We herewith hand you list of the most desirable seeds of California and Japan, and solicit your **early** orders, to enable us to collect at the proper time. Many of these seeds keep their germinating power but a short time; hence we keep but a small quantity in stock. While it is our constant aim to send out none but the best and purest seeds, we give no warranty, expressed or implied, as to their successful growing once they have left our hands, and cannot accept any responsibility in case of failure. $\frac{1}{2}$ lb. only, at 1 lb. rates.

LIST OF SEEDS.
