Why going to Wikipedia lessons?  
Why 'ordering' them?

The Wikimedia association wants your knowledge,  
your experiences! ...

My wife's father learned the profession of cooper. The article about this profession is rather short. My father-in-law could have contributed a lot. But he died. So the knowledge and the experiences about many old professions will some day 'die off'. We should not let it come that far.

Also my mother-in-law died. And with her a part of the experienced history of the Expellation.

And possibly my father could have contributed his personal view about some historical events, based on his experiences in the war. ...

My hair might be silver, but my knowledge is gold!

# What kind of hobby is Wikipedia?

Come to Wikipedia and become a part of the wisdom of the crowds!

Don't worry to make an error: Wikipedia articles are constantly improved by other users just like you!

Wikipedia articles are written together and based on consensus!
