Jaymes Collette

We regret to report the passing in June 1968 of Jim Collette. A beautiful boy with just about everything to live for, he seemed from a very early age bent on self destruction.

On California's last primary election day (the same day Senator Robert Kennedy was assassinated) Jim took a trip with a group of hippie friends to the Colorado River. The group returned without him. Three days afterwards he was found floating in the river, but an autopsy revealed that death had come from alcohol and drugs. If you know other young people who think this is a cute way to get their "kicks", you might mention this story to them.

The next issue of Physique Pictorial which will be Volume 17 Numbers 2 thru 4 combined, will be entirely made up of natural (nude) photographs. It will be 64 pages, the same size as this current book. The cost will be \$2, but it will be sent automatically to all PP subscribers unless they specifically request us not to send it, and there will be no extra charge.

Many newsstands are unable to handle full nudes because of community backwardness, especially in provincial areas. NATURAL (NUDE) photographs are available on all models in this book where it has been noted that the poseur is a "natural model". Sets of six prints cost \$3. At a later time we may be able to offer these on a catalog selective basis, but are short-handed at present.

On almost all of the "strapped" models, catalogs are available, and these cost 25¢ for each page.

WHERE DO WE GO FROM HERE?

What's going to happen next in the Physique field? After decades of weeping and wailing of our suppressed rights, photographers may now display genitalia in their photographs without fear of going to federal prison for 10 years or paying \$10,000. fine. However, no law has been changed, simply interpretations have been more favorable to art representations. But people are still being prosecuted and convicted for "obscenity". Beloved George Greig who did so much for the orphan boys of Tijuana thru his Frontier Boys' Club is now serving a 6 month's jail term for having sold a San Diego vice squad officer photographs he took at a love-in.

continuation of "Where Do We Go From Here?"

The public's moral tolerance swings back and forth like a slow-moving pendulum. Some of us feel that the extremism of certain elements will tend to supply momentum to the inevitable purge by the reactionaries who find immorality in any display of nudity. One pocket-book firm has brazenly used many AMG photos without our permission to illustrate books with such dirisive titles as "Daddy Was a Fag" and "Sausage Factory". Suing these people would only bring publicity to them, even as mentioning it here will pique the curiosity of some prurient minded individuals. We would hope (but fear it wont) that prudence and sanity will prevail in this field.

ROY WALLING 21, 5'11, 140 pounds of Downey Calif was brought to AMG by the same man (Darby Summers) who also "discovered" Brian Idol of whom he cannot understand why "such a fuss" has been made.

A black and white natural film
was made of Jim, but it needs
considerable more editing be-
fore it can be released (to re-
move flash frames, double ac-
tion--but never fear--nothing of
value is removed).
If enough people write and
show interest we will get
busy on it.

Trojan Book Service ordered a
number of color transparencies
of Jim to put in their books (Stud,
Dram etc) but then returned them
unused with the implication that
he was not posed provocatively
enough to meet their present
requirements.

Phil Seward

Jim Giussi

This is photo Z and across the page is photo P from the Giussi natural series. Studies of Jim in a posing strap on pg 27 of TV.

Jim Giussi was born in Stockton California on April 24, 1943

He is another of the "Little Guys", only 5'3 and 118 lbs. waist 27, biceps 12 5/8, hips 34, chest 38.

He is an active gymnast-- some of his talent is displayed in his film G-37, black & white natural, 8mm \$10.

Employed now as an actor, he sings, dances, plays the piano and does tricks (magician tricks, that is).

On your right: Scene from AMG natural film C-66, Cyclist & The Indian 8mm \$15 features Sonny Landham as the indian and J.D. Gregg as the cyclist who "invades" his land. Naturally they wrestle, and the wrestling they do is very lively.
