Photographed Notes.—These are of a dull brownish color, and the engraving indistinct or blurred. Photograph bills are never black. A sure test of any note suspected of being a photograph is to touch it with a solution of Cyanide of Potassium when it will immediately fade out and turn white if it be a photograph.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

Subscriptions may commence with any month. Remit by Drafts or Postal Orders. All letters must be addressed to

Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)

10s. A very good looking bill—look out for them.

### NEW COUNTERFEITS.

Albany City National Bank, N. Y.

19s, imitation. The engraving is scratchy, and the general appearance poor when compared with the genuine, but likely to deceive.

Mutual National Bank, Troy, N. Y.

10s imitation. Well executed and likely to deceive. Shading of "United States" lighter than the genuine.

National Bank of Lebanon, N. H.

10, imitation. Well done.

St. Nicholas National Bank, N. Y. City.

2s, imitation. General appearance good. Shading under title of bank irregular.

Auburn City National Bank, N. Y.

10s, imitation. The paper is green and will wear well. The front of the bill is quite well done, but the back is very much blurred—the left end of the centre engraving looking as rough as a brush heap.

Marine National Bank, N. Y. City.

2, imitation. The shading under the title of the bank is bad, otherwise the bill is very good and likely to deceive.

Tremont National Bank, Boston, Mass.

2s, imit., well done, and will easily deceive the unwary.

Gore Bank, Hamilton, Canada.

4s, a very close imitation—better refuse all bills of this denomination.

### 20s GREENBACKS.

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect in the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

First Nat'l Bank, Louisville, Ky.

5s, imitation. Columbns at the left end of the note has no left hand. Engraving rather coarse and heavy.

Tioga National Bank, Owego, N. Y.

5s raised from 5. Well done.

First National Bank of Boston Mass.

5s, imitation. The engraving is fine and well done. The signatures of the President and Cashier are engraved. The Seal of the Treasury is a fac simile of the genuine. Examine the wording of the penalty on the lower corners of the back of the note. The bill is well calculated to deceive.

Flour City Nat'l B'k, Rochester, N. Y.

10s, imit. This bill is well executed, and a dangerous counterfeit. The Die on the upper right end is very pale and has a speckled appearance in the imitation instead of a dark and lined appearance, as in the genuine; observe the small curved line under word 'United,' in the imitation it connects the letters UNI, the genuine does not. The signatures are engraved, and the bill is  $\frac{1}{4}$  inch longer.

10s, imitation, (SECOND ISSUE.) Well done. The letters Roc in the word ROCHESTER, at the left end of the words FLOUR CITY, are quite indistinct in the counterfeit, but in the genuine they are clear and distinct.

NEW YORK, Jan. 25, 1869.

The outflow of currency being at present more than counter-balanced by remittances from the interior, the surplus currency seeking employment is daily increasing, the money market abundantly supplied, and not apparently threatened with another lock up. The demand—especially for stock-gambling operations—is sufficient to maintain the full legal rate of 7 per cent per annum for call loans, with exceptional transactions at 6 per cent to leading stock houses or on prime collaterals. Commercial paper is in good demand, and 60 days' with prime names readily discounted at the prevailing rate of 7@8 per cent, though lenders, before discounting, apply a close scrutiny, owing to recent heavy failures of large dry-goods firms in this city and elsewhere. Foreign exchange is firm at 109 $\frac{1}{2}$  for prime bankers' 60 days, and 110 $\frac{1}{2}$  for same short sight paper.

Governments are in good demand for investment, and rates have improved at an average of one per cent on our last quotations.

United States Currency Bonds—having 30 years to run, and bearing 6 per cent currency interest—are of late highly attracting the attention of investors, and are to-day quoted at 101 $\frac{1}{2}$ .

The buoyancy in State securities—especially Southern—reported in our last edition, has not been maintained since, but prices are recovering again from their latest downward tumble.

In the Railroad Stock Market the millennium seems to be coming for gamblers. Bulls and Bears are, for the time being, conjointly puffing their bubbles sky-high. The bears having utterly failed in their late attacks on the strongly entrenched bulls, though holding the field occasionally for a day or two, seem to have turned bulls themselves. What with an abundant money-market, a general mania to make money fast at all hazards, and the *Fata Morgana* of all railroad stocks to be doubled in value with the approaching completion of the Pacific railroads, there is no telling where or when that elevation will stop and those bubbles burst. Beware!

The miscellaneous list is being neglected in consequence of the speculating interest centering in railroads. Pacific Mail and Mariposa preferred continue its chief attractions with recent fluctuations at 4@5 per cent.

Gold, since our last writing, having gone down to 134 $\frac{1}{2}$ , is to-day selling again at 136 $\frac{1}{2}$ , with a decidedly upward tendency, the scarcity of foreign bills, with the decline in cotton abroad, being construed as favorable to a higher premium.

For Stock quotations see page 19.

A bill has been introduced in the Senate proposing to annul the National Bank Act in several particulars. It provides that national banks shall make reports whenever required by the Comptroller; that no national bank shall hold deposits for more than 90 per cent of the bonds it has deposited with the Treasurer, and imposes fine or imprisonment upon bank officers for using corrupt influences to secure government deposits; it also provides for the winding up of banks, the compensation of receivers and other matters.

### Important arrest of Counterfeiters and Seizure of Spurious Money, &c.

On Thursday last the officers of the secret service arrested a gang of seven Italians at 42 Cherry street. They found on the premises \$16,000 in counterfeit \$5 greenbacks and \$1 and \$2 national bank notes; about \$5 in counterfeit fifty cent currency, and also moulds for making counterfeit five cent coin and a quantity of metal for the manufacture of the same. The officers also arrested another gang at 75 Cherry street. Previous to the arrest, certain of the officers were sent to buy spurious coin and currency, which they did, at 20, 25 and 30 per cent for the \$5, \$2, and 50 cent notes respectively, all of which are well executed. At 4 Birmingham street the officers found a peck of spurious five cent pieces in possession of Francesco Stefano, whom they also arrested. The officers subsequently arrested one of the most desperate of the gang, after a severe struggle, in which one of the officers was badly cut, at 19 Baxter street. The prisoners were taken before Commissioner Osborne and held in default of \$5,000 bail each, for an examination on the 28th inst.

### BANK ITEMS.

G. S. Holbert has been elected Cashier of the First National Bank, Watkins, N. Y., vice H. M. Hilleman, resigned.

Henry W. Brandt has been elected President of the First National Bank, Susquehanna Depot, Pa., vice Jos. W. Guernsey.

Charles H. Fellows has been elected President of the Manufacturers' National Bank, Brooklyn, N. Y.

The State Bank notes outstanding October 1, 1868, amounted to \$2,954,391. The amount of circulating notes returned to the Bank Department and destroyed, during the last fiscal year, was \$991,273.

The House Committee on Banking and Currency have agreed to report the bill heretofore introduced by Representative Barnes:

Be it enacted, &c., that from and after the passage of this bill it shall be unlawful for any bank association, corporation, person or persons to loan money upon United States legal tender notes, commonly known as greenbacks, as collateral security, or where the custody or promise of custody of said legal tender notes forms any part of the security or consideration for said loan; and for any offence under this act the bank association, corporation, person or persons so offending shall,

upon conviction thereof, in any United States court, pay a sum equal to one-third of the money so loaned; and the president and cashier of any bank, association or corporation making said unlawful loan or loans shall pay a further sum equal to one-quarter of the money so loaned. The same may be sued for by any person within the State where said offence is committed, and the forfeit or penalty therefore shall belong to the person or persons bringing said suit.

The Comptroller of the Currency has given notice to the National banks that no more Pacific Railroad bonds will be exchanged for gold bearing bonds. The applications for permission to make such exchange, that have been received up to the 20th inst., amounting to about \$500,000, will be complied with, but no other application will be considered until the action of Congress is known.

### DRY GOODS.

There are no special changes to report in Domestic Cotton Goods since our last issue. There has been a slight advance in some brands, and prices rule steady. There is a good demand for Ticks and Denims. Corset Jeans are active and firm, while Stripes are selling modately. There has been a decline in the price of Foreign and Domestic Spool Thread.

All orders addressed to G. A. PLATT, with H. B. CLAFLIN & Co., will receive prompt attention.

**A DANGEROUS COUNTERFEIT.**—A most dangerous counterfeit \$5 Treasury note is in circulation. The easiest mode of detection is by the green ornamental engraving lengthwise, which in the counterfeit is of a paler color, and consequently has a brighter look than the dark green of the original. Seen under the microscope, the engraving of the counterfeit is coarser than the original, and there are some misplacements or omissions, but to the naked eye it presents a genuine appearance.

Most people think the true value of a greenback is found by deducting the premium on gold from 100. This, of course, is an error. Take the price of gold as the divisor, par or 100 as the dividend, and the quotient will give the gold value of the greenback. For example, gold is about 135. Dividing 100.00 by 135, we find that a dollar greenback is worth about 74 cents in gold.

Counterfeit notes in Ohio must be stamped with the name of the bank, banker, broker, and dealer in money into whose possession the worthless currency has come. The date of the stamping must also be added. A penalty of not less than fifty dollars, nor more than one hundred dollars, is imposed for a neglect to observe the provisions of the law, or to stamp a genuine note.

### TO OUR SUBSCRIBERS.

We are placing the imitations of National Bank Notes under the respective banks in the body of the Reporter, as the large number of counterfeits recently put in circulation take up more space than we have room for on first and second pages. Many of these counterfeits are so well executed, (especially those of the denomination of \$10 and \$100,) that it is almost impossible to detect them. We would say to our subscribers, examine carefully all bills on the National Banks, as the adoption of uniform plates for this currency adds extra facilities to counterfeitors, as a good counterfeit can easily be altered to any of these banks.

10s, upper center, eagle on a shield; 10 in green die each side; a strip of green lathe work below—right end, female erect by pedestal holding tablet, etc.—left end a large oval portrait of President Lincoln—fancy green back.

20s, in center, a female erect, with sword and shield, between figure 20 and two green dies; figure 20 each side—TWENTY DOLLARS across each end in green die work—fancy green back.

50s, left centre, oval portrait of Hamilton; Treasury die in pink on right of die; 50 on die on each end of note.

1000s, in centre, portrait of Robert Morris in green circle—right end M with 1000 across it; ONE THOUSAND DOLLARS on a green die below—left end, same as right.

**COUNTERFEIT GREENBACKS.**

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a BLACK STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 8th June, 1857," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A, and are  $\frac{1}{2}$  inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only ONE. But this

may be a counterfeiter's dodge to have it destroyed and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s lmt. There are 16 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, lmt., has 14 small x's on upper right margin—16 on left. The gen. has 15 x's each side of engraver's name. Portrait of Pres't. Lincoln is very coarse and pale looking; lmt. are dated Washington, March 10, 1862, letter O.

20s, very close lmt. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter "K" in the word "The" is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2a, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Imit. one persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word "FIFTY" around the above 50 can scarcely be read. Words "LEGAL TENDER" is very much blurred. Letter C dated March 8, '63. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

**COUNTERFEIT COUPONS.**

The following are the words on the coupons: "Acts of July 17 and August 5, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 785, for \$500. L. E. Chittenden, Register United States Treasury."

**FIVE CENT COIN COUNTERFEITS.** Are in circulation. They may be distinguished from the genuine by the softness of the metal.

**COUNTERFEIT FRACTIONAL CURRENCY.****Old Issue.**

5s, imit., the portrait of Washington differs from another; in the genuine they are all alike; the green color looks light and pale.

25s, imit., well executed. Look out.

**2d Issue.**

10s, imitation. All you on the top has the word "Depositories," the imitation reads "Depositors."

50s, imit., have a pale slate color. The small barrels on lower right corner are very indistinct. The gen. have six barrels perfectly clear and plain. Three on lower row, two on next, and one on top. The counterfeit barrels are black, and gen. are white.

50s raised from 5s

**3d Issue.**

50c. imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DISINTEGRATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Not so on the genuine.

25s, imit., are very pale and coarse. The letter C in cents on left end is smaller than the other letters, and too far off.

**New Issue.**

25, imitation. Above the words "Treasury Department," on the bottom of the bill in the genuine there is a fine notched line—the counterfeits have a straight line.

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurers" the Assistant is spelt "Assistants." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The reverse is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on counterfeit between the figures "50" at the top and bottom of the back of the note have white centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the bronze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. E. Spinner is omitted in some, and the (.) after print. on one end, and the d. after March 80.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 8d," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

**Counterfeit Compound Interest Notes.**

50s, imit., Compound Interest Notes, have a scratchy appearance, issue of July 15th, 1864. In the imitation the words "three years after date" on the top of the bill nearly touch the words "Treasury Department," while in the genuine there is a space of  $\frac{1}{2}$  of an inch between.

2d. In the imit. the last button of Hamilton's coat is  $\frac{1}{2}$  of an inch from the lower margin of the small 50s, while in the gen. the button touches the margin.

100s, Counterfeit 6 per cent. Compound Interest Notes. The engraving as well as the paper and the ink stand the comparison to the genuine. The "U" in "United States" touches the die of the "100" on the left upper corner; on the genuine there is a space of  $\frac{1}{2}$  of an inch between.

## COUNTERFEIT 7.30 BONDS.

FIRST.—The seal is slightly larger than the genuine; the red ink with which it is stamped is a shade lighter, and the points projecting from the seal are blurred and a little longer than the genuine.
SECOND.—The imprint at the bottom of the face of the bond is set different in the margin, there being more space given it than in the genuine.
THIRD.—The borders of the coupons which are attached to the counterfeit bonds are larger, while the red figures are finer than in the genuine.
FOURTH.—The borders of the ornamental lathe work are blurred and somewhat indifferently executed.
FIFTH.—The figures denoting the bond are slightly uneven, while the blue ink in which they are printed is a duller blue and lacks the metallic glossy appearance of the genuine.

SIXTH.—The lines forming the right shoulder of the female in the central vignette do not come up to the sword, but leave a white space. In the genuine note the lines are not only more numerous, but they come clearly and distinctly up to the sword.
On the back, the cyOID work upon which the words "pay to bearer" are engraved is much darker and heavier on the counterfeit than on the genuine; the counterfeit lines are rough, while the genuine are sharp and clear. In the date of the option the "Th" after Jne 15th is nearer to the figures 1868 in the genuine, while in the counterfeit the "Th" is some distance from the figures.
