NASTURTIUM Double Glorious Gleam Hybrids

New Double Nasturtium

This year we take pleasure in offering, in addition to the well-known Double Golden Gleam, the Double Scarlet Gleam and the Double Glorious Gleam Hybrids. These are outstanding Novelties of recent years. We are offering Bodger seed.

Golden Gleam

Golden Gleam is maintaining its position as the best known and most popular novelty of the past two seasons, becoming even more popular as time goes on. The large, double, sweet-scented golden yellow flowers on long stems are borne profusely well above the bright green foliage of the neat semi-dwarf plants. $\frac{1}{2}$ oz., 15c; 1 oz., 25c; lb., \$1.50.

Double Scarlet Gleam

The flowers are a fiery orange-scarlet, a color comparable to the brilliance of Scarlet Sage; or seeing a row of the plants one might visualize a showy border of scarlet Geraniums. The individual blooms are of an immense size, almost three inches across, much larger than any Nasturtium ever known. The sweet fragrance is more pronounced, and the double flowers more uniformly well formed. The foliage is the same lush green characteristic of Golden Gleam. $\frac{1}{4}$ oz., 50c; 1 oz., \$1.80.

Double Glorious Gleam Hybrids

The Hybrids are a collection of gorgeously colored, large, well-formed flowers of such dazzling beauty that the mind hesitates to credit the evidence of the eyes. Colors certainly never dreamed of before in a double nasturtium abound in profusion—glorious flowers of salmon, golden yellow, orange scarlet, cerise, cream yellow, orange, crimson, and gold flushed scarlet combine with the foliage of fresh green. $\frac{1}{4}$ oz., 50c; oz., \$1.50.

We can supply the three in colored lithographed packets for outright sale as follows:
 Golden Gleam.....at \$ 5.00 per 100, sell for 10c each, retail.
 Scarlet Gleam.....at 12.00 per 100, sell for 25c each, retail.
 Glorious Gleam Hybrids.....at 12.00 per 100, sell for 25c each, retail.

Dwarf Golden Globe. A selection of Golden Gleam, the first of the double Nasturtiums secured from seed, in which the plants grow into neat little bushes instead of producing runners, as in the type. Color, rich golden yellow. Trade pkt., 25c; $\frac{1}{4}$ oz., 70c; oz., \$2.40.

Marigold YELLOW SUPREME

Visualize, if you can, a large, fluffy, well-rounded bloom of delicately mild honey fragrance, with broad, loose, frilled petals of a rich, creamy lemon-yellow color, and you have a fair conception of the new "Yellow Supreme" Marigold. Unsurpassed as a cut-flower and exhibition variety. Holds decided freshness fully a week to 10 days. In water 48 to 72 hours, it takes on an even more delightful color and, if possible, a more graceful form. Its future as a garden and cut-flower favorite is assured. Plants are remarkably healthy, vigorous and free branching with foliage which is practically free from that objectionable Marigold odor. Trade pkt., 35c; $\frac{1}{4}$ oz., 60c; oz., \$1.80; lb., \$20.00.

GUINEA GOLD (Early Flowering Type)

A very distinct type of Marigold, of graceful pyramidal habit, growing 2 to 2 $\frac{1}{2}$ feet high, and producing 30 to 40 flowers, 2 to 2 $\frac{1}{2}$ inches across, of a brilliant shade of orange flushed with gold, resembling Camations. Unlike the ordinary African Marigold, this variety produces few single flowers, but practically 100 per cent. semi-double. The characteristic Marigold odor, too, is much less pungent than in other sorts. 2 $\frac{1}{2}$ ft. Lb., \$14.00; $\frac{1}{4}$ oz., 50c; trade pkt., 25c; oz., \$1.50.

MARIGOLD Guinea Gold

ZINNIA Fantasy Mixture

This new Fantasy Mixture with rounded flowers is composed of a mass of shaggy ray-like petals which gives a delicate and refined appearance to the medium sized double flowers. They lend themselves gracefully to flower arrangement. The color range includes the brightest shades of reds and orange, as well as the popular pastel pinks and cream. $\frac{1}{4}$ oz., 75c. Trade pkt., 50c; oz., \$2.50.

CALENDULA Shaggy

A very distinct new break in Calendulas. The petals are long and deeply fringed or lacinated. Row after row of these long fringed petals overlap each other in a rather irregular fashion and build up a bloom with the shaggy appearance of some Chrysanthemums. These blooms are of great grace and beauty, sharply contrasting with the rather formal appearance of varieties such as Orange King. $\frac{1}{4}$ oz., 85c. Trade pkt., 50c; oz., \$3.00.

CALENDULA Sunshine

Calendula SUNSHINE

Large, double flowers are of beautiful form and borne on exceptionally long, stout stems, while the petals are long, broad and drooping, giving the flower a globular form. Owing to its pleasing buttercup-yellow color, its remarkably distinct and informal shape and great length of stem, this Calendula will be found ideal for interior decoration. Trade pkt., 15c; oz., 80c; lb., \$8.00.

It Is Time to

Increase Production

DURING the last year we have seen the condition of chronic surplus in the market transformed to acute shortages at seasons of peak demand.

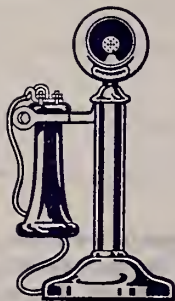

Evidence that business is improving can be seen on all sides. To curtail production when demand is expanding, is just as serious an error as to keep on producing surpluses when trade is in the declining phase of the business cycle.

Profits are returning to the florist business, but the only way a grower can make them is to have flowers to sell.

In spite of the effect of last year's drouth upon all yields of seeds and bulbs, prices in this book will be found at a low level. We have made no advances except where they were forced upon us. But we must reserve the right to advance these prices without notice.

Always you may depend upon being able to buy from us at the lowest prices possible to make without sacrificing in the least degree the high quality which 59 years' experience have led our customers to expect of Vaughan's Seed Store merchandise.

Florists will understand that never can a saving on initial cost compensate for any lack of quality in materials on which you expend so much more than their first cost before bringing them to market.

Garden Seed Sales Up 25%

Are You Sharing in This Profitable Sideline?

SALES by florists handling our flower and vegetable seeds on consignment increased on the average 25% last spring. A further increase is indicated for the season just ahead.

Vaughan's Seeds are not on sale at every grocery and 10-cent store. They are in demand by discriminating buyers, who willingly pay 10 cents a packet, at which most of our seeds are priced. Your share, which is earned without expense or investment on your part, is 4 cents for each packet sold. Unsold packets are returned to us.

Thousands of florists have found garden seeds to be an ideal side line. It is logically associated with flowers. Questions about culture can be answered authoritatively by the florist. The customers it brings into your store are flower lovers, who will buy your flowers at seasons when they cannot grow their own.

Vaughan's Seeds are known to you; and our colorful display and advertising materials are especially designed to fit in a florist's shop. They are used in many of the best equipped and most beautiful flower stores in this country. They introduce into the store the atmosphere of spring, and help all sales, as well as seed sales.

No florist should overlook this opportunity to share in a business which really belongs to him. Send us your contract now!

The flowers are of enormous size, 3 inches and over in diameter. They are perfectly round with overlapping petals, borne on strong stalks well above the remarkably luxuriant foliage. The thick petals are of a rich velvety texture. The superb colors and color combinations—salmons, pinks, rich reds and blues, are their distinctive feature. Excellent for greenhouse culture. Trade pkt., 50c; 1/8 oz., \$1.00; 1/4 oz., \$1.70; oz., \$6.00; 4 oz., \$20.00; lb., \$70.00.

RUST-PROOF ANTIRRHINUM

The University of California co-operating with leading growers of that State have produced a race of Antirrhinum which are 75% or better rust proof. With the rust possibility eliminated it will make the snapdragon as popular as the wilt resistant strains have made Asters. We offer the following:

Maximum Crimson

Shasta White

Pearl. Glistening pure white

Each of above: Trade pkt., 75c; 1/32 oz., \$1.25.

University of California Mixture. Trade pkt., 50c; 1/16 oz., \$1.25.

ASTER

Scarlet King (Beacon). The finest red Aster of all varieties. Plants stand 16 to 20 inches high and in growth resemble the Rose Aster. Every flower is fully double and the color is even more intense than Heart of France. Excellent for cutting, 20 in. Trade pkt., 35c; 1/4 oz., 80c; oz., \$3.00.

New Super Giant Los Angeles. It is of the general habit of the Giants of California, but earlier and much larger than any of the Giants of California type yet introduced, hence the name, Super Giant Los Angeles. But, while the flowers are large, they are most artistic, due to the unusual curling and interlacing of the petals, giving a light feathery effect. The color is a pure shell pink.

For complete list of Wilt Resistant Asters, see page 8.

BEGONIA Elegance

The plant is of bushy habit, medium tall and most free flowering. The individual flowers are large, white with a vivid edging of crimson making a most striking color combination. Their rich color is a most effective contrast with the fresh green foliage. Coming quite true from seed, as to color and habit, it makes an ideal pot plant and is equally adaptable for outdoor bedding. Trade pkt., \$1.00.

CALENDULA

Moonlight. A lovely shade of light canary yellow. A very attractive shade and unlike all other varieties. Trade Pkt., 25c; 1/4 oz., 35c; oz., \$1.20.

Shaggy. A very distinct new break in Calendulas. The petals are long and deeply fringed or lacinated. Row after row of these long fringed petals overlap each other in a rather irregular fashion and build up a bloom with the shaggy appearance of some Chrysanthemums. Deep orange color shading to lighter orange in center of bloom, giving the flower a two tone effect; has long stems and forms plants about eighteen inches high. For illustration see page 00. Trade Pkt., 50c; 1/4 oz., 85c; oz., \$3.00.

CELOSIA (Coxcomb) Flame of Fire

Perfect pyramidal habit with center head and many side branches of a lush green. The branches terminate with circular feathery combs of brilliant fiery scarlet. 18-20 in. Trade Pkt., 50c; 1/16 oz., \$1.00.

CLARKIA

Clarkias are one of the most satisfactory plants to grow from seed. They do well under adverse circumstances, really prefer sandy soil and cramped conditions. Flowers appear in long sprays, excellent for cutting. The following are new shades in this family. 2 ft.

Chieftain. A pleasing delicate mauve, extra double.

Copper Scarlet.

Firebrand. Brilliant coppery-scarlet.

Each of above: Trade Pkt., 15c; oz., 50c.

COSMOS Orange Flare

The outstanding Novelty of 1935, securing the All-American Gold Medal. It is a selection from Klondyke and will bloom in less than four months from seed. Those who visited the Horticultural Building at A Century of Progress last year will remember this. It was a gorgeous sight from July on, being covered with brilliant orange-colored flowers with a background of attractive green foliage. Trade Pkt., 35c; oz., \$2.00.

ANTIRRHINUM Rust Proof Pearl

CYNOGLOSSUM Amabile Fairy Blue

This family has been popular since the introduction of the Amabile variety, commonly known as Chinese Forget-me-not, which is a deep ultramarine blue, while this newest addition is the bright Cambridge blue or sky blue. 2 ft. Trade Pkt., 25c; oz., \$1.60.

THE FAMOUS UNWIN DAHLIAS

Vaughan's Selected Strain

The flowers are semi-double, on long, strong stems, and are borne in such profusion that the bushy plants are covered. A large planting of this strain was made in the Horticultural Gardens of A Century of Progress, where thousands admired their brilliant colors last fall. Tubers are produced by the plants, which may be saved if desired. For illustration see page 14. Trade Pkt., 35c; 1/4 oz., 80c; oz., \$2.80.

Sybil Sherwood. The color is a most glorious shade of salmon-pink, blended with orange, which is softened by the delicate white border. 20 inches. Trade Pkt., 25c; oz., \$1.60.

Thunderbolt. The darkest crimson variety yet introduced, but there is a brilliancy in the flowers that saves it from the dullness associated with so many dark flowers. The habit is dwarf and compact. Trade Pkt., 25c; oz., \$1.60.

Wild Rose. The color is a pale pastel shade of pure rose with just that touch of carmine which makes our wild rose of hedgerows so beautiful and such a favorite. 10 inches. Trade Pkt., 25c; 1/4 oz., 60c; oz., \$2.00.

White Swan. 1 ft. Improved pure satiny white, dwarf and compact. Trade Pkt., 25c; oz., \$1.40.

LUPINUS GIANTS OR KING LUPINES

King Blue. Enormous spikes of rich Oxford blue, enhanced by a pure white stripe in the standard of each flower. They are base-branching, with six to eight huge spikes to a plant. In beauty of size and color they match the regal Polyphyllus Lupin, but have the advantage of being annuals. The foliage is a beautiful light cress green. 3 to 4 ft. Trade Pkt., 25c; $\frac{1}{4}$ oz., 45c; oz., \$1.40.

King White. Enormous glistening pure white spikes of flowers. A companion to King Blue, with all its size and beauty. This Lupin is exquisitely scented. Trade Pkt., 25c; $\frac{1}{4}$ oz., 50c; oz., \$1.60.

MARIGOLD YELLOW SUPREME

Visualize, if you can, a large, fluffy, well-rounded bloom of delicately mild honey fragrance, with broad, loose, frilled petals of a rich, creamy lemon-yellow color, and you have a fair conception of the new "Yellow Supreme" Marigold. You'll enjoy its dazzling beauty. Unsurpassed as a cut-flower and exhibition variety. Holds decided freshness fully a week to 10 days. In water 48 to 72 hours, it takes on an even more delightful color and, if possible, a more graceful form. Its future as a garden and cut flower is assured. Plants are remarkably healthy, vigorous and free branching with foliage which is practically free from that objectionable Marigold odor. Trade Pkt., 35c; $\frac{1}{4}$ oz., 50c; oz., \$1.80; lb., \$20.00.

Dwarf Double African Golden Queen. A large flowered dwarf African type. The plants are sturdy and when well grown form perfect pyramids, each carrying as many as 30 to 40 flowers fully open at same time. The large blooms measuring 3 inches across have flattish petals that take away the coarseness sometimes associated with African Marigold. Trade Pkt., 25c; $\frac{1}{4}$ oz., 50c; oz., \$1.50.

Double Dwarf French Monarch Strain Lemon Ball. This variety is exactly like the Monarch strain re-selected Golden Ball offered in our general list, only the color is a bright lemon. Trade Pkt., 25c; $\frac{1}{4}$ oz., 60c.

A gem for the border and rockery, bright crimson scarlet, very free flowering and of compact habit. It thrives in moist places and is, therefore, an excellent subject for planting in sunken gardens. Trade Pkt., 35c.

SALVIA

Splendens Alba. The flair for white, as displayed in white lamps, white vases and even white leather furniture, leads us naturally to white flowers to complete the picture. White Salvia seems to be a misnomer, as one visualizes only the red in this type, but that is wrong. This one is of pure white with a suggestion of pale pink at the tip of the unopened flower. Foliage is fresh spring green, a very delicate and pleasing combination. Trade Pkt., 35c; $\frac{1}{4}$ oz., \$1.00.

Splendens Salmonea. The long spikes of salmon-rose flowers are most attractive. Adds a new color in the Splendens class. Trade Pkt., 50c; $\frac{1}{4}$ oz., \$1.20; oz., \$4.00.

Trade Pkt., 25c; $\frac{1}{4}$ oz., 60c; oz., \$2.00.

Venosa Lilacea. 1 ft. Verbena Venosa is a favorite bedding plant in the Chicago parks. It is a purple heliotrope color. Many items on our list are grown exclusively for us under most favorable conditions all over the world and this added control of roguing and supervision is further guarantee of highest quality.

TESTING AND TRIALS Every lot of flower seed sold by us is tested in OUR OWN laboratory, where we prove the germination and make certain that the percentage is up to the high level of our standards. Trueness to type is determined and checked by the hundreds of tests grown in our greenhouses and trial grounds. This summer we conducted a series of approximately five hundred trials of various varieties to further check on the reliability of our seed.

Flower Seeds for Summer Sowing.—We issue a special circular in June. Should you fail to receive one, please write for it.

For seeds of **perennials and biennials** see pages 29 to 40. Trade packets contain considerably more seed than ordinary or retail packets, being based on Florists' needs for ordinary purposes. Florists invariably get trade packets unless otherwise specified. Quantities of ¼ lb. and over are charged at the pound rate; ½ lb. at the oz. rate; ½ oz., at the ounce rate, but only when the price per ounce is 40c or more, and is not otherwise quoted. We do not sell ½ oz. where the price per ounce is 15c or less.

Cash Discount.—On orders from this catalog over \$2.00 for flower seeds, if cash is enclosed, 5 per cent.

The plants are neat, loosely-built rosettes about 4 inches across with bluish-green leaves. Produces numerous strong flower stalks with rich vermilion to orange flowers, which make a most effective contrast to the foliage. By growing on a portion of the seedlings in a cool house, you will have a succession of blooming plants over a much longer season.

Streptocarpus New English Hybrids (Cape Primrose)

A superb strain with a wide range of colors. Lovely in shades of pink, mauve, lavender, white, deep rose, carmine and blue, some with white throats, others penciled. The flowers attain a diameter of 2 inches and over, similar to Gloxinias. They are borne on wiry stems and last long when cut. A fine pot plant for winter blooming when sown in January or February. The seeds are small and require very little covering. For soil, use the same as that in which Gloxinias thrive. They should be grown rather cooler than Gloxinias.

CEPHALOPHYLLUM ACUTUM

A Novelty Pot Plant

We believe that this variety will become as generally popular as the Kalanchoe, as it comes readily from seed and flowers in a relatively short period. Growing about 6 inches high, it produces attractive ray flowers of a rich violet blue with pretty centers. The thick fleshy plant growth makes an attractive house plant even when not in flower.

100 Seeds, \$2.00. 1000 Seeds, \$18.00.

AQUILEGIA—Long-Spurred Hybrids

ACHILLEA, The Pearl

ANCHUSA Myosotidiflora

One of the most attractive of spring blooming perennials. A real gem for the border.

Seeds of Biennials and Hardy Perennials

Perennials fill a large and interesting place in the operations of an up-to-date florist establishment. Some are as easily raised as annuals, quite a few may be forced, others make fine pot plants and many furnish splendid cutting material. The rock

garden requirements absorb all the low-growing varieties and the florist with his eye to the future will devote considerable space to perennials of all kinds. They require little heat, if any, and not much care.

In the following list we offer varieties that we can supply in tubers of suitable size for planting. We advise early ordering to prevent disappointment in case the variety selected should be sold out.

NEW DAHLIA FOR 1935

JANE ROSS. Informal Decorative. Bright crimson overlaid and streaked with velvety maroon. Flowers of large size and depth. An early free bloomer. The substance of the flowers is unusual, as they keep well on the bush or after cutting. Is a strong vigorous grower attaining a height of 5 to 6 feet, wide spreading with many branches from the ground up, each terminating with a giant bloom held erect on stiff cane-like stem. The foliage is very thick, leathery and resistant to injury from insect attacks; is an abundant producer of large tubers.

Mr. Ross, the originator, has been growing Dahlias for years and says that this is one of the best he has ever seen or grown. Owing to ample stock, this variety is offered the first year at a greatly reduced price. Price each, Roots, \$5.00; Pot Plants, each, \$2.50.

Vaughan's Vigor Strawberry Plants

Grown in Northern Michigan's Ideal Fruit Soil and Climate—Not for Shipment after May 15.

Our plants are grown under ideal conditions. Note illustration for root development of a single specimen. They have been developed from selected plants and we know you will be pleased. Varieties below are up to date.

Write for pamphlet on Strawberry Culture.

AROMA. (Per.) Late. One of the most popular late varieties. Fruit large to very large; holds its size well throughout all the pickings. Berry is roundish, conical, smooth and perfect in form and of a beautiful bright glossy red in color; very firm and of high quality. Its rich aromatic flavor has suggested its name. The habit of spreading which this variety possesses opens the way for the sunlight to reach the crown. The leaves are broad, clean and smooth and of a dark green color. Price, 100, \$1.10; 500, \$4.25; 1000, \$7.50.

COOPER. The large size and the beautiful brilliant color of the berries immediately attracts the attention of every one, but the greatest feature of all is that peculiar mild, delicious flavor not found in any other Strawberry. Due to the wonderful vigor of the plant this variety is adaptable to a wider range of soils and climate than any other variety. The foliage is immense, the big broad leaves often growing a foot high. This is due to the great root system, which goes down for moisture and enables the plants to produce the enormous load of big red berries even during continued dry weather. The unusual vitality of the plant carries every berry to perfect maturity—the last to ripen are as large as the first. Cooper is strongly staminate and can be grown alone and is an ideal mate of any of the pistillate or imperfect varieties, due to the long blooming season. Price, 100, \$1.20; 500, \$4.50; 1000, \$8.00.

DR. BURRELL. (Per.) Midseason. The berries are large, delicious and beautifully formed. The surface of the berry is a deep glossy red. The meat is solid. If you are looking for a good dependable all-purpose variety you will make no mistake in planting Dr. Burrell. In manner of plant growth this variety closely resembles Senator Dunlap, but will produce more, bigger and better berries, ripening a few days earlier than Dunlap. Price, 100, \$1.00; 500, \$3.50; 1000, \$6.00.

GIBSON. (Per.) Medium early. Berries are large and regular in shape holding their size well to the end of the season. Color rich red. Flavor is neither sweet nor sour, but just right for canning. Extremely productive, in fact we know of no variety that will produce more quarts of berries per acre than the Gibson. It makes a strong vigorous plant that withstands adverse conditions admirably. This variety seems to embody every requirement necessary for a profitable berry. We recommend it and know you will not make any mistake in planting Gibson. Price, 100, \$1.00; 500, \$3.50; 1000, \$6.00.

HARVEST KING. (Per.) Mid-Early. Thorough, careful tests have proved Harvest King one of the outstanding strawberry values today. Ripening just after the early Premier, it is a far better berry than most other medium early sorts.

An unusually heavy plant maker; it produces enormous crops of finest quality, deep red delicious berries, the kind that brings a premium on the market. For home canning you cannot beat its wonderful flavor and lasting color. A plant of remarkable vitality, resisting spring frosts, Harvest King comes through the most unfavorable conditions with a paying crop. It is a perfect flowering variety and produces a full crop when planted alone.

Do not fail to plant plenty of Harvest King this spring. It follows Premier with first quality fruit well into the season. Price, 100, \$1.30; 500, \$5.00; 1000, \$9.00.

PREMIER. (Per.) Early. Berries are large, beautifully formed, red through and through; flavor delicious. A splendid shipper. The deep heavy rooting system makes the plant a strong drought resister, and it is especially adapted to any soil or climate, giving you a big crop of fancy berries which will sell at highest prices. When extra fancy early fruit is wanted we advise this. Price, 100, \$1.30; 500, \$5.00; 1000, \$9.00.

SENATOR DUNLAP. (Per.) Midseason. The fruit is dark red with glossy finish, shading to a deep scarlet on the underside. The meat is a bright red all through and exceedingly juicy. It succeeds everywhere and with everybody—the beginner as well as with the veteran grower—but should not be allowed to mat too thickly. For a medium-sized, productive, early-to-midseason berry you need not hesitate to plant Dunlap. One of the best and most popular. Price, 100, \$1.10; 500, \$4.00; 1000, \$7.00.

MASTODON—Genuine Perfected. (Everbearing). The world's greatest everbearer because nothing like it was ever achieved before. Produces nearly 6000 quarts per acre during August, September, October and November. In size, quality, flavor and appearance Mastodon heads the list. Unlike other Everbearers, the plants of Mastodon are large, vigorous, heavily crowned and deep rooted. This explains their ability to produce enormous loads of fine fruit even under adverse conditions. Regardless of your past experience with Everbearing Strawberries we urge you to plant this wonderful New Everbearer this Spring. It will amaze you with the tremendous load of extra fine fruit produced by every plant. Price, 100, \$1.75; 500, \$7.50; 1000, \$14.00.

CAULIFLOWER

Vaughan's Extra Select Snowball, pkt., 25c; ¼ oz., \$1.00; ½ oz., \$1.75; oz., \$3.00; ¼ lb., \$11.00.

Vaughan's New Snowball

One of our Specialties. We know our strain is the equal of any that can be produced. We have tried nearly every other on the market and we have never yet come across anything superior to Vaughan's New Snowball. It is the result of years of careful selection by a most capable and painstaking gardener who grows the seed especially for us on the island of Amagar, near Copenhagen, Denmark, where growing conditions are ideal for the production of perfect seed heads. Vaughan's New Snowball is the best general purpose variety for either, spring or fall planting. Heads are usually 9 to 10 inches across, perfectly white, solid, deep and compact. Pkt., 25c; ¼ oz., 70c; ½ oz., \$1.25; oz., \$2.25; ¼ lb., \$8.00; lb., \$30.00.

Vaughan's Earliest Dwarf Erfurt

Combines all pedigree points—earliness, purity of color, dwarf habit and fine grain. A profitable market garden sort. Pkt., 25c; ¼ oz., 65c; ½ oz., \$1.15; oz., \$2.00; ¼ lb., \$7.50; lb., \$27.00.

Dry Weather

For dry climate and dry seasons. Very sure heading and second early. Heads larger than Snowball and snow white.

Pkt., 25c; ¼ oz., 70c; ½ oz., \$1.25; oz., \$2.25; ¼ lb., \$8.00; lb., \$30.00.

Danish Snowball

This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proven itself reliable. Pkt., 25c; ¼ oz., 65c; oz., \$2.00; ¼ lb., \$7.00; lb., \$26.00.

Vaughan's High Grade Fertilizers

Prices for Florists F.O.B. New York.

The Yield and Quality of Vegetation Depend Upon Continuous and Rapid Growth

It has been demonstrated that crops of the best quality are those which are grown under conditions which permit of a continuous and rapid development. Plant food of the right amount and kind controls the yield and quality of prod-

ucts more than any other condition, and it is neither wise nor economical to depend upon the natural condition of the soil or the application of stable manure only for profitable crops.

Vaughan's Lawn and Garden Fertilizer (5-8-6)

Five per cent nitrogen; eight per cent phosphoric acid; six per cent potash. This mixture differs from our balanced plant ration, in that it is composed of plant foods in mineral form. The advantages of mineral fertilizer include the absence of objectionable odor, and the quality of being more readily soluble, which makes it more quickly effective upon plant growth.

For a new lawn, broadcast evenly 30 to 40 lbs. per 1000 square feet. To stimulate an old lawn, apply 20 to 30 lbs. per 1000 square feet, during the growing season, wash it down immediately with the hose to prevent burning. For flowers and vegetables, use from 4 to 6 lbs. per 100 square feet. Price, 100 lbs., \$3.50; 500 lbs., \$15.00; 1000 lbs., \$27.00; 2000 lbs., \$52.00.

Bone, Blood and Potash Fertilizer Mixture (Analysis) 5-8-7

This is our best brand of concentrated manure; excellent for mixing into potting soil or as a top dressing. It is a money-maker. For potting soil, use about 20 pounds to a cubic yard of soil, and for the dressing scatter it about as thick as lawn grass seed is sown, after loosening the surface of the soil. It is excellent for Carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch potful to a barrel of water. Price, 100 lbs., \$3.50; 500 lbs., \$15.00; 1000 lbs., \$27.00; 2000 lbs., \$52.00.

Bone and Blood.

For Cabbage, Cauliflower, Corn and other crops of big surface growth; not desirable for root crops except it is used in connection with potash, salts, or hardwood ashes, and if so used it is especially adapted to fruits, if applied early. For garden crops use 500 lbs. per acre. Price, 100 lbs., \$3.35; 500 lbs., \$14.50; 1000 lbs., \$26.50; 2000 lbs., \$50.00.

Our "Rose Grower" Bone has been slightly steamed to soften it and is thus quicker in its action. Analysis: Nitrogen, 3.70 per cent; total phosphoric acid, 20 per cent. Price, 25 lbs., \$1.40; 50 lbs., \$2.25; 100 lbs., \$3.50; 500 lbs., \$15.00; 1000 lbs., \$27.00; 2000 lbs., \$52.00.

Gladiolus Display Box Holding 500 Bulbs, 50 each of 10 Named Varieties

F. O. B. CHICAGO OR NEW YORK

Sell Gladiolus Bulbs in Spring

VAUGHAN'S RAINBOW GLADIOLI are famous. For years they have been nationally advertised. You have only to put this box on your counter to sell out quickly.

We use first size bulbs, the size which sells best over the counter. The 10 named varieties (50 each) include such world-beaters as **Minuet**, **W. H. Phipps**, **Mrs. Leon Douglas**, **Dr. Bennett**, **Golden Measure**—none better known. The price to you is \$10.00 for the box and 500 bulbs of 10 named varieties. You retail them for 50 cents a dozen, or more, because the selection is worth more, doubling your money. Each variety is packed 50 in a bag labeled with its name. You empty one bag into a compartment, and refill in the same manner when it is empty. This prevents mixtures and loss of bulbs. Name labels are provided to paste on the compartments. This box keeps the bulbs in the open air, thus preventing bacterial rot which comes when they are sealed in cartons. The named varieties are kept apart without mixing, which adds greatly to their value.

Caladiums

Vaughan's Special Fancy-Leaved

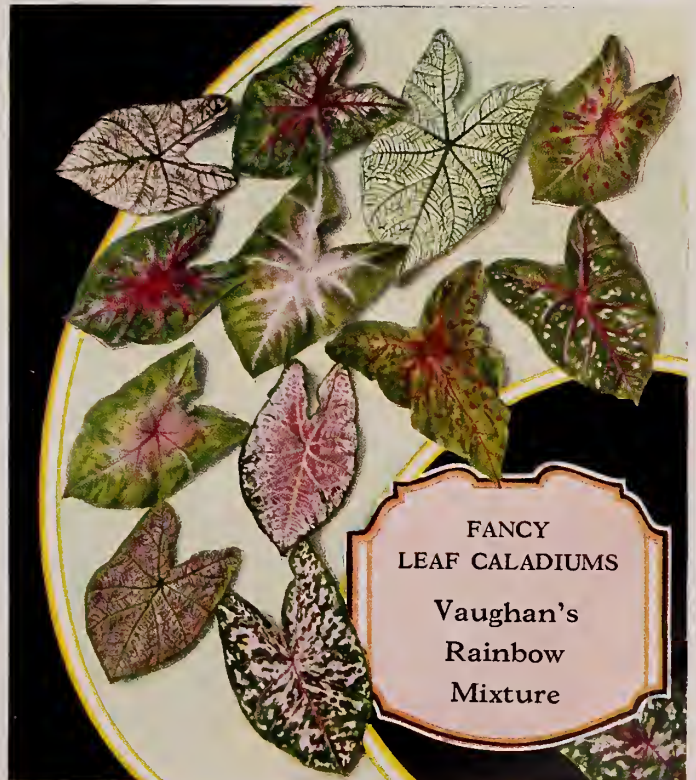

Rich ornamental leaves, handsomer than begonias, delicately marbled, veined and striped in every describable shade of pink, red, green and white. Hardly any two leaves just alike and attracting attention everywhere. Used as pot plants for living room, sun porch or store, for shady window boxes and for outdoor bedding in shady positions sheltered from wind.

Start in sand in January or February and shift to pots before leaves unfold.

Our Rainbow mixture is composed of choice dormant bulbs carefully graded in the finest varieties. The Named sorts and Unusual and Rare Varieties are probably the best to be had. All bulbs are good size, clean, healthy and we have discarded old varieties which do not have rich coloring. Shipments start in January and bulbs are available until late March.

We can supply Caladiums in named varieties, quotations furnished upon request. Our picture shows the following varieties; commencing in top left hand corner, 1st row: Lord Derby, Jessie M. Thayer, Candidum, Jennie Perkins. 2nd row: Charmeuse, Fascination, D. M. Cook, Heralen. 3rd row: Fred Bause, Mrs. W. B. Haldemann. 4th row: Our Red, Macahyda.
