pure spirit but also indicates the reveal of their exclusive character.

If one should claim the one world who absolutely necessitates such generosity like an ocean which embraces and purifies everything and the vigor, by viewing the things broadly from a larger point of view. One should cooperate with any organization, if it is aiming at peace so as to form a joint fromt even with 'the HEIWA O MAMORU KAI (Peace Protection Society)' or the Davis' 'SEKAIKA UNDO (Internationalization Movement)'.

Even though the communism should be the mortal foe to him, he must to unite with it as far as it concerns with the world peace. The far-sighted aims of the communism should surely be highly esteemed and not to be excluded bluntly.

Man is not almighty. Everyone is not perfect. Every body is ignorant and powerless, and shallow-brained. Therfore, to exclude others means self-conceit and arrogance.

The only way to be relieved from his ignoble life, full of mistakes is to take only the bright side of all the people.

2. Concerning the problem concerned and cooperated with the Peace Protection Convention in the camp of the side of the Soviet Russia, we heartily hope the unification and cooperation with it and seriously think of its realization. We do not exaggerate the value about such a thing as a collective conference in formality as well as not to think as no value of 'the transaction ' and ' the bargaining ' such as those in the session of the UN. We should make efforts not only in addressing the Soviet Russia but in making a ground on which the Soviet Russia can response to our hailing.

3. There is no denying the fact that the UN and the World Government Movement are the critique on the former by the latter and the expression of unbelief for the former. Accordingly, it is a matter of course that the World Government Movement to be looked upon with apathy by the sources of the UN having its organization, authority and real political power. But, should the UN be able to display its actual efficiency as a structure for the protection of the world peace in reality and should it make the World Government Movement useless which started by the earnest desire of all the nations throughout the world, we rather congratulate ourselves upon it. Because the World Government Movement is not for the World Government Movement itself but for the establishment of world peace.

Therefore, the success or failure of the World Government is contrary to the effeciency and the real value and the point at issue is not the movement itself but the establishment of world peace.

4. We do not think of the speedy and easy success of our World Government Establishment Movement but just the opposite. Also, we do not think of that in the People's World Conference which scheduled to be held in every year to come, the World Government could be established merely along the line of the Chicago Draft and a delibarative council of constitution draft and others. Under the views such as the principle for what the human life should fundmentaly be and the establishment of the world's view and the deleberation on the life of each nation and person based upon the principle should be the fundamental conditions of the world peace, we argue that its examination, affairmation and its realization and popularization should be the prerequisites. But, we dare not to force our claims others to buy. We not only intend to accede the earnest examination and proposal of the Japanese people in all ranks and classes, especially those of young men with humility but also intend to introduce the opinions of our comrades through the world and to criticize and foster them.

III. None.

IV. The Investigation concerning this item has been stopped.

Director of Special Investigation Bureau,

Attorney-General's Office
