SUBJECT: Commercial Correspondence Between Japanese Importers and Potential Foreign Suppliers

1. Reference is made to a letter from Island Sales Service dated 10 March, 1947, addressed to General Douglas MacArthur, Tokyo, Japan, a copy of which is inclosed.

2. It is requested that the Board of Trade refer this correspondence to potential Japanese importers of vending machines. It will be brought to the attention of such importers that informational letters may be exchanged between businessmen of Japan and those of foreign countries, but matters pertaining to contracts, purchase orders, trade agreements and other contractural matters remain on a government to government basis.

3. Potential importers will be reminded that only essential materials are authorized for import into Japan at the present time and it is not anticipated that vending machines will be imported in the near future.

1. Pursuant to paragraph 6 of the directive to the Imperial Japanese Government SCAPIN 854, AG 334 (3 Apr 46) ESS/IE, subject: Board of Trade (Boeki Cho), dated 3 April 1946, Boeki Cho is directed to take delivery or cause delivery to be taken in its name and for its account of the following phosphate rock:

Ship	ETA	Quantity	Discharge Port
S/S Robert Parrot	18 Jan 47	8,555 long tons	Yokohama
S/S Edward Squibb	2 Feb 47	8,190 long tons	Kobe

2. Quantitative receipts in quintuplicate (5 copies) showing both the total quantity of phosphate rock manifested and received from the above vessels will be signed and sealed by the officially designated agency of Boeki Cho in the proper space provided in the receipt.

3. These receipts will be submitted for each shipment to the Commanding Officer, Eighth Army Military Government Headquarters, Yokohama.

4. If, after discharge, a difference exists between the quantity manifested and the quantity received, careful attention must be taken to comply with the requirements noted on receipt form.

5. Boeki Cho will transfer by sale to such agency, agencies or individuals as may be designated by the appropriate bureau of the Ministry of Commerce and Industry the phosphate rock imported in accordance with these instructions.

6. Monthly reports will be submitted regularly to the Foreign Trade Division, Economic and Scientific Section, by Boeki Cho, giving the date, quantity received and disposition of each delivery of phosphate rock covered by these instructions.

7. These instructions shall be in effect with respect to all deliveries of phosphate rock taken by Boeki Cho until further notice.

SUBJECT: Commercial Correspondence Between Private Individuals in Japan and in other Countries

1. Reference is made to memorandum from the Supreme Commander for the Allied Powers (SCAPIN 1432) file AG 311.1 (2 Jan 47) CCS dated 2 January 1947 subject: Resumption of International Postal Service Between Japan and all Countries. Under the expanded postal service now open between Japan and other countries, exchange of commercial letters of an informative nature is permitted. However, transactional correspondence remains forbidden. Correspondence may cover such subjects as:

a. Information regarding the nature of commodities available for export from Japan, including all important commercial details as to size, type, pattern, color, et cetera.

b. Inquiries as to continuing postwar interest in materials exported from Japan before the war or interest in new products, and requests for information regarding desirable types and designs.

c. Probable quantity and approximate schedule of availabilities.

2. No purchase orders may be issued and no sales concluded, either for present or future delivery, between private companies. All Japanese foreign trade remains on a government-to-government basis and no private trade is authorized.

3. It is expected that Boeki Cho will receive inquiries from private Japanese individuals or concerns wishing to import or export goods. Preliminary negotiations, exchange of information and expressions of interest in buying will be

completed by private individuals or concerns and the information will then be passed to Boeki Cho for completion of negotiations, through General Headquarters, Supreme Commander for the Allied Powers.

4. When private concerns, as a result of general inquiries, apply to Boeki Cho to import material into Japan, Boeki Cho will deny all such applications except for the unusual case of a material for which Form 8 has not been submitted and for which an urgent need is discovered to exist. In these rare cases, a memorandum will be submitted to the Foreign Trade Division, Economic and Scientific Section of General Headquarters, Supreme Commander for the Allied Powers stating the requirement and accompanied by Form 8 and copies of the correspondence between the Japanese importer and the potential foreign supplier. Since funds are sufficient to pay for only minimum essential imports, such applications will generally not be approved.

5. When private Japanese exporters apply to Boeki Cho to export products from Japan, they must submit a complete set of all correspondence regarding the export between the Japanese exporter and the potential foreign importer. This correspondence must accompany the Form IE 100 Application to Prepare for Export submitted to General Headquarters, Supreme Commander for the Allied Powers by Boeki Cho. If General Headquarters, Supreme Commander for the Allied Powers approves the sale, the application to prepare for export will be validated and the transaction will then follow the regular export procedure as outlined in Memorandum from General Headquarters, Supreme Commander for the Allied Powers (SCAPIN 1065) AG 091.31 (16 Jul 46) ESS/IE, dated 16 July 1946, subject: Export Procedure.

6. Individual Japanese businessmen may approach Boeki Cho requesting information regarding the government agency from whom a prospective foreign purchaser of a Japanese product may request completion of a transaction.

3. Eight (8) copies of each of the following documents will be prepared and three (3) complete sets will accompany the shipment to Hong Kong.

Invoice (no prices)
Packing List
Weight List
Inspection Certificate

4. In addition to the above documents a bill of lading will be prepared consisting of three (3) original negotiable copies and as many non-negotiable copies as may be required. Two (2) originals of the negotiable bill of lading will accompany the cargo and the third original, as well as four (4) non-negotiable copies, will be transmitted to the Supreme Commander for the Allied Powers as required in paragraph 7. The U.S. Commercial Company shall appear on the bill of lading as the shipper and the Department of Supplies, Trade and Industry, Government of Hong Kong, shall be shown as the consignee.

BASIC: Memorandum for the Board of Trade, dated 19 December 1946, subject, "Delivery of Cotton Yarn for Export to Hong Kong."

5. Five (5) copies of the Transfer of Title to the U.S. Commercial Company from the Imperial Japanese Government for this shipment of cotton yarn shall be prepared in accordance with the attached form (Inclosure 1). This form is the same form specified as Inclosure 2 of Raw Cotton Regulations with the addition of two sentences at the end of the first paragraph. All copies of the Transfer of Title will be transmitted to Supreme Commander for the Allied Powers as required in paragraph 7.

6. The memorandum invoice and packing and weight lists for this shipment shall be prepared in the form prescribed by Raw Cotton Regulations and other applicable regulations of the Supreme Commander for the Allied Powers. The inspection certificate will be a single certificate covering the entire shipment of cotton yarn to Hong Kong, prepared as previously arranged and approved, describing the bales covered by the certification and referring to copies of original inspection certificates filed with the official inspection agency of the Imperial Japanese Government.

7. Five (5) complete sets of all documents listed in paragraphs 3, 4 and 5 will be delivered to Military Government Headquarters, Eighth Army, Yokahama, for transmittal to the Foreign Trade Division, Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers.

SUBJECT : Raw Cotton Processing Schedule.

1. Pursuant to paragraph six of the directive to the Imperial Japanese Government SCAPIN 854 AG 334 (3 Apr 46) ESS-IE the Board of Trade is directed to arrange for the manufacture of the specified amounts of each size of cotton yarn provided for in this proposal, based on the distribution of raw cotton to each spinning company shown in Table No. 1 attached, which represents an allocation of raw cotton approved by the Textile Bureau of the Ministry of Commerce and Industry.

2. Schedule No. CP-8 for the manufacture of CCC Group I Cotton has been prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted through the Board of Trade to the Supreme Commander for the Allied Powers, as required by paragraph 2-e (1) of Raw Cotton Regulations, issued by the Economic and Scientific Section (15 Jun 46, ESS/IE, BT-2). The raw cotton covered by this schedule is described as 114,185 bales of American cotton imported as designated in Table No. I attached and delivered to the Board of Trade by the U. S. Commercial Company. All references to raw cotton in this memorandum mean these specified lots of raw cotton. Schedule No. CP-8 proposes to authorize the manufacture of cotton yarns from these 114,185 bales of raw cotton owned by the Board of Trade.

3. Each spinning company designated in Table No. I should be instructed to proceed with the processing of this raw cotton into yarn, without delay, under the general supervision of the Board of Trade. The counts and quantities of cotton yarn described in the production plan will be produced in so far as mechanically practicable out of the grades and staple lengths of raw cotton allocated to the respective companies. Prior to making any changes in or additions to the spinning program, the proposed amendment must be submitted by the Board of Trade for the approval of the Economic and Scientific Section, Supreme Commander for the Allied Powers.

4. All cotton yarn manufactured from this raw cotton is intended for export as yarn or fabric and, meanwhile, will be stored in such form as may be convenient as the property of the Board of Trade. The Textile Bureau will prepare a schedule for the further manufacture or other disposition of the cotton yarn produced under Schedule No. CP-8.

5. All cotton waste produced from the raw cotton hereby released and not

BASIC: Memorandum for the Board of Trade, dated 4 Nov 46, subject: "Raw Cotton Processing Schedule."

reintroduced into the manufacturing process by the original spinners will be transferred by sale to these spinning companies by the Board of Trade. A plan prepared by the Textile Bureau for using such cotton waste should be submitted to the Supreme Commander for the Allied Powers by the Board of Trade as soon as possible.

6. Weekly reports covering all CCC Group I Cotton and the products thereof will be submitted by each spinning company on ESS Form No. 23 to the Board of Trade, which will forward these reports to the Supreme Commander for the Allied Powers. Raw cotton in process, in transit and stored at port warehouses will be included in the report of raw cotton held by the Board of Trade, as provided for by paragraph 2 of Raw Cotton Regulations.

SUBJECT : Import of Matrush (Ampera).

1. The Board of Trade (Boeki Cho) or its duly authorized agent will take delivery or cause delivery to be taken in its name and for its account of 400 bales of matrush. This matrush, comprising 50,000 sheets of 36" x 40" and 50,000 sheets of 32" x 38", will be discharged from the SS Empress of Australia, due to arrive in Kure on or about 28 October 1946, and will be stored and under the control of the Australian Military Government in Kure.

2. Delivery of these import goods will be taken in accordance with the Supreme Commander for the Allied Powers memorandum for the Imperial Japanese Government, File AG 334, (3 Apr 46), ESS/IE, (SCAPIN-854).

3. Quantitative receipts in quintuplicate (5 copies) in the prescribed form, showing the total number of bales of matrush delivered on this shipment will be signed and sealed by the Board of Trade and its authorized agent. These receipts will be handed to the Commanding Officer of the Military Government Company in charge of the port of arrival to be forwarded to Military Government Headquarters, Yokohama, for Transmittal to the Foreign Trade Division, Economic and Scientifc Section, General Headquarters, Supreme Commander for the Allied Powers, Tokyo.

4. The Board of Trade will transfer by sale to such agency, agencies, or individuals as it may deem appropriate the matrush imported in accordance with these instructions.

5. Unless otherwise instructed, this imported matrush will be used for wrapping bales of raw silk held for export by the Raw Silk Export Assosiation in Kobe and Yokohama.

6. These instructions, with respect to all matrush imported for the purpose specified in paragraph 5, of which delivery is taken by the Board of Trade, shall be in effect until further notice.

SUBJECT : Damaged Cotton on Board the S/S Ephraim Brevard.

1. Reference is made to your memorandum dated 25 September 1946 enclosing reports from the Raw Cotton Importers Association and the Tokyo Marine Fire Insurance Company, relating to the survey of water damages to raw cotton shipped to Japan aboard the S/S Ephraim Brevard, which arrived at Kobe 10 July 1946.

2. These reports have been referred to the U. S. Commercial Company for their attention, in connection with the filing of a claim with the insurance underwriters. It is noted that the two reports are in agreement on the amount of the loss to be allowed, which has been determined to be 51,575 pounds.

3. Approval is hereby given for the payment to the Tokyo Marine Fire Insurance Company, Ltd., by the Board of Trade, for the charges incurred, amounting to 7,221 yen, including the service fee, in the investigation of this matter.

MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo

SUBJECT : Cotton Textile Export Program - Third Quarter 1946

1. Reference is made to two memoranda from the Board of Trade, both dated 12 September 1946 (No. BOTM 824 JJ 321 and BOTM 825 JJ 322), relating to production schedules of cotton yarn and fabrics for export. Reference also is made to memorandum dated 26 September 1946 (No. BOTM 899-JJ-335), subject, Production Schedule of Knitted Goods for Export. The proposed schedules provide for the manufacture of cotton textiles for export from 119,279 bales of CCC Group J cotton imported from the United States and delivered to the Board of Trade by the U. S. Commercial Company. Raw cotton amounting to 93,146 bales was approved for release by the Board of Trade for manufacture of cotton textiles for export in memoranda from SCAP dated 18 June 46 (PT-4), 27 June 46 (PT-7), and 22 Aug 46 (PT-43). According to the schedules submitted 26,133 additional bales are required to complete the supply of raw cotton needed for these export programs.

2. The Board of Trade is hereby authorized and instructed to release 26,133 bales of raw cotton to the manufacturers indicated on the attached list (Table 1) from the following cargoes:

No.	Vessel	Arrival Date	Raw cotton released by this memorandum	Raw cotton released (bales) by previous memoranda
3	s/s Charles G. Coutant	24 Jun 46	5,268	10,979

			26,133 Bales	93,146 Bales

The Board of Trade will arrange to have the above raw cotton manufactured into yarn in accordance with the cotton yarn production schedules submitted with the reference memoranda. The quantities shown

BASIC: Memorandum for Board of Trade, dated 17 Oct 46, subject: "Cotton Textile Export Program - Third Quarter 1946."

on the attached list represent allocations of raw cotton approved by the Textile Bureau of the Ministry of Commerce and Industry.

3. Each spinning company will be instructed by the Textile Bureau to proceed with the processing of the released cotton into yarn under the general supervision of the Board of Trade. The counts and quantities of cotton yarn required for export as yarn and for manufacture into textiles will be produced in accordance with the mixing plan contained in memorandum to the Economic and Scientific Section, dated 19 Aug 46, submitted by the Japan Textile Association. For the purpose of permitting the greatest flexibility of operation within the scope of approved schedules, spinning mills may be authorized to mix or blend the imported cotton allocated on the attached table with the imported cotton approved for export manufacture allocated on a schedule previously submitted. CCC Group I cotton approved for use in the manufacture of textiles for export may not be mixed with any other raw cotton or with cotton waste that is not owned by the Board of Trade nor may it be combined with any other fiber or yarn in the manufacture of products to be used in Japan.

4. All cotton waste produced from the raw cotton released by this memorandum not reintroduced into the manufacturing process will be transferred by sale to the spinning companies by the Board of Trade. A plan prepared by the Textile Bureau for using such cotton waste should be submitted to the Supreme Commander for the Allied Powers by the Board of Trade as soon as possible.

5. The cotton yarn production schedule, which is hereby approved, requires that approximately 6,000,000 pounds of 20/1 cotton yarn be manufactured for export as yarn. All such cotton yarn will be put up in single skeins and packed in 400-pound bales for shipment under specific instructions of the Supreme Commander for the Allied Powers. Form 100 will be submitted as soon as possible.

6. Approval is given to a knit goods production schedule for which 892,000 pounds of 20/1 knitting yarn will be set aside pursuant to memorandum dated 25 Sep 46 submitted by the Board of Trade. The instructions pertaining to specifications, deliveries, et cetera, contained in memoranda to the Board of Trade, dated 26 Aug 46, (PT-49), and 16 Sep 46, (PT-73), will apply and will be followed by the Board of Trade in connection with the production and preparation of knitted cotton shirts (singlets) for export.

7. Attached cotton fabric production schedule and list of standard constructions (Table 2) are approved subject to the following exceptions and restrictions:

a. Approximately 4,300,000 yards of cotton fabrics made from CCC Group 1 cotton and produced prior to adoption of this list of standard

BASIC: Memorandum for Board of Trade, dated 17 Oct 46, subject: "Cotton Textile Export Program - Third Quarter 1946."

on the attached list represent allocations of raw cotton approved by the Textile Bureau of the Ministry of Commerce and Industry.

3. Each spinning company will be instructed by the Textile Bureau to proceed with the processing of the released cotton into yarn under the general supervision of the Board of Trade. The counts and quantities of cotton yarn required for export as yarn and for manufacture into textiles will be produced in accordance with the mixing plan contained in memorandum to the Economic and Scientific Section, dated 19 Aug 46, submitted by the Japan Textile Association. For the purpose of permitting the greatest flexibility of operation within the scope of approved schedules, spinning mills may be authorized to mix or blend the imported cotton allocated on the attached table with the imported cotton approved for export manufacture allocated on a schedule previously submitted. CCC Group I cotton approved for use in the manufacture of textiles for export may not be mixed with any other raw cotton or with cotton waste that is not owned by the Board of Trade nor may it be combined with any other fiber or yarn in the manufacture of products to be used in Japan.

4. All cotton waste produced from the raw cotton released by this memorandum not reintroduced into the manufacturing process will be transferred by sale to the spinning companies by the Board of Trade. A plan prepared by the Textile Bureau for using such cotton waste should be submitted to the Supreme Commander for the Allied Powers by the Board of Trade as soon as possible.

5. The cotton yarn production schedule, which is hereby approved, requires that approximately 6,000,000 pounds of 20/1 cotton yarn be manufactured for export as yarn. All such cotton yarn will be put up in single skeins and packed in 400-pound bales for shipment under specific instructions of the Supreme Commander for the Allied Powers. Form 100 will be submitted as soon as possible.

6. Approval is given to a knit goods production schedule for which 892,000 pounds of 20/1 knitting yarn will be set aside pursuant to memorandum dated 25 Sep 46 submitted by the Board of Trade. The instructions pertaining to specifications, deliveries, et cetera, contained in memoranda to the Board of Trade, dated 26 Aug 46, (PT-69), and 16 Sep 46, (PT-73), will apply and will be followed by the Board of Trade in connection with the production and preperation of knitted cotton shirts (singlets) for export.

7. Attached cotton fabric production schedule and list of standard constructions (Table 2) are approved subject to the following exceptions and restrictions:

a. Approximately 4,300,000 yards of cotton fabrics made from CCC Group 1 cotton and produced prior to adoption of this list of standard

constructions may be accepted for export upon submission and validation of the appropriate export application forms.

b. With the exception noted in (a), all cotton woven fabrics to be produced under this approved export program will comply with the minimum standards as to width, thread count, and weight specified in the attached Table 2.

c. The quantities of each type of cotton fabric produced from the raw cotton and cotton yarn set aside for this program will not vary by more than 5% (plus or minus) from the quotas indicated in Table 2.

8. The Board of Trade is requested to submit a statement to the Economic and Scientific Section on or before 23 October 1946 showing separately the quantities of each construction of cotton fabric produced by each mill during July and August. Weekly yarn and fabric production reports for each of the four weeks ended 28 Sep 46, as required by Raw Cotton Regulations, will also be submitted by 23 Oct 46. Upon receipt of advice regarding available supply, instructions will be given to the Board of Trade as to packing and other arrangements necessary to prepare these materials for export.

MEMORANDUM FOR: The Board of Trade (Boeki Cho) Ministry of Commerce and Industry, Tokyo

SUBJECT : Egyptian Cotton Aboard the S/S George Westinghouse

1. Reference is made to memorandum from the Japan Cotton Importers Association, dated 2 September 1946 (copy attached) subject as above, describing the condition of 14,393 bales of Egyptian cotton, arriving in Kobe, on 31 August 1946, aboard the S/S George Westinghouse. It is noted that the bill of lading for this cargo states that the marking of the bales is indistinct, the covers torn and straps broken.

2. Movement of this cargo of CCC Group 1 cotton to Osaka for further examination is hereby authorized. In order that a visual record of the condition of these bales of cotton may be obtained and filed for future reference, it is requested that several photographs be taken of typical groups of bales will also be taken so that the general condition of the cargo may be recorded.

3. This cargo of raw cotton, owned by the Board of Trade, cannot be distributed properly for domestic processing unless and until its description is definitely and satisfactorily established. Since it is intended that this shipment of imported Egyptian cotton will be used in the manufacture of industrial products to be retained in Japan, the Board of Trade is requested to separate the cargo into two lots:

a. Bales marked so that proper description is known;
b. Bales with indistinct and undecipherable markings.

Lot "a" will be distributed to mills, or stored in warehouses in accordance with Schedules to be prepared by the Textile Bureau of the Ministry of Commerce and Industry and submitted to the Economic and Scientific Section by the Board of Trade as quickly as practicable. Lot "b", consisting of unknown grades and staple lengths, will be examined and classified by a staff of expert cotton classers employed by the Japan Cotton Importers Association. A Cotton Arbitration Committee will be established by the Board of Trade, to consist of one representative of the Cotton Spinners Association, one representative of the Japan Cotton Importers Association and a third member to be selected by the other two (2) members and who will act as chairman of the Committee. The decisions of this committee, with respect to the classification of CCC Group 1

230

cotton included in lot "b", will be final. A report of the examination and the action taken by the arbitration committee will be prepared by the Japan Cotton Importers Association. After examination, all cotton included in lot "b" will be distributed or stored in accordance with similar Schedules prepared by the Textile Bureau as for lot "a".

4. Three (3) sets of the photographs requested in paragraph 2, and three (3) copies of the report of the arbitration committee, specified in paragraph 3 of this memorandum will be submitted without delay to SCAP, General Headquarters, attention of the Economic and Scientific Section, Foreign Trade Division.

5. All reasonable extra charges for services in connection with the photographing and determination of the description of this cotton, including classing, will be borne by the Board of Trade. MEMORANDUM FOR: The Board of Trade (Boeki Cho) Ministry of Commerce and Industry, Tokyo

SUBJECT : Short Landed Cotton

1. Reference is made to your memorandum, dated 10 September 1946, subject as above, calling attention to shortages reported by the Japan Cotton Importers Association in the discharge of six (6) cargoes of imported raw cotton.

2. This problem has been presented to General Headquarters, Supreme Commander for the Allied Powers by the United States War Shipping Administration. The attached copy of memorandum to the War Shipping Administration, is intended to reinstate the former practice of having a notation made on the delivery receipt by the Importers Association, showing any short or excess delivery. In endorsing the statement of the Importers Association, the ship's master can indicate that a separate check and tally on behalf of the ship was not made. This means that the ship's master calls attention to the fact that the count is attested to only by the consignee.

3. With respect to the quantities of raw cotton definitely established as not included in the cargoes when the records of unloaded cotton are checked with the bills of lading, it is permissable for the Board of Trade to adjust its bookkeeping accounts for such cargoes to the extent necessary to bring them into line with the quantities actually arriving at or released to mills, or stored in warehouses for future use. This action should not be taken until all movement of a given cargo has been completed. Cotton in transit cannot be released to mills until it reaches its destination.

4. Advice will be communicated with respect to the filing of claims for shortages after a conference is held by the Foreign Trade Division and the U. S. Commercial Company with the Board of Trade.
