Subject: Application for permission to bring the machines and wooden implements

Sir:

We have recently sold our Jigozen Plant's land and buildings, located 1100 Jigozen-mura, Saeki-gun, Hiroshima-ken, for the purpose of reerection of the enterprises. As we have no place to take custody of these machines and implements for production and business use, we earnestly entreat you to permit to bring them in our Hiroshima Plant as attached sheets.

We moreover apply for your permission to designate "EX" for these equipments, in order to avoid to confuse these "EX" equipments from Reparation's.

1. Reference attached petition of Asahi Co. Hiroshima and report of same company both dated 29 January 1947.

2. This company was organized in 1937 and it will be noted maintained civilian productions during the war.

3. The plant at Hiroshima is damaged to a large extent but has maintained reparations machinery in a satisfactory manner.

4. The Asahi Co. desires to employ about sixty (60) workers in Hiroshima and about seventy-nine (79) in Zigozen Factory.

5. The plant at Zigozen did not suffer material damage from air raids and the reparations machinery at that location has been well maintained.

6. The officials of the company bear a good public reputation and have been coorperative under very adverse conditions existing particularly in the Hiroshima Plant.

7. The war work done by the company did not require maximum conversion of machinery.

8. After careful consideration by this headquarters it is thought that the local economy will suffer if the plants are not allowed to continue the manufacture of the essential civilian items as at present.
