Storia   [modifica]

Presa coscienza dell'enorme divario di genere durante le presentazioni (soprattutto da parte di Rosiestep e FloNight) a Wikimania Esino Lario 2016, nasce l'idea di fare qualcosa. Dopo la creazione del progetto WikiDonne (4 agosto) per la partecipazione all'editathon HerStory organizzato da May Hachem insieme all'ONU (12 agosto), il 14 ottobre 2016 Camelia inizia le pratiche per il riconoscimento come user group affiliato a Wikimedia Foundation da parte di AffCom. Il gruppo, con sede a Roma, ha la seguente descrizione:

Siamo un gruppo di utenti che hanno lo scopo di aumentare la diversità e migliorare la copertura di argomenti che riguardano le donne in Wikipedia, stilando liste di voci (da creare ex novo, da tradurre) e organizzando eventi. Gli uomini sono i benvenuti

# Issues & needs of an affiliate

Issues

- Mismatch between wikipedians and wikimedians.
- Only a few people engaged (being overwhelmed).
- The affiliate governance is seen as bureaucratic and boring.
- Many actions plan (activity as editor, activity as event organizer, activity as part of the board).
- Many community activities, hard to follow everything.

Needs

- Need help in organizing activities.
- Need to have a site, a mailing list, to set the social media channels.
- Tech expertize.
- Need help and expertise in communication (newsletter, site, clog).
- Need help and expertise in managing the social media.
- Need help in tracking the activities and reporting.

MOVEMENT AFFILIATES

Supporting an affiliate

- Not only WMF, but strong chapters can fund activities of less organized affiliates.
- Organized affiliates can realize activities requested by the community (templates, tools, software).
- Reimburse expenses or little grants amounts to support activities.
- Offering swags.
- Organize activities with other affiliates in other countries.

- For growth, support doesn't necessarily mean funds.
- (Affiliates) Even collaborating and working in harmony is a support.
- Staff support.
- Contacts and connections.
- Partners.

WIKIDONNE

Issues of a non organized affiliate

- Some affiliates - like UGs - don't have a real structure and governance.
- Is not mandatory, but if they are not even associations in their countries, they could lack in know-how.
- Very often, inexperience leads to management errors and conflicts.

- Make sure that processes are tracked (financial plans, and business plans, regulations on the use of funds etc).
- Well-defined roles and clear responsibilities.
- Make sure that processes are transparent.
- Make sure that processes are known by whom is responsible.

Non profit association status

- A legal entity can receive funds from the state if is an org (e.g. the 5x1000 in Italy).
- A non profit have an associative bank account.
- Compared to an individual grant, it allows you to use the funds received without having to return them in case of blocking of the user who received it
- Allow to plan the expenses.

- More expenses (accounting).
- A legal entity has specific obligations towards the state (statute, board, financial plans, accounting).
- These obligations are useful in case of ThOrgs and chapters (is mandatory to be a legal entity).
