TO : GOVERNMENT SECTION, GENERAL HEADQUARTERS, SUPREME COMMANDER FOR THE ALLIED POWERS.

FROM : Public Office Qualifications Appeal Board.

SUBJECT: Report on Examination of Appeal Cases and Petition thereon.

5 October 1950

1. The Public Office Qualifications Appeal Board has accepted applications for special remission in 32,091 cases since the Cabinet Order concerning Special Remission for Persons Designated as Falling under the Memorandum was promulgated on 8 February 1949. During the intervening period of one year and over a half, the Board has held about 120 meetings and has completed the examination of all the cases, with the exception of 94 cases which admit of no examination.

Details follow:

1. Persons designated as falling under the Memorandum..... 206,029

2. Persons who have applied for special remission..... 32,091

Breakdown:

(a) Persons favorably decided upon 10,094

(b) Persons unfavorably decided upon 21,868

(c) Persons whose applications have been returned without examination owing to their death or at their request 35

(d) Persons whose cases do not at present admit of examination owing to the inadequacy of the documents submitted 26

(e) Memorandum cases placed outside the scope of the Board by order of the GHQ 68

II. How Examination Conducted by the Board.

1. In accordance with the provisions of the Cabinet Order, the Board has examined each individual case, with a view to deciding whether or not it involves any "gross injustice", with the results given above. The standards of examination common to these decisions are generalized below.

In cases where designation under the Memorandum has been found to be erroneous, decisions have, of course, been made in favor of special remission.

There are other cases where the persons concerned fall, in point of superficial formality, under the various provisions concerning purge, their designation under the Memorandum not being technically erroneous, but where the examination conducted with a view to getting at real facts has shown them to be free from liability to the designation. In such cases, consideration has also been given to the precedents set by the former Appeal Board, and decisions have been made for special remission, as instances of "gross injustice". In making the above-mentioned examination aimed at ascertaining real facts, the emphasis has been placed upon the under-mentioned factors, all of which have been taken into consideration in arriving at decisions.

(a) Circumstances of Appointment.

Appointment to a post was not due to the will of the persons concerned. Despite his repeated refusal, he had no alternative but to accept the post owing to the circumstances for which he was not responsible.

(b) Actual Part Taken.

i. The term of office was so short that there was practically no room for actual activity.

ii. There was practically no actual activity on account of such causes as absence or illness, regardless of the term of office.

iii. There was some actual activity, but this activity, in its nature, involved the slightest responsibility.

(c) Trends of Thought.

i. The persons concerned was specially characterized by peaceful and democratic trends throughout his career.

ii. The persons concerned had evident instances where he was subjected to pressure from other persons because of his anti-military or anti-war thought and action.

With regard to some applicants for special remission, it is believed that, if they are released from designation, they will make a considerable contribution to the self-support and reconstruction of Japan. This point, in addition to the above-mentioned factors, has been taken into special consideration by the Board in examining their cases.

2. Examination by the Board has been conducted on the strength of the reasons for application given by applicants, the testimonies and certificates of the persons concerned and other evidences submitted by applicants, the statements of explanation and reports tendered by the Prefectural Governors concerned, and the data collected by members of the Board and by the Executive Office.

It need scarcely be stated that in this examination the Board has never been swayed by any particular political party or any other influence.

Further, though the Board is an agency of the Government, it is, from the very nature of its duties, entirely independent of the Government insofar as its decision on cases is concerned, and has completed its function without receiving any direction or interference from any Government authorities.

III. Examination by GHQ Authorities.

As already stated, the Board has completed the examination of all cases, with the exception of 94 cases which admit of no examination. Of those cases, the Board is grateful to note that a favorable decision has recently been made by the GHQ in regard to the special remission of reserve officers. At the same time, it is to be wished that cases belonging to other categories may also receive early attention from the GHQ authorities, in view of the under-mentioned circumstances.

(a) A period of four years and over eight months has elapsed since the Memorandum of 4 January 1946 was issued, and most of the purgees have been under designation for two years and a half to three years. During this period, there have been means of redress such as by the filing of complaints or by recourse to the former Appeal Board, but many purgees have not availed themselves of those means of redress because they did not know of such means or for other reasons. As a result, it is regrettable to note that even those whose designation has been found to involve "gross injustice" should for so long be left under the

restraints of the purge system. Moreover, these persons include not a few who are capable of making a worthy contribution to the healthy democratization of Japan through their exertions for local autonomous entities or in other spheres of society. It is believed to be in the interest of still better relations between the United States and Japan, as well as of Japan's self-support and reconstruction, that they should be released from designation as soon as possible.

(b) The appeal cases examined by the Board include the applications for release from designation accepted during the period from 11 May 1948 to 2 February 1949, and the applications for special remission submitted under the Cabinet Order during the period from 8 February to 8 May 1949. In other words, these applications were all submitted a considerable time ago, ranging from one year and four months to two years and four months. It can well be imagined how patiently the appellants have been waiting for decisions on their cases.

As a matter of fact, the members of the Board, its Executive Office and the Prefectural authorities concerned have been receiving numerous petitions and inquiries from appellants expressing their anxious desire to learn when the results of examination will be announced. The Board is no less solicitous for such announcement to be made at an early date, having in mind both the appellants and the public at large. Having completed the examination of practically all the cases, the Board desires earnestly that the necessary procedure be gone through, enabling

the ealiest possible announcement of the results of examination; and ventures to appeal to the GHQ for generous consideration in this respect.

IV. Relaxation of Purge Criteria, and Memorandum Cases.

The Board wishes to express its desires on the above subjects on this occasion, though it is fully aware that they are beyond the scope of its function, and hopes that its desires may receive due consideration from the GHQ.

(a) The Board has been examining each individual appeal in accordance with the provisions of the Cabinet Order, and, in the light of the experience gained in the examination of numerous cases over a considerable length of time, believes that the under-mentioned persons designated as falling under the Memorandum had the slightest responsibility, and that it is scarcely appropriate that they should be subjected to the same rigorous restraints for a long time as other persons who were highly responsible. Accordingly, the Board thinks that the cause of propriety would be better served if they were removed from the purge criteria; and wishes that the GHQ may at early opportunity take such steps as it may consider appropriate. (Reference is requested to the document submitted by the Board to the GHQ on 4 November 1949, which deals with this matter at some length.)

i. Lower Army and Navy officers.

ii. Officials, on the level of County, City, Ward, Town and Village, of the Imperial Rule Assistance Association, the Imperial Rule Assistance Youth Association, the Ex-Servicemen's

Association, etc.

(b) The Memorandum cases have been placed outside the scope of the Board. However, the Board is given to understand that these cases are considerably different from each other in the Memorandum form and content, seemingly including some cases in which the persons concerned had comparatively little responsibility. The Board is fully aware that all these cases will be dealt with by the GHQ as it may think fit, yet the Board desires permission to express its earnest hope that the persons concerned may be given an opportunity of re-examination. It may be added that, if the GHQ permits the Board to submit data and other materials for examination, it will be glad to do so.

(T. TANIMURA)
Chairman,
Public Office Qualifications Appeal Board.

MEMORANDUM FOR MAJOR NAPIER

SUBJECT: Statistics on War Criminals

1. The attached tabulation of statistics on war criminals was compiled from information contained in a report forwarded to Government Section from Legal Section entitled "Far East War Criminals Roster, 16 Aug 45 to 19 Jun 50", and checknote LS to GS subject: War Criminals Serving in Sugamo, dated 22 Jul 50.

2. The figures in this tabulation are an estimate only. Accuracy cannot be assured for the following reasons:

a. Records of all persons now held in Sugamo have not been received from foreign tribunals.

b. No information is available for those still in prison in places other than Sugamo.

c. Information is not correct or complete as to persons arrested outside of Japan.

d. Information is not clear as to some persons released and/or repatriated. It is not known whether these persons were released and/or repatriated without trial or after completion of sentence.

e. Information as to those deceased is not clear. In all cases, it is not known whether these persons died before trial or while serving sentence.

Can you get an estimate as to "non-incarcerated"?

28 June 1950

MEMORANDUM FOR MAJOR

SUBJECT: Statistics on War Criminals

1. The attached tabulation of statistics on war criminals was compiled from information contained in report entitled "Far East War Crimes Roster, 16 August 45 to 19 June 50", forwarded to Government Section from Legal Section.

2. According to Legal Section, their report represents the best available information at Legal Section but is not complete or correct as to persons arrested outside Japan, and does not include persons arrested and still incarcerated.

3. Accuracy of the figures in tabulation is impaired further by the fact that complete details as to disposition is unknown for all persons listed on the roster.

War Criminals

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS
Government Section
Public Administration Division
Statistics & Review Branch

28 June 1950

MEMORANDUM FOR MAJOR

SUBJECT: Statistics on War Criminals

1. The attached tabulation of statistics on war criminals was compiled from information contained in report entitled "Far East War Crimes Roster, 16 August 45 to 19 June 50", forwarded to Government Section from Legal Section.

2. According to Legal Section, their report represents the best available information at Legal Section but is not complete or correct as to persons arrested outside Japan, and does not include persons arrested and still incarcerated.

3. Accuracy of the figures in tabulation is impaired further by the fact that complete details as to disposition is unknown for all persons listed on the roster.

J. D. M.

Purge Background

25 October 1949

MEMORANDUM FOR MAJOR HAPLER

SUBJECT: Radio WCL 95779 DA to SCAP dated 25 October 1949 (Part 2)

1. Figures given in this radio were correct as of April, 1948.

2. On 31 August 1949, out of 203,865 persons removed or excluded from public service, 1,535 persons were removed or excluded from key positions of high responsibility and influence in commerce, industry, finance, and agriculture; and 425 persons removed or excluded from positions concerned with financing or organizations involved in former colonial or Japanese-held territories. Thus 1,960 persons are presently purged from positions in economic and financial fields.

3. This summation substantiates the statement made in the radio that, "since date these statistics issued, no substantial changes taken place in no persons purged".

4. There was some adjustment of figures between Category E and Category G totals in the final summations which accounts for the decrease of Category E totals and increase in Category G totals after April, 1948.

ROBERT W. BONHAM
Capt. Inf.

27 October 1949

Mr. Welsh, Chief Fair Trade Practices Division, ESS, has the action copy of radio and he was informed that Government Section's only comment was that statement quoted in No. 3 above and statistics in part 2 of the radio are correct.

MEMORANDUM FOR THE RECORD

SUBJECT: Purge Appeals

1. As stated in Memorandum dated 23 July (tab A), the appeals process has been continuous in the provisions of SCAPIN 550 and implementing ordinances and cabinet orders of the Japanese Government. First Appeals Board was set up by Cabinet Order No. 65 of 1947 and functioned from 1 March 1947 until abolished by Cabinet Order No. 62 on 27 March 1948.

2. Over 1,070 appeals were directed to the Japanese Government during that period and were examined for validity of claims. Prior to 10 May 1948 the date of dissolution of the Appeals Board 14 persons were reinstated. The Prime Minister recommended 134 persons as a final action, of which 129 were approved by SCAP on 10 May, and the remaining 5 requiring additional research were approved by Memorandum on 19 July 1948. More than 700 additional appeals were received by the Japanese Government after the dead line for review. These cases have now been included with those directed to the second Appeals Board which was initiated on 8 February 1949.

3. During the interval between the two Appeals Boards additional petitions were directed to the Prime Minister of the categories of individuals described in paragraph 3 of memorandum mentioned above and 1,534 persons were released after examination of their petitions (reference tab b). The Inspection Section of the Prime Minister's Office conducted a detailed investigation of every one of these cases to substantiate the claims made. The releases were informally approved by this Section and each concerned appellant was informed of his reinstatement by letter and all names deleted from the purge records.

4. The data concerned with the number and types of appeals received by the so-called second Appeals Board established by Cabinet Order No. 39 of 8 February 1949 and progress of that body to date is attached as tab c.

MEMORANDUM

SUBJECT: Purge Appeals

The principle that any person purged by the Japanese Government pursuant to SCAPIN 550 could appeal on the basis of individual injustice has been preserved throughout the implementation of the Purge. In the beginning, appeals were by petition to the Prime Minister. Later, the Prime Minister, in order to receive proper advice for his decisions, set up an appeal commission. Over a period of a year, until it was dissolved by the Japanese Government, the appeal commission examined approximately 1700 cases, and as a result of which examination, the Prime Minister recommended to SCAP that 248 purgees be reinstated. This recommendation was accepted without exception.

Thereafter appeals continued to be accepted on petition to the Prime Minister on the basis of extreme injustice or error in original screening, and 1100 persons were reinstated on the basis of such individual appeals. Of these, 1000 were reinstated after 1 December 1948.

The purgees reinstated upon petition to the Prime Minister after dissolution of the appeal board fall generally into the following categories:

A - Reserve Officers, mistakenly presumed to be career officers;

B - ASTP trained type regular officers commissioned during the war; and

C - Miscellaneous categories purged through mistaken identity or clerical error in original records.

Again feeling the need of qualified assistance to the examination of appeals from the Purge, the Prime Minister on 8 February 1949 by Cabinet Order No. 39 established a Public Office Qualifications Appeal Board consisting of seven members selected from "qualified men of standing and experience."

Because of campaign promises recklessly made and the wishful thinking of affected individuals, plus some rather confusing reports from Washington, purged persons of all categories have presented appeals in great numbers on the premise that the Board would examine the structure of the legislation implementing the Purge as well as individual injustice under the present implementation.

Number of Persons Reinstated
from 11 May 1948 to 25 July 1949

Number of Persons:		A	B	C	D	E	F	G	TOTAL
1.	Central	-	1,432	-	1	-	-	2	1,435
	Local	-	-	-	7	-	-	4	11
2.	Central	-	13	-	-	-	-	-	13
	Local	-	10	-	-	-	-	-	10
3.	Central	-	-	-	-	-	-	-	-
	Local	-	38	1	12	-	-	14	65
Total	Central	-	1,445	-	1	-	-	2	1,448
	Local	-	48	1	19	-	-	18	86

Remarks: 1. Reinstated from 11 May 1948 to 25 July 1949.

2. Deleted from the purge list because they had been passed by Screening Committee, but remained purged owing to the later provisional designation and failing to submit counter-evidence.

3. Deleted from the purge list because they had been cleared by the Local Committees in the light of counter-evidence submitted prior to 10 May 1948, but they remained purged because the Prefectural & Government failed to notify the Central Government to the effect.

OKADA NORIKAZU

Of approximately 203,000 persons now listed as purgees, 31,190 have appealed. The tremendous physical labor of filing and cataloging that number of petitions has occupied the present appeal board until this date, and it has not yet submitted any formal recommendations to the Prime Minister. However, between 6 February 1949 and 7 July 1949, the board is reported to have held 25 meetings and to have tentatively reviewed 1717 cases, in the categories and with the tentative decisions indicated below:

Category	PETITIONS SUBMITTED Number (a)	Number of Purgees (b)	Percentage of (a) to (b)
A	0	71	0
B	5,839	118,406	4.9
1 (Army)	2,409		
2 (Navy)	1,602		
3 (M.P.)	1,825		
C	497	3,267	14.8
D	11,664	35,412	33.0
1 (I.R.A.A.)	5,604

MEMORANDUM FOR MAJOR NAPIER

SUBJECT: Comparative Analysis of Production Figures for Chemical Manufacturing Companies Affected by the Purge

1. The attached summation is designed to reflect the 1948 productive capacities against the same figures for 1940 for chemical manufacturing companies listed under Category G of the Purge Ordinance. The report covers all but three lesser companies from which a total of ten persons were removed through the purge and for which concerns production figures are not available. This summation was prepared from records furnished by the Chemical Industry Investigation Section of the Commerce and Industry Ministry, and submitted in report form by the Special Investigation Bureau of the Attorney-General's Office.

2. It is conceded that without additional information such as profit and loss statements, costs analyses, etc. and data on scientific and research status, no complete picture of the present state of business of any one of these companies can be developed. However, examination of the percentage of increase or decrease in production of the various products may reveal some basis for or against any claim that the removal of top officers of chemical manufacturing companies by the purge has had serious detrimental effect upon that industry.
