Sweep 2 E launched at 1215 and effected rendezvous altho unable to join with remainder of sweep from U.S.S. HAWK. So 2 VF-9 divisions proceeded alone.

Approach was made on course 355°, speed 170 knots, to INUBO SAKI, MIYAZAKI Peninsula, JAPAN. The 2 divisions were at 7000', just below the solid overcast, visibility being about 14 miles, when they arrived over INUBO SAKI, being in defensive positions.

Almost immediately the first division leader's and his wingman's plane were hit by heavy AA. Apparently the first burst was effective.

The divisions broke away and returned to base without incident landing at 1445.
