Housekeeping

- This session is being recorded. If you are not comfortable appearing in the video, you may turn off your camera and/or rename yourself.

- Please stay muted when you are not speaking.

- We'll have time for questions at the end, but you are encouraged to ask questions in the chat box throughout.

- Let the speaker know if they are speaking too quickly.

Agenda

- Welcome

- Introduction to #1Lib1Ref Campaign

- Organizing a local event
  - Goals and outcomes
  - Logistics
  - Communications
  - Training
  - Participant support
  - Metrics and reporting

- Resources and support

#1Lib1Ref

- 1Lib1Ref = 1 Librarian, 1 Reference

- Launched in 2016

- Add references to Wikipedia {{citation needed}}

- Facilitated by the Wikipedia Library at the Wikimedia Foundation (WMF)

- Global campaign, local events

IFLA releases 6 videos on Wikidata and Wikibase in Libraries

In February 2020, *IFLA* received a *WikiCite* grant from the *Wikimedia Foundation* to carry out a WLIC 2020 satellite event in Dublin. Due to developments related to COVID19, the project was transformed into 6 online discussions with professionals in order to discuss projects, issues, progress of *Wikidata, Wikibase* and bibliographic data in the field of libraries.
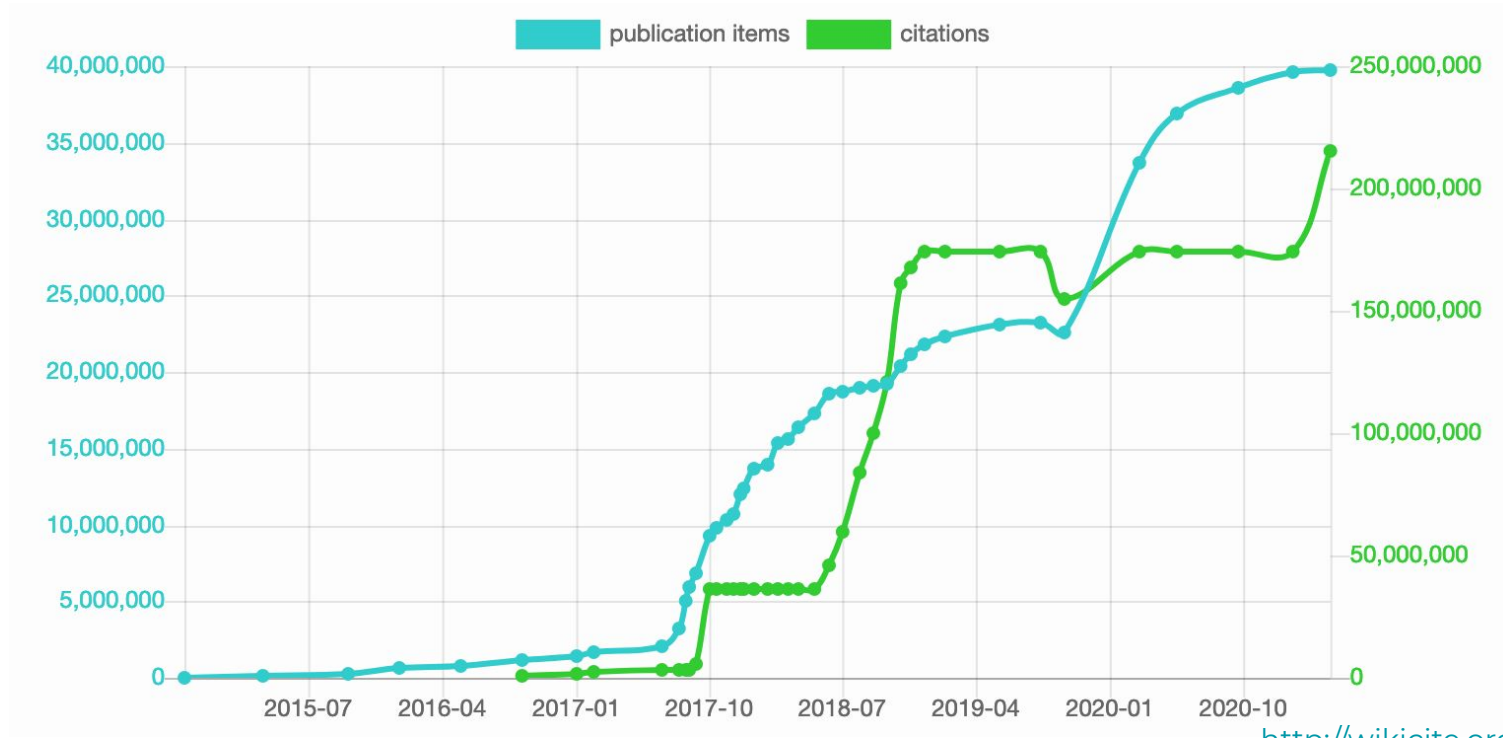

These discussions, led by the *IFLA Wikidata Working Group*, address several themes such as open citations, knowledge equity, language revitalisation, open access to scholarly publications, linking and visualising bibliographic data as they relate t

We thank our speakers, Megan W

https://www.ifla.org/node/93341

39+ Million Publications, 43% of all Wikidata

Organize an Event

- Goals and outcomes
- Logistics
- Communications
- Training
- Participant support
- Metrics and reporting

Goals and Outcomes

- Contribute content to Wikidata

- Community engagement with free knowledge

- Increase the representation of marginalized people and knowledge

- Promote the use of a special collection

- Engage with a new strategic partner

- (to have fun!)

Goals and Outcomes

- Who is your audience?

- What theme or collection of publications serves audience interest + your goals?
    - Subject area
    - Local publication
    - Recent conference
    - Historical collection

Logistics

- Day and time (May 15 - June 5)

- Location

- Snacks

Logistics

- ## Day and time (May 15 - June 5)
  Events may take place over hours or days. A live training establishes community, but please record and share it for those that can't attend.

- ## Location
  Web conferencing platforms work great for short events. If the event is longer, consider a chat platform so participants can stay in touch, ask questions, and share their work.

- ## ~~Snacks~~ Swag
  If a budget is available, consider mailing participants a small item as a thank you for their participation (e.g. sticker, button, postcard).

Communications

- Give your event a name and write-up a description

- Create a registration form

- Invite participants through local channels

Identify a Trainer

- Ability to talk in front of a group of people

- Experience with Wikidata

- Knowledge of community rules and where to find help

- Willingness to learn together

- Optional:
  - Knowledge of query service
  - Knowledge of tools
  - Coding skills
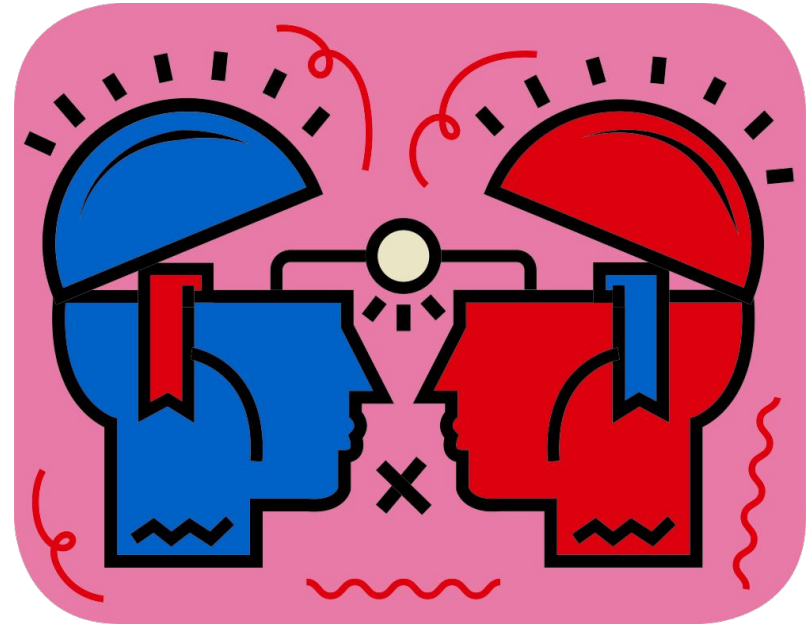

Basic Training

- What is Wikidata?

- Example projects

- How does Wikidata work?

- How to edit existing items

- How to create new items

- Troubleshooting
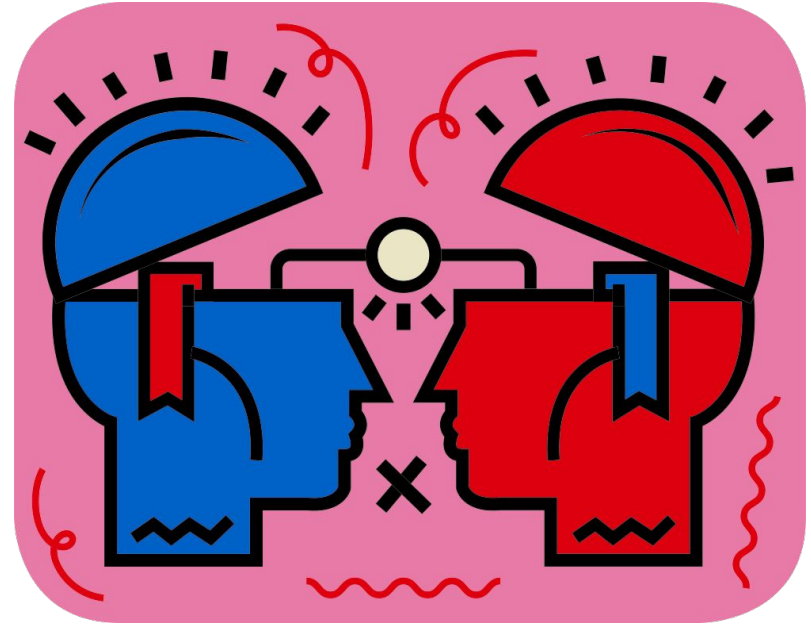

Basic Training

- Make it yours!

What is Wikidata?

Wikidata is a free and open, multilingual, structured knowledge base that can be read and edited by humans and machines.

What is Wikidata?

Wikidata is a **free** and **open**, multilingual, structured knowledge base that can be read and edited by humans and machines.

What is Wikidata?

Wikidata is a free and open, **multilingual**, structured knowledge base that can be read and edited by humans and machines.

What is Wikidata?

Wikidata is a free and open, multilingual, **structured** knowledge base that can be read and edited by humans and machines.

What is Wikidata?

Wikidata is a free and open, multilingual, structured knowledge base that can be read and **edited by humans and machines**.

Participant Support

- Identify a collection of sources to edit or add to Wikidata

- Connect with Wikidatans:
  - Local chapter or user group
  - IFLA WWG Office Hours
  - Wikidata:Community portal

- Track edits via the Dashboard

Metrics and Reporting

Create a program on the Program and Events Dashboard to track the number of articles/items created or edited.

Directions: https://w.wiki/3DT7
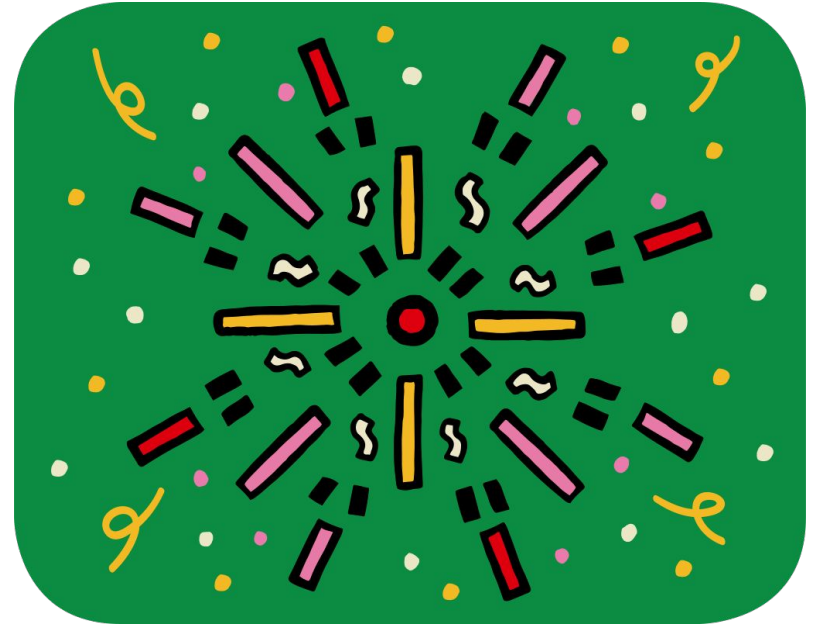

The Dashboard

- Supports the management of Wiki* programs and events

- Includes tracking functions so organizers can:
  - measure and report the outcome of a program
  - identify participants who may need additional support
  - maintain quality control

- Can track edits made as part of a program (a single editing event) or across multiple programs, called a campaign

- Multilingual

- Can track across multiple projects, including Wikidata!

1. Join the Campaign

- Click on the campaign link

- Click the *Login* button and and follow the on-screen popup wizard to login using your Wikipedia account.

- After you are logged in, click the *Create Program +* button.

2. Create Your Program

- Add the title of your event in *Program title:*

- Add the name of your institution in *Institution:*

- Change the *Home Wiki* to Wikidata. This will automatically update the *Tracked Wikis*

- Click *Next*

2. Create Your Program

Create an Independent Program

Enter the starting and ending dates for your program. You may wish to extend the end to several hours or days beyond the end of the main activities, to include related editing that happens soon after the event.

Start of activity tracking:

YYYY-MM-DD   00 ▾ : 00 ▾

End of activity tracking:

YYYY-MM-DD   00 ▾ : 00 ▾

Specify separate event start/end times (optional)

Activity statistics for this program will be tracked based on the dates and times above, but you can specify separate times for when the event or program itself starts and ends (for example, so that participants know when to show up or when the venue closes).

Event start:

YYYY-MM-DD   00 ▾ : 00 ▾

Event end:

YYYY-MM-DD   00 ▾ : 00 ▾

Start and end times are displayed in your local time zone.

Back   **Cancel**   **Create my Program!**

- Fill out the scheduled time and dates for the program.

- Click *Create my Program*! to complete the creation process.

Find Programs   My Dashboard   Training   Documentation   Report a problem   en   Megs   Log out

Your program is live!

- Your program has been created and automatically added to the campaign, as circled in the screenshot.

Sign-up Participants

- Share the link to enroll with participants.

Campaigns: #1Lib1Ref on Wikidata (May 2021)

Sign-up Participants

- Participants with a Wikipedia account should login and join the program

- Participants without a Wikipedia account should click *Sign up with Wikipedia*

- All participants should follow the pop-ups to either create an account or log in.
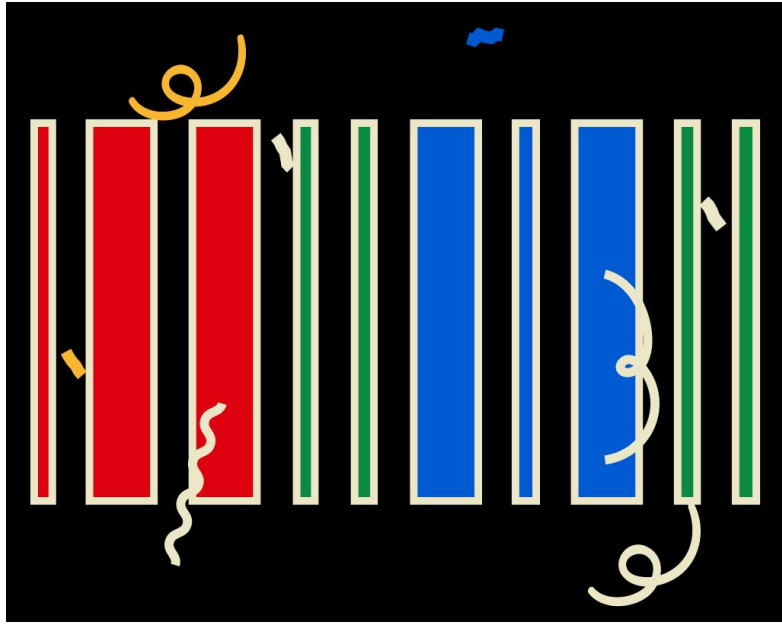

Sign-up Participants

- The participant will receive a welcome message at the top of the dashboard page upon joining the program.

- The dashboard will now collect all edits made by participants to Wikidata. No additional steps are required.
