### EXECUTIVE GIVES AN ULTIMATUM

ESQUIMALT PROPERTY OWNERS COMPLAIN

Waterworks Co. Told Charter Will Be Amended if Reasonable

Troubles existing between the Esqui Newcastle, England, July 22.—Trains malt Waterworks Company and a on the North Eastern railroad are number of residents of Esquimalt disrunning again to-day and the great trict, regarding excessive charges England and spread to Scotland, throw- fusals of the company to give water ing thousands of men out of work, is supply to certain property holders, will, mier McBride yesterday, have to cause of their inability to get coal and handle freight, are gradually re-opening. Mines which closed down be ing. Mines which closed down be-cause the coal could not be shipped away will open as soon as the railroad the company's charter, as announced

In a few days things will be running normally again.

The railroad to-day is copgested with freight which for two days has provincial executive to protest against been accumulating in the yards. Pas- the treatment they have been given by senger traffic is being handled as the company. Theodore Lubbe, president of the Esquimalt Waterworks Company, was present also.

The deputation complained that the company had refused water conneccompany had refused water connections to a porperty owner for a proposed dwelling on Lampson street, while connections round the corner on Craigflower road wate agreed to. The owner of the property purchased a corner block at Lampson street and Craigflower road, and intended to erect three houses on Craigflower road, and one on Lampson street. The company agreed to allow him water connections for the Craigflower road houses, but refused to allow them to the Lampson street property. Another Lampson street property. Another Lamps street resident, Mr. McKenzie, on street resident, Mr. McKenzie, on lot 10, has water connections to his lot, and the company has refused to give the same facilities to Mr. Butler, own-er of lot 8, situate about 200 feet away. Another purchaser of property on Lampson street proposes to sub-divide into town lots, and on application to,

Hoquiam, Wash, July 22.—One person is dead and two are missing as a result of a fire which destroyed the Hoquiam hotel early to-day and for some time threatened destruction to the business section of the city. The fire was brought under control at 5 o'clock and danger to adjoining buildings had passed.

Mrs. Olsen, aged 70, a guest of the hotel, was burned to death in her room. Two men, one a lineman named Junett, are missing and are believed to have perished in the burned hotel. The fire started 4n the hotel, an old wooden structure, shortly after midnight and soon was a mass of flames. A strong wind was blowing and carried embers toward the city. Water company and the Hudson's Bay company, and that individual owners.

Mr. Simpson, who owns the property proposed to be cut into town lots, in-formed the executive that there is trouble between the Esquimalt Water-works Company and the Hudson's Bay Company, and that individual owners were being held up to pay the piper on that account.

The premier, having heard the co plaints of the deputation, informed Mr. Lubbe that the matter would have to be righted within one month, other-wise the government would take steps to amend the charter of the water

R. T. Elliott, K. C., solicitor for the applicants, and A. P. Luxton, K. C., solicitor for the waterworks company. have agreed to get together for the purpose of reaching a settlement agreeable to all parties within the month time limit.

in the petition presented to the gov-ernment, after a recital of facts, the

petitioners pray:

# CIVIL LIST

LABOR MEMBER ATTACKS PROPOSAL

George Barnes Declares Royal Family is Extravagant-Commons Rejects Amendments

London, July 22.—George Barnes, La-porite, speaking in the House of Commons this evening, attacked what he called the "extravagances, of the royal family." Barnes opposed the proposed increase in the civil list unless the King and the Prince of Wales should surrender to the House of Commons treasury the revenues from the Duchies of Lancaster and Cornwall. "The royal income is excessive," said REMAINS UNSOLVED
Barnes. "The expenses of the royal household are enormous, the management is honeycombed with abuses and the system conceals a nest of parasites fattening upon the nation under the shadow of the throne."

The civil list asked for a total of 53,100,000. The revenues of Lancaster and Cornwall in 1908 amounted to 1723,000 and last year probably reached

said that the root of Barnes's objection seemed to be that royalty was over expensive.

Chicago, July 22.—One man was killed and another seriously injured when a switch engine crashed into a Nickel Plata passenger train-at Forty-third street. A number of passengers were bruised, but none were seriously hurt. The engineer of the switch engine was killed and the fireman hurt. The accident was caused by an open switch.

### ASK ESQUIMALT CO. TO NAME GOLDSTREAM PRICE

### Water Committee is Still Gathering Data-Sub-Committee to Ascertain Terms on Which Company Would Sell.

Following a couple of hours of dis-cussion, in which the Sooke Lake scheme was severely criticized, the cliffence water committee last night.

Continuing. Mr. Shallcross said that citizens' water committee last night the analysis of the Sooke lakes showed appointed J. J. Shallcross. Ald. Ban-that while the middle and upper lakes nerman and C. F. Todd a committee to ascertain the price at which the Esquimalt Waterworks Company will sell its undertaking to the city and the revenue and working of the company. A sort of "minority" committee fathered by ex-Aldermen Anton Henfathered by ex-Aldermen Anton Hen-derson, Gleason and Mason, was ap-pointed to inquire further into Sooke lake, the members named being Ald. Fullerton, Anton Henderson, John Meston, The meeting ended, as did its two predecessors, with requests from the committee for "more informa-tion."

As no quorum of the city counci was present the committee alone met. The report of H. M. Burwell, C. E., The report of H. M. Burwell, C. E., upon the maximum amount of power which can be developed from Sooke; cost of this development; the value of the horse-power so developed; the cost of the necessary five-mile tunnel from Sooke to Goldstream and the time required for the work, was before the

The main features of the report are estimates of cost, which makes the development of power unprofitable. Mr. Burwell comments upon the lack of data placed at his disposal and states that the estimated daily supply of 23.000,000 gallons from Sooke is apparently purely guesswork. He states that the amount of power that can be obtained from the development of the Sooke watershed is impossible of estimation from the limited data at his disposal. The cost of delivering water to a generating station on Saanlel Inlet sufficient to develop 2,000 h. p. is given as \$1,600,000. The revenue from 3,000 h. p. is estimated at \$60,000 which, at 6 per cent, would justify only an expenditure of \$1,000,000. The cost of a tunnel from Sooke to Goldcost of a tunnel from Scoke to Gold-stream is estimated at 130 a foot, this figure being given as the lowest at-which work could be safely started. The time occupied in constructing this tunnel is estimated at 1,208 working days, on four years.

Cost of Project

J. J. Shallcross, speaking to the port, pointed out that the mayor's let-ter of instruction to Mr. Burwell did not cover all the ground taken in the committee's resolution regarding the Sooke scheme. The engineer had been asked to make a report on Sooke as asked to make a report on Sooke as a power proposition and not as a water supply. It having evidently been con-sidered by the city council that the report of A. L. Adams covered this latter phase of the subject. Mr. Bur-well hardly did justice to the possi-bilities of Sooke, because he estimated two-thirds of the total cost of develop-ment for power when much of this cost ment for power when much of this cocould be applied to the developmen

Taking Mr. Burwell's figures on power production Mr. Shallcross esti-mated the cost of diverting the waters of Sooke for power as \$226,000 in addi of Sooke for power as \$25,000 in addition to the cost of developing the water supply. At 5 per cent this amount would cost \$11,000 in interest yearly and if \$.000 horse-power could be sold at \$20 a.b. p. yearly the revenue would be \$60,000. Deducting the interest, \$11,500.

Mr. Shallcross referred to the lack of data before the committee regard-ing Sooke and Leech River. There were no surveys and no rainfail esti-mates available, yet these were abso-lutely essential for the committee to decide on the merits of the proposi-tions named. He believed that the de-velopment of Sooke lake would cost velopment of Sooke lake would cos \$2,000,006. In Mr. Burwell's report th \$2,000,000. In Mr. Burwell's report the cost of bringing water to Sannich Inlet was estimated at \$1,374,000. The pipe line to the city which would be necessary to bring the water in was not figured on in the report, but Mr. Adams had placed the cost at a total of \$400,000. counting engineering, and contingencies. From the two reports it was therefore shown that the cost of bringing the water in would be \$1.961,000. in round figures \$2,000,000. on which an annual payment of \$100,000 would be necessary. As in 1999 the city's revenue from water was only \$1.900 over expenditure it was evident that the \$100,000 interest would have to come from higher water rates or

Melbourne, July 22.—Hugh Mahon, who in 1881 shared imprisonment at Kilmainham with Mr. Parnell, will move an address in the House of Representatives for cluminating or ine words in the accession declaration reflecting on the beliefs of Catholies. Both Premier Pisher and former Premier Deakin (avor the modification, but it is not certain whether the House will adopt the address in the form proposed.

#### CRIPPEN REPORTED IN THE PYRENEES

Missing Dentist Believed to Have Taken Refuge in the Republic of Andorra

(Times Leased Wire.)

Condon, July 22.—Dr. Hawley H. Cripfien, the American dentist, whom the
police charge with having murdered his
wife at their Islington home, is to-day
hiding in the Andorra Republic, in the
Pyrenees, according to dispatches received here.

If these reports are true, the police say
their chances for finding and arresting
Crippen are greatly reduced. The Andorra Republic observes practically no
rules of extradition, and criminals who
have fled to its fastnesses seldom have
been captured, so long as they remained
within the confines of the republic. The
whole republic covers an area of only 175
miles, but practically every foot of the
territory is suited for hiding. The republic has been independent since the
regime of Charlemagne. Communication
with the outside world has been limited,
and the inhabitants always have shown
an inwillingness to surrender foreign
criminals.

It is believed that Crippen fled directly

criminals.

It is believed that Crippen fled directly to Andorra after leaving the Hotel Vernet at Les Baines, France, where his alleged presence was reported.

#### FREIGHT INCREASES IN WEST SUSPENDED

### PLEADS GUILTY TO CHARGES OF THEFT

Thief Who Robbed Local Clergyman and Others is Dealt With

Charles Kersley, who was arrested at his house on Vining street last Tuesday, where the attic was found full of goods of various description believed to have been stolen, pleaded guilty in the police court this morn ing. Two charges were heard agains months' imprisonment on each, making six months in all but the sentences running concurrently.

The first charge was stealing curtains rugs, and other goods, valued at \$50 from the home of Rev. A. E. Roberts. The second charge was stealing a num. The second charge was stealing a number of rolls of walipaper valued at \$17 the property of John Saunders.

George Merphy appeared for accused and put in evidence of character. He said accused had been fourteen years in the British navy, and had an honor-able discharge. He had been an industrious man.

City Prosecutor Harrison—That is evident.

Mr. Morphy called George Powell and Harry Bickersdite, who both said they had known Kersley for about three years and had found him industrious and honest.

The magistrate, in announcing the sentence, said it was another case of where the innocent wife would be compelled to suffer for the actions of the guilty husband, but that fact could not interfere with the course of the law Mr. Morphy had asked for a suspended sentence but His Worship did not think

### ONLY FEW AGREEMENTS HAVE BEEN SIGNED YET

City Awaiting Further Plans Before Completing Scheme for Laying Wires Underground

Only a few agreements have been Only a few agreements have been made so far between property-holders and the corporation, respecting the erection of poles in the centre of blocks to carry electric light and telephone wires and the laying of conduits through private property. Several weeks ago a large number of forms were sent out but so far, although it is understood that the scheme is generally approved by the property owners, pro-bably less than half a dozen have been signed.

Mayor Morley stated this morning that the city was awaiting further plans and information from the comthe hands of the city engineer shortly and that the full scheme could then be drafted out.

The city has commenced work on Douglas street, where two conduits with from four to six ducts are being laid. These conduits will be laid from Humboldt to Fisguard street, one being utilized for telephone and the other for electric light wires. They consist

city for the paving of Yates street be-tween Douglas and Blanchard and this work also includes the laying of con-duits. The first conduit constructed in work also includes the laying of con-duits. The first conduit constructed in the city was along the causeway, where a tunnel, 4 feet by 6 feet, ex-tends the whole length of the new pay-ing from the post office to Belleville street. From this the wires are run up to the electric cluster lights recent-ly installed,

#### COINCIDENCES MARK

PARALLEL DESTINY

City Solicitors of Victoria and Vancouver Have Trod Similar Roads

A series of remarkable coincidences in the careers of Fred A. McDiarmid, city solicitor of Victoria, and John G. Hay, recently appointed to a similar

Both of these clever young lawyers were born in Ontario in November wenty-eight years ago, Mr. McDiar-nid being Mr. Hay's senior by a margin of only two days. Although coming from different parts of the eastern proproperty in the castern province they happened to make rapid progress at their schooling and aspired to law as their profession. They first met as students at Osgoode Hall and since that time they have travelled almost identical roads.

Both sat for their examinations on the same day and passed and as they

the same day and passed and, as they were only nineteen at the time, they had to wait nearly two years before they could practice. On November 20th, 1904, just a few days after celebrating their majorities, they again met and were admitted to the bar together.

the position of city solicitor in Vic-toria and had the satisfaction of know-ing that Mr. Hay was behind him in honors for once. The news of Mr. Hay's appointment as city solicitor of Vancouver two days ago has renewed the interest of both in the apparent similarity of their destinies. similarity of their destinies.

#### FARMERS DECIDE TO BUILD FLOUR MILLS

Will Endeavor to Break Grip of the So-Called Milling

Pendleton, Ore, July 22.—To break the grip of the "milling trust." over \$400,000 has been subscribed by wealthy farmers of Umatilla county and the farmers of Umatilla county and the Walla Walla valley toward the conto H. H. McLean, president of the local Farmers' Union. McLean says the new "farmer combine" will likewise cause to be constructed a power plant to supply electricity to operate the

The movement was started by the farmers to break the grip of the so-called milling trust in the Northwest. called milling trust in the Northwest.

According to the plans as outlined by McLean, one mill will be built at Adams, Ore, the other at Walla Walla. Each mill is to have a daily capacity of 1,000 barrels and will be so constructed that they may be enlarged at nominal cost. McLean declared that the farmers will not bleach their figur.

### DENOUNCES CIGARETTE SMOKING BY WOMEN

Leader of Crusade Says Attention Will Now Be Devoted to New York

New York, July 22.—"When women of the best families in the land openly neourage cigarette smoking it is, no wonder that thousands of poor, silly working girls are staves to the habit. They adopt it because they think it is marty I shall appeal to Mrs. Alic among those who can ill afford the tax on the health and intellect."

Thus Miss Lucy Page Gaston vester day announced the inauguration day announced the inauguration of a crusade in New York to wipe out cigar-ette. amoking among women. Miss Gaston has devoted the greater part of her life to fighting against those who deal in cigarettes and has been successful in several states in securing the passage of anti-cigarette laws.

Miss Gaston declared that the prac-

### FIGHTING FOR THE

POSSESSION OF LOGS

Sheriff's Officer Goes North and Will Take Boom to Port Moody Mill

Vancouver, July 22.-Northbound to The anti-cigarette league committee will visit Mrs. Longworth and ask her to quit smoking. We shall try to reform cigarette smoking women and will start on Miss Sears and Mrs. Longworth," said Miss Gaston.

"I think it is an outrage that women of their type should encourage the habit. We object to women smoking cigarettes either in public or private. The extent of cigarette smoking among the start on the league committee to title between the government and the lumber company are two officers of the law. One is travelling at the expense of the government while the expense of the government while the expense of the government while the care of the individual to the response of the government will the expense of the government while the care of the first real attempt of Canadians to portray their own here itage in some manner. There are prizes offered for the best collection of wood to varieties, Canadian woods, leaves and reflect the care of the latter is a deput sheriff.

The exact commission of the common to the lumber company are two officers of the law. One is travelling at the expense of the government while the care of the government will the expense of the government will the expense of the government will be reformed by the province of the government will be the expense of the government will the expense of the government will be reformed by the province of the government will be reformed by the expense of the government will be reformed by the expense of the government will be expense of the government and the law. One is travelling at the expense of the government will be expense of the government and the law of the law. One is travelling at the expense of the government will be expensed to the law. One is travelling at the expense of t

cigarettes either in public or private.
The extent of cigarette smoking among women in private is astonishing. We also will go after the boys. Reforming the custody of the government a boom the custody of the government a boom men is too big a proposition for myself and the league just yet."

The custody of the government a boom of logs, the ownership of which is claimed by the lumber company, and which was seized by the government about two weeks ago. Sergt. Murray left Vancouver by the regular steamer Wednesday night. The deputy sheriff went away at noon on the tug.

Several days ago the Emerson Lum ber Company secured a writ of repley in, and with this the sheriff's office will take the boom of logs from the provincial officer now in possession at Eden Island. The boom will be brought to Vancouver and taken to the company's mill at Port Moody. The next move in the fight for possession of the logs will probably occur in the Vancouver.

You don't need to be in the blues long if you know about Dr. A. W. Chase's Kidney and Liver Pills, for by their direct action on the liver they and Provincial Constable Woolacott, of Alert Bay, appeared at Emerson's logging camp at Eden Island. The men working at this camp had previously been ordered to stop work by Constable Woolacott, on the ground that the liveness covering the land their were operating on had been cancelled by the government. The men stopped for some days, bue decided to go to work again, and they were so employed when Sergt. Murray and Constable Woolacott, were on the spot a few days ago. The men then declared that nothing short of arrest would stop the work. Sergt. Murray returned to Victoria. Now he is on his way back to Eden Island, and there is much speculation concerning the outcome of his trip.

You don't need to be in the blues long if you know about Dr. A. W. Chase's Kidney and Liver Pills, for by their dation on the liver the Republican party turn over in their graves to have such men as Cannon, Hale, Tawney, Wickersham and Ballinger claim to be true. Republicans party william Kent, insurgent and constable Woolacott, on the ground that the liver is a specific for liver does not have such men as Cannon, Hale, Tawney, Wickersham and Ballinger claim to be true. Republicans party william Kent, insurgent and contained the liver in the principal ingredients of his medical.

One of the principal ingredients of the Republican party will and provential the liver in t

### LACROSSE GAME AND FOOT RACE

NANAIMO AND NORTH WARD AT OAK BAY

California Miler to Run Provincial Title Holder at Half

In addition to the lacrosse match gainst Nanalmo to-morrow and the me mile race between Sweeney and bavidson, the North Ward manage-ment; have made arrangements to get bulletins of the Minto cup game at present figures it looks as if there will New Westminster and announce them be as close a finish on Saturday after. New Westminster and anne

The lacrosse match itself between Nanaimo and the Wards will be a battle royal from the start and will undoubtedly be one of the best played here this season so far. Nanaimo's management write that they are going to send down a crackerjack twelve and that they are going to try hard to down that they are going to try hard to down the local league, leaders. They have an exceptionally heavy defence and Coal City fans claim that the Wards home will have a hard time boring in on it. As for the Nanaimo home they are said to be a fast lot and they have already defeated the Ladysmith and Extension twelves. Extension twelves.

North Wards have been practicing some weeks now and are in very pink of condition and ready the fray.

As yet the Nanaimo lacrosse man-agement have not sent down their definite line-up, but they will be strong-ly represented by the best twelve that

has kept in good shape all through the

Sweeney says he is in good shape and ready to tackle the Californian. Whether he will be able to get away from the six-footer is another matter, but Sweeney has a number of races to his credit and can be depended upon to win if at all possible. Davidson stands over six feet high and weighs 184 pounds. His only race in this city was on May 24, when he won the mile handlily from a field of a dozen starters, winning as he pleased in the fast time of 4.42, which is a fast mile for the Oak Bay track. In California, where Davidson attended the State university, he is said to have run around the 4.30 mark on several occasions. Sweeney says he is in good shape an

Sweeney's best time is 4.37, which h Sweeney's best time is 4.5., which he made at Nanaimo on May 24, as against 4.44 when he won the B. C. championship at Vancouver last September. He will have to hustle all the way to get a lead on the Californian and from as they are received over the phone at Oak Bay.

This will be a gala programme worth seeing and a record crowd of sport followers is expected at the Oak Bay during the half time interval.

### BEACON HILLS AT ROYAL PARK

ED. STEELE TO PITCH AGAINST CHEMAINUS

City Leaguers and Lumberjacks Offer Ball Fans To-morrow's Excitement

Beacon Hill and Chemainus teams come together to-morrow afternoon fo the first time in Victoria. The team have played at Chemainus this season the Coal City can produce.

After practice last night the North Ward executive selected the following team to represent the local league leaders: Goal, B. Johnson: point, F. Sweeney; cover point, Joe Dakers; first defence, Noel: second defence; thind defence Brytholfson; boys and Scott will receive the home long and Scott will receive the home. have the advantage of the home dia-mond, and the nine is in good condi-tion. Ed. Steele will pitch for the home boys and Scott will receive.

Taking advantage of every opp ond home, Surgison; first home, tunity that is afforded, the Beacon Hill nine journeyed to the Royal Athletic park last night and had a warm work-Reserves. McCarter, McGregor and Martin.

Tom Davidson, the California all-round athlete, who is to run a mile race against John P. Sweeney, has completed training and is fit and ready to

run against the local miler. Davidson

run against the local miler. Davidson

From the records of the two teams this game should be one of the most interesting games of the season. So far the Chemainus team have not lost a game and are bringing their strongest team down with the expectations still having their reputation un of still having their reputation un-scaped. The Beacon Hill team, while not quite as fortunate as their oppon-ents, have a good record. So far they have taken part in 14 games, of which they have won 10, lost 3 and drawn 1.

### TO-MORROW'S SPORTS.

### TWO CENTURIES BY **GOLFING CRICKETERS**

Care and Lowry Retire With 101 Each in Game Against an Eleven Played Yesterday

Golf players, who are not only golfers but cricketers also, turned out an eleven yesterday against a cricketers eleven and, compiling two centuries in the score, defeated the cricketers in a one-innings match by 250 to 88. The score of the golfers is the highest made in Victoria cricket this year. Neither Care nor Lowry were dismissed, but after having each made one over the hundred retired. The teams were se-lected from members of the Victoria Cricket Club.

The cricketers batted first and three of the side reached double figures. Marshall, who was run out, making top score with 26, Pooley secured five for forty, Tye 17 and Care opened for the golfers. The went when the total was 47, and Care was joined by Lowry. Together these two collared the bowling and both passed the century mark. None of the others were able to get to gould figures. The scores were:

Cricketers. J. H. G. Gillespie, b Barnacle L. G. Patuno, b Pooley
F. Coates, b Pooley
Y. K. Marshall run out
S. Gillespie, c Lowry, b Pooley
E. V. Bodwell, b Pooley
Capt. Morton, b Lowry

average of sick? Ask of space necessitates your taking one remedy for many ills. Take Duffy's Pure Malt Whiskey with you. It is a whole medicine chest in itself.

Most efficacious remedy known for chills, fever, colds, dysentery, diarrhoca, nausea, sunstroke and all summer ills. It is a wonderful remedy in the prevention and cure of typhoid and all other intestinal diseases. Used in your drinking water, it assists in killing disease germs and purifying the water.

Average of 18 runs against their opponents 52. This is a record that any team may well feel proud of, and is one that very few teams can, equal or beat.

This is a record that any team may well feel proud of, and is one that very few teams can, equal or beat.

The local boys have been seen in practice, and during their games, and the universal opinion is that in the Beacon Hill nine Victoria has one of the fastest young teams that this city has ever-produced. With a little more experience Beacon Hill will be well able to fill the ranks of the first Victoria team when called on to do so. The game on Saturday is called for 3 o'clock and the boys are looking for a big turnout, as the expenses of the visiting team must be met from the takings at the gate.

The line-up will probably be as follows:

# PEAT DEPOSITS

IN CANADA

BILLIONS OF DOLLARS IN UNDEVELOPED BOGS

The Department of Mines, Under Hon. Mr. Templeman, Carrying on Experiments

The memorable strike of the miners The memorable strike of the miners of the best and most valuable peat deposits are located in sections which 1993, when coal had to be imported from Europe to meet urgent demands, and sold in Canadian cities for \$12 to \$18 a ton, first brought the people of this country to a realizing sense of their dependence on a very few men for one of the greatest necessities of mod-one of the greatest necessities of mod-one of the greatest necessities of mod-one of the greatest necessities. from Europe to meet urgent demands, and sold in Canadian cities for \$12 to \$18 a ton, first brought the people of this country to a realizing sense of their dependence on a very few men for one of the greatest necessities of modern life. For Canadians the situation was the more stringent because one of our chief sources of fuel supply was located in a foreign country. Since that time the attention of the thinking and reading public has been attracted more than ever before to the peat deposits of the country as a potential

mental in bringing about a revival of interest in peat. One has been the increase in prices of fuel, particularly of anthracite coal, in revious at a distance remote from the mines. The other has been the great strides made in the development of gas producers and gas engines, and in the use in these of low grades of fuel. Lignite and low grades of coal have been used and, though not hitherto commercially successful in this country, peat in the gas producers has proved a good business.

fire. Its theoretical heating value is oped. The fuel if used in a suitable between that of good wood and good gas producer to generate the same coal, but because of the small waste in amount of power would last nearly 100

Chas, A Davis, peat expect of the formation of value on the subject of United States Geological Survey, said:

"In Northern Europe peat is being and converted into fuel and power gas, and used for the generation of electricity ernment experimental plant at Alfred. In small plants located at the sides of Ont. where about 2,000 tons of peat 358. Burnside Rd. and Delta St.

"eat deposits, just as our engineers in fuel is being manufactured this sum—

America are beginning to discuss the possibility of locating large electric power stations at coal mines where coal and the mine waste can at least in part be used."

"Only those who keep in touch with the progress that is being made in the development of the use of the gas engine can realize that at the present time a revolution is going on in the methods of utilizing fuels of all kinds, and that the gas producer and producer gas engine are certainly displacing the steam boiler and engine in many lines of industry." "It is in the gas producer and the gas engine that most hope lies for peat for power to-day."

The use of peat as a source of energy

The use of peat as a source of energy

The use of peat as a source of energy

mer by a well-known and successful European process, under direction of Mr. A. Anrep, a son of the inventor of the process. There will also be a practical demonstration of power producer sap plant in Ottawa now being successfully operated by the Department of Mines.

A broad invitation is extended to all who are in any way interested in the development of the peat industry in claracteristics of the process. There will also be a practical demonstration of power producer sap plant in Ottawa now being successfully operated by the Department of Mines.

A broad invitation is extended to all who are in any way interested in the development of the producer as plants. The Deminion Government has been producer and the gas engine that most have a producer and the gas engine that the producer and who are in any way interested in the development of the producer and engine in many lines of industry." "It is in the gas producer and the gas engine that the producer and the producer and the producer and the gas engine that the producer and the producer and the gas engine that the producer and the producer and the gas engine that the producer and the producer and the gas engine that the producer an

The use of peat as a source of energy may lead to new distributions of busi-ness activity in the near future. Some of the best and most valuable peat de-Jos. to 6 the country as a potential within a few miles of Ottawa examinorance of which have not even begun to be realized.

MEXICAN FIRE DEPARTMENT.

It might be thought that such an exciting thing as a fire would starfle dolence, but such is not the case.

The alarm of a fire at Matamoros. Coahulla, Mexico, was given by discharge of rumerous pistols guns, says a writer in the Wide W

After a long interval, during which the people watched the fire with interest chattering among themselves meanwhile, there appeared placidly trundling along the road the Matameresan equivalent of a fire engine, a barrel rolling along the ground, drawn by a relactant burro.

A swivel pin in each end of the keg permitted it to roll freely and ropes attached it to the animal. Behind walked the fire brigade. Arrived at

marriage and where there is no companionship between young unmarried men and women this hardship does not seem to be of the same value.

A sum of money accepted generally by the parents of the bride is a good contract even without writing and the betrothal may not be set aside without the consent of both parties or through some fatal disease like lunacy, or gross misconduct is sufficient. Where a betrothed man goes away for three a betrothed man goes away for three

Out Planking in Two But Vessel Was Not Damaged-Many Passengers for North

There was considerable excitement around the waterfront this morning occaioned by a report that the new Grand Trunk steamer Prince George as I smash-ed the dock all to pieces on arriving this merning from Seattle on her initial trip to Prince Rupert and Stewart. Hundryda of people went down to view the damage, but found the reports had been considerexaggerated. The planking above retaining wall between the two plera-cut in two and badly splintered up, there was a considerable dent in the mand there was a considerable dent in the loose rock and rubble which was used for filling. The boat herself was uninjured except for a few little dents in her plates, which a coat of paint almost obliterated. Captain Nicholson, general manager of the company, who was on board at the time, and Captain Robertson, who was on the bridge, each refused to give any particulars of the accident. From other sources it was learned that the officeray were blameless, but that the telegraph is guilty. The steamer rounded Sehl's Point at a slow speed, but when the full speed astern signal was given there was no answering signal, and the vessel continued on her course direct for the retaining wall, where she brought up abruptly.

J. McArthur, the local agent for the Luternational Company, who was in Seattle ternational Company in a sif she launching of their new steamer Kulshan, said that the Prince George made a splead in the steam of the ternational Company in as if she had been making the landing for months. He also saw the steamer coming in here from his attacepom aboard the Chippewa.

fee also saw he scanned the Chippewa from his stateroom aboard the Chippewa from said that she came carefully round the point, and then seemed to quicken her speed, and it was very evident that some-

thing was wrong.
Further information states that the telegraph was not working well at Seattle, but that repairs were made, and it was thought everything was working well.
The Prince George left for Vancouver noon after 10 a. m. with a large number of passengers aboard. She breet a good crowd from Seattle, and the were added about thirty at the ort, most of whom were bound to nerthern points. Those going farther than Vancouver were:

obuver were:

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year. This level is half a foot lower than the datum to which the soundings on the Admiralty chart of Victoria harbor are reduced.

WILL PURCHASE MORE STEAMERS

GRAND TRUNK MANAGER HAS EYE ON MARKET

Captain Nicholson Admits That When They See Suitable Vessel it Will Be Secured

A dispatch received yesterday from Northern British Columbia stated that the Grand Trunk Pacific Steamship Co. were trying to purchase another steamer for their coast fleet. Captain Nicholson interviewed this morning in regard to and stated that, while they were not ally buying at the present time, they and if they saw an opportunity to secure the boat they required they would con-clude a purchase. He did not care to dis-cuss the matter further, as he said they were not doing anything just now, but at the same time he admitted that they might at any time add another vessel to their fleet.

might at any time add another vessel to their fleet.

It has been stated before in the Times that the Grand Trunk Pacific must have other plans in view in regard to the shipping business on this Coast, or they would not have erected such extensive docks both here and at Seattle as has been done. The statement of Captain Nicholson confirms this view. It is the intention of the Grand Trunk to play an important part in transportation on this Coast. Whether they will enter the ferry business between here and Vancouver does not appear, but it is certain that the Grand Trunk Pacific fleet of steamers will soon be materially increased.

DODE WENT ASHORE NEAR PORT TOWNSEND

Trying to Take Short Cut Proves Longest Way-Vessel to Be Raised

Steamer Dode, of Seattle, stranded Wedsteamer book of search state when the mesday off Marrowstone Point when leaving Port Townsend. The mate, who was in charge, was a new man and tried to take a short cut in rounding the point. to take a snort cut in rounding the point. The crew were taken off by the U.S. snagboat Skagit, and, shortly after they left, the steamer capsized from the swell of the Senator, which passed near. Her hold filled and her deck was submerged contacts the "Indebting".

Ladysmith and the other boat was coming from Vancouyer. As soon as the tug struck the scow bumped her, there being a strong tide running. The propeller was stripped, the stern bulwarks battered in the rudder and rudder trunk badly damaged and part of her keel torn.

Tug Tussler went to her assistance and managed to float her and tow her to the Machinery Depot yards, where she was hauled out on the ways. She was surveyed by Captains James and Jarvis, and it is understood that repairs will be made at once. Captain Anderson was in charge of the tug which met with the accident. hold filled and her deck was submerged nearly to 'midships.'
Captain Charles Bryson, with the salv-age steamer Santa Clara, went to her as-sistance and will realise her.

The Dode is a small passenger steamer of 215 tons gross register, built at Ho-quiam, Wash. In 1896. Her dimensions are: Length, 883 feet; beam, 21.6 feet; draught, 1.9 feet. Sho is registered at Port Townsend.

A meeting of the directors was held after the general meeting adjourned, when George Tite was elected president and J. C. Halsey, secretary.

Feeling that the most important work of the show must fall upon the secretary, a committee was appointed.

to secure one, it being understood that it would require a man for that posi-tion who would give all his time to the work for at least three months. It was decided to appoint a committee to select such an officer.

RECLAIMING LAND.

Project to Drain and Cultivate 48,000 Acres of Zuyder Zee for Agricul-tural Purposes.

About a sixth of the country over

which the baby Princess Juliana of Holland may some day reign is meantime at the bottom of the sea. Everybody knows that a great part of the Netherlands has been reclaimed from the ocean; that the Dutch have still to seep constant watch and ward to pre-rent their country from being over-whelmed by the waves. One-fourth of the area of Holland is at or below see the area of Holland is at or below sea level, one-half is not more than 15 feet above it, and throughout its entire extent there is only one peak that reaches above 1.000 feet. The inhabitants live literally upon a sea floor which they are constantly reclaiming. Since Queen Wilhelming was born they have recovered \$2.000 ence from they have fleet of steamers will soon be materially increased. It has been suggested, and with some show of probability, that the Grand Trunk Pacific Steamship Company will purchase the steamer St. Denis, which for the pastyear has been under charier to the Boscowitz Steamship Co., but which is to be released at the close of this month. Negotiations between the local company and the owners of the steamer have been and the controlled in the near future. The St. Denis is a useful boat, and would be well suited for the business between Prince Rupert and Queen Charlotte Islands. The Brunc, which is at present on the run, is well known to be too large for the amount of business offering. When she is taken off she may quite probably be put on the Alaska run, although nothing definite has yet been decided upon.

### GROCERS' PICNIC WAS A SUCCESS

TWO THOUSAND PEOPLE WENT OUT TO SIDNEY

Enjoyable Day Spent by All—A

Long List of Attractions and
Sports

Never before in the history of the Victoria Grocery, Retailers and Wholesalers' Association has a more successful picnic been held than that of yesterday. Nearly two thousand persons from this city attended the pienic, which was held at the favorite spot, Bazan park, Sidney, File whole population of Sidney and the surrounding districts turned out in full torce, and the little town at the terminus of the V. & S. line presented a merry sight, the thousands of pleasure seekers livening up the place.

Every train which left the city was crowded with grocers and their friends, who intended to celebrate the annual picnic in loyal style. While all returned rather tired after a strenuous day, winners in Sports.

Winners in Sports.

livening up the place.

Every train which left the city was crowded with grocers and their friends, who intended to celebrate the annual picnic in loyal style. While all returned rather tired after a strenuous day, they nevertheless voted this picnic as the most delightful one they have yet attended. The first train left at 8.30 in the morning, and the last one returning reached here about midnight. The committee in charge arranged for a late train so that after witnessing the sports and other amusements during the day the celebraters would be able to enjoy a few hours dancing in the

sports and other amusements during the day the celebraters would be able to enjoy a few hours dancing in the big pavilion. Bantly's orchestra furnlished the music.

Upon the shoulders of the following committee rested the success of the day, and great credit is due to the members for the capable manner in which they arranged things, not one complaint being heard: President, A. Brockhurst: vice-president, J. D. Jays secretary, S. H. de Carteret; treasurer, R. Toneri; judges, R. Brenchley, T. Redding, H. O. Kirkham, J. P. Young, A. Pool, P. Cudlip; officials, A. Peden, starter; H. McKelvie, announcer. Early in the morning teams representing the retailers and wholesalers met in a baseball game on the diamond there. For several seasons there has been an out-standing doubt as to which of these teams is the superior. Last year the wholesalers won, but the grocers would not acknowledge the defeat as one which settled the doubt. After the result this time the retailers will have to bow down to the fruitmen. The score was five runs to four in favor of the wholesalers. It was a keenly contested battle, as the closeness of the score indicates.

In the afternoon the lengthy programme of races and other events was held. All the races had numerous entries, and the competition was keen. Simultaneously with the sports a baseball game was played between the Capitals, of this city, and the Sidney aggregation. This probably was the Oatmal are for wholesale em-

### "Iced" Tea How to Make It

Use about one-quarter more of the dry leaf than you would when making tea to be served hot. Pour on boiling water and allow tea to steep five minutes (all the good can be extracted in that time). Pour off the tea into another vessel and allow it to cool gradually.

Never use any artificial means of cooling until ready to use; then ice and lemon may be added.

### Don'ts

Don't pour hot tea on ice. If you do its delicious flavor will be dissipated. Don't put hot tea in the refrigerator to cool. If you do it will spoil in short order. Iced tea should be made two hours before serving, to give it time to gradually cool.

Ask your grocer for "Salada" Tea or send for a free trial package. We mail it without charge. Say whether you use Black, Mixed or Green Tea and the price you pay per pound

### The Evening Chit-Chat

The flaring sign

"I can't say as I ever have afternoon tea, but I do like that mission stuff. It gives some class to a room." was a sentiment expressed by one of the purhasers, and received with evident ap-

proval by another.

As I watched this interesting and

As I watched this interesting and typical little scene I remembered with a smile the experience of a certain newspaper man who went into a novelty shop to look around.

A shiny object attracted his attention and he inquired its use.

"These are gilded pinchers," said the clerk. "These are used to pisk up letters you have put on the letter scales."

"And that ivory stick carved and forked at the end?"

"People use it to fish out things they have dropped into carafes."

That ornamental box with a v battery of the brushes?"
"They are used to clean other bru brushes to clean hair brushes to clean nafi brushes, bru to clean toothbrushes, and so on." I see. And those Russian less tubes?"

"Eye protectors, to look at colore

photograph projections in rooms ad-joining lighted rooms."
"That little doll's funnel?"
"Oh, that is indispensable to pour perfumes into the vials in travelling "And that figamaree of complicated

And that jigamaree of complicated little silver silves?"

"A novelty, it's a cleaner to take off spots of lak on lead pellets."

"Lead pellets?"

Certainly, the shot you put finto

ose little cups to stick pins in after ing them." using them."
"Are there many who use them?"
"No, but they are easy to sell."
Not long ago I heard a professor of economies say: "One of the chief reasons for the high cost of living is that so many people, both rich and poor, now, a days, buy, so many uncoessary. ow-a-days buy so many unnecessary

as they used to, and putting if into productive enterprises."

At the time that statement made me rather indignant. "Just another one of the subterfuges of those people who

Cobble Hill Settlement Had Narrow Escape Yesterday, Being Saved by Change of Wind

> The dry weather of the last few weeks has had the effect of making conditions favorable for bush free throughout British Columbia. On Vancouver Island there have been a number of fires, some of which are visible from this city. At Cobble Hill the group of houses around the station had a narrow escape, nothing but the changing of the direction of the wind saving them.
>
> From Salt Spring Island F. J. Bittancourt, the fire warden, reports several fires. One of these covered an area of two miles on the Trench estate. There are also fires at the south end of Shawnigan lake and other points. Telegrams from the interior to Premier McBride tell of the burning of the Columbia River Company's mili at Golden and of the fires still raging in Island there have been a num

the Columbia River Company and of the fires still raging in the neighborhood of Kaslo. The watchman at the mill at Golden has not reported since the fire, and it is feared that he may have met his death in the

ANOTHER ADVANCE

IN FLOUR PRICES

Quotations on Wheat Are Steadily Rising in Pacific Northwest States

Portland, Ore., July 22.-Dollar wheat and \$6 flour are again in sight—likewis smaller loaves of bread for consump

tion.

With wheat prices advancing daily, both here and in Chicago, with Liverpool, Berlin, Paris, Antwerp and Budapest each giving out an advanced price for the cereal almost every day, the outlook for dollar wheat could scarcely be improved over the present one.

Millers are to-day freely offering 93 cents a bushel for bluestem wheat, based on track delivery at Portland

cents a busnel for integers wheat-based on track delivery at Portland find it is stated that a cent or two more than this could be readily obtained for a quality above the average.

The Pacific Northwest is yielding its est quality wheat the present yes best quality wheat the present year and therefore it would take something exceedingly good to range above the average. In company with the advance of three cents a bushel in the price of wheat to-day, milliers announce an advance of 20 cents a barrel in the price of patent hard wheat flour for to-morrow morning. An advance of 25 cents a barrel will be made at the same tracking trade and 10 cents in with time in straight grade and 10 cents in Willamette valley soft wheat brands. The latter are still quoted at a price higher than the best flour.

-Aithough the Amaigamated Devel-ment Co, is only a private enterprise, it is already established beyond all loubt that it has, in its holdings at doubt that it has, in its holdings at the Katalla oil fields, Alaska, a property of enormous value. Those who remember the beginnings of the Standard Oil Co. on the Atlantic coast of this continent will be quick to recognize the similar opportunity now offering on the Pacific side of early acquiring an interest in an industry whose profits are so enormous.

Superstition is common in Paris that cards tastefully embellished and contain-ing a list of "hours to be avoided" are extensively sold.

#### JAPANESE GENERAL

TELLS OF FORMOSA

Feeple Brave But Naked Savages, Worshipping Moon and Monkeys

the Japanese against the aboriginal inhabitants of the island of Formoso, called by them savages or barbarians has recently given some interesting JUVENILE COURT has recently given some interesting observations on the people and their customs. He says: "The number of aborigines is set by different people at from 10,000 to 60,000 people. At Taroko they have a considerable armament, including some cannon, and they are capable of giving considerable annoyance. It appears that these people are childishly superstitious, and that they place the most implicit reliance in, and accord the most unreasoning allegiance to their chiefs. Therefore, if they once to their chiefs. Therefore, if they once subsequently counted on. They fered no resistance.

The Formosan aborigines seem to illustrate the law of protection by in mimicry. They wear no clothes, ex-

when one comes in direct contact with strenuous precautions are taken to pa-

trol the east coast, so as to prevent any smuggling of weapons of war. General Sakuma is quoted as saying

The Japanese have orders never to fire a shot without taking careful aim, general is further alleged to have said that the Formosan aborigines seem to have a racial likeness to the Japanese, but the Japan Mail says the proofs he adduces are not convincing. Certainly the resistance successfully offered by these aborigines to the attempts made in former days by the Chinese, the Dutch and the Spaniards to subjugate them shows that they are a brave and resolute, reconle. resolute people.

AT VANCOUVER

Probation Officer Tells of His Work-Methods Have Proved Successful

Collier, speaking at the meeting of the made in the work of the juvenile court when a Chinese ship approached Taito in the cast coast, the light at her in this city. Twenty-two youthful demast's head was mistaken by the linquents, who have committed alto-aborigines for the moon, and they ofgether thirty-one offences, have been dealt with. Mr. Collier explained that dealt with. Mr. Collect explained that as yet it had scarcely been possible to inaugurate a complete system for conducting the work, and that consequently he did not have any formal report prepared; but a number of these cases had been successfully handled by simple setting at the homes of the chillskin has assumed a line closely resembling that of the earth, so that when had been successfully handled by simthey are in a forest and have donned their usual head-dress, namely, a chapdres, with the result that such visits their usual nead-dress, namely, a chaplet of leaves or a wisp of grass, they
are scarcely distinguished from their
environment. They are said to be extraordinarily skilled marksmen, scarcely one of their bullets failing to find its
dillet. Such folks must prove very ditficult to deal with in a military sense.
The women act as baggage-carriers,
and their achieve leaves and their achieve leaves the service of the ser and their agility is extraordinary, ally intended. No official evidence is.

They have by this time learned that taken, The boys are put upon their the wire entanglements charged with honor and are treated as if they were electricity is a serious obstacle only one of a large family, each of whom Accordingly they throw logs of buke from his fellows. The success of

any smuggling of weapons of war.

General Sakuma is quoted as saying that these aborigines, although they are little removed from savages, have a strong feeling of patriotism and are as bossible he had called upon cobbi seized him by the wrist, and getting a strong feeling of patriotism and are as brave as men can be. The soles of their feet are like leather, so that they can traverse ground of any nature. They are in possession of a good many excellent rifles, of the Mauser and Snider patterns, and it is reckoned that they have about 50,000 rounds of ammunition. They fight always at position from 6,000 to 8,000 feet above seation from 6,000 to 8,000 feet above seations in the full powers of a police official, but they have about 50,000 rounds of ammunition. They fight always at position from 6,000 to 8,000 feet above seation from 6,000 to 8,000 feet above seations are founded in regard to contributary delinquencles. In the full powers of a police official, but they have about 50,000 rounds of ammunition. They fight always at position from 6,000 to 8,000 feet above seation for the full powers of a police official, but they have about 50,000 rounds of ammunition. For the rest, the political leaders of

Something of the Men and What They Stand for in South

Africa

Regarding the public men in the new confederation in South Africa, a writer in the London Daily Mail says:

A group of notable men will watch over the destinies of the men and they but there are only two who are the real leaders of new South Africa, These two are General Botha and Dr. Jameson. With the exception of a few Labor men, it is generally admitted that the public of the whole sub-continent can be divided into Bothaftea and Jamesonites.

General Botha holds a unique position in South Africa. He is absolutely trusted by the British in all four colonies. It is said that General Smits is the "brains" of the Transvaal ministry. But many of the Boers regard General Smits as too clever. He dges not inspire the confidence and the personal affection which General Botha words from all who come in contact with him.

With his own people General Botha sword is law. They may come to smeeting full of grievances—the Dutch are partial to grievances—the Dutch are partial to grievances—the Dutch are partial to grievances, like the British—and with mutterings of revoit. But two words from General Botha calms them. The storm dies away.

Dr. Jim Again.

SHE WAS SURPRISED

When Dr. Morse's Indian Root Pilla Oured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings:

"I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness were a daily source of trial to me. Every day I experienced the sickening effects of these ailments. I longed for some medicine that should permanently drive them away.

Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was indeed great. From the very first I experienced refier. Continuing with them I found my troub-les were slowly but surely leaving me

### Uncle Walt The Poet Philosopher

For sundry years he used to work around a drug store, as a clerk The druggist said: "I'll always claim that he's the worst clerk in the game. His head is made of wood and zine; he

has no brains with which to think." He got a job at baling hay, and lasted just a half a day; he got a job GOOD MAN at pounding sand; he failed as drummer in the band;

he failed at this, he failed at that, until employers thundered, "Seat!" when he arrived to seek a place, a humble smile upon his face. "He never will amount to shucks; he couldn't earn a dozen bucks if he should live a thousand years," folks said, while smiling through their tears. And then this man of many cares and failures, bought some Belgian hares, and raised the critters for the mart, and saw his dark blue luck depart. Full soon he rode in auto cars, and smoked Havana made cigars, and built a house on Easy street, and wore silk slippers on his feet. At last he'd found the thing for which he was adapted, and grew rich. And thus it is with many now, with "failure" written on the brow. Some day, worn out by jolt and jar, they'll find their own propitious star, and hitch their wagons to its

# Municipal Notice

Local Improvement of Dallas Road.

Local Improvement of Dallas Road.

The City Council having received a requisition under the provisions of Section 16, Sub-Section 18, of the Municipal Clauses Act, from a majority of the owners of property on Dallas road, from Simcoe street to Beacon Hill Park, that the said portion of Dallas road be paved with asphalit a width of 22 feet, that a permanent side-walk of concrete 8 feet wide be constructed on the north side of said road, with burb, gutter and boulevard, and a cinder walk of a width of 12 feet, with boulevard, curb and gutter on the south side, sidewalk to be of concrete on that portion of south side where sea wall is contemplated, that the said road be lighted with not exceeding 5 are lights on ornamental poles, and that the necessary condults for carrying all wires underground be constructed.

NOTICE IS HEREBY GIVEN, under the provisions of Sub-Section 1989 of Section 19 of the Municipal Clauses Act, to 7 he owners of property on Dallas road, from Simcoe street to Beacon Hill Park, who have not signed and requisition, that the City Council has determined that said work, as requisitioned for, be carried out. The names of the owners of the property on said portion of Dallas road who have not signed the requisition and whose property will be assessed for the work together with the estimated cost of the same, and the proportion thereof proposed to be assessed against each such owner, are as follows:

ering into the manufacture of modern

explosives, but perhaps the most in-

struction as well as the simplest is gun cotton. The gun cotton manufacturing industry is large, as enormous quantities are used in the charging of rpedoes and for similar purposes. The base of gun cotton is pure raw cotton or even cotton waste, such as is used to clean machinery. This is steeped in a solution of one part of nitric acid and three parts of sulphuric acid. It is the former ingredient that

renders the mass explosive, the sulphuric acld being used merely to aborb all moisture, thus permitting the

nitric acid to combine more readily After being soaked for several hours to completion by washing the cotton in clear water. This washing process is a long one, requiring machinery further pulverized and then thoroughly

#### pedo against the target. CYCLIST KILLED BY DOG.

Mr. Troutbeck held an Inquest at Lambeth, London, on Frederick Gozna, aged thirteen, who died in St. Thomas' hospital, after being knocked off his bicycle by a dog. It was stated that the dog ran at the bleyele, bit at the boy's leg, and then jumped against the front wheel. The boy, losing his pedals, was pitched over the handle-bar. The coroner said that people who had dogs in London should understand that they must exercise great care. At all times dogs, were a considerable minance to the public, and people who had dogs bestowed on them an amount, affection which it was difficult to inderstand.

The jury returned a verdict of accidental death and expressed the opinion that the dog was not kept under proper control. Mr. Troutbeck held an inquest at

Vancouver, July 21 -A. H. Povey, of Eburne, was drowned at Eagle river last week. The body was found by Gonstable Lucas of Van Anda, in the river. Povey was about 38 years of age, and from the letters found on him it is believed that he had a wife and child living in the Old Country. He arrived at Scow Bay about three weeks ago and stated that he had been em-ployed as cook in one of the camps of the Brooks-Scanloy-O'Brien Com-pany. He did not leave for the camp, wever, and as he acted peculiarly it is thought he was slightly demented. The body was badly decomposed and was buried on the spot.

### ASK ESQUIMALT CO. TO. NAME GOLDSTREAM PRICE

Fatal to Sooke. In concluding, Mr. Shalleross exressed the opinion that Mr. Burwell's report was fatal to Sooke. The water nitting of a by-law having as its ob ect the bringing in of inferior water, He had no love for, or antipathy to ing at the quality of the water from that source and the probable cost of obtaining it, he thought the committee should give it consideration. Presuming that it cost \$1,350,000, it would be less than Sooke, and there would be a cost of cost \$4,600 against vearly revenue of over \$49,000 against Eik lake. He believed that at least 15,-000,000 gallons a day, enough to supply from 150,000 to 200,000 people, could be obtained. If the city went to Sooke it would have to buy water from the Es-quimait Waterworks Company while ti was bringing in the supply from the lake. He thought it was only necessary for the committee to consider whether the Esquimant proposition would be cheap enough. He suggested that the vater committee had reached a stage where it was not advisable for its deliberations to be made public, as the legal aspect of the water question would probably need discussing. He thought that a committee of three should by appointed to report back to the full committee on the cost of acquiring Goldstream and such other matters as might beed consideration.

quiring Goldstream and such other matters as might need consideration.

C. Siverz expressed himself as opposed to the principle of bonusing the water company if arbitration proceedings are undertaken. He was in favor of Goldstream as a source of supply for the city. It would be better, however if the city wated until the next. sitting of the legislature and asked fo the removal of the bonus clause in the

et which was passed hat year.
In Favor of Sooke. At the request of Mayor Morley, exAlderman Anton Henderson, whose
advocacy of Sooke has been unfailing,
took up the cudgels in favor of that
scheme. It was evident, he said, that
the committee would never be unanimous in deciding upon a source of wamous in deciding upon a source of wa-

mous in deciding upon a source of wa-ter supply for the city. What Mr. Shailcross had said had not affected him. He was still as strongly in favor of Sooke lake as ever. He believed it was the largest and cheapest available sup-ply. The lower lake was undoubtedly narrow and the water not very good, but in Mr. Adams' report provision had been made for lowering Vancouver. July 22—After three ays' simmering of the troubles between the contractors and their Ital-World. The arrest was made in connection with a demonstration by strikers in Grandview, Weir refusing to move back at the command of the detectives who were sent to the scene.

ians to stop work on the streets but there was no violence, and no more arrests were made.

Contractors engaged on city work believe they have found a solution of the labor problem by which they are at present confronted as the result of the striking of their Italian workmen for a higher rate of pay. This consists of the importation from eastern Canada of a large number of laborers who are now in Montreal and who are open to engagement.

cross' motion. The city needed water, and he thought no time should be lost

London, July 2.—The number of British passengers to Canada during the last six months was \$8.67, compared with 43.39 for the same period last year.

D. E. Campbell, the druggist, sells it— it was found to be practically the recommands it and guarantees it; only same as Goldstream. Mr. Burwell had bottle and over money obtained most of his information from Mr. Devereux, who had spent weeks ing Hair and Relings of the Sealp, and in the information was not reliable.

Alderman Bannerman and Alderman Langles grogous the district, and he could not understand why he should say that the information was not reliable.

revenue in this direction greatly reconst. The thought that the consideration of Leach river as a source of supply might be left alone. He had been over the proposed area of development at Leech river and found that there was a watershed of only eight square miles, besides other disadvantages. Mayor Morley said he was afraid that the position of the committee and others interested in the water question was as adhelled as the recommendation was as adhelled as the recommendation was as adhelled as the recomment of the same and that the foliateram proposition which is interested in the water question was as adhelled as the recommendation was as adhelled as the recommendation was as adhelled the several trying to be engineers. There were all trying to be engineers. There were to his mind, only three matters to be considered—quality, quantity and cout. He and the water commissioner had gone over Mr. Burwell's report, and there had not think much of tt. As far as the quality of water in Sooke lake was concerned the believed it was good. If was not a question of how the water was good to be commany as competitor, and there was a supply of water at the lake, but its quality when it reached the committee could obtain good beard committee could obtain good for piles, ulcers and festering surface, and once a tunnel was constructed the city's supply was certain for all time. He doubted, leaving out the possibility of litigation, if the Esquimalt waterworks holdings could be obtained for less than 12,000,000. The completion of the

Jordan rive: power plant would re- appointed to enquire further into the Alderman Bannerman and Alderman Jordan rive: power plant would reLangley expressed themselves in favor of the appointment of a committee as suggested by Mr. Shallcross. Ald. Bannerman said that the city would get twice as much water from Goldstream by the B. C. Electric Comhan, and the city would get twice as much water from Goldstream as it could from Sooke at the same cost. He thought that the consideration of Leach river as a soulce of same.

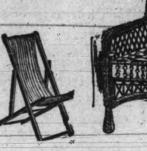

His Warshin further expressed him-

# Camp and Summer Furniture

See the Special Display in Our **Broughton Street Window** 

Best in Reed Chairs **Eest Camp Furniture** 

THERE'S a special window display of reed, willow, and linen fibre chairs that should interest you-because they are the ideal chairs for your porch. There's nothing in the chair world that can equal this style of chair as the ideal summ

And these chairs of ours are specially interesting because of their unusually smart design and the superior workmanship—they excel in both. There's the utmost in style, quality and workmanship—and at a reasonable price consistent with such. Have a look at the window, then come in and see how comfortable they are.

Reed Rockers at \$4.50, \$5.00, \$6.00, \$7.50, \$8.00, \$9.00, \$12.50.
