(O) RESULTS: (For all hits claimed on ship targets and for land targets of special interest draw diagram top or side view or both, as appropriate showing type and location of hits. For all targets give location and effect of hits, and identify by numbers above. Use additional sheets if necessary).

The concentration on Japs was located in a wooded are near Tugbok which contained personnel trenched, and gun emplacements. All bombs landed in the target with excellent coverage. One strafing run was made but results were unobserved due to smoke raising from fires that were started by the bombs. Small arms or light machine gun fire, meager and inaccurate, was recieved but none on our planes was hit.

Due to shortage on gas our planes were forced to to land at Malabang, Mindanae to refuel. They landed at 1315 and took off again at 1415.
