DECLASSIFIED E.O. 12065 SECTION 3-402 / MADG NO.\_\_\_\_ Is Our Guard on the Sea Secure? "Sunday Mainichi", April 22 (Part II) Before the outbreak of the Morean war These Koreans who entered Japan unlawfully usually left such ports as Pusan, Mosan, and Tonying, which were all on the Tsushima Strait, and some others even left such distant ports as Inchon on the Yellow Sea side, and Wonsan on the Japan Sea side. They generally attempted to land at Yamaguchi, Fukuoka, Saga, Nagasaki, Shimane, Tottori, and Kagoshima (in the order of their popularity among the Koreans). Alien Registration The Government revised the law for-alien registration by Cabinet Order on December 3, 1945, to renew the registration of foreigners in Japan. Since the illegal entrants never say they are illegal entrants, the only way to estimate their number is to figure how many do not have alien registration cards. So it follows that the illegal entrants make every effort to obtain the registration cards. It is reported that at present they are sold for 10,000 yen to 50,000 yen a piece. There have been a number of cases in which local officials were charged with forging the cards to sell them to the Koreans. In view of these facts, there are plans to revise the present regulation so as to require renewal of the registration cards oftener than once in every three years. According to the statistics compiled by the Korean Governor General's Office in 1938, there were more than 13,700 Korean lepers. A general estimate was that there was one leper for every 1,000 Koreans, which meant there were no less than 20,000 of them in all. The fine leper asylum built by Japanese on Ojikashima which had a capacity for 5,770 patients, appears to be ruined now, and consequently many of the Korean lepers want to live in Japanese leper asylums. According to a report by Dr. Kensuke Mitsuda, director of the Aiseien Asylum on Nagashima Island, there are 500 Korean lepers now in Japanese asylums, and he says that besides them are more than 700 lepers hiding in this country. Among the inmates of the Aiseien Asylum, there are seven Korean lepers who are considered illegan entrants. It gives us a chill on the back to think that these illegal entrants were roaming about in the country before they were arrested and accommodated in asylums.

DECLASSIFIED E.O. 12063 SECTION 3-402 / MIDG NO. \_\_\_\_\_\_

According to reports by the Committee for Administrative Inspection, these illegal entrants who are leper cases are released after being arrested because there are loopholes in laws and regulations and lack of coordination among government agencies concerned. Another horrible disase often brought into Japan by Korean illegal entrants is small-pox.

Regarding the situation of smuggling, the following statistics have been compiled by the National Rural Police.

There were 179 cases in 1948, 817 cases in 1949, 570 cases in 1950, and 22 cases up to the end of February this year. Broken down according to nationalities, 55 per cent of the persons arrested for smuggling-in are Japanese, and 40 percent are Koreans. For smuggling-out, 60 percent of the offenders are Koreans and 35 percent Japanese.

## Goods Smuggled

As for the kind of goods dealt with by the smugglers, the following figures are available: Scrap metal makes up 55 per cent of the goods smuggled in, foreign tobacco, 20 per cent, pentcillin and streptomycin, 15 per cent, and other items included sugar, Chinese herbs, rubber goods, etc.

As for the goods smuggled out of Japan, padlocks made up 45 per cent of the total volume, stationeries 25 per cent, drugs, 10 per 10 per cent, and the rest was fibrous goods, lumber, machineries,

tea, buttons, chinawares. (To be continued)
