KCAR PH Form 3 - 1

SUBJECT: No. 1A Telegraphic Report.
Rumored case of Typhoid Fever among the crew of
the Zensho-Maru.

TO : Chief, Kanto Civil Affairs Region.

Concerning subject case, which was stated in the January 24 issue of the Mainichi Newspaper, we hereby submit to you the following detailed report.

1. As we heard a rumor that there occurred a case of typhoid fever among the crew, consisting of the captain and eight others, of the Zensho-Maru, which went into the Showa Dock at Shimizu Port on January 15, we visited the ship in the afternoon on January 19. We conducted physical and bacteriological examinations on the crew and disinfected the vessel, but we could not find anything clinically wrong with them. For cautions' sake, however, we ordered all the crew isolated in their cabins.
2. On January 24, the Kanagawa Prefectural authorities sent us word that the tunnies unloaded from said vessel had been shipped to a Numazu cannery. On hearing the report, we dispatched a sanitation officer to the spot for investigation.
3. One of the crew now under surveillance had a fever, so he was isolated from the other 7, who have nothing the matter yet.
4. As for the tunnies shipped from the Zensho-Maru, we found that the shipment, totaling 919 kan, was made to the Hayashi-kane Fishery Co., Ltd. for cannery on January 9. Some of the canned tunnies were shipped to Yokohama from Shimizu on board the M.S. Peter Maersk for export on January 25, and the other are now in storage at the Amano Shipping Agent in Shimizu.
5. There was found nothing wrong with 91 workers of said cannery. The six workers who handled the tunnies in question show nothing suggestive of illness.
6. On January 26, the Cannery Plant was ordered disinfected and cleaned. Tomorrow, on January 27, preventive injections will be made to all the workers and their families.

- 2 -

7. As above reported, we can not find any indications of typhoid fever, yet.

FOR GOVERNOR

I. KAMEYAMA

Chief,
Liaison Office,
Shizuoka Prefecture.

SHIZUOKA PREFECTURAL GOVERNMENT

January 27, 1950.

SUBJECT: The Telegraphic Report on the Outbreak of
Influenza.

TO : Chief, Public Health Section,
Kanto Civil Affairs Region.

THRU : Shizuoka Liaison Office.

The report:- under the look-out for the out-
break of influenza, the signs to spread is seen recently,
and the cases during Jan. 10 - 25, 1950, show such figures
and situation as stated in enclosure.

FOR THE GOVERNOR

I. KANEYAMA

Chief,
Liaison Office,
Shizuoka Prefecture.

THE REPORT OF INFLUENZA CASES

1. The status of influenza cases:

The period: Jan. 10 - 25, 1950
Total cases: 1,384 (Serious: 14
(Slight: 1,370

The most of cases are seen in boys and girls of primary and middle schools.
The schools with numerous cases are as follows:

Hamamatsu City Seien Girls' School:

100 cases out of total 1,279 students.

Shimada City Daini Primary School:

165 cases out of total 1,009 students.

Shizuoka City Tamachi Primary School:

111 cases out of total 2,097 students.

The said schools are not closed.
Yet there is a fear to spread all over the prefecture.

2. Symptoms:

Cases are generally slight with a fever around 39 degrees, headache and throatache, but they recover in four days or a week.

3. Prevention:

- (1) Preparation to examine influenza virus is under way.
- (2) The activities of prevention officials are to be strengthened.
- (3) Strong enforcement of look-out and prevention in keeping close liaison with each health center, medical association, school, factory and working place.
- (4) Education campaign for the public as to the prevention through radio or by means of newspapers.

4: Blood confirmation?

SHIZUOKA PREFECTURAL GOVERNMENT

Jan. 25, 1950

WZ

SUBJECT: Disposition for the rumored outbreak of typhoid fever in the vessel, the Zensho-maru.

TO : Chief, Public Health Section,
Kanto Civil Affairs Region.

The steps taken by the Prefectural Government authorities in the outbreak of typhus in said vessel are as follows:

As we heard a rumor that a case of typhoid fever broke out among the crew of the Zensho-maru, which is now in the Showa Dock at Shimizu for repair, we disinfected the vessel and examined the bodies and the nightsoils of the crew in the presence of the local health center and quarantine and municipal officers in the afternoon on January 19. The crew were the captain and eight men.

Clinically, we could not find anything wrong with the crew, but we isolated them in the vessel for cautions' sake.

FOR GOVERNOR

I. Kameyama

I. KAMEYAMA

Chief,
Liaison Office,
Shizuoka Pref.
