* A WINTER GARDEN *

of Beautiful and Fragrant Flowers in Great Variety.

THESE Winter and Spring flowers known mostly as Dutch Bulbs, and comprising Hyacinths, Narcissus, Tulips, Crocuses, Lilies, etc., can be started in pots in September and October and will produce flowers of delightful fragrance and brilliant colors continuously all Winter long.

A Spring Garden

in the most gay and varied colors may be grown from the same classes of dormant bulbs if planted out of doors in the Autumn; they are perfectly hardy. Our book "Flower Bulbs," which we send free for the asking with all orders amounting to \$1.00 and upwards, gives complete and reliable instructions how to plant and grow them.

Fall Planting

is desirable for many plants, fruits and flowers, making often a gain of nearly a year in their flowering and fruiting season. Asparagus, Strawberries, Pæonies, Lilies and many others which we refer to herein should be planted in the Fall.

BUSINESS RULES—PLEASE READ CAREFULLY.

How to Order.—We do not send seeds, Plants or Bulbs C. O. D. Write your Name, Post Office, State and your Express Office plainly with black ink, on every order and every time you write to us. Give plain shipping directions; where none are given we use our best judgment, but it must be at your expense and risk.

Prepaid.—Prices given in this catalogue usually include prepayment by mail on **Bulbs and Plants** (not tools, unless so marked) *except* where offered "by express," or marked otherwise then the purchaser is to pay charges.

Remember, sometimes in the busiest season others may have orders ahead of you, which must be filled in rotation. Order early.

Cost of Remitting.—Our customers may select additional bulbs FREE, with every order of \$1.00 or more, to the amount of the cost of the money order, registered letter, or other remittance.

Very Important.—You can greatly aid us by using Order Sheet, as follows:

1. Place the quantity wanted before each article.
2. Use one line for each kind ordered.
3. As nearly as possible make out your list in the same order in which the goods are catalogued, beginning at the front.

Prompt Delivery.—If goods are not received in a reasonable time, send exact copy of order, date sent, stating amount of enclosure, kind of remittance (draft or money order) and the same will be investigated.

How to Pay.—Send cash with order (as we do not open book accounts for small amounts, and can only send to value of money received) by New York or Chicago Draft, Registered Letter, Money Order, Express Order in any of these ways at our risk. Postage stamps in small amounts are taken as Cash, but they must be sent so they will not stick together. Registered letters are generally very safe and you can send that way from any postoffice and get our receipt by return mail. *Postal Notes are not safe.*

Errors.—If stock is not as expected, compare with order, read catalogue rules carefully and if we are in the wrong write us at once, giving all particulars as in paragraph above, but do not complain to others until we have had a chance.

Time of Sending.—Not all Fall Bulbs are ready at the same time, but nearly all of the Dutch and French importations are in the store by September 15th. The following table gives approximate dates of arrival.

Sept. 1st, Liliun Candidum, Roman Hyacinths, Liliun Harrisii, Freeseas, Paper White Narcissus. Sept. 15th, Hyacinths, Tulips and other Dutch bulbs, Callas. Oct. 20th, full supply of Lilies, Chinese Narcissus, Dahlias, Pæonies and Gladiolus. Nov. 10th, Spiræa and Lily of the Valley, new crop of Tuberose.

Unless otherwise stated by our customers, we always forward such Bulbs as are ready on receipt of order, and the balance as fast as the different kinds arrive. If other arrangements are desired, please to so state at the bottom of the order.

The Hyacinth has been a popular flower for centuries, and no flower among all those that help to make the garden bright is deserving of greater popularity, all things considered. It has the merit of being beautiful and easy of cultivation—qualities which commend it to the amateur strongly. It blooms early in the season, remains a long time in flower, ranges through so many shades of rich and delicate colors that all tastes can be suited in this direction; they have a delightful fragrance which is sufficient in itself to make it a general favorite. It is without doubt the best of our hardy spring bulbs for general use. Varieties marked thus (*) are best for growing in water. The single varieties usually give best satisfaction.

MIXED HYACINTHS.

Add 1c. per bulb or 12c. per dozen for postage.

Our Mixed Hyacinths are excellent for culture in the house or for growing in beds on the lawn. They are particularly adapted for cutting. For ribbons or other effects secured by contrasts of color we recommend the separate shades, such as light blue, rose, etc., which are greatly adapted for ribbon beds, etc. We recommend the single varieties as they usually produce finer spikes of bloom than the Double. *Note greatly reduced prices.*

SINGLE DUTCH HYACINTH.

ROMAN HYACINTHS.

If to go by mail add 8c. per doz. for postage.

There are no more popular winter blooming bulbs than Roman Hyacinths. They are certain to bloom in the house and may easily be grown by the most inexperienced in pots of soil, or in water and pebbles. They are not hardy north of Washington, D. C. Planted in September, they flower at Christmas or sooner; a succession can be kept up by potting bulbs at intervals. When the bulbs are planted, set away in a cellar or other cool location until vigorous root growth has been made. Three bulbs can be planted in a 5 inch pot. Most bulbs throw up from 3 to 5 spikes of bloom, which do not all come to perfection at the same time, thus prolonging the flowering season. We import Roman Hyacinths in immense quantities from the South of France, which enables us to supply the very best bulbs. The flowers are dainty, graceful and delightfully fragrant.

Pomponne or MINIATURE HYACINTHS.

ALSO CALLED "DUTCH ROMANS."

These little Hyacinths are excellent for growing in pots, pans or boxes; they bloom very freely, often producing 3 or 4 spikes. They are equally desirable for culture out-doors; they should be planted closer together than the "Dutch Hyacinths." Culture is the same as recommended for the Roman Hyacinths, and they come into bloom after the Roman Hyacinths are exhausted. The flowers are red, white and blue in various shades.

Price: White, Red, Rose and Blue or all colors mixed, Each, 4c.; 3 for 11c.; doz., 33c., by mail, 40c. Per 100, by express, \$2.10.

DON'T FAIL TO INCLUDE IN YOUR ORDER SOME OF THE NEW PURE WHITE FREESIAS, "THE BRIDE." See front cover for description.

OUR SPECIAL "White Dove" Collection FOR CEMETERY PLANTING.

178 choice Bulbs for only \$2.00, postpaid. One-half of this Collection, \$1.15; postpaid.

We frequently have call for a collection of bulbs suitable for planting on a grave, such as will live for a number of years without any particular care and produce a profusion of flowers every spring. To meet this demand we have made up the very fine assortment of varieties mentioned below, and offer the collection of 178 bulbs for \$2.00, postpaid. These are all first size, large flowering bulbs, and will give excellent satisfaction. Full cultural directions with each order.

"WHITE DOVE" COLLECTION.

- 100 Crocus, large flowering, white.
- 25 Tulips, single, large flowering, pure white.
- 25 Narcissus, Poeticus (Pheasant's eye). This is one of the most fragrant of Daffodils; beautiful white flowers with small yellow cup, with a distinct rim of scarlet.
- 12 Hyacinths, pure white, single large flowering.
- 12 Snowdrops.
- 4 Lillium Candidum. The old fashioned pure white Garden Lily, also known as Easter Lily and Annunciation Lily. One of the hardiest. Flowers, snow-white, with heavy yellow stamens and sweetest fragrance. Bears from five to twenty blossoms.

TWINING HYACINTH.

A rare and curious bulbous plant suitable for winter blooming and for out door culture. It throws up a flower stem which twines like a vine and produces at the end of the same large umbels of pretty rose colored flowers. Each, 10c.; 3 for 25c.; doz., \$1.00, postpaid.

GRAPE HYACINTH.

Not nearly as well known as it should be. It is perfectly hardy and increases rapidly. The flowers consist of little bells so arranged on the spikes as to resemble a bunch of grapes. It has been called the "Blue Lily of the Valley" and when planted with that popular flower the effect is very pleasing. Is very valuable for winter blooming in pots; 5 or 6 bulbs in a 5 inch pot.

Sky Blue, 2 for 5c.; 12 for 17c.
Snow-White, new, very pretty, 3 for 10c.; doz., 27c.

SPECIAL OFFER: We will send three each of the above for 15c, postpaid.

Single Early Tulips.

SINGLE TULIPS

The Tulip, for its gorgeous colors, its pretty cup-like shape and its early flowering, is one of the oldest Spring favorites; planted in beds or borders, it is unrivaled for brilliant effect. As with most flowers, single varieties succeed better than double when forced; for this purpose they should be planted as early as possible; they need not be buried in ashes or earth like the Hyacinth, but should be kept in a cool, dark place until well started, after which the same treatment applies to both. The single dwarf Duc Van Thol varieties are especially adapted to forcing, and can be brought into bloom by January. For out-door planting, bulbs should be selected which will bloom about the same time, and as with the Hyacinth, they will be more effective if massed in contrasting colors. Plant four to six inches apart and four inches deep, and cover with a few inches of straw or dry leaves. When in bloom the bed should be protected from rain or frost. Our list comprises the choicest sorts for general culture. The number preceding the name of the variety denotes the height in inches, an advantage that will commend itself to those of our customers who plant borders, etc., requiring uniformity in this respect, while the letters *a* and *b* indicate their earliness of bloom; the *a*'s flower together and are the earliest, the *b*'s flower together but are somewhat later.

The prices for single bulbs, include postage paid by us; the dozen and 100 rates are by express at purchaser's expense. 25 bulbs at 100 rate. If by mail add at the rate of 5 cents per dozen for postage. We supply 4 of a kind at the dozen rate.

PARROT TULIPS.

A bed of these when in bloom is a grand sight, paying a hundred fold for all the care bestowed upon them. The flowers are of great size and are remarkably showy with their corrugated and toothed petals. The color is a combination of crimson and golden yellow, streaked and edged with green, resembling the plumage of a Parrot, whence these Tulips derive their name. They are especially recommended for out-door planting in large quantities. We make the prices low. The rates for single bulbs include postage; price per 100 is by express at buyer's expense. 25 at the 100 rate, by mail, 5c. per doz. for postage.

FLOWER BULBS AND HOW TO GROW THEM.

The entire field of flowers produced from bulbs is covered in this work giving as it does among other things, the proper period at which they should be procured and planted, the most suitable soil, location and position of beds, protection in winter, etc. Price; 25 cents.

DOUBLE EARLY TULIPS.

Double Tulips have massive flowers of brilliant and beautifully diversified colors, and are very effective in beds on lawns, terraces, etc. Planted in groups of five or more, they are very attractive. The varieties marked "early" are valuable for bedding with the early single Tulips as they flower about the same time, and carry on the succession to the "late" Double Tulips. By a judicious selection, therefore, a display of brilliant colors may be maintained in the garden for a long period. In beds or large masses, Rex Rubrorum, scarlet, assorted with La Candeur, white, produces an unrivalled effect in the spring flower garden. Double Tulips are also very good for pot culture treatment same as for Dutch Hyaciuths. See inside cover page.

NEW "DARWIN" TULIPS.

These splendid May-flowering Tulips are the grandest bedding Tulips in cultivation, growing 20 to 24 inches high, with strong stiff stems. All possible colors will be found in the mixture, many of which appear in no other Tulips. They vary from rose to deep red, light blue to deep violet purple, and from delicate brown to true BLACK. In our estimation the Darwins possess the highest present value of any class of bulbs for the garden, flowering when no other flowers can be seen.

DARWIN TULIPS, Fine Bulbs, Mixed, price, 3 for 15c.; 6 for 25c.; 12 for 40c., postpaid. 25 for 60c.; 100 for \$2.00, not prepaid.

SINGLE LATE TULIPS.

These Tulips produce very large flowers, marked and variegated in the most singular manner. As their season of bloom follows the early sorts, they are valuable to keep up a continuous display and extend the season.

BIZARRES. Yellow ground, feathered crimson, purple or white. 3 for 10c.; doz., 25c.; 100, \$1.60; per 1000, \$11.00.

BYBLOOMS, Tall and brilliantly variegated; white ground, flaked lilac, purple or black. 3 for 10c.; doz., 25c.; per 100, \$1.60; per 1000, \$11.00.

ROSES, white ground, shaded rose, tall, very showy; bloom in May. Fine mixture, 3 for 10c.; doz., 30c.; 100, \$1.75; per 1000, \$11 50.

Single Late Tulips, all the above named varieties and many more in splendid mixture, 4 for 10c.; doz., 25c.; 100, \$1 35; per 1000, \$9.75.

PEACOCK TULIP.

One of the finest Tulips for pot culture. It is the earliest Tulip to bloom and one of the grandest in cultivation. The flowers are very large and of a clear, transparent brilliant scarlet, with a golden band through three of its six petals and a large jet black center which is bordered with a pure golden yellow; the tips of the petals are white. A magnificent sort. Each, 10c.; 3 for 25c.; doz., 85c.

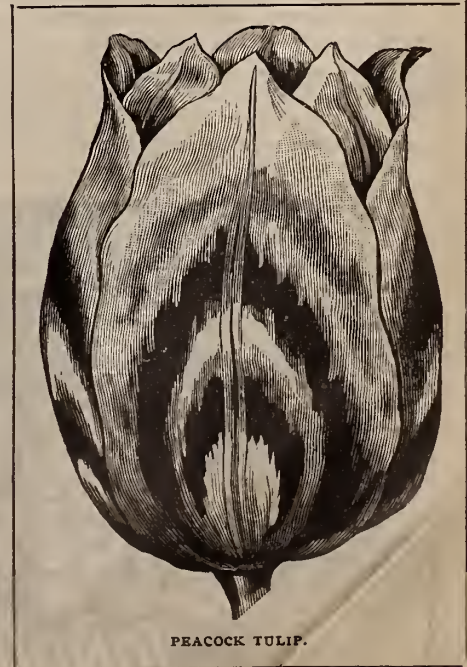

VARIOUS ODD TULIPS.

Florentine, fine yellow with a delicious violet like fragrance. Each, 5c.; doz., 50c.

Gesneriana, large brilliant scarlet, with blue center. 3 for 10c.; doz., 30c.; 100, \$1.75.

Greigi, the grandest of all Tulips. Brilliant orange, scarlet with yellow and black center, foliage spotted maroon. Each, 20c.; 3 for 50c.

Oculus Solis, crimson, with black center. Each, 5c.; doz., 45c.

PEACOCK TULIP.

NARCISSUS OR DAFFODILS.

PERFECTLY HARDY--DELICIOUSLY FRAGRANT.

DAFFODILS are the most graceful and beautiful of all hardy Spring flowers. They succeed equally well indoors or in the open ground, and furnish an abundance of decorative material for the table, as the flowers, when cut in bud state, develop their full beauty more perfectly than if allowed to bloom on the plants. The bulbs require similar treatment to the Hyacinth (see inside cover page), both as regards culture and after treatment.

Our list is made up of the finest and most distinct varieties, and such as will give excellent results with ordinary culture.

SINGLE TRUMPET DAFFODILS.

Single Bulbs are sent free by mail. If desired by mail add at the rate of 10 cents per dozen for postage. We supply 6 Bulbs of any one kind at the dozen rate.

Silver (Sulphur) Phoenix, very large flowers of pale creamy white shading to primrose, each, 15c.; doz., \$1.60.

VON SION.—The grand old-fashioned double yellow Daffodil. Very hardy outside and blooms freely in pots in the house. Everybody should plant this one, sure to bloom anywhere and everywhere, per 100, \$2.00; each 3c.; doz., 30c.

Double Daffodils, mixed, 3 for 6c.; doz., 20c.; 100, \$1.35.

CHINESE SACRED LILY OR JOS FLOWER.

This is a species of Polyanthus Narcissus annually imported from Northern China, and prized for the abundance of flowers. Produces very large bulbs, measuring from 12 to 18 inches in circumference, which throw up from 5 to 10 flower spikes, bearing clusters of large, perfect waxy white blossoms with yellow center of a most delicious fragrance. They grow well in pots in a light and sandy soil, but the most successful way of cultivating is as the Chinese do—in water. Flowers freely and can be planted at any time from October until March. It seldom fails, even with the most careless cultivators and, taken all in all, the bulb is like the nation from which it comes, a remarkable one.

Price, Large Selected Bulbs. Each, 12c., 3 for 30c.; doz., \$1.15. If to go by mail, add 3c. per bulb or 35c. per dozen for postage.

MAMMOTH BULBS.

We have secured again this year a limited number of these very large bulbs, which until recently were not permitted to be exported, but were sent to Peking for the use of the richer classes—we advise early orders to secure them. If sold out of Mammoth Bulbs we shall send selected bulbs for the amount of remittance unless specified otherwise by our customers.

Price, 20c. each; 3 for 55c.; doz., \$2.00. If to go by mail, add 5c. per bulb for postage.

CHINESE SACRED LILY.

POLYANTHUS NARCISSUS.

If to go by mail add at the rate of 20 cents per dozen for postage.

These varieties all bloom very early, the flowers are borne in bunches or clusters on a single stem, and are exceedingly fragrant, may be grown in bowls or glasses under same treatment as for the Chinese Sacred Lily, in fact, such varieties as **Double Roman** and **Grand Soleil d'Or** are sometimes sold under the name of **Double Chinese Lily** and **Golden Chinese Lily**. The Polyantha varieties are also quite valuable for growing in pots—succeeding with every one under most ordinary conditions.

NEW LARGE FLOWERING PAPER WHITE NARCISSUS.

This is a new strain, producing much larger flowers, and blooming somewhat earlier than the old variety. It is a desirable sort for house culture, a vigorous grower, and may be brought into bloom in a bowl of water in the same manner as the ever popular Chinese or Sacred Lily. The Paper White Narcissus flowers are fully as fragrant and produced in greater abundance than those of the Chinese Lily, but the spikes are not so numerous. Each, 5c.; 6 for 25c.; doz., 40c., postpaid. Per 100, \$2.00.

DOUBLE ROMAN, one of the best for winter blooming. It is like other Polyanthus but the flowers are double. The color is white with a delicate yellow center and the flowers are very fragrant. It is early and sure to bloom, each, 3c.; doz., 25c.

Miscellaneous BULBS. GENERAL LIST.

BULB CULTURE.—It would be impossible in the small space of a catalogue page to give adequate instructions on growing bulbous plants; we therefore publish a complete little book entitled *Flower Bulbs and their Culture*. This we supply entirely free with any order for bulbs amounting to \$2.00 if requested at the time of ordering, otherwise we send it for 25 cents, postpaid. Very valuable hints on all varieties in general cultivation are given.

All Bulbs are sent by mail postpaid, unless noted.

ALLIUM.

NEAPOLITANUM.—It is not hardy, but for pot culture has few equals. Five or six bulbs put into a 5 inch pot in September will reward the cultivator in December or January with immense heads of white flowers which last several weeks. These flowers are free from the disagreeable odor peculiar to other Alliums, unsurpassed for bouquets. Large Bulbs, each, 3c.; 4 for 10c.; doz., 20c.

A bed of *Lilium Auratum* (Gold Banded Lily of Japan) planted in the fall will make a grand show the following spring. See page 13.

AMARYLLIS

Johnsonii. (*Spice Lily*).—Undoubtedly one of the grandest bulbs for pot culture. The immense trumpet-shaped flowers which measure from six to eight inches across are borne on strong, fleshy flower spikes, and are of rich deep velvety crimson, each petal having a broad white stripe, contrasting beautifully with the deep red color.

We have imported this year from the Bermuda Islands a large stock of choice large bulbs which are sure to bloom and give genuine satisfaction. See illustration on back cover page. Large bulbs, each, 40c.; 3 for \$1.10.

Belladonna Major.—(*Belladonna Lily*.) This is an autumn blooming variety of great beauty and fragrance; color delicate white, flushed and tipped with rose. The spikes bear from six to 10 flowers. Each, 30c.; extra large bulbs, 50c., postpaid.

Equestris.—(*Barbadoes Lily*.) Broad petal of a soft salmon scarlet color, marked in the center with white bars which radiate from the white throat. Each, 20c.; 3 for 50c.

Formosissima.—(*Jacobæan Lily*.) Beautiful trumpet-shaped flowers of a rich, dark scarlet; forces well and can be grown in water like Hyacinths. Each, 15c.; 3 for 35c.

ANEMONES.

Very beautiful flowers, the single varieties being most brilliant. They are not quite hardy; planted from October to November they will bloom in the early spring but need covering with litter during winter for protection. Can also be had in bloom in April in the house by having a few pots in a cool room. Prices include postage.

SURPLUS BULBS At Less Than Wholesale Prices.

Delivered in November and December.

When placing our orders with the growers of such bulbs as we import, it is almost an impossibility to estimate definitely the probable quantities we will dispose of, hence, before the close of the season we find our stocks of some varieties exhausted, usually however, we have a surplus of almost everything. To quickly dispose of such after our busy season is over, we will make the surplus stock into generous collections, worth at regular rates two or three times the price now charged. These assortments will not be sent until November and after, but orders will be received now, booked, and filled in rotation.

Surplus Bulb Collection M, for indoor culture, 50c., postpaid.

Surplus Bulb Collection N, for outdoor planting, 50c., postpaid.

Surplus Bulb Collection O, for indoor and outdoor planting combined. This collection contains such a liberal quantity that it is sent by freight or express at purchaser's expense. Price, \$2.00.

ARUM SANCTUM.

AMARYLLIS BELLADONNA MAJOR.

Calochortus.

Mariposa or Butterfly Tulips.

A remarkably brilliant class of California bulbs with flowers in the richest combination of colors and markings, well deserving the name Butterfly Tulip. Not suitable for outdoor planting except in the South and Pacific Coast, but for winter blooming in the house they give great pleasure. Four or six bulbs are recommended for use in a five inch pot or box of suitable size. They are very easily grown, cared for in the same manner as Hyacinths in pots. When in bloom they are very showy and last a long time.

Mixed Calochortus.—Many beautiful sorts. 3 for 10c.; 6 for 15c.; dozen, 25c.

CALOCHORTUS.

THE WHITE CALLA LILY.

Everybody's Favorite.

This plant is almost an evergreen in Southern California, where it flowers everywhere in gardens and hedges in great profusion. We have thousands of bulbs grown for us there, healthy, and perfect in every way. This is the well known *Lily of the Nile* with large white flowers and strong broad leaves. It is a plant particularly valuable for parlor culture, as it will prosper under the most trying treatment. Furnace heated air and stove gas do not injure it, nor is the plant susceptible to insect depredations. Let the plant rest during the summer, by turning the pot on its side and start it again in September by repotting in fresh soil. Splendid bulbs.

BRODIAEAS. (Fire Cracker Plant.)

BRODIAEAS.

Bulbs from California having Lily-like flowers in umbels or clusters borne on slender but stout stems from one to two feet high. They are useful for winter blooming in pots, five or six in a five inch pot, or the dry bulbs can be kept over, planted out in spring and they will bloom freely in June or July. Prices include postage.

THE FLORAL FIRE CRACKER.

(B. CUCINEA.)

Those who admire unique and rare flowers will find them in this striking novelty. It is the most distinct of the Brodiaea family, specially adapted for a house plant. Flowers rich crimson with pea-green tip. Be sure to include this with your order—Each, 7c.; 3 for 20c.

Volubilis.—(TWINING HYACINTH.) Old variety with delicate, rose colored flowers. When in bud the stem twines like a vine, often attaining a height of several feet before the flowers unfold. Each, 10c.; 3 for 25c.; doz., \$1.00, postpaid.

Mixed Brodiaeas.—Containing above and many other sorts in great variety of colors. 3 for 7c.; dozen, 20c.

CROWN IMPERIALS.

CHIONODOXA LUCILLAE.

GLORY OF THE SNOW.

We find these bulbs are becoming very popular, and deservedly so, for their lovely blue and white flowers, produced in long sprays, are seen in the garden among the earliest spring flowers—sometimes even before the snow has disappeared. The bulbs are perfectly hardy and make a fine display when planted in masses outdoors. For window culture they are fully as charming as Freesias. They bloom very early, commonly by Christmas. Selected bulbs, 4 for 10c.; doz., 25c.; per 100, \$1.25, postpaid.

CROWN IMPERIALS.

An old time garden favorite. Once planted it will grow and increase from year to year. Plant as early as possible and about five inches deep.

Crown Imperials, mixed. Each, 12c.; 3 for 35c.; doz., \$1.30, postpaid.

WHITE CALLA, ETHIOPICA.

GLORY OF THE SNOW

CROCUS.

The hardiest and earliest of all Spring flowers, sending up its bright little flowers before the snow has fairly disappeared. They should be planted about 2½ inches deep and covered slightly during

Crocus bulbs should be planted as soon as received. Try them on the lawn where they bloom before the grass can be cut.

severe weather. Planted in clusters or borders, they are quite showy and increase from year to year. They will flower easily in the house, in moss, water or earth with the same treatment as for Hyacinths.

Prices on dozen include postage. If desired by mail add at the rate of 15 cents per 100 for postage.

MAMMOTH YELLOW CROCUS.

We have imported from Holland expressly for our retail trade a quantity of Mammoth Yellow Crocus. The bulbs are extra large and will come into flower very early. With the usual cultivation flowers of enormous size and in great profusion will result. A clump of these Mammoth Crocus when in bloom makes an attractive sight. Each, 3c.; doz., 20c.; 10c., \$1 00, postpaid.

...CYCLAMEN...

This well known free blooming plant is only adapted for house culture in our climate, but for winter flowering it has few superiors. Plant in September or October in 5 inch pot, using rich, light soil, and water sparingly until it begins vigorous growth, after which it may be treated like other house plants. Will give more flowers with less trouble than almost any other bulb we list.

OUR COLLECTION OF PALMS AND FERNS FOR HOUSE AND CONSERVATORY DECORATION IS ONE OF THE LARGEST IN THE COUNTRY—SEE PAGE 17.

FREESIAS.

These are among the most popular bulbs for winter blooming in the conservatory or window garden. The bulbs seem small in comparison with the foliage and flower spikes; the flowers are delightfully fragrant and after being cut and placed in water remain in good condition a long time. Four to six bulbs may be planted in a four inch pot. Growth commences at once so they need not be set away to form roots like Hyacinths. By planting early and at intervals a succession of bloom can be had from Christmas on.

NEW LARGE FLOWERING "THE BRIDE," Or Morris White.

SEE ILLUSTRATION ON FRONT COVER.

A California seedling with large pure white, substantial flowers of delightful fragrance. Very free blooming. Each, 4c.; doz., 35c.; 100, \$2.50, postpaid.

Refracta Alba.—Pure white with small yellow blotch on lower petal, remarkably fragrant and very lasting. Each, 3c.; 5 for 10c.; 12 for 20c.; 100, \$1.00, postpaid.

REFRACTA ALBA, Mammoth Bulbs. Supply Limited.

These are very fine bulbs and will produce much larger and more flowers than the ordinary size. Each season we are only able to secure a small supply of same, and orders should be sent in early to secure them. Each, 7c.; doz., 75c.; 100, \$5.00, postpaid.

SCARLET FREESIA. (*Anomatheca Cruenta.*)

Admirably adapted to pot culture, does not bloom so early as the *Freessias*, but resembles them in bulb, foliage and habit; the flowers bright scarlet with deep blotches. Each, 5c.; 3 for 12c.; doz., 45c.

GLADIOLUS FOR WINTER FORCING.

The varieties named below are invaluable for forcing in pots for winter bloom.

They are of very dwarf habit and three bulbs can be grown in a six inch pot. The spikes of bloom are good, and the colors are soft and delicate. Bulbs ready in November. Cultivate same as *Hyacinths*,

The Bride.—COLVILLI ALBA.) A light graceful variety having pure white flowers which are freely borne on long stems. It is coming more into favor as its good qualities become better known. Equally good for blooming in the open air. Each, 3c.; doz., 20c.; per 100, \$1.25, postpaid.

Colvilli Rubra.—Red, Each, 3c.; doz., 20c., postpaid.

FREESIAS.

FRITILLARIA MELEAGRIS.

Curiously shaped and spotted flowers, borne in clusters like a Crown Imperial. Quite hardy outside, or may be flowered in the house. Grows about 1 foot in height. 4 for 10c.; doz., 25c., postpaid.

IXIAS.

These are much admired for their brilliant colors and graceful flower stalks, which resemble a miniature *Gladiolus*. By reason of their curious forms and strange markings they attract attention, and wherever known they become universal favorites. For pot culture the treatment is the same as recommended for other bulbs. Set 6 in a 5 inch pot. They should be well protected if set outside.

Extra Mixed, each, 3c.; 4 for 10c.; 12 for 20c.; per 100, \$1.00, postpaid.

GLOXINIAS. One of the choicest bulbs for pot culture; flowers trumpet shaped, with the most beautiful tints and markings, shaded violet, rose, blue or crimson. Plant in a light soil of leaf-mold, sand and good loam; keep in a temperature of 60 to 80 degrees, and give an occasional watering with liquid manure during the growing period. Give plenty of light, but do not expose to the direct rays of the sun. Fine bulbs (ready by the end of October.)

Each, 15c.; 3 for 40c.; dozen, \$1.50, postpaid.

OXALIS.

Most of these *Oxalis* flower from October until Christmas, and later. They are very pretty, of easy culture, requiring only a good, somewhat peaty soil, with considerable light, under which treatment they will succeed well. Put 4 or 5 in a 4 inch pot. Charming for window boxes or hanging baskets. The following prices include postage.

Alba, White, ¼ doz., 8c.; doz., 25c.; per 100, \$1.50.

Deppei (*Tetraphylla*, or 4 leaved), deep reddish purple violet, a strong grower, flowering well, ¼ doz., 8c.; doz., 25c.; per 100, \$1.50.

Oxalis, mixed, many varieties. ¼ doz., 5c.; doz., 18c.; per 100, \$1.25.

ORNITHOGALUM ARABICUM, or Star of Bethlehem.

This is one of the most striking flowers. As an Easter decoration it is superb. Its immense spike of pure white flowers is simply grand. Bulb is large and solid closely resembling that of a *Hyacinth*, and requiring exactly the same culture. Flower spikes 18 to 24 inches high, strong and graceful, bearing an immense cluster of large, pearly white flowers, having a jet black center. The individual flowers keep perfect a long time before fading, so that for more than a month this grand spike of bloom is in full glory. It will grow in any position in any window. Plant in a 4 inch pot, or several in a large pot or box. For open ground culture they are also magnificent, and are hardy with slight protection. Each, 5c.; 3 for 12c.; doz., 40c. If by mail add 2c. per bulb, or 15c. per dozen for postage.

LILY OF THE VALLEY.

FRAGRANT AND LASTING.

Ready for delivery in November.

For Forcing and Making Plantations out of Doors. So universally known as to require no description. For out door planting Clumps should be ordered. For winter blooming in the house choose Pips.

CULTURE IN DOORS.

A moist atmosphere and abundance of water is indispensable to success in forcing Lily of the Valley; therefore, to encourage simultaneously the development of flower and foliage, place the pots in a shady, damp situation, or invert a flower pot over the Crowns till the flower and the foliage have made some progress, then they are removed to a less shady situation, or the pot can be removed from top of Crowns. If they are grown in a dry atmosphere, or get an insufficient supply of water at the roots, the Crowns, technically speaking, go "blind."

Culture out of Doors. Same as for Dutch Hyacinths. See inside cover page.

Large German Flowering Pips, 6 for 20c.; doz., 35c., postpaid. By express at buyers' expense, 100, \$1.50; by mail, \$1.75.

Large Clumps for out door planting, each, 30c.; doz., \$3.00, by express. If wanted by mail add 10c. each for postage.

DOUBLE RANUNCULUS

Curiously formed, tooth-shaped hulbs which produce flowers of handsome form and beautiful colors. Must be well protected to endure our Northern winters, but when in bloom they will repay the slight labor incurred. May also be grown in a cool room in the house. They are dwarf in habit and come in various shades and colors. Put 5 or 6 hulbs, *claws down*, in a 5 inch pot; culture as for Hyacinth.

French.—Large double flowers; rich colors.

Persian.—Very showy; double rose-shaped flowers.

Turban.—Hardier than the French Variety; Pæony shaped.

Any of above 3 for 10c.; doz., 20c.; 100, \$1.00, postpaid.

SPARAXIS.

Bulbs from the Cape of Good Hope having flowers of the loveliest hue and remarkable shadings; they are tigered, blotched and flushed in the most brilliant shades. Not hardy but do exceedingly well grown in the house under similar treatment to Freesias or Ixias. 4 for 10c.; doz., 20c.

SPRING SNOWFLAKE. (*Leucojum Vernum*)

A little later than the Snowdrop; very hardy little plants growing about nine inches high and bearing pure white flowers, somewhat resembling the Snowdrop. 3 for 10c.; doz., 30c., postpaid.

SPIREA, or ASTILBE. *Ready for delivery in November.*

If to go by mail add 10c. per clump.

Astiloides Floribunda, new, strong and more developed than the common Astiloides, from which it is a sport, produces large, pure white plumes and is unquestionably the best of the Spiræas. Price, each, 20c.; doz., \$2.00.

Japonica.—It is perfectly hardy though extensively used by florists for forcing, for which purpose the clump should be potted in the autumn, kept from frost, put away from heat until growth begins, then give water and warmth. Each, 10c.; doz., \$1.00.

Compacta Multiflora.—An indispensable sort for furnishing cut-flowers and far in advance of the old Japonica. Of very compact growth, foliage brilliant green, flowers feathery white in great panicles. Strong clumps, each, 15c.; doz., \$1.50.

IRIS. (*FLEUR DE LIS.*)

These grand old-fashioned flowers are now very popular. They are surprisingly beautiful and for cut-flowers are invaluable. An almost continuous succession of bloom may be kept in planting the following bulbous varieties.

SPANISH IRIS.—The earliest bloomer of all the Irises, and particularly recommended for culture in pots or in open ground as they are perfectly hardy. For pot culture use 5 or 6 bulbs to a 5 inch pot. Plant them abundantly in the garden. They will make a grand show. Mixed varieties in many colors, 4 for 10c.; doz., 25c.; per 100, \$1.00; by mail, \$1.25.

ENGLISH IRIS.—None the less attractive than the Spanish Iris, indeed, the colors of the large, handsome flowers are even richer; blue, lilac and purple shades prevail. The bulbs are hardy and are suitable for pot culture. Mixed varieties in many colors, 3 for 10c.; doz., 25c.; per 100, \$1.50; by mail, \$1.80. For Japan Iris, see page 19.

A bed of LILY OF THE VALLEY once planted flourishes with little attention, and gives a wealth of bloom every spring.

Selection of Hardy Lilies.

Lily Bulbs are ready about Oct. 15, with exception of *Harrisii*, *Candidum* and *Longiflorum* which are ready now.

A BED OF HARDY LILIES PLANTED IN THE FALL WILL MAKE A GRAND SHOW THE FOLLOWING SPRING.

AURATUM. GOLD BANDED LILY OF JAPAN.....

THE QUEEN OF LILIES.

Immense white flowers, each petal marked with a wide gold band spotted with maroon, very free blooming. It is considered by many the finest of them all. Fine Bulbs, 7 to 9 inches, each, 15c.; doz., \$1.50; extra large Bulbs, each, 25c.; doz., \$2.50. Mammoth Bulbs, each, 35c.; doz., \$3.50.

If wanted by mail add 2 cents each for postage.

Canadense.—This pretty Lily is one of our hardy native sorts, and bears a graceful stem of drooping, bell shaped yellow and red flowers. Each, 10c.; doz., \$1.00.

Superbum.—The finest of the native Lilies. Flowers bright orange red, thickly spotted with purple. Remarkable for immense height (often 8 feet), and profusion of bloom; a strong plant, bearing 20 to 30 flowers. Each, 10c.; doz., \$1.00.

Tennifolium. (Siberian Lily).—A native of Siberia. One of the very hardiest Lilies; flowers vivid scarlet, with petals reflexed; very showy and free flowering, blooming early in the spring. It is very easy of cultivation, requiring only a well drained, sandy soil. Each, 25c.; doz., \$2.50.

Tigrinum. (Single Tiger Lily).—Very hardy native Lily; orange red, spotted with purple black. Is very pretty and bears 8 to 20 flowers when well established. Each, 10c.; doz., \$1.00.

Tigrinum Flore Pleno.—(Double Tiger Lily).—Each, 12c.; doz., \$1.25.

SPECIOSUM SORTS. Hardy Japan Lilies....

As a whole, the most desirable section of all Lilies for general cultivation. The varieties are distinct graceful, beautiful and free blooming. They are hardy, needing little protection, will grow and flower without special treatment.

Album.—Pure white and very fragrant. Each, 25c.; doz., \$2.50, by mail add 2c. each for postage.

Rubrum.—White ground, with band and spots of rose or crimson on each petal. One of the best Lilies. Each, 15c.; doz., \$1.50, by mail add 2 cents each for postage.

EXTRA LARGE BULBS, each, 25c.; 3 for 60c.; doz., \$2.50, by mail add 2 cents each for postage.

E'S NOTES ON LILIES.—An interesting and valuable book on Lilies, growers. Illustrated. Cloth (215 pages) \$2.00.

This mammoth white Trumpet Lily, with flowers 4 to 5 inches long, is the best of all Lilies for winter forcing and flowering, because its grand, trumpet shaped flowers which give forth a delicious perfume, are wonderfully beautiful and expressive. As a pot plant it is tall and stately; the spike is thickly studded with bloom, which are lovely as cut flowers, and keep a long time in water. For blooming at Christmas it is best to order bulbs as soon as you receive this catalogue. We are having these bulbs grown for us in Bermuda on special contract, our importations this season amounting to nearly half a million bulbs, and we are happy to say that a better lot of bulbs we have not had than this year. Our customers will readily see the advantage we have over others who do not buy as largely as we do; the immense quantity we handle enable us to pick out the finest bulbs for our retail trade and to offer them at lowest prices.

PRICES: First Sized Bulbs, which should produce from 5 to 8 flowers. Each, 12c.; 3 for 30c.; doz., \$1.00, postpaid. By express, doz., 85c.; 100, \$5.50.

Extra Sized Bulbs, which should produce from 8 to 15 flowers. Each, 16c.; 3 for 45c.; doz., \$1.50 postpaid. By express doz., \$1.25; 25 for \$2.00.

Mammoth Bulbs, which should produce up to 20 flowers on a stalk. Each, 30c., 3 for 80c.; doz., \$2.75, postpaid. By express, each, 25c.; doz., \$2.35.

LILIUM CANDIDUM.

The old fashioned pure white Garden Lily, also known as Easter Lily and Annunciation Lily. One of the hardiest. Flowers snow white, with heavy yellow stamens and sweetest fragrance. Bears from 3 to 20 blossoms. This variety must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early blooming. The prices are lower than for many years, and bulbs very fine. Customers will do well to plant a bed of 25 or more for a permanent border.

Price, picked imported bulbs, each, 13c.; doz., \$1.35, postpaid. By express, 25 for \$1.40; 50 for \$2.25; 100 for \$4.25.

Mammoth Bulbs, extra heavy. Each, 25c.; 3 for 60c., postpaid. By express, each, 20c.; 3 for 50c.; doz., \$1.50; per 100, \$8.00.

LILIUM LONGIFLORUM

A variety bearing in clusters beautiful snow white trumpet shaped flowers of rare fragrance; almost exactly like *Lilium Harrisii* in shape, but blooms later, extending the season of that beautiful kind. Each, 15c.; 3 for 40c.; doz., \$1.25, postpaid. Mammoth Bulbs, each, 35c., postpaid.

SPECIAL OFFER: One each extra size bulb, *Harrisii* and Mammoth *Candidum* for 45c.; 7 each for \$1.25, postpaid.

LILIUM CANDIDUM.

LILIUM AURATUM. (Gold Banded Lily of Japan)

TUBEROSES.

EXCELSIOR PEARL.

This is a special Selection made for many years of the most dwarf double and full flowered spikes, and is exceptionally sturdy and dwarf in habit. Selling, as we do, over three-fourths of a million bulbs a year, we reserve for our catalogue trade very handsome and perfectly cured bulbs. Those who purchase our *Mammoth Excelsior Pearl Bulbs* will find them splendid bloomers.

Planted in pots and given a warm place in the house from October to January these bulbs will bloom during the winter. The flowers grow on stems 18 inches high, each stem bearing a dozen or more flowers. They are pure white, wax-like, double and very fragrant. The growing plant is fond of light and heat and should be given the sunniest place possible. The Pearl variety being dwarf is best suited for pot culture.

Mammoth Bulbs.—Especially selected for our retail trade; by mail, each, 7c.; 3 for 20c.; per doz., 60c.; by express, at purchaser's expense, each, 5c.; 3 for 15c.; doz., 50c.; 100, \$3.00.

First Size Bulbs.—By mail, 3 for 12c.; per doz., 40c.; by express, 3 for 10c.; doz., 35c.; 100 \$2.00.

SCILLA SIBERICA.

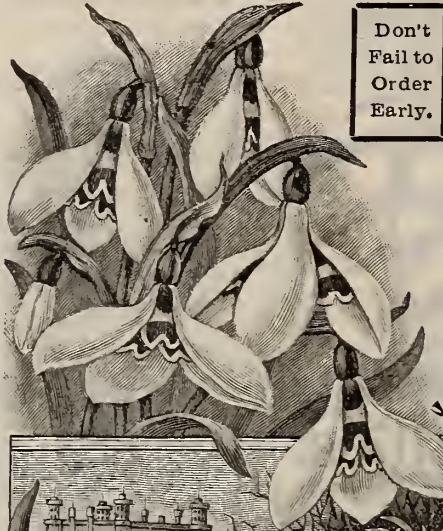

The Siberian Scilla, Squill has flowers of a lovely ultramarine blue color, borne in graceful spikes; in the house it blooms early like the Roman Hyacinths and forms a beautiful contrast with them. In the open ground they are quite hardy and are especially fine planted in small beds or with Snowdrops, and like them, frequently blooming before the snow has gone. Each, 2c.; 6 for 10c.; doz., 15c.; 100, \$1.25, postpaid.

SCILLA CLUSII, OR CUBAN LILY.

This is a large bulb which produces an enormous head of dark blue, star-shaped flowers, sometimes two feet in circumference, and as the flowers open gradually, their season of bloom lasts for a long time. Not hardy, but valuable for pot culture. It is a noble plant indeed, which should be grown extensively, as it surely will when it becomes fully known. Each, 12c.; 4 for 40c.; doz., \$1.10, postpaid.

SCILLA CLUSII.

Don't Fail to Order Early.

GIANT SNOWDROPS!

SNOWDROPS. (Galanthus Nivalis.)

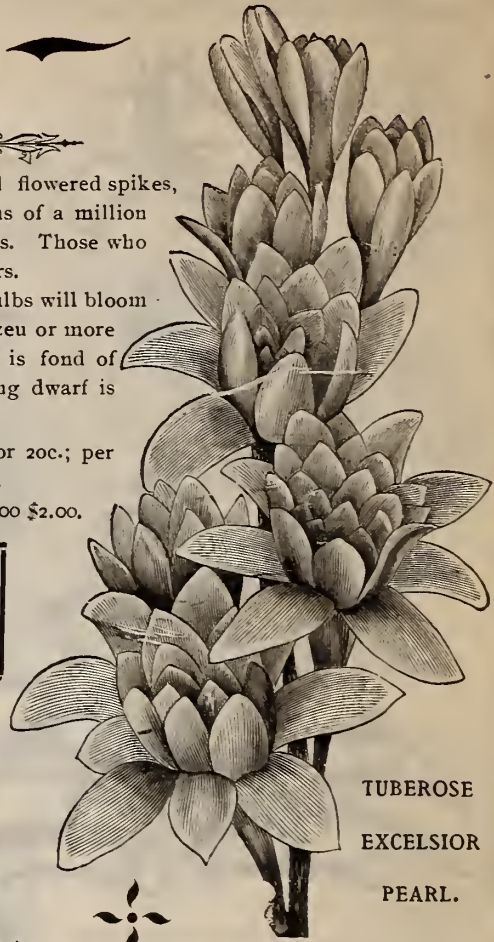

Among the earliest Spring flowers, bell-shaped, pure white with a small green dot on the top of each petal. Hardy. Plant in clumps and leave undisturbed for several years. By planting Snowdrops and Crocus together a pretty effect is produced, or Scilla Sibirica with Chionodoxa and Snowdrops arranged in a bed makes a pleasing combination. Prices include postage.

Single, per dozen, 16c.; 100, 90c. Double, per dozen, 26c.; 100, \$1 85.

GIANT SNOWDROPS.—Three times as large as the single Snowdrops; flowers slightly fragrant, borne on large stems and valuable for cut flowers. They do well in the house, blooming freely at the Christmas holidays. 6 for 11c.; dozen, 18c.; 100, \$1.25.

TROPAEOLUM TRICOLOR.

This is a tuberous rooted winter blooming Nasturtium for pot culture, which is one of the most charming window vines one can possess during winter. Pot bulbs in good soil and treat them like other winter bulbs. They are somewhat slow to start, but will after a while throw up little needle-like shoots, which should be supported on strings or trellises. After a short time they will develop beautiful tiny foliage, which will soon be followed by hundreds of brilliant flowers, scarlet, tipped with black and yellow—which keep perfect a long time. Each, 15c.; 3 for 40c. by mail, postpaid.

TUBEROSE
EXCELSIOR
PEARL.

TRITELEIA.

(Uniflora.)

A gem for either pot culture or out doors, being quite hardy. The bulbs are very small, each producing several pure white flowers which are lined with blue and slightly fragrant. They are sure to delight you, are of easy culture and sure to thrive. One of the best additions of many years. 4 for 10c.; doz., 20c.

GREENHOUSE PLANTS

It may occasionally happen when bulbs and plants are named on same order that bulbs will be sent immediately and plants a day or two later, direct from our greenhouses, Western Springs, Ill., fifteen miles from Chicago, therefore please do not become impatient if such be the case.

OUR shipments of plants (as well as bulbs) for winter blooming and the adornment of home or conservatory have grown to enormous proportions; to supply this, we make special propagations during the spring and summer, growing the plants in best possible shape for our mail trade. The plants we offer are such as may be grown in any ordinary parlor, sitting room or greenhouse where the night temperature will average 55 degrees. In the dreary winter days nothing so much adds to the charm of a window garden as a collection of plants, their handsome and elegant foliage makes a grand display even when the plants are occasionally out of bloom.

All plants here quoted will be supplied direct from our GREENHOUSES at Western Springs, Ill. Unless otherwise stated, all plants are forwarded by mail postpaid. Stock which is unavailable, and plants ordered by express, go at buyer's expense. Express rates on plants are reduced 20 per cent.

LARGE FLOWERING CHINESE PRIMROSE.

BEGONIA THURSTONI.

UMBRELLA PLANT.

CHINESE PRIMROSES.

Brightest and best of all the easily grown free flowering window plants. The single varieties bloom more freely than the double, and small plants produce a wealth of flowers. Should be grown in a cool place, a north window is suitable. Our plants are of the largest flowered class and can be supplied in separate colors, red, pink, white and crimson. Each, 15c.; 1 of each, 40c.

Primula Obconica.—Small lavender colored flowers in large clusters. Plants always in bloom and at all times attractive. Each, 15c.; 2 for 25c.

UMBRELLA PLANT.

Cyperus Alternifolius.

As decorative as a Palm; thrives excellent in soil or water. Hardy, useful and beautiful window house plant for all seasons. Each, 15c.; Extra size, 30c.

BEGONIAS.

Of easy culture, handsome foliage and lovely flowers. The four grand Begonias named below are distinctly **winter bloomers**, and if you have no other window plants the coming winter than these, your living rooms will be attractive. Do not over-water, but occasionally spray the under side of the leaves, and keep the dust from the surface.

THURSTONI.

A beautiful stately plant with remarkably handsome foliage. Flowers rosy white, in large clusters. The plant has a fine habit and grows very rapidly as a pot plant. Each, 15c.

Metallica Velutina.—Different from all others. Foliage dark, velvety; bronze green above, under side reddish brown; beautiful pot plant. 10c.

OTTO HACKER.—Stiff, upright habit, with large, dark green leaves. Great drooping clusters of coral flowers, produced in bunches of 25 or more. Each, 20c.

Rubra.—One of the finest shrubby Begonias in cultivation. Has dark glossy green leaves and scarlet rose flowers produced in abundance. Stout, upright habit. Each, 10c.

GIANT CYCLAMEN.

Flowers extra large size, on short, stout stems, foliage handsome. No better plant for pot culture the whole secret of growing them being air, light and low temperature. Strong growing plants, each, 25c., postpaid.

CALLA.

Little Gem, or Miniature, True.

The plant is a miniature form of the old-fashioned Calla; a full grown specimen stands only 8 to 10 inches in height and is rarely without flowers; if grown until "pot bound" in 4-inch pots—they will bloom more readily. Each, 20c.

Asparagus Plumosus.

A beautiful climbing plant, with bright green, gracefully arched foliage; surpassing maiden hair Ferns in grace, delicacy of texture and richness of color. One of the most beautiful of decorative house plants. Each 20c.

Pontiac, Ill.—The plants which I received from you this fall are all doing nicely. My Chrysanthemums are doing fine, nearly all of them being budded. The plants that I received from other houses live awhile and then die, yours do not.
Geo L. Bigelow.

CARNATIONS.

Admirable for winter flowers in the house. The flowers are fragrant and continue for a long time. The collection named below embraces six of the meritorious varieties and a full range of colors.

MINNIE COOK, variegated, **PORTIA**, scarlet, **TIDAL WAVE**, carmine pink, **ALASKA**, white, **ROSE QUEEN**, delicate pink, **WILLIAM SCOTT**, rose pink. Each, 15c.

SPECIAL OFFER: One each of the above 6 for 75c., postpaid.

AZALEAS.

Splendid winter flowering, shrubby pot plants for parlor decoration. The colors range from pure white to deepest crimson and are produced in great abundance. Imported plants ready in November, each, 90c. and \$1.15. Must be sent by express, too large to mail.

Abutilon, Souv. de Bonn.

Known as Flowering Maple. Splendid winter blooming house plant, large, bright green leaves with bright orange flowers. Each, 15c.

SPECIMEN CHRYSANTHEMUM PLANT.

GERANIUMS FOR WINTER BLOOMING.

Succeed well during winter and are of still more value when winter is past for Summer bedding.

Double New Life Geranium.

The sensation which the Single New Life Geranium created when introduced in England is well remembered. *The Double New Life*, as may be judged from our illustration, is a much greater sensational departure in every way. The outer florets are brilliant red, in the center of these appears another semi-double floret, pure white in color, effecting a charming contrast, difficult to realize unless seen, and having the appearance of being produced artificially. Each, 30c.; 4 for \$1.00.

MAD. BRUANT. Entirely distinct from all other Geraniums. Flowers single; white, veined with carmine lake; florets regularly bordered with bright solferino. The trusses are large and beautifully formed. This is one of the most distinct and beautifully colored Geraniums in existence. Each, 30c.; 4 for \$1.00.

Beaute Poitevine.—Bruant, semi-double type. Immense size flowers and trusses, beautiful shade of brilliant salmon shaded with apricot. Each, 15c.

Mrs. Parker.—The foliage is deep green with broad margins of pure snow-white. It is the most free flowering of any silver-leaved class, producing flowers of an exquisite shade of deep rosy pink. Each, 15c.

J. J. Harrison.—The best semi-double scarlet Geranium of any type ever produced, exceptionally large. Plant of vigorous growth and free blooming, the color is an admirable vivid scarlet. Each, 15c.

Mrs. Pollock.—Bronze, scarlet zone, fine. Each, 15c.

"WINTER GERANIUM SET" one each of the above six varieties for only 85 cents, postpaid.

FUCHSIAS.

MARENGA.—*New.* This grand variety is, without a doubt, the most desirable sort for hanging baskets. It is of neat, compact growth, not coarse, and very symmetrical. The habit is vigorous, with large healthy leaves. Corolla, dark amaranth red, single; sepals carmine. Each, 20c.

Farfugium Grande.—Leaves become immense; clear bright green, heavily blotched with golden yellow. We recommend it as a room plant. Each, 25c.

SURPRISE CACTUS COLLECTION.

We have many odd, rare and curious specimens of these plants, similar to those seen in the wonderful Cacti exhibits at the World's Fair, from which we will send 5 kinds, all different (our selection) postpaid for 50c.

MANETTIA VINE.—This pretty vine can be grown either as a house plant or in the garden and is a most prolific bloomer. Flowers coral red, ends of petals tipped golden yellow. Each, .0c

MUSK, Double Flowered.—The musk-like odor from the leaves and flowers is very powerful, a single plant scenting a large room. Each, 20c.; 3 for 50c.

WINTER BLOOMING NASTURTIUMS.

CARDINAL PRINCE.—Flower very large, orange and scarlet. Each, 20c.

Darkness—Brownish crimson; a very double flowered variety. Each, 10c.; 3 for 25c.

Ivy-Leaved.—Yellow, streaked red. Each, 10c.

One each of the above three, 30c.

"INDIAN SUMMER" CHRYSANTHEMUM COLLECTION.

This flower is certainly the queen of all showy floral displays. We make annually extensive exhibits in all the Western Cities, and for that especial purpose grow a large collection of the very best kinds for the purpose. The varieties below have been grown with and are a part of our own exhibition stock, and cannot be surpassed. We have been awarded more than fifty first prizes during the past two seasons for excellence of our pot plants.

Miss Agnes L. Dalskov.—Pink Ivory; the sensation of last year. A sport from IVORY, identical with its parent, except in color, which is a beautiful shell pink. The variety had a phenomenal sale in the New York market during the present season.

Paul Noisette.—(Or Yellow Ivory.)—This is one of the best varieties for pot culture or cut flowers, seldom growing in height over eighteen inches. Flowers of medium size and of a rich lemon yellow, slightly hairy. This will become as popular as the well-known IVORY.

Geo. W. Childs.—Deep, rich, velvety crimson, with no shade of brown or chestnut; a grand red sort.

Mrs. Jerome Jones.—The nearest to the true type of Chrysanthemum yet produced. Very large, cream white, sometimes showing a tinge of pink. The flower is high, rounded and full, with healthy foliage and stiff stems.

Ivory.—The flower is a perfect white ball of good size, incurved, borne upon long stems. Plant of sturdy habit, season medium early; especially desirable for amateurs as a grand pot plant.

May Williamson. *New.* This variety is perfection in its class of Pompon, or small-flowered. The flowers are perfectly double, round as a ball, 1 3/4 inches in diameter, pure snowy white, blooming in October and early November. The plant is a vigorous grower and produces buds in greatest profusion, flowers lasting a long time in perfection. Greatly admired at the Chicago Flower show last fall by all who saw it.

The above are large bushy plants in 4 inch pots and will be in bloom by November 1st. Each, 30c.; or the 6 grand sorts as above for \$1.50, by express only, too large to mail.

EXHIBITION PLANTS. We have in stock, coming on for November flower shows Specimen Plants ready from Oct 25, to Nov. 15, in 6, 8 or 10 inch pots at 75c., \$1.50 and \$3.00 each, according to size and varieties. Per doz., 10 per cent less.

CRIMSON SPIREA, Anthony Waterer.

It outshoes all Spires in brilliancy of color. A bright crimson. It is also much dwarfer and denser in growth; when scarcely three inches high it begins to bloom and thereafter is seldom out of flower. As a house plant nothing can equal it. In the garden it will make a plant three feet high and wide, and it will be covered with flower heads six inches apart. It is also perfectly hardy, and will stand the most severe winter with slight protection. Strong plants, each, 25c., postpaid.

JASMINES.

NIGHT SCENTED. (CRSTUM PARQUI.)—Beautiful white flowers in clusters in great profusion. Its fragrance is very powerful at night. Each, 15c.

Grand Duke.—Beautiful glossy foliage, and large, double, cream-white flowers. Very fine. Each, 20c.; the two sorts for 30c.

DOUBLE NEW LIFE GERANIUM

...PALMS...

AND DECORATIVE PLANTS.

Many of these very beautiful plants for room and window may be grown with ordinary care, not more than that usually given to a Geranium—beyond sponging the leaves once a week. Water thoroughly; less water is required in Winter than in Spring and Summer. For immediate effect use the larger size. These plants are in season for shipping the year round.

ARAUCARIA EXCELSA. (*Norfolk Island Pine*).—The most elegant of all Evergreens and one of the most scarce, decorative plants. Fine symmetrical form with deep green, feathery foliage arranged in whorls rising one above the other at regular distances. Each, \$2.50, \$3.50 and \$5.00, according to size.

ARECA LUTESCENS.—Leaves long and pinnate, the divisions very numerous; dark, glossy green leaves, with golden stems. Plants 10 inches high, each, 25c.; 18 inches high, each, 75c.

CYCAS REVOLUTA. (*Sago Palm*).—This is probably the most decorative plant grown, for lawn and house adornment. Small plants, 1 leaf, 50c.; 2 leaves, 75c.; 3 leaves, \$1.25; 12 leaves, \$7.50.

COCOS WEDDELIANA.

INDIA RUBBER TREE.

COCOS WEDDELIANA. (*Cocopalms*).—It makes an elegant house plant, with its slender, erect stem freely furnished with graceful, arching leaves of a rich green color. The dinner table on which this plant was used at the Chicago Flower Show, received first prize. 3 inch pots, plants 8 to 10 inches high, each, 75c.

KENTIA BELMOREANA.—All the Kentias are free from disease. Beautifully curved and reflexed leaves, deep green foliage, strong grower. Plants from 3 inch pots, 10 inches high, each, 75c.; 5 inch pots, 18 inches high, each, \$2.00.

LATANIA BORBONICA.—Of easy culture and rapid growth. Large, broad, fan-shaped, glossy, dark green leaves. 4 inch pots, 12 to 18 inches high, each, 50c.; large plants \$1.00, \$2.00, \$3.00 and \$5.00, according to size.

PANDANUS UTILIS. (*Screw Palm*).—A most valuable decorative plant from the East Indies, also one of our most useful ornamental plants, both for in and out-door culture. Each, 25c.; larger plants, 24 inches high, each, \$2.00.

PANDANUS VEITCHI.—Same habit and growth as Pandanus Utilis, except that the leaves are beautifully striped white and green. Each, 50c. and \$1.00.

Large Specimen Palms.

We have a splendid stock of extra choice, well grown Palms, including above and others, for specimens and decorative purposes. Prices from \$5.00 to \$50.00 each. Write for specimens and prices.

SWORD FERN.

RUBBER TREE.—Ficus Elastica.

The large, shining, green leaves endure the dry air of a living room as well or better than any other plant, this is why everybody likes it. Our plants are very fine. Plants 1 foot high, ea. h. 60c.; 18 inches high \$1.00; 2 feet, \$1.35; 2½ feet, \$1.70; 3 feet, \$2.25. These plants will be sent by express.

JARDINIERE Fern Collection.

Selected for their lasting, hardy characteristics as especially available for the table, sideboard or fernery.

Asparagus Tenuissimus.—A fine decorative plant of trailing habit. 15c.

Sword Fern.—A splendid sort. 20c.

Adiantum Cuneatum. (*Maiden Hair*).—Most beautiful of all Ferns. 15c.

Pteris Critica Albo Lineata.—A pretty and useful variegated variety. 15c.

Pteris Serrulata.—A well known and useful basket Fern. 15c.

Pteris Tremula. (*Shaking Fern*).—The foliage is large and very graceful. The slightest movement of the air shakes the leaves of this plant. It grows readily and very fast, making new fronds quickly after being cut. 20c.

Pubescens.—A useful basket variety. 15c.

Onychium Japonicum.—A most desirable species with very finely ovoided pinnae, and excellent for table decoration or exhibition purposes. 15c.

Selaginella Ameliana.—Stiff and erect fronds, 6 to 8 inches high. Plant useful for table decoration. 15c.

Jardiniere Collection of 9 Beautiful Ferns for \$1.00, postpaid.

Vaughan's Window Garden.

OUR OWN SPECIAL SELECTION OF THE BEST EIGHT.

Solanum Jasminoides Grandiflorum.—Most beautiful climbing and trailing plant. It has star-shaped flowers, something like a Clematis, borne in large clusters. In color they are pure white with a violet tinge on back of petals and on the buds; a free bloomer. 15c.

Phoenix Reclinata.—A strong growing form of the Date Palm, with dark green, glossy foliage; a most desirable variety. 25c.

Impatiens Sultani.—Good for summer bedding and pot culture in the window; constantly loaded with large, rosy-scarlet flowers. 15c.

Geranium, Happy Thought.—Yellow blotch in center of leaf, outer band of green at margin, flowers single scarlet. 10c.

Tradescantia Aurea.—Leaves marked with golden yellow. Splendid basket plant. 10c.

The Mexican Primrose.—As a window plant this combines great hardiness and ease of culture with beauty. It is strictly a perpetual bloomer, good specimens showing from 10 to 30 large, saucer shaped blossoms. 10c.

Pteris Tremula. (*Shaking Fern*).—The foliage is large and very graceful. The slightest movement of the air shakes the leaves of this plant. It grows readily and very fast, making new fronds quickly after being cut. 20c.

Ivy Geranium, Chas. Turner.—For general purposes and as a house plant there is not one in all the list of Ivy Geraniums that can compare with it. 15c.

For 75c. We will send the complete "Window Garden" Collection, one plant each of the eight varieties, labeled and carefully packed, postpaid; or you can make your own selection (from the collection only) at prices attached. **ORDER EARLY AND SECURE LARGE PLANTS.**

New Climbing Rose

Crimson Rambler.

Showing habit of growth of this wonderful climber and its adaptability to verandas, porches, etc.

We consider this the most wonderful of all the new Roses. We have had this summer, branches seven feet long loaded down with large clusters of these brilliant red Roses. One would hardly believe it possible to produce so many on one shoot. The plant seems to be as hardy as the Old Prairie Queen. Every garden should contain this grand Rose. After getting it into good growth, layers can be made in the ground and new plants rooted and grown on, readily producing a liberal supply.

Price: Strong grown plants, from 3½ inch pots, each, 25c.; club of 6 for \$1.25, postpaid.

Dormant Plants, 1 year, each, 35c.; 3 for 90c., postpaid.

Large Dormant Plants by express, this is the best size to give you good satisfaction, each, 50c.; 3 for \$1.25; 6 for \$2.50.

Showing single truss of the new hardy climbing Rose Crimson Rambler.

ROSES BY MAIL—PREPAID.

In this catalogue space is too limited to list the varieties we offer but our friends may rely on our experience and judgement that only the kinds most suitable for fall and winter blooming will be sent. In ordering customers are advised to name varieties they already have, so that we may send them different kinds. Not less than one dozen of a kind can be sent at these prices.

- Ever-Blooming Roses, assorted, finest varieties.....doz., \$1 00
- Hybrid Tea, assorted " 1 00
- Ever-Blooming Climbers " 1 00

LARGE ROSE BUSHES.

Field grown plants, 18 to 20 inches high to go by express (not prepaid).

Hybrid Perpetual Roses.—Most popular and hardy of all Roses. 12 splendid varieties, such as American Beauty, Ball of Snow, Capt. Christy, Fisher Holmes, Mrs. John Laing, Gloire Lyonnaise, Gen. Jacquemenot, Paul Neyron, etc. Each by express, 30c.; doz., \$3.00.

Hardy Climbing Roses.—Prairie Queen, Baltimore Belle, Seven Sisters, all well known. Large plants, each, 30c. The 3 varieties for 75c.

CLOTHILDE SOUPERT.

ROSES. SOUPERT COLLECTION.

NEW YELLOW SOUPERT "MOSELLA."

This lovely new addition to the Soupert family we imported from Germany last season. It has the genuine dwarf growing, free flowering Soupert habit. Produces beautiful clusters of very double, ball-shaped flowers which open like a Camellia. The buds are also very pretty. The color is a white tint on beautiful light yellow ground. A great addition to summer bedding Roses. Ea., 20c.; 3 for 50c., postpaid.

..... **CLOTHILDE SOUPERT.**

This now famous pot and bedding rose (*Polyantha Tea*) we imported and introduced in America in 1886. It is a cross of the free blooming Polyantha rose and large flowered tea, thus, giving it with all the free-blooming qualities of the former the stronger growth of the Tea class. Its charming coloring, shading from pearly white to palest rose, double blossoms delightful fragrance, wonderful vigor and freedom of bloom combine to make it a most beautiful Rose. We take pride in sending out only selected, strong plants which will be a credit to us as introducers of this great novelty. Extra fine 2½ inch pot plants, prepaid, 3 for 25c.; each, 10c. From 3 inch pots, each, 15c.; 4 for 50c. From 3½ inch pots, each, 30c.; 3 for 75c.

..... **"PINK SOUPERT."**

We find this bright, new rose, a very free-flowering variety, much resembling *Hermosa*, but more double and flowering more freely; it shows the *Polyantha* blood in the full cluster of bloom, and it will make a handsome contrast, bedded or grown with the *C. Soupert*. The habit of the plant is almost identical with *C. Soupert*, a rapid grower and quick to bloom. Each, 15c.; 4 for 50c., postpaid.

OUR.... One each of the White, Pink and Yellow Soupert for 35c. postpaid
OFFER: EXTRA LARGE PLANTS either kind, each, 50c.; the 3 for 75c., by express.

EVER-BLOOMING RUGOSA ROSES.

These are Japanese Roses white and red in color with beautifully netted foliage, very lovely. They flower in clusters and form large handsome coral red seed pods. Each, 35c.

PAEONIES.

Still the grand old favorites they were fifty years ago. Our stock consists of the newest French and Chinese varieties, with immense double blooms of the most intense yet delicate colors. The flowers are borne in the greatest profusion. For brilliant display of bloom during May and June there is nothing that will equal the Paeony. Paeonies are an investment that will increase in beauty and value for a life time. **If Planted in the Fall** plants will get well started and flower next Spring.

DOUBLE PINK, WHITE, CRIMSON AND SCARLET. Each, 45c.; 4 for \$1.50, postpaid.

NEW JAPANESE TREE PAEONIES.

These Paeonies attain a height of 4 to 6 feet, and when in bloom present a most gorgeous appearance. Flowers of immense size, very double and in great variety of color. We offer four distinct varieties in the following colors: Bright Rose, Pure White, Bright Red, Delicate Flesh.

Strong two year old plants, each, 75c.; or one each of the 4 colors for \$2.50, by express.

HYDRANGEA PANICULATA GRANDIFLORA.

Absolutely hardy. grow in any soil and bloom the same year they are set out, they flower abundantly, bearing immense panicles of bloom, white at first and turning to rose in Autumn. To make a fine specimen, the soil should be as carefully prepared as for any fine shrub. An annual shortening of branches tends to increase the size of the flowers. Each, 15c.; doz., \$1.25; extra large plants, 25 to 30 inches, each, 40c., by express.

CLEMATIS PANICULATA.

Grand new hardy Clematis; quickly covering trellises and arbors with handsome, clean, glossy green foliage. The flowers are of medium size, pure white, borne in immense sheets, and of a most delicious and penetrating fragrance. The flowers appear in September, at a season when very few other vines are in bloom. The extreme rapidity of growth, the showy foliage, beautiful and fragrant flowers and entire hardiness serve to make this one of the very choicest of recent introductions. **If planted early in the Fall** will be well started before cold weather, requires no protection. Price for plants from 2½ inch pots, each, 20c.; extra size, 50c.

CLEMATIS. Large Flowered.—Most beautiful, richly decorative summer blooming climber for porches and verandas. **Jackmanii**, choice imported strong plants, true, rich purple, each, 75c.

AMPELOPSIS VEITCHI.

Boston Ivy.

It clings firmly to the smoothest surface, covering walls, etc., smoothly with overlapping leaves, which form a perfect mass of foliage. The color is a fresh, deep green in summer, changing to the brightest shade of crimson and yellow in autumn. **When planting in the Fall** it will be best to cover them with straw through the first winter. Two sizes, each, 25c. and 40c., postpaid.

CHOICE FRUITS.

BISMARCK APPLE.—A dwarf growing, early bearing, German Apple, said to fruit the second year. No fruit beats the apple and much is claimed for this one by the German fruit growers. Small trees by mail, each, 30c.; 4 for \$1.00, postpaid.

BLACKBERRY, Eldorado.—Of largest size and best quality, and having so little core that it cannot be noticed in the eating. It far surpasses any Blackberry on the list to-day. In addition to this, it is very hardy and productive, never having been injured in the Northwest. Each, 15c.; doz., \$1.50; 50 for \$5.00, postpaid.

—) CURRANTS. (—)

If by mail add 25c. per doz. to price of 1 year old plants, 2 year old plants by express only.

North Star.—Vigorous, upright grower; fruit bright red and of most agreeable flavor. 2 year old plants, each, 40c.; doz., \$4.00.

Victoria.—Black Currant, splendid for preserves, jellies, etc. 2 year old plants, each, 25c.; 3 for 60c.

Red Dutch.—Old standard sort of which millions have been planted; very sweet and productive. 1 year old plants, per doz., 45c.; per 100, \$3.00.

—) GOOSEBERRIES. (—)

Should be sent by express. If wanted by mail add 3c. each to price of 1 yr. old plants, and 5c. to 2 yr. old plants.

Keepsake.—A grand new English variety. Fruit straw colored, of great size and finest quality. 2 year old plants, each, 35c.; 6 for \$1.75.

Industry.—The fruit is of largest size, pale red and very sweet. The plants are far stronger than the old English sorts. A well tried sort that does not mildew. 1 year old plants, each, 20c.; 3 for 40c.; doz., \$1.20; 2 year old plants, each, 25c.; 3 for 60c.; doz., \$2.00.

LOUDON RASPBERRY.—This is truly a large fruited kind; the largest red Raspberry we have ever seen. Another good point should be remembered by those about to plant berries—it is an almost everbearing variety. Each, 15c.; 6 for 80c.; 25 for \$2.50 postpaid.

COLUMBIAN RASPBERRY.—Of the many promising red berries none of this valuable and profitable class, come before the small fruit buyers with brighter promise than this. It is very hardy, enduring 28 degrees below zero without harm. The fruit is cone shaped, of dark red almost purplish color. It adheres firmly to the stem and will dry on the bush if not picked. Seeds small and deeply imbedded in a rich juicy pulp with a distinct flavor of its own. Each, 20c.; doz., \$2.00; 25 for \$3.75; 100, \$12.00.

Pot Grown Strawberry Plants.

If to go by mail add for postage 10c. per doz.; 50c. per 100.

These pot grown plants are well established with a mass of roots as shown in our illustration. For shipping they are turned out of pots, retaining the ball of earth around their roots and wrapped in paper (unless ordered by mail, in which case the ball is broken and soil washed away from the roots.) We recommend shipping by express. These pot grown plants will produce a moderate crop the first season if ordered at once and planted before September 30. Varieties marked (P) have imperfect flowers; they will not produce well unless every third or fourth row or plant is a perfect flowering variety, as all are that are not marked. Thus planted the sorts are most productive.

BUBACH, No. 5 (P), SHUCKLESS, GANDY, JESSIE, THE HERSEY, GREENVILLE (P), TIMBRELL (P).

Price, choice pot grown plants of any of these varieties, per doz., 75c.; 50, by express, \$1.75; 100, \$2.50; 1000, \$15.00.

A Select List of Hardy and Half Hardy Herbaceous BIENNIALS and PERENNIALS

FOR FALL PLANTING IN THE OPEN GROUND.

CANTERBURY BELLS. (Campanula.)

AQUILEGIA.

Chrysantha, Golden Columbine. Pkt., 10c.

Chrysantha Grandiflora Alba, This new large flowering, pure white variety with its fine, long spikes is perfectly hardy and a beautiful plant for pots, and if planted in groups, presents a perfect sea of white flowers. Pkt., 10c.

Coerulea, Beautiful sky blue. Pkt., 10c.

Vulgaris, fl. pl. Double mixed. Pkt., 10c

CAMPANULA.—(See Illustration.)

Calycanthemum, Cup and Saucer, mixed. A beautiful variety; a most desirable and attractive addition to this class of old garden favorites. The bell or trumpet is nearly four inches in diameter, presenting the form of a cup. Pkt., 10c.

Perennial Sorts in finest mixture, Pkt., 10c.

CHRYSANTHEMUM MAXIMUM.

Large White Ox-Eye Daisy.

A free-blooming hardy perennial, 2 feet high, literally covered with pure white flowers which are well adapted for cutting, lasting over a week in water. Pkt., 10c.

Coreopsis Lanceolata, Golden yellow 2 feet. One of the most desirable of all plants. For generosity of bloom there is nothing to compare with it, and it will bear cutting far better than any other plant, at the same time it is always graceful. It can be grown freely from seed, and does well when treated as an annual. Pkt., 10c.

Grandiflora, Large deep yellow. Pkt., 10c.

DOUBLE DAISIES.

Bellis Perennis Fl. Pl.

VAUGHAN'S MAMMOTH DAISIES.

For size of flowers and doubleness these have no equal. The flowers average 1½ to 2 inches in diameter, very double and ranging in colors from snow-white to pink and blood-red, with the prettiest combinations of pink and white. Pkt. (150 seeds), 15c.; 2 for 25c.

SNOWBALL DAISY.—Long stem, free bloom and large double flowers, Pkt., 5c.

Eupatorium Fraseri, white, fine for cut-flowers. Pkt., 10c.

Achillea, the Pearl, double white, the flowers are borne in great profusion and are pure white, blooms from July until frost. Pkt., 15c.

Adlumia Cirrhosa, Mountain Fringe or Allegheny Vine, a hardy and very attractive climbing plant, pale green foliage, pink and white flowers. Pkt., 5c.

Alyssum Saxatile (Gold Dust), flowers brilliant golden yellow completely hiding the foliage, plants about one foot high, desirable for rock work and quite showy in masses. Pkt., 5c.

Ampelopsis Veitchi, (Japanese or Boston Ivy) a species of Woodbine, with very pretty olive green foliage, which turns to bright scarlet, crimson and orange in the fall. It does not require fastening, as it clings to the smoothest walls. Perfectly hardy. Pkt., 7c.

Anthemis Tinctoria, hardy Golden Marguerite. Pkt., 15c.

SWEET WILLIAM.

(Dianthus Barbatus.)

Giant Flowered Sweet William.—An improvement on older sorts, both in variety of colors and size of flowers and trusses. The single flowers are often as large as a 25 cent piece, and are simply enormous in comparison with the old time Sweet William. Pkt. (100 seeds), 10c.; 3 pkts. for 25c.

New Double Giant Sweet William.—Like the above, it is an improvement on the old-fashioned Sweet William, producing umbels of enormous size on stiff stems and in a great variety of shades and colors. The single florets often measure one inch in diameter. Pkt. (100 seeds), 10c.; 3 pkts. for 25c.

FORGET-ME-NOT OR MYOSOTIS.

Pretty little clusters of fine delicate flowers. They succeed best in a damp shady situation, but will thrive well in any garden soil. (See illustration.)

Victoria.—The flowers are large and of a bright azure-blue with yellow centers. The plants form neat bushes completely covered with flowers; a valuable variety for cut flowers. Pkt., 7c.

Dissitiflora.—One of the best of all the Forget-me-nots. It is of a remarkably compact habit and a profuse bloomer, having the appearance when in full flower, of a sheet of exquisite blue. Pkt., 10c.

Vaughan's Prize Hollyhocks.

(See illustration.)

All our seeds of this beautiful plant have been saved from the finest and largest double flowers only and will produce flowers extremely double and in the best, brightest and most charming colors. Sow early.

Double White, Pink, Canary Yellow, Crimson, Salmon, Faust, black, edged with white. Any of the above Hollyhocks, per pkt., 10c. any 3 for 25c.

VAUGHAN'S

PANSIES.

Pansies delight in the moist cool weather of early spring showing then the most superb colors and largest blooms. To secure such early blossoms plant in the fall, from August to November. Nearly all Florists sow their Pansy seed in the fall. Full directions for culture on all our packages. We have the following grand mixtures, unexcelled in the world.

VAUGHAN'S INTERNATIONAL PANSY MIXTURE.

The best selection from many growers.

It contains seed from the most celebrated growers of France, Germany, England and America, and comprises all the finest and most "odd" colors found in the German strains as well as the Giant-Flowered Trimardeau, Buguot and Cassier. Packet (250 seeds), 25c.; 3 pkts., 65c.; 5 pkts., \$1.00.

Vaughan's Giant Pansy Mixture, this mixture comprises all the best sorts and colors of our Giant Pansies and will furnish a Pansy bed to the satisfaction of every one. Pkt. (250 seeds), 20c.; 3 pkts. for 50c.; 1/2 oz., \$1.00.

Giant Trimardeau Pansies in separate colors: White, Black, Striped, Beaconsfield, Emperor William, Violet Blue, Yellow, Auricula colors. Each, per pkt., 10c.; the entire collection of 10 sorts, 1 pkt. each for 60c.

Mammoth Butterfly Mixture.—Pkt. (250 seeds), 10c.

Vaughan's Premium Pansy Mixture, introduced by us several years ago, has held its own and we can only say that it is as choice and desirable as ever. Per pkt., 10c.; 3 for 50c.; 1/2 oz., \$1.00.

Vaughan's Chicago Parks Bedding Pansies, Mixed per pkt., 3c.; 4 pkts. for 10c.; 1/2 oz., 30c.

Chicago Parks Bedding Pansies in separate colors: White, Black, Light Blue, Dark Blue, Striped, Beaconsfield, Emperor William, Prince Bismarck, Yellow, Snow Queen, Goldmargin, Silveredge, Fire Dragon, Havana Brown, Mahogany colors, Pheasant's Eye. Each, pkt., 3c.; 6 pkts. for 15c.

VAUGHAN'S INTERNATIONAL PRIMULA.

This mixture contains besides all the most distinct sorts, a number of other colors selected from the best American, French, English and German growers, and we know it will give entire satisfaction. Pkt., 25c.

Primula Chinese.—Good mixed. Pkt., 10c.

SWEET PEAS.

To obtain early flowers of this favorite as well as to insure a long flowering season, the most careful cultivators have long recommended earliest possible planting in the spring for this flower, but within a recent period it has been learned by repeated experiments that seed sown in the fall, following the natural course of the plant itself in distributing the seed on the ground when ripened, nearest complies with nature's requirements, and that such plantings have started early in the spring with far better results than when the seed has been sown in the spring. We have made for this purpose a selection of the strong growing sorts in the full line of colors. Sow them in the fall.

VAUGHAN'S PRIZE MIXTURE. Contains all the named varieties and all the novelties, and is undoubtedly the finest and most complete mixture ever offered. By mail, postpaid, 2 lbs., \$1.90; lb., \$1.00; 1/2 lb., 30c.; 2 ozs., 25c.; oz., 15c.; 3 pkts., 20c.; pkt., large, 10c.

Eckford's Mixture.—This is grown from stock seed of Vaughan's Prize Mixture which was made up from named sorts and contains over thirty varieties, including some novelties and all the choice varieties. By mail, postpaid, per lb., 70c.; 1/2 lb., 40c.; 1/4 lb., 25c.; 2 ozs., 15c.; oz., 10c.; pkt. (large size), 5c.

All Colors Mixed.—This is also a very good mixture; contains over twenty varieties. By mail, per lb., 40c.; 1/2 lb., 25c.; 1/4 lb., 15c.; oz., 5c.

THE BEST TEN SWEET PEAS.

Blushing Beauty, soft pink; **Her Majesty**, deep clear rose; **Countess of Radnor**, lavender; **Mrs. Eckford**, best yellow; **Emily Henderson**, best white; **Blanche Ferry**, pink and white; **Stanley**, deep bronze; **Firefly**, brilliant scarlet; **America**, scarlet and white; **Cupid**, new dwarf white. One pkt., each of the foregoing 10 beautiful sorts for 30c.

Cupid, the new dwarf white, pkt. (25 seeds), 10c.

"**HOW TO GROW SWEET PEAS**" is the title of our little booklet on Sweet Peas published by us. It contains much valuable information on the culture of these lovely flowers, the different varieties, etc. Free for the asking with every order for Sweet Peas for 25c. and upwards.

VAUGHAN'S CHICAGO PARKS LAWN SEED.

Grass Seed Sown in September and October Makes a Better Lawn than Seeds Sown in Spring.
If wanted by mail add 8 cents per pound.

A BEAUTIFUL LAWN.

With its close velvety turf, is a most essential feature in the adornment of all suburban homes—without it the finest flowering plants and bedding seem insignificant while with it handsome grounds are assured, even with no other adornment. Second only to that prime requisite, GOOD SEED, is time of sowing, quantity to use, preparation of soil, careful watering, etc.

Our seed, which we know to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent growth; it is carefully cleaned, and as free as it is possible to make it from weeds.

OUR CHICAGO PARKS LAWN SEED

Prepared for use in the Chicago Parks, named by us and sold at our Chicago Stores for many years with very general satisfaction. It will produce an even, dense growth of permanent sward as early in the season as it is possible to do. This Mixture contains no annual grasses for making quick show to the detriment of a good lawn, but only those of lasting value and hardiness, which when once established need no re-seeding for years.

VAUGHAN'S CHICAGO PARKS LAWN SEED:—Finest Quality.—Lb., 25c.; 5 lbs., \$1.00; bush. (14 lbs.), \$2.75; 2 bu., \$5.25; 5 bu., \$12.00. **Good Quality.**—Lb., 15c.; 3 lbs., 40c.; bush., \$1.75; 2 bush., \$3.25; 5 bush., \$7.50.

One lb. of our Finest Quality Chicago Parks Lawn Seed sows a space 25 feet square.

HOW TO MAKE A LAWN.

Some previous cultivation, or at least a thorough turning over should be given. A clayey loam is the best foundation for a good lawn. Let the surface be graded to the level wanted in all parts and well rolled—a light raking following this will prepare for the seed sowing, which should be done as early in the spring as the ground can be worked, provided the ground has not already been prepared in the fall. The very best time, the ground being in order, is about April 1st. Three to four bushels per acre should be sown; the latter amount is best, for the young plants are but small, anyway, and if thick, cover the ground better and make a smoother and more even turf. Never sow oats or other grain—you can assist a weak plant by crowding it with a strong one. Mowing should be done at least once a week in favorable growing weather, and even in dry weather it should be cut twice a month. Do not allow the clippings to remain on the ground, except they are very short.

COLMBIAN LAWN GRASS MIXTURE.

Especially prepared for light soils and shaded situations.

Price—Lb. 25c.; 5 lbs., \$1.00; bush. (14 lbs.), \$2.75; if to go by mail add 8 cents per pound. Write for special prices on lots of five bushels and over.

KENTUCKY BLUE GRASS.—Many prefer this to a mixture of grasses and the fact cannot be denied that a lawn of Blue Grass only is magnificent; it takes longer however to get it established.

Kentucky Blue Grass.—(Fancy Clean Seed.) Per lb., 20c.; 3 lbs. for 50c.; bush. (14 lbs.), \$2.00; 5 bush., \$9.00.

RED TOP GRASS.—(Fancy Clean Seed.) Per lb., 30c.; 4 lbs. for \$1.00.

Red Top Grass.—(Choice Seed.) Per lb., 20c.; 5 lbs., 90c.

Where an immediate effect for one season is desired there is none better than the Red Top Grass, as it comes up quickly and makes a beautiful lawn, but the grass is liable to winter-kill.

WHITE CLOVER. (Extra Choice Seed.) Per lb., 30c.; 3 lbs., 80c.; 5 lbs., \$1.25.

VEGETABLE SEEDS. FOR FALL SOWING.

MUSHROOM, New Importation.

ENGLISH SPAWN, in bricks. Lb., 15c.; 10 lbs., \$1.00; 100 lbs., \$8.00.

WHEAT.—Early Genesee Giant.

(JONES.)

HALF BEARDED.

It is truly a Wonder in the Wheat line for thrifty fall growth, early spring stooling, strong short-jointed straw, solid filled head, FINE HARD AMBER GRAIN; exceptionally fine milling qualities, and THE CHAMPION OF ALL IN PRODUCTIVENESS, yielding at the rate of 61 to 62 bushels to the acre.

It is truly a wonder in strong growth and heavy root, with the ability to withstand spring frosts and summer drouth, soon covering the ground with a dense growth of side-shoots and dark wide leaves. It is adapted to a great variety of soils, and cannot fail to become a most popular and profitable sort with all as soon as known, and will be of great value to the farmer in cold, bleak sections of Northern Illinois, Wisconsin, Iowa and as far North and West as winter varieties can be grown. *It does remarkably well even when sown late*, and is a champion for productiveness upon any soil fit for winter wheat. It can be depended upon for an abundant yield even in unfavorable seasons, but to produce the largest possible, it should be sown on rich, dark loam, strong gravelly, or clay soils, and sown early. On land liable to heave in the spring, it will prove of great value, as its strong root and rapid spring growth quickly repair the slight thinning on wet soils. It grows a little above medium height, short, jointed and stocky, wall of the straw being very thick and hard, resisting severe wind and rain storms to a remarkable degree without lodging. Heads are long, broad and square, enlarged near the top and completely crowded out of shape with large, plump, medium long kernels. A noticeable point in this sort is the prominent row of kernels through center of head, which in most varieties are in a degree deficient. *This full center row adds very much to the yield.* It is, without doubt, the heaviest and most solid filled head known. The straw is very strong at base of head, which is carried upright even when over-ripe. This accounts in a great measure for its ability to withstand storms without lodging. (A leaning head acts as a leverage to pull the straw down.) Chaff smooth, thick and hard, varying from a light to a dark brown color, with dark spots. Beards short, with many lacking on sides of head, and some growing only to short spurs. Grain large and plump, standing out very prominent on the head, of a light amber shade, very hard and rich in gluten, and will compete in this respect with the light amber spring varieties of the Northwest for fine flour-making properties, and will weigh two to four pounds more to measured bushel than other sorts, especially if grown on clay soils.

Price, by mail, per lb., 30c.; 3 lbs., 70c. By express or freight, ½ peck, 35c.; peck, 55c.; bushel, \$1.85; 2 bushels, \$3.40; 10 bushels, \$16.00, bags included.

In peck lots or over, we deliver goods free at depot or express office in Chicago, (for New York price on bushel lots and upwards, add ½ cent per pound) the purchaser in all cases paying freight or express charges.

THOUSANDFOLD RYE.—Rank grower with stiff, heavy straw.

Heads of immense size filled with plump grains. Its yield is 20 to 25 per cent. greater than any other Rye, and it makes excellent flour. Eight bushels of seed has yielded 264 measured bushels. Lb., 25c.; 3 lbs., 60c., postpaid; by freight or express, peck, 40c.; bushel, \$1.25. (If shipped from New York add ¼c. per pound), bag included.

WINTER TURF OATS.

This valuable grain has for several years been growing in favor and use in many parts of the South and has proven extremely valuable, both for the grain and for winter grazing. The Oats may be sown anytime from August as late as the ground can be worked. Of course the later sowings are more liable to winter kill and afford less pasture. They will, however make a good crop sown as late as October 1st, as well as early in the spring, producing larger yield in bushels and in weight than Spring Oats and they are fully as hardy as Winter Wheat, growing in poorer soil than that and affording much better pasture. These Oats are remarkable for their free stooling habits, producing 25 to 40 stalks from one grain. The height is from 4 to 5 feet. Its great value for grain and winter pasture makes it worthy the attention of every farmer. Our price is very low, as follows: Per oz pkt., 5c.; lb., 25c.; 3 lbs., 60c., postpaid. By express or freight (on cars at Chicago or N. Y.) pk., 40c.; bushel, \$1.25. 2 bushels, \$2.25.

WILD RICE. (ZIZANIA AQUATICA).—The only one of our native plants furnishing food for Wild Fowl, ducks, geese, etc., which has been made an article of commerce. This seed can be sown on the borders of lakes, ponds and along small streams to great advantage, attracting all of these wild birds from September on. It makes good hay and at the South two crops can be cut and all cattle are fond of it. Sow in water having a mud bottom.

Lb., 35c., postpaid; bushel of 20 lbs., \$4.00. Write for prices on large quantities.

Dwarf Essex Rape.

The main secret in the successful raising of sheep for mutton, for which the English are so famous lies undoubtedly in the very general use of Fodder Rape for feeding them. After the corn is harvested and before winter sets in there is need of nutritious green fodder, especially for sheep. Dwarf Essex Rape is easily grown and perfectly hardy and possesses remarkable fattening properties. One acre will pasture thirty-six head two months, and lambs will make a gain of 8 to 12 pounds a month. "They weigh like lead" Pigs and cattle are also very fond of it. The plant is a rank grower and should have heavy manuring as well as high cultivation. By sowing different pieces several weeks apart a continuous supply of good feed can be had. For the breeding flock a piece should be sown about the first week in July, with some even later, and the chances taken on its withstanding the drouth. From ½ acre there was cut 9½ tons of green Rape, or it yielded at the rate of 19 tons per acre.

If the soil is rich and clean sow broadcast, if not so clean so in drills and cultivate as for corn. Rape is especially adapted for a catch crop, succeeding well when for any cause other crops have failed, as it, like Turnip, makes its growth late in the season, can be sown on stubble, and will furnish excellent pasturage when much needed in the fall. When sown broadcast, use five pounds, and if in drills, two pounds to the acre. Price, by express or freight, 10 lbs., \$1.50; 25 lbs., \$3.50; 100 lbs., \$10.00. Per lb., postpaid, 25c.; 3 lbs., 65c.; 2 oz. pkt., 5c.

CRIMSON CLOVER.

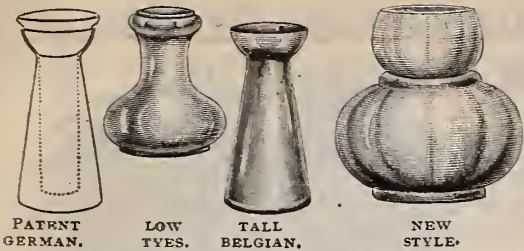

5 GREAT POINTS SHOWING ITS VALUE.

1. It grows in one season between other crops.
2. Profitable to grow for feed.
3. Plowing it under as a manure.
4. As a hay crop is equal to Timothy.
5. Great feeding value as pasturage.

So general has become the use of this New Annual Clover in Delaware and New Jersey the past three years that it has attracted wide spread interest everywhere. We are satisfied that its general use everywhere is a matter of but a few seasons. It should be sown 10 to 15 pounds per acre in July or August to secure best stand, and may be sown in standing corn, or after Potatoes, Tomatoes, Beans, Cabbage or like crops or with Buckwheat. It does not make a permanent pasture, but will give the cattle two early, heavy cuttings of green feed. If it makes a good start it can be pastured during fall and winter and make a good crop of hay or seed in the summer. It will grow on poorest land. It grows late in fall and during warm spells in winter, when Red Clover will not think of starting. A plank drag is a good and sufficient means of covering the seed when sowing. Soon after the vegetable crops named it establishes itself and is ready by May 12th with a heavy growth to plow under for any other crop that may be wanted in the spring. See the gain in time! Such a crop plowed under has shown a proven manurial value of \$50.00 per acre.

LAWN FERTILIZER.

Lawn grass is a voracious feeder and will not thrive and hold its beautiful dark green color and velvety appearance unless it receives a sufficient supply of suitable food. Because so few appreciate this fact is the reason there are so many poor, rusty looking lawns. Stable manure is unpleasant to handle, ill-looking and decidedly odorous, and is also full of waste material, and last but by no means least, it contains weed seeds which are obnoxious, and it often takes years to eradicate the weeds, causing an unnecessary amount of labor. All these objections are obviated by the use of our Lawn Fertilizer, and if Vaughan's Lawn Seed is used there is no excuse for bad lawn. If the lawn is in fair condition it is only necessary to rake off the dead leaves and grass in spring or fall and scatter broadcast over its surface some of our Lawn Fertilizer with a little of our Chicago Parks Lawn Seed over the thin spots, and the work is done. With little care the grass will keep luxuriant throughout the season. This Fertilizer is non-odorous, dry, fine and easy to apply. Two or three applications during a season, just before a rain or watering, at the rate of one pound to each one hundred square feet of grass keeps it in flourishing condition and enables it to withstand the scorching sun. This fertilizer can also be used on all garden truck, flowers and house plants. It can also be applied in the fall.

DIRECTIONS FOR USE.

This fertilizer can be applied late in the fall or early in spring. As soon as the frost is out of the ground, at the rate of ten to fifteen pounds of fertilizer to every 1,000 square feet of lawn evenly distributed. For seeding down a new lawn scatter double the amount, say twenty-five pounds of fertilizer, broadcast on every 1,000 feet, and rake it in thoroughly before sowing the seed.

PURE BONE MEAL.

Analysis: Ammonia, 3 to 4 per cent., Bone Phosphate, 45 to 55 per cent. Every bag is guaranteed pure bone. It is made from the bone gathered from the plains and farms without being steamed or baked. Price, per bag of 200 lbs., \$4.25; 1,000 lbs. or over, \$20.00. Harrow or drill in, using 200 to 300 lbs. per acre at time of seeding. In small lots by express, not prepaid. 5 lbs., 30c.; 10 lbs., 50c.; 25 lbs., 85c.; 50 lbs., \$1.30; 100 lbs., \$2.25.

TOBACCO INSECTICIDE SOAP.

It is absolutely safe to handle and will not injure the tenderest growth of plants. It is used by dissolving in hot water at the rate of 1 ounce to 2 quarts of water. With this water the plants are sprinkled, syringed or sponged, one or two applications will exterminate any kind of insect. It is sure death to green or black fly (aphis), scale, mealy bug, red spider, etc. If used once or twice a month on plants they will never be troubled with insects. Sold in seven ounce cans at 30c. each, and in two ounce packages at 12c. each, by mail, postpaid.

BIRD SEED.

We make a specialty of re-cleaned, fresh seed at the following low prices: Hemp, Rape, Canary or Millet Seed at 6 cent per pound. Blue Maw seed at 10c. per pound. If to go by mail, add 10c. per pound for bird food, per bottle, 25c., by mail, 50c.

BOWKER'S PLANT FOOD.

This is a most useful fertilizer for all kinds of plants raised in pots. It produces a rapid and vigorous growth and an abundance of flowers. Odorless, and takes the place of liquid manure. Drives insects out of the soil. Package, containing food for 20 plants for 3 months, 15c.; 3 for 40c.; if by mail, add 5c. per package. Large package, containing sufficient plant food for one year, 25c.; 3 for 65c.; if by mail, add 15c. per package. Each package contains full directions.

Choice Bulb Collections.

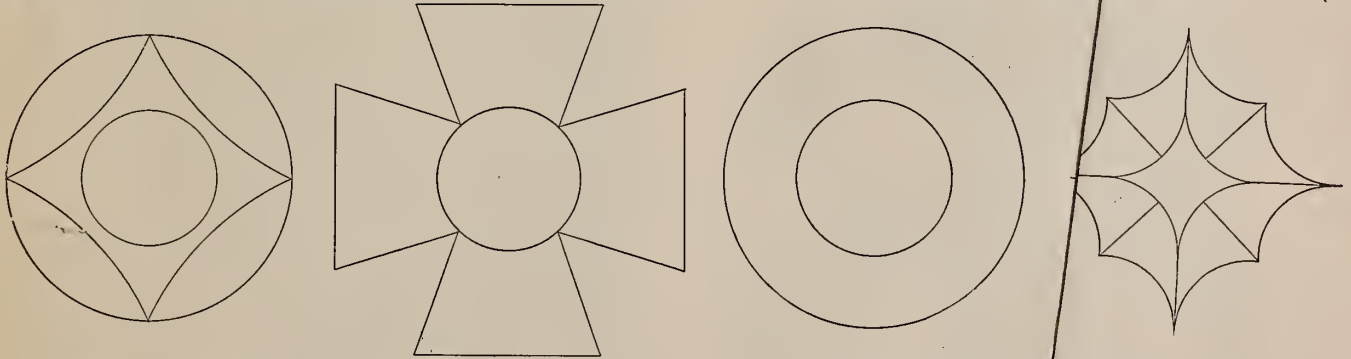

NOTE CHEAP PRICES.

IN early Spring when Tulips, Hyacinths, Crocus, etc., are in bloom, many people, on seeing these beautiful flowers adorning the lawn of some fortunate possessor, mentally resolve that in the coming Fall they will surely make such preparations as will insure a similar display on their own grounds in the following Spring. These Collections are so reasonable in cost, easy to grow and certain to give satisfaction that we take pleasure in offering the following, as being specially adapted for forming designs and grand masses of rich coloring, and selected from varieties of the same height (an important consideration) and which will bloom at the same period:

With each of these Collections we send free of charge, our book, "Flower Bulbs," which gives full cultural directions.

❖ ❖ DIAGRAMS FOR FANCY BEDS. ❖ ❖

Depth at Which Bulbs Should be Planted.

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram reproduced from "Popular Gardening," conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. Out door planting should be done early in the Fall to secure healthy plants, vigorous foliage and beautiful flowers.

→ SHEEP MANURE. ←

This is very extensively used by Florists to enrich the soil, especially for Chrysanthemum and Roses. It is also very useful for Bulbs. About one-fourth Sheep Manure well mixed with the soil will produce excellent results, the bulbs will grow more vigorous, the foliage will be dark rich green and the flowers larger. We recommend this as a splendid fertilizer and its price is very low.
