KID MCCOY MAY OFFER PLEA OF INSANITY!

MAKES PLEA TO REDUCE ACCIDENTS

E. B. Lefferts of Auto Club Gives Facts and Figures At Luncheon Meet

Less than one per cent of the automobile accidents in Southern California are caused by mechanical trouble, while 95 per cent are due to ignorance, lack of education and incompetency of drivers, E. B. Lefferts, manager of the public safety department of the Automobile Club of Southern California, told members of the Glendale Advancement Association in an address delivered today noon at the meeting of the association held at the Harriett Mae Tea Room.

Mr. Lefferts appeared before the association through the courtesy of A. T. Cowan, publisher of The Glendale Evening News, and his address was in keeping with the Glendale Evening News' Automobile Safety Week plan, started last Sunday.

Compliments People Mr. Lefferts complimented the people of Glendale on the spirit of co-operation they had shown in observing The Glendale Evening News' Safety Week, as evidenced by the small number of accidents reported since Sunday, compared with the total number for last week and the previous week.

"The problem of preventing accidents is a matter of education," Mr. Lefferts said. "Most of the accidents are due to this lack of education, or ignorance, if you wish to call it that. Only a small fraction of one per cent of the accidents in Southern California are caused by mechanical defects in an automobile or engine trouble."

"Statistics show that 17,000 persons were killed in automobile accidents in the United States last year. In 1906 there were 374 persons killed in automobile accidents throughout the United States. Last year there were more persons who lost their lives through automobile accidents in Los Angeles county alone, than were killed in the entire United States in 1906, so you can see what a problem the country faces."

"Quoting statistics again, and based on reports and observations, we find that 75 per cent of the accidents occur at street intersections. No person is going to smash up another person's car intentionally, no person is going to commit suicide or willingly run the risk of losing his life and causing the death of others by causing a collision, yet accidents are taking place daily."

Drivers Must Think "The chief trouble is that people do not stop to think that they do not stop to think that, when going twenty miles an hour, the car can not be stopped, as a rule, within less than thirty-seven feet, and when going twenty-five miles an hour, their stopping distance is increased to fifty-eight feet. At

Scores Hit With Anti-Jazz Music At Rotary Session

Prof. A. Lowinsky, concertmaster of Glendale's recently organized Symphony orchestra, demonstrated "anti-jazz" at this noon's luncheon meeting of the Rotary club in a very convincing manner.

Selecting "Rockabye Baby Blues" as a beautiful subject for either ragtime or tender tempo, the violinist transcribed it into "smart tenderness" with a muted instrument and by the aid of sustained notes, played both by himself and the accompanist, Mrs. Gertrude Champlain Erb, he succeeded in scoring applause and acclaim for the "anti-jazz" that usually is heard in favor of the more sprightly played tunes.

ARTISTS PLAY AT ROTARY LUNCHEON

Members of Symphony Orchestra Are Introduced; Picnic This Afternoon

Music by four members of Glendale's newly organized Symphony orchestra was presented as the piece de resistance of today's meeting of the Glendale Rotary club at the Tuesday Afternoon clubhouse, Ernest Tucker of Community Service having charge of the program. He introduced J. Arthur Myers, director of the orchestra; A. Lowinsky, concertmaster; W. V. Anderson, flute soloist; Mrs. Gertrude Champlain Erb, pianist, and Mr. Myers played the cello in ensemble numbers.

In addition to a serenade and romance, played by piano, flute, and cello, Mr. Myers sang an original composition "Tommy Lad" and "Coming Home" by Willoughby. Mr. Lowinsky played Djalma's "Souvenir" on the violin and followed with "Rockabye Baby Blues," which is mentioned elsewhere.

Concert on August 22 Much applause was accorded each number and the announcement was made that Glendale's Symphony orchestra would play a week from tomorrow night, Friday, August 22, at the Patterson park.

Plans for the picnic this afternoon at Brookside park, Pasadena, were given in detail and the following visitors were introduced at the call of President J. Herbert Smith of the Rotary club.

A. S. Moody and Jack Dionne of Houston, Texas; John Bloesur, Sebald Cherokee, William McIntyre, Elliott Wyman and Phil B. Hart of Los Angeles.

Hughes Confident of Dawes' Plan's Success

NEW YORK, Aug. 14.—"I am very hopeful of the situation abroad and believe that the Dawes' report will be accepted and put into effect very shortly," said Charles Evans Hughes, secretary of state, here today on his return from Europe.

SUGGESTIONS ON SAFETY DRIVING

Letters to The Evening News Give Good Ideas on Reducing Accidents

Close study and observance of the present traffic laws are stressed in two of the many letters received by the Safety Week Editor of The Glendale Evening News in the traffic contest, which have been selected by the three judges as worthy of honorable mention. The four letters are printed today.

The three judges, M. Walters, Cameron D. Thom and Henry Kuhn, all members of the Citizens' Traffic commission, awarded first prize in the Safety Week letter contest to George H. Ashbaugh, rural route No. 2, and second prize to Joe V. Griffin, a fireman attached to Central station, 311 East Broadway.

Various suggestions for careful and cautious driving in an effort to eliminate automobile accidents are made in the following letters:

Traffic Rules for Glendale Suggested Traffic Week Editor, The Evening News—Traffic rules for Glendale:

1—Right of way rule. Vehicle on right has right of way, unless vehicle on left reaches intersection first. Any vehicle exceeding speed limit forfeits right of way. Exceptions to rule. Vehicles on public highway or main thoroughfare such as San Fernando Road, Central avenue, Brand boulevard, Broadway, Colorado or Los Feliz Road, have right of way over vehicles on intersecting streets. All

YANKEES' FLIGHT IS AGAIN HALTED

Flyers Unable to Hop Off Because of Angmagalik Being Ice Bound

LONDON, Aug. 14.—Ice again has closed in on the Angmagalik, Greenland, harbor, and compelled a postponement of the flight of Lieutenant Lowell Smith and Lieutenant Erik Nelson, according to a radiogram from Reykjavik, Iceland.

Earlier advices had stated that the Danish supply ship Gertrude Rask had succeeded in opening a lane through the ice pack to land supplies at Angmagalik for the airman.

Argentine Flyer Lands RANGOON, India, Aug. 14.—Major Zanni, Argentine aviator, who is attempting a world flight, arrived from Calcutta at 4:15 o'clock this afternoon. He reported perfect weather conditions.

Two Women In Contest to Gain Postoffice Control

REDDING, Cal., Aug. 14.—Two women are struggling for the position of postmaster of Ydalmop, the postoffice name of the pioneer mining town of Copper City. Mrs. Ira P. Engle, incumbent, holds the fort.

Mrs. P. A. Sheehan, armed with a commission and necessary receipts, demands that the office be turned over to her. Mrs. Engle holds on, insisting that only a postoffice inspector can transfer the office. An inspector drops around at Ydalmop about once in three months.

NOTED RESORT IS SWEEPED BY FIRE

Bowers' Cave Is Destroyed And Flames Move on To Coulterville

EL PORTAL, Cal., Aug. 14.—A forest fire which started in Anderson valley on the north side of Merced river canyon above Briceburg, swept westward last night, destroying Bowers' cave, a famous resort on the Coulterville road, and continued in the direction of Coulterville.

Observers on the opposite side of the canyon state the flames continued unabated through the night and were uncontrolled today. Forest service rangers pressed into service hundreds of men from an adjacent lumber camp in fighting the flames.

Claim Incendiarism It is charged that the fire was of incendiary origin, being started at a time when the forest service rangers were busily engaged with the Sweetwater fire on the south side of the Merced river above Briceburg.

Yosemite national park rangers directed the efforts of 100 men last night in attempting to control the Sweetwater fire. This fire is located six miles west of Yosemite national park and, according to forestry officials, there is no danger of the flames spreading into the national park.

WINS TENNIS MATCH

CHICAGO, Aug. 14.—C. Alphonse Smith and Robert Cooper of Annapolis, won the national boys' doubles championship this afternoon on the turf courts of the South Side Tennis Club by defeating Walter Thomas and H. H. Bencroft of San Diego in straight sets, 6-4, 6-4.

12 MILLIONS DESTITUTE IN CHINA

Thousands of People Perish And Huge Property Loss By Floods In China

BULLETIN WASHINGTON, Aug. 14.—John Barton Payne, chairman of the Red Cross, this afternoon cabled \$100,000 to the China International Famine Relief commission to extend aid to the victims of the flood.

By BERT KUHN For International News Service. SHANGHAI, Aug. 14.—Resurgence of the flood waters that have devastated Chihli province, today caused widespread alarm for the safety of Tien Tsin and the district surrounding Peking. Fifty towns northwest of Tien Tsin already are completely submerged and the floods are gradually approaching that city which has a large foreign population and is an important trade and railroad center.

Water Steadily Rises In a last minute hope of stemming the rising waters, the military authorities at Tien Tsin and Peking have ordered thousands of soldiers out on the work of building and strengthening the dykes. Particular danger threatens from the south canal where the water

(Turn to page 2, col. 6)

Lock Seven Employees In Vault, Get \$20,000

LOCKPORT, Ill., Aug. 14.—A band of bank robbers stormed the Lockport State bank here today, locked seven employees, including the president, in the big vault and escaped with \$20,000 in loot. The sheriff and police hastily gathered a posse and pursued the robbers, who fled toward Chicago.

Nearly an hour after the robbery the seven persons were still locked in the bank vault. It is feared acetylene torches may have to be used to open the huge doors.

MINISTER TO RETURN

WASHINGTON, Aug. 14.—Jacob Gould Schurman, American minister to China, will sail on the President Taft from Shanghai on Saturday for the United States. It was announced at the state department today. Schurman is under consideration for appointment as the United States ambassador to Japan.

Seeks Supervisor's Post

O. B. MANCHESTER, for twenty-one years associated with the county treasurer's office and recently chief deputy, who has resigned his position to campaign for the nomination for supervisor of the fifth district.

A few weeks ago O. B. Manchester, then chief deputy county treasurer, made application for a leave of absence—without pay—in order that he might launch his campaign as a candidate for the office of supervisor of the Fifth Supervisorial district, which includes Glendale, and in which Supervisor Henry W. Wright, incumbent, is seeking re-election.

When Mr. Manchester presented his request a decision was rendered by County Counsel Bishop, a recent appointee of the present Board of Supervisors, that not only would Mr. Manchester not be granted the desired leave of absence, but that no civil service employe can become a candidate for an elective office without resigning his office under the civil service. This opinion, Mr. Manchester declares, is directly contrary to one rendered by former County Counsel Hill.

Stand Is Endorsed "The decision of County Counsel Bishop," declares Mr. Manchester, "left only one course open to me, and that was to resign my position in order to enter this campaign. Mr. Bishop's ruling virtually asked me to give up my rights as an American citizen, and this I absolutely refuse to do. My stand has been warmly endorsed by many men and women of affairs throughout the fifth district, including lawyers, bankers, business men, as well as civic organizations, all of which are giving me the most enthusiastic support in my candidacy."

Mr. Manchester has been in the service of Los Angeles county for many years, and during that time his sound judgment, his business acumen, and his will to help the people who have come to him officially, have won him many friends, who are actively engaged in working for his nomination in the August 26 primary election.

Mr. Manchester bases his request for the support of the voters on his experience in public affairs, on his record as a man whose ability, integrity and public interest have been conclusively shown during his twenty-one years' association with the various departments of the county treasurer's office.

Woolwine Continues To Show Improvement

PARIS, Aug. 14.—"Considerable improvement" was reported today in the condition of Thomas Lee Woolwine, former district attorney of Los Angeles county, Cal., who has been seriously ill here with hemorrhage. Woolwine was more cheerful and showed increased strength.

EX-PUGILIST AND SISTER DECLINE TO TALK

Woman Refuses to Repeat Alleged Confession to District Attorney

LOS ANGELES, Aug. 14.—"Kid" McCoy, motion picture "extra" and former pugilistic champion, must stand trial for the murder of the woman he says he loved.

Announcement that McCoy will be indicted Tuesday for the murder of Mrs. Teresa Mors, wealthy antique dealer, was made here today by District Attorney Asa Keyes.

Faced by the failure to open McCoy's sealed lips, and balked by McCoy's sister, Mrs. Jennie Thomas, to make her repeat the alleged confession, she told police her brother made of the killing, Keyes moved swiftly to bring the accused man to trial.

Announcement of the indictment was met by attorneys for McCoy, who accompanied the former prizefighter to Keyes' office, and there told him to refuse to talk, by declaring they will interpose an insanity defense.

The District Attorney Keyes might be prevented from questioning McCoy in an effort to wring from him a confession that he killed the woman he loved, was indicated in announcement of McCoy's lawyers, hastily summoned by the accused man, that the former prizefighter was insane.

They said for the past two weeks friends of McCoy have been considering having him arrested on an insanity complaint "for his own protection."

McCoy's lawyers stated that if McCoy was formally charged with murder or charged with assault with a deadly weapon for his shooting of Mors and the Schapps, insanity would be his plea.

Would Spring Trap "I want to see 'Kid' McCoy hang and I would like to spring the trap. He killed my wife. She couldn't have committed suicide."

This was the statement Albert Mors, wealthy former New York manufacturer, who last Thursday divorced Teresa Mors, found dead in an apartment here shortly before Norman Selby (Kid McCoy) was captured in a nearby park with a smoking gun, made today as District Attorney Asa Keyes opened his investigation of the woman's death.

With Mors at the district attorney's office was Mrs. Jennie Thomas, sister of the accused McCoy, who police say told her brother had confessed killing Mrs. Mors.

Explains Slashes According to police, McCoy has explained slashes on Mrs. Mors' body by saying that she cut herself with a butcher knife in a suicide attempt.

"She stabbed her breast with the butcher knife and then cut her wrist and lips with the same knife while I struggled to get it

GERMANS ACCEPT RUHR PROPOSALS

Reach Agreement Just as Allied Conference Is Near Collapse

LONDON, Aug. 14.—After a day of intensive conferences, during which the allied reparations conference seemed on the verge of collapse, the German delegation late this afternoon announced its intention of accepting the French proposals for evacuation of the Ruhr.

"We are disappointedly going to accept the French proposals tonight," the German announcement said.

The French proposals give France and Belgium a year to withdraw their troops from the Ruhr, although they may be withdrawn sooner if Paris and Brussels deem it expedient.

JUDGE BURKS ILL

LOS ANGELES, Aug. 14.—Stricken with appendicitis, Superior Court Judge Paul Burks is seriously ill here today.

DECORATING 'GUN' LOCAL INVENTION

Two Glendale Men Win Praise for Method in Applying Colors

The old saying "Necessity is the mother of invention" is still true, according to two Glendale business men, Malcolm Alexander and Randall S. Garretson. To prove it they are putting on the market their new patented Linden Dry-Color Air Gun.

Both Mr. Alexander and Mr. Garretson have been interested in painting and decorating. Mr. Alexander as manager for two of Glendale's retail stores—Harry Moore Paint company and the Glendale branch of Scriber & Quinn; Mr. Garretson has been doing painting and decorating in Glendale for four years.

Since the advent of Tiffany Blends on walls and the more recent vogue of jazz plaster, decorators have recognized the necessity of applying dry colors direct. Mr. Alexander, as a dealer, recognized the application of dry colors and bronzes by such primitive methods as potence bags and bug-shooters were hopelessly slow. Mr. Garretson, as a decorator, knew of the great expense and imperfect blends resulting from these methods.

Long Experiments Together these two men decided to find some method of applying dry colors and bronzes without unsightly spots and discolorations. They worked for six months with this idea, and the perfected model of the Linden Dry-Color Air Gun speaks well for their ingenuity and perseverance.

The Linden Dry-Color Air Gun has been demonstrated and tested under the most difficult circumstances, both from a mechanical and an artistic basis. A tryout was held at Universal studios before Mr. Van Alstyne, art director at Universal City. The gun measured up to the strictest requirements, it is declared.

Mr. Van Alstyne also plans to use the Linden Dry-Color Air Gun to get many scenic effects heretofore impossible. For instance, he demonstrated to Alexander and Garretson how a desert scene, with the gun firing the sand, could be staged more realistically. He also showed them how he could get the semblance of dust accumulated evenly on furniture and draperies in a room. He told them that he already had many plans for using the gun aside from the original purpose for which he desired it, which was redecorating the studio sets at a minimum cost.

Decorates Local Home As a test of high-class decorating Mr. Garretson did both the den and sun room of the L. H. Wilson home at Milford street and Orange. The decorating in the Rialto tavern at Rialto, Cal., was also done with the Linden Dry-Color Air Gun by Mr. Garretson. It required only one-third the time to apply the colors as compared with other methods.

The gun gets its name both from the purpose for which it was designed and from the place where the idea was born. Mr. Garretson's home is in Linden avenue in Glendale. There all the plans and tests of the first models were made.

Mr. Alexander is business manager of the Linden Dry-Color Air Gun company, the organization of which was completed when L. H. Chatterton agreed to take care of the production. Mr. Chatterton is considered one of the ablest financiers in Los Angeles, and has extensive real estate holdings in Glendale as well as Los Angeles.

Mr. Garretson is manager of the sales department and wishes it made known that the offices of the company are at Room 2 in the Monarch building, 206 South Brand. Beautiful panels in various tints and color combinations are on display there, as is also the Linden Dry-Color Air Gun. Demonstrations are made by appointment.

INSANITY MAY BE PLEA IN SHOOTING

Kid McCoy and Sister Will Not Talk on Advice Given by Lawyers

(Continued from page 1) away from her," detectives asserted McCoy told them.

Unsuccessful in her attempt to kill herself with the knife, McCoy claimed Mrs. Mors then shot herself, police said.

Comfortable in Jail The former pugilist passed a comfortable night in jail, sleeping soundly. This morning he ate breakfast, wholly unconcerned, and asked to be taken to his copies of the newspapers.

He showed the same coolness which has characterized his actions since his arrest yesterday. Police said that the former pugilist's version of the death of Mrs. Mors was "full of holes."

At one time, they declared, he said she was on a couch when she shot herself, and later told them she had jumped to her feet.

Does Not Check At the outset, the detectives said, McCoy said she had shot herself with her own gun. He told the officers she had used a gun given him by Hubert Kittle, daredevil aviator and bandit, who suicided here three months ago, rather than submit to trial for implication in robbery of the Arcadia State bank.

"McCoy's story does not check at all," declared Assistant Captain Cline. "One minute he says this and the next something else. We have the goods on him and he knows it. Oh, he'll come clean, don't you fret, and make a full confession."

Expect Confession Detectives say they expected McCoy's full confession during the day after he was confronted by his sister. Coupled with this, police said, will be the statement of Mrs. Schapp, who was a friend of Mrs. Mors, and had talked with her several times, urging her to leave McCoy.

"I believe she told him she was through with him, and that was why he killed her," Mrs. Schapp told police. "McCoy knew that I had been talking to Mrs. Mors. Once he stopped me outside my shop and insulted me, and he wanted to kill me, too, of his own accord. McCoy would say, however, about the shooting of the Schapps and the shooting of Ross was that he could not remember what had occurred."

Starts Inquiry District Attorney Asa Keyes today began the investigation of the killing of Mrs. Mors. Aiming to clear away the confusion surrounding McCoy's shooting rampage, following the discovery of the woman's bruised and beaten body, in which McCoy yesterday shot three persons, Keyes ordered Mrs. Jennie Thomas, the actor-pugilist's sister, Mors and McCoy brought to his office for questioning.

Accepts Police Theory Mrs. Thomas, to whom he has confessed the murder, according to an Assistant Captain of Detectives, Herman Cline, appeared early at the district attorney's office and said she was prepared to repeat the confession her brother is said to have made less than six hours after Mrs. Mors died Tuesday night.

Keyes announced he accepted the police version of the case that McCoy killed Mrs. Mors when she refused to marry him and started out in a murderous frenzy on the shooting rampage in which he wounded Samuel Schapp and his wife, Anna Schapp, and William G. Ross, all of whom will recover.

Proposes Indictment "McCoy will be indicted for the murder of Mrs. Mors," said Keyes. "We have enough evidence to convict him of the crime now. His lawyers, apparently fearful of the consequences of a grilling, have sealed his lips."

"We will permit McCoy to talk," said his attorneys. "An insanity defense will be interposed in his behalf, regardless of what charge he is tried on. Why, his friends have been worried about him for two weeks and were planning to have him confined on an insanity complaint when this happened."

Albert E. Mors, the dead woman's divorced husband, was the first witness questioned by Keyes when the district attorney's investigation of the killing of Mrs. Mors was started. Mors appeared at the district attorney's office with his lawyer and answered all questions freely.

"Mors knew nothing of the murder of his wife," Keyes said. "There is no reason why he should be held in connection with this investigation. He told me he believed McCoy had killed Mrs. Mors."

Mors' conversation with Keyes, it was stated, related mostly to the domestic difficulties he had with Mrs. Mors, which brought her and McCoy considerable publicity recently.

POLITICAL ANNOUNCEMENT VOTE FOR JUDGE CARLOS S. HARDY To Succeed Himself as Judge of the Superior Court "He Has Made Good" Primary Election, August 26

RE-ELECT JUDGE VALENTINE to the Superior Court Elect O. B. MANCHESTER Supervisor, 5th District

SUGGESTIONS ON SAFETY DRIVING

Writers to Evening News Give Their Ideas on Cutting Accidents

(Continued from page 1) police and fire vehicles have right of way.

2—Hand and arm signals. Must be given from left side of vehicle continuously during last fifty feet traveled before turning. Right—Hand and arm extended up, beyond vehicle. Left—Hand and arm extended horizontally beyond vehicle. Stop—Hand and arm lowered beside body of vehicle.

In turning at intersections motorists must go around the but-tons; at intersections where but-tons are not installed motorists must use their judgment in rounding corner in order to prevent accidents.

3—Speed Law. 13 miles per hour in business district, 20 miles per hour in residence district. An allowance of 5 miles should be made above this on such streets as Brand boulevard, Glendale avenue, Colorado street, and East Broadway where the width of the street would permit faster traveling. A speed of 35 miles per hour would be permitted on outlying portions of city such as North Verdugo Road.

4—Driving on Right. All driving should be done on right side of street except when overtaking and passing another vehicle or when attempting to avoid an accident.

5—Overtaking and passing. Two feet clearance should be given. Always be sure there is 300 feet or about a block of clear road before attempting to pass another vehicle and sound your horn as the other driver may not be aware of your intentions.

6—Parking. Prohibited in front of driveways or within 15 feet of fire hydrants or entrance to fire station. Motorist should not park double unless the operator is in the car all the time it remains in that position. No parking in sections marked off on curb and no parking in alleys.

7—Loads. Should not extend over running board on left side, nor more than six inches beyond running board on right side.

8—Accidents. In case of accident motorist should stop and give all help possible to those who had the misfortune. The motorist should see that all accidents are reported to the police department whether he is responsible or not.

9—Boulevard Stops. Motorists on approaching through street should come to a complete stop on entering said street. Those intersections should be conspicuously marked or signposted. This should be done on all streets which intersect Brand and Central avenues, Colorado boulevard and Broadway.

10—Motorists should think of the other fellows' actions as well as their own. Remember that the other man has as much right to the road as you have. And, lastly, always assume the other driver will have less brain power than you have, so you will be cautious when approaching another car.

EUGENE SAYER, 335 Patterson Ave.

Helpful Hints on Careful Driving Safety Week Editor, The Evening News—Traffic rules for Glendale: 1—Procure copy of state vehicle laws and read them over very carefully.

2—Be sure your brakes are in good shape before starting on a trip. 3—Have your driver's permit with you at all times. 4—Drive as near the speed limit as possible, so that no one will have excuse to pass you. 5—Give proper hand signals at all times. 6—When making left turn stay next to center of street, if right turn stay in outside line. 7—Don't drive up and down street waiting for a place to park. Park out a block or so and lessen congestion. 8—Have your lights tested and made O. K. as to glare. 9—When walking, always cross at intersections, and be governed by the traffic officer, so that traffic may move more quickly. 10—Speed limit to be posted on all streets in plain sight. 11—Red flash signs at end of all streets. 12—Change street buttons at Brand and San Fernando, and Central and San Fernando. 13—Approach all of the more traveled streets under control. 14—If compelled to stop, get over to curb on right side of road and don't walk on left side of car.

W. BARRICH, 341 West Maple.

Missed Youths and Pistol Are Sought Police have been asked to assist in locating Kent Turner, son of J. Turner, 5238 Loch Haven, Eagle Rock, who is reported to have left his home Saturday. The father reported to the police that the boy took a .38 automatic pistol with him and believes he is going to Arizona. He was wearing army trousers and puttees and a large Mexican straw hat when he left home, his father reports, and was carrying a blanket roll. The father's telephone number is Garfield 4959.

Because labor is so cheap, Indians in Bolivia, South America, are beasts of burden.

REVOKES PERMIT TO KEEP MULES

City Council Votes to Take Away Permission Granted To Peter Ferry

The permit granted last week by the members of the City Council to Peter Ferry, local contractor, to keep the mules on 314 East Acacia street, for ninety days, was revoked today by the council when petitions from persons in that vicinity were presented to the City Council.

Recently an ordinance was passed by the City Council prohibiting the keeping of animals within a certain distance of residences. Mr. Ferry appeared before the council and said that he was making plans to move his mules, and asked for a permit allowing the mules to remain where he had them for ninety days. The permit was granted, but protests from residents of that section were made to the council.

The City Council will hold a public hearing at 10 o'clock on the morning of September 4, at which time the matter of changing the names of the several streets to be utilized in the through boulevard from Burbank to Pasadena will be brought up. The name of Glenoaks boulevard has been suggested by the members of the City Planning commission, and the public hearing is called for the purpose of hearing any protests against changing the name to Glenoaks boulevard.

Money By Taxation An ordinance fixing the method of raising money by taxation and the amount for 1924 and 1925 was introduced, and an ordinance regarding dance halls was introduced by Councilman C. E. Kimball.

The City Council referred all bids for improvement work on Kenilworth avenue and Doran street to the city engineer. Sub-division tract maps Nos. 8577 and 8364 were adopted. Protests against the improvement of the bridge over Verdugo wash at Canada boulevard were referred to the city engineer, as was a petition to widen Orange street from Broadway to Wilson street.

The next meeting of the City Council will be held at 10 o'clock next Tuesday morning.

Makes Plea to Cut Number of Accidents (Continued from page 1) twenty miles an hour the car goes one mile in three minutes. At twenty-five miles an hour the car goes one mile in two and one-half minutes, yet for the sake of this one-half minute, these thirty seconds to a mile, they increase their stopping distance twenty-one feet, and consequently increase their liability of an accident, as in many cases the prevention of an accident is due to the motorist's ability to stop. They do not stop to think that the difference between a rate of speed of thirty-five miles and hour and forty-five miles an hour is only twenty-three seconds to the mile.

"I am glad The Glendale Evening News has started its Safety Week, for it will cause the people of Glendale to think about these things, and the more they think, the less accidents will occur."

"The first accident prevention work was done in the industrial plant. They placed safeguards over dangerous machinery and pointed out dangerous places. That is what has to be done on the highways. The Automobile Club of Southern California has placed over 115,000 highway signs, of which more than 50 per cent are safety signs, but unfortunately, there are too many people who do not believe in signs.

"Pedestrians were incompetent. The west has been the pioneer in paved highways, but we have been behind in making the highways safe. There are too many incompetent drivers on the highways today. In Los Angeles 24 per cent of the accidents reported showed the drivers were incompetent. In Massachusetts from 20 to 30 per cent of the persons applying for licenses are refused."

"Elevator operators must pass examinations, but automobile drivers have nothing to do but sign their names, give the color of their eyes and hair, and get a card permitting them to operate an automobile."

"Legislative measures to restrain the issuance of licenses, to incompetent drivers is needed in California, and I urge this organization to join with other organizations in asking that such a law be passed this year."

Mr. Cowan, in introducing Mr. Lettters, told of the number of accidents in Glendale as compared with other weeks. He thanked the people of Glendale for the spirit they had shown in co-operating with The Glendale Evening News on Safety Week.

"The people of Glendale owe a great deal to The Glendale Evening News for bringing these things before them." President C. W. Ingledue said after Mr. Lettters' address. "It gives us something to think about. On behalf of the association I want to extend to Mr. Lettters and to The Glendale Evening News our hearty thanks, and assure them that this association will co-operate with them in all matters pertaining to Safety Week."

BUILD DYKES TO PROTECT CITIES

Tien Tsin and Peking Facing Menace of Floods as Waters Rise Again

(Continued from page 1) today was continuing to rise steadily. The water in streams flowing through Tien Tsin has already risen to the beams of the bridges.

Thousands of extra laborers were working today in an effort to keep open communication between Peking and Tien Tsin. Thousands of refugees from the country districts are pouring in on Peking and Tien Tsin.

Care for Refugees General Feng Yuh-Siang, famous Christian general commanding the government forces in the Peking district, has prepared 10,000 tents to shelter the refugees in case the Yung-Ting-Ho river breaks its banks near Nan Yuan, a suburb of Peking.

A new dyke 5,500 feet long has been built in the neighborhood of Tung Chow and that section is now believed safe.

The International Famine Relief committee today officially estimated that between 1,000,000 and 12,000,000 people are destitute in China as a result of the floods which have swept eight provinces.

The committee stated the flood damage exceeds that of 1920 and property loss will aggregate hundreds of millions.

In the Kaigan region alone foreign observers reported the loss would reach \$30,000,000. In some regions whole towns are under twenty and thirty feet of water.

The famine relief committee today had received verified reports showing the total deaths so far in the flood to be 13,115. The committee estimates that 15,000,000 people are affected by the flood and famine in Hunan, Chili, Kiangsi, Fukien, Kwangtung, Shantung, Honan and Huenan provinces. They announced \$2,000,000 is needed for relief, \$5,000,000 of which must be raised abroad.

Construction Starts On Hotel Building (Continued from page 1) piles to have their photographs taken and where the men and women who have worked so hard were lauded for what they have accomplished.

Epoch in History A. T. Cowan, publisher of The Glendale Evening News, in a brief speech declared that the commencement of the work on the Hotel Glendale marked an epoch in Glendale's history in which everyone in the city could take a pride.

For the eleven years he has spent in Glendale, said Mr. Cowan, he had been interested in the erection of a modern hotel that would be a credit to growth of the city such as Glendale, and with the delivery of the materials on the ground and the completion of all financial arrangements, the dream that has been in the minds of so many people for so long has become a reality.

Mr. Cowan complimented those who have worked so hard to bring the project to a successful conclusion, and he pledged his aid in every way, and bespoke the help of every patriotic citizen of the city to make the hotel a success, not only for Glendale avenue and Broadway, but for all the city.

C. W. Ingledue called attention to the accomplishments of the Glendale Advancement Association, in securing the paving of Glendale avenue, the electrification of the Union Pacific tracks along the east side, and now the building of the Hotel Glendale, concluding by introducing Mrs. Mabel Tight, the chairman of the hotel committee, who has devoted so many untiring months to the task.

The members of the association who have been working to make the hotel project a success are Mrs. Mabel L. Tight, Herman Nelson, C. W. Ingledue, Charles Stuart, T. H. Menk, S. C. Kinch, R. E. Spicer and Dr. Henry R. Harrower, the directors of the association.

In his address at the luncheon Mr. Ingledue stated that the contract for the erection of the hotel has been signed with Kinne & Westerhouse, the construction company, whose superintendent, A. T. Lane, is in charge of the work; that the architects, Lindley & Selkirk, have completed the plans and specifications, and that the way is now clear for the erection of Glendale's first modern hotel, to be known as The Hotel Glendale, and that is to be erected by The Hotel Glendale, Inc., the company organized to carry on the business.

Six Stories High The building will be of six stories, of Class A construction, built of face brick, and will front for 120 feet on Glendale and 136 feet on East Broadway. The entrance to the hotel will be at the corner of the two streets, and besides the spacious lobby, there will be stores and offices on the ground floor.

There will be 160 rooms in the building, some of them fitted up as apartments and others being single rooms, and there will also be a large dining room, private dining rooms suitable for the meetings of organizations, small dining and entertainment rooms for parties, in fact, he declared, the hotel should become a community center for the activities of the people of Glendale.

First Drill For Local Fire Unit The first drill of the Glendale unit of the Angeles Forest Fire Protective association will be held at the city hall Friday night, starting at 7:30 o'clock, when instruction in the use of hand fire extinguishers will be given, it was announced at the meeting of the Glendale unit in the city hall last night. P. J. Hayselden, chief of the Glendale unit, presided at the meeting, which was attended by representatives of all branches in the city. Mr. Hayselden announced that the central fire station at 311 East Broadway would be the base for supplies and the place where all members of the unit will assemble when a call is received. A code call, using whistles on factories in Glendale, will be arranged for calling members of the unit in daytime, in case of fire. Mr. Hayselden announced, however, and fire extinguishers have been received, he said. The training school and drill in the fire manual will start at the meeting next Wednesday night at the city hall, starting at 7:30 o'clock, he said. United States money is now used almost entirely in Panama.

SCOUTS PLAN TO CAMP IN CANYON

Week-End Vacation Will Be Spent on Aiken Ranch in Big Tujunga

Vacation days are not over for Glendale Boy Scouts, fifty of whom are to leave the Harvard High school at 8 o'clock tomorrow morning for a week-end camp on the Aiken ranch in Big Tujunga canyon. The camp is to be pitched under big sycamore trees near a swimming hole. During the stay in camp the boys will have opportunity to take the various outdoor tests.

Harvey R. Cheesman, Scout executive, will be in camp the entire time, and the Scoutmasters of the sixteen Glendale troops will make the trip with the boys.

On Friday night there will be a big camp fire featured by a typical Scout program of stories, stunts, songs and games. The campers will return home at 5 o'clock Saturday afternoon.

Mr. Cheesman has just received word that the American Scout troop en route to the world Scout jamboree, August 10 to 17, at Copenhagen, Denmark, reached Wembley, England, August 1. While in England the American Scouts were presented to the Prince of Wales, who is Chief Scout of Wales.

Fractures Ankle In Fall From Scaffold

Claude Boone of 606 South Brand boulevard is a patient at the Glendale Sanitarium and Hospital, where he is suffering with a broken ankle, received yesterday when he turned his foot in stepping off a scaffold, used where he was doing plastering work.

Hanson to Share In Colorado River Meet

Peter Hanson, president of the Glendale Realty board, will attend the meeting of the Colorado River committee of the California Real Estate association that has been called to meet at Long Beach tomorrow by its chairman, W. I. Hollingsworth, to discuss plans for the control and development of the Colorado river.

It is the aim of tomorrow's conference, according to Mr. Hanson, to work out a program that will safeguard the interests of all the state and that can ultimately be presented to Congress with the assurance that it will lead to the passage of legislation that will work out to the benefit of every section of the Southland.

Attending the committee meeting will be representatives of all realty boards in the state. Mr. Hanson will be the only Glendale representative, Charles B. Guthrie, the other member from Glendale, being absent from the state at this time.

Route for Realtors' Caravan Is Selected

The route to be followed by the realtors' caravan that will come to the Pasadena convention from the northern cities of the state was determined at a conference held between representatives of the various cities of this region held in the Alley Inn yesterday afternoon, with Glenn D. Williams, secretary of the California Real Estate association, in the chair.

The northern visitors, on reaching San Fernando, will swing through Pacoima, Van Nuys and Lankershim, and over Magnolia boulevard to Burbank, where they will be taken in charge by the Glendale committee, headed by L. H. Myers, chairman, and will be conducted through Glendale to Eagle Rock, where the Pasadena hosts will receive them and conduct them to the end of their journey.

STORE EMPLOYEES TO HOLD OUTING

Pendroy's Progressive Club Members Will Picnic At Santa Monica

Pendroy's Progressive club, composed of employees of the Pendroy store on South Brand boulevard at Harvard street, will journey to Santa Monica late Friday afternoon for a beach outing. The store will close a half hour earlier and the club members will leave in automobiles at 5 o'clock. There will be eighteen cars to carry the seventy-five people.

Each car is to bear banners proclaiming the travelers are from Pendroy's store in Glendale "The Fastest Growing City in America." Upon reaching the Palisades, swimming will be enjoyed before a wiener roast and dinner. Later there will be music, games and dancing.

Preliminary to the picnic there will be a special "Picnic Sale" at the store tomorrow.

Will Speak to Club on Parliamentary Law

Mrs. Ella Richardson, of 317 North Brand boulevard, is to speak tomorrow morning at the meeting of the Women's Parliamentary Law club in the music room of the Harvard High school.

It was Mrs. Richardson's privilege to know, personally, General Henry M. Roberts, noted parliamentarian, and she is going to give some personal reminiscences of him. The club meets at 10 o'clock and all interested are invited to attend.

A memorial to the army of the Confederacy is being carved out of the solid granite side of Stone Mountain in Georgia.

ARTISTS TO HOLD PICTURE EXHIBIT

Display at Sunset Canyon Country Club Will Be Held August 17

The "International Night" program of the International Artists' club of Los Angeles is the forthcoming event that will focus the attention of Los Angeles, Glendale, Burbank and vicinity upon the Sunset Canyon Country club, during next Sunday afternoon and evening, August 17.

Starting immediately after midnight at the clubhouse, an exhibit of wonderful art work will be on display including California landscapes, ivory miniatures, decorative paintings, Spanish subjects, Japanese art, commercial art, decorative screens, batik panels, Aztec art, California subjects and sculpture.

Dinner and Program
 Dinner will be served during the afternoon and evening which will be followed by a program of unusual beauty and talent. Reservations for the dinner must be made at as early a date as possible and not later than Saturday night, August 16.

A cordial invitation is extended to all club members to attend. Club members will be admitted free.

Among those who will appear on the program will be Miss Helen Howorth, dramatic soprano, who is now appearing in the prologue at the Million Dollar Theatre in Los Angeles. She will sing "Red, Red Rose."

Special Numbers
 Other features of the program will include an Indian dance in costume; selections by a concert contralto vocalist and a Mexican prima donna; Spanish guitar solos and a number of other interesting and pleasing phases of entertainment.

Among the honor guests will be the British, French, Spanish and Japanese consuls; Dr. William Alanson Bryan, director of Los Angeles Art museum, and of the Otis Art institute; W. Lee Wollett, architect of the Hollywood, Egyptian, Million Dollar and Metropolitan theatres; Mr. and Mrs. Clarence A. Barker, Count and Countess William L. von Hardenberg, both authorities on paintings; Countess Jouronaka, writer; Mrs. F. Kreider, president of the Friday Morning club of Los Angeles; Count Enrico Lucerne, captain of Italian Cavalry and art director at Lasky studio; Mrs. John C. Uehart, state president of California Federation of Women's club and a number of other prominent men and women.

Hosts for the evening will include H. J. Tremain, president of the Sunset Canyon Country club; C. H. Bridges, secretary and manager of the Sunset Canyon Country club.

Officers of the International Artist club are: Paul Francisco Lupo, president; Edward Langley, first vice-president; A. A. Meripol, second vice-president; Wanda Orselli, secretary; A. DeBarr, jr., treasurer; Mal. Roger Marchetti, legal counsel.

Asks Re-election for Judge L. H. Valentine

Shepard Mitchell, secretary of the Valentine-for-judge committee, organized to make sure the re-election of Judge Valentine to the superior court on August 26, makes the following appeal to the voters:

"The citizens of Los Angeles county owe it to themselves to return L. H. Valentine to the superior court. They are indeed fortunate when a lawyer of Judge Valentine's prominence, character and ability will sacrifice a high-class and remunerative law business, established through over thirty years of practice in the city of Los Angeles, in order that he may render service to the public.

"Voters are confronted with a difficult problem in the selection of judges. There are so many candidates and so many places to fill. The widely self-advertised candidate may be the most ineligible and the reserved and dignified judicial officer, of whom but little is heard, probably is best fitted for his position.

"Judge Valentine is of the latter type. For over seven years he has served as Judge of the superior court of Los Angeles county. Wise voters will retain his experience and ability for the public benefit. By re-electing Judge Valentine they will affirm that able and conscientious judges are assured of their positions."

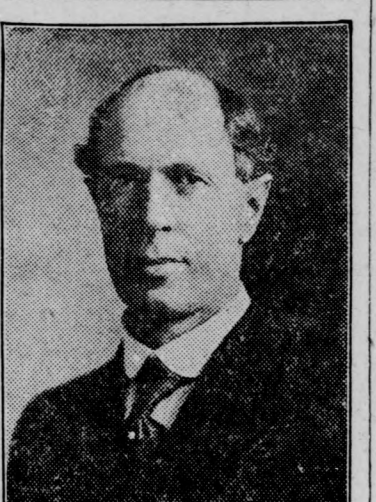

Mrs. Foor to Return To Old Indiana Home

Mrs. E. L. Foor of 618 North Maryland street will leave tomorrow for her former home in Terre Haute, Ind., where she will join her husband, Dr. J. W. Foor. Mrs. Foor came to Glendale originally on account of a breakdown in health, and since her recovery she has been actively engaged in the real estate business, holding membership in the Glendale Realty board.

The geophone, used during the war to detect enemy underground operations, is now used in locating entombed miners.

Support Shaw

HARTLEY SHAW of Glendale, judge of the Superior court of Los Angeles county, candidate for re-election, and backed by prominent citizens.

Following the endorsement by the Glendale, Los Angeles and Long Beach Bar associations of the candidacy of Judge Hartley Shaw of 212 West Park avenue, Glendale, for the office of judge of the Superior court, a meeting was held today in the office of City Attorney Ray Morrow, at which plans were made for organized work in behalf of Judge Shaw of Glendale. A strong committee of Glendale citizens has been formed, and it is expected that, as a result of plans now under way a unanimous vote will be cast by his fellow citizens of Glendale in favor of the retention of Judge Shaw in the office he now holds. The members of the Glendale committee are:

Mrs. E. V. Bacon
 Mrs. Charles A. Barker
 Mrs. H. E. Bartlett
 Mrs. A. A. Barton
 Mrs. Dan Campbell
 Miss Eva Daniels

The approval of the board of public works was secured Tuesday afternoon when Mayor Robinson, City Manager Stone and Mr. Smith attended a meeting of the board in Los Angeles. The board of public works is vested with the power and authority to approve such plans and their action is final, Mayor Robinson said today.

A resolution directing Mayor Robinson to prepare a petition and send it to the California Board of Health for the approval of that body, was passed by the City Council. The approval of the state board of health engineers will complete the matter, it is said, and the advertising for bids will start.

Material found in ant hills in South Africa furnishes a tough plaster with which natives build houses.

A masonry dam for the protection of crops in India reaches a height of 270 feet.

FINAL PLANS OF SEWER APPROVED

Action by Council Today Paves Way to Call For Bids on Work

Members of the City Council today approved the final plans and specifications for Glendale's main sewer running from Aviation drive to Sixth street, Los Angeles, at the council meeting following the report of City Manager V. B. Stone in which he stated that the plans and specifications had been approved by the board of public works, Los Angeles.

The action of the City Council, coupled with the action of the board of public works, removes the last obstacle in the long fight to secure a sewer for Glendale.

Ready to Proceed
 "It has been a long, tedious fight," Mayor Spencer Robinson said, after the roll call showed all councilmen present voted in favor of approving the plans. "At times the sun would shine through, and at other times the sky was overcast with clouds of doubt. But, at last the entire matter has been attended to, as far as the plans and specifications are concerned, and we are now ready to proceed with the advertising for bids and awarding the contract."

Twenty-three blue prints showing plans and specifications for the sewer wherein the approval of the board of public works and city engineer of Los Angeles, the City Council and city clerk of Glendale are required, were presented to Mayor Robinson by Chester Smith, representing Burns & McDonnell, consulting engineers for Glendale on the sewer project.

Signatures Secured
 The signatures of the city engineer of Los Angeles, and the head of the board of public works had been affixed to these blueprints, and immediately after council adjourned, Mayor Robinson affixed his signature to them, and City Clerk A. J. Van Wie signed them.

The approval of the board of public works was secured Tuesday afternoon when Mayor Robinson, City Manager Stone and Mr. Smith attended a meeting of the board in Los Angeles. The board of public works is vested with the power and authority to approve such plans and their action is final, Mayor Robinson said today.

A resolution directing Mayor Robinson to prepare a petition and send it to the California Board of Health for the approval of that body, was passed by the City Council. The approval of the state board of health engineers will complete the matter, it is said, and the advertising for bids will start.

USE PHONOGRAPH TO BOOST AUTOS

Packard Executives Deliver Message to Motorists Through Records

From the combined experience in the automobile industry of four executives of the Packard Motor Car company, who head the departments that design, build, distribute and service Packard cars, has come a message of keen interest to the motoring public. It is being delivered into the intimate family circles of America in a manner so new and novel that it has aroused much comment.

The four men, Dr. H. H. Hills, vice-president of distribution; Col. J. G. Vincent, vice-president of engineering; E. F. Roberts, vice-president of manufacturing, and H. N. Davock, general service manager, have had four talks made on full-sized, best quality phonograph records, and these talks are being sent into homes on request to Packard dealers and distributors in all parts of the country. Technical subjects have been avoided, and in all of the talks every effort has been made to make them as interesting as possible.

Immense Audience
 It was considered by officers of the company that, with 22,000,000 phonographs in America, practically every person who drives a motor car owns a phonograph. Packard believed that talks by four of its executives on subjects of great interest to everyone who owns or hopes to own a car could not fail to be of considerable aid to salesmen and a big supporting influence to the company's advertising efforts.

An age-old principle, accepted for the purchasing of nearly all things, but which is only beginning to be accepted for the buying of automobiles, forms a principal theme for each talk.

Chief Fraser said that it was impossible with the number of "petting parties" that occurred nightly in the canyons surrounding Glendale, for as soon as his men ordered them to move from one place, the cars were driven to another canyon. Men have been detailed for night duty in the canyons, he said, but it would take a large force to keep motor parties out of the canyons at night, he declared.

Baraca Class Members Plan Hike to Canyon

The young men's Baraca class of the First Methodist church, of which Gould H. Warren is president, will hold its quarterly mountain hike next Saturday, going to the Big Tujunga canyon.

Members and prospective members will meet at the church, corner of Kenwood and Wilson avenues, at 3 o'clock Saturday afternoon. All members having automobiles are asked to bring them. Transportation will be provided for those who have no cars.

Each member is asked to bring with him plate, bowl, cup, knife, fork and spoon and blankets. The food will be provided by the committee in charge of all arrangements.

Those who cannot go Saturday afternoon are to be on hand at the church at 7:45 o'clock and a machine will be there to transport the late ones. It is expected all will return home Sunday afternoon.

Large beetles, found recently in Costa Rica, emit a light sufficient to illuminate a large room.

DETAIL FIREMEN ON PATROL DUTY

Night Guards Will Protect Adjacent Region From Outbreak of Flames

The city fire department will furnish four firemen for night duty in patrolling territory surrounding Glendale as a precautionary measure in case of forest fires, Chief A. H. Lankford, of the Glendale fire department, announced at the meeting of the City Council today.

Members of the Glenoaks Improvement association, in a petition addressed to the City Council, and read by P. J. Hayselden, chief of the Glendale unit of the Angeles Forest Fire Protective association, asked the city to furnish some men for patrol duty until the members of the Board of Supervisors could act favorably upon the City Council's resolution asking the supervisors to provide \$4,000 for this work.

Mr. Hayselden recommended to the City Council that four or six men be employed for picket duty, and Chief Lankford offered to furnish four men for night patrol duty if the residents of that section would supply men for patrol duty in the daytime. The four firemen will go on duty tonight in the hills, Chief Lankford said.

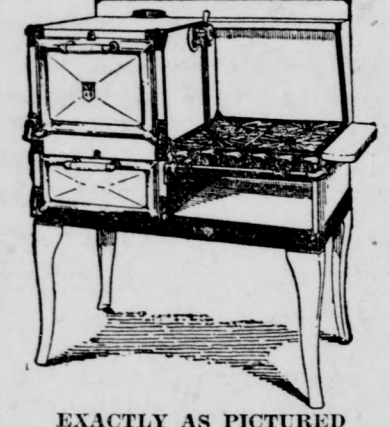

Prevention Urged
 Councilman C. E. Kimlin, in discussing the possibility of the city employing men for this purpose, said he considered it a much better plan to spend a few dollars for prevention than several thousand dollars for fighting fire and taking care of the damage after a disastrous fire.

Many fires in canyons and hills are caused by men throwing away burning cigarettes and cigars, Mayor Robinson said, and he suggested that Chief of Police Fraser detail policemen to patrol the canyons and guard against such action.

Chief Fraser said that it was impossible with the number of "petting parties" that occurred nightly in the canyons surrounding Glendale, for as soon as his men ordered them to move from one place, the cars were driven to another canyon. Men have been detailed for night duty in the canyons, he said, but it would take a large force to keep motor parties out of the canyons at night, he declared.

Tonsils Removed In Surgical Operations
 Tonsilectomy operations were performed this morning at the Glendale Research hospital upon Barbara Barstow of 337 North Cedar street; Miss Gladys Levy of 604-A East Broadway; James Flannigan of 472 Patterson avenue.

Daily Greeting To News Readers

WE MAY BE SURE—
That our passions will master us or we will master them.
That the government will survive any election.
That destiny overlooks no accounts payable.
That sobriety will eventually prove the best policy.
That anything that undermines character is wrong.
That any religion which teaches fear is not Christianity.
That a scold is apt to have few friends.

VOTE AT PRIMARIES

Declaring that the welfare of the nation is endangered by the increasing apathy of the voters, a number of organizations in different states have announced their intention of making an effort to get out a record vote at the presidential election November 4. There are signs of re-awakening in this matter of exercising the right of franchise that are encouraging. Perhaps the increased interest is due to the fact that this is presidential election year, but it is to be hoped the real reason is that the conscience of the people has been aroused.

Those who have been neglecting this sacred duty should get into practice for the presidential election by looking up the records of those whose names appear on the primary ballot, and voting on August 26. The primary election is by no means unimportant. A congressman, a state representative, a supervisor, a district attorney and members of the supreme court, district court of appeal and superior court are to be placed in nomination.

First of all, it is the duty of the voter to study the candidates and their records. It is not always an easy matter to satisfy oneself as to which of two men would better fill the office both are seeking. It is often difficult, where there are so many candidates, and one cannot know them personally, to get unprejudiced information about them. But, where an incumbent is seeking re-election, it should not be hard to learn something of his record, what he has done, whether or not he has kept his pre-election promises, and if he has been true to those he is pledged to represent. Let his record speak for him. Re-elect him on the strength of what he has done, not what he promises to do; and, if he is found wanting, censure him unmistakably by defeat. When a candidate is not an incumbent of the office to which he aspires, the voter must learn something about him as a man as well as his qualifications for the position.

When an employer hires men he does not place them on his payroll until he has satisfied himself that they are conscientious and competent. The business of the city, the county, the state and the nation are of infinitely more consequence than any private concern, and the people should use a reasonable amount of discrimination in selecting their employees. When an employe of a private concern fails to make good, he is discharged, but when our public servants prove dishonest demagogues, unqualified for the work, or careless about the best interests of the people, we have no come-back until his term expires.

The right to vote is a sacred privilege. It is a shame that so many ignore their right and duty as citizens. Let us hope for a record vote in Glendale at the primaries.

MANY NEW ENTERPRISES BEING STARTED

Hundreds of thousands of Americans have been watching the progress of the London conference, not as a result of a general or academic interest, but from the point of view of personal investment of funds. At present there is a tremendous volume of money and easy credit available. This has been shown in the easing of money rates.

It has tended toward the expansion of business operations and the undertaking of new business and industrial enterprises. In the last month 508 good sized new enterprises were started with a capitalization of \$572,000,000. This was an increase of capital outlay of \$127,000,000 as compared with the corresponding period of last year.

The easiness of the money market has also bettered the demand for high grade bonds, and since America entered the war, the United States has become a nation of bond buyers. Investors are scanning closely the conditions which will dictate the loans to be floated for the rehabilitation of Europe if the London conference attains its object. Their eyes have been on both the placing of their own surplus money and on the effect which European loans may have in stiffening rates on money available for business enterprises.

The investments of the average American have undergone a complete change in the last ten to fifteen years. Twenty years ago there were approximately only 100 houses in this country devoted to investment banking. Most of these had relatively few customers, such as insurance companies, estates and banks. A partner of one of the largest New York bond houses said recently that fifteen years ago the unit of sale of his company was around \$43,000. In 1921 their unit had declined to \$2300, but the total volume of business had increased tremendously.

The widespread distribution of Liberty Bonds changed the whole trend of the bond business. Prior to the war, 99 per cent of the people of this country did not understand what a bond was, but the sale of Liberty bonds, accompanied by an educational campaign, made bonds popular with the small investor. Bond houses have multiplied and intensive sales methods such as those used in life insurance have come into use.

During the period of low interest rates, just after the war, bond houses became almost as thick as corner groceries. There was a stampede to get into the bond business. This resulted in unhealthy conditions and unsound sales methods. Many were induced to buy bonds on the theory that the securities would be sure to go up in price and that an immediate profit could be taken. In fact, there was an orgy of speculation in bonds.

That condition had to come to an end and the reaction began in 1922 and lasted until the fall of 1923. Weak, unsound companies generally were weeded out, and with the shaking down process, investors secured a more thorough knowledge of bonds, their value and the effect of their flotation on the money markets of the world and its relation to business.

This knowledge has been strengthened by the statistical and advisory staffs of the successful houses which survived. The modern investment banker makes a specialty of diagnosing the situation for the prospective purchasers, analyzing his requirements and explaining the ramifications of the financial situation.

Hence investors and business men of every class are deeply interested at present in the prospective foreign loans and America's participation in them, realizing that they have an intimate bearing not only on future foreign commerce and trade, but also on the money situation which will confront each business man when he lays his plans for future development before his own banker.

Since, according to some, alcohol is so essential in the treatment of disease, it is marvelous how the lower animals recover from their physical afflictions without it.

ANOTHER LITTLE SURPRISE FOR THE PRESIDENT

Animals

By DR. FRANK CRANE

Walt Whitman speaks somewhere of loving to be among the animals because they do not bow to each other.

That is, among animals there is no rank, nor class, except that class which is fixed by nature and all of them recognize as part of the organization of things.

The dog wastes no time in regretting that he is not a fish and the fishes do not want to get out of their medium. They are content to be in the water.

There is no nakedness among the animals, no sense of shame. They expose one part of themselves as indifferently as another.

It is only among human beings that we come to clothes and the coverings of the human body. Consequently humanity is the only kind of animal life that has manufactured a sense of shame. There is no modesty or shame or any such thing among the animals, who frankly are what they are. Animals go about the world and out of the world as naked as when they were born. It is man alone that must be covered up. It is from our sense of concealment that most of our sins arise. Animals have neither sin, nor confession of sin, nor remorse for it.

Only by our ability to sin are we able to rise to a greater height than the animals. Only because of the responsibility of removing our clothes do we call keeping them on a purity. Animals have no purity because they have no possibility of sin.

They are regulated by their instincts, which is another name for the rules of nature.

It is only when the intelligence has been placed in man, and he endeavors to regulate his own conduct by it, that we have such words as "decency." The animals are automatically decent.

For this reason those who spend their lives among the animals tend to their level. Virtue is a human thing and is cultivated only by contact with our fellows. As virtue, by its very name, means the character of a man, it means the effort to do by our reason what the animals attain by instinct.

The world is gradually ridding itself of all animals except those domesticated by man and the fishes of the sea and of the river.

The time is coming when other force than animal shall be used by mankind in the performance of his labors.

When that time shall come, humanity will no longer tolerate the existence of animals in their midst.

Thus the growth of intelligence means the development of virtue and the sense of shame.

Those who look back with longing at the freedom of the animal life are simply those who contend against the law of growth. From this law we cannot escape. It has its bad adjuncts as well as its good ones, but it is inevitable.

Horoscope

Astrologers read this as an unfavorable day in planetary direction. Neptune is in evil sway and the Sun changes from friendly to adverse aspects.

The total eclipse of the Moon on this date takes place in the third decan of Aquarius and is believed to be ill-omened.

Much illness among all classes of men and women in many lands appears to be foreshadowed and again there will be lack of food in various places.

Seismic disturbances are threatening in the fifty-sixth degree of east longitude and the 124th degree of west longitude.

All the signs appear to indicate that nature is as unsettled and as much inclined to depart from established customs as man.

Following the eclipse of the Moon today there will be a partial eclipse of the Sun, August 30. This is read as presaging a national calamity somewhere, probably the death of a king or ruler.

Persia comes under sinister influences at this time and may suffer severely.

All the seers agree that the autumn quarter this year is to be a period of unusual and sensational happenings.

Much unrest and discontent among the people of the United States will be evident as the summer declines and the next fortnight may bring forth astonishing revelations in certain quarters.

The president is to gain greatly in popularity and some official act will give him world praise, it is prophesied.

According to a London astrologer the central states will experience sharp earthquake shocks after the passing of the equinoctial storms.

Persons whose birthdate it is have the augury of a happy, prosperous year in which much good fortune will be experienced.

Children born on this day may have eventful lives in which they achieve success that at times is sensational. These subjects of Leo usually have the utmost confidence in their good stars.

Today's Poem

OMNIA SOMNIA
Dawn drives the dreams away,
yet some abide
Once in a tide of pale and sunless weather,
I dreamed I wandered on a bare hillside,
When suddenly the birds sang all together.

Still it was Winter, even in the dream;
There was no leaf nor bud nor young grass springing;
The skies shone cold above the frost-bound stream;
It was not Spring, and yet the birds were singing.

Blackbird and thrush and plaintiff willow-wren,
Chaffinch and lark and linnet, all were calling;
A golden web of music held me then,
Innumerable voices, rising, falling.

O, never do the birds of April sing
More sweet than in that dream I still remember:
Perchance the heart may keep its songs of Spring
Even through the wintry dream of life's December.
—Rosamund Marriott Watson.

Do You Know

In China women wear pants and men gowns.

France invented a method of making plate glass in the year 1691.

In the Philadelphia navy yard are 128 destroyers of the United States navy in storage.

Chinese priests dry the "cream" of Soy beans after they have been boiled and store it for use as a winter food.

Senorita Mayendia of the Apollo theatre in Madrid has been declared by Spanish artists to be Spain's most beautiful girl.

Who's Who

Prof. David Todd, who warned large cities, particularly New York, that growing weight of skyscrapers would bring an earthquake, is a distinguished American astronomer. He has served on the faculties of Smith college and Amherst, and has made expeditions to West Africa, Japan, Tripoli, Dutch East Indies and Russia.

He has been director of several important observatories and is a member of leading scientific societies. For his services the mikado of Japan gave him the Imperial Saki cup.

Prof. Todd was born at Lake Bridge, N. Y., 69 years ago, and was graduated from Amherst in 1875. He spends much of his time in Florida.

His prediction that continued building of skyscrapers will sooner or later bring on an earthquake has caused little apprehension in New York.

Smiles

AT A BARGAIN
Almost any woman is willing to pay a dollar for something that is worth 35 cents if they will throw in a 10-cent article for nothing.

THE PASSING SHEIKH
Milliner (eagerly to sell hat)—oh, madame, so chic!
Mrs. Noorich—Sheik, huh! Take it away. I don't want none of last year's stuff.

IT'S ABOUT TIME
We have heard so much about the high wages of bricklayers that we expect any day to hear that some bricklayer's daughter has bought herself a duke or an earl.

THE DRAWBACK
"Dishere radio," said Uncle Eben, "brings in de speeches fine, but it ain't no company whatever when it comes foh de candidate to shake hands an' kiss de chillun."

The Ravings Of a Grouch

I have very little patience with the man who is always prophesying a bad end for everybody and everything, including the world. Since the birth of time these pessimists have made themselves heard; in every age and generation they have seen, in the tendencies of the times, things to be moan and bewail and they have added their mournful tones to the chorus of grief that is all too loud and too large.

Since the fall of Adam there has been evil in the world and there has been an inclination in every age for some to believe and preach that the people of their time were worse than any who had gone before. But history disproves this. There has been evil in all times and there is all too much of it now. But calamity howling, croaking and glooming will not make it any less.

The real truth is, the world has been growing better, slowly but surely and constantly and while there is plenty of room for improvement the pessimist will get a brighter outlook if he will but read history.

Life is growing more complex and more complicated daily. Inventions and discoveries bring up new problems that are not always met and solved in the best way. There are, perhaps, more opportunities for evil to express itself in these days than in the past but man, himself, is no worse than he ever was and according to my observations, not so bad.

We find both good and evil in all people. In some the good predominates, in others the bad. But I like to think, and I truly believe, that the good in the world is growing.

There is a great deal said about the downward tendency of today in the matter of drinking, dress, amusements and the like, but these things are not fundamental at all. In past times it was the common, the usual thing to drink. We hear so much of it now because it is the unusual thing. There were immodest women before the present styles of dress came into vogue. Men were evil before the day of the modern dance. These things do not cause evil, they are the expression of it. People will always find a way to express themselves, be they virtuous or vicious. It is useless to try to reform manners and customs.

Reform the individual and these things will take care of themselves. Help the man to see and appreciate good and he will wish to refrain from iniquity. It is impossible either for church or state to legislate evil out of existence. Unrighteousness is born and bred in the human heart and only regeneration there can eliminate it.

CROWN QUEEN TO RULE AT FIESTA

Daughter of Pioneer Spanish Family Awarded Honor At Santa Barbara

By L. S. COPELAND
For Southland News Service.
SANTA BARBARA, Aug. 14.—Senorita Madalynne Romero, a granddaughter of the dons, has been crowned queen of the Old Spanish Days Fiesta, now in progress here, and last night she was presented to Cabrillo, who arrived on the beach with due ceremony at the Indian Village and escorted her to the Lobero theatre.

In the parades of the day the horse has come into his own. From all over the Southland the best riding and driving animals have been assembled for the fete. Old Spanish families playing their favorite instruments; mission fathers walking in their sandaled feet along the street; Indian guards; Spanish commandants (none other than our police) mingle in the streets to the amazement and pleasure of visitors.

Planes Will Race
A fifty-mile airplane race, the machines flying at low altitude along the beach line, will be a feature of Friday afternoon's aerial show, it was announced by Commodore Earl Ovington of the Santa Barbara Aero Club.

Numerous parties of Pasadena and others from the Southland towns interested in the drama are attending the presentation of "The Beggar On Horseback" at the new Lobero theatre. Visits to the old Spanish galleon "Rosamond" also are made by yachting parties.

Falling Off Shown In Oil Production

SHREVEPORT, La., Aug. 14.—The first part of August worked a falling off in the daily average oil production as well as in the number of completions in the Shreveport territory, embracing the fields of North Louisiana and South Arkansas. The falling off, however, was not as great as that recorded late in July. Six gassers added a total of 85,000,000 cubic feet of gas to the already available supply of North Louisiana. No gas wells were reported in the Arkansas fields. A total of 3566 barrels of oil were added by late completions.

One hundred and three thousand cubic feet of water a second is the amount of water estimated to pour through the spillways of Panama canal.

AUTOMOBILE SECTION

GLENDALE, LOS ANGELES COUNTY, CALIFORNIA, THURSDAY, AUG. 14, 1924

OLD PEOPLE FACTOR IN TRAFFIC

Deference for Pedestrians Of Advanced Age Is Shown by Drivers

LOS ANGELES, Aug. 14.—Los Angeles has the most difficult traffic problem in the world, according to M. F. Brown, manager of the local offices, Division of Motor Vehicles, state of California.

"Not only were the downtown streets laid out for a small residential section, but the condition exists here of having more old people than any other large city who are accustomed to making their way through traffic on foot.

Rules For Walkers
"Motorists must show a deference toward the aged pedestrian which makes it impossible to speed up traffic like they do in Chicago and larger eastern cities. Just how this situation may be remedied I do not know, but whatever it is it will be something different than any other system now in vogue."

Mr. Brown favors regulations for the pedestrian to prevent him from crossing traffic and the elimination of turn at busy intersections so the pedestrian traffic will not be forced between lines of motor cars.

Campers Should Take Flashlight and Bulbs

Every camper's equipment should include a good flashlight and extra bulbs. Not only is a flashlight an important adjunct to the car's equipment, but it provides a safe means of obtaining light in places where an open light would be unsafe.

For making roadside repairs on the car, for examining the contents of the gas tank, for tramping about at night in a wooded territory, a flashlight is the only safe means of producing the necessary light. If more flashlights were used in the woods instead of open fire lights, there would be less danger of forest fires.

Campaign Started To Ban Defective Automobile Lights

SACRAMENTO, Aug. 14.—Inaugurating a campaign against motorists whose automobile lights were found defective, state, county and city officers last night halted 142 drivers at the corner of Twenty-first and Y streets and ordered them to report to the authorities immediately after adjustment of the defects under penalty of drastic punishment.

Superintendent of the State Motor Vehicle department Will H. Marsh headed the squad which consisted of ten officials. No arrests were made but motorists who do not have lights adjusted and report to the officials within a reasonable time will be summoned to the court.

Marsh said this policy is to be enforced throughout the state until one hundred per cent correct lights is attained.

"The greater proportion of accidents is due to defective lights," said Captain J. V. McKinney of the Sacramento police squad.

U. S. Has Ninety Per Cent of Motor Cars

According to car registration figures, nearly 90 per cent of all the world's automobiles are to be found in the United States. Today, there is a car for every seven people in the country. Ten years ago there was one automobile for about every 70 inhabitants.

WATER JACK REPAIR

A blow torch, tap drill and file are all the tools a car owner needs to mend a cracked water jacket at home. Drill a small hole at each end of the crack and tap for a small copper plug. File the surface near the crack until the metal is bright. Cover with small copper filings and melt in with a blow torch, using a flux of rosin dissolved in alcohol.

A PARKING POINTER

A much better job can be made of parking a car of long wheel-base if, before backing, the driver will swing part way into his space and then steer out again. This puts the rear wheels nearer the curb.

EPIDEMIC OF THEFTS IS REPORTED

Twenty Cars Stolen Daily In Los Angeles County, Officers Declare

LOS ANGELES, Aug. 14.—An epidemic of motorcar thefts is reported by W. H. Bispham of the sheriff's office-motor theft squad due to a desire on the part of people not owning cars to take joyrides.

The average of twenty cars a day are reported stolen in Los Angeles city and county, 85 per cent of which are recovered, according to the records. These are left along the highways after the drivers have made a trip to the beach, or otherwise satiated their desire to cool off.

According to Mr. Bispham 90 per cent of the thefts are Ford cars which owners fail to lock. They are taken before the engines are cooled by watchful thieves.

Cars Are Stripped
Thefts of 1924 model cars, particularly the new ones with a full list of accessories, are the work of "strip artists" who take the machines to some secluded spot and divest them of tires, bumpers, motometers and sometimes fenders.

Most "strip" jobs are done by motorists owning cars and making replacements of tires, at the same time adding the valuable trinkets to their own machines at the expense of the careless driver who fails to lock his car.

EFFICIENT LIGHTING

Dust and dirt on front glass and reflectors cut down the efficiency of headlamps. Therefore, periodic cleaning should be resorted to. Old and blackened lamp bulbs give greatly diminished candle power, and should be renewed.

EMERGENCY BRAKING

When the brakes refuse to hold when stopping the car, switch off the ignition, engage lower gears and the clutch, using the engine as a brake.

Motoring Proverbs

By F. A. GRAHAM

T-ime and tide and road hogs wait for no man.
A-n oiling a day keeps the road hog away.
K-eept to the right, let the careless look to themselves.
E-verywhere a driver goes his license must go also.
C-arefully use the horn, that you be not classed a hooter.
A fool and his license are soon parted.
R-efine your treatment of pedestrians, and, be not fined.
E-very laxity has its casualty.
B-e careful of the steering, the ditch can care for itself.
E-very car in the hand is worth two in the ditch.

S-pare the brake and spoil the car.
A little knowledge of driving is a dangerous thing.
F-ull caution is better than full mourning.
E-very stop in time saves a fine.
I-t's a wise driver who knows his own faults.
T-ake care of your lock or thieves will take care of the car.
P-laying safe beats playing a harp.
A-n overhaul in time saves nine.
Y-ears of practice do not always make perfect driving.
S-corching the road brings the law in hot pursuit.

Non-Resident Driver Well Treated Here

California's motor vehicle law permits non-resident motorists to remain longer without obtaining a new license than any other state in the union, except Illinois, the division of motor vehicles has announced, following an examination of the laws of all the states governing non-resident motorists.

Out-of-state motorists may operate their cars on the public highways of California for six months without obtaining a California license, it was stated, the only requirement being that the visitor obtain a non-resident permit. Illinois was found to be the only other state allowing a period of equal liberality, the average being from thirty to ninety days.

Division officials said the laws of eighteen states provided a "reciprocal" agreement whereby a visiting motorist was permitted to remain, without registering his car, for the same length of time granted by the state from whence he came. Thus California motorists visiting in such states could remain six months without obtaining a license, while motorists from New Jersey and Connecticut would be compelled to pay the fee within fifteen days.

The liberality of California is strikingly evidenced by the fact that during 1923 more than 200,000 out-of-state motorists visited the state.

Many Making Living With Motor Vehicles

"Taxi, sir?" Travelers in California hear this pretty often, but there is nothing strange about it. There are more than 100,000 persons in California who make their living directly by driving automobiles.

Not all of them, however, are taxi drivers or liveried footmen of California's millionaires. The law requires that every person "who directly or indirectly receives compensation for operating a motor vehicle on the public highways" must secure a chauffeur's license. Hence, thousands of truck drivers are included in the chauffeur lists.

Records of the motor vehicle division show a total of 93,661 persons were licensed as chauffeurs during 1923. A heavy increase over this number was indicated by the fact that 49,527 chauffeurs' licenses were issued by the division during January and February of this year.

Unlike an operator's license, which is good until revoked, a chauffeur's license must be renewed every year. No person under 16 may secure a chauffeur's license and those engaged in carrying passengers must be over 18. Drivers of school buses must be 21 or more. A fee of \$2 is exacted and chauffeurs who fail to renew their licenses each year are subject to arrest and fine.

Majority of States Show Gasoline Taxes

Gasoline tax, ranging from one to four cents per gallon, is now enforced in thirty-five states in the Union. It is estimated that more than \$200,000,000 will be paid by motorists in the United States this year in tag or license fees.

IN ENGLISH MARKET

There are 108 British makes of passenger cars and 77 foreign makes on the market in England. France leading among the latter with 38, and the United States taking second place with 19. It is estimated that fully one-half the cars in use in Great Britain are of foreign manufacture, principally American, French and Italian.

Valve Cores and Not Caps Cause of Leaks

Do not throw away valve caps. Screw them on firmly and prevent air leakage. The valve plunger, a little mechanism inside the stem, serves as an air lock during inflation, but the valve cap is a secondary air seal during usage.

TIRE SIZES ALIKE

Never use a fabric tire on one side of the car and a cord tire on the opposite wheel. Because of the difference in sizes, there is a constant wear on the differential.

RED OUTLAW THREATENS FORESTS

Campers Must Be Alert to Prevent Flames From Sweeping Woods

BE A GOOD WOODSMAN
Do not pollute the water of lakes or streams.
Bury or burn all rubbish or refuse promptly—even tin cans. Live up to your fish and game laws.
Think of the fellow who will come to camp in the same spot that you leave.
Leave a clean camp and a clean record. Show that a good woodsman camped there.

A dry year in the country means many forest fires despite the unusual amount of care exercised by the public to help prevent them. The forest service department has issued warning upon warning to stamp out the red outlaw that threatens to destroy nature's playgrounds in the hills.

It isn't always the fault of the careless camper who leaves his fire smouldering when he breaks camp, as forest fires are often started by the careless smoker who hurls the stub of a cigarette or cigar into the brush along the roadside as he motors along.

Urge Ash Receivers
This practice has grown to such an extent that a number of officials have suggested the passing of laws that will require every car to be equipped with an ash receiver and will impose drastic punishment upon the smoker who does not use it.

An ash receiver of merit will meet with the approval of car owner and forest ranger alike. One model of a receiver on the market not only acts as a receptacle for ashes but is also equipped with a hood cover that prevents the ashes from blowing about. A small drawer below the receiver conceals matches and cigarettes. Another type holds cigarettes that are released with the pressing of a button and is lighted with the pressure of another button.

Every car should be equipped with some type of a receiver and lighter, regardless of the make, not only from the convenience standpoint but as a measure of safety.

Need Twenty-five Cars of Steel to Make 1925 Plates

LOS ANGELES, Aug. 14.—This city which now ranks first in the country for motor car population, has developed the opportunity for another new industry to make its home here.

The new concern is the Kittle Manufacturing company, which has received the order for making the state automobile license plates to be used next year. In order to have a sufficient number of plates on hand by next year, the concern must turn out a total of 10,000 daily until next December. Twenty-five carloads of steel will be necessary to complete the order.

The same company is also manufacturing license plates for other states.

Motor Luncheon Kit Aids Travel Comfort

For the past few years the general motoring public has become better acquainted with the use of the motor restaurant or auto luncheon kit. Every season sees a greater demand for this very practical and useful part of the auto tourist's necessary equipment.

The motor restaurant does away with the old-fashioned paper packages or "shoe-box" lunch along the road. Today the motorist enjoys a home-prepared luncheon with the same comforts and conveniences he would have at home or at some wayside inn. The kits are splendidly equipped, whether they be of the two, four or six-party sizes. All the necessary equipment is included for either a hot or cold meal; plates, spoons, knives and forks, cups, jars, shakers for salt and pepper, food jar, liquid vacuum bottle—even napkins are included.

Carry Extra Fan Belt, Advice to Motorists

An essential piece of equipment for the tool box is an extra fan belt. The cost is small yet the trouble it may save is enormous. Over-heating troubles and many other similar difficulties may be avoided by the simple precaution of carrying an extra fan belt. Belts are being used more extensively to drive water pumps and generators in addition to the fan. On cars so equipped, a spare belt is particularly important.

STATE MUST RUSH ROAD PROGRAM

Increased Use of Highways Demands Constant Work To Handle Traffic

That California will have to maintain full speed ahead on its highway program is indicated by the biennial traffic census taken in June. This indicates an increase of approximately 47 per cent over the figures for 1922, the date of the last census. Curiously enough this is equal to the increase that was recorded for the period between 1920 and 1922 and shows that the traffic expansion is keeping pace with the growth in the number of motor vehicles. The result of the two biennial checks on traffic in all parts of the state appear to indicate that there has been a constant annual increase in the use of the roads since 1920. If the future is to be judged by the past, similar growth will be recorded in 1926, making it imperative that every possible activity be employed in maintaining existing highways, widening those that are overburdened with traffic, and providing new roads to relieve the more congested sections.

New Methods Needed
It is pointed out by authorities on highway construction that the process is a continuous job, as old roads are constantly in need of repair and the rapid increase in vehicles using the roads makes pressing need for additional outlays.

The Automobile Club of Southern California, the State Highway commission and various boards of supervisors after thorough investigation are agreed with the special committee appointed by the governor that new methods of financing highway construction must be adopted. It is generally conceded that plans must be devised that will be equitable and furnish a steady and ample source of revenue to provide for a systematic and adequate highway development program.

CARBURETOR EFFICIENCY

At fixed intervals, open the drain cock at the bottom of the vacuum tank, so as to release any foreign matter which may have accumulated there. This will prevent carburetor trouble.

FOUR NEW 1925 STYLES

Four essential 1925 improvements — at no extra cost — stamp these new Moon cars as style-setting 1925 models. Before you buy any car be sure and see them. If your car hasn't every one of these four features, it is not a real 1925 model.

How to Judge a 1925 Car:

- 1—New Moon four-wheel hydraulic brakes. As far ahead of mechanical brakes as is the air brake ahead of the old hand brake on a horse car. They work noiselessly, positively, and practically never need lubrication.
- 2—Genuine balloon tires. The big, thick, flexible tire on the new, sturdy, low disc wheel. Don't let any one persuade you to buy a compromise tire on the old stock wheel—distinctly not 1925 practice.
- 3—New steering mechanism designed especially for greater leverage. Makes child's play of driving. And just as necessary as the balloon tires themselves for perfect ease in driving.
- 4—The famous Red Seal Continental Motor, made exclusively to Moon design. With four main bearings and forced feed lubrication. Any small motor with less than four main bearings is behind the times.

Of course these cars are beautiful—distinctive. Everyone who knows Moon quality expects them to be . . . They roll easily. They handle delightfully in traffic or parking. They gain road-steadiness by perfect rhythm and balance rather than by excess weight. Make it a point to see Moon's latest achievement of finer car value—today.

Your choice of Touring, Roadster, Two-door Sedan or Four-door Sedan equipped with everything a 1925 car should have.

Have Your Car Appraised on the "Moon Trade-in-Service Plan."

Hupmobile

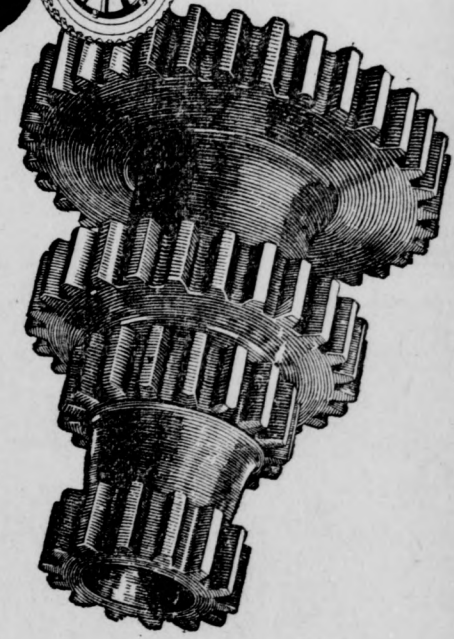

Quality Proof That Backs Up the Demonstration

The dash and brilliancy of Hupmobile performance—its smoothness and the absence of vibration—its powerful and rapid acceleration—would bring praise to a car of far higher price.

In driving, too, you find true fine carability. The two-plate clutch, for instance, is not outperformed by any clutch in higher priced cars.

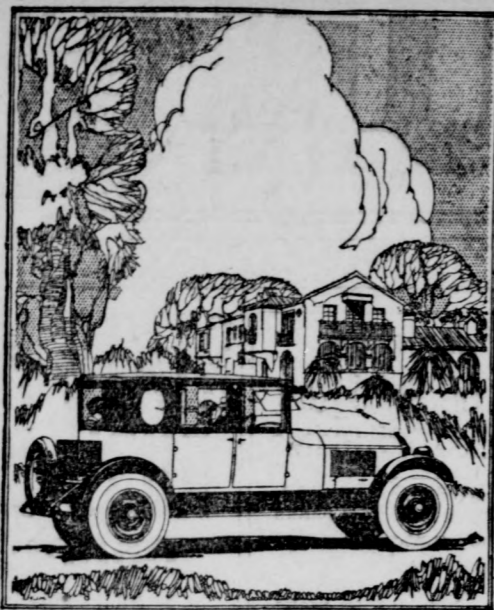

The Parts Display in our show-rooms reveals the very heart and soul of Hupmobile's celebrated durability and low costs. It is an education in the things that make a car a real asset or an ever threatening liability.

Counter Shaft Gear: Drop-forged, chrome nickel steel, double heat-treated. Not only is the construction unusually heavy, but the gear is mounted on two special roller bearings, instead of on plain bushings.

PLANS VISIT TO EASTERN PLANTS

Studebaker Factories Goal Of Local Executive On Fall Trip

Robert L. Conover, sales manager of the Packer Auto company, 245 South Brand boulevard, Studebaker distributor, is arranging his affairs here so that he may spend about three weeks on a tour of the Studebaker plants at South Bend, Ind., and Detroit, Mich., in September, leaving here early in the month.

"I have been selling Studebaker cars for the last ten years," says Mr. Conover, "and the more I see of them the more I realize the importance of keeping abreast of every new improvement that is made in the cars. The Studebaker name is synonymous with progress, and if the men who are supplying the motoring needs of the people of this country with Studebakers are to render the highest grade of service to their customers they must keep themselves posted on what Studebaker is doing."

"That is why I am going back to spend this period in studying the methods in vogue at the different plants of the company, so that I may be in closer touch with what is being done and with the policies that the firm is working on."

LONG RUN TESTS STAMINA OF CAR

Chevrolet Makes 1687 Miles In Five Days' Race to City of Spokane

A letter addressed to C. L. Smith, local Chevrolet distributor, Orange and Colorado streets, from A. F. McCain, formerly of 3221 San Fernando road, about his trip to Kellogg, Idaho, tells of making 1687 miles in four and a half days' traveling, and winds up with the assertion, "I still have a blamed good Chevrolet car left."

Mr. McCain left Glendale on a recent Sunday and stopped that night at a point beyond Sacramento, with his speedometer showing 463 miles for the day's run. Ashland, Ore., was the next stop, on Monday, then on to Portland, Ore., Tacoma and Spokane, Wash., where he arrived Thursday afternoon, and which, he claims, is "pretty good for a light car." Gasoline consumption was twenty-three miles to the gallon on the trip, and a quart of oil ran him 400 miles, with the weight of five average people in the car.

Most of the roads were good except for 300 miles north of Redding, where he had to detour, but the car behaved splendidly all the way and took the stiff grades on high without any trouble.

BUICK TRIES OUT EVERY NEW UNIT

Development of Car Result Of Constant Tests of Latest Features

"Perhaps the most outstanding thing in connection with the progress of Buick is the fact that at no time has Buick incorporated in its cars any uncertain or untried features," says Ray L. Galvin, sales manager of Tanner & Hall, Buick dealers, 622 South Brand boulevard.

"The excellent Buick product of today is the result of constant development of units that, after extensive research and experiment, left no question as to their practicability. The first thought considered with the adoption of any feature in connection with Buick cars is whether or not the feature will be practical in universal use, whether it will stand up and perform satisfactorily in the hands of every type of driver and under every driving condition.

"All experiments and tests are made under conditions that will readily demonstrate whether the feature being considered will render satisfactory and uninterrupted service, not only under ordinary, but, also, under extraordinary circumstances."

Peach Trees Recover From Weather Effect

LOS ANGELES, Aug. 14.—In a recent survey of the peach orchards of the San Fernando valley by Vincent F. Blanchard of the Agricultural Extension service, it was noted that the peach trees which were severely weakened by the extremely hot and dry weather during the month of February are showing a decided improvement.

It was figured by many, even late in the season, that a considerable acreage would experience much injury with die-back in the tops of the trees. Such is not the case, however, as the major portion of the trees are showing vigorous growth at the present time. Since the trees do not have a crop of fruit, they are able to devote all of their energy to recovering from the shock which they experienced early in the season. Those orchards which have an adequate amount of soil moisture should come through this season in a good condition and produce a good crop during 1925.

The father of Herbert C. Hoover was an Iowa blacksmith.

Study Rules Carefully To Make Safety Week Great Success In Every Detail

In order to properly observe Safety Week in Glendale, August 10 to 16, proposed and sponsored by The Glendale Evening News, it is necessary for the public to have a complete understanding of the rules and regulations governing traffic in Glendale.

The Glendale Evening News has for weeks been discussing the traffic question. On July 21, A. T. Cowan, publisher of The Glendale Evening News, appeared before the Glendale Traffic commission and suggested a Safety Week. The idea was instantly endorsed. On August 2, The Glendale Evening News announced that August 10 to 16, inclusive, would be observed as Safety Week and that it would have the hearty support of the Automobile Club of Southern California and the Glendale auto dealers.

Everybody Takes Hold of News' Idea

The idea spread throughout the city. On August 4, The Glendale Evening News announced that Safety Week, under the direction of The Glendale Evening News, would have the co-operation of the Automobile Club of Southern California, the local auto dealers, merchants, city officials, realtors, churches, service clubs, theatres and citizens in general. The suggestion by this newspaper "caught on" in a hurry.

Then, on August 5, Spencer Robinson, mayor of Glendale, at the suggestion of The Glendale Evening News, issued a proclamation setting aside August 10 to 16 inclusive, for the observance of Safety Week. Now everybody in Glendale has climbed aboard the Safety Week bandwagon and the parade, started and directed by The Glendale Evening News, is under way.

Read Rules and Regulations Carefully

But, it is necessary for the public to have a full understanding of the rules and regulations governing traffic in Glendale to properly observe Safety Week, and so The Glendale Evening News once more publishes the main features of the state vehicle act and also the main points in the ordinances as enforced by Glendale. Here they are, the first being from the state vehicle act:

- RIGHT OF WAY RULE**—Vehicle on right has right of way, unless vehicle on left enters intersection first. Any vehicle exceeding speed limit forfeits right of way.
- Exceptions to Right of Way Rule**—(a) Vehicle on public highway has right of way over vehicle entering from private road or drive. (b) Police and Fire Department vehicles have right of way.
- HAND AND ARM SIGNALS**—Must be given from left side continuously during last fifty feet traveled before turning. Signal right turn—hand and arm extended upward beyond vehicle; signal left turn—hand and arm extended horizontally; stop signal—hand and arm pointed downward.
- SPEED LAW**—Never drive so fast as to endanger life or property; nor more than—
15 Miles Per Hour in business district, at obstructed intersections of streets or railway crossings, on obstructed curves, or in passing schools. 20 Miles Per Hour in residence districts. 35 Miles Per Hour elsewhere, day and night.
- DRIVE ON RIGHT SIDE OF ROAD**—All vehicles must keep close to right hand edge of curb except when overtaking and passing other vehicles. Motorists may drive on left side of road in overtaking another vehicle if left side is clear and unobstructed for a distance of 300 feet.
- OVERTAKING AND PASSING**—Give two feet clearance and sound horn if outside business or residence district.
- TURNING AT INTERSECTIONS**—In turning to right, keep close to right hand edge or curb of road. In turning to left, pass close to and around center button.
- PARKING**—Prohibited on highway outside of business or residence districts. Prohibited in front of driveway to public or private garage or within 15 feet of fire hydrant or entrance to fire station.
- LOADS ON PASSENGER VEHICLES**—Loads on running boards may not extend beyond line of hub caps on left side nor more than 6 inches beyond line of hub caps on right side.
- FIRST AID AND INFORMATION**—In case of accident, stop, give all necessary aid, take injured to physician; give your name and address.
- REPORT ACCIDENTS**—Motorists MUST report to Police Department accidents resulting in injury to or death of any person. These regulations became effective September 1, 1923, having been passed by the California legislature.

Police Chief Tells of Local Rules

The policy of the Glendale City Council has been to make as few local traffic ordinances as possible, relying on the police department to enforce the provisions of the California Motor Vehicle Act, declares John D. Fraser, chief of police. The above changes noted by the Automobile Club of Southern California have been supplemented only as follows:

- SPEED LAW**—Business and residential districts are posted. A speed of 35 miles an hour is permitted elsewhere. Allowance of 7 miles an hour is made by the police department in all cases, in order to cover a sudden "spurt" necessary to pass another car or get out of a situation, and so that the possibility of an error may not operate against the motorist.
- OVERTAKING AND PASSING**—While the state law applies here as elsewhere, the charge of reckless driving can always be brought when a motorist risks life or property in order to pass another car.
- TURNING AT INTERSECTIONS**—Where buttons are placed in the street, motorists must go around them or be subject to arrest. The police department has endeavored to use good judgment in placing them, the sole idea being to prevent accidents.
- PARKING**—A city ordinance prohibits double parking and regulates the parking angle and duration of parking. In the business section the time limit is one hour, during the hours from 9 o'clock in the morning until 6 o'clock at night, except on Sundays and holidays. Motorists may not park within twenty-five feet of the corner on any street in the city. This is to allow motorists to make close turns, thus cutting down accidents and speeding up traffic. No parking is permitted in alleys, which are reserved for loading and unloading.
- REPORT ACCIDENTS**—A city ordinance compels motorists to report all accidents within the city limits, whether or not anyone is injured or killed.

All other provisions of the California Motor Vehicle Act apply in Glendale without supplementary regulations, Chief Fraser states.

Marrter Hailed Best College Mat Artist

COLUMBUS, Ohio, Aug. 14.—Perry Marrter, who has just won a berth on the American Olympic wrestling team, is hailed by mat experts on the Western conference as one of the greatest grapplers in the history of intercollegiate wrestling in the Middle West.

In his three years of intercollegiate competition, Marrter represented Ohio State in twenty bouts and lost only one.

Marrter can make 145 pounds with ease and seldom tips the scales at more than 132, according to his former instructors at Ohio State.

Dorris Acquitted by Jury In Murder Case

LOS ANGELES, Aug. 14.—Charles W. Dorris, Long Beach capitalist, in trial here for the murder of his wife, Therese, and Henry D. Myer, Pasadena millionaire, was acquitted by a jury late yesterday afternoon.

Police Arrest Pony And Dog As Vagrants

BOSTON, Mass., Aug. 14.—No vagrants are allowed in this town. This includes even animals.

A shaggy pony, covered with a coat of dirt, and an Airedale terrier who had the appearance of not having looked a square meal in the face for quite a time, were arrested in this town, charged with vagrancy.

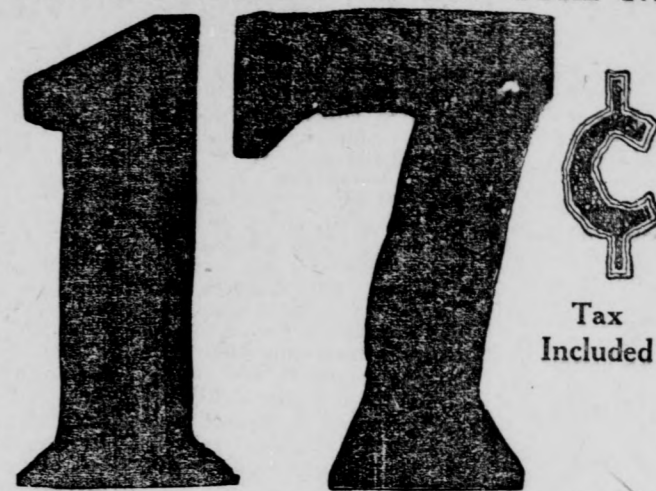

When they were discovered by Officer Duggan, of Milton, they were galloping down a lane. The pony's breast was cut where he had tried to get through barbed-wire fences to get at meadows. Policeman Duggan trapped the pony with a sack of oats; but the Airedale resisted arrest. The pony was tied up to a board fence, awaiting a claimant; but, according to latest reports, the dog was still circling about, refusing to desert his companion.

Although a network of paved motor roads covers the Belgian Congo, travelers still build fires at night to ward off lions and savage natives.

Workhorse Develops Championship Class

SYRACUSE, Aug. 14.—From workhorse to champion, from plodding of the back pasture of a Camillus farm to the "ermine" of the championship class of the show ring—that is the tale of equine accomplishment by Lady Fandango in the short space of a year.

Lady Fandango was brought up to be a workhorse in the employ of the Solway Process company. Just before she was turned over to the company Arthur E. Hopkins, Syracuse horse fancier, saw her, recognized her championship possibilities, and bought her for \$40. A year later Lady Fandango was ridden at the Manlius School's Horse Show by Miss Dorothy Austin and won everything in sight.

Starts Drive to End Smuggling of Liquor

WASHINGTON, Aug. 14.—A drive to put rum runners in prison for long terms has been started by Attorney General Stone. He recommended to United States attorneys at coast and border points to prosecute rum runners under the tariff act of 1922 instead of the prohibition law. The 1922 act provides heavy penalty for all smuggling, including liquor.

IT IS EASY TO PAY FOR A

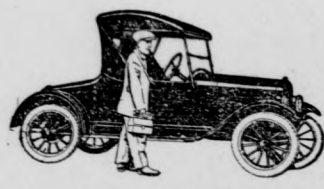

for Economical Transportation

Superior Touring, \$510 f. o. b. Flint, Mich.

Everybody wants an automobile. Everybody can pay for a Chevrolet. Everybody can afford to own a Chevrolet.

You can buy a Chevrolet just as you buy any other important necessity. Not one family in a thousand pays cash in full for a home. They make a substantial down payment, then pay off the mortgage with what they used to pay for rent, plus other savings, and in a few years obtain full title to a home of their own.

Superior Roadster, \$495 f. o. b. Flint, Mich.

This most popular and most economical family car is just another home—but on wheels. It takes the whole family evenings and holidays to where they are eager to go, and daily transports one or more of the family's workers to and from their business, therefore all the family gladly helps to pay for it.

It can be bought just as you buy a stationary home. It earns its own way and you ride while you pay.

Superior 4-Passenger Coupe, \$725 f. o. b. Flint, Mich.

It is the best paying investment any family can make because it provides transportation, saves time, and makes all outdoors your playground, bringing health and happiness to the whole family.

When may we show you the different models and explain how easy it is for you to get, use and pay for—

Superior DeLuxe Touring, \$640 f. o. b. Flint, Mich.

CHRYSLER LEAPS TO FRONT RANKS

Ninth In Registrations and First In Price Class In July Reports

The achievement of the Chrysler Six in leaping into the ninth place in registrations in Southern California for July, and into first place for cars of its price class, is regarded as one of the outstanding records in the history of the automobile industry by Lyman P. Clark, of the Glendale Motor Car company, 124 West Colorado street, Maxwell and Chrysler dealers.

"The Chrysler Six was delivered first in this territory on April 1," says Mr. Clark, "and in the four months that it has been on the market it has established itself as one of the most remarkable values in the industry. Everywhere one goes he hears the statement by car owners that their next car is going to be a Chrysler."

"Production of the Chrysler started off at seventy-five a day, and it has been stepped up until it is now 185 daily, and still the demand cannot be satisfied. It is a noteworthy fact that the Chrysler plant, during the recent depression, was the only factory in Detroit that was running on a day and night basis."

Allotments to Southern California have been increased, Mr. Clark says, and deliveries can now be made on most models in from seven to ten days.

SAFETY FACTORS VITAL IN AUTOS

Four Wheel Brakes Chief of Autoists' Needs Says Stearns Dealer

Discussing the need for the observation of Safety First principles in the operation and manufacture of motor cars, W. D. Weeks, president of the Glendale Stearns Motor company, 246 South Brand boulevard, emphasizes the four wheel brakes as being one of the greatest factors in promoting safety. The hydraulic brakes on the new Stearns Six, he claims, with their large drums, provide the driver with the greatest control over the car's progress.

Another important point is that of silence, a feature that is stressed in all the better makes of cars, Mr. Weeks claims, and especially in the Stearns, with its sleeve valve engine, and with the firm's engineers making it something to be aimed at in every car they turn out. The almost unattainable ideal of gear box silence, says Mr. Weeks, is more nearly approached in the Stearns than in any other car, insuring the minimum of sound, while the final drive in the rear axle has also been considered closely in the desire for silence.

"These two factors," he asserts, "are found embodied in the six-cylinder models of the Stearns sleeve valve motor cars."

WILL TELL NAME OF CAR'S WINNER

Overland Spelling Contest Results Will Be Told At Sloan's Tonight

Final decision of the judges in the recent Overland spelling bee will be announced tonight at the sales rooms of B. W. Sloan, Inc., 905 South Brand boulevard, local distributors of the Overland and Willys-Knight cars, when the name of the person who made the greatest number of words from the letters used in "Overland" will be made known.

One of the judges of the contest is Mrs. Arbie Mendenhall, 201 Milford street, a member of the faculty of the Glendale schools, and other members were selected from the school officials of Los Angeles and South Pasadena.

The announcement will be made at the B. W. Sloan, Inc., show rooms at 8:30 o'clock, and it is expected that a large number of local participants will be on hand to learn their fate.

"It has been surprising," declares Mr. Sloan, "the way the lists poured into the Overland agencies from all over California and from states outside of California."

Caused Rival's Death To Show Power, Theory

BENTON HARBOR, Mich., Aug. 14. — Florence McKinney, pretty farm girl who drove Emil Zupke's automobile while he, sitting beside, strangled out the life of her rival, Cora Raber, suggested the murder to show her power over Zupke, Sheriff George Bridgeman asserted today after a night of questioning the girl.

The McKinney girl did not want to marry "Ace" Zupke, the scapegrace young farmer who was thrown out of his own home by his father two weeks ago. She had no particular enmity for her rival, the girl who wanted Zupke to marry her to give her expected child a name, according to the sheriff. She just wanted to show her power, he said. Both Zupke and the McKinney girl are held on warrants charging first degree murder.

MOON EXECUTIVE REVEALS POLICY

Glendale Dealers at Meet Of Southland Agents Hear Address

Inauguration of a new policy that has been adopted by the manufacturers of the Moon car was announced at a meeting of the Southern California dealers that was addressed by David McCosker, assistant to President Stewart MacDonald, and it is asserted that this new policy will result in strengthening the dealers and in bringing about an increase merchandising program in the retail field.

Mr. McCosker discussed the problems of the dealers, showing them how to increase their business and laid special stress on the new trade-in service plan that has been adopted by Moon representatives in many of the principal cities of the United States.

Oscar Penn, 501 East Broadway, Glendale dealer, and his sales manager, Robert Frazier, were among the dealers who attended the meeting and the banquet that was tendered Mr. McCosker, and they report that they will at once put into operation in their business here the best points given them by the speaker in order to still further increase their rapidly growing trade here.

JEWETT REVEALS ECONOMY ON GAS

Car Goes Over Eight Miles On Quart of Fuel In Pontiac Tests

Tests held last week at Pontiac, Mich., to determine the actual distance various motor cars would go on a stipulated quantity of gasoline revealed some startling figures on the consumption of fuel, according to information reaching Ralph B. Bliss, 219 West Colorado street, local Paige and Jewett dealer.

A Jewett touring car tested by one dealer performed exceptionally well, according to those who witnessed the tests. A quart of gasoline was used to drive the Jewett eight and one-tenth miles.

The dealer claims he put only one quart of gasoline in the Jewett when it was entirely empty of fuel. Proportionately, this Jewett car would have traveled thirty-two and two-fifths miles on a gallon of gasoline, local motor enthusiasts pointed out.

Ann Luther Will Not Appeal From Decision

LOS ANGELES, Aug. 14.—Possibility that an appeal would be taken by Ann Luther, actress, from the decision of Judge Valentine dismissing her action for \$100,000 for alleged breach of contract against Jack White, wealthy mining man, on a motion of non-suit, vanished today with the declaration by her attorneys that further court action by Miss Luther was not contemplated at this time.

It was intimated the film actress will await the outcome of the present federal investigation of the New York to California

trip, claimed by her to have been made by White and herself in the same Pullman drawing room.

Announcement that the government investigators intended to "take a hand" was made by Lucien Wheeler, agent in charge of the department of justice here, following Judge Valentine's statement that he intended to direct the attention of the federal authorities to the alleged relations existing between the mining man and the actress.

An eastern scientist claims that lying is a mental strain, resulting in temporary nearsightedness.

Experts estimate that 13,200,000 golf balls will be bought this year in the United States.

New Attempt to Set Leonard-Walker Bout

NEW YORK, Aug. 14.—Matchmaker Jimmy Johnston this afternoon was to meet managers of Benny Leonard and Mickey Walker in a second attempt to determine a date for the Leonard-Walker bout, postponed because of an injury to Leonard's hands in his contest with Pal Moran at Cleveland. Examination of Leonard's hands failed to reveal any broken bones, although it did show that, in addition to a bruise on his right thumb, the left was slightly injured.

ADVOCATE SALARY TO CAR SALESMEN

Executive Would Abolish Commissions; Eastman Must Sell Plants

By J. C. ROYLE

Special Correspondent of The Glendale Evening News, Copyright, 1924. NEW YORK, Aug. 14.—Executives of retail automobile sales organizations are complaining bitterly of the quality of motor car salesmen, which they say has deteriorated badly since the war. Some of the executives assert that new methods as well as new blood are needed and are agitating having salesmen placed on a straight salary basis. Under this system, of pay, they would have full and complete control of the salesmen, would direct and regulate their activities and be entitled to their entire time during business hours.

At present about 95 per cent of the men in the selling end of the retail automobile business are on a straight commission basis and the major part of that percentage have drawing accounts. To a large extent, however, they control their own time, dig up their own prospects and handle them in their own way, although the organization through which they work offers counsel and assistance whenever possible.

Retail sales managers in many instances have come to the belief that too much importance has been devoted in the past to "closing the sale," to getting the name on the dotted line, too much emphasis placed on the personal influence of salesmen with large lists of well-to-do friends and acquaintances and not enough on placing the merits of the car sold before as many prospects as possible.

Approve Ford Idea. "Ford has the right idea," said the sales manager of a company having a car which is one of the main Ford competitors and who, himself, has made a big reputation as a salesman. "The Ford people say 'let the prospect sell himself.' We know that there is a demand for a certain number of cars. We know that some of our salesmen will sell more cars than they sold last year and that some will sell less, but that the company will sell about so many this year. In other words, the demand will sell that many. We can help create demand and so can salesmen but a prospect does not become a prospect until he can buy a car and wants to buy one. "When he has reached that stage if a salesman can show him that the company he represents has a meritorious product, can show him its merits, answer his objections and convince him of his own honesty and that of his company, the prospect will sell him the car.

"There is no mystery about selling automobiles. Two of the best salesmen I ever had did not know how to drive one and never learned. In my own case I found my principal difficulty in so arranging my time as to see as many prospective purchasers as possible. That is why I would like to have salesmen under me on a direct salary basis so that they would be responsible to me for their time."

To Sell Factories. The entire photographic trade is watching with keenest interest for the results of the auction sale in Rochester, August 15, of two subsidiaries of the Eastman Kodak company to discover who is anxious to compete with the Kodak company in its own front yard and how much they are willing to pay for the privilege.

The two factories, located in Rochester, are Folmer and Schwing-Century plant and the Premo Camera factory. The sale comes as an outcome of litigation started in 1913. Dissolution of the Eastman Kodak interests, alleged to be a combination in violation of the anti-trust laws, was ordered by Federal Judge John R. Hazel in 1921. The company was given two years to dispose of the two factories and the Aristo plant in Jamestown with the various products made in the plants in question, together with all formula for such products.

It was also stipulated that failure to dispose of the plants within two years would be followed by a forced disposal at public auction. In accordance with a publication of the decree, a minimum price was fixed by the attorney-general and the company. This was set at \$795,041.50 for the Folmer and Schwing-Century divisions and \$589,449.20 for the Premo concern, with its business and tangible assets.

These prices do not include anything for good will, trade names and designs. The Century division has many valuable trade names and the Premo name is recognized as being worth many thousands of dollars. At the time of the signing of the decree, the plants and lines represented a total investment of approximately \$3,786,000 and total sales for the lines in the year previous to the hanging down of the decree reached \$7,146,000.

Expect Heavy Market On Colorado Cattle

DENVER, Col., Aug. 14.—Colorado cattle are rated at 95 per cent of normal condition, compared with 98 at this time last year. Indications are that the number of grass-fed cattle marketed this fall will be higher than usual and the percentage of stockers and feeders relatively smaller. Sheep and lambs are rated 5 per cent and large numbers of the latter have been contracted for at 10 1-4 to 11 cents a pound.

The Masonic Orders of the United States have under construction the George Washington Masonic National Memorial at Alexandria, Virginia.

COMMENT That's All

No Fault Of Local People Political Fight Warms Up New Automobile Laws Ruined By Petty Acts

By Gil A. Cowan

Rev. Louis Tinning sends a letter to the conductor of this column in reference to comment which was made yesterday to the strange malady that hit a number of persons attending a luncheon recently at Occidental college. Says Rev. Tinning:

"The facts are these: Two hundred and twenty young people of southern California were attending a conference of a week's duration at Occidental college Saturday and Sunday cases of illness appeared. Not more than twenty-five were ill and none seriously, with one barely possible exception—Mrs. Hewetson ate lunch Thursday, which was her only meal at the conference. A few days later she died from illness similar to that contracted by the young people. She had been in poor health for many years and the direct cause of her death cannot be definitely determined. Los Angeles papers to the contrary notwithstanding.

I have been a member of the committee in charge of this conference and have attended the conference for five years, hence I know the entire situation. I regret that many Presbyterians understood you to refer to the recent meeting of California Synod in Glendale which gathering was singularly free from illness of any sort. California Synod adjourned two weeks ago and bears no relation to the Occidental young people's conference, except that both gatherings are distinctively Presbyterian."

The writer of this column is glad to have received the explanatory letter from Rev. Tinning, who is in a position to know the facts in the case.

Aspirants for offices are looking toward the calendar this week in expectancy. On Tuesday, August 26, an election will be held to determine who shall run for office in November.

Particularly interesting is the contest in the county for judicial honors. In this district the supervisory race is waxing warm. There does not appear to be much contest in the national and state legislative fields at this time. Congressman Walter F. Lineberger and Assemblyman Frank C. Weller being slated to succeed themselves without a great deal of opposition.

Outside of the district, however, the selection of two southern congressmen is filling the metropolitan newspapers with conflicting reports, principally due to the power companies' fight against the Boulder dam project. To an outsider looking on it would appear the dam is vital to the greater development of Imperial valley, as well as the western states at large, and the interest of the public should not be subservient to those of private corporations.

From Oakland and Redlands papers come editorial comment demanding a new motor vehicle law. The present statute is described as a boon to the reckless and the bane of a safe driver.

Perhaps the legislators will go to Sacramento with the best intentions but nothing by way of program for motor reforms.

There is a word in the dictionary spelled "petulant." You likely know what it means. And people who act that way are just what the dictionary describes petulant to mean.

The woman who sees a hat that looks like hers—and immediately tears her headgear to shreds is petulant.

There are other incidents of such childishness in every day life that are immensely amusing, as well as pitiful. For, in reality, a person who resorts to petulant acts outwardly, exhibits a suppressed desire for ruthless rule or ruin which, so exposed, weakens any respect the public may have held.

In politics more careers are ruined by petty acts than any other one cause. In business the small argument may result in failure finally. And how often marital bliss comes to grief over something so small that the average man and wife would only laugh at the situation.

A woman of our acquaintance who has lived a full life, only recently counselled keeping out of court over a small matter. "Everything will come out all right without saying a word." She was right. The Chinese long ago learned the philosophy of the power of non-resistance.

Never let the little thing, the immaterial things, worry you. And you will find the larger problems will take care of themselves somehow.

Europe's Sugar Beets Mature Favorably

NEW YORK, Aug. 14.—Cables from abroad indicate the European sugar beet crop is maturing under most favorable conditions. English refiners have cut prices on granulated to meet cheap offerings of American sugars.

Rush Raw Silk Cargo To N. Y. by Express

SEATTLE, Aug. 14.—Fifty-eight hundred bales of raw silk valued at \$4,000,000 arrived here from Japan and will be transferred to New York in express trains at once.

IRISH QUESTION PRODUCES FIGHT

Easy to Start Argument In New York City; Battle Generally Follows

By ROBERT T. SMALL

Special Correspondent of The Glendale Evening News, Copyright, 1924. NEW YORK, Aug. 14.—The world at large may think that the "Irish question" has been settled, but here in New York City you can still get a fight out of it at the drop of a hat. It is the same old story of police whistles, riot calls, broom handles and ambulances hurrying to the hospital for all they are worth. The styles never change in this respect.

New York is in the midst of its midsummer madness. This means that the street corners in the white light districts are occupied nightly by soap box orators who discuss every subject under the sun, or rather under the stars. Public health, public morals, truth, new thought, politics, reparations, relativity, free love, birth control, they are all one to the corner spellbinders.

Some of these patriots, uplifters and cultists wrap themselves in the American flag as they speak, treating it as the symbol of freedom of expression as well as of thought. They think a flag a day will keep the police away. The latter are extremely tolerant, however, and seldom interfere unless the fighting begins. New York is getting as liberal with the "nuts" and the cranks as the authorities in London who turn Hyde Park over to the long haired men and the short haired women and tell them to go to it, to get all the rancor out of their systems and then go home like good citizens and go to bed.

Speeches Clash. With all the new ideas and the queer ideas that are before the American people today, one would think the Irish question a bit thread-bare or show-worn as it were. Yet this is far from the truth. The Irish fighting spirit never dies. It quickly kindles into flame, for north is north, and south is south and never the twain shall meet.

It so happens that several outdoor meetings were going on at one and the same time in Columbus Circle last night. It also happened that one soap boxer was discussing health and the adjoining one was discussing Ireland. There was a bad mix-up in the Pretty soon the meetings overlapped and then the fun began. Some 5000 persons were in the Circle getting a "kick" out of the various free entertainment so lavishly on tap. The Irish orator was extolling Eamonn de Valera and intimated quite loudly that Ireland never would amount to anything until the De Valera ideas were fully adopted and Ulster was brought into line.

The Irish patriot proclaimed his views with so much vehemence that the health orator shouted over to him that he was trying to "grab the air" and interfere with all the other meetings. He also intimated rather blunt language that Ireland was not so darned important after all, certainly not as important as the health of all good American citizens.

That was enough said. The Irish orator climbed down from his stand and made for the health man. It looked very bad for the latter's general constitution, but before the two principals ever got within striking distance a melee was under way. A melee in the very heart of New York City on a hot night is a difficult thing to deal with and they had to call out the reserves of half a dozen precincts before order could be restored and nothing more heard about the Circle but the hum and click of the cheap taxi cab meters, as up and down town traffic was resumed.

At one time during the fighting, a lone man who must have said something terrible, was being chased by over a hundred men and women. He took refuge in an all night restaurant, where a woman attendant quickly shut the door in the faces of pursuers. The felled ones then turned quickly about and joined the milling and the pummeling at the base of the statue of the discoverer of this grand free country. Stray hats, torn clothing and four or five stray shoes made up the litter of the battlefield when all was over. One arrest was made. How that unfortunate got into the toils is unknown.

Declares Kansas Bank Troubles Are Over

TOPEKA, Aug. 14.—"We will not have any more banking troubles in Kansas, A. H. Wallace, president of the Kansas Bankers' association, said today. "General conditions have improved immensely; I can name a number of banks which were embarrassed that have been able to clean up everything and are now easy as a result of good crops and better farm product prices."

Finds Employment Gains In Cleveland

CLEVELAND, Aug. 14.—Industrial improvement indicated by a recent survey leads to the belief that the low point of employment here has been passed. Of one hundred large plants, twenty-one expect to increase their pay rolls while only eight will cut their forces.

Walter P. Chrysler Says:

Maxwell Now Excels Previous Four-Cylinder Possibilities

Before you have driven the good Maxwell 30 minutes, you will be revising all your previous ideas of four-cylinder possibilities.

For Maxwell—thanks to the rapid progress of the last year and the Chrysler Six engineering staff—now goes far beyond four-cylinder limitations as you have known them.

It goes so far beyond them that we have no hesitancy in saying that it is the best four-cylinder car in America today, at anything near its price.

There are specific results to back up our belief, and we invite you to experience them for yourself at the first opportunity.

If you have always thought that there must be vibration with a four, you will be delightfully surprised in the good Maxwell.

For here vibration is gone, so far as riding and driving comfort are concerned—a result of Maxwell's floating spring suspension of the motor which you will concede to be revolutionary.

You'll step on the throttle and feel the speed shoot from 5 to 25 miles an hour in a flat eight seconds, with an ease and

smoothness entirely new in your four-cylinder experience.

You'll ride the bumps as though you were in a car twice as heavy as Maxwell. You will steer and handle the car with delightful new ease.

Most people want such results in their cars today; and many still think they must pay much more than the Maxwell price to get them.

That might have been true up to a few months ago; but Maxwell's new developments have reversed the case entirely.

On the side of economy, Maxwell stands equally to the fore.

Engine bearings, for example, are built to run for the life of the car without need for replacement; owners average 24 miles per gallon; valves and carbon require attention only at long intervals.

These are but a few of the things that lead us to call Maxwell the best four in America at anywhere near our price.

For the Maxwell of today is more than the good Maxwell—it has been developed to a plane of unprecedented superiority among four-cylinder cars.

Touring Car, \$895; Sport Touring, \$1055; Roadster, \$885; Club Coupe, \$1025; Club Sedan, \$1095; Sedan, \$1325. All prices f. o. b. Detroit subject to current Government tax.

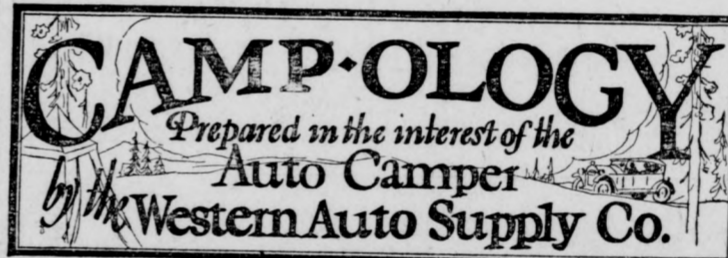

We are pleased to extend the convenience of time-payments. Ask about Maxwell's attractive plan.

The Good

MAXWELL

GLENDALE MOTOR CAR CO.

124 West Colorado St. Phone Glen. 2430

The running board filling station has become almost a part of the car, especially during the touring season. There is an ever-increasing demand for these touring units that prove to be a friend in need when the car runs out of fuel or water.

These sets consist of three containers which are held in a case that is clamped to the running board. The unit is compact, substantial, and does not detract from the appearance of the car. The three containers are painted different colors, to avoid any confusion regarding their contents. The outstanding feature of this set is that the spouts swing back when not in use, and are fitted into depressions in the tops of the containers. This operation also closes the valve in the spout, thereby eliminating any possible waste. The gasoline and water containers hold two gallons each and the oil can carries slightly over a gallon.

Road courtesy may be likened

to the air in the tires. It costs nothing, yet it certainly does smooth out the bumps. Try it and discover why.

How to light the camp? Of the many types of electric, carbide and gas lamps, the gas lamp that burns the regular automobile fuel will best answer the purpose for an all-around camp light. Electric lights may be used, but the trouble with this sort of equipment is that it gives a concentrated light, rather than dispensing an equal amount of light throughout the camp.

A gasoline lantern of the Coleman type seems best suited for camp use, as it throws a 300-candlepower light and will burn for forty hours on a single gallon of gasoline. It affords a brilliant white light that illuminates the entire surroundings, enabling the camper to cook or read after dark.

It is a safe means of obtaining light as it is impossible to spill the fuel, thereby eliminating any danger of fire should the lamp be

dropped or overturned. One filling should last for a week under ordinary camping conditions, and if the lamp is packed in its original carton, each morning there will be no necessity for replacing the mantels during the entire trip.

A book of traveler's cheques, issued by the bank or express companies is a great convenience and provides a safe way of carrying money while touring.

The preservation of food is most essential. For those who do not have an ice box included in their equipment, a thermalware jug will keep the food or liquids at an even temperature. The gallon capacity is constructed on the double jar plan with a vacuum between the two containers. The wide mouth permits bulky foods such as salads, chicken, ice cream, etc., to be inserted and removed with ease. It is equally efficient for liquids and will keep water ice cold for a long time.

Do not pile camp goods on the front bumper, as it will obstruct the front of the radiator and retard the circulation of the water in the cooling system. A combination rear bumper and luggage carrier may be had that will provide protection and accommodate the luggage as well.

Herbert C. Hoover earned his way through Leland Stanford university.

Diet And Health

By LULU HUNT PETERS, M. D.

ANSWERS TO CORRESPONDENTS

UNDERWEIGHT
M. B.—Underweight, if it is no disease as a cause of it, is due to underfeeding. You have to learn to count your calories, just as the overweight does. The average sedentary person needs about 2200 C. a day. If you want to gain one-quarter of a pound a day you will have to add 1000 C. to this, but it must be done gradually. Increase your cream, egg yolks, whole grain bread and butter and your other foods in proportion. Be sure to have at least one quart of milk a day. Rest as much as possible, and take your open air and sunshine in large doses. The large veins in your hands will be covered up as you become plumper. The size of the veins in the hands seems to be an inherited characteristic, but with some fat over them, they will be less prominent.

BUNIONS
Mrs. C.—Can I help a poor bunion-footed woman? Not much, I'm afraid. Bunions are always caused by the wearing at some time, of shoes that do not fit, usually those that were too short. Children especially should have shoes large and long enough to allow for growth. Bunions are partial dislocations of the great toe. Eventually the toe joint becomes enlarged and inflamed and the bursa or sack on the joint becomes inflamed. Now may come a corn on that. Insult may come. The only real cure for bunions is the operative removal of the projecting joint. Temporary helps are bunion plasters and, of course, correct fitting shoes. Soaking the feet in hot water with a heaping tablespoon of epsom salts to the quart of water will help relieve the swelling and the pain.

TWILIGHT SLEEP
Mrs. R.—There are no state laws prohibiting doctors from using "twilight-sleep" in childbirth. Some physicians have great success with the method. Others condemn it because of its occasional harmful effects on the baby. The Lying-in Hospital in New York has discarded twilight-sleep and is now using a method of rectal-anesthesia which is very successful. I will tell you something of it as soon as the final reports are published.

XANTHOMA
Mrs. H.—You are 43 years old, 20 pounds overweight, your face is wrinkled, your eyelids sag and each eyelid has a row of yellow dots. Your children are urging you to do something before your face looks like the map of the

Social : Clubs

Edited by KATHERINE V. SINKS

Class Entertains

A delightful informal summer party was enjoyed last night by members and guests of the girls' senior class of St. Mark's Episcopal church, at the home of the party, LeRoy W. Bossert, 614 South Central avenue. Bunco games were played, Alice Carpenter was awarded first prize. Music and other games also entertained, and at a late hour dainty refreshments were served.

Meet in Garden

The garden of the A. A. Bassett home at 127 Valley View road, proved a most pleasant meeting place yesterday afternoon for the Women's Auxiliary of St. Mark's Episcopal church. There were over forty women in attendance, and the affair was pronounced one of the most enthusiastic meetings of the auxiliary.

A special pleasure for the churchwomen was the presence of Deaconess Wile of the church home for children at Garvanza, and Mrs. Mortimer Baker, formerly a resident of Glendale, but now of Hermosa Beach, who is a member of the executive board of the home.

Deaconess Wile told much of interest about her work. Mrs. Baker outlined plans for financing the erection of a new building. Her plan is to sell 200 buckets of cement at 10 cents a bucket; 100 panes of glass at 25 cents a pane, and 100 studdings at 25 cents a stud.

The St. Mark's women also showered the Deaconess with jams and jellies for the home, and presented her with two lovely comforters they had made.

Mrs. Archie M. Parker, president of the auxiliary, presided. She was greatly gratified over the number of visitors present. At the close of the afternoon home-made cake and punch were served.

Happy Vacation

The vacation time is proving most happy for Rev. and Mrs. C. R. Norton of 801 East Wilson street, for they are having the pleasure of entertaining many friends.

Among their guests this week there have been Mrs. Valentine of San Diego; Mr. and Mrs. Brown and two sons, of Santa Ana; Mrs. Jennie Maiken of Albia, Ia.; Mr. and Mrs. Francis Pabst of Glendale; Mr. and Mrs. V. F. Dunmore and baby Nancy Ruth, of Los Angeles; Mrs. William Upton of Corona.

Mrs. Maiken belonged to Mr. Norton's church in Iowa years ago. She is spending several days with the Nortons. Mr. and Mrs. Pabst, also formerly of Iowa, will be in town tonight. Mr. Pabst was at one time treasurer of Mr. Norton's church.

Pasadena Guests

Mrs. Haver and Mrs. Medaris of Pasadena were guests yesterday of Glendale War Mothers, meeting at the Glendale Presbyterian church. Mrs. Josephine Cowlin, president, presided over the business meeting, during which tentative plans were made for a bazaar in the fall. Mrs. Samuel Dicks, who is leaving to reside in San Diego, gave her associates in the chapter farewell pictures of the company her work taken for Mrs. Dicks' memory book.

Dancing Tonight

Another of the informal Community Service dances is to be held tonight at the Tuesday afternoon clubhouse. Dancing will be from 8 till 11:30 o'clock. Mrs. Dorothy Morton Hastings, chairman, announces that her regular committee will be increased by Mrs. Troth at the door; Mrs. Laurie Smith in charge of the punch table, and Mrs. R. Ernest Tucker, receiving.

Pythian Sisters

Glendale Pythian Sisters are to meet Friday night in the Knights of Pythias hall on South Brand boulevard at Park avenue. Mrs. Mabel King, most excellent chief, announced that there will be a birthday dinner at 6:30 o'clock. Later a regular meeting will be held, featured by the initiation of seven candidates.

Informal Affair

Mrs. J. E. Cornell of 554 Oak street entertained with a delightful informal affair at her home this afternoon, complimenting her mother, Mrs. Watkins, and Mrs. Friester, both of Phoenix, Ariz.

Slayers' Lawyers Fail To Shake Alienists

CHICAGO, Aug. 14.—Several hours of minute cross-examination by defense lawyers failed utterly today to break down the opinion of Dr. Hugh T. Patrick, noted Chicago psychiatrist, that Nathan F. Leopold, Jr., and Dicky Loeb were mentally sound and normal when they tried to commit "the perfect crime" by kidnaping and killing Bobby Franks.

After Wrestling With Dr. Pat-

rick for the better part of two hours, the defense lawyers finally let go of him today with his opinion standing unshaken in the record.

The medico-legal battle has markedly snapped this afternoon, brought the opposing attorneys face to face, brandishing their fists in each other's faces.

The flare-up came during the cross-examination of Dr. Archibald Chalmers, a distinguished Chicago psychiatrist, and second of the state's alienists to deny that the Franks slayers are mentally diseased.

Mah Jongg Party

Miss Louise Beise presided over a delightful affair yesterday, when she entertained at her home, 1321 Barrington way, with a mah jongg party complimenting her cousin, Miss Evelyn Schwertzer of Minneapolis, Minn. Mah jongg was the diversion of the afternoon, for which the prize for high score was awarded to Miss Esther L. Campbell. The guest prize was presented to Miss Evelyn Schwertzer. At a late hour a dainty course of refreshments was served.

For Miss Dutton

Miss Dorothy Dutton, daughter of Mr. and Mrs. W. W. Dutton of 1503 South Glendale avenue, who is soon to become the bride of Walter J. Hibbert of Glendale, was given a china shower last night by Mrs. Hal Weeks, nee Harriett Cook, at her home, 600 North Light street. She was assisted in entertaining by her mother, Mrs. B. F. Cook.

Large bouquets of flowers from California's summer gardens were used in decoration. During the evening the guests wrote their favorite recipes, which were later presented to the bride-to-be. An impromptu musical program was also a feature of the evening's entertainment. At a late hour dainty refreshments were served.

Miss Dutton was the recipient of many lovely gifts of china. The guests present included: Misses Dorothy Dutton, Leona Hibbert, Dorothy Erskine, Dorothy Danner, Ann Miller, Evelyn Ashman, and Mesdames W. W. Dutton, E. H. Dutton, Jessie R. Burson, George Peck, Elsie Tiffany, Hattie Tiffany, C. A. Minter.

Hear President

Mrs. Eva C. Wheeler, president of the California W. C. T. U., is to be the speaker Friday afternoon at the W. C. T. U. meeting at the home of Mrs. Edith Dockray at 723 South Louise street. The women are to meet at 11 o'clock in the morning for a business meeting. All are to bring picnic lunches for the noon hour. Then in the afternoon they will hear Mrs. Wheeler's message.

Radio To Carry Coolidge's Talk

President Coolidge will formally accept the titular leadership of the Republican party tonight. Twenty-five million people, by far the largest audience ever addressed by one individual, will hear the president's speech by radio. William M. Butler, chairman of the Republican national committee, has completed arrangements for the linking up of twelve great broadcasting stations stretching clear to the Rocky mountains. Although the program is simple, the ceremony will take on a most colorful effect. Staged in the beautiful Continental Memorial hall, where the arms conference met, the setting will be abundant with floral decorations and the added atmosphere of the dress uniforms of the presidential aides and high ranking officers of the army and navy.

2000 Guests in Hall

Approximately 2000—numbering governors, senators, congressmen and members of the national committee—actually will be with in the hall. Outside, huge amplifiers will carry the speech to the thousands unable to gain admittance.

Immediately following the invocation, delivered by the Rev. Jason Noble Pierce, the president will take the platform. As presiding officer of the Cleveland convention, he has been charged with the honor of heading the notification committee of fifty-three.

The president will then deliver his address of acceptance, a comprehensive document containing approximately 6500 words, and dealing with every phase of America's foreign and domestic problems.

Work-out auto tires, saturated with oil, are used in some western vineyards to serve as smudge pots.

Mr. and Mrs. T. C. Love of 220 West Elk street and Mrs. Love's nephew and niece, Mr. and Mrs. P. O. Martin and daughter Isabel of Burbank, motored last week to Santa Barbara, where they met Mr. and Mrs. Love's daughter, Miss Madeline Love, who has been attending summer school at the University of California at Berkeley. They left Glendale on Wednesday and returned home Sunday night.

Chats On Beauty

By EDNA KENT FORBES

HOT WEATHER FEET

Hot weather feet are most uncomfortable. Hot weather feet are large, sticky, bulgy in the wrong places, and achy all over. The oldest shoes are too small and too stiff for restfulness, the aches climb up the ankles and at length up the spine and into the head. Oh, hot weather feet are very bad indeed.

If you are at home most of the day, you can easily treat your feet. Slip off shoes and stockings and sit for three minutes with your feet in a basin of hot water containing sea salt, bath salts, prepared salts that come for rheumatism, or everyday table salt. Change the hot for cool or old water. Dry the feet and then massage them a little with your hands. Work each toe up and down, and back and forth, separately, especially the big toe. Rub under the ball of the foot, pressing up the bones of the arch if they have fallen, then rub up the ankle. This massage is very restful and soothing. Powder with talcum, put on fresh stockings and heel-less slippers.

If you're at work, you can't do any of this. But if you wear pumps you can slip your feet out of them as you sit working, this rests and aches them, and you can sprinkle a generous amount of some talcum powder into your shoes at some time during the day. This haven't time for the treatment suggested above, slip off your shoes and stockings when you reach home, and rub a piece of lemon along the soles of each foot. This is very cooling and as stimulating as a shower bath.

Personal Notes

Mrs. J. N. McGillis of 1003 East Lomita avenue is spending two weeks in San Diego.

Miss Louise Fambrough of 206 North Orange street recently returned home after spending an enjoyable three days' outing at Big Bear Lake.

Misses Joy Willisford and Louise Rogers of Houston, Tex., who are guests at the Robert Kolts home at 914 East Elk street, spent today at Catalina.

Mr. and Mrs. Albert D. Pearce and daughter Jeanne, of 119 West Lexington drive, are to leave tomorrow for a month's outing at Hermosa Beach.

Mr. and Mrs. William Litchfield and little daughter, Alice, of 316 East Chestnut street, who have been enjoying a pleasant vacation at Coronado Beach, returned home today.

Mrs. H. E. Hurd and baby son of 1836 Vassar street, are visiting with Mr. Hurd's mother, Mrs. Josephine Hurd of Hollywood. They will return to their home here in about two weeks.

Forrest L. Jordan, son of Mr. and Mrs. E. L. Jordan of 502 North Maryland avenue, left Tuesday night for Berkeley, where he is to enter his senior year at the University of California.

Mr. and Mrs. C. H. Young of 724 East Acacia avenue are moving today to Riverside, where they will make their permanent home. They will be greatly missed by their many friends here.

Mrs. J. G. Huntley and daughter Virginia of 308 North Central avenue, are planning on leaving Friday for Honolulu for a month's visit. They will return in time for Miss Huntley to enter Pomona college.

Miss Altha Hallam, who has been visiting her mother and brothers, Mrs. Mary J. Hallam and Orville C. Hallam and William Hallam of 118 North Island street, has returned to her duties at the Presbyterian training school in Chicago.

Mr. and Mrs. J. W. Headlee and Mrs. Edith Dockery of 723 South Louise street, had the pleasure of entertaining as their guests Tuesday Melvin Norton and daughter, Miss Lucy Norton of Grand Rapids, Mich. Miss Norton is a member of the faculty of the Grand Rapids High school.

Mrs. Alexander Mitchell of 1549 Bes Lomond drive has returned from sojourns at Hermosa Beach and Catalina island. Mr. and Mrs. Mitchell are planning on spending next week at Big Bear lake. Miss Lorraine Mitchell, who has spent six weeks visiting in Minnesota, is expected home late this week.

Miss Martha Oldweller of Decatur, Ill., who has been visiting for the past week with her cousins, Mr. and Mrs. A. H. Fuescher of 623 North Isabel street, left today for a week's visit with relatives and friends at Long Beach, before returning to her home in the east. During her stay in Southern California she has visited many points of interest.

HOT WEATHER FEET

Hot weather feet are most uncomfortable. Hot weather feet are large, sticky, bulgy in the wrong places, and achy all over. The oldest shoes are too small and too stiff for restfulness, the aches climb up the ankles and at length up the spine and into the head. Oh, hot weather feet are very bad indeed.

If you are at home most of the day, you can easily treat your feet. Slip off shoes and stockings and sit for three minutes with your feet in a basin of hot water containing sea salt, bath salts, prepared salts that come for rheumatism, or everyday table salt. Change the hot for cool or old water. Dry the feet and then massage them a little with your hands. Work each toe up and down, and back and forth, separately, especially the big toe. Rub under the ball of the foot, pressing up the bones of the arch if they have fallen, then rub up the ankle. This massage is very restful and soothing. Powder with talcum, put on fresh stockings and heel-less slippers.

If you're at work, you can't do any of this. But if you wear pumps you can slip your feet out of them as you sit working, this rests and aches them, and you can sprinkle a generous amount of some talcum powder into your shoes at some time during the day. This haven't time for the treatment suggested above, slip off your shoes and stockings when you reach home, and rub a piece of lemon along the soles of each foot. This is very cooling and as stimulating as a shower bath.

You should wear fresh stockings every day, particularly if your feet hurt. It's easy, no matter how busy you are, to rinse the old stockings out in warm water at night when you've taken them off, and to hang them up to dry. They'll wear twice as long that way, and you'll have less foot discomfort. Wear silk, fine lisle, or in cold weather, mixed wool or silk. These materials are absorbent, better than cotton.

Betty C.—Very often girls and boys go through a period when they are inclined to have pimples, and there is nothing about it to worry over. You can help much if you do not overeat, especially too much fatty between meals.

Miss S. F.—A girl of 21 years, height 5 feet 1 inch, should weigh about 110 pounds. Drink about a quart of milk each day, one pint of which take hot just before retiring. If you do this you should gain the needed ten pounds in a few months.

Nineteen.—The only way you can improve the color in the stockings would be to dye them. Use a few drops of ammonia in the bath water for feet and arm pits.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if persons or their replies are desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Mr. and Mrs. A. R. Hildreth of 217 West Mirford street, and Mrs. Hildreth's sister, Mrs. Edith Burbeck and daughter, Marion, and Mr. and Mrs. G. S. Kronhite, enjoyed a motor trip last Sunday to Santa Barbara where they spent the day.

Mrs. Nora Ledger of 331 West Patterson avenue, who has been visiting with relatives and friends at Berkeley for the past two weeks, is expected to return home on Saturday. Mrs. Ledger is a sister of Mrs. W. W. Hall of the same address.

Mr. and Mrs. Eugene Haines and daughter and son, Esther and Robert Haines, of 312 East Dryden street, accompanied by Mr. and Mrs. A. R. Taylor, former residents of Glendale, enjoyed a delightful motor trip and week-end camping party at the Los Angeles county park, located on the north side of Old Bayly.

Mr. and Mrs. James F. McCarthy of 344 West Acacia have been entertaining as their guests, their aunts, the Misses Agnes and Margaret Ryan, of Oak Park, Ill. The Misses Ryan just recently returned from a trip to the north of California. During their first visit here they visited many points of interest in the Southland, including San Diego, Coronado, and Catalina Island. En route to their home they will stop at the Grand Canyon, Denver and other points.

Many happy associations are being renewed by Dr. and Mrs. E. H. Willisford of Houston, Texas, former Glendaleans, who are summer guests at the home of their son-in-law and daughter, Mr. and Mrs. Robert Kolts at 914 East Elk avenue.

Last Sunday morning Dr. Willisford occupied his former pulpit at the First Congregational church, of which he was organizing pastor.

Yesterday Mrs. Willisford was honored at an At Home at the Frank Arnold residence at 215 East Lomita avenue. The reception was arranged by Chapter B. A. P. E. O., to which both Mrs. Willisford and Mrs. Kolts belong. Invitations had been issued for friends of the honoree and during the afternoon fifty women were received.

A special honor for Mrs. Willisford came from the Tuesday Afternoon club, of which she is a past president. On behalf of the club, Mrs. C. E. Hutchinson presented Mrs. Willisford with a corsage bouquet of lovely California flowers.

Musical Program.—During the afternoon there was music by Mesdames Charles A. Parker, A. M. Draper, Frank Arnold, vocalists, and Mesdames Perry Rogers and Alice Ripley, pianists of Glendale; and by Mrs. Greely Kolts, vocalist, and Mrs. C. G. Kolts, pianist, of Los Angeles. Tea was served during the afternoon.

Dr. and Mrs. Willisford, Miss Joy Willisford and her guest, Miss Louise Rogers of Houston, Texas, and Mr. and Mrs. Robert Kolts were dinner guests last night of D. H. Smith at the Sunset Canyon Country club.

OAKLAND'S SALES CLIMB STEADILY

Glendale Agent Setting New Record for Disposal Of Machines

A record which ranks high in the automobile agency circles of Glendale is the one rolled up by the John Neuschaefer, who operates the Oakland Six motor agency at 420 East Colorado boulevard.

Since opening this agency the first of June this year a total of twenty-three new Oakland cars have been sold. The last ten days have shown a wonderful average according to Mrs. Neuschaefer, who states that nine new Oakland cars and nine used cars were recorded as sold.

Business looks very promising for the rest of the month of August, September and the early fall for Oakland; people are responding to advertising and special sales effort, states Mr. Neuschaefer, and every Oakland owner has seemed to be a big factor in sending their friends for demonstrations which often lead to sales.

The oldest resident of Grimsby, England, was buried recently in the robes which 76 years before she had worn at her wedding.

336 North Kenwood street entertained the Willisfords and Mrs. Kolts at luncheon today. Dr. and Mrs. Willisford were guests yesterday of Mrs. M. J. Miner of 458 Ivy street.

Housekeeping

By LAURA A. KIRKMAN

DISHES IN THIS WEEK'S MENUS

- TOMORROW'S MENU**
- Breakfast: Berries, Cereal, Boiled Eggs
 - Coffee
 - Toast
 - Luncheon: Baked Beans, Catsup or Piccalilli
 - Iced Tea
 - Dinner: Vegetable Soup, Spanish Omelet, Rice Croquettes, Potato Buns, Lettuce, French Dressing, Coffee, Raisin Pie
 - Jam
 - Peas

a kettie with the bones (if any), add one cup of cold water, let stand 30 minutes to extract the juices, then heat gradually to boiling point. Add a little salt and pepper and let simmer for two hours, or till the meat is tender. Do not let it boil vigorously. Remove fat and strain the broth before serving.

Escalloped Mushrooms (Requested by Mrs. J. P.): Peel one-half pound of mushrooms, cut the caps in dice and the stems in bits, and put them in individual buttered baking dishes, or ramekins, in layers alternating with two and one-half cups of soft bread crumbs, sprinkling a little salt, pepper, onion juice and ground nutmeg between each layer, then moistening with clear canned meat-soup. Spread dry bread crumbs over tops, dot with bits of butter, and bake in a moderate oven for 35 minutes.

All inquiries addressed to Miss Kirkman, in care of the "Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if persons or their replies are desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to give your full name, street number, and the name of your city and state.—The Editor.

DEATHS - FUNERALS

GRACE ROZETTA HELLMAN
Grace Rozetta Hellman, 8-year-old daughter of Mr. and Mrs. William H. Hellman of 1005 East Lexington drive, died at an early hour this morning, Thursday, August 14, 1924, at a local hospital, where an operation was performed on her last night.

Funeral services will be held at 2 o'clock Saturday afternoon in the L. G. Scovett chapel on South Brand boulevard.

JAMES C. GLASS
James C. Glass died Wednesday, August 13, 1924, at his home, 513 West Wilson avenue, at the age of 47 years. He had resided in Glendale four years. Surviving him are his wife, Mrs. Bessie L. Glass, and a daughter and son, Dorothy and Chester. Mr. Glass was a member of the Woodmen of the World of Edgeley, N. D.

Funeral services will be held at 2 o'clock Saturday afternoon in the Little Church of the Flowers in Forest Lawn Memorial park. Jewel City Undertaking company, directors.

BUTTERFLY

By KATHLEEN NORRIS. Copyright, 1924.

CHAPTER XXVII

She talked to him with all the easy confidence of a sister. For her old first feeling for him, the half-realized yearning and dreams had slowly become that. Not easily, for Hilary did not indulge in day-dreams easily, and it had been the brightest of all her day-dreams that some day the young vice-president of Spaulding Brothers might make her his wife. It had included so happy a present, it had so tenderly touched the future, and seemed so logical an outcome of the past, that she could not let it go without night hours of wakeful wretchedness and pain and days of shame and self-reproach.

And to see Butterfly radiant in the possession of all she had ever coveted, and much, much more, to see all of Craig's devotion and generosity given to her little sister, dearly and deeply as Hilary loved her, was a bitter trial. But Hilary weathered it with one slow hour of unseemly battle after another; pushing down the thoughts that would rise up and hurt her, and forcing herself to rejoice in Butterfly's joy.

It was all the easier because Craig and Dora were wrapped in each other, and in a hundred new delightful plans, and did not need her, and would not have noticed anything even much more obviously amiss. Hilary suffered alone, and conquered alone, and was the richer woman for it. Now she could meet Craig with real affection and pleasure, untouched by any secret personal hope or pain.

"And tomorrow you'll be out a cock-crow looking at new gowns, of course?" he teased her. She answered him with a serious look.

"I do need new gowns—two, at least. I need something for afternoons, or for such a dinner as this," she said, thoughtfully, "and then I ought really to have one stunning gown."

"I wish you'd let us give them to you, Hilary," he said with a smile. But when she took her head, with the protest that she was rich, he did not press it.

"But I'll tell you what I am going to beg from Butterfly," she presently confessed, animatedly, and that's a fur coat. She has so much fur, and I really can't afford that. She told me she was going to get rid of the old one—the brown one—"

Craig remembered buying that coat, in Paris, for his ecstatic and thrilled little wife. What an event in those happy days that

Theatres

Views and Previews News Notes From Studios Compiled by Members of The Evening News Staff

Only three performances of the record-breaking drama, "Tess of the Storm Country," remains to be seen at the tent theatre in Casa Verdugo, where the Murphy Comedians are presenting this play to capacity houses. The present attraction will come to an end Saturday night, and be followed Sunday by another stellar attraction, such as this company has been giving theatre-goers since it first opened in Glendale.

The location of the big tent theatre, at Stocker street and Central avenue, is proving accessible to Glendale people, who find it only three minutes north of the business section. Large crowds are coming to see the performances, many from other cities. J. A. Menard, manager, reports.

Foreign Buyers Seek Northwest Products

SEATTLE, Aug. 14.—There is a broad inquiry for all northwestern products from foreign sources at present. This is attributed in large part to belief in Europe in the eventual successful operation of the Dawes plan. This inquiry is especially noticeable in wheat, apples and canned fruits. Eleven steamships now are under charter to carry 70,000 tons of new crop wheat from Puget Sound and Columbia river ports and from Vancouver in the next three months. Exporters are also reserving cold storage space on Puget Sound piers for foreign-bound fruit shipments. Canned Alaska red salmon has advanced 40 cents a case to the highest point of the year on a reported shortage of 800,000 cases in the northern pack. Canneries there will close a month earlier than usual. English buying has been active.

THE GLENDALE

Harry Carey in "The Lightning Rider" opens a three-day run at the Glendale theatre today.

THE GATEWAY

Harold Lloyd in "Girl Shy" opens for a three-day run at the Gateway theatre today.

THE T. D. & L.

"The Covered Wagon" concludes a five-day run at the T. D. & L. theatre today, to be followed by "Babitt" tomorrow and Saturday.

10 Years Ago

J. N. McGillis of 205 Lomita avenue has fig trees he says are producing \$12 worth of figs, counting the fruit at 5 cents a pound.

L. D. Rising of 710 West Seventh street is the proud possessor of the head and antlers of a 200-pound buck he shot in the hills above La Crescenta Sunday morning. It took him six hours to pack the booty down from the mountain top.

Howard Ehmke, the pitching sensation of the 1914 coast league race, will join the Washington club of the American league at the close of the present season.

In one-teacher schools in America, in 1923, the average salary of teachers is \$729 per year.

About 1,284,000 volumes are now in the big downtown library of Chicago.

By CHARLIE BROOKS HOWARD R. GARIS

Uncle Wiggily

By HOWARD R. GARIS

UNCLE WIGGILY'S BIRD KITE

Nurse Jane Fuzzy Wuzzy and Uncle Wiggily were sitting on the sands of the seashore one day, when the rabbit gentleman looked down the beach, where Sammie and Susie Bushytail, the rabbit children, were playing. Not far away Curly and Floppy Twistytail, the piggie boys, were having fun.

"Must get me one of those," said Uncle Wiggily, with a twitch of his left ear.

"One of what?" asked Nurse Jane. "Do you mean you are going to get some of the bean bags Sammie and Susie are playing with?"

"No, but a kite like the one the little pigs are flying," said Uncle Wiggily. "Curly and Floppy were running about the sand, and in the air, over their heads, darted something like a big red bird."

"You don't mean to say you are going to get a bird kite; are you?" asked the muskrat lady housekeeper.

"Yes, I am," answered the bunny gentleman. "I know a place on the seashore boardwalk where a dog gentleman sells kites from China. Some are made in the shape of animals, and some look like big birds. Curly and Floppy have a bird kite, and I'm going to get one."

"But—the idea! I never heard of such a thing!" cried Miss Fuzzy Wuzzy. "An old rabbit gentleman like you wanting to fly a kite!"

"I'm not old!" exclaimed Uncle Wiggily. "At least I don't feel old. And, anyhow, it's a bird kite, with wings, a tail and everything."

"What difference does that make—because it's a bird kite?" Nurse Jane wanted to know.

"Oh, lots of difference!" laughed Uncle Wiggily. "Why, in China, old men and even old rabbits, I suppose, fly bird kites. So, if they do it in China I can do it here. Anyhow, I'm going to!"

When Uncle Wiggily spoke like that Nurse Jane knew there was little use in saying anything more. "I'm not old!" exclaimed Uncle Wiggily. "At least I don't feel old. And, anyhow, it's a bird kite, with wings, a tail and everything."

"Now I'm going to fly my bird kite," said Uncle Wiggily.

"Don't think I'm going to look at you!" sniffed Nurse Jane. "I think you're too silly for anything!"

She pretended to be reading a book as she sat under a sun umbrella on the beach. All of a sudden Nurse Jane felt something pulling at her long tail, and, glancing down, she saw the big sea lobster that once had tried to pinch Uncle Wiggily.

"Oh! Oh!" screamed Miss Fuzzy Wuzzy, as the lobster waved his big claws at her. "Save me, Wiggily! Save me!"

Uncle Wiggily was far down the beach, but he heard Nurse Jane's cry. Quickly the rabbit gentleman tossed his bird kite up in the air. He held it by a long string. The wind caught in the wings of the toy—in the big, red wings. Straight for the lobster flew Uncle Wiggily's bird kite. The lobster, who was just going to pinch Nurse Jane, saw the kite coming. He thought it was a real bird.

"Oh, don't let the eagle get me! Don't take me up in your claws, Mr. Eagle!" gargled the lobster. "I'll be good. I won't hurt Nurse Jane! I'll crawl back into the ocean!"

What's Doing In Radioland

By Southland News Service

Concerts of varied natures feature the programs tonight from KFI and KHJ, there being no outstanding numbers, although all is well worth the "listening in."

KFI (Earl C. Anthony, Inc.) 5:30 to 6 p. m., The Evening Herald.

6:30 to 6 p. m., The Examiner. Program presented by the Hollywood Bowl association.

6:45 to 7:45 p. m., Anthony. Bon Ton Orchestra.

7:45 to 8 p. m., Anthony. Y. M. C. A. Speaker.

8 to 9 p. m., Anthony. Hotel Ambassador Concert Orchestra.

9 to 10 p. m., The Examiner. Concert presented by the California theatre.

10 to 11 p. m., Anthony. Concert arranged by John Smallman.

KHJ (The Times)

6 to 6:30—Art Hickman's Concert orchestra from the Biltmore under the direction of Edward Fitzpatrick.

6:30 to 7:30—Dickie Brandon, screen juvenile; Emma Savery, 13-year-old pianist, pupil of Adelaide Gonnell Lee; George Ezra Crane, Jr., age 7, reader; Francis Earnest, 7, reader; Mary Jane Sharp, reader, pupils of Carter Weaver of the Earl Wallace Studios of Theatrical Dancing.

8 to 9:30—Program through the courtesy of the Radio Corporation of Southern California, arranged by B. J. Saeta and presenting Wally Wallenius, tenor; Lady Eleanor C. Mansfield, reader of original poems; Judge Harry A. Hollzer, speaker; Sigmund Sacks, violinist; Sam Messenheimer, pianist.

9:30 to 10:30—Hatch Graham, singer and banjoist. Filipino string orchestra, through the courtesy of the Blue Bird cafeteria.

10:30 — Art Hickman's Dance

The refugee population in Greece includes about 95,000 children, who are in dire need of outside relief.

Theodora Pool, 13-year-old girl of Michigan, won the second national safety essay contest over 400,000 American school children.

CLOSE-IN HOME
Tile Bath and Sink
\$6500—\$2000 Cash

You may have looked at many of the 6-room houses which are being offered at Glendale for only \$6500. If so, you will be in a better position to appreciate just how much more you are being offered in this one.

The location is ideal. Close in, and yet in a restricted locality with attractive homes all around it. Wonderful view of the mountains.

Construction is the best. Not built by ordinary contractor labor, but instead by a skilled builder who has practically done for himself, and who takes pride in his work. Large porch at front and rear. The living room is large with a real fireplace, Batchelder tile mantel. Dining room attractive with every necessary built-in convenience. The kitchen is ideal, the sink, of course, and every thing which a woman appreciates. No nook but instead a delightful breakfast room for table and chairs. The screen porch is roomy with a place for refrigerator, electric range, broom closet, etc. The bedrooms are large with plenty of room for twin beds if desired; light and airy, with plenty of closet space. Tile bath, with shower.

You can't find the equal of this house in Glendale for the price, only \$6500, and a \$2000 cash payment will handle.

BEARING LUBRICATION

Grooves in the bushings, which are intended to carry the lubricating oil, sometimes become clogged and cut off the supply, thereby causing one source of insufficient lubrication of bearings. An excess of graphite will also produce the same effect.

OLD FOLKS' HOME TO BE IMPROVED

Changes In Building to Add To Comfort of Inmates At Cost of \$10,000

SUNLAND, Aug. 14.—Improvements totaling \$10,000, which will include remodeling the present building and erection of two new five-room bungalows, will be carried out immediately by the Volunteers of America at their old people's home here, according to an announcement made today by Mrs. Ekey, matron of the home. The present building, a two-story wooden structure, will be remodeled and refinished in stucco on the outside. Old style porches will be replaced with verandas that will aid in making the building fireproof. Changes in the interior will include the installation of modern conveniences in plumbing and electricity. A fireproof roof will replace the present shingles, and doors and windows will be remodeled into French style openings to carry out the plan for facilitating egress in the event of a fire. Two new five-room bungalows will be erected on the grounds, which comprise a plot 150x350 feet. These bungalows will be arranged with regard to accommodating elderly persons, and will have all modern conveniences, as well as the main building when the changes are completed.

Old Tourist Hotel
The building at present being used as originally the Monte Vista Tourist hotel in the early days of Sunland, and was built thirty-five years ago, during a boom period that later collapsed. There are twenty-seven rooms in the two stories, and at present they accommodate twenty-five people in addition to the matron and her staff of assistants. When the improvements are completed there will be accommodations for at least fifty persons.

Five years ago the Los Angeles Community Service took the property and operated it as a home for undernourished children until last December when it was turned over to the Volunteers of America. Since that time the place has been operated by them as a home for aged persons. The policy of the Community Service was to operate such places for the public good for a time, and then turn the property over to the organization which appeared best able to make use of it for the public good. With this end in view the Volunteers of America were chosen.

Inmates Well Treated
In making the announcement of the improvements Mrs. Ekey stated: "So many people labor under a false impression in regard to these homes for elderly people. Most of them think the places are veritable jails, and that the people who live in them are treated as inmates of a jail or some similar institution, but such is not the case. To illustrate what is the popular conception of our homes, a lady came here the other day and took me to one side and asked, in a whisper, 'Do you allow them to go out riding?' She seemed to fear that something dreadful would happen to her if she were kind to any of our old people here. Needless to say, we are always glad when some one is thoughtful and kind enough to come and take any of them out for a ride or to the parks or to render any other act of kindness. These old people get the best of care here, and we have our entertainments and amusements and would be glad to have the public attend them and take an interest in our affairs."

OFFICIAL STARTS SANITARY SURVEY

State Health Rules Will Be Enforced to Regulate Conditions, Warning

TUJUNGA, Aug. 14.—Sanitary inspection of property in the Tujunga district has been started by the county health department under the supervision of Paul Ballinger, sanitary inspector. Mr. Ballinger made a preliminary survey of conditions a week ago and is now engaged in inspecting the premises of all such places as are deemed unsanitary, such as outdoor toilets and garbage dumps. All matters affecting sanitary conditions will be regulated in accordance with state laws.

The work of the inspectors can be facilitated by the filing of complaints concerning any unsanitary premises in the communities of Tujunga, La Crescenta, Sunland or Montrose. In Tujunga Harry Zachau will receive reports of such conditions and these reports will be investigated by the inspector and the name of the reporter will not be divulged. Other complaints for any of the territory between Montrose and Sunland, which includes Verdugo City and La Crescenta, can be sent to the County Health Department, Hall of Records, Los Angeles. Names of complainants will not be used, Mr. Ballinger stated.

Garbage Disposal
State laws, Mr. Ballinger said, require that all outdoor toilets must be constructed with fly-proof vaults to conform to requirements for the protection of health. Ten days' notice will be given where the conditions are found to violate the state laws. H. N. Fowler of Verdugo City has for some time been making an endeavor to have sanitary regulations enforced and civic organizations throughout the two valleys

News Briefs Of Southland

By Southland News Service.

ROTARIANS BREAKFAST
RIVERSIDE, Aug. 14.—Rotarians of this city tired of their summer noonday luncheons and yesterday held their meeting at "breakfast" in the Glenwood Mission Inn. Every one of the eighty members who were in town were present, which was an attendance record for the summer time.

GRAPE HARVEST ENDS
BLYTHE, Aug. 14.—Shipping of grapes from the Palo Verde valley is fast drawing to a close and vineyardists report most satisfactory prices for the initial season of the Riverside County Vineyard association which handled the marketing. The producing acreage next year will be trebled, it is reported.

PLAN \$220,000 BUILDING
SAN PEDRO, Aug. 14.—Announcement was made today that a store and office building will be erected on Seventh street, this city, at a cost of \$220,000. It will be of Spanish type architecture, according to C. W. Pierson, real estate man handling the deal.

DEPUTY SHERIFF FINED
ORANGE, Aug. 14.—S. L. Herrick, special deputy sheriff of Riverside county, was arrested and fined in local justice court on a charge of crossing an intersection at thirty-seven and one-half miles per hour, not being accorded the customary courtesies by Motorcycle Officer George Peterkin, it is reported. Herrick's \$15 looked as good as anyone's on a dull day in Orange.

KLANSMAN RAPS PRESS
SANTA ANA, Aug. 14.—In an open-air meeting here Dr. Horace Lackey, national lecturer for the Ku Klux Klan, averred the organization was not anti-Catholic, as alleged newspapers in general and declared the Associated Press was owned and controlled by Catholics and Jews and "not a single line of news that reflects credit to the Klan is ever sent out over the wire," according to current reports of the meeting.

SCHOOLS OPEN MONDAY
ANAHEIM, Aug. 14.—School bells will ring here next Monday and vacation will be at an end. La Habra, El Modena and San Juan Capistrano schools in Orange county also are opening at this early date, according to County Superintendent R. P. Mitchell. Holidays in the latter part of September and early October are scheduled to permit the children to aid in harvesting the walnut crop.

BOYS ARE TRAVELERS
HUNTINGTON BEACH, Aug. 14.—John O'Kelly of Great Falls, Mont., and Cecil Warren of Pullman, Wash., two boys of sixteen years, are "fishing" along the Pacific today somewhere between here and San Diego, after having enjoyed the hospitality of the jail here while being investigated. It was found the lads were intrepid travelers, whom their parents felt safe to permit to roam "on their own."

STATE BUREAU SUE
SANTA BARBARA, Aug. 14.—The bureau of animal husbandry of the state department of agriculture has named defendant in a \$10,000 damage action brought by E. C. Tallant, secretary of the Hollister Estate company, for the death of cattle dipped for the scabies and still held in quarantine. Eighteen of the animals died, Tallant's suit avers.

Smugglers Conceal Gin In Ice Blocks

OGDENSBURG, N. Y., Aug. 14.—Advent of summer weather today has spoiled one of the latest, and by far the most ingenious, methods of bootlegging which has come to the attention of local prohibition enforcement agents. Large quantities of alcohol and gin, colorless liquids, are believed to have been smuggled across the Canadian border inside of cakes of ice, which have never been subject to examination on the part of the authorities. For at least two months this spring the plan was followed, it has been learned, and revenue agents are curious to know just how much liquor actually passed before their eyes aboard large automobile ice trucks.

Combination of the colorless liquids with the ice cakes, which had been hollowed out, made the ruse almost impossible of discovery, while the contents of the ice were prevented from spilling by a plate of clear glass neatly fastened over the top of each cake.

A pocket apparatus to determine the amount of alcohol in any liquid is being used by prohibition agents. Plans are also being made to dispose of garbage and tin cans and other refuse, such as is done in the cities. In La Crescenta Valley Mr. Kennedy has taken a lease on some property that is suitable for an incinerator and will buy two trucks to be used in collecting the refuse. If the plans mature properly a regular collection of refuse will be established and the service will be made for a charge of about 75 cents a month, Mr. Ballinger said yesterday. This amount, he pointed out, would be less than what the taxes would amount to if other arrangements were made. The county health department is asking the supervisors to establish a district in this valley and to maintain an inspector and a nurse on full time.

MANY CITIES TO JOIN IN PROGRAM

Commercial Secretaries to Have Charge of Final Day's Program

BURBANK, Aug. 14.—Every city in Southern California will be interested in the San Fernando Valley industrial exposition, to be held at Burbank September 9 to 13, by reason of the fact that the Commercial Secretaries' Association of Southern California will be hosts and present the feature numbers of the special program being arranged for the closing day. This association is to be in session at Burbank that day and the scribes have kindly volunteered to stage the special events that will mark the close of the fall festival.

Plans for the affair are rapidly assuming shape, with manufacturers from all parts of the valley pouring in their applications for space for comprehensive exhibits. Indications today are that every available inch of the 50,000 square feet of floor space in the new factory building of the American Aluminum Products company will be commandeered by the industrial enterprises whose plants are in operation in the valley.

Through their Chambers of Commerce the several valley cities are pledging enthusiastic support and a number of them are busy promoting the candidacies of their favorite daughters in the contest for queen. The victor is to be named by popular vote and the crowning of the queen bedecked in her royal robes will be the feature number of the opening day's program.

Plan Big Meeting
A combination meeting, band concert and political speaking, with free ice cream as an added inducement to the public, will be held Friday night at 7:30 o'clock at the usual concert grounds, the vacant property on Olive avenue at Third street, where a generous supply of seats has been provided.

A good program of music is being prepared by the band. The political lights will include Supervisor Henry W. Wright, Asa Keyes, district attorney; Frank C. Weller, assemblyman of this district; and the twelve superior court judges now sitting, who are: Hardy, Keetch, York, Valentine, Burks, Archbald, Collier, Hollizer, Fleming, Shaw, Thompson and Guerin.

PLANS PREPARED FOR COMING SHOW

Bohemian Night Party Will Be Held on August 21 In Eagle Rock

EAGLE ROCK, Aug. 14.—The regular play-reading night of the Community Players' association, scheduled for tonight, has been postponed on account of the Bohemian party the association will give at the Women's clubhouse on next Thursday night, August 21. On that night the clubhouse will be known as the "Black Cat" and unusual entertainment is promised.

The Bohemian party will be open to the general public and there will be no admission, those in charge of the affair have announced. Included in the entertainment being arranged are a number of acts from Los Angeles theatres, feature and specialty numbers from Hollywood, a program given by the Kiwanis club, numbers by the "Potboilers" of Los Angeles, and other events. Eve Richardson and Jennie Swenson have planned the program and are making all arrangements for the evening. Mrs. Frederick Beach, social director, has appointed them hostesses for this event, which marks the first informal social activity of the Community Players' association since reorganizing, sponsored by the drama section of the Women's Twentieth Century club.

DETACHABLE WHEELS

To keep detachable wheels in perfect condition, frequent inspections are necessary. Rust accumulates behind the hub plate and the hole through which the axle passes. This should be cleaned and greased, for rust soon plays havoc with steel and quickly eats its way through to an appreciable extent.

CLEAN MUFFLER

While the muffler on most cars is in a most inaccessible position, this part should be taken off occasionally and cleaned. To neglect this will eventually lead to trouble, possibly to having it blown off.

THE LINDEN DRY-COLOR AIR GUN

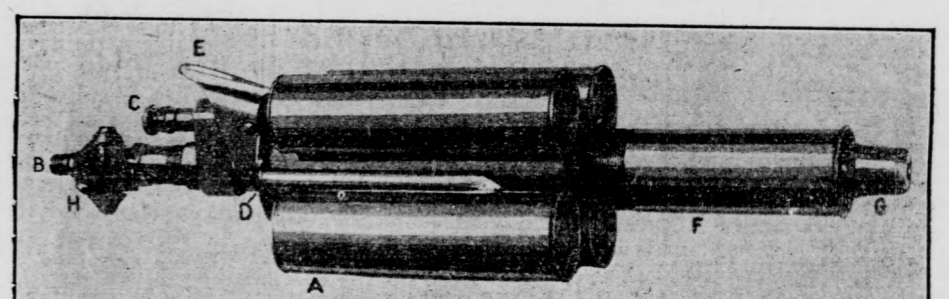

Diagram of the Linden Dry-Color Air Gun

Explanation of Diagram

A—COLOR CHAMBERS—1, 2, 3 and 4, to be filled with desired bronze or dry colors.

2—AIR INTAKE—To be connected with air compressor hose.

C—NEEDLE VALVE—Adjust needle valve to regulate flow of color.

D—AIR TUBE TO COLOR CHAMBER.

E—CHAMBER RELEASE—Press down and revolve to color desired.

F—DETACHABLE BARREL.

G—DETACHABLE NOZZLE.

H—AIR RELEASE—Regulates pressure of air desired to apply color.

Only Device of Its Kind

THE LINDEN DRY-COLOR AIR GUN IS THE ONLY DRY COLOR AND BRONZING GUN ON THE MARKET MAKING IT POSSIBLE:

FIRST—To apply dry colors or bronzes direct, retaining all their original brilliancy.

SECOND—To blend dry colors and bronzes evenly, without spots or discolorations.

THIRD—To apply color blends and decorations to new or old surfaces in one-third the time required for primitive methods.

CAUTION—Do not use liquids in THE LINDEN DRY-COLOR AIR GUN

ITS USES

ANTIQUING—

1. Furniture.
2. Picture frames.
3. Woodwork.
4. Old and new walls.

JAZZ FINISH—

Old and new walls, including cal-somine.

TIFFANY BLENDS—

Old and new walls, including cal-somine.

POLYCHROME—

1. Electrical fixtures.
2. Art work.

STENCILING—

SIGN PAINTING—

BACKGROUND

All surfaces to be blended by the LINDEN DRY-COLOR AIR GUN should be prepared as follows:

Two coats of paint, the final coat to form the desired background for the blend.

If the surface has already been painted and is the color desired for a background, it is unnecessary to repaint. Simply varnish size the surface and while tacky, shoot colors to make blend desired.
