

Journal of the Society of Arts.

FRIDAY, APRIL 3, 1863.

ADDRESSES TO HER MAJESTY THE QUEEN AND HIS ROYAL HIGHNESS THE PRINCE OF WALES.

The Council hereby convene a General Meeting of the Members of the Society on Friday next, the 10th day of April, at half-past Four o'clock p.m., to vote addresses to Her Majesty the Queen and to His Royal Highness the Prince of Wales on the Marriage of His Royal Highness.

By order of the Council,  
P. LE NEVE FOSTER,  
Secretary.

Society's House, Adelphi, W.C.,  
2nd April, 1863.

PRIZES FOR ART-WORKMANSHIP.

The following notice has been issued by order of the Council:—

I. The Council of the Society of Arts hereby offer prizes for the successful rendering of the undermentioned designs in the undermentioned processes of manufacture, according to the directions detailed in each case.

II. Such designs will be by artists of great reputation, to be translated into the various modes of workmanship, and photographs and castings of such designs will be sold by the Society, at the Society's House, at cost price to persons desiring to be competitors. The prices of the photographs are stated after each subject.

III. The works to be executed will be considered to be the property of the producers, but will be retained for exhibition, in London and elsewhere, for such length of time as the Council may think desirable.

IV. The exhibitors are required to state in each case the price at which their works may be sold, or if sold previously to exhibition, at what price they would be willing to produce a copy.

V. The awards in each class will be of two grades, and the sums specified in each class will be paid, provided the works be considered of sufficient merit to deserve the award; and, further, in cases of extraordinary merit additional awards will be given, accompanied with the medal of the Society.

VI. Before the award of prizes is confirmed, the candidates must be prepared to execute some piece of work sufficient to satisfy the Council of their competency.

STREET ILLUMINATIONS AND DECORATIONS FOR FETES.

SIR,—I regret to see the announcement of the appointment of a committee upon this subject. It appears to me derogatory to the Society, and a divergence from its path of usefulness towards the frivolous tendencies of the day.

Seeing the danger of these exhibitions, which, from the increasing railway accommodation, will be heightening every year, and knowing, as every one must who has witnessed an illumination, that it is the signal for license to the disorderly classes, had the Society appointed a committee to inquire into the practicability of extinguishing illuminations altogether by finding a substitute of some kind, it might, I think, seem fairly to bring the subject within its province.

I am, &c.,  
 H. C. WHITE.

88, Great Tower-street, E.C., April 1, 1863.

PATENTS.

SIR,—With reference to Dr. Collyer's letter, in a recent number of your *Journal*, alleging that he had suggested to me the new application of purified gutta-percha or india-rubber, to certain articles of dress, for which I am now applying for letters patent, I beg to affirm that the statement in question is incorrect. I remember having casually mentioned to him my discovery, and he thereupon offered to join me in the expense of taking out a patent, but which offer I refused.

I am, &c.,  
 PERCY ADDISON COLE.

9, Croydon-street, Bryanstone-square, W., April 1, 1863.

Proceedings of Institutions.

SHROPSHIRE MECHANICS' AND LITERARY INSTITUTION, SHREWSBURY.—In the report of the committee for the year ending 31st December, 1862, the committee have the pleasure of testifying to its continued prosperity, and of stating that its funds, although not showing the increase it anticipated last year, has in no wise diminished. During the twelve months just elapsed there has been an unusual fluctuation in the numbers of the society, the Institution having lost, from deaths and other causes, as many as thirty-four members and eleven students; but this great decrease has, however, been more than compensated by the enrolment of fifty-one new members and twenty-seven new students, a circumstance greatly gratifying to the committee, as illustrative of the success which has attended their efforts in giving wide publicity to the manifold advantages of the Institution. At the same time they would call particular attention to this fluctuation as ex-

emplifying the constant necessity for individual exertion, in order to maintain the efficiency of the society. With profound regret the committee have to record in this report the great loss the Institution has sustained by the much-lamented death of its late president, R. A. Slaney, Esq., whose unremitting kindness and generosity, from the very foundation of the Mechanics' Institution, has contributed in a very material degree to its past and present stability. But while they regret this loss, they deem the society fortunate in possessing so able and valuable a successor as William James Clement, Esq., to whom they are much indebted for his exceedingly eloquent and interesting inaugural address, and likewise for the active interest he evinces in the welfare of the Institution. The committee have here to tender their acknowledgments to the Rev. R. H. Cobbold, M.A., Broseley, for his very instructive and interesting lecture on "Tea, Rice, and Opium;" but they have also to express their surprise at the small attendance of members on that occasion, which affords them little encouragement to continue their efforts in this popular mode of providing instruction. Notwithstanding, they have the pleasure of announcing lectures early in the present year from the Rev. Doctors Kennedy and Bowles, and also Reverends T. Bucknall Lloyd and James Colley. In order to extend as much as possible the province of the library, the committee have entered into an arrangement, for the winter months, for a supply of the new works of the day from Mucie's library, the extra cost being defrayed by a small contribution from those members who participate in the advantages of this special subscription. No necessity having been manifested for any classes, except one in book-keeping, this alone has been in operation during the past year; but recently an application was made to the committee to allow the establishing of a class in chemistry, which they will have much pleasure in promoting. The balance-sheet shows that the income has been £135 14s. 2d., and that there is a balance in hand of £25 13s. 2½d.
