THIS List is offered in response to many requests for a "price list of novelties" suitable for gifts, favors, whist and euchre prizes, etc. It is necessarily limited to low priced articles, the styles of which are so varied and constantly changing that anything like accurate description would be useless.

Our stock of higher priced goods is most extensive and complete, but the more extended space required for adequate enumeration of these goods would enlarge this little book to the scale of a catalogue, which it is in no sense intended to be.
