WHERE TO BUY COOK & STOVES.

The following letter is worthy the attention of every housekeeper, and I can fully indorse it:

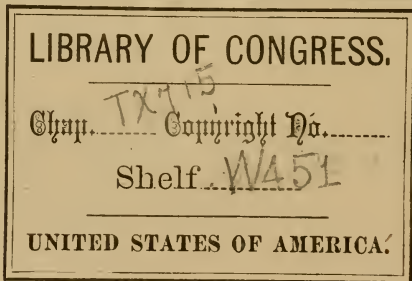

OFFICE OF THE BOSTON COOKING SCHOOL,
SMITH & ANTHONY STOVE CO., Boston, Mass. BOSTON, MASS., December 19, 1887.
Dear Sirs.— Three of the Hub Ranges, with Wire Gauze Oven Doors, have been in constant use at the Boston Cooking School for the past two seasons, and they have proved to be very superior stoves. We can especially commend the Gauze Oven Door as being all you claim for it. Its effect on meats is to render them tender and juicy, while the most delicate pastry is cooked evenly and uniformly on every side. The Range is economical in the use of fuel, and is extremely simple in its management. We consider the Wire Gauze Oven Door an indispensable adjunct to a cooking range.

From personal and public use, we can recommend the Hub Ranges as being the most reliable of any we have ever seen. Yours very truly,
I. A. MAYNARD, *Principal.*

ARLINGTON WHEAT MEAL!

AN UNEQUALLED FOOD FOR ALL.

ENDORSED by all Physicians as an unequalled food for Invalids and families.

Pure Wheat Meal contains more life-sustaining properties than any other food.

It is a natural food for every Brain-Worker, containing the necessary Elements to strengthen the Brain.

Flour is less gluten than wheat. Gluten is the albuminoid principle corresponding to the albumen, fibrin, and gelatine in the human body.

Dogs fed by Magendie (vide Kirks & Paget's Physiology) on flour, died in forty days; other dogs fed on wheat meal bread flourished and thrived. The three-fourths impoverishment of the mineral ingredients proved fatal to the first. Why should mankind suffer from living on impoverished food as they do?

The history of the Roman Empire in the time of Julius Cæsar shows that wheat, as an article of food, combined with fresh out-door air life, is capable of producing and sustaining the highest type of physical manhood the world ever saw. This empire was built up and maintained by soldiers whose main article of food was wheat. See *Boston Journal of Chemistry*, February, 1875.

People who live mostly upon flour will, if they use the Arlington Wheat Meal, find their expenses in this department diminished three-fourths. The Wheat Meal will go further and give four times as much nutriment as an equal amount of flour.

Laboring men can do their work with less exhaustion, because it contains more Sustaining Forces than any other food.

Children who feed on this need never be troubled with Cholera Infantum, which destroys so many children.

REASONS WHY IT IS PREFERABLE TO FLOUR.

FLOUR is the only impoverished food used by mankind — impoverished by the withdrawal of the tegumentary portion of the wheat, leaving the internal or starchy portion. See the facts!

In chemistry we find that in 100 parts of substance —

Wheat has an ash of 17.7 parts;

Flour an ash of 4.1 parts, — an impoverishment of over three-quarters.

Wheat has 8.2 parts of Phosphoric Acid;

Flour 2.1 parts Phosphoric Acid, — an impoverishment of about three-quarters.

Wheat has 0.6 Lime, and 0.6 Soda;
Flour has 0.1 Lime, and 0.1 Soda, — an impoverishment of five-sixths Lime and Soda each.

Wheat has Sulphur 1.5; Flour has no Sulphur.

Wheat has Sulphuric Acid 0.5; Flour has no Sulphuric Acid.

Wheat has Silica; Flour has no Silica.

REGIMEN AND DIET.

Every effort of the mind or movement of a muscle involves the expenditure, or waste, of nervous energy and vitality, in proportion to the magnitude of the effort; these wasted products pass off with effete substances from the body, while recuperation is effected by nutrition. The loss of *physical force* by using Common Flour is immense, which analysis proves.

FIRST, THEN, MAKE USE OF

ARLINGTON WHEAT MEAL

(MADE FROM ALL THE WHEAT).

A perfect food for Children, making them Strong and Vigorous — also imparts Strength to the Aged.

This article contains ALL THE WHEAT. In the coverings of the wheat are the Phosphates which go to constitute bone and muscle, and materially assist digestion by causing the rapid decomposition of the food. It is in this way the Phosphates in **Arlington Wheat Meal** act, giving new power and strength to the system.

EVERY BARREL GUARANTEED TO GIVE SATISFACTION.

It contains all the NITROGENIZED SUBSTANCES which PRODUCE BLOOD and the LIVING ORGANISM.

THIS book was prepared by the Parlor Fund Committee, to aid in building the contemplated additions to the church, and has been made from a collection of receipts donated by the ladies of Wellesley. They are not original but favorite rules chosen by those whose names are given as guarantees of excellence. Advertisements have been solicited to pay the expenses of publication, but in no case have any been received from parties whose goods our ladies have not themselves tested and can cordially recommend.

THE
Hicks Brown Company

MERCHANT MILLERS,

MANSFIELD, OHIO, U.S.A.

THE flour made by this Company, having been thoroughly tested in actual use by the authors of this Cook Book, has justly entitled them to the space given them for advertising.

The celebrated brands of flour made by this Company are well known throughout New England for their purity, uniformity, and the general good qualities of a strictly pure "Winter Wheat" flour, and are far superior to any "Spring" flour for domestic use. A trial of their brands will satisfy any one as to their superiority.

THESE BRANDS ARE:

"HUNGARIAN," 1st Patent ;

"BROWN'S BEST," 2d Patent ;

"DAYLIGHT," Straight ;

"WINTER KING," Clear.

This Company also makes "Graham" flour, which, like all of their other flour, stands pre-eminently in the front as an article of healthy nutrition.

WELLESLEY COOK BOOK

BREAD

As bread is the staff of life, be ye careful that it is sound and light.

WHEAT BREAD

PARE three moderately large mealy potatoes, cut them into slices three-fourths of an inch thick, and boil them in a small covered dish with a little water and salt. When the potatoes are well cooked, pour off the water, sift them through a small strainer, stir in flour and water enough to make a quart or more of rather stiff batter, add a cake of compressed yeast, and set in a warm place. The batter will rise in one hour. Mix four quarts of flour, one-half cup of lard rubbed into the flour, one tablespoonful of sugar, salt, and the yeast so as to form a very stiff dough.

The sponge will be ready to knead in three hours, and may be shaped into four loaves. Bread made in this way is always sweet and very light. The dough must not be allowed to stand over night, as it rises too quickly.

Mrs E. A. Jennings.

WHEAT BREAD

DRY in the oven over night three quarts of flour. The secret of good bread depends upon having the flour very dry and the yeast fresh.

Make a sponge early in the morning with one cup of

flour, one cup of warm milk and a cake of compressed yeast. Let it rise until it begins to fall.

Mix the three quarts of dried flour with three pints of warm milk, or water, a tablespoonful each of sugar, lard, and salt. When well mixed, add the sponge and work the mixture ten minutes. Let it rise till half as high again as at first.

Mould or knead it ten minutes more, and let it rise till twice its original height. Mould into loaves or biscuit, and when moderately light bake in a slow oven.

M. H. L.

BREAD

1 pint of milk	1 tablespoonful butter
1-2 pint cold water	1 tablespoonful sugar
1-2 cake of Fleischmann's yeast dissolved in cold water	1 teaspoonful salt, all dissolved in 1-2 pint HOT water

ADD to the milk and cold water in the mixing-bowl the solution of the butter, sugar, and salt, and the solution of the yeast. Stir in flour enough to make a not very stiff batter. Do *not* knead it, but mix it with a knife, cutting it through, and working it over until all the dry flour is well mixed with the other materials. Scrape the dough from the sides of the mixing-dish, smooth the top with a knife. Cover with a thick cloth, and let the batter rise. Shape into loaves; and when sponge has well risen, bake about forty minutes. Makes four good-sized loaves.

The Eliot.

BREAD WITH WHOLE WHEAT FLOUR

1 quart tepid water	1 teaspoonful salt
1 tablespoonful butter	1-2 yeast cake
1 tablespoonful sugar	Flour enough to make a stiff batter

Mix over night or in the morning. Keep at a temperate degree of heat. When light, stir down, remove to

moulding-board. Work in only enough flour to allow the forming into loaves. Place in pans. Let it rise again, and bake in a quick but not too hot oven.

In preparing the bread for the pans, mould as little as possible. The above rule makes two loaves.

Mrs. Nathan Abbott.

WHOLE WHEAT FLOUR BREAD

SOAK half a cake of Warner's Safe Yeast in one quart of lukewarm water, with salt. With the sifted whole wheat, use one coffee cup of sifted white flour. Use enough flour to make a batter that will drop thickly from the spoon. Set over night in warm room. In the morning, pour into bread pans, two-thirds full. Let it rise to top. Good oven.

Mrs. Clements.

GRAHAM BREAD

ONE pint of warm milk, or milk and water, half of a yeast cake (compressed), and flour enough to make a *thin batter*. Let this rise over night, and in the morning stir in half a cup of sugar, a little salt, one teaspoonful of saleratus dissolved in water, and Graham (Arlington meal) enough to make a *stiff batter*. All the other ingredients should be thoroughly beaten into the sponge before adding the Graham, which should be stirred in a *little at a time*, and *beaten well*. Cut into biscuit, or shape into loaves, as preferred, and place in the baking-pans. Let it rise until very light, an hour and a half, or two hours, and bake. The oven should not be so hot as for white bread.

Do not make it too stiff.

M. Brown.

Sprinkle this sheet of dough generously with brown sugar and powdered cinnamon, and roll it into a tight roll as you do a sponge roll. Then slice it down with a sharp knife into rolls one-half inch thick and set these to rise in a greased pan till light, when they may be baked as biscuit.

One-half cup of seedless raisins may be stirred into the dough if desired.

Mrs. Cowan.

BUNNS

Chop the oysters very fine, and put on a plate. Knead five ounces of flour in a saucepan with four ounces of melted butter. Stir and cook a little, without allowing it to brown. Dilute with three pints of boiled milk and the oyster liquor.

Add oysters, stir steadily, and boil ten minutes and rub thoroughly through a very fine sieve. Add more milk, if required, stir, and boil again.

Finish with half a pint of raw cream and four ounces of butter in small bits. Taste, pour into a tureen and serve with small squares of bread fried in butter, and served separately.

This may be varied by adding a well-beaten egg and a trifle of nutmeg.

Serve with slices of lemon.

EGGS

*"The turnpike road to people's hearts, I find,
Lies through their mouths, or I mistake mankind."*

CREAMED EGGS

BOIL six eggs twenty minutes. Make one pint of cream sauce. Have six slices of toast in a hot dish; put a layer of sauce on each one, and then a part of the whites of the eggs, cut into thin strips. Rub a part of the yolks through a sieve upon the toast. Repeat this and finish with a third layer of sauce. Place in the oven for about three minutes. Garnish with parsley, and serve hot.

Mrs. Edwin B. Webb.

EGG BASKETS

BOIL eggs twenty minutes, shell, cut in halves, take out the yolks, and take slices from the points of each half white, *that the baskets may stand*. Put the yolks in a dish and mash fine, add equal quantity of finely chopped ham, chicken, or tongue; season with salt, pepper, and mustard. Add and mix melted butter, and *shape into round balls* size of the yolk, putting one into each basket. Set these on rounds of buttered toast a little larger than the baskets.

A white sauce, as for cream toast, may be poured around, and sprigs of parsley placed on top of each ball make a pretty garnish.

SCALLOPED EGGS

6 eggs	1-4 cup melted butter
1 pint white sauce	1 cup ham, veal, tongue, or
1 cup cracker crumbs	poultry

Boil eggs twenty minutes, moisten the cracker crumbs with the melted butter, chop fine the meat, remove the yolks of the eggs, and chop whites fine.

Put a layer of buttered crumbs in a buttered scallop dish, then a layer of chopped whites, white sauce, meat, yolks rubbed through a strainer, and so on, till all the material is used, having buttered crumbs on the top. Bake till crumbs are brown.

Mrs. Spear.

BAKED EGGS

Break each one in a cup, being careful not to break the yolk. Lay the eggs one by one in a hot buttered dish, put a little salt on each egg, and bake till firm; add a little butter and serve at once.

A Nicer Way

Cover a buttered dish with fine cracker crumbs. Put each egg carefully into dish and cover it *lightly* with cracker, butter, and seasoning, and *bake until the crumbs brown*.

BEST WAY OF BOILING EGGS

Put the eggs into a saucepan and cover with boiling water and let stand where the water will keep hot, *yet not boil*, for ten minutes.

If eggs are to be *hard-boiled*, cook them in this way twenty minutes. The yolk will be dry and mealy, and easily rubbed smooth.

APPLE OMELETTE

1 pint strained apple sauce	1 teacup sugar
3 eggs beaten separately	2 tablespoonfuls melted butter

BEAT apples, sugar, butter, and yellows well together. Lastly add the whites, beaten as for cake. Bake in a greased pudding dish. Serve cold with or without cream.

Mrs. Cowan.

PLAIN OMELETTE

3 eggs	3 tablespoonfuls milk
--------	-----------------------

BEAT whites and yolks of eggs separately, turn into bowl and add milk. Stir lightly together.

Have a spider hot and pour mixture into it. As soon as it is a delicate brown on the bottom and is just set or cooked, but not *stiff*, put into the oven just to dry off top—a very short time is sufficient. Have a platter hot, and then fold together the omelette and turn on to it.

Serve immediately. The omelette must be cooked as soon as prepared. Standing spoils it.

Mrs. C. E. Shattuck.

OMELETTE

2 eggs	Lump of butter size of horse-
1 tablespoonful corn starch	chestnut
(small)	Salt
1-2 cup of milk	

BEAT the yolks, flour, and milk together, add the butter melted; beat the whites of the eggs to a stiff froth and add them the last thing.

Grease a spider thoroughly with butter, and when hot put in the omelette and cook on top of stove.

It takes about five minutes and needs very careful watching; when done turn one half over on to the other and serve at once.

Mrs. Pomeroy.

BAKED OMELETTE

1 pint milk 4 eggs 1 tablespoonful flour

SCALD the milk and thicken with the flour; let it cool a little, then add the eggs, yolks and whites beaten separately, and a little salt. Pour into a buttered dish, and bake until it rises all over like a custard.

Mrs. C. P. Withington.

SIASCONSETT OMELETTE

5 eggs Butter size of half an egg
2-3 cup of milk Salt and pepper

SEPARATE three whites, beat the five yolks and two whites; add the milk, pepper, and salt, to taste. Put the butter into the frying-pan, heat and pour in the above mixture. If air bubbles rise, prick them. Have ready the three whites beaten stiff, and when the above is cooked through spread over the whites, with a sprinkle of salt, and place in the oven till the whites are a *little* stiffened. Loosen with a knife and roll out on a warm platter.

OMELETTE

MEAT

"Live not to eat, but eat to live."

ROAST BEEF

SEVEN pounds of sirloin or the back of the rump. Wash, trim, tie or skewer into shape, and lay on a rack in the pan, and dredge all over with salt and flour. Put into a very hot oven at first, to sear the meat and keep in the juices. Put pieces of the fat beef into the pan. When well seared, baste (with the fat) and turn often, and reduce the heat. Bake one hour, if liked *rare*, an hour and a half well done. Add a little hot water to the pan if there is danger of the fat burning.

YORKSHIRE PUDDING

Serve as a Garnish to Roast Beef.

BEAT three eggs very light; add one scant pint of milk and one-half teaspoonful of salt. Pour this mixture slowly over two-thirds of a cup of flour, beating all the time until smooth. Bake in hot gem pans three-quarters of an hour. Baste twice with drippings from the beef.

GRAVY FOR ROAST BEEF

WHEN the meat is done, if more than a half-cup of fat, pour it out and mix two heaping tablespoonfuls of flour *smooth* with the fat in the pan and pour one and one-half pints of boiling water on, a little at a time; boil a little, strain, and serve.

Mrs. Benj. H. Sanborn.

SCOTCH ROLL

5 lbs. flank of beef	1-8 teaspoonful clove
3 tablespoonfuls salt	1 teaspoonful summer savory
1 tablespoonful sugar	3 tablespoonfuls vinegar
1-2 teaspoonful pepper	

REMOVE the tough skin from the beef. A portion of meat will be found thicker than the rest. With a sharp knife cut a thin layer from the thick part and lay upon the thin. Mix together the salt, sugar, pepper, clove, and summer savory and sprinkle over the meat, and then sprinkle with the vinegar. Roll up and tie. Put away in a cold place for twelve hours; then put in stewpan and cover with boiling water. Simmer gently for three and one-half hours. Mix four tablespoonfuls of flour with half a cup of cold water and stir into the gravy; season to taste with salt and pepper; simmer half an hour longer. This may be used hot or cold.

Mrs. Spear.

BOILED LEG OF LAMB

WASH the lamb, put it in the kettle with enough boiling water to cover. Let it cook until tender, then add salt; the water should be boiled away to about three pints; turn out a bowlful, let the remainder of the water *simmer* away until the lamb is nicely browned (turn it often), then remove to a hot platter. Add the bowl of liquor to the fat, and thicken with flour, strain and serve.

CAPER SAUCE. — Add five tablespoonfuls of capers.

MINT SAUCE. — Add one-half cup of vinegar, a little sugar, and one-half cup of fresh chopped mint.

POT ROAST

FOUR to six pounds of the second or third cut from the rib of beef. Proceed same as above recipe for boiled lamb. Do not add more water *at last* if likely to burn, but remove to cooler part of the stove.

Mrs. Benj. H. Sanborn.

LAMB CHOPS (with green peas)

NEATLY trimmed, with bones scraped, they should then be rolled in a little melted butter and carefully broiled. When done, rub butter over them and season with pepper and salt. Slip little paper ruffles over the ends of the bones. They may be served with a centre of almost any kind of vegetable.

TOAD IN THE HOLE

1 lb. round steak
1 pint milk
1 cup flour

2 eggs
Salt and pepper

CUT the steak into dice; beat eggs very light and add to them the milk and a little salt; pour upon the flour, gradually beating till very light and smooth. Butter a two-quart dish, and in it put the meat. Season well with salt and pepper; pour over it the batter, and bake one hour in a moderate oven. Serve hot.

Mrs. Spear.

BOILED TURKEY

FILL with a few bread crumbs and one pint of oysters. Boil the turkey in a cloth.

GRAVY. — One pint of oysters mixed with the chopped giblets.

Mrs. Bacon.

CHICKEN FRICASSEE

1 chicken	1 egg
1 tablespoonful butter	1-2 teaspoonful celery salt
2 tablespoonfuls flour	1 teaspoonful lemon juice
1 cup cream or rich milk	Salt and white pepper

Cut the chicken in pieces for serving; cover with boiling water, add one teaspoonful of salt, and one-half saltspoonful white pepper. Simmer one hour, or until tender, skimming well as it comes to the boiling-point. Remove chicken and boil liquid down to one pint. Strain liquid, remove the fat, and add one cup of cream or good milk, and heat again. Melt one tablespoonful of butter in a saucepan, add two tablespoonfuls of flour; when well mixed, pour on slowly, a little at a time, the hot cream and liquid. Season to taste with salt and pepper, one-half teaspoonful of celery salt, one teaspoonful lemon juice. Beat well one egg, add a little of the hot liquid, that you may mix it smoothly with the whole.

If you wish a *white* fricassee, return the pieces of chicken to the liquid, just heat through, and serve.

For a *brown* fricassee, brown the pieces in a little butter and pour over them the sauce.

Sophia B. Horr.

BROILED CHICKENS

SELECT nice tender chickens; split them down the breast; wash very thoroughly and wipe dry; rub both sides with salt, place in baking-pan (the skin side up), cover with bits of butter, and sift over plenty of flour; turn in a little water. When nearly done, remove from oven, and place on buttered broiler, over coals not too hot. Give them a nice brown on each side. Serve with thickened gravy. In broiling this way all danger of scorching the chickens before they are done is avoided.

N. C. B.

BAKED HAM

MAKE a dough of rye meal and water, of sufficient thickness to spread well. Take a large pan and place the ham in it with the fat side down. Cover the meat with the dough about an inch thick, then turn over and completely cover it, leaving the fat side up. A twelve-pound ham will require seven hours to bake with a moderate fire. Half a ham from three to four hours.

Mrs. C. E. Shattuck.

BOILED HAM

WASH and scrape the ham, put it in a kettle with boiling water, enough to cover, keep boiling slowly until tender all through (from five to six hours for a twelve-pound ham), then remove from the fire and let stand in the kettle till cold. Remove the skin and part of the fat, put the ham on grate in a dripping-pan, stick cloves in the fat one inch apart. Sprinkle with cracker crumbs, bake in slow oven one hour, baste three times with sugar and water.

Mrs. B. H. Sanborn.

PRESSED CORN BEEF

TAKE a fancy brisket piece weighing six or eight pounds, put into hot water and boil eight or nine hours. Take from water with a skimmer and put into a presser. Separate the meat with a knife and fork, putting any fat pieces which may be in it in small bits all through the meat, drain off any fat or liquid remaining, put on the weights and set away to cool. In summer it will be necessary to put it on ice. It should be one solid cake or block, from which delicate slices can be cut.

Mrs. C. E. Shattuck.

MEAT PIE

TAKE cold chicken, veal, or lamb, and cut into small pieces. Over this pour milk thickened with flour, and seasoned with butter, pepper, and salt, and cook five or ten minutes.

Add rolled cracker and season with small pieces of butter. Just brown in the oven and serve hot.

Mrs. C. E. Shattuck.

SCALLOPED CHICKEN

TAKE equal parts of cold chicken, boiled rice, or macaroni. Put in layers, and cover with buttered crumbs. Bake till brown. Cold roast turkey, using stuffing and gravy, may be prepared in the same way.

Mrs. Spear.

PRESSED CHICKEN

CHOP the meat fine, season with salt, pepper, and celery salt, moisten with some of the broth. Press in a square tin, and cut in slices when cold.

Mrs. Stoddard.

PRESSED LAMB

BOIL a quarter of lamb until tender. Remove the bones. Chop a little and stir in one teaspoonful of pepper and one heaping teaspoonful of sage. The meat should be salted while boiling. After stirring well, put into an ordinary bread tin, pressing down evenly with a spoon. If prepared while hot it will slice beautifully when cold.

TAKE about five pounds of the top of a shank of beef. Let it be fresh and clean-looking. Wash with a wet cloth. Boil until tender, usually three or four hours. Keep but little water in the kettle, watching carefully to see that it does not burn. When the meat is done, remove it to a shallow pan. Pick out all bits of bone, gristle, and skin; chop fine, season with salt, and stir into it a little of the water left in the kettle, enough to moisten it. TO MAKE A HEALTHFUL UNDER CRUST FOR SQUASH OR CUSTARD PIES

SPREAD a cold pie plate *thickly* with sweet, fresh table butter, and when done, sift over it as much finely powdered cracker crumbs as will adhere to the butter; fill and bake as usual.

With a little more care, the pulverized cracker may be used *as well* for an upper crust on fruit or mince pies. — *Proceeding with the under crust as above*, add the fruit and seasoning, and sift the powdered cracker over the top until the fruit is well covered, putting on the butter lastly, *in very thinly cut slices or shavings until the top is well covered with butter*. — The heat of the oven will do the rest.

P. W. Dana.

Cut out, and, just before putting in the oven, rub over them the white of the egg well beaten.

A very hot oven is needed.

*The Boston
Crystal Gelatine.*

BOSTON CRYSTAL GELATINE makes the most transparent jelly, and, being absolutely odorless and tasteless, requires less flavoring than any other, and is, on this account, more economical to use. It takes only about half as much of the Boston Crystal as of other kinds for any given recipe, and, the quantity being less, it will dissolve more readily. It contains no acid, and is therefore as well adapted for creams and custards as for jellies.

Pauline Smith.

1 pint sugar	

MASH berries, add sugar, and, after the sugar is dissolved, add water and lemon juice. Press through fine cheese-cloth and freeze. Vary sugar as fruit requires. All fresh fruits are improved by the addition of a lemon.

Mrs. Spear.

POMEGRANATE SHERBET

DISSOLVE as much gelatine as you can heap on a large tablespoon in boiling water. To one quart of water add one and one-half cups of sugar, and the juice of eight blood-oranges. Strain and freeze.

A. M. Wilson.

GRAPE SHERBET

2 lbs. Concord grapes	1 quart water
2 lemons	1 lb. sugar

LAY a square of cheese-cloth over a large bowl; put in washed grapes and mash with wooden masher. Squeeze out all juice and add equal amount of cold water, the lemon juice, and sugar. Use sugar enough to make quite sweet. Freeze as usual.

Mrs. Spear.

RASPBERRY SHERBET

1 tablespoonful Boston Crystal Gelatine	2 cups raspberry jam
1 quart boiling water	1 cup sugar
1 lemon	1-4 cup cold water

SOAK the gelatine in the cold water ten minutes. Add half the boiling water and the sugar. Soak the jam in half the boiling water. Mix all together, add the lemon juice. Strain and freeze.

Mrs. Benj. H. Sanborn.

LEMON SHERBET

1 tablespoonful Crystal Gelatine	1 pint sugar
1 quart water	Juice of 6 lemons

SOAK the gelatine in a little of the cold water for ten minutes, and when softened add remainder of the water, the sugar and lemon juice. Strain when all is dissolved, and then freeze.

If lemons are very juicy, five will be sufficient.

J. Peabody.

CONFECTIONERY

"Prove all; hold fast that which is good."

CREAM CANDY

2 cups sugar	1 small teaspoonful cream
1 cup water	tartar
1 teaspoonful butter	1 teaspoonful vanilla

BOIL, without stirring in the least, until it will harden in cold water. After it is taken off the stove, stir in the vanilla, and turn out on a greased platter. Begin to pull as soon as you can handle it.

Mrs. Pomeroy.

NUT CANDY

2 cups molasses, "New Orleans"	3-4 cup sugar
	Coffee-cup of walnut meats

BOIL sugar and molasses until it will harden quickly in water. Add a piece of butter and the walnut meats just before removing from the fire. Pour in shallow pans and check with knife.

Mrs. C. E. Shattuck.

VINEGAR CANDY

BOIL together for twenty minutes two cups of white sugar and one of vinegar. When done, pour into shallow pans, cool, and mark into half-inch squares, or when half cool pull, making very white candy.

Miss Lucy White.

HOREHOUND CANDY

BOIL two ounces of dried horehound in a pint and a half of water for about half an hour. Strain, and add three and a half pounds brown sugar. Boil over a hot fire until it is sufficiently hard. Pour out in flat, well-buttered tin trays, and mark into small squares with a knife as soon as it is cool enough to retain its shape.

Miss Lucy White.

MAPLE SUGAR CANDY

THIS may be made of the syrup or the sugar. In either case the best and clearest should be used. If the syrup is used, put it to boil just as you would molasses. Boil it fast until it begins to get thick. Take a little on a sauce-plate and stir; if it *grains* quickly it is done. Remove from the fire, and stir until it commences to grain, and pour into buttered pans or small muffin tins. *English walnuts or butternuts* are an addition.

Wolcott, Vermont.

BUTTER SCOTCH

1 cupful sugar	1 tablespoonful vinegar
1 cupful molasses	A pinch of soda
1-2 cupful butter, nearly	

BOIL until done. When cold, cut into squares. Wrap in paraffine paper.

Mrs. Mary L. Whipple.

ALMOND CAKE

WHITES of five eggs, stir in sugar enough to make it stiff, with just a little pinch of flour, half a pound of almonds scalded and pounded; drop on buttered tins, and bake in a quick oven.

Mrs. Parritt.

CREAM WALNUTS

WHITE of one egg, tablespoonful of cream, confectioner's sugar enough to make a stiff batter, then roll into fairly good-sized balls. Flavor according to taste, then take one pound English walnuts, halve them, and put one half on each side of the cream, put in a cool place to harden.

May Selfe.

NUT CAKES

ONE pound powdered sugar, whites of six eggs beaten to a stiff froth. One and one-fourth pounds almonds pounded fine in a mortar or linen cloth. Drop on buttered tins and bake in a quick oven.

NUTS AND FRUIT GLACÉ

2 cup sugar

1 cup water

BOIL slowly, without stirring, half an hour. Dip the end of a skewer into the syrup and then into cold water. If the thread formed is brittle, the syrup is done. Set the saucepan into boiling water to keep the syrup from candying. Take the prepared nuts or fruit on the point of a large needle, dip them into the syrup, and lay on buttered plates to cool. English walnuts are very nice prepared in this way. Oranges should be divided into sections without breaking the skin.

Mrs. Benj. H. Sanborn.

CHOCOLATE CAKES

WHITES of eight eggs, one pound powdered sugar, six ounces of flour. One-half pound of sweet chocolate, grated. Beat the whites stiff, add the sugar little at a time, then chocolate, then flour. Grease the tins with *lard*. Drop the mixture in small round balls, and bake in a *very quick* oven, otherwise they become thin and hard.

CHOCOLATE PUFFS

BEAT well the whites of two eggs, then add half a pound of sugar. Scrape fine one pound and a half of chocolate, dredge with flour, mixing well. Add this to the eggs and sugar. Place upon buttered tins thin spots of powdered sugar about the size of half a dollar, pile a part of the mixture upon each spot, and sift over them fine white sugar. Bake a few minutes in a quick oven.

Mrs. Clements.

CARAMELS

1 cup Baker's chocolate	1 teaspoonful flour

GRATE chocolate fine. When nearly done stir in soda.

When partly cool cut in checks.

CARAMELS

1-2 cup butter	1 cup grated chocolate
2 cups milk	3 cups white sugar

F. E. Lord.

COCOANUT CARAMELS

ONE pint milk, butter size of egg, one cocoanut grated fine (or desiccated cocoanut may be used), three pounds of white sugar, two teaspoonfuls lemon, boil slowly until stiff, beat to a cream, pour in shallow pans, and when partly cold cut in squares.

Miss Lucy White.

ORIENTAL DISHES

2 lbs. beef chopped very fine

BOIL the rice, mix with the chopped beef. Add a little butter, salt and pepper to taste. Take fresh grape leaves and put them in boiling water until tender. In each leaf roll a little of the beef and rice, making small oval balls, with the ends closed. Stew them in water sufficient to cover. Put a plate on them while stewing, to keep them from floating. If made with lamb instead of beef, no butter is needed.

CHESTNUT STEW

2 quarts chestnuts

3 lbs. beef

SLIT the chestnut shells, and roast until soft. Remove the shells. Cut the beef in inch squares, and brown in butter as for hash. Add a little water, flour, butter, and salt to make a gravy. Put in the roasted chestnuts and stew for about half an hour.

QUINCE AND MEAT

TAKE two good-sized quinces to two pounds beef.

Pare the quinces and cut them in slices.

Cut the beef in squares about an inch in size, and brown it in butter as for hash. Add a little water, flour, butter, and salt to make a gravy. Put the quinces in, and stew until soft.

SUMMER-SQUASH DOLMAS

TAKE one-half cup rice to two pounds beef. Chop the beef fine; boil the rice and mix with the beef. Salt and pepper to taste.

Take out the inside of the squashes and fill with the rice and meat, putting a little butter in each.

Stew till the squashes are soft. If made with lamb, no butter is needed.

These may be eaten alone or with lemon sauce.

Take the yolks of five eggs to the juice of three lemons. Beat the yolks well and stir in the lemon juice. Pour over the squash dolmas.

PILAF

Two cups broth to one cup rice. When the broth comes to boiling point put in the rice. Salt to taste.

Boil the rice soft, without stirring, until all the broth is absorbed and leaves the rice only. Eat with stewed tomatoes.

DROP CAKES

1 cup sugar
1 cup cream
1 egg

1 teaspoonful baking powder
Flour enough to drop from
spoon

TAKE one-half cup pulverized sugar and one even tablespoonful cinnamon, and mix them together. Drop the cakes into the cinnamon and sugar, and put them carefully into a greased pan. Bake as long as cookies.

Agnes M. Lord, Smyrna.

SAUCE AND PICKLES

*“ Mingle, mingle, mingle,
You that mingle may.”*

RHUBARB SAUCE

4 lbs rhubarb (wine) 2 cups sugar

Cut up the rhubarb (leave the skin on), and put into an earthen dish with the sugar. Cover tightly and cook in a moderately hot oven until soft, testing with a straw. The sauce needs to be watched, as it may become too brown, and that would spoil the flavor, which is delicious when the red rhubarb is used.

Mrs. E. P. Anderson.

CRANBERRY SAUCE

1 quart cranberries 1 pint water 1 pint sugar

Boil cranberries in water six minutes, add sugar, boil six minutes longer.

Mrs. W. L. Russell.

Boil eight minutes, cool in the kettle.

Miss Lucy White.

CURRANT JELLY (Never-failing)

Pick the fruit as soon as ripe (not dead-ripe). Look over carefully, but do not remove the stems; crush a little of the fruit that it may not stick to the kettle.

Cook slowly at first, then bring to a boil and cook until soft, strain through fine cheese-cloth and boil ten minutes, and measure the juice; add an equal measure of sugar which has been thoroughly heated in the oven; boil ten minutes, skimming as it boils.

Mrs. Benj. H. Sanborn.

CURRENT JELLY

ONE pint of juice, one pound of sugar, put the currants into the oven to warm, then press out the juice. Stir the sugar and juice together until the sugar is thoroughly dissolved, then put on the stove and stir about fifteen minutes, not letting it boil.

Miss Lucy White.

ORANGE MARMALADE

2 1-2 dozen oranges 12 lbs. coffee-crush sugar

PARÉ oranges very thin, cover the parings with water and boil until tender, skim them out and cut into fine shreds, and put them back in the water with the juice and pulp of the oranges, add the sugar, and boil three-quarters of an hour; do not put in seeds or skins or white part of peel. Two and one-half dozen should weigh a little over eight pounds.

A. M. C.

1 1-2 lbs. sugar	nutmeg
1 quart vinegar	A handful stick cinnamon
A little whole clove	

LET the spices and sugar boil, covered, a short time in the vinegar, then lay in the fruit — not too much at a time, lest some pieces get overdone and broken — cover, watch, and as fast as tender take out each piece with spoon and lay in jar, draining carefully from pickle. When all are done, let the pickle become as thick as desired, then pour over the fruit until that is well covered.

Mary E. Horton.

RASPBERRY SHRUB

Mrs. H. H. Brown.

RASPBERRY SHRUB

To six quarts of berries add one quart of vinegar. Let them stand twenty-four hours, then strain through cheese-cloth. To one pint juice add one pound sugar. Heat slowly, allowing it to boil five or ten minutes. When cold, bottle for use. This makes a very cooling drink by adding two tablespoonfuls of the shrub and one teaspoonful of sugar to a glass of water.

Mrs. Benj. H. Sanborn.

PEAR CHIPS

8 lbs. pears, pared and quar- tered	1-4 lb. preserved ginger
6 lbs. sugar	1-2 dozen lemons

Mrs. E. P. Anderson.

SWEET CUCUMBER PICKLE

SLICE cucumbers about one-fourth inch thick. The cucumbers should be gathered when about an inch and a half in diameter. After slicing them crosswise, put them in a strong brine, where they will keep, if the brine is strong enough to hold up an egg, for several months, or until cold weather makes preserving a pleasant occupation.

Soak the sliced cucumbers in cold water till the salt is out, changing the water several times. Then boil one hour in strong alum water. Then soak out the alum taste in cold water, which will require several days changing the water two or three times a day. Make a

syrup, one quart good vinegar, one pint water, three pounds sugar to four pounds cucumber, cinnamon, cloves, and mace to taste. Boil the cucumbers in this syrup till it is rich, clear, and thick. Some sliced ginger preserved with it is an improvement.

Knoxville, Tenn.

FRAGMENTS AND MISCELLANEOUS HINTS

“ Therefore, in everything, ‘gather up the fragments that nothing be lost.’ ”

SAVE all broken pieces and crusts of bread that cannot be used for toast, and dry them in a moderate oven. When well dried pound in a mortar and sift, and put away in a glass jar to be used in scallops, croquettes, dressings, or steamed puddings.

COLD mashed potatoes, moistened with cream, and made in cakes and browned in the spider, are a good breakfast or lunch dish.

Cold boiled potatoes made into salad, or cooked Lyonnaise, are also good for lunches.

SAVE celery tops for use in salads, in soups or stews.

Fragments of mashed turnips, not enough for another meal, are just the thing for vegetable soups; lima beans and canned peas may be pressed through the colander and added to the soup stock.

EVERY bone should be guarded with jealous care, and is the foundation for numberless delicious soups. The ends of a rib roast, the tough end of a steak and of a

mutton chop are so much addition to the wealth of your soup-kettle.

Skim carefully the surface of your soup, trim your chops and steaks, and save every fragment of fat, which should be clarified and strained and used in place of lard.

FRAGMENTS of cold roast chicken, turkey, veal, or lamb, are appetizing if made into croquettes, scallops, or finely minced and seasoned and served on toast garnished by parsley or celery tops.

WHEN rice is used as a vegetable and left over, eggs may be added with a little sprinkling of flour, and light, tender, delicate griddles may be made.

COLD boiled, baked, or even fried fish may be used for croquettes, or in cream sauce, or for scallops, and prove as attractive as in the first serving.

IRON RUST. — This may be removed by salt mixed with a little lemon juice; put in the sun; if necessary, use two applications.

HOW TO CLEAN A TEA OR COFFEE POT. — If the inside of your tea or coffee pot is black from long use, fill it with water, throw in a piece of hard soap, set it on the stove, and let it boil from half an hour to an hour.

FOR A COUGH. — Mix equal parts of lemon juice, glycerine, and pure honey. Dose: One teaspoonful three times a day.

To remove the tops of fruit jars that cannot be started by hand, dip a cloth in very hot water and apply to the outside of the cap; this will cause it to expand.

SALT water, as a lotion for weak eyes, is highly recommended by many physicians, and gives much relief where eyes have been strained by overwork.

A GARGLE of salt and vinegar, with a little cayenne pepper, will do more to disperse soreness of the throat than any other remedy of which we have heard; it will sometimes cure in a few hours.

PLACE over the tight spot of a boot a cloth wrung out of hot water. The moisture causes the leather to stretch enough to make the boot fit easily.

THE best plant for a hanging basket, or the most cheerful for winter blooming, is the common morning-glory. As a window plant for winter it is a success, as it grows freely and produces graceful flowers in abundance. Besides, the morning-glory in the house has the advantage of those grown outside, as the flowers remain open nearly the whole day.

WHEN a room is to have new paper, the old ought to be removed first. A boiler of hot water set in a room, and the doors closed for a while, will cause the paper to loosen, so that it may be taken off without difficulty.

The woodwork may then be cleaned easily while the dirt is softened by the steam.

ALWAYS boil macaroni, tapioca, etc., before putting them into the soup.

A LITTLE lemon juice stewed with prunes adds flavor.

SOAK gelatine in cold water. Dissolve it in boiling water.

DRAIN everything which is fried in deep lard on light brown paper before serving.

SCALLOPED oysters taste and look better when the cracker crumbs are moistened in melted butter.

A WET strip of cotton cloth put round an apple pie before baking keeps in the juices.

To test a baked custard, put a knife blade in it; it should come out clean.

SERVE melons always ice-cold.

TO PREPARE SALT FOR TABLE. — Dry the salt. To one-half teacupful salt, add one teaspoonful flour, roll out and mix thoroughly. This prevents the salt from sticking in the bottles.

TO REMOVE WHITE SPOTS FROM FURNITURE. — Take equal parts of spirits of turpentine and spirits of camphor. Shake till clear, and brush over the spots with a soft sponge. If necessary, rub with a little sweet oil, or any furniture polish.

To whiten laces, place them in sour milk and let them stand in the sun.

BEEF JUICE

CHOOSE a thick cut of fine, fresh, juicy "round" steak, without fat. Broil or sear it over the coals for only a minute, or long enough to merely heat it throughout. Cut it in many places, then put it in press, which should be first warmed, and squeeze the juice out into a warm bowl or pan. Salt juice slightly. It should be served immediately, free from all fat.

VANILLA

1-8 lb. vanilla beans
1 tonka bean

1 pint alcohol
1 pint water

Cut the vanilla beans up very fine, and put them and the tonka bean in the alcohol.

Leave them for one week, shaking every day. Then add the pint of water and leave another week then, if it is settled and clear, it is ready for use.

ON THE FEEDING OF YOUNG CHILDREN

WHEN planning the meals for the family table, it will well repay every mother with young children to give special thought to the demands of their rapidly growing bodies. A mother should seek to meet her child's early physical needs with as much thoughtfulness and enthusiasm as she seeks later its moral and intellectual advancement. Indeed, a mother may well feel that in properly nourishing her child's body she is directly contributing to its higher development. Yet, notwithstanding the interest and importance that attach to this subject, in how few families are children rightly fed! Their diet is either meagre, or they are allowed to eat like their elders. What children are to eat for breakfast, dinner, and supper should never be left to chance.

The dinner should be planned with reference to the breakfast, and the meals for to-day varied from those of yesterday. In order that children may have simple and nourishing food, it is often necessary to prepare for them special dishes. This should not be thought too much trouble or too large an expense. Even a mother who keeps no maid in the kitchen may, if she choose to make herself intelligent in these matters, easily provide a suitable diet for her children. Eating between meals should not be allowed. The eating of candy is most destructive to good digestion. If sweets are craved, a

block of pure sugar may be given at dessert. This is not too severe a rule. Trial proves that children are satisfied with right living when not led astray by the weak and ignorant indulgence of their parents.

When a child first comes to the family table, a little firmness on the mother's part will be required to discourage it from asking for dishes not its own. This firmness should be exercised without hesitation. As has been said above, it is easy, with a little painstaking, to interest a young child in its own well-being. What it at first accepts in obedience to its mother becomes later the child's choice and a habit of self-control. It is most important, too, that the child be taught *how* to eat. To do this will require no small amount of supervision and patience. It must be taught first by example, and the example should be supplemented by the social and physiological reasons for eating properly. Thorough mastication of solid food must be insisted on, and milk and broths should be sipped from a spoon. Milk, when taken rapidly into the stomach, forms a hard curd difficult for the stomach to break up and digest.

Baker's crackers and baker's bread, on which so many children are largely fed, are almost the worst of foods for them, as, in addition to being deficient in nourishment, they often contain ammonia or alum, on which their lightness depends. Home-made white-flour bread is also deficient in nourishment, and should be allowed only as a change from coarse bread. Bread and crackers made from whole-wheat flour, and cornmeal bread are suitable breadstuffs for children.

Starchy foods, as rice and potato, should be given sparingly.

Thoroughly cooked crushed oats, wheat and barley, gluten and wheatena, are the best of breakfast dishes for children. A saucerful of one of the above-mentioned cereals, with coarse bread, milk, and a baked apple, makes a simple, nourishing breakfast. Plain soup, lamb, beef, or chicken, roasted or broiled, with potato and one other vegetable, such as either spinach, asparagus, squash, peas, beans, cauliflower, green corn grated, and stewed celery, may form the dinner. Fresh fish, as cod, haddock, or halibut, is nourishing and useful for variety. An egg lightly boiled, or a plain omelette, may also be used as an alternate with cereals at breakfast. The supper should consist of milk and coarse bread and butter, or the bread may be made into milk-toast. Ripe fruit may be given at breakfast and dessert. If pudding or cake is given at dessert, it must be of the most simple character. The writer believes neither puddings nor cake to be necessary for a child's present happiness or future welfare. No condiment but salt should be used. Water, if possible either filtered or spring water, should be the only drink.

The diet laid down here applies only to children of from three to four years of age and upward.¹ The mother who desires a sound physical development in her children keeps them to a plain, nourishing diet until at least maturity is reached.

FRANCES FIELD ABBOTT.

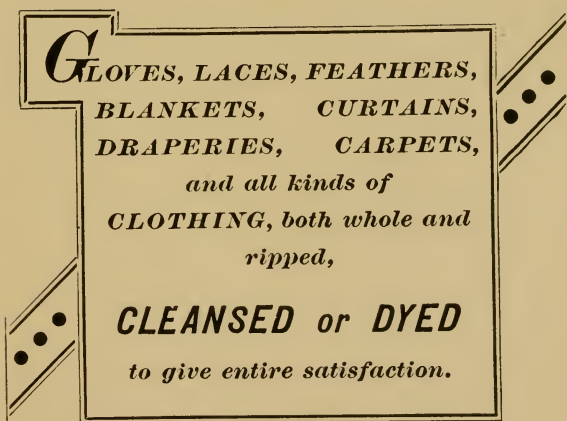

¹ This is much too generous a diet for younger children. Milk, coarse bread, cereals, broths, and eggs should form the staples of a child's diet from infancy up to three and a half years. Some fruit may also be given. In most cases underdone roast lamb, beef, and chicken, minced fine, and baked potato may be used sparingly after the age of two years has been reached.
