## DESCRIPTION AND ADVANTAGES.

This Mitre Box differs from all others in many particulars, and is adapted to the use of  
**Cabinet and Frame Makers, and Joiners in General.**

1st. A longer stroke of the saw is obtained, severing the molding much faster.

2d. Will set to a greater variety of angles. M, a shell pattern, is cut by tilting the saw guide (J) to the right or left by means of slot P, securing it by thumb screw. A cornice molding (L), 7 inches wide, is cut by laying flat on bed plate from O, at right angles, to 45 degrees, and is adjustable to various other angles while in that position.

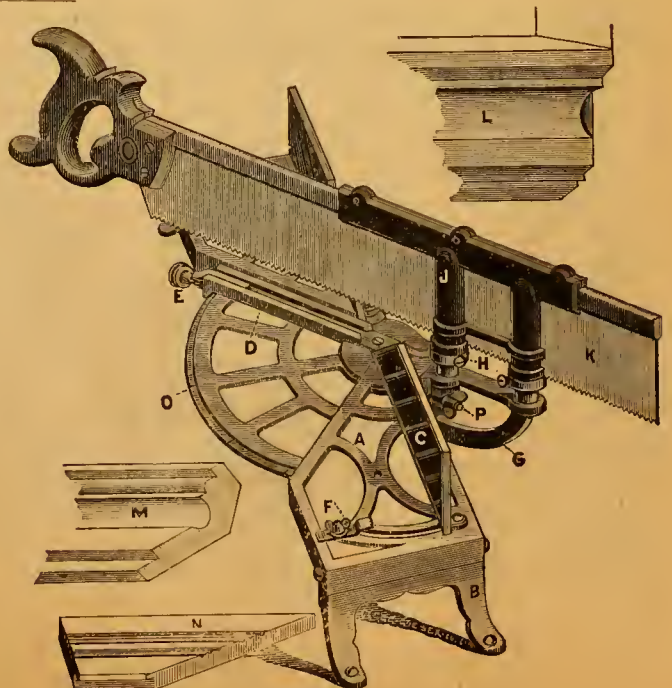

3d. The back rest (C) is movable, which serves to cut sharp angles up to 75 degrees (see N). F is a toothed clamp to hold molding while sawing.

4th. The angle is shifted with D, and secured by spring stop E in slots O.

5th. The saw guide travels between the slotted uprights and is held rigid by clamps (J J) which have three set screws at the top, and two steel spring collars at the base. They serve to take up all wear. The collar (H) is for regulating depth of cut; also for preventing saw touching the iron bed plate.

6th. This is the only Mitre Box that can be taken apart and put together again in a few minutes, and packed in a box 3x7x26 inches, furnished with each machine. Weight complete, 25 lbs.

Price, with 4x22 Saw, warranted of the best steel, filed and set..... \$9 50

**20x28 IMPORTED OLEOGRAPHS.**

Although not so large as the 24x30 Standard Chromos, many in the trade prefer the 20x28 Imported Oleographs because they are not so common, being handled by the better class of trade. Their beauty and the low prices are rapidly bringing them into public favor.

We are constantly adding *New Goods* to the line, and for want of space cannot list them. We carry a large assortment.

# BASSETT'S Perfection Gold Paint

—FOR—  
ORNAMENTING, GILDING AND DECORATING PURPOSES.

Put up in Boxes Containing One Bottle Liquid, One Bottle Bronze, a Brush, Spoon and Cup.

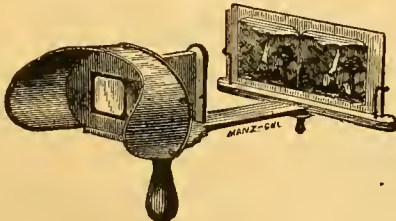

### Directions for Using.

Put a small quantity of the Gold Powder in a clean saucer, and add enough of the liquid to make the mixture a little more fluid than ordinary paint. Then stir the mixture thoroughly and it will be ready for use. Do not mix more than the quantity immediately required, as the powder will settle and the liquid dries rapidly. Use a camel's hair pencil.

*PERFECTION GOLD PAINT can be had in the following colors: Pale Gold, Rich Gold, Green Gold, Copper, Fire Crimson, Silver, Lemon, Orange, Blue, Green.*

of our own manufacture.

## F. W. Devoe & Co.'s Artists' Tube Colors

These Colors are universally recognized by Artists as the best American Colors manufactured, and equal in every respect to any foreign make. They are prepared from the very best pigments, either foreign or our own make, and thoroughly ground in the purest oil. Objection is frequently made to the thin condition of many Tube Paints ground by foreign makers. By the F. W. DEVOE & Co.'s system they secure that firm consistency and firmness of texture required by Artists.

Testimonials from many of the most prominent Artists in the United States, who are using our Tube Colors and Supplies will be sent on request.

## F. W. Devoe & Co.'s Artists' Canvas

Our line of Canvas embraces several kinds as follows:—**Single Prime**, having a slight tooth. **Smooth**, having a perfectly smooth surface, and very popular for general landscape and flower painting. **Roman**, having a large open grain, very popular for portrait painting. **Twilled**, as indicated by the name, in which the grain runs diagonally and is preferred by many Artists for landscape and portrait painting.

We also manufacture a line of **Sketching Canvas**, in both smooth and twilled surfaces, which is used by many teachers and amateurs for practice work.

## F. W. Devoe & Co.'s Academy Boards

These Boards are made with either a smooth or a stippled surface and in four sizes as follows: 6 by 9, 9 by 12, 12 by 18, 18 by 24. They are used very largely for landscape and flower painting by beginners and amateurs, being cheaper in price than mounted Canvas.

## F. W. Devoe & Co.'s Artists' Brushes

Every style of Brush required by the Artist is found in our stock. We ask especial attention to our Artists' Red Sable, Russian Sable, Siberian, Badger Hair, Fine Bristle, Camels' Hair, Fitch Hair, etc., etc. Our catalogue fully illustrates these goods.

We carry at all times a large and complete stock of the following goods:

F. W. Devoe & Co.'s Artists' Oils, Varnishes, Mediums, etc.

F. W. Devoe & Co.'s Japanned Tin Boxes, empty or filled, (styles fully illustrated in our Catalogue).

F. W. Devoe & Co.'s Metallic Lustre Paints.

F. W. Devoe & Co.'s Gold Paint.

F. W. Devoe & Co.'s "Peerless" Metallic Paint, in 12 Shades.

F. W. Devoe & Co.'s Sketch Blocks and Books.

Also, Easels, Pallettes, Palette Knives, Water Colors in Cake and Pans, Stamps, Rubbers, Drawing Papers, etc.

We do not attempt to keep a stock of Fancy and Decorative Articles or Studies, confining ourselves to the legitimate line of **Artists' Supplies**, according to our ILLUSTRATED CATALOGUE, which we will send to responsible parties in the trade on request.

We solicit the orders of the trade, which will always have prompt and careful attention, with *prices at lowest figures and quality of goods always the best.*
