For some time this class, which comprises ancient red, yellow, and picotee favorites, was out of popular favor. Gesnerianna Major and others of the old varieties, as well as devastating recent introductions with complex bold colors and subtle tints have flashed back into the spotlight in the finest gardens and shows. There are scintillating whites, yellows, scarlets, in egg shape, round cup shape, vase shape. Many of the varieties are delightfully fragrant and many are among the very largest and most handsome of all tulips. We refer particularly to Advance, Ambrosia, Dido, Henri Correvon, Jeanne Desor and Mayflower to mention but a few. Plant these varieties this year and yours will be the "cream of the crop."

ADVANCE—30". A giant fiery red with purplish hue outside, dwarfs all other varieties, comes into bloom early and perhaps lasts longer than any other tulip. Price: 3 bulbs 65c; 6 for \$1.25; 12 for \$2.25; 25 for \$4.25, postpaid.

HENRI CORREVON—28". Very bright geranium red, white base. This is one of the varieties making such a furor among tulip authorities and at tulip shows. A splendid variety in every respect. Price: 3 bulbs 65c; 6 for \$1.25; 12 for \$2.25; 25 for \$4.25, postpaid.

JEANNE DESOR—28". Deep orange yellow with broad border of scarlet. A beautifully shaped, long flower carried on a tall strong stem. A hybrid tulip of striking beauty. Late blooming. Price: 3 bulbs 35c; 6 for 60c; 12 for \$1.00; 25 for \$1.85; 100 for \$7.25, postpaid.

This group of large flowering, bright hued tulips is the result of a crossing of Darwin and Single Early Tulips. The Triumphs bloom slightly earlier than Darwins and on taller, stronger stems than the Single Early varieties. They combine the beautiful colorings of both groups.

ALGIBA—24". An exquisite clear heliotrope tulip distinctly Darwin in size and shape. The coloring of this beautiful tulip is unobtainable in any other flower.

WYATT'S HYACINTH BULBS

There can be no substitute in the home or garden for Hyacinths. Beds or borders without them are incomplete. For pot culture use one-half of Wyatt's Bulb Fibre mixed well with one-half of black soil. For best results bury the pot of Hyacinths out of doors in a well-drained place allowing them to remain there for 6 to 8 weeks, then move to a semi-dark cool place for a week or two before bringing them indoors.
