Dear Sir:

A considerable amount of confidential material identified as:

a. Form WMC-98, War Manpower Commission, subject: "Biweekly Plant Report on Status of Manpower",

b. Form ES-270, War Manpower Commission, U.S. Employment Service, subject: "Report of Current and Required Employment",

has been received at the AGO Kansas City Records Depot for review and regrading of security classification.

Although the material contained in the reports in question no longer requires safeguard by security classification, the Department of the Army does not have authority to revise the assigned classification. It is requested that the Department of the Army be authorized to review and regrade security classification of all documents falling within the above described categories.

Dear Colonel Clayton:

Subject: AGAD 312.1/Security
(49-115)

Reference is made to your letter of April 6, 1949, transmitting an inquiry from the British Joint Services Mission concerning the declassification of certain documents.

It is our understanding that the inquiry was submitted on the assumption that the documents in question were of United States origin, but we have been unable to identify them as United States publications. We were advised by one source, however, that they may have been originated by the Political Intelligence Division of the British Foreign Office. In such case, their declassification would be a matter for determination by the British Government.

Sincerely yours,

M. A. Fagan

Dear Sir:

We have recently received an inquiry from the Office of the Adjutant General, Department of the Army, concerning the classification of the following material:

1. Form WMC-98, War Manpower Commission, "Bi-weekly Plant Report on Status of Manpower." (No dates indicated)

2. Form ES-270, War Manpower Commission, U. S. Employment Service, "Report of Current and Required Employment." (No dates indicated)

The Department of the Army has a considerable amount of this material, now classified as confidential, at the AGO Kansas City Records Depot and has requested information as to the downgrading or declassification of these reports.

It is our understanding that the reports originate in your office, and we should appreciate your advising us as to the classification which you consider appropriate for them.

Very truly yours,

Declassification of certain Division of Control papers regarding Brevets Aero-Mecaniques S. A. Co. V. Secretary of the Army; Tax Court Docket No. 361-R.

Reference is made to your memorandum of May 11, 1948 regarding the above subject.

The Munitions Division perceives no objection to the declassification of any of the attached papers which were initiated in the Division of Controls (now defunct) or addressed to that division or officers thereof, for the purpose of providing photostatic copies to the Department of Justice.

However, it is my understanding that action with respect to the declassification of the attached material must be concurred in by the appropriate geographic desk (EUR) and CX insofar as coded communications are concerned.

FC in the Office of Controls has informally advised me that they have no objection to the declassification. As you are doubtless aware, forms for the purpose of accomplishing declassification are available in the Department and may be executed by your office on the basis of your memorandum such as this.

SUBJECT: Regrading of Security Classification

TO : Secretary,
State-War-Navy Coordinating Committee,
Security Advisory Board,
Washington 25, D. C.

Reference is made to your memorandum of 8 July 1948 transmitting a restricted letter with 3 inclosures from Department of Commerce dated June 30, 1948, addressed to Secretary, Security Advisory Group regarding declassification of Clearing Office reports.

The Department of the Army deems necessary the continuation of the classification of RESTRICTED on the summary data on installations furnished by it to the Department of Commerce for the latter's current and earlier Clearing Office Reports. There is no objection to unclassified extraction from earlier reports of material not revealing these data.

The Clearing Office suggestion that the data on installations be omitted from regular reports and issued in a classified supplement appears to the Department of the Army as an action that might well be taken.

Dear Mrs. Blake:

There is attached a copy of a memorandum from Mr. John Shirer, Director, Clearing Office for Foreign Transactions, Office of Business Economics, regarding the declassification of certain data on U. S. Government transactions in all foreign countries. As stated in the memorandum these data would have a wider usefulness if the security classification could be removed and it would be appreciated if you will inform this Office whether there is any objection to the declassification of these records. For your information, copies of the May, 1948, issue of Foreign Transactions of the U. S. Government, Parts 1 and 2, are also enclosed.

SUBJECT: Downgraded and Declassified War Contracts

In order to facilitate their handling of war contracts, arrangements have been made to have the General Accounting Office placed on distribution for downgrading and declassification notices on contracts entered into by the major branches of the Department of the Navy. Only in some instances are these notices accompanied by specifid instructions covering the type of supporting papers affected by the downgrading action.

As indicated in the attached letter, the General Accounting Office is anxious to secure some clarification as to which of the documents it customarily handles are included. It will, therefore, be appreciated if you can supply this office with the information requested by that agency.

Dear Mrs Blake:

With respect to the efforts of this Office to secure current records of downgraded or declassified war contracts, you will recall our conversations relative to the nature of documents which properly may be included in the program.

It is understood, of cours, that the downgrading or declassification applies to the particular basic contract, purchase order or other instrument of agreement between the Government and a second party for the procurement of supplies or services, as well as all supplemental agreements modifying the basic instrument. In addition, instructions have been issued by the services to the effect that all papers and property subordinate to the particular contract are properly for inclusion.

In the latter connection, it is assumed that all vouchers covering payment under the applicable contracts fall within the category of subordinate papers. However, before any action is taken by this Office with respect to such vouchers, I would appreciate advise from the Security Advisory Board as to whether my assumption is correct.

Will you be kind enough to have the matter looked into and advise me with respect thereto at an early date.

ATTENTION: Miss Shanette G. Blake

Dear Miss Blake:

Reference your letter, 2 December 1947, regarding notices of downgrading of Signal Corps contracts.

Mr. J. Hess, Reconciliation and Clearance Division, General Accounting Office, 119 D Street, N. E., Washington, D. C., has been placed on the mailing list for receipt of all future notices of changes in the security grading of Signal Corps contracts.

The procedure used by the Signal Corps Procurement District in recording the changes made in the security classification of Signal Corps contracts makes it impossible to furnish a complete list of contracts which have been declassified in the past or copies of previous notification letters changing the security classification of a contract. It is necessary to know the contract number in order to determine its current security classification.

In order to bring the General Accounting Office files up to date in regard to the proper security gradings of contracts, it is recommended that a list giving contract number of classified Signal Corps contracts in their files be furnished with a request that the latest security classification be indicated by the Signal Corps.

Sincerely yours,

H. C. WILLIAMS

SUBJECT: Classification Downgraded, Documents Listed

TO : Chief of Ordnance

1. The security classifications of Ordnance contracts with certain allied papers are downgraded as indicated below. In the case of each designated contract this action includes the documents listed in a below and excludes the items listed in b below.

a. Included (downgraded by this action):

(1) Basic Contract, purchase order or other instrument of agreement between the government and a second party for the procurement of a commodity, together with all supplemental agreements modifying the basic instrument.

(2) All correspondence with reference to execution and settlement of the designated contract except as noted in b below.

(3) All property and finance papers subordinate to the designated contract.

b. Excluded (these items retain current classification):

(1) Documents classified by authority outside the War Department.

(2) Literal texts of previously encrypted messages when this action would operate to downgrade them below CONFIDENTIAL.

(3) Reports of investigation of credit, loyalty or fraud.

(4) Specifications, drawings, instruction manuals or parts lists pertaining to the product of the designated contract or inclose in the contract file.

(5) Engineering data on performance, acceptance tests or manufacturing techniques; samples or illustractions of the product of the contract or inclosed in the contract file.

CONFIDENTIAL

October 13, 1942

Honorable John J. McCloy
Assistant Secretary of War
Washington, D. C.

Dear Mr. Secretary:

Some days ago Elmer Davis wrote the President in his own behalf and mine recommending that the President come out with a fairly strong statement in behalf of the loyal American citizens of Japanese descent and that the President authorize the enlistment of such persons in the Army and Navy. A few days later at luncheon, the President told Mr. Davis that he would be willing for citizens of Japanese descent to enlist in the Army for restricted duty. I believe the President's thought was that at first the men would be assigned to functions not normally handled by soldiers and if everything went well there they could later be assigned to more normal tasks.

This letter is written to you only for your personal and confidential information and not for official action because, of course, if the President wishes to follow through on the matter he will speak directly to Secretary Stimson or yourself.

Sincerely,

/s/ M. S. Eisenhower

M. S. Eisenhower
Associate Director
