CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

[O-54-1]

PART 954—MILK IN THE DULUTH-SUPERIOR MARKETING AREA

AMENDMENT NO. 1 TO THE ORDER² REGULATING THE HANDLING OF MILK IN THE DULUTH-SUPERIOR MARKETING AREA³

Claude R. Wickard, Secretary of Agriculture of the United States of America,

¹ 6 F.R. 2759.

² 6 F.R. 2231.

³ Issued under the authority contained in 48 Stat. 31, 670, 675 (1933); 49 Stat. 750 (1935); 50 Stat. 246 (1937); 7 U.S.C. and Supp. 601 et seq.

executed a marketing agreement and issued Order No. 54 regulating the handling of milk in the Duluth-Superior marketing area, both effective on May 5, 1941.

There being reason to believe that the issuance of an amendment to said marketing agreement and to said order would tend to effectuate the declared policy of the act, notice was given of a hearing which was held in Duluth, Minnesota, beginning on November 26, 1941, on a proposal to amend the marketing agreement and the order regulating the handling of milk in the Duluth-Superior marketing area, at which time and place all interested parties were afforded an opportunity to be heard upon such proposals.

After such hearing, handlers of more than fifty percent of the volume of milk covered by such order which is marketed within the Duluth-Superior marketing area, signed a tentatively approved marketing agreement, as amended, regulating the handling of milk in the same manner as the said order as hereby amended.

The requirements of section 8c (8) of the act have been complied with.

It is found (§ 954.0) upon the evidence introduced at the above-mentioned public hearing, such findings being in addition to the findings made upon the evidence introduced at the original hearings on the order and being in addition to the other findings made prior to or at the time of the original issuance of the order (which findings are hereby ratified and affirmed save only as such findings are in conflict with the findings hereinafter set forth):

§ 954.0 Findings. * * *

(e) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to secs. 2 and 8e, 50 Stat. 246; 7 U.S.C. 602, 608e, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above

TITLE 14—CIVIL AVIATION

CHAPTER I—CIVIL AERONAUTICS BOARD

[Regulations, Serial Number 203]

PART 20—PILOT CERTIFICATES

SPECIAL REGULATION CONTINUING EFFECTIVENESS OF CERTAIN PILOT CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 28th day of January, 1942.

Whereas § 20.33 of the Civil Air Regulations provides in part that a pilot certificate shall be of 60 days' duration and, unless the holder thereof is otherwise notified by the Administrator within such period, shall continue in effect indefinitely thereafter, unless suspended or revoked, except that it shall immediately expire at the end of each designated period after the date of issuance thereof if the holder of such certificate fails to secure an endorsement by an authorized inspector of the Administrator within the last 45 days of such period; and

It appearing that: The numerous additional duties placed upon the inspectors of the Administrator by the existing state of war and the greatly increased number of pilot certificates currently in effect will make it impossible for such inspectors to endorse within the period from January 28, 1942 to April 28, 1942, and prior to the expiration of their respective endorsement dates all pilots' certificates expiring within such period;

Now, therefore, the Civil Aeronautics Board, acting pursuant to sections 205 (a) and 602 of the Civil Aeronautics Act of 1938, as amended, makes and promulgates the following special regulation:

Notwithstanding the provisions of Part 20 of the Civil Air Regulations, all pilot certificates, the endorsement period of which would expire between January 28, 1942, and April 28, 1942, inclusive, other than lighter-than-air pilot certificates and certificates held by pilots engaged in scheduled air transportation, shall continue in effect and shall not require endorsement until 3 months after the date

upon which the endorsement period would otherwise expire.

By the Civil Aeronautics Board.

Secretary.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1303—ZINC

PRICE SCHEDULE NO. 81—PRIMARY SLAB ZINC

The Office of Price Administration, being charged with the maintenance of price stability and the prevention of undue price rises and price dislocations, has determined that the establishment of maximum prices for primary slab zinc is essential in order to accomplish these purposes and is in the interest of national defense and the national welfare.

The present supply of zinc does not suffice to meet both military and essential civilian needs. The combination of increased demand and insufficient supply threatens the stability of the price of zinc, any increase in which is reflected in the cost of the war effort and tends to contribute to an inflationary spiral. Primary producers, recognizing the importance of these factors to the national welfare, have cooperated with the Office of Price Administration in preventing increases in slab zinc prices charged by them. However, because of the stringency of the supply situation, zinc sales have taken place during recent months at prices considerably in excess of those approved by the Office of Price Administration.

After careful investigation and consultation, it has been determined that the maximum prices set forth herein are fair and reasonable.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1303.51 *Maximum prices on sales of primary slab zinc.* On and after January 29, 1942, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer primary slab zinc, and no person shall buy, offer to buy, or accept delivery of primary slab zinc, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1303.59: *Provided, however,* That sales of primary slab zinc, resulting from production in excess of any quota established by the War Production Board and the Office of Price Administration, made to Metals Reserve Company shall be excepted from the terms of this Schedule.*

* §§ 1303.51 to 1303.59, inclusive, issued pursuant to the authority contained in E.O. Nos. 8734, 8875; 6 F.R. 1917, 4483.

§ 1303.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1303.53 *Evasion.* (a) The Price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery or transfer of primary slab zinc, alone or in conjunction with any other material, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-

agreement or other trade understanding, or otherwise.

(b) Any purchase, sale, delivery or transfer of primary slab zinc in quantities less than requested by the buyer in order to enable the seller to obtain a higher less-than-carload-lot differential shall be considered to be an evasion of this Schedule, *Provided*, That the buyer is willing to accept delivery of the requested quantity in a single shipment.

(c) (1) Any agreement or transaction entered into after January 29, 1942, in connection with which any ore or other material containing zinc is processed or treated on toll to obtain primary slab zinc therefrom shall be considered to be an evasion of this Schedule unless such agreement or transaction has first been approved in writing by the Office of Price Administration.

(2) Any such agreement entered into on or before January 29, 1942, and not completed on that date, may be completed at contract prices provided that (i) full details of such agreement, and such other pertinent information as may be requested, are reported by each party thereto to the Office of Price Administration on or before February 28, 1942, and (ii) such agreement shall be completed on or before April 1, 1942, or such later date as may be permitted upon application made to the Office of Price Administration.*

§ 1303.54 *Records and reports.* Every person making purchases or sales of primary slab zinc after January 28 1942, shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of (a) each such purchase or sale showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity in pounds or tons of each kind or grade purchased or sold; and (b) the quantity in pounds or tons of primary slab zinc (1) on hand, and (2) on order, as of the close of each calendar month.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1303.55 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record and report requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will invoke all appropriate sanctions at its command, including taking action to see (a) that the Congress and the public are fully informed thereof; (b) that the powers of Government, both state and federal, are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule; (c) that full advantage will be taken of the cooperation of the various political subdivisions of state, county, and local governments by calling to the attention of the proper authorities, failures to comply with this Schedule, which may be regarded as grounds for the revocation of licenses and permits; and (d) that the procurement services of the Government are requested to refrain from selling to or purchasing from those persons who fail to comply with this Schedule. Per-

sons who have evidence of the offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or manipulation of prices of primary slab zinc, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1303.56 *Modification of the Price Schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom: *Provided*, That no application under this section will be considered unless filed by persons complying with this Schedule and all other Schedules issued by the Office of Price Administration.*

§ 1303.57 *Definitions.* When used in this Schedule, the term:

(a) "On toll" means under an arrangement whereby a servicing charge is paid for processing or servicing ore or other material containing zinc;

(b) "Person" means an individual, partnership, association, corporation, or other business entity;

(c) "Point of shipment" means the point from which the seller ships to the buyer. (e) *Specifications.* The above grades of primary slab zinc are to be determined in accordance with the following specifications of the *American Society for Testing Materials*, which provide that the zinc be made from ore or other material by a process of distillation, or by electrolysis, and not produced by "sweating" or remelting of secondary zinc, in six grades as follows:

(f) *Terms of Sale.* The maximum prices set forth in paragraph (c) of this section are f. o. b. point of shipment. Primary slab zinc may, however, be sold, offered for sale, delivered, or transferred in less than carload lots at prices delivered buyer's receiving point. In such cases, whenever the total delivered price exceeds the maximum f. o. b. point of shipment price fixed by this Schedule, in all price quotations (1) the transportation charge must be shown as a separate item and (2) the price f. o. b. point of shipment, obtained by subtracting the transportation charge from the total delivered price, must not exceed the maximum f. o. b. point of shipment price set forth in this Schedule.

Whenever delivery is made in the seller's conveyance, the transportation charge shall not exceed the charge which would be applicable on an identical shipment from the same point of shipment to the same receiving point at the lowest available commercial transportation rate. In such cases, the transportation charge must be shown as a separate item in all price quotations.

When used in this Schedule, the term "point of shipment" means the point from which the seller ships to the buyer. This is usually the seller's plant, ware-

house, or yard, but, where the material is shipped directly to the buyer from some point other than the seller's plant, warehouse, or yard, such other point is the point of shipment.*

SUBCHAPTER E—LOAD LINES

[Order No. 205]

PART 43—FOREIGN OR COASTWISE VOYAGE

JANUARY 28, 1942.

Section 43.27 (*Connections to sides of vessels below the freeboard deck*) is amended to read as follows:

§ 43.27 *Connections to sides of vessels below the freeboard deck.* Discharges led through the vessel's sides from spaces below the freeboard deck are to be fitted with sufficient and accessible means for preventing water from passing inboard. Each separate discharge may have an automatic non-return valve with a positive means of closing it from a position above the freeboard deck, or two automatic nonreturn valves without positive means of closing, provided the upper valve is situated so that it is always accessible for examination under service conditions. The positive-action valve is to be readily accessible and is to be provided with means for showing whether the valve is open or closed.

Conditional upon the type and the location of the inboard ends of such openings, similar provisions may be prescribed by the assigning authority as to discharge from spaces within inclosed superstructures.

Where scuppers are fitted in superstructures not fitted with class 1 closing appliances, they are to have efficient means for preventing the accidental admission of water below the freeboard deck.

On vessels whose keels are laid on or after June 15, 1941, cast iron is not to be used for any connection to the vessel's sides if located below the freeboard deck, nor are cast iron valves to be secured to sea chests.

Vessels constructed with cast iron valves and cast iron sea chests, where it is not practicable to replace the cast iron with more ductile material, reinforcing with concrete or other approved material in conjunction with structural bracing will be fitted in a manner satisfactory to the Bureau of Marine Inspection and Navigation. PETITION OF REPUBLIC COAL COMPANY, A PRODUCER IN DISTRICT NO. 4, FOR REVISION OF EFFECTIVE MINIMUM PRICES OF COAL IN SIZE GROUP 8, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

NOTICE OF AND ORDER FOR HEARING TO SHOW CAUSE WHY PETITION SHOULD NOT BE DISMISSED

Republic Coal Company filed an original petition in the above-entitled matter on January 7, 1941, praying for the revision of the effective price classifications and minimum prices established for the coals of Republic Coal Company Mine, Mine Index No. 1948, in District No. 4, in Size Group No. 8.

Although the petitioner was notified by registered mail and by publication in the FEDERAL REGISTER that a hearing in the above-entitled matter was scheduled to be held at a hearing room of the Division on February 21, 1941, at 10 o'clock in the forenoon of that day at Washington, D. C., it failed to appear at the above-mentioned hearing. Nor has the petitioner since indicated that it has any further interest in the above-entitled matter.

Now, therefore, it is ordered, That petitioner show cause why the above-entitled proceeding should not be dismissed, without prejudice, at a hearing before Charles O. Fowler or any other officer of the Division duly designated to preside at such hearing on February 24, 1942, at 10 a. m. at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. The Chief of the Records Section in Room 502 will advise as to the room in which such hearing will be held. The dismissal of the proceeding pursuant to this Order, however, shall be without prejudice to the right of petitioner to file a petition with the Division in regard to the same matters pursuant to the Rules and Regulations of the Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

[Docket No. A-1252]

PETITION OF ONTARIO GAS COAL COMPANY FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF ITS TIDEWATER NO. 1 MINE, MINE INDEX NO. 289, IN DISTRICT NO. 7

NOTICE OF AND ORDER FOR HEARING AND GRANTING TEMPORARY RELIEF

A petition, pursuant to the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party, requesting the establishment of price classifications and minimum prices for the coals of its Tidewater No. 1 Mine, Mine Index No. 289, in District No. 7.

The petition alleges that the coals of the said mine, although produced in the same vicinity and seam as the coals of the Robious Mine, Mine Index No. 703, in District No. 7, are analytically superior to the coals of the latter mine. For the coals of the said Mine Index No. 289 the petition proposes a minimum price of 186 cents per net ton in Size Group 8 for rail shipments only to within the switching limits of Richmond, Virginia, in Market Area 100, and minimum prices of 475, 410, 440, 375, and 200 cents per net ton in Size Groups 1 to 5, inclusive, respectively, for truck shipments.

The proposed minimum prices for the coals of the said mine for truck shipments are substantially higher than those heretofore established for any other mines in District No. 7 for truck shipments. Moreover, the proposed minimum price for the coals of the said mine in Size Group No. 8 for rail shipments to Richmond, Virginia, in Market Area 100, and in all sizes for truck shipments differ substantially from the customary minimum price relationships for other coals for rail shipments to Richmond, Virginia, and for truck shipments. Accordingly, it appears that the necessity for the proposed price classifications and minimum prices should be clearly shown at a hearing.

It appears that a reasonable showing of necessity has been made for the granting of temporary relief, that no petitions of intervention have been filed with the Division in the above-entitled matter, opposing the granting of temporary relief, and that the granting of temporary relief is necessary in order to effectuate the purposes of the Act. It further appears, however, that, pending a hearing, the minimum prices hereinafter established for truck shipments should not be higher than the highest minimum prices heretofore established for coals produced in District No. 7, and that the minimum prices for rail shipments are proper.

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on February 26, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bi-

bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 21, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of Ontario Gas Coal Company for the establishment of price classifications and minimum prices for the coals of its Tidewater No. 1 Mine, Mine Index No. 289, in District No. 7; and, more particularly, for the establishment for the coals of the said mine of a minimum price of 186 cents per net ton in Size Group No. 8 for rail shipments only to within the switching limits of Richmond, Virginia, in Market Area 100, and for minimum prices of 475, 410, 440, 375, and 200 cents per net ton in Size Groups 1 to 5, inclusive, respectively, for truck shipments.

It is further ordered, That pending final disposition of the above-entitled matter, temporary relief be, and it hereby is, granted as follows: Commencing forthwith, the Schedules of Effective Minimum Prices for District No. 7 For All Shipments Except Truck and For Truck Shipments are supplemented to include the price classifications and

[Docket No. A-1230]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 4

[Docket No. A-1230 Part II]

PETITION OF DISTRICT BOARD NO. 4 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, AND 1314, IN DISTRICT NO. 4, FOR ALL SHIPMENTS EXCEPT TRUCK

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1230 PART II FROM DOCKET NO. A-1230, ORDER GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1230 PART II AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-1230 PART II

The original petition in the above-entitled matter, which was filed with this Division, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 4.

As the Acting Director found in an Order issued in Docket No. A-1230, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except as to the establishment of permanent price classifications and minimum prices for the coals of Mine Index Nos. 2155, 2954, 1244, 2968, 2969, 267, 827, 1270, 1271, and 1314, in District No. 4, for all shipments except truck, and except as to certain other matters noted in the said Order. With respect to the establishment of permanent price classifications and minimum prices for the coals of the said mine index numbers, the Acting Director is of the opinion that a hearing should be held in view of the circumstances involved.

The petition proposes that two shipping points be established for the Black Hawk Mine, Mine Index No. 2155, the Carson Mine, Mine Index No. 2954, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2968, the Harrison No. 3 Mine,

¹ Not filed with the original document.

Mine Index No. 2969, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 827, Mine Index No. 1270, of Charles Schuler, the Shuler Mine, Mine Index No. 1271, and Mine Index No. 1314, of A. R. Smith & Co., for all shipments except truck. While it appears that an adequate showing of necessity has been made that temporary relief be granted, establishing temporary price classifications and minimum prices for the coals of the above-named mines for all shipments except truck from one shipping point, it does not appear that the original petitioner has set forth sufficient facts to warrant the establishment of additional shipping points for the coals of these mines for all shipments except truck, without a hearing. Except as to Mine Index No. 267, the shipping points hereinafter temporarily established for the coals of the said mines are those which appear to be the nearer to such mines and appropriate, therefore, for the granting of temporary relief.

The petition proposed that Pomeroy and Hobson, Ohio, on Chesapeake & Ohio Railroad and New York Central Railroad, respectively, be established as the rail shipping points for the coals of Mine Index No. 267 of Leading Creek Coal Company. It does not appear from the records of the Division that this code member has arranged to make such shipments from Hobson. Accordingly, Pomeroy, Ohio, on Chesapeake & Ohio Railroad has been temporarily established as the shipping point for the coals of Mine Index No. 267, pending a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A-1230 relating to the coals of the Black Hawk Mine, Mine Index No. 2155, the Carson Mine, Mine Index No. 2954, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2968, the Harrison No. 3 Mine, Mine Index No. 2969, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 827, Mine Index No. 1270, of Charles Schuler, the Shuler Mine, Mine Index No. 1271, and Mine Index No. 1314 of A. R. Smith & Co., for all shipments except truck, be, and the same hereby is, severed from the remainder of Docket No. A-1230 and designated as Docket No. A-1230 Part II.

It is further ordered, That a hearing in Docket No. A-1230 Part II under the applicable provisions of said Act and the rules of the Division be held on February 25, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That D. C. McCurtain, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other rec-

ords deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before February 20, 1942.

All persons are hereby notified that the hearing in Docket No. A-1230 Part II and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of the Black Hawk Mine, Mine Index No. 2155, the Carson Mine, Mine Index No. 2954, the James Darst Mine, Mine Index No. 1244, the Harrison No. 2 Mine, Mine Index No. 2968, the Harrison No. 3 Mine, Mine Index No. 2969, the Romine Mine, Mine Index No. 267, the Plummer Hill Mine, Mine Index No. 827, Mine Index No. 1270, of Charles Schuler, the Shuler Mine, Mine Index No. 1271, and Mine Index No. 1314, of A. R. Smith & Co., for all shipments except truck.

It is further ordered, That, pending final disposition of Docket No. A-1230 Part II, temporary relief is granted as follows: Commencing forthwith, Price Schedule No. 1 for District No. 4, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the Schedule marked "Temporary Supplement R", annexed hereto and hereby made a part hereof.²

Notice is hereby given that applications to stay, terminate or modify the temporary relief granted herein may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

[Docket No. A-1124]

PETITION OF DISTRICT BOARD NO. 17 FOR REVISION OF THE PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS PRODUCED AT MINE INDEX NOS. 281 AND 291 IN DISTRICT NO. 17

ORDER TERMINATING PROCEEDING

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, filed with this Division by the District Board No. 17 in the above-named docket, requested termination of certain temporary relief granted by the Order of the Director entered May 28, 1941, in Docket No. A-598. That relief was a temporary increase in the minimum prices for the coal produced at the Hunter Mine (Mine Index No. 281) and at the McGinley Mine (Mine Index No. 291) in District No. 17.

The issues raised by the original petition involved matters concerning which a public hearing had already been held in Docket No. A-598 and the final determination of which was under consideration by the Director when the petition was filed in this docket. After filing its petition, District Board No. 17 filed in this docket and in Docket No. A-598 a motion requesting leave to withdraw its original petition and to refile it, together with an accompanying affidavit, in Docket No. A-598 for incorporation in the record of the latter docket. In that motion, it also requested termination of the temporary relief granted in the Director's Order of May 28, 1941, in Docket No. A-598 so far as that relief pertained to Mine Index Nos. 281 and 291, and it prayed that the price classifications and minimum prices for the coals of those mines be finally established at the same levels at which they existed prior to the Order of May 28, 1941.

The above-described motion of District Board No. 17 was considered in Docket No. A-598 and the substance of the relief requested in the motion was granted in the Acting Director's final Order of January 1, 1942, in that docket.

It now appearing that the issues raised in the original petition in Docket No. A-1124 have been finally determined and that the substance of the relief therein requested has heretofore been granted;

It is ordered, That the proceeding in Docket No. A-1124 be, and the same hereby is, terminated.

PETITION OF WALLACE COAL COMPANY FOR TEMPORARY REVISION OF MINIMUM PRICES ESTABLISHED FOR RAILROAD LOCOMOTIVE FUEL, MINE INDEX NO. 182, DISTRICT NO. 10, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER TO SHOW CAUSE WHY PETITION SHOULD NOT BE DISMISSED

An original petition having been filed in the above-entitled matter requesting

the Bituminous Coal Division to issue a temporary order which would permit the petitioner to deliver coal from its New Bruce Mine (Mine Index No. 182) having a minimum size of 2 inches to the Missouri Pacific System, for use in its locomotives, at a minimum f. o. b. mine price of \$1.70 until the petitioner procures and installs crushing equipment, but not to exceed a period of sixty (60) days; and

It appearing that the petitioner herein has no further interest in the proceedings, since it has procured and installed crushing equipment;

Now, therefore, it is ordered, That the petitioner be required to show cause why this proceeding should not be dismissed at a hearing before W. A. Shipman or any other officer of the Division duly designated to preside at such hearing on February 25, 1942, at 10 a. m. in the forenoon of that day, at a hearing room of the Division in Washington, D. Whereas the Administrator of the Wage and Hour Division of the United States Department of Labor, acting pursuant to section 5 (b) of the Fair Labor Standards Act of 1938, on January 5, 1942, by Administrative Order No. 136, appointed Industry Committee No. 39 for the Textile Industry, composed of an equal number of representatives of the public, employers in the industry and employees in the industry, such representatives having been appointed with due regard to the geographical regions in which the industry is carried on; and

Whereas Industry Committee No. 39, on January 22, 1942, recommended a minimum wage rate for the Textile Industry and duly adopted a report containing such recommendation and reasons therefor and filed such report with the Administrator on January 22, 1942, pursuant to section 8 (d) of the act and § 511.19 of the regulations issued under the act; and
