PREFACE

The current volume of JULIUS CAHN'S OFFICIAL THEATRICAL GUIDE is the eighth edition that has been offered as a thesaurus of statistics both to members of the dramatic profession and to travelling men. THE GUIDE is an excepted book of reference, gives definite information concerning theatres, newspapers, hotels and railroads in every city and town of any importance as an amusement centre, and is daily consulted as an authority by all managers and players throughout the United States and Canada.

This issue has been thoroughly elaborated, and surpasses its predecessors in detail and authenticity. An absolutely correct, national managers' directory of thirty-five hundred names, together with particulars from two hundred new houses, has been incorporated in the tabulation, making the book, in its present condition, the most complete compendium of theatrical knowledge ever compiled.

On the first of every month, from September until May, a supplementary edition is published in pamphlet form, containing a thirty-day route of every important road company, and an editorial and general resume of the theatrical outlook. THE MONTHLY SUPPLEMENT is mailed FREE OF CHARGE, sufficiently in advance to admit of correspondence with companies two weeks before they reach your city.

The publisher offers his sincere thanks for the co-operation of advertisers, managers, subscribers, and members of the dramatic profession who have contributed in any way to the perfection of volume VIII.

COPYRIGHT AND COMMON LAW PROTECTION.

Written by Louis Steckler, Counsellor-at-Law,
No. 99 Nassau Street, New York City.

COPYRIGHT.

The question of the requirements for the copyrighting of any dramatic or musical composition has gone through various stages of amendment until at the present time not only the requirements on the part of the author or composer in complying with the Copyright Law, but the protection to which such author or composer is entitled, has practically become settled, and there can now no longer be any doubt that the author or composer who has in every respect complied with the Copyright Law, is in a position now to fully protect his rights, and the careful, conscientious person who desires to produce such author's composition, must obtain the consent in writing, as provided by the Statute, or he will be in fear of a summary process, which will forthwith among other things stop any unauthorized production.

The Copyright Laws, as now in force, and as they have been recently construed by the United States Courts, are such that the manager of a playhouse throughout the United States must be satisfied that the attraction booking in his house has the rights to the musical and dramatic composition which it is about to produce, or the manager of the house will find himself in a position where he personally will be held in damages for an unauthorized production by the author or composer or owner of such musical or dramatic composition.

The dealer in plays, who, without authority of the author first having been obtained, as required by Statute, deals in the material of a copyrighted musical or dramatic composition, or who surreptitiously produces what purports to be a manuscript of such copyrighted composition, will find himself in a position where all copies or alleged copies of said composition found in his possession are forthwith seized, and forfeited to the author or owner of the copyright; besides which said dealer is liable to the author or owner of the copyright in the sum of One Dollar for every sheet of such composition found in his possession.

In a recent copyright action in the City of Chicago, after due process of Law, the premises of a Manuscript Society were broken into, and all copies in the possession of this society were forfeited, and an injunction was obtained enjoining the proprietor, his agents, employees and attorneys from using or offering for sale any copies or alleged copies of said composition, and an injunction was obtained enjoining those who purchased copies surreptitiously obtained of the play in question from producing such play; besides which the proprietor is liable for \$1.00 for every sheet found in the possession of the said Society.

At the same time, three individuals who had purchased such manuscripts were compelled by due process of Law to deliver them to the owners of the copyrighted composition referred to.

It will thus be seen that the author or owner of a copyrighted musical or dramatic composition who

has fully complied with the Law is protected in every way, and that the person or persons who desire to produce any play which has been copyrighted must satisfy themselves that they are making a contract for the rights to produce a copyrighted composition with the real party in interest, and that the permission must be in writing and signed in the presence of two or more witnesses and the manager of the playhouse, who will book an attraction or permit the attraction to play at his house without first having seen the permission referred to, will run the chance of having his house darkened by injunction proceedings; and unless he can show that he was imposed upon after making every fair effort to satisfy himself will find himself liable for damages in addition thereto.

At the present time, when our newspapers are so fully alive to publication of all musical and dramatic matters, when the success of a musical or dramatic composition is forthwith flashed all over the country, and those who are responsible for the success of the production of such composition, including the authors, managers, and others are so well known, the careful, conscientious manager, who desires to produce any musical or dramatic compositions, can well protect himself, and if he is acting in good faith will get his material and permission to produce from well established and honorable agencies, who can guarantee him full protection, and not from those piratical concerns which are so well known to all managers, and whose business it is to profit by the successes which others have made surreptitiously and in fraud of the rights of those who are entitled to the fruits of their labor.

And the manager who deals with the piratical individual or manuscript society and purchases contraband material is likely at any moment to find himself in the clutches of the Law, where the remedies are many fold and severe, affecting as they do, not only the personal property of the person or corporation proceeded against, but the liberty of the individual as well by having imprisonment for one year staring him in the face.

As there have been several instances where actors and actresses who took part in unauthorized productions of musical or dramatic composition have found it necessary to obtain bail hurriedly; and there have been several convictions in which, however, the complainants have personally requested suspension of sentence, feeling that it would be a particular hardship to imprison the convicted persons.

Even the actor or actress who signs a contract with a manager to take part in any production or attraction must satisfy him or herself that the party they sign with has the right to produce the dramatic or musical compositions which they are engaged to interpret.

There is also a serious penalty attached on behalf of the person who prints upon any composition the indication that the same has been copyrighted, unless such copyright has been entirely granted.

ETHEL BARRYMORE

DIRECTION CHARLES FROHMAN

COPYRIGHT AND COMMON LAW PROTECTION—Continued.

The general copyright statutes apply to citizens of a foreign state or nation, when such foreign state or nation permit to the citizens of the United States of America the benefit of copyright on substantially the same basis as to its own citizens.

The blanks for obtaining copyrights with full directions can be obtained from the Librarian of Congress, at Washington, District of Columbia, and must be followed strictly.

The Librarian of Congress has no discretion which would enable him to determine the validity of a copyright nor the priority or infringement thereof; all questions of this nature must be decided by the United States courts.

There is quite a serious difference of opinion among authorities as to whether a typewritten copy is sufficient on making the first entry, but the writer refers to the official application for copyright, from which he quotes, "The law distinctly specifies the printed title." If the type-written title is sent it is at the claimant's risk.

Following the same subject, and referring to Section 4956 of the Revised Statutes, in which it is set forth: "That in the case of a book, chromo, photograph or lithograph, the copies of the same required to be delivered or deposited as above shall be printed from type set within the limits of the United States or from transfers made therefrom," the writer expresses it as his opinion that a musical or dramatic composition, when deposited with the Librarian of Congress, becomes a book, and as such must be printed as hereinbefore referred to; and it is the writer's opinion that any copyright which does not strictly follow the provisions of the Revised Statutes, may be declared null and void in any action that might be brought with reference to such copyright.

One of the best masters of Chancery, in Chicago, Illinois, who is familiar with the copyright question has ruled that a type-written copy of a dramatic composition, filed subsequently to the third day of March, 1891, did not give the proprietor a valid copyright.

The certificates of filing of title and the subsequent deposit of two copies, both obtained from the Librarian of Congress, are prima facie evidence of the securing of the copyright by the author or proprietor; but in any action it is possible to go fully into the question as to whether the law has been fully followed or whether the copyright is valid.

At the present time American citizens may claim copyrights in the hereinafter named foreign countries, and the citizens of the countries named may likewise obtain copyrights in this country: Belgium, France, Great Britain and the British possessions, and Switzerland, Germany, Italy, Denmark, Portugal, Spain, Mexico, Chile, Costa Rica, and Netherlands and the possessions of Netherlands.

If an American citizen desires to obtain a copyright in any of the foreign countries hereinabove mentioned, he must comply with the copyright provisions of the particular country, but in all cases where the American citizen desires any foreign copyright protection simultaneously with his application in the United States of America, and should so ar-

range the final publication that he deposits the copies required prior to the date of publication in any country.

COMMON LAW.

Even though our Statutes thoroughly protect copyrighted musical and dramatic compositions there is absolutely nothing in our Statutes nor in the decisions interpreting our Statutes which prohibits or does not fully protect the author of the dramatic or musical composition who prefers to retain his work in manuscript form and who thus invokes the aid of the Common Law Protection for his property.

The line of decisions upon the question of Common Law Protection will protect the author absolutely, so long as he does not print or permit to be printed for publication such manuscript.

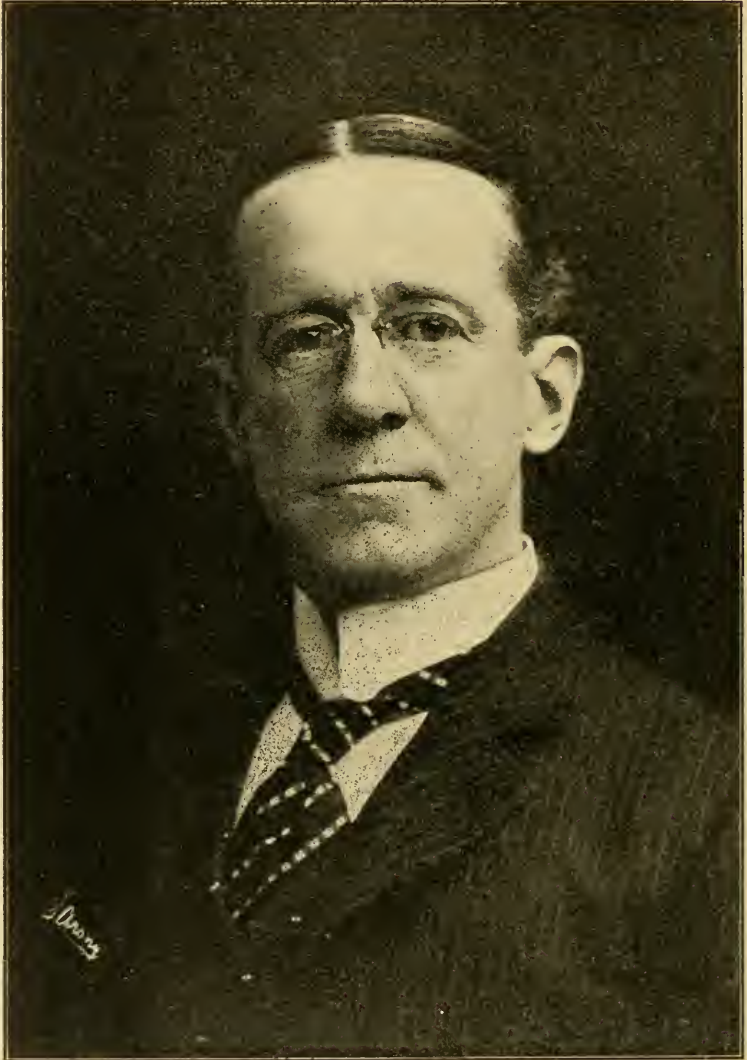

Injunctions are obtained against any one producing a manuscript dramatic or musical composition without authority, and dealers in manuscripts of musical and dramatic compositions will be enjoined from dealing in them, unless they can show that they have the rights from the author or his duly authorized agent; and theatrical companies who, without authority from the author or his duly authorized agent, produce a dramatic or musical composition retained in manuscript form, will be enjoined, and the manuscripts found in their possession or from which said composition was produced, will be forfeited to the author or his duly authorized agent.

The United States Revised Statutes specifically declare that "every person who shall print or publish any manuscript whatever without the consent of the author or proprietor first obtained, shall be liable to the author or proprietor for all damages occasioned by such injury," and the various courts, both Federal and State, have repeatedly cases of manuscript dramatic and musical compositions enjoined theatrical companies from producing the same, and have assessed damages against them; and in certain of the States special acts have been recently passed which provide for imprisonment of any persons who perform, permit, aid or take part in unauthorized performances, whether they be of an unpublished, undecated or copyrighted dramatic or musical compositions.

Thus it is apparent that both under the Common Law and under the United States Revised Statutes, the author or composer of a dramatic or musical composition is fully protected, and that those engaged in the theatrical profession as actors, actresses, managers of companies or managers of houses or proprietors thereof, if they desire to avoid unnecessary annoyance and expense will respect the rights of such authors, whether the same be claimed by copyright or under the protection of the Common Law.

In cases where contracts have been made or permission legally granted for the rights to produce a musical or dramatic composition upon the payment of royalties to the author or his authorized agent, or to the owner of the manuscript or copyright or his agent, the Courts have invariably upon the request of the parties entitled thereto enjoined the further production, in case the royalties have not been paid pursuant to the written agreement between the parties.

It is therefore advisable that every manager of a theatrical company producing royalty paying plays insist upon receipts, so that he may be able

WM. H. CRANE

to protect himself at any time against the injunction for failure to pay the royalties which had accrued under the contract had been paid.

Here follow the Revised Statutes of the United States of America, concerning musical and dramatic compositions, as to obtaining the copyright and the rights which accrue under such copyrights:

SEC. 4952. The author, inventor, designer, or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph, or negative thereof, or of a painting, drawing, chromo, statue, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person shall, upon complying with the provisions of this chapter, have the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing, and vending the same; AND IN THE CASE OF A DRAMATIC COMPOSITION, OF PUBLICLY PERFORMING OR REPRESENTING IT, OR CAUSING IT TO BE PERFORMED OR REPRESENTED BY OTHERS; AND AUTHORS OR THEIR ASSIGNS SHALL HAVE EXCLUSIVE RIGHT TO DRAMATIZE AND TRANSLATE ANY OF THEIR WORKS FOR WHICH COPYRIGHT SHALL HAVE BEEN OBTAINED UNDER THE LAWS OF THE UNITED STATES.

SEC. 4953. Copyrights shall be granted for the term of twenty-eight years from the time of recording the title thereof, in the manner hereinafter directed.

SEC. 4954. The author, inventor, or designer, if he be still living, or his widow or children, if he be dead, shall have the same exclusive right continued for the further term of fourteen years, upon recording the title of the work or description of the article so secured a second time, and complying with all other regulations in regard to original copyrights, within six months before the expiration of the first term; and such person shall, within two months from the date of said renewal, cause a copy of the record thereof to be published in one or more newspapers printed in the United States for the space of four weeks.

SEC. 4955. Copyrights shall be assignable in law, by an instrument of writing, and such assignment shall be recorded in the office of the Librarian of Congress within sixty days after its execution; IN DEFAULT OF WHICH IT SHALL BE VOID AS AGAINST ANY SUBSEQUENT PURCHASER OR MORTGAGEE FOR A VALUABLE CONSIDERATION, WITHOUT NOTICE.

SEC. 4956. No person shall be entitled to a copyright unless he shall, on or before the day of publication IN THIS OR ANY FOREIGN COUNTRY, deliver at the office of the Librarian of Congress, or deposit in the mail within the United States, addressed to the Librarian of Congress, at Washington, District of Columbia, A PRINTED COPY of the title of the BOOK, map, chart, DRAMATIC OR MUSICAL COMPOSITION, engraving, cut, print, photograph, or chromo, or a description of the painting, drawing, statue, statuary, or a model or design for a work of the fine arts, for which he desires a copyright, nor unless he shall also, NOT LATER THAN THE DAY OF THE PUBLICATION THEREOF IN THIS OR ANY FOREIGN COUNTRY, deliver at the office of the Librarian of Congress, at Washington, District of Columbia, two copies of such copyright book, map, chart, DRAMATIC OR MUSICAL COMPOSITION, engraving, chromo, cut, print, or photograph, or in case of a painting, drawing, statue, statuary, model, or design for a work of the fine arts, a photograph of the same: PROVIDED, That in the case of a book, photograph, chromo, or lithograph, THE TWO COPIES OF THE SAME REQUIRED TO BE DELIVERED OR DEPOSITED AS ABOVE SHALL BE PRINTED FROM TYPE SET WITHIN THE LIMITS OF THE UNITED STATES, or from plates made therefrom, or from negatives or drawings on stone made within the limits of the United States, or from transfers made therefrom. During the ex-

istence of such copyright the importation into the United States of any book, chromo, lithograph, or photograph so copyrighted, or any edition or editions thereof, or any plates of the same not made from type set, negatives, or drawings on stone made within the limits of the United States, shall be, and it is hereby prohibited, except in the cases specified in paragraphs five hundred and twelve to five hundred and sixteen, inclusive, in section two of the act entitled "An act to reduce the revenue and equalize the duties on imports, and for other purposes," approved October first, eighteen hundred and ninety; and except in the case of persons purchasing for use and not for sale, who import subject to the duty thereon, not more than two copies of such book at any one time; and except in the case of newspapers and magazines, not containing in whole or in part matter copyrighted under the provisions of this act, unauthorized by the author, which are hereby exempted from prohibition of importation; PROVIDED, NEVERTHELESS, That in the case of books in foreign languages, of which only translations in English are copyrighted the prohibition of importation shall apply only to the translation of the same, and the importation of the books in the original language shall be permitted.

SEC. 4957. The Librarian of Congress shall record the name of such copyright, book or other article, forthwith, in a book to be kept for that purpose, in the words following: "Library of Congress, to wit: Be it remembered that on the ...day of.....A. B., of.....hath deposited in this office the title of a book, (map, chart, or otherwise, as the case may be, or description of the article,) the title or description of which is in the following words, to wit: (here insert the title or description) the right whereof he claims as author, (originator or proprietor, as the case may be,) in conformity with the Laws of the United States respecting copyrights, C. D., Librarian of Congress." And he shall give a copy of the title or description, under the seal of the Librarian of Congress, to the proprietor whenever he shall require it.

SEC. 4958. The Librarian of Congress shall receive from the persons to whom the services designated are rendered the following fees:

First—For recording the title or description of any copyright book or other article, fifty cents.

Second—For every copy under seal of such record actually given to the person claiming the copyright, or his assigns, fifty cents.

Third—For recording and certifying any instrument of writing for the assignment of a copyright, one dollar.

Fourth—For every copy of an assignment, one dollar.

All fees so received shall be paid into the Treasury of the United States: PROVIDED, That the charge for recording the title or description of any article entered for copyright, the PRODUCTION OF A PERSON NOT A CITIZEN OR RESIDENT OF THE UNITED STATES, shall be one dollar, to be paid as above into the Treasury of the United States, to defray the expenses of lists of copyrighted articles as hereinafter provided for.

SEC. 4959. The proprietor of every copyright book or other article shall deliver at the office of the Librarian of Congress, or deposit in the mail, addressed to the Librarian of Congress, at Washington, District of Columbia, a copy of every subsequent edition wherein any substantial changes shall be made: PROVIDED, HOWEVER, That the alterations, revisions, and additions made to books by foreign authors, heretofore published, of which new editions shall appear subsequently to the taking effect of this act, shall be held and deemed capable of being copyrighted as above provided for in this act, unless they form a part of the series in course of publication at the time this act shall take effect.

SEC. 4960. For every failure on the part of the proprietor of any copyright to deliver or deposit in the mail either of the published copies, or description or photograph, required by sections four thousand nine hundred and fifty-six, and four thousand nine hundred and fifty-nine, the proprietor of the copyright shall be liable to a penalty of twenty-five dollars, to be recovered by the Librarian of Con-

SEC. 4962. No person shall maintain an action for the infringement of his copyright UNLESS HE SHALL GIVE NOTICE THEREOF BY INSERTING IN THE SEVERAL COPIES OF EVERY EDITION PUBLISHED, on the title-page or the page immediately following, if it be a book; or if a map, chart, MUSICAL COMPOSITION, print, cut, engraving, photograph, painting, drawing, chromo, statue, statuary, or model or design intended to be perfected as a work of the fine arts, by inscribing upon some portion of the face or front thereof, or on the face of the substance on which the same shall be mounted, the following words, "Entered according to act of Congress, in the year _____, by A. B., in the office of the Librarian of Congress, at Wash- ington."

SEC. 4963. Every person who shall insert or im- press such notice, or words of the same import, in or upon any book, map, chart, dramatic or musical composition, print, cut, engraving or photograph, or other article, whether such article be subject to copyright or otherwise, for which he has not obtained a copyright, or shall knowingly issue or sell any article bearing a notice of United States copy- right which has not been copyrighted in this coun- try; or shall import any book, photograph, chromo, or lithograph or other article bearing such notice of copyright or words of the same purport, which is not copyrighted in this country, shall be liable to a penalty of one hundred dollars, recoverable one- half for the person who shall sue for such penalty and one-half to the use of the United States; and the importation into the United States of any book, chromo, lithograph, or photograph, or other article bearing such notice of copyright, when there is no existing copyright thereon in the United States, is prohibited; and the circuit courts of the United States sitting in equity are hereby authorized to enjoin the issuing, publishing, or selling of any article marked or imported in violation of the United States copyright laws, at the suit of any person, complaining of such violation; PROVIDED, That this act shall not apply to any importation of or sale of such goods or articles brought into the United States prior to the passage thereof.

SEC. 4964. 31 PEARL STREET,
ROCHESTER, N. Y.

Our own original method of building Auditoriums. Not one seat in our many theatres that does not command a full view of the stage. Stage arrangements equal to any in the country.

The acoustics always perfect.

We show everything on the plans and specifications so minutely that nothing is left to the imagination. It gives the contractors an opportunity to figure intelligently on everything necessary for the building complete, and leaves no excuse for the usual **BILL OF EXTRAS.**

Tapestry Special Designs for Special Rooms Furnished

Paintings

2000 Tapestry Paintings

To Choose from. 38 Artists employed, including Gold Medalists from the Paris Salon.

Russian Tapestry For Wall Hangings in colorings to match all kinds of woodwork, carpets, and draperies. To be pasted on like wall paper, 52 inches wide. It costs little more than burlaps, and has taken the place of burlaps in private homes, being softer, smoother, and more rich and restful. We commend these most highly. We have made special silk draperies to match them. Send for samples.

Gobelin Art Cretons For Wall Hangings. They are pasted on like wall paper. They are taking the place of the latter, being softer and more artistic, costing very little more—about the same as wall paper, at \$1.00 a roll. We have them in styles of Grecian, Russian, Venetian, Brazilian, Roman, Rococo, Dresden, Festoon, Colledge Stripe, Marie Antoinette, Indian, Calcutta, Bombay, Delft, Soudan, and, mark you, we have draperies to match. Send 25c. to pay postage on samples.

Wall Papers New styles designed by gold medal artists. Send 50c. to prepay express on large sample book and drapery. Will include drapery samples in package. See our Antique, Metallic, French, Pressed Silks and Ilda effects. Have 500 different wall hangings with draperies especially made to match.

Draperies We have draperies to match all kinds of wall hangings from 15c. a yard. This is a very important feature to attain the acme of artistic excellence in decoration. No matter how much or how little you want to spend, you must have harmony in form and color. Send for samples.

Free If you will send us the floor plans of your house, we will send you free a color scheme illustrated by samples themselves. (Regular charge for this is \$25.00). Tell us what you want on the walls of the principal rooms—tint, paint, paper or stuff. We can decorate your house from \$200.00 up. If possible, send us the plans—rough pencil outline will do. Tell us if you want curtains, carpets, furniture—in fact, itemize to us everything you desire. If you have any or all of those articles, let us know the color of them so we can bring them into the color scheme. Send 25c. to pay postage.

Douthitt's Manual of Art Decorations The art book of the century. 200 royal quarto pages filled with full page colored illustrations of modern home interiors and studies. Price, \$2.00. If you want to keep up in decoration, send \$2.00 for this book, worth \$50.00.

School Six 3-hour tapestry painting lessons in studio, \$5.00. Complete written instructions by mail, \$1.00. Tapestry paintings rented; full size drawings, paints, brushes, etc., supplied. Nowhere, Paris not excepted, are such advantages offered pupils. New catalogue of 175 studies, 25 cents. Send \$1.00 for complete instructions in tapestry painting and compendium of studies.

Tapestry Materials We manufacture Tapestry Materials for painting upon superior to foreign goods and half the price. Book of samples, 10 cts. Send \$1.50 for trial order—for two yards of 50-inch wide No. 6 goods, worth \$3.00.

 SERIES”**

This is the title of a series of books of travel and education issued by the Passenger Department of the

NEW YORK CENTRAL

AND

HUDSON RIVER RAILROAD

These small books are filled with information regarding the best modes of travel and the education that can best be obtained by travel.

They relate specifically to the great resorts of America—to trips to the islands of the sea and around the world.

They also contain numerous illustrations and new and accurate maps of the country described.

A copy of the 52-page Illustrated Catalogue of “The Four-Track Series” will be sent free upon receipt of a two-cent stamp, by George H. Daniels, General Passenger Agent, New York Central and Hudson River Railroad, Grand Central Station, New York.

YES

There are other railroads between the East and the West.

BUT

it is always well to secure the best you can for the money.

THEREFORE

You should bear in mind this remark of an experienced traveler:

“For the excellence of its tracks, the speed of its trains, the safety and comfort of its patrons, the loveliness and variety of its scenery, the number and importance of its cities, and the uniformly correct character of its service, the New York Central and Hudson River Railroad is not surpassed by any similar institution on either side of the Atlantic.”

Send to George H. Daniels, General Passenger Agent, Grand Central Station, New York, a two-cent stamp for a 52-page Illustrated Catalogue of “The Four-Track Series.”

“The Busy Man's Train”

Appropriate in its Name,

Appropriate in its Route,

Best Show Towns West of Chicago

Practically every good show town between Chicago and Denver and between St. Paul, Minneapolis and Ft. Worth, is on the Rock Island System.

There are more of them, and they are, as a rule, bigger than on any other western railroad.

A company could start out from Chicago and spend two solid months in Rock Island territory, showing only at Rock Island towns, traveling only on Rock Island trains and buying tickets only via the Rock Island System.

What is more, the strong probability is that, if they did so, they would make more money and have fewer disagreeable experiences than by jumping from this line to that and criss-crossing up and down the map.

We are now compiling data as to opera houses in the fourteen states and territories traversed by our lines. The data will be ready in time for use next fall. It will give the name of the theatre and the Manager, seating capacity and prices, as well as information likely to be of value to stage managers.

Every theatrical booking agency, every advance man—every one, in short, who has need for information of this kind, should write for a copy.

MEXICO.

Mexico is undoubtedly a coming theatrical field for recognized and worthy operatic, spectacular and musical attractions, as the theatre-goers are appreciative and pay liberally for meritorious entertainments. The theatres are now mostly controlled by sharing managers, the newspapers generous with space, and the railroads make rates of 1½ to 2 cents a mile for parties of five or more, and are controlled and operated by Americans of broad and liberal views. The duty on printing taken into Mexico from the United States has lately been withdrawn, although now in a few cities a small tax or nominal charge is made for the privilege of billing and advertising. The laws of Mexico are very rigid regarding theatrical advertising; every scene and act must be produced as represented, failure of which is subject to a heavy fine by the Governor of the city.
