Burnett's Special Lawn Grass Mixture

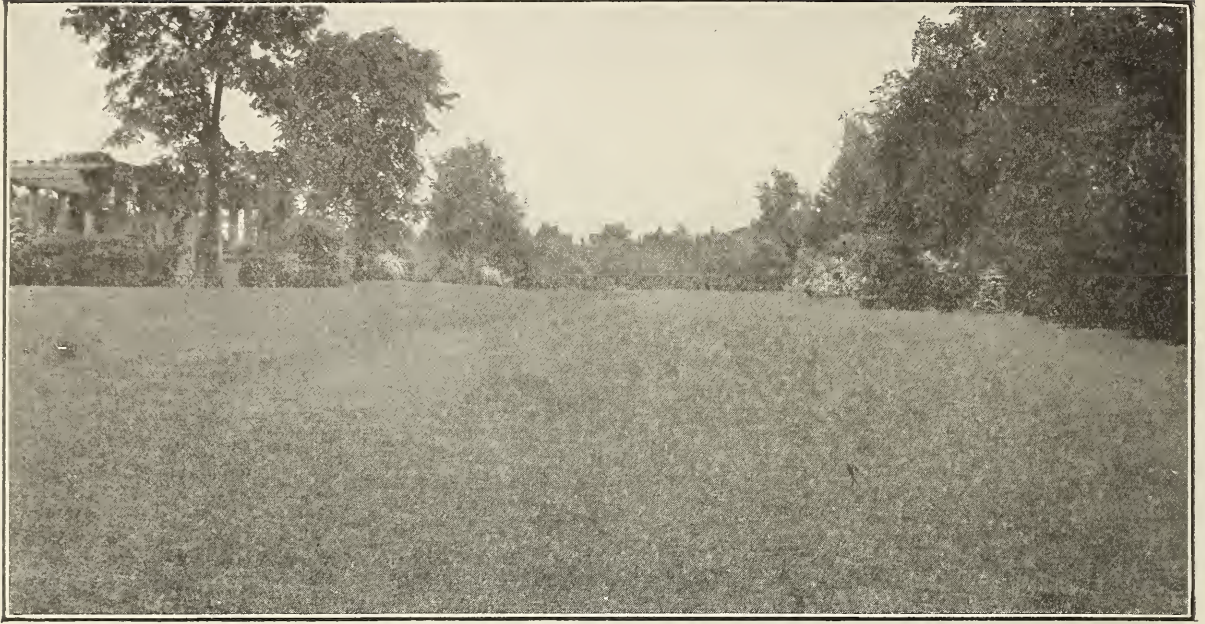

The above mixture is made from our own formula, and composed of grasses specially adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire Summer and Fall. In making up this high grade mixture we are careful to use only the very finest quality of all the most desirable dwarf evergreen, *re-cleaned* grasses, free from chaff and weeds, which thrive well on any soil, thus ensuring a beautiful and permanent lawn.

To obtain good results Lawn Grass Seed should be sown as soon as the ground can be prepared in early Spring. It may also be sown in the Fall with good results. One quart will sow 15 x 20 feet (300 square feet); 1 bushel, 100 x 108 feet (10,800 square feet); 4 to 5 bushels to the acre.

Price: Qt. 30c., pk. \$2.25, bushel (20 lbs.) \$8.00

A perfect and enduring lawn, one of velvety appearance with closely interwoven, firm, deep and elastic turf, is only created by sowing a composition of the various kinds of grass seeds suited to the conditions and the climate. Several varieties are needed, that the lawn may be evergreen during all seasons and the seeds must be sown liberally (at the rate of from four to five bushels per acre), not only that a lawn may be produced quickly, but because the kinds of grasses suitable for perfect lawns are fine-leaved and should take entire possession of the ground promptly, thus checking the development of weeds, the seeds of which are in all soils. Good, rich, deeply worked soil, either of a friable texture or thoroughly drained, is as necessary for the production of a perfect lawn as for garden crops. Early and frequent mowing and rolling, as well as the liberal application of water, which should be applied in the early morning or late afternoon during dry seasons, is one of the secrets of maintaining beautiful green turf from early Spring to late Fall.

For Permanent Pasture Mixtures, Separate Grasses, Clovers, Etc., see pages 36 and 37

Burnett's "Killarney" Mixture

The above Lawn Grass Mixture "Killarney" is composed of a combination of the very finest European grasses and fescues, the highest grades possible to procure, and specially adapted for this climate. This mixture weighs 25 lbs. to the measured bushel, and is composed of all solid, re-cleaned seeds of the highest germination. Therefore, owners of large estates requiring a permanent sod and everlasting lawn should by all means use this high-grade mixture. We can recommend "Killarney Mixture," if the ground is properly prepared, to produce a turf of velvet, equal to the most famous Lawns in Europe. Give it a trial.

"Sow Killarney and walk on Velvet." Qt. 40c., pk., \$3.00, bushel (25 lbs.) \$11.00

Burnett's "Bridle Path" Mixture For Drives and Walks

The above mixture is adapted for a strong, hard-wearing turf of the finest texture, and is composed of some of the hardiest grasses, which will produce a close, thick sod and stand hard usage under all conditions. For drives and walks or any place where a strong turf is necessary, this mixture cannot be equaled. Qt. 30c., pk. \$2.25, bushel (20 lbs.) \$8.00.

Burnett's "Central Park" Lawn Grass

Burnett's "Central Park" Lawn Grass

This well-known mixture contains a large proportion of permanent grasses that grow quickly, producing a rich, green sward in about four weeks from time of sowing. Central Park is very hardy and has always given entire satisfaction in any location wherever sown. One quart will sow 15 x 20 feet; 1 bushel, 100 x 108 feet; 4 to 5 bushels to the acre. Qt. 30c., pk. \$2.00, bush. (20 lbs.) \$7.00.

BURNETT'S "SHADY PLACE" LAWN GRASS

Burnett's "Shady Place" Lawn Grass

When a lawn is much shaded, either in whole or in part, the shaded portions should be sown with Burnett's "Shady Place" Lawn Grass Mixture, which is a combination of fine, dwarf-growing evergreen varieties, which, in their wild or natural state, are to be found growing in the woods or other sheltered or shady places. Under or in the immediate neighborhood of large trees fertilizers should be applied liberally and frequently, for the trees absorb the fertilizer and impoverish the ground. Ground much shaded is very frequently sour, and if the drainage is defective it is apt to be covered with moss. In such cases an application of lime or wood ashes raked in will sweeten the soil, but the moss should be first removed with a sharp rake. Qt. 50c., pk. \$3.50, bush. (20 lbs.) \$12.00.

BURNETT'S "BANK and TERRACE" LAWN GRASS

Burnett's "Bank and Terrace" Lawn Grass

On sloping banks it is often necessary to use sod, as heavy rains wash the soil off before the grass seed has time to germinate. It is sometimes even necessary, in sodding very steep banks, to use pins eight or ten inches in length to pin the sods in place, to prevent them from being washed down by excessive rains before the grass roots have had time to fasten in the soil. The Terrace mixture which we offer is composed of deep-rooting grasses which, if once established, will hold the soil and prevent washing, and we advise liberal fertilizing and seeding so that the grasses may be quickly established. Qt. 40c., pk. \$2.75, bush. (20 lbs.) \$10.00.

For Permanent Pasture Mixtures, Separate Grasses, Clovers, Etc., see pages 36 and 37

Grasses for Golf Courses, Etc.

We have made a specialty of Fine Grass Seed Mixtures for many years, suitable for Putting Greens and Fair Greens, and are direct importers of the various European grasses and handle largely the domestic varieties necessary for the formation of correct formulas to cope successfully with the many different conditions of soil, location and climate.

Many clubs have experimented with their greens until they have been successful in the combination of a mixture that gives perfect satisfaction in their particular location. In such instances, we will be glad to offer the necessary grasses separate or make a mixture to the required formula.

Richards' Worm Powder (Imported)

A new and valuable discovery for instantly removing worms from lawns, bowling greens, putting greens, tennis courts and golf links, etc.

Non-poisonous to animal and bird life.

We take pleasure in introducing this new worm killer which is now being used on many of the most famous European golf courses. This powder has been thoroughly tested against other similar preparations and found superior to anything on the market.

Directions for Use.

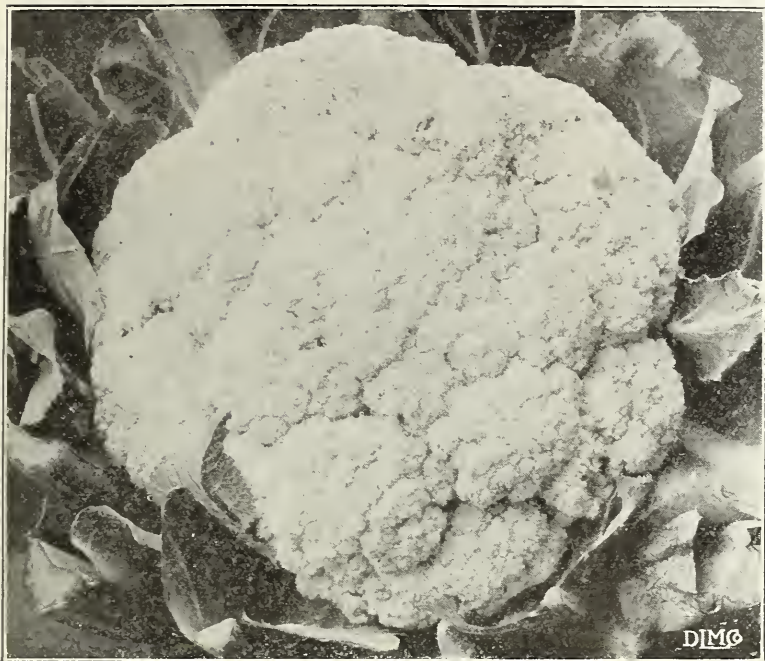

Use about $\frac{1}{2}$ lb. to the square yard, distributing the powder over the grass as evenly as possible. The next step is to immediately apply the water to wash in the powder.

Plenty of water should be used, especially during dry weather, as worms are then deeper in the soil.

The use of this worm killer will diminish labor considerably, as far less brushing and rolling will be required to maintain an even, clean surface on the grass.

Price: Original bags of 112 lbs., each \$15.00.

Cauliflower, Snowball

CAULIFLOWER

Snowball, "Burnett Selected Strain"

No other Cauliflower at the present time is so widely known as Snowball, having supplanted all other sorts for early and late planting. For forcing under glass and growing in frames for early use it has proved superior to all. Its dwarf, compact habit and short outer leaves allow it to be planted closer in the same space of ground than other varieties. Heads pure snow white of the finest quality. Our strain of Snowball is specially grown for us in *Denmark* for our private estate trade and can be recommended with confidence. Pkt. 25c., $\frac{1}{4}$ oz. \$2.00, oz. \$6.00.

CARROT

Improved Long Red Surrey

The longest Carrot offered, especially suited for deep soils. Our stock has been selected with the greatest care, and is above comparison with that frequently offered under the Surrey Carrot. The ideal variety for exhibition purposes. (Imported seed). Pkt. 15c., oz. 50c., $\frac{1}{4}$ lb. \$1.50.

Cabbage, Burnett's Baby-Head

Carrot, Improved Long Red Surrey

CARROT

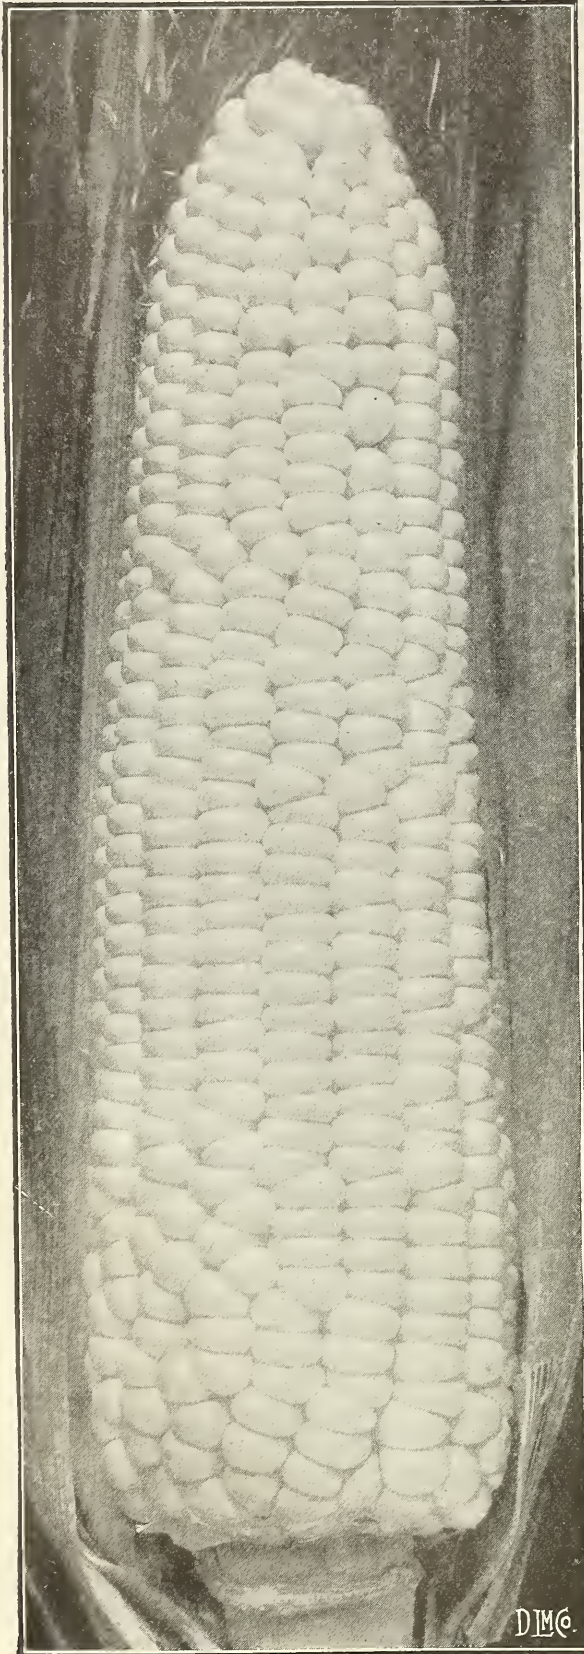

Paris Exhibition Forcing

This Carrot is an improved strain of the French type. The roots are small, globular in shape, fine grained and very delicate. Color bright orange; tops small. For forcing or growing in frames this variety will be found the most desirable. Pkt. 10c., oz. 35c., $\frac{1}{4}$ lb. \$1.25, lb. \$4.00.

CABBAGE

Burnett's Baby-Head

A new Cabbage of merit which forms small, perfectly round heads, of unusual solidity. The outer leaves are very few and small, which enables it to be planted about 8 inches apart, making it a desirable Cabbage for planting in frames and early outdoor cultivation. Baby-Head is an ideal Cabbage where space is limited and the fact that it can be brought to maturity about 6 weeks after planting, makes it a desirable acquisition to the vegetable garden. Pkt. 25c., oz. \$1.50.

Burnett's Improved Evergreen Corn

The Four Leading Sweet Corns

SWEET CORN

Burnett's Improved Evergreen

This new strain of the well-known Stowell's Evergreen Sweet Corn has been derived by crossing Evergreen with an early variety, which produces a longer and narrower kernel with from 18 to 20 rows to the ear. The field from which this stock seed was selected yielded 175 bushels per acre, every stalk producing two or more ears. After careful comparison in our trials with all the leading varieties, we have found Improved Evergreen to be the best variety for general purposes. Pt. 40c., qt. 75c., pk. \$5.00.

SWEET CORN

Early Mayflower

This is the earliest Sweet Corn now on the market, being fully 5 days earlier than White Cob Cory. Mayflower is a ten-rowed variety, with ears pure white and very sweet. The cob is large and even in shape. Superior to all early varieties previously offered. Pt. 40c., qt. 75c., pk. \$5.00.

SWEET CORN

Burnett's Golden Bantam

This Sweet Corn is universally acknowledged to be the earliest, sweetest and most delicious Corn grown. It is of dwarf habit; ears medium, and of a rich golden yellow color. Golden Bantam is an ideal Corn for successive planting. The stock we offer has been selected with the greatest care. Pt. 40c., qt. 75c., pk. \$5.00.

SWEET CORN

Metropolitan Improved

For earliness, productiveness and flavor, Metropolitan is one of the leading Sweet Corns. The ears are large and handsome, measuring from 8 to 10 inches; grains pure white, deep, sweet and tender. Pt. 40c., qt. 70c., pk. \$4.50.

NEW LETTUCE

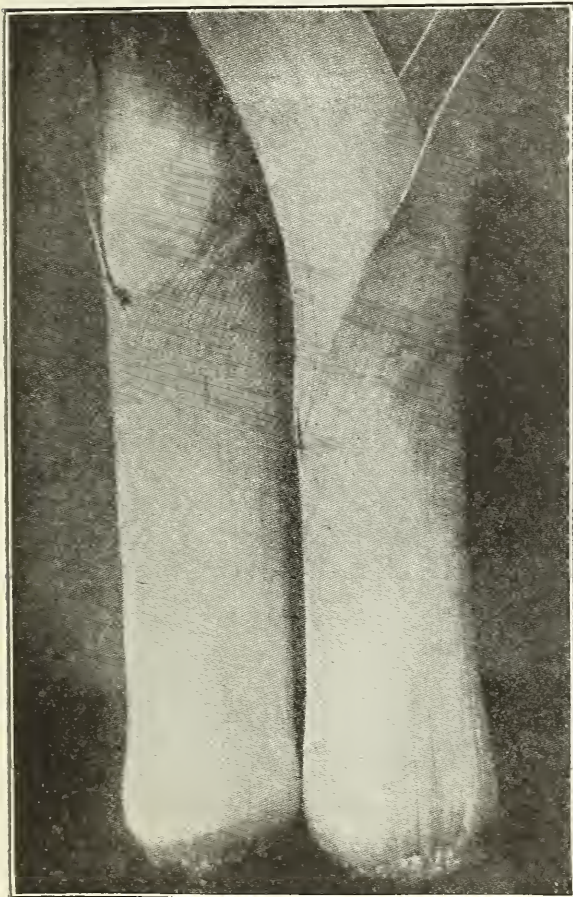

(Romaine or Cos.)
"Silver King"

This type of Lettuce, which is becoming more popular every year, is well worthy of consideration. The seed we offer is selected with the utmost care by one of the leading houses in Europe, who claims it to be the largest of the Romaine strain. Perfect form, self-folding, very crisp and tender, a solid heart of crystal white.

Pkt. 20c., oz. 50c.

"Silver King" Lettuce

Kelway's Prodigy Leek

LEEK

Kelway's Prodigy

The finest variety for exhibition; very hardy and of fine flavor; this has been tried side by side with all the advertised "best" sorts, and has proved the finest of all, and in Scotland the hardest of any; specimens have been grown weighing upwards of 4 lbs. each. All exhibitors should give Prodigy a trial.

Pkt. 20c., oz. 60c., $\frac{1}{4}$ lb. \$2.00.

MUSK MELON

Burnett's Honey-Drop (Improved)

For earliness and delicious flavor this splendid Melon is without a rival; it is unquestionably the sweetest and best. It is of beautiful form, good size and very productive. The flesh is very thick, sweet and melting; and of a deep orange color.

Pkt. 15c., oz. 50c., $\frac{1}{4}$ lb. \$1.50.

NEW MUSK MELON

Burnett's "Discovery"

We have purchased from one of the leading gardeners in the country the entire stock of this grand New Musk melon "Discovery."

Although a cross from Emerald Gem it is entirely distinct, of a rich flavor, finely netted; color deep salmon flesh, and just an ideal size for table use.

This Melon is excellent for forcing or outdoor planting. A trial will convince the most skeptical of its great value.

Pkt. 25c., 5 pkts. \$1.00.

Burnett's "Discovery" Musk Melon

Burnett Bros.' Novelties and Specialties in Vegetable Seeds

LETTUCE

Burnett's Balmoral

In recommending this grand, new, early head Lettuce, we can safely say that for forcing or outside planting it is unequaled. The heads are of medium size and very solid; outer leaves light green with golden yellow heart. It is crisp, tender, and of perfect quality. Give it a trial and prove its excellence. Pkt. 10c., oz., 30c., $\frac{1}{4}$ lb. \$1.00.

MUSKMELON

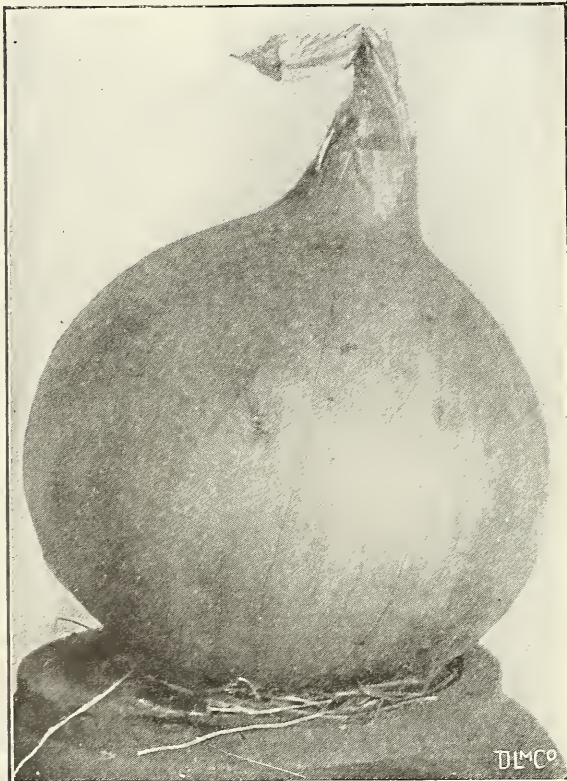

Emerald Gem—Selected Strain

Emerald Gem has proven to be the most valuable for general use. For outside culture and for forcing under glass it has few equals. The flesh is very deep, ripening clear to the rind, of a beautiful salmon color, rich and delicious. It is very early, prolific and long bearing; fruit small, smooth skin, color deep emerald green, with light stripes. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50.

ONION

Burnett's "Enormous"

In introducing this new variety we have confidence that it is the best ever offered. Its enormous size and superb quality will no doubt make it a decided acquisition to the exhibitor. The skin is pale, straw-colored; flesh snow white, of firm substance and delicate flavor; an excellent cropper. Pkt. 25c., oz. \$1.00.

Burnett's "Enormous" Onion

Balmoral Lettuce

ONION

Ailsa Craig (Selected Stock)

For exhibition Ailsa Craig is universally recognized as the ideal Onion. The skin is of a pale straw color; flesh white, very mild and quality superb. The bulbs, which are oval-shaped, often attain the phenomenal size of from 3 to 4 lbs., grown exactly under same conditions necessary to the cultivation of other sorts. Pkt. 25c., oz. \$1.00, $\frac{1}{4}$ lb. \$3.50.

NEW ONION

Gigantic Gibraltar

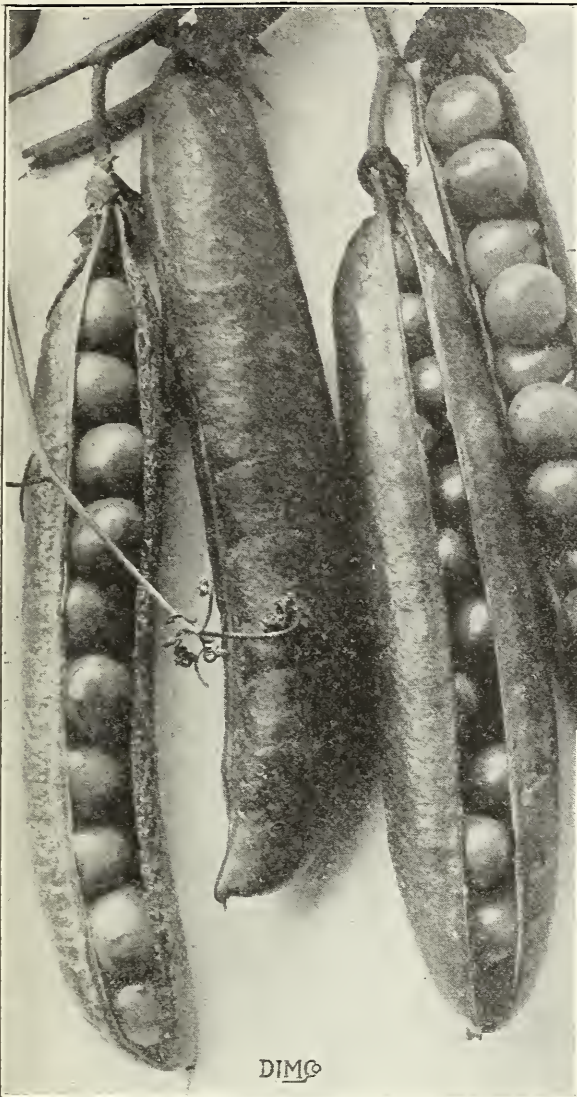

The largest Onion yet introduced; while being similar in appearance to Prizetaker, it is much lighter in color and very much larger in size. During recent tests of all large Onions, Gigantic Gibraltar was far ahead of any other variety as a weight producer. The flavor is mild and delicious and will, when properly harvested and kept in a dry, airy place, keep until Spring. Pkt. 25c., oz. \$1.00.

NEW PARSLEY

Burnett's Emerald Isle

This Parsley is of a beautiful dark green color and more densely curled than the older sorts. The plant is dwarf and very compact, making it most desirable for planting indoors, or for a neat border in the vegetable garden. Statistics received last season show that Emerald Isle, planted at the same time and under the same conditions, germinated quicker than any other variety. Pkt. 10c., oz. 50c., $\frac{1}{4}$ lb. \$1.50.

Pea, The V. C.

PEA

The V. C.

The Largest-podded Pea in Cultivation Sutton's Super-Pea, The V. C.

The pods of this truly wonderful Pea measure from 8 to 9 inches; filled with ten or more luscious peas of the most delicious flavor. The haulm is very sturdy, growing to a height of 5 to 6 ft. Of handsome appearance. This is a second early variety and will prove indispensable for exhibitors. Pt. \$1.50, qt. \$2.75.

PEA

Admiral Beatty

This grand new Pea is a medium early variety growing to a height of about 4 ft. It is a remarkable cropper and bears in profusion large pods, each containing 8 to 10 peas of delicious flavor. Pt. \$1.00, qt. \$1.75.

PEA

Burnett's Selected Gladstone

The strong constitution enables the plant to remain healthy for a long time during drought, and there is no more reliable late Pea. Pods well filled and fit to gather at a period of the year when Peas are specially prized. Enormous cropper. Height 3 to 4 feet. Pt. 60c., qt. \$1.00, pk. \$7.00.

Spinach, King of Denmark

PEPPER

Burnett's "Monarch"

The Monarch of all Peppers. An extremely large and handsome Pepper, of a bright scarlet color; flesh thick, very mild and remarkably sweet, without the least trace of fieriness. This Pepper is much larger, more uniform in shape, and superior in quality to any now on the market; an ideal variety for exhibition. Pkt. 25c., oz. \$1.00.

SPINACH

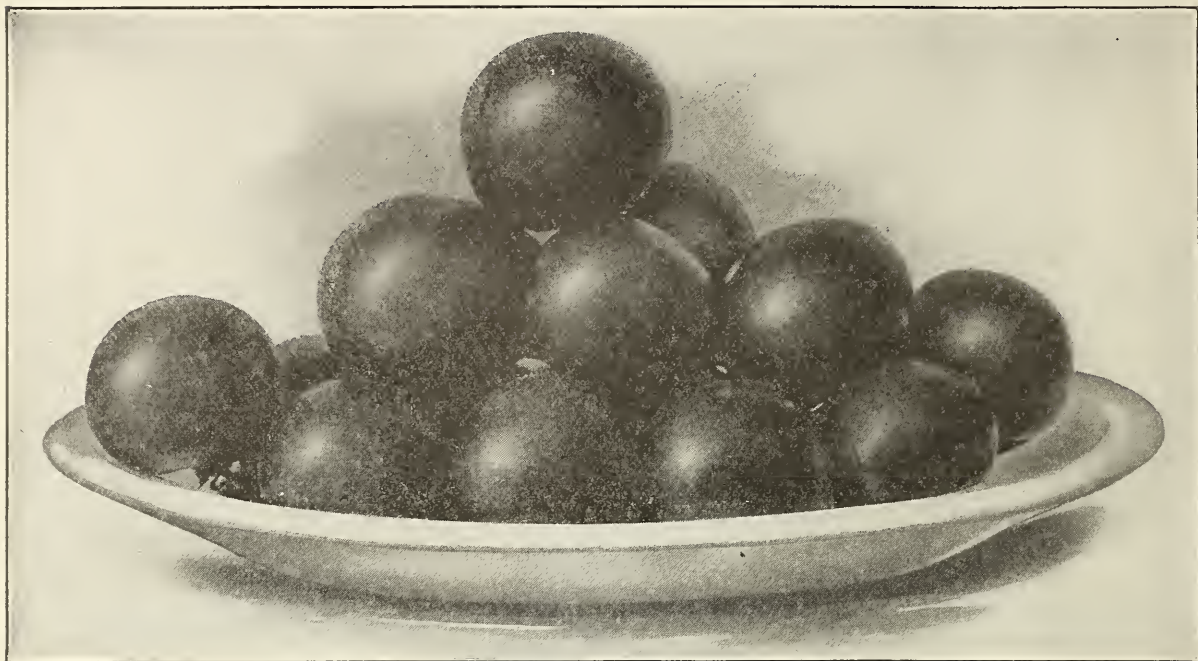

King of Denmark

This new, long standing Spinach, forms large, compact tufts, the leaves are slightly crumpled, extra large, and broad, and of a glossy, dark green color. Stands hot weather better than any other variety, being very slow to run to seed. Pkt. 10c., oz. 30c., $\frac{1}{4}$ lb. 75c., lb. \$2.00.

Note.—The seed of the above three Grand Peas is imported by us, direct from the growers in England.—Burnett Bros.

"Westchester Pryde" Tomato

New Tomato "Westchester Pryde"

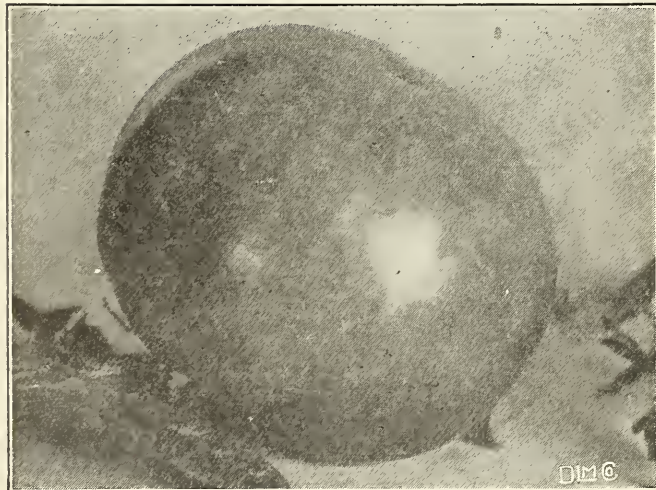

For Forcing or Outdoor Growing

In introducing this grand New Tomato we can confidently say it is one of the finest forcing varieties ever offered. The seed we offer has been saved by the grower from perfect fruit only. Westchester Pryde is a cross between Lester's Prolific and Carter's Sunrise, and is of medium size, fruit uniform and perfect in shape, color beautiful rich red, flavor delicious.

Westchester Pryde, while we claim for it to be a forcing variety, has been grown outside the past season with remarkable success, bearing 40 lbs. of fruit to the plant. Trusses from 12 to 24 to the plant and contain from 15 to 40 fruits to each truss, weighing on an average 4 fruits to a pound. We have had this variety on exhibition in our show window the past season and same was admired by all who saw it. Do not fail to grow Westchester Pryde this season.

Pkt. 25c., 5 pkts. \$1.00.

Burnett's "Liberty" Tomato

Burnett's "Liberty" Tomato

For Main Crop and Exhibition Purposes "Liberty" has No Equal

Liberty Tomato, introduced by us some years ago, still holds undisputed reputation as the best main crop and exhibition variety. Liberty was largely grown last season by many competent private gardeners and was exhibited at all the principal exhibitions, where it was awarded first prize in nearly every instance. We claim for Liberty the distinction of being the finest Tomato on the market today. Liberty is an exceedingly heavy cropper and bears abundantly until very late in the season. The fruit is of a glossy red color, large, perfectly round, uniform in shape, very solid, and meaty, of superb quality with few seeds and borne in clusters of from ten to twelve perfect fruits. All exhibitors and growers should not fail to give Liberty a trial.

MUSKMELON

One ounce will plant 75 hills.

Muskmelons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, in hills 6 feet apart each way. The hills should be dug about two feet square, 18 inches deep, and half filled with rotted manure. Sow 6 to 12 seeds to a hill. When up, and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground; pinch the ends of the growing shoots to induce early fruiting. A few hills for early use may be had by sowing the seed out-of-doors under hand frames.

Burnett's Extra Early
Market Pea

PEAS

One quart will plant about 100 feet of drill.

Peas do best in a light, rich soil; for private use sow in double rows 6 to 8 inches apart, the rows 2 to 4 feet apart, the tall ones requiring brush. Commence sowing the extra early varieties as soon as the ground can be worked in March; continue for a succession every two weeks until June. A good crop can be secured by sowing the extra early sorts in August for Fall use. The wrinkled varieties are not as hardy as the small round sorts, and if planted early should have a dry soil, or they are liable to rot in the ground; they are, however, the sweetest and best flavored.

Early Peas

Alaska. The earliest round blue Pea; very productive. 2½ feet. Pt. 35c., qt. 60c., pk. \$4.00.

American Wonder. Early and productive. 1 foot. Pt. 40c., qt. 70c., pk. \$5.00.

Burnett's Extra Early Market. This Pea is unequaled for early use or general planting. Pods are large and well filled with round, smooth peas of a delicious flavor. Height 2½ feet. Pt. 40c., qt. 70c., pk. \$5.00.

Carter's Daisy. Haulms about 2 feet, medium green, with a distinct curly appearance when young; pods very large and pointed, borne abundantly and contain 9 or 10 sweet peas. Pt. 60c., qt. \$1.00, pk. \$7.00.

Duke of York. Very large, long, full pods; flavor delicious. 3 feet. Pt. 40c., qt. 75c., pk. \$5.50.

English Wonder. One of the very best of the dwarf first early class. The crop is ready a few days after American Wonder. The pods are much darker and finer and of better color. The haulms and pods are a fine, deep green, the latter being crowded with 7 to 8 large peas, best color and flavor. Height about 18 inches. Pt. 60c., qt. \$1.00, pk. \$7.00.

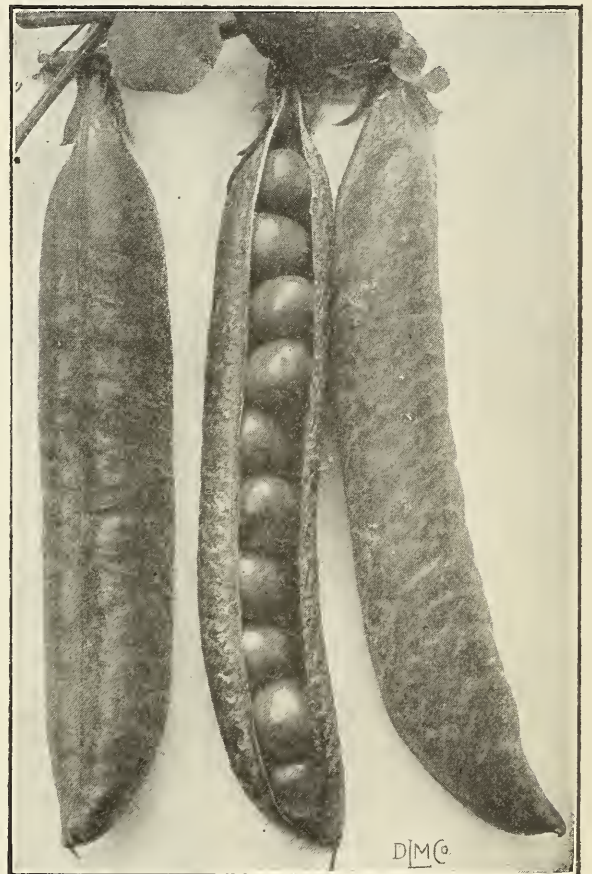

First-of-All. A select strain of extra early; very prolific. 2½ feet. Pt. 35c., qt. 60c., pk. \$4.00.

Gradus, or Prosperity. The most distinct early pea yet introduced. The pods are very large and well filled with large, wrinkled, deep green peas of finest quality. 3 feet. Pt. 50c., qt. 80c., pk. \$6.00.

Improved Daniel O'Rourke. A standard early sort; one of the best. 2½ feet. Pt. 35c., qt. 60c., pk. \$4.00.

Melting Marrow. Of dwarf habit, delicious flavor, superior to any of the tall late-growing varieties. 18 inches. Pt. 40c., qt. 70c., pk. \$5.00.

Gradus Pea

EARLY PEAS—Continued

Little Marvel. The vines are of dwarf, even growth, average 15 inches in height, and are heavily set with fine pods, frequently borne in pairs. The pods average $2\frac{1}{2}$ inches in length, are square at the bottom and well filled with 6 to 7 large, deep green Peas. All who desire a fine, early variety of the choicest quality of wrinkled peas will be delighted with Little Marvel. Pt. 45c., qt. 80c., pk. \$6.00.

Nott's Excelsior. Splendid early wrinkled sort; very prolific. $1\frac{1}{2}$ feet. Pt. 40c., qt. 75c., pk. \$5.50.

Peter Pan. One of the best dwarf earliest Peas offered. (For description see Novelties, page 9.) Pt. 50c., qt. 80c., pk. \$6.00.

Petit Pois. This is the small, delicate Pea so highly prized. It grows well here, producing an abundance of long, slender pods, well filled with extremely small Peas, which should be used when very young. $2\frac{1}{2}$ feet. Pt. 45c., qt. 80c., pk. \$6.00.

Richard Seddon. The haulms and pods are deep green, the latter crowded with 7 to 9 large Peas of the very best color and flavor; it is as early as American Wonder, but a far more abundant bearer. We can say with confidence that there is no better all-round early variety. Height $1\frac{1}{2}$ feet. Pt. 45c., qt. 80c., pk. \$6.00.

Sutton's Excelsior. The finest early, large-podded dwarf wrinkled Pea. $1\frac{1}{2}$ feet. Pt. 45c., qt. 80c., pk. \$6.00.

The Pilot. One of the earliest sorts. The vines are very robust and carry a heavy crop of large pods, well filled with richly flavored Peas. 3 feet. Pt. 50c., qt. 80c., pk. \$6.00.

Thomas Laxton. A very heavy cropper; the pods are large and contain 7 or 8 large-sized wrinkled Peas of the finest flavor. 3 feet. Pt. 45c., qt. 80c., pk. \$6.00.

Carter's Daisy Pea

Irish Cobbler Potato

POTATOES

Ten to twelve bushels will plant one acre. Seed Potatoes weigh 165 pounds to the barrel, net.

Our seed Potatoes are all Northern grown and free from disease. It is our aim to have true stock. Plant early in Spring, in rows about 3 feet apart, and the sets 1 foot apart in the rows, covering 4 inches deep. To insure a heavy crop the ground should be deeply dug and well manured before planting. If the potato-beetle makes its appearance, the vines should be sprayed with Paris green, using one tablespoonful to a pail of water.

Beauty of Hebron. A popular early sort; very productive and a remarkable good keeper.

Bovee. Very early and productive. The tubers grow close together and are very uniform; skin pink, or flesh-color, very smooth, and the quality all that could be desired in a first-class early Potato.

BURNETT BROS.' GRASS SEED MIXTURES

FOR HAY, MEADOWS AND PERMANENT PASTURES

Our Permanent Pasture, Hay and Meadow Mixtures are composed of varieties of grasses best adapted for producing an abundant and nutritious food supply for stock. Our formulas are arranged with great care and the mixtures are made to suit the exact location and condition of soil, etc., for which they are needed.

Nothing but the best re-cleaned seeds are used, consequently it does not take so large a quantity per acre as that generally used when poor quality mixtures are sown.

We recommend three bushels to one acre, which may be sown either in the Spring or Fall, with an additional ten pounds of Mixed Clovers sown early in the Spring. When ordering please state whether for high, dry, medium, wet or heavy soil.

- PERMANENT PASTURE MIXTURE.** For high and dry soil. Per bus. of 18 lbs.\$6.00
- PERMANENT PASTURE MIXTURE.** For wet soil. Per bus. of 18 lbs. 6.00
- PERMANENT PASTURE MIXTURE.** For medium soil. Per bus. of 15 lbs. 5.00
- MEADOW MIXTURE.** Made up specially for any soil or location. Per bus. of 18 lbs. 6.00
- BURNETT'S SPECIAL MIXTURE.** For rough ground, woodlands, etc. Per bus. of 14 lbs. 5.00

Note.—For Lawn Grass Mixtures, etc., see pages 1, 2, 3 and 4.

Scottish Chief Oats

SEED OATS

Sow Three Bushels to the Acre

SWEDISH IMPROVED SEED OATS

*Pedigreed and Selected Stock Imported by Us
Direct from Headquarters*

WASA WHITE. The highest record for yield of any white oat on good oatland. It yields a wonderfully heavy crop, the straw is of middle height, and very strong. The grain is short, plump, thin-skinned and pearly white. Time of ripening, medium early. Bus. (32 lbs.) \$3.50, 10 bus. or more \$3.00 per bus.

GOLDEN RAIN. The highest record for yield of any white oat on poor oatland. The grain is broad, very full, extremely thin-skinned and of a light yellow color. This plant has the most abundant shoots of all white oats. The yield is remarkably good and it is undoubtedly the earliest sort. The straw is strong and will stand up in the roughest weather. Bus. (32 lbs.) \$3.50, 10 bus. or more \$3.00 per bus.

OATS—Domestic Grown

Sold at standard weight of 32 lbs. to the bushel. Sow 3 bushels to the acre.

CLYDESDALE. The natural weight is 50 lbs. per measured bushel. It is a record breaker, both in the quantity of straw and yield of grain per acre. Bus. (32 lbs.) \$2.50; 10 bus. or more, \$2.25 per bus.

Prices on all Farm Seeds subject to change without notice.

Oats—Continued

SCOTTISH CHIEF. This splendid variety of recent introduction is one of the most productive and desirable varieties offered to the farmer. It makes a very strong growth of straw with immense heads well filled with large and heavy white grains. The yield is exceptionally large; 60 to 70 and even 100 bushels per acre have been harvested. Bus. (32 lbs.) \$3.00; 10 bus. or more, \$2.75 per bus.

STORM KING. This is a very early variety and an enormous cropper. It does well on any good farm land and is very profitable. The heads are large and well filled. The straw long, strong and stands well. Bus. (32 lbs.) \$2.50; 10 bus. or more, \$2.25 per bus.

Novelties and Specialties in **Flower Seeds for 1923**

The majority of the Flower Seed Novelties and Specialties offered on this and the following pages have been thoroughly tested. Others have been received from reliable growers, and the descriptions are those of the introducers.

For General List of Flower Seeds see pages 50 to 70

ALLWOODII

This new race of hardy plants, belonging to the Dianthus family, has met with universal appreciation. The seed now offered will produce an average 75% of double flowers of almost every shade of color except yellow. The single flowers are quite as handsome as the doubles, and have the advantage of making larger clusters.

Allwoodii is exceptionally hardy, commencing to flower in early Spring, it continues through the Summer and Autumn. Pkt. (25 seeds) 50c.

ASTER

"Early Dawn"

This is one of the earliest Asters of the Ostrich Plume type, coming into flower even earlier than Queen of the Market. As a cut flower there is nothing to surpass it, and its earliness renders it excellent for market garden purposes. Pkt. 50c.

Gaillardia Grandiflora "Dazzler"

CLARKIA ELEGANS FL. PLENO

"Ruby King"

The new variety that we are able to offer this season is a beautiful shade of ruby red, which will vie in attractiveness with the very fine sorts already existing and form a welcome addition to their ranks. Pkt. 50c.

GAILLARDIA GRANDIFLORA

"Dazzler"

This fine new variety is an advance on all others of its class, often attaining a diameter of 4 and 5 inches. The color is a bright golden yellow with rich maroon-red center, the two tints bearing a well-balanced and harmonious proportion to each other. The plant is vigorous, throwing up a profusion of long and erect flower stalks. Pkt. 50c.

PAPAVER NUDICAULE

"Sunbeam Improved"

An apology is hardly needed in introducing new colors of the deservedly favorite Iceland Poppies. The strain we now offer includes many new tints such as maize, creams and various tones of rose. The flowers are borne on long, thick stems and we are convinced that this will be found a great advance on pre-existing strains. Pkt. 50c.

VISCARIA

Tom Thumb "Rosy Gem"

We have pleasure in offering what we are sure will prove a welcome addition to this charming group of miniature bedding plants. The color of our novelty is a lovely shade of bright carmine rose, the flowers being borne profusely on compact, bushy plants, 6 to 8 inches in height, which hold their own well, even in unfavorable weather. Nothing is more showy and effective in the garden than closely planted beds of the beautiful dwarf Viscarias. Pkt. 50c.

CINERARIA

Hybrida Multiflora Nana

A new race of Cineraria, producing dwarf plants with masses of small flowers, measuring about $\frac{3}{4}$ inch in diameter in compact heads over small and dainty foliage. The flowers are all self-colored, embracing shades of light and dark pink, light and dark blue, red and violet. An extremely useful plant for decoration. Pkt. 75c.

NOTE.—All novelties offered on this page are 1923 introductions of European origin and will be sent out in original packets only.

BURNETT'S BEAUTIFUL ASTERS—Continued

ASTER

California Giants

The flowers are much larger than the Improved Crego, measuring 5 to 6 inches in diameter and are unsurpassed as cut flowers. Their immense size and beauty, as well as their long and sturdy stems, make them very attractive, and they well deserve their name. Pkt.

Peach Blossom.....\$0.25
Light Blue......25
Deep Rose......25
Dark Purple......25
Collection, 1 pkt. each of the above, 75c.

ASTER

White Perfection

The finest midseason white Aster in cultivation. The flowers are 4 inches in diameter, exquisite in form. The plants are taller growing than the late upright Asters and extremely vigorous, carrying about twelve large, handsome flowers on long, strong stems, free from side branches. Pkt. 15c., ¼ oz. \$1.25.

ASTER

Enchantress Pink

A vigorous, upright grower, producing a profusion of extra strong flowering stems, carrying very large, graceful flowers of the branching type, the color being a beautiful, delicate shade of pink which does not fade. Pkt. 15c., ¼ oz. \$1.25.

ASTER

Peach Blossom

This new, large flowering, late branching variety is a very pleasing shade of deep lavender pink. The size and thickness of the flower give it a massive effect; the stems are very strong and hold the flowers erect at all times. Pkt. 15c., ¼ oz. \$1.25.

ASTER

New Branching "Snowden"

It is one of the most perfect free blooming white Asters offered. The flowers, when well grown, measure from 3 to 4 inches in diameter, are perfect in form and borne on extra long, stiff stems, forming a pyramid of pure white when in perfection. Pkt. 25c., ¼ oz. \$1.50.

ASTER

Heart of France

This recent introduction is the largest flowering of the very dark red sorts; plants grow about 24 inches high, nicely branched, bearing in September their large, rich, deep ruby-red flowers on long, strong stems. A fine, dark variety. Pkt. 15c., ¼ oz. \$1.25.

White Perfection Aster

THE BEAUTIFUL SINGLE ELEGANCE ASTERS

The plants are strong and vigorous growers, of pyramidal habit, very free blooming, and produce strikingly beautiful flowers on long, slender stems, from 2 to 3 inches in diameter. They have small yellow centers, and last for a long time when cut. The petals are broad and wavy, resembling single Japanese Chrysanthemums.

White, Lavender, Dark Blue, Deep Rose, Pearl Rose, Scarlet-Crimson (Marechal Joffre). Each, pkt. 15c.

ASTERMUMS

A strain of Comet Asters which, on account of their size and Chrysanthemum-like appearance, have appropriately been named Astermums. The plants grow about 2 feet high, and come into bloom a little earlier than the Crego's Giant. We offer three fine colors, as under: Pkt.

Lavender. A rich shade of lavender or light violet. \$0.15
Pink. A very attractive shade of lively rose-pink. .15
White. Purest snow-white..... .15

HARDY PERENNIAL ASTERS

Mixed (Michælmás Daisies). Single. Fall flowering, hardy herbaceous plants, thriving in any good garden soil. If sown early they will flower the first season. 3 ft. Pkt. 15c.

alpinus. Indispensable for the rockery or edge of hardy borders. Grows 6 to 10 in. high and bears large, showy, bluish-purple flowers in May and June. Pkt. 15c.

sub-cœruleus. Forms a dense tuft of leaves, from which issue many leafless stems 12 in. high, bearing in June and July massive, bluish-violet flowers 3 in. in diameter. Pkt. 15c.

Salvia

SALVIA Burnett's "Forest Fire"

For effect Forest Fire is unsurpassed. The plant when in full bloom is about 3 feet high. The individual spikes, which are of a brilliant scarlet, measure 6 inches across and are produced in such quantities that they wave gracefully with their weight, giving the plant a glistening appearance. For massing or planting in groups Forest Fire is the most effective. Pkt. 25c., $\frac{1}{4}$ oz. \$2.00.

SALVIA Dwarf "Fireball"

Of the many sorts of Dwarf Salvia now offered Fireball is certainly the finest of all. The plants branch freely, are profuse bloomers, and two weeks earlier than any other variety. They are of bushy habit, and when fully developed are a solid mass of bloom. Color bright velvety scarlet, showing up well above the foliage. Pkt. 15c., $\frac{1}{4}$ oz. \$1.00.

SALVIA Little Lord Fauntleroy (True)

This is a very dwarf, neat and compact growing variety, 18 inches in height, producing a continuous mass of brilliant scarlet flowers through the whole season. It makes a very handsome border, flowering right down to the ground. Pkt. 25c., $\frac{1}{4}$ oz. \$2.00.

SALVIA Compacta Zurich

Zurich is the dwarfiest of the Salvia family, never exceeding 18 inches in height. The plants are robust and compact and commence blooming early in June, making a brilliant display throughout the entire Summer and Autumn. The flowers are of the brightest scarlet, produced in great abundance and borne on upright spikes. Pkt. 25c., 5 pkts. \$1.00.

STOCKS

Beauty or "Giant Nice" Winter-Flowering

A magnificent race of recent introduction, with long trusses of extremely double flowers of delightful fragrance. The plants attain a height of about $1\frac{1}{2}$ feet, and are of sturdy growth. For forcing in the greenhouse in Winter they are unexcelled. They are equally good when planted in the garden, coming into bloom a little later than the Ten-Week section and lasting until late in the season.

Burnett Bros.' Novelties and Specialties in Flower Seeds

Schizanthus Wisetonensis Excelsior

SCHIZANTHUS

Wisetonensis "Excelsior"

This may be described as a much larger-flowered strain of Wisetonensis, and with markings and colors of a fancy Pelargonium. All dark crude colors have been carefully kept out. The flowers have white, buff or rose grounds. A grand acquisition and a splendid pot plant. Pkt. 50c.

SCHIZANTHUS

Grandiflora Hybrids

Rose and Amber Shades

A new strain of pink and rose tints, most heavily blotched gold and bronze, but also contains some very delicate and pleasing self-pinks. Pkt. 50c.

SCHIZANTHUS

Wisetonensis Hybrids

Hurst's Monarch Strain

One of the finest strains of large-flowered hybrids in existence, embracing a wide range of colors from almost pure white through delicate shades of pink to bright rose and crimson; also exquisite mauve and lavender tints, many beautifully blotched and penciled various darker shades, including bronze and chocolate. Fine, compact habit. Pkt. 50c.

SWEET WILLIAM

NEWPORT PINK. A distinct new color, excellent for bedding and very effective for cutting. Pkt. 25c., 5 pkts. \$1.00.

PINK BEAUTY. Improved fine deep pink color. Pkt. 15c.

SCARLET BEAUTY. Rich, deep scarlet; very effective variety. Pkt. 15c.

HOLBORN GLORY. A giant strain of the Auricula-Eyed class, with a superb range of colors. Pkt. 10c., ¼ oz. 50c.

SUNFLOWER

New Red Annual (Sutton's)

This new Gaillardia Sunflower is one of the best novelties ever introduced. It grows 6 feet in height and produces a wealth of magnificent flowers; the plant branches freely; the flowers are well shaped with dark centers banded with bright chestnut red, mostly merging to yellow at the tips of the petals. Pkt. 25c.

VERBENA

Hybrida Monstrosa

Auricula-Eyed (New)

The most beautiful and remarkable variety yet introduced, far surpassing in size and beauty the well-known Mammoth. The flowers measure 1¼ inches across, in a great variety of colors; each flower has a very large white eye, making an effective contrast with the brilliant coloring of the main portion of the flower. Pkt. 25c.

VERBENA

Grandiflora "Helen Willmott"

The color is a delightful salmon pink, and the plant itself is of robust growth and very free flowering; in fact, it is indispensable for either inside or outside decoration. Pkt. 50c.

VIOLA

Scotch, or Tufted Pansies

These Tufted Pansies are now considered indispensable for beds and borders. Seed sown in Spring commence to bloom in June, and continue to do so until frost.

BURNETT'S RELIABLE ASTERS

The Aster is today the most popular of all Summer and Autumn flowering plants. We take special care to secure the best stocks, true to name and color, without regard to cost. For best results the ground cannot be too richly prepared. Plants from seed sown in the open ground in May will bloom in September and October. For July and August flowers, sow in March or April, in coldframes or hotbeds.

QUEEN OF THE MARKET ASTERS

The earliest flowering Aster, coming into bloom in July, or fully three weeks in advance of most other sorts; the flowers are of good size and borne on long stems, making them exceedingly valuable for cutting. 1 foot. Pkt.

CLIMBING ROSES

Crimson Rambler. An exceedingly vigorous, rapid grower, often reaching a height of 15 to 20 feet in a season; handsome glossy dark green foliage in charming contrast with the rich, glowing crimson flowers, which are semi-double and borne in immense clusters in the greatest profusion.

Carmine Pillar. Single rose, the flower of the brightest possible rosy carmine, and produced very abundantly.

Dorothy Perkins. Extremely hardy. Flowers are borne in clusters of six to ten, are very double, with prettily crinkled petals of clear shell-pink, lasting a long time without fading.

Dr. W. Van Fleet. A Rose, which has become a great favorite. The long pointed buds are of a rich flesh-pink on stems 12 to 18 inches long; splendid for cutting.

Excelsa. A distinct variety in form, color and habit. The flowers are very double, produced in large trusses, and almost every eye on a shoot produces clusters of flowers. The color is intense crimson maroon, tips of the petals tinged with scarlet.

HEDGE PLANTS

Berberis Thunbergii.
Berberis vulgaris.
Boxwood.
California Privet.
Hemlock Spruce.
Rosa Rugosa Rubra.
Spiræa Van Houttei.

Hedge plants can be supplied in all sizes.

Planet Jr. Garden Tools

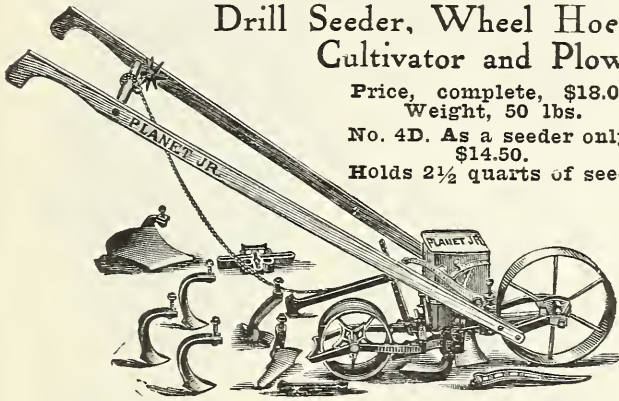

The new "Planet Jr." Catalogue is the handsomest, best, and most instructive book ever issued on a similar subject. Full of little points that bring profit. Full of true and handsome illustrations. We mail it free to any address on application.

No. 4 Planet Jr. Combined Hill and Drill Seeder, Wheel Hoe, Cultivator and Plow

Price, complete, \$18.00.
Weight, 50 lbs.

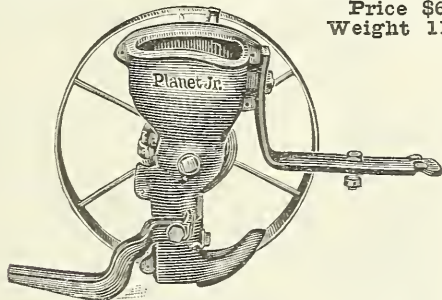

No. 4D. As a seeder only, \$14.50.
Holds 2½ quarts of seed.

Plants in hills 4, 6, 8, 12 or 24 inches apart. For use as a Cultivator, the drill parts are removed and the tool frame substituted by changing but one bolt; it is then a perfect single Wheel Hoe, with a variety of tools.

No. 35 Planet Jr. Seeder Attachment for Wheel Hoes and Garden Plows.

Price \$6.00.
Weight 11 lbs.

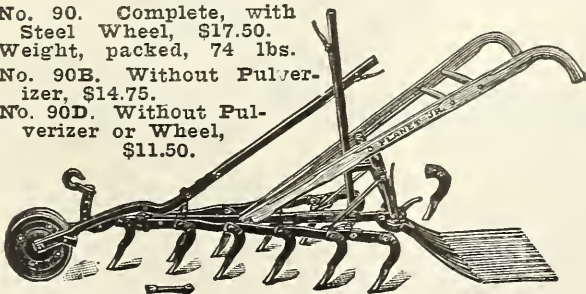

Ever since the wheel has replaced the hand hoe there has been a demand for a small seeder that could be attached to the wheel hoe. The illustration shows such a seeder. It is quickly attached by a single bolt and will sow in a continuous row practically any garden seeds. The hopper holds one pint and as the last seed can be sown from the hopper it is particularly adapted for sowing small packets of seed. The index contains the names of the principal seeds and the others can be gauged according to size.

Planet Jr. Twelve-Tooth Harrow, Cultivator and Pulverizer

No. 90. Complete, with Steel Wheel, \$17.50.
Weight, packed, 74 lbs.

No. 90E. Without Pulverizer, \$14.75.

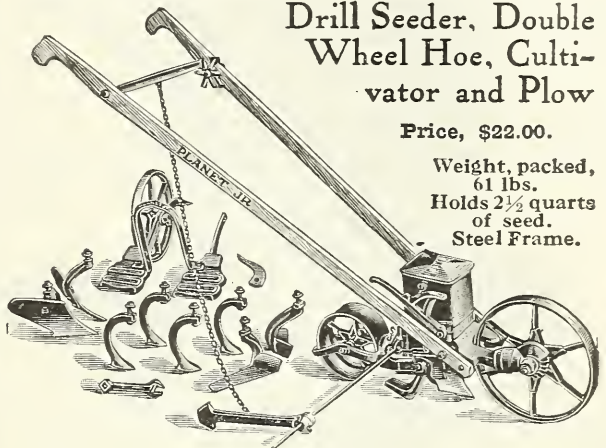

No. 90D. Without Pulverizer or Wheel, \$11.50.

No. 25 Planet Jr. Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow

Price, \$22.00.

Weight, packed, 61 lbs.
Holds 2½ quarts of seed.
Steel Frame.

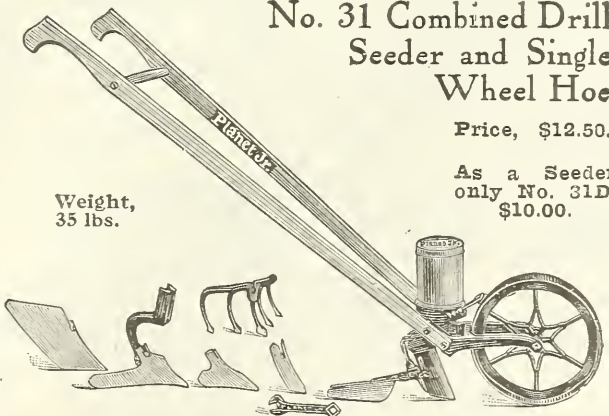

The simplicity of this tool, both as a Seeder and as a Wheel Hoe, makes the combination thoroughly practical.

Two acres a day can easily be worked with this implement, and when it is done it will be a better job than several men could have done in the same time with hand hoes.

No. 31 Combined Drill Seeder and Single Wheel Hoe

Price, \$12.50.

As a Seeder only No. 31D, \$10.00.

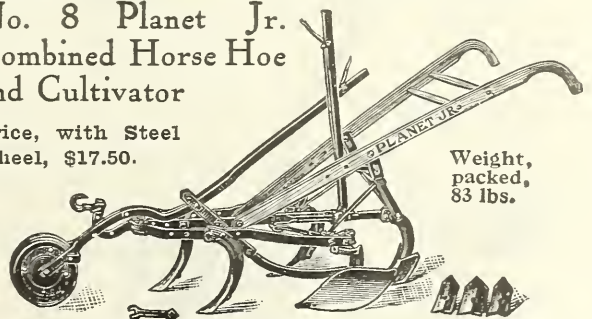

Weight, 35 lbs.

New this year. An accurate Drill Seeder and a first-class Single Wheel Hoe at a very low price.

No. 8 Planet Jr. Combined Horse Hoe and Cultivator

Price, with Steel Wheel, \$17.50.

Weight, packed, 83 lbs.

No other cultivating machine is so widely known as the Planet Jr. Combined Horse Hoe and Cultivator, for it is in use throughout the civilized world. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle.

Planet Jr. Garden Tools

We offer these Wheel Hoes as the highest type of their class. They have a great variety of tools which adapt the implements to a large variety of work, and there is scarcely any garden culture of which they are not capable.

No. 11 Planet Jr. Double Wheel Hoe, Cultivator Plow and Rake

Price, with attachments as in cut \$14.75.
Weight, packed, 37 lbs.

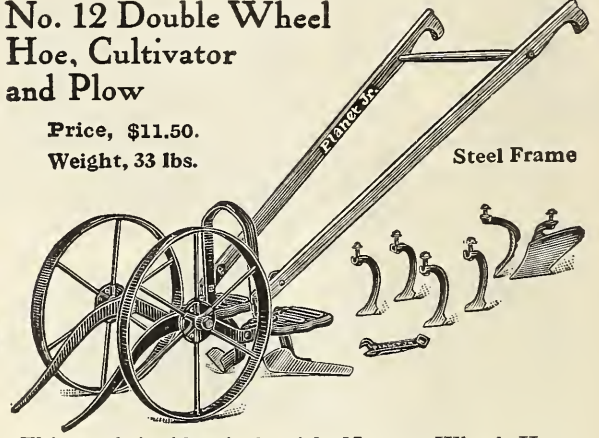

Steel Frame

All our Wheel Hoe tools are of special pattern, carefully tested by practical men; no others ever offered compare with them. All the steel parts are high carbon steel, oil tempered, finely formed, finished and polished and work to a charm.

No. 12 Double Wheel Hoe, Cultivator and Plow

Price, \$11.50.
Weight, 33 lbs.

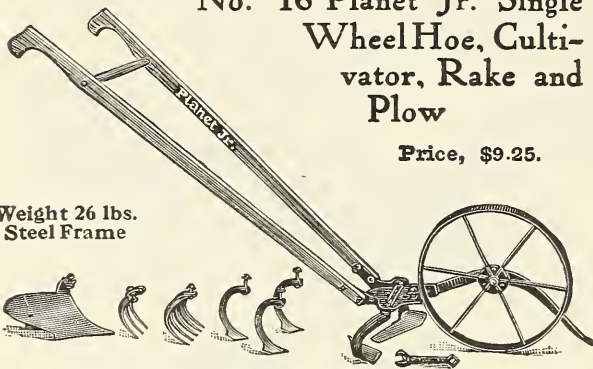

Steel Frame

This tool is identical with No. 11 Wheel Hoe, except that it has one pair plows, one pair hoes, four cultivator teeth and a pair of leaf lifters only, and is sold at a correspondingly less price.

No. 16 Planet Jr. Single Wheel Hoe, Cultivator, Rake and Plow

Price, \$9.25.

Weight 26 lbs.
Steel Frame

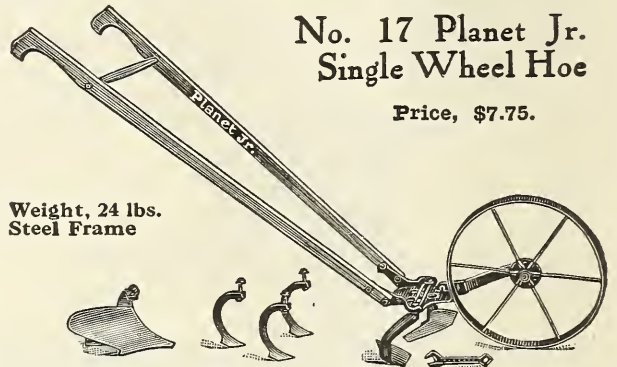

The handles are adjustable in height. The frame is steel, convenient and strong with quick change device by which to exchange the tools without removing the nuts.

No. 17 Planet Jr. Single Wheel Hoe

Price, \$7.75.

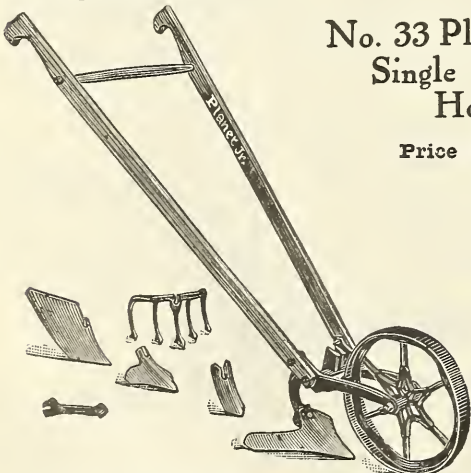

Weight, 24 lbs.
Steel Frame

You can do more and better hoeing with it in one day than you can do in three days with a hand hoe. The No. 17 has a pair of 6-inch hoes, a plow and a set of cultivator teeth, an outfit sufficient for most garden work.

No. 33 Planet Jr. Single Wheel Hoe

Price \$6.00.

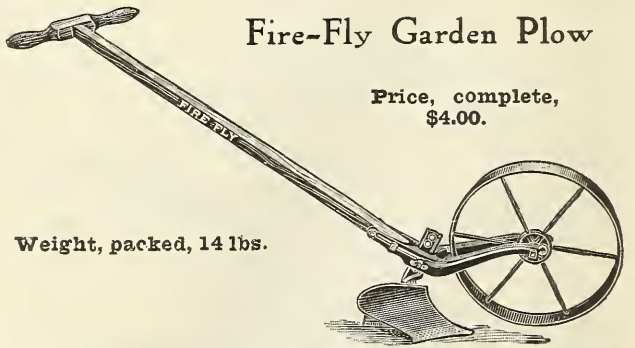

This attractive implement offers to every one with either field or garden a cheap and effective tool for Wheel Hoe operations.

No. 18 Single Wheel Hoe, Price \$5.75

Has one pair of 6-inch hoes only—the tools that are most constantly used. Other tools can be added as needed.

Fire-Fly Garden Plow

Price, complete, \$4.00.

Weight, packed, 14 lbs.

This tool is most useful in small gardens, opening furrows for manure or seeds, and covering them quickly.

SPRAY PUMPS AND SUNDRIES

"POMONA" BARREL SPRAY PUMP

The "Pomona" Sprayer is recognized as the most durable Barrel Sprayer on the market. It is unusually powerful, fully capable of supplying four leads of hose and eight nozzles. The working parts, including the plunger, plunger connections, glands, valves, valve seat, and strainers, are of solid bronze. They are simple, accessible and easily removed.

The agitator is simple but very effective, operated by the same lever that works the sprayer; it agitates the liquid with every stroke.

"Pomona" Barrel Spray Pump

GOULD'S BRASS BUCKET PUMP

For spraying in gardens and greenhouses. The pump is double-acting in effect, has gutta percha ball valves, proof against the action of acids and oils. The pump end of discharge hose is wire wound, adding largely to its durability. Price, \$7.50.

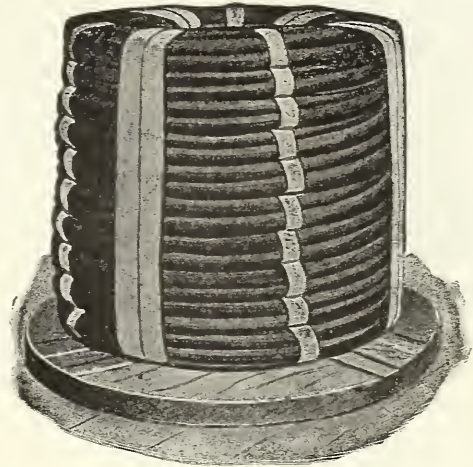

Gould's Bucket Pump

GOULD'S "COMBINATION" KNAPSACK SPRAYER

Simple in construction. For greenhouses, for white-washing fences, interiors of barns, stables, etc., as well as for spraying purposes. Price, with 4 feet $\frac{3}{8}$ inch discharge hose, Mistry or Mistry Jr. nozzles and extension. \$30.00.

BURNETT BROS.' "Hudson-Fulton" Brand Garden Hose

Hose, Hudson-Fulton Brand

Having had many inquiries during the past season for a high-grade garden hose to withstand extreme pressure, we have had manufactured especially for us the "Hudson-Fulton" Brand, which we are positive will be found superior to anything yet offered. This hose is made of seamless rubber tubing, seven plies of closely woven light duck, well frictioned throughout, and has a solid rubber covering both inside and out. For strength, endurance, elasticity and general merit, order the "Hudson-Fulton" Brand. Price, $\frac{3}{4}$ in., per foot, 22c.

BURNETT BROS.'

Nonkinkable Hose

This hose is made of the very best rubber, is very flexible and thoroughly reliable.

Burnett's Nonkinkable we have made up specially for greenhouse work and it will be found admirably adapted for this purpose. Price, $\frac{3}{4}$ in., per foot 20c.

THE "KINNEY" PUMP

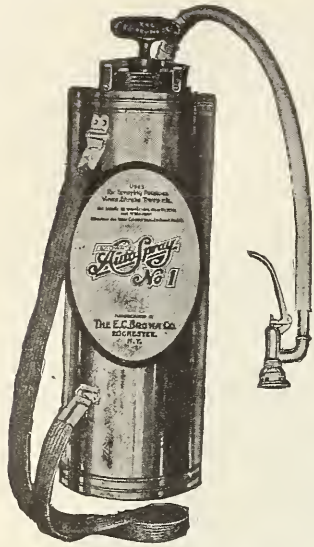

A small, valuable device for applying liquid manure. Price each, \$2.50.

THE "NORCROSS" Hand Garden Cultivator

The Latest Improvement Over All Other Hand Garden Tools on the Market

This hand cultivator is acknowledged to be "the Leader," combining speed, strength, durability and ease in operation. Works between rows, or center shovel can be removed to straddle the row if desired. Pulls weeds, pulverizes the ground thoroughly, giving a level cultivation. No walking over your work, nor trampling the weeds back into the ground to take root and grow again, as is done in using a wheel plow. The Norcross can be used in many places where a wheel plow would not be practical. Price, each, 5-prong \$1.50. 3-prong \$1.25.

"Brown Auto-Spray" No. 1 Compressed Air Sprayer

This well-known Sprayer has now been improved upon so that no other style of sprayer will do such a variety of work, and do it so well. We recommend it for trees, shrubs, vines, greenhouses, etc.

The "Auto-Spray," No. 1, works automatically for six to fifteen minutes, according to the nozzle

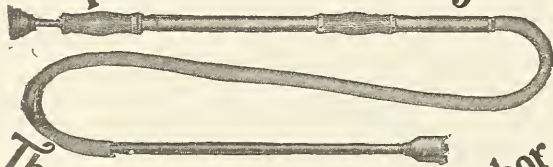

opening. It may be charged in fifteen seconds.

To keep grounds looking neat and attractive a grass edger should be used frequently during the season. With the Planet Jr. No. 2 you simply slip the disc between the cement, stone or brick walk and the grass, and push ahead. No one having walks to edge can afford to do without one. Price \$1.75.

The IDEAL POWER LAWN MOWERS

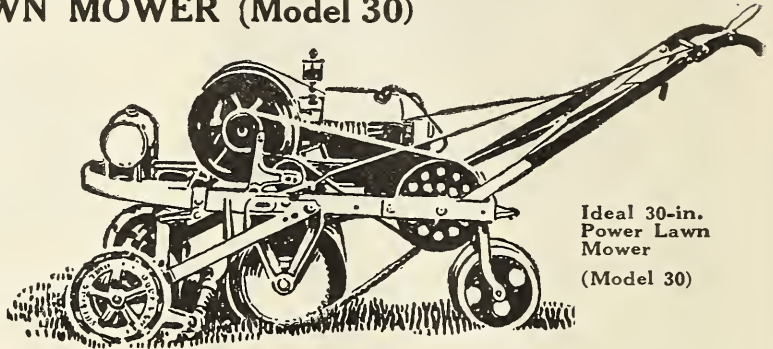

THREE MODELS—EXTENSIVELY USED ON PRIVATE GROUNDS, PUBLIC PARKS, GOLF COURSES, CEMETERIES AND LARGE ESTATES

Maximum beauty in lawns at a minimum of labor cost and upkeep are now obtainable through the Ideal Power Lawn Mower—a sturdy, compact, efficient, fool-proof, gasoline operated mower that requires only the guidance of an ordinary workman. Better still—it rolls as it cuts, thereby promoting a more luxuriant growth of grass and a smoother surface.

IDEAL 30-in. POWER LAWN MOWER (Model 30)

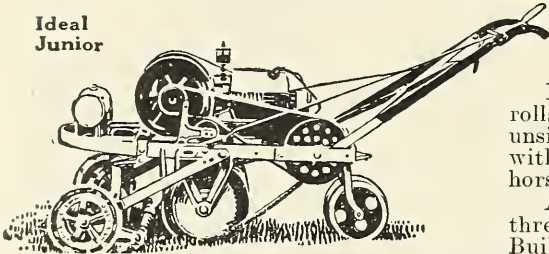

The most popular and most adaptable of the "Ideal" line. Cuts a 30-inch swath. Rolls as it cuts. Will cut six to seven acres per day. Loosely suspended cutting unit tilts to ride over any irregularity of ground. A general purpose mower that cuts close to trees, shrubbery and flower beds. Mechanically simple—fool-proof—easy to operate.

Ideal Power Mower with one cutting mower	\$345.00

Extra for one additional cutting unit	50.00

Ideal 30-in. Power Lawn Mower (Model 30)

Ideal Junior

IDEAL JUNIOR 22-in. POWER LAWN MOWER For Small Grounds and Cemetery Work

It Rolls as it Cuts.—Either the Model 30 or the Junior rolls as it cuts, thereby insuring a smooth, velvety lawn. All unsightly bumps are levelled, and there is no marring the lawn with hoof-prints, or mutilation of shrubbery as is the case with horse-drawn mowers and rollers.

A baby brother to the Model 30—this Junior cuts from three to four acres per day. Cuts a swath 22 inches wide. Built for small grounds, cemetery work, and, as an auxiliary

unit to the Model 30 on larger grounds. Cuts clean. Adapted to trimming in close quarters.

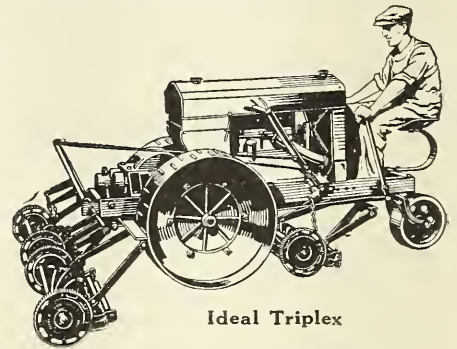

Ideal Junior Power Mower with one cutting mower.....	\$225.00
Extra for one additional cutting unit	35.00

IDEAL 84-in. POWER TRIPLEX MOWER

For Large Estates, Parks and Golf Courses

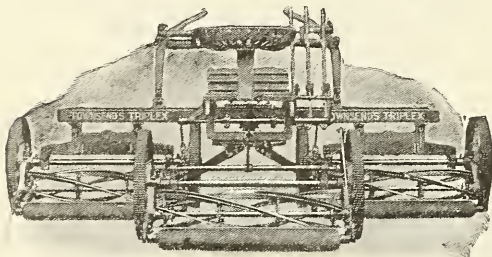

For the proper upkeep of large areas, there's nothing to compare with the Ideal Triplex. Mows from 25 to 30 acres per day. Three freely suspended cutting units cut a swath 84 inches wide over smooth or irregular ground. Simple and efficient. Control in two levers. Turns in its own length. The logical mower for large estates, parks, country clubs, etc.

Ideal Power Triplex Mower complete with three cutting mowers	\$1250.00
Extra each for additional cutting units	90.00

Ideal Triplex

TOWNSEND'S TRIPLEX HORSE LAWN MOWER

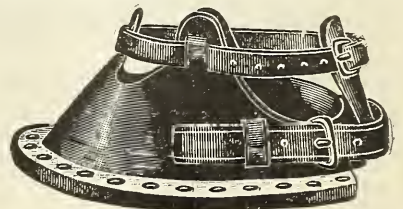

Townsend's Triplex Mower

This machine consists of three high-grade Lawn Mowers mounted in such a way as to allow each mower to adjust itself to the contour of the lawn, thereby cutting an 86-inch swath with extreme evenness. It is of extremely light draught, due partly to ball-bearing and partly to the excellence of design and workmanship. Three levers at the driver's right enable him to lift any or all the cutting units from the ground to avoid obstructions or in going to or from the field. A small lever in the center of each wheel operates the clutch, throwing the machine in gear or out. Price, \$375.00. Extra units, \$100.00 each.

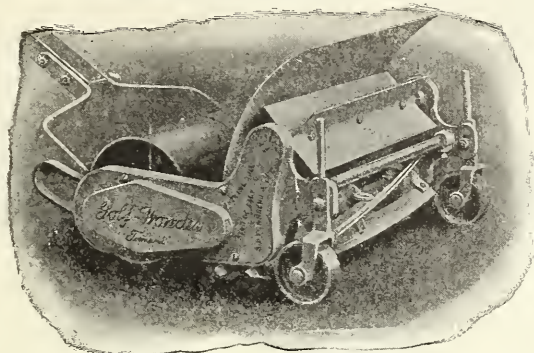

HORSE LAWN BOOTS

Made of superior leather, improved double thick riveted soles, strap around the hoof and will keep in place and prevent horses' hoofs from cutting into soft lawns. In ordering send outline of hoof. Price per set, medium size, \$16.00; large size \$18.00.

Horse Lawn Boots

TOWNSEND'S GOLF WONDER
(Ball Bearing) LAWN MOWER

Townsend's Golf Wonder

Of all places where grass grows, the putting green is the place that calls for the best qualities in a lawn mower, so severe is the service.

The reader is familiar with the putting green, how to make a first-class one and how to keep it so. It has been our task and pride to produce the mower best adapted to cutting the grass on them, thus adding the finishing touch.

The Golf Wonder will cut the putting greens of golf courses and other smooth and fine lawns better than any other. It was designed specially for that purpose, others are merely ordinary lawn mowers with perhaps an extra knife, and in no other way adapted to the work.

It leaves no marks on the green. The weight of the front part of the machine is carried on a wooden roller running at the rear of the cutter bar. The front wheels may be used or not, as preferred.

THE LITTLE WONDER HEDGE TRIMMER

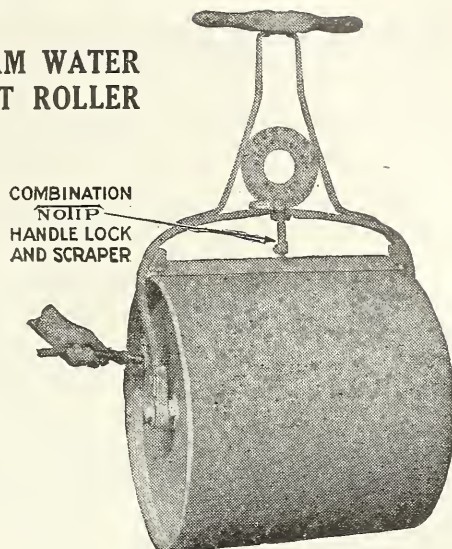

Trims every variety of hedge grown. It is wonderful how quick it cuts (actually as fast as you walk), and how smooth a job it makes and how easy it operates. A lady can easily operate. To get a beautiful

thick hedge it is necessary to trim often, at least every three weeks. Every time a hedge is cut, newshoots sprout out immediately back of the fresh cut. The "Little Wonder" makes the frequent cutting possible without practically any expense. Anyone can operate it.

THE PENNSYLVANIA LAWN CLEANER AND RAKE

Brush for above

The action of three revolving 24-in. wire-tooth rakes is beneficial to the turf. It raises up the low-growing crab grass and other spreading weeds, allowing the lawn mower to cut the seed pods off before they ripen, thus preventing their reappearing the following year. As these weeds and grasses are annuals, it is only necessary to prevent their going to seed for a season to get rid of them.

This season a new feature has been added to this machine in the way of a detachable set of brushes designed particularly for sweeping worm casts on putting greens, etc. We consider this a grand acquisition and a long-needed want to every lover of a perfect lawn.

BURNETT'S REINFORCED HOTBED SASH AND SUNDRIES

Single Sash, Glazed—3x6x1 1/2 in. Thick

Our sash are made from 1 1/2" gulf cypress, glazed with double thick "A" quality glass in lights 10" wide, the top and bottom rails are 4" wide, the side stiles 2 1/2" wide and the bars 1 1/4". The bars are tenoned at both ends and mortised into the rails and the rails into the side stiles; the tenons are steeped in oxide of iron and oil

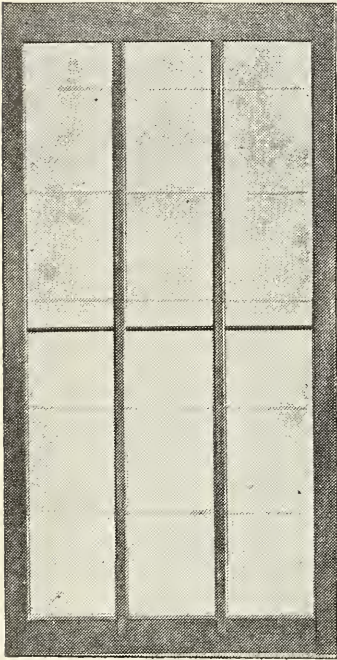

before assembling. These sash are much stronger than the ordinary market sash and are tied across the center with a square iron bar, thus making the sash very rigid. They are painted two coats of white lead and oil and the glass is bedded in special greenhouse putty.

These sash weigh 40 lbs. each, and are made perfect in every way.

Price, Glazed and Painted, complete. Each \$8.50, doz. \$96.00.

Price, Unglazed and Painted one coat. Each \$4.00, doz. \$45.00.

Price, Unglazed and Unpainted. Each \$3.75, doz. \$42.50.

Sash Double Glazed, Frost-Proof

The general opinion of gardeners who have given Double Glazed Sash a fair trial is that it has a considerable advantage over single glazed, as it will protect the plants in cold weather without the use of mats and shutters. In climates like New York and vicinity it is, however, necessary to use mats and shutters during the more severe weather. We believe that the bedding of the outer glass in putty is a decided advantage, as it makes the sash leak-tight. Aside from the double glazing these sash are made identically the same as our reinforced Single Glazed Sash.

Price, Glazed and Painted. Each \$15.00, doz. \$175.00.

Cypress Slats

Slats are for shading transplanted seedlings. The hot sun of August and September is too strong for the seedlings to stand. A week of the slats and they will have thoroughly strengthened up. They are also particularly useful for pansy growing. They are 3 feet wide and 6 long. The evenly spaced strips of cypress are let into the binding cleats and clinched into position by wire nails. They keep their shape, an important point with slats. Price, Painted. Each \$7.50.

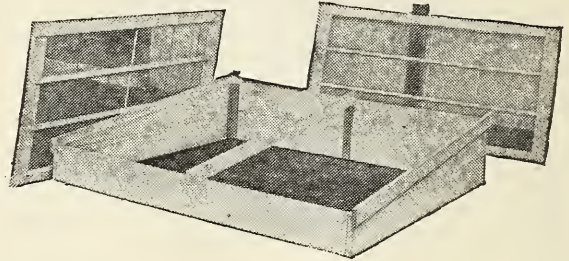

Hot Bed Mats

Frost-Proof, Burlap. 76x76 in. square; made of strong burlap cloth, filled with wool waste. Each \$3.50, doz. \$36.00.

Waterproof Duck. Filled same as above, with waterproof duck cotton cloth on one side. Size 76x76 in. Each \$4.50, doz. \$48.00.

Burnett's Garden Frames

All our frames are made of the finest air dried cypress. The sides and ends are held together by heavy wrought iron angle cleats. No nails are used in their construction. They are easy to put up or take down, and are made for regular standard 3x6 feet sash. They are 8" deep at the front, 16" at the back. The rafters are 3x3 inches and

rabbeted for sash to slide on, and grooved to carry off the condensation. They are given two coats of best lead and oil before shipment. Shipped knock down. Two, three and four sash frames kept in stock—others made to order.

Price, without Sash for two Lights, \$16.00.

Price, without Sash for three Lights, \$19.00.

Price, without Sash for four Lights, \$24.00.

Shutters

Shutters do three things: Keep the mats snug in place—protect them from the weather—and do their part toward keeping out the cold.

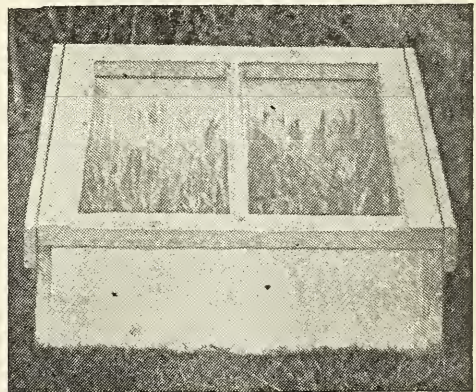

These shutters are "light to handle and stand the racket." They are 3 by 6 feet and made of 3/8-inch cypress, having tight tongued and grooved joints. The three cross binders on the under side hold the boards together and prevent them warping out of shape.

Price, Painted. Each \$8.00, doz. \$90.00

Price, Unpainted. Each \$7.50, doz. \$84.00.

Melon Frames

Try a half dozen of these frames and not only have melons earlier, but melons with the true melon flavor. Starting early with frames gives them a chance to make good strong root growth

to withstand the hot Summer's sun, so the best of the plant's strength can go into the fruit. Made in the same thorough way as our other frames.

Price, Standard Size 23 3/8"x26" with two Lights of glass. Each \$8.00.

THREE STERLING PREPARATIONS FOR THE GARDENER

“READEANA” THE ROSE BUG EXTERMINATOR

A most effective insect killer that is absolutely harmless to even the most delicate flowers or foliage.

As a killer of insects of every kind from the hardy Rose Bug to the destructive Caterpillar, there is nothing on the market to equal it.

It is very economical to use as it is sent out highly concentrated, and may be diluted with from twenty to sixty parts of water.

It is not a chemical but is made up of vegetable matter, thus making it harmless to flowers or foliage. It will put new life into flowers and plants, as it has a brightening effect on the same.

Put up in the following size packages:

24 oz. can	\$1.00	1 gal. can	\$4.00
½ gal. can	2.25	5 gal. can	17.50
		10 gal. can	\$34.00

Full directions accompany each package.

Readeana

“ELECTRIC” WORM ERADICATOR

Clears roots of trees, plants, flowers, vegetables, etc., of worms, grubs and insects of every kind.

This preparation is designed for use on the roots of plants only, not the foliage. Used as directed by us, it is perfectly harmless to the most delicate roots.

From one to two ounces to each gallon of water brings worms, grubs, etc., to the surface of the ground within a few seconds, where they die immediately.

Much damage is often done to plants and the true reason never known, for the destructive work is being done at the roots where it is not perceptible. An application of “Electric” Worm Eradicator will greatly improve such plants, it being a fertilizer as well as a worm killer.

24 oz. bottle	\$1.00	5 gal. keg	\$17.50
1 gal. bottle	4.00	10 gal. keg	34.00

Full directions accompany each package.

“HERBICIDE” THE WEED EXTERMINATOR

Kills grass and weeds of every kind on roadways, gutters, tennis courts, etc., by one application.

Keeping roads and gutters free from weeds is an endless task when ordinary means are employed, for it is practically impossible to get the roots out, so it is only a matter of a few weeks before new tops are flourishing and it is necessary to go over the ground again.

One application of “Herbicide” when diluted with forty times its bulk of water kills both tops and roots of grass and weeds of every kind, and also prevents the growth of further crops by its sterile effects on the ground.

Its use will save much labor and expense in the long run.
