OFFICE OF THE LERIGH COAL AND NAVIGATION COMPANY OFFICE OF THE LERICH COAL AND NAVIGATION COMPANY, Philadelphia, January 15, 1934.

AM directed by the Managers of this Company to terms and conditions upon which they propose, during the shipping season of the present year, to deliver their coal by the cargo, on bound of vessels, at the Company's wharves on the Delaware, either in Philadelphia or at Bristol above the city, as may be most convenient for the Company when vessels shall apply for loading.

Proce for any quantity not less than 50 tons and 1,000 tons, \$5.60 for hard coal, and \$4.50 for soft coal, per ton \$6.240 lbs; 1000 tons and ulwards, \$4.75 for hard, and \$4.33 for soft.

84.93 for soft.

At the above named prices the coal will be carefully taked before shipment, but, if taken untaked from the coat, as it comes from the mines, the price will be 25 cts.

needs, less.

y quantity not exceeding 100 tons, payment to
you be not the let November, 1934; above that quantity,
including the first November, 1834; the other half on he lst January, 1835. ie 1st January, 1933. The character of the Lehigh coal is so well known, tha it is not deemed necessary to subjoin any recommenda-tion of its quality. It is sufficient to state, that for parlor grates, stores and culmary uses, no coal is more generally approved to this place; while as fuel for steam engines, for

milting, heating brewers' and dyers' coppers, nail-works, foun fries and rolling and sitting millt, it has decidedly the preference on account of its greater durability and lessiliness, to the extent of more than two thirds of the aggregate consumption of anthracite coal for those purposes in Philadelp, is and its vicinity.

The Lehigh soft coal ignites more easily and burns more

fore'y than the hard-and on that account is preferred by many consumers.
In case vessels are to take in at Bristol, they will be tow ed up there in from two to three hours, by the Company's steam boats, without expense to the Captains or owners, and when loaded will be towed down the same way, also

free of charge.

Every evertich will be made to give vessels the utmost possible deep rich.

It is to be an legislood that they must take their regular turn to look on fersions that they must take their reginar turn to load—and noclaim for demurrage should they wast for their turn, of claim for any other cause beyond the Company's control can be all weed. The Managers, how-ever, believe that the facilities possessed by the Company this year, will emble them to conduct their business with

this year, will entole them to conduct their ousmess with increased regularity and despatch.

No adventage of credit being gained by delay, it is respectfully suggested that orders should be sent early in the soason, when freights and insurances are generally

With every disposition to accommodate their correspondents, the Managers will use their best enceavors, as hiretofore, to procure vessels, when so requested, on the lowest terms, but they would recommend that their customers should engage vessels for themselves whenever

practicable.

The Managers have further directed me to say that, should they make any reduction this year from the prices for the export trade, named in this circular, persons giving crevio is orders shall receive the bent fit of such reduction: with a same time the Manager description. his the same time, the Managers do not preclude themselves from advateing the price with the advance of the senson, hould they does it expedient; but orders as epted will not

be subject to any advance.
