1. In order that I Corps Headquarters may have on file accurate information with respect to reparations facilities in Chugoku Region, it is requested that a one time report be submitted to this headquarters by 15 January, listing the following information.

a. The number of inventoried items subject to reparations located in non-integrated facilities (aircraft plants, arsenals, and privately owned munition plants).

b. The report will be broken down by classification (Class 1, Class 2, Class 3) and will cover only "pooled"-machinery and equipment. The installations involved will be identified by code number. The number of machines in authorized use will be given. Totals will be stated for both individual plants and prefectures. Items reported for individual installations will be totalled and the grand total for the prefecture will be included as the last item of the report. For example:

Aichi Kokuki Kogyo (Aircraft) 21-1
Atsuta Kojo
Class #1 305 No of machines in authorized use 96
Class #2 210
Class #3 75
590
Grand total, Aichi Prefecture 49,362

2. Request that three (3) copies be forwarded to this headquarters.

To : Chugoku Civil Affairs Region, Attn. Economic Section

Subject: Rental Payment at Shimane Chemical K.K., Gotsu, Shimane Pref.

1. In connection with a verbal inquiry of Mr. Stradley of your office on the above subject, contract was made with the Hiroshima Office of the Chugoku Finance Bureau who made further contact with the Reparations Board, Tokyo. The Reparations Board answered as follows in its letter BAI-SA-SHIN No. 78 dated 12 July 1950, subject "Rental Payment for the Storage of Reparations Equipment".

2. Letter of the Reparations Board on the above subject (translation):

In connection with the inquiry on the above subject this office confirmed the opinion of CPC, SCAP that the rental payment can be covered from the reparations fund in case that privately owned lands and buildings are rented for housing only idle reparations equipment belonging to former Arsenals. On the problem of rental payment to Shimane Chemical K.K. CPC, SCAP gave a clear answer to the Civil Affairs Office concerned.

~~F.R.~~ 36-10-258

14 April 1948

SUBJECT: Report of Disposal of Stone Pulbarizer

TO : Capt. Condict, Commerce & Industry Section.
Shimane Military Government Team

FROM : Yoshishige Sasaki, Representative of
Maruso Sasaki Pottery Plant

Subject report is herewith submitted as follow:

(1) Reason why the machine was removed.

~~F.R.~~ 36-1 I.C

We were ordered to manufacture blicks which were necessary for military second work, but installation of our plant was insufficient, so that we rented military machine to manufacture blicks about 10 August 1940.

(2) Reason why the machine was not reported.

Our plant was installed to do military work (tempering shell) however it had been operated only two months before termination of war, accordingly it caused considerable loss, we had no time to use the machine for manufacturing blicks because war was soon terminated, but as our plant was very short of such kind of machine. We applied for machine to be given without conpensation as the reimbursment of the loss.

Afterward we asked it verbally to engineer Sahara chief of working Sect. Osaka Army Arsenal Iwami Works, who replied he would dispose it properly. We thought that our request had been permitted, accordingly the machine would not be designated reparation machine. The machine was taken down middle of January this year because of bad condition of electric power supply.

As the condition of electric power supply became better we wanted to re-install the machine. To do so we must get more supply of electric power and report to Reconstruction Board how we received the machine. We asked Finance Office to give us cirtificate of the machine, when we found the machine had not been given us without compensation but it should be designated reparation machine, therefore we reported the machine to Finance Office stating the circumstances.

Application for maintenance work

Kind of work : Repair work

Plant Name : Iwami factory of the Ex-Osaka army arsenal. (36-I)

Plant Address: IIIO, Goda, Gotsu-machi, Naka District, Shimane prefecture.

Description of work for which funds requested:

I. Repair of building:

Bldg. No.	Repairing section	Dimention for Repair	Outline of work
I	Shed	24 tsubo	Recover roof with zinc plates
9	"	20 "	"
48	Side wall	II "	"
49	Shed	25 "	"

2. Exchange of window-glass: I50 sheets.

Justification for request:

This reparation custodian branch suffered the above-mentioned damages from typhoon Kezia on I3 ~~last~~ I950. The buildings storing reparation equipments received a severe wind (wind pressure 20m/sec) on the front side, which peeled-off the slate-roofings several places and broke I50 sheets of window-glass, and about 50 machines received damage from the leak. Above are the reason why the repair works are required.

Subject: Rental Payment at Shimane Chemical K.K., Gotsu, Shimane Pref.

1. In connection with a verbal inquiry of Mr. Stradley of your office on the above subject, contract was made with the Hiroshima Office of the Chugoku Finance Bureau who made further contact with the Reparations Board, Tokyo. The Reparations Board answered as follows in its letter BAI-SA-SHIN No. 78 dated 12 July 1950, subject "Rental Payment for the Storage of Reparations Equipment".

2. Letter of the Reparations Board on the above subject (translation):

In connection with the inquiry on the above subject this office confirmed the opinion of CPC, SCAP that the rental payment can be covered from the reparations fund in case that privately owned lands and buildings are rented for housing only idle reparations equipment belonging to former Arsenals. On the problem of rental payment to Shimane Chemical K.K. CPC, SCAP gave a clear answer to the Civil Affairs Office concerned.

February 28 , 1950

From: Tetsutaro Takayanagi, Managing Director,
Shimane Chemical Industry Co., Ltd.,
(Shimane Kagaku Kogyo Kabushiki Kaisha)
No. 1-1, 2-chome, Muromachi, Nihonbashi, Chuo-Ku, Tokyo

1) Name of Plant and Code No. :

Iwami Plant of Former Osaka Army Arsenal

36-1 (1)

2) Location of Plant :

No. 1,110, Gotsu-machi, Naka-gun, Shimane Prefecture.

3) Production :

Carbolic Acid

B-naphthol

Sodium Alginate

4) Machinery and Equipment to be used :

Integrated Facility of Substation and

Several Pumps (cf. Attached List)

5) Necessity for Use :

Our company (which used to be The New Japan Rayon, Ltd.) converted its staple fibre plant into a chemical plant to be engaged in carbolic acid production in the year of 1944 in compliance with the then Enterprise Readjustment Act, while at the same time, its spinning plant standing quite adjacent to same was rent to the Osaka Army Arsenal in response to the request of the army authorities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

However, at the delivery of this spinning plant, we were gigven so short a period of 20 days for taking-out of our whole equipment that various auxilliary equipments as well as our power transmission apparatus were left there as they were.

In January 1946, when machineries there then owned by the foregoing Osaka Army Arsenal were designated as reparation objects, the machineries owned by ourselves were inventoried as EX and at the same time we were told to the effect that the power trsnsmission apparatus and some other objects which we had been in use ever since the plant's establishment might be used as ever. In the meantime, when evaluation was executed on July 8th, 1948 as to the machinery equipments belonging to the Arsenal, it was known to us that the procedures required for EX of the machinery equipments of our owning existing inside the plant had not been made to SCAP, and that o n this accountthese equipments had also been inventoried as reparation objects. However, up to the opinion of the evaluation committee and by permission of Shimane Military Government Team, we re-submitted our application concerning EX of our said equipmenton July 12th, 1948.

Under such circumstances, we were granted orally by Shimane Military Government Team a permit for Temporary Operation of the said power transmission apparatus, a part of the equipments in question which belong to ourselves.

For all that, since this is the only power supplying source to our operation, we hereby apply for its Authorized
