## Community

From Wikipedia, the free encyclopedia

*For other uses, see [Community \(disambiguation\)](#).*

The term **community** has two distinct commutative meanings: a small, social unit of any size that shares common values; community or international community, and 2) in biology, organisms sharing a populated environment.

In human communities, intent, belief, resources, preferences, conditions may be present and common, affecting the community's cohesiveness.

Since the advent of the Internet, the concept of community can now gather virtually in an online community and share location. Prior to the internet, virtual communities (like social media) are limited by the constraints of available communication and technology.

The word "community" is derived from the Old French *communis* (*com*, "with/together" + *munus*, "gift"), a noun. Some examples of community service are to help in charity.
