- 10. N/A
- 11. N/A

12. Reporting Officer's Comment: The sighting lasted approximately ten (10) seconds and was verified by the navigator, Captain J. [REDACTED] from the same organization. Both officers stated the object was traveling at 1,000 mph plus, and that the two lights were similar to jet afterburners. They further stated that they know of no meteorological, astronomical or other phenomena which could account for the lights. The reporting officer finds no explanation of the reported sighting.
