LA CRESCENTA

The pleasing five-room bungalow built for Mrs. Steele of Los Angeles on the corner of Honolulu and Los Angeles avenue, is now completed and the new owner will move in immediately.

The Improvement association will meet at the schoolhouse Friday, March 2d. Speakers from Los Angeles will be present to address the meeting. Every one interested in the welfare of the valley is urged to attend.

Arbor Day in La Crescenta
 Supervised by two gentlemen from the forestry department, public-spirited citizens to the number of eight gave their free services in planting 100 pepper trees on each side of Los Angeles avenue from the state Highway to the depot. Lunch was served to the workers by Mrs. A. W. Brown at her residence, assisted by Mrs. Bissell and Mrs. Nettleton. The trees were donated by Mr. A. C. Cobb and the stakes were furnished by Mr. H. Bissell. If the property owners on this street will see that the trees are properly watered for a season or two this avenue will be a beautiful driveway in a few years.

Mr. Fred Pinkus is reported to have placed an order for 500 gallons of Northern California olive oil with the A. B. Cohn Grocery Co. of Los Angeles last week. The oil was shipped from Butte county, where Mr. Pinkus formerly resided.

The Dickson bungalow has been rented to Mr. and Mrs. Roy Burton from Los Angeles. The new tenants expect to make Crescenta their home for the remainder of the year.

Birthday Party
 One of the pleasantest social affairs in the valley of recent date was a surprise party in honor of Miss Ethel Lewinstein, given by her friends and family at the school auditorium last Saturday evening. Over fifty young people from Crescenta and Tujunga were asked and the party was a total surprise to Miss Lewinstein. It required a great deal of ingenuity on the part of both her friends and Mrs. Lewinstein, her mother, to convey her into the building without arousing her suspicion. The merry crowd of young people spent the evening dancing to the accompaniment of Mr. Maygrove's Sunland orchestra. At 11 o'clock refreshments were served and the birthday cake of seventeen candles was cut by Miss Lewinstein.

About seventy-five new books will be sent to the library the early part of next week, so the librarian, Mrs. Belle Miller, reports.

The Campfire Girls held their regular monthly council fire meeting at the home of Mrs. Miller on Thursday, the 22d. The candle ceremony was performed by three of the members and honor cards were awarded. After the campfire supper games were indulged in till the Indian maids had to seek their wickiups.

Ice skating in Los Angeles is not confined to the city folks. Mr. and Mrs. Thomas Minford of Los Angeles avenue spent Tuesday at the rink enjoying the sport.

On Thursday of last week Mrs. Dean Culberson gave a luncheon as a farewell honor to Mrs. Daniel Gardener Cooke, who has been visiting her since the holidays. The ladies who enjoyed Mrs. Culberson's hospitality were Mrs. John Saunders of South Pasadena, Mrs. Hindenburg and Mrs. Humphrey of Los Angeles, Mrs. J. Hawkins, Mrs. Fahey and Mrs. Jennings of La Crescenta. On Monday following the luncheon Mrs. Cooke left for Seattle, where she will stop a few days before joining her husband in Manila, P. I.

Miss Nellie Miller left last Wednesday for a month's stay in Hollywood with a former college classmate.

Mrs. V. B. Claffin left last Saturday to visit her son Henry in Arizona. At the present writing she had not returned.

M. P. Jones and wife will move the coming week from the cottage on Los Angeles avenue to the home of his mother, Mrs. Lee, on Mayfield and Penn. avenue.

The Rain

Henceforth, from time to time reports of the rainfall in La Crescenta will be published in the Tri-City Progress. The rainfall from Friday to Monday (Feb. 16-19) was given by H. S. Bissell with a government rain gauge as follows:

February 15-1690
 February 18-19140

The committee on highways of the Three Valleys Improvement Federation met at the home of E. N. Nettleton on Friday evening to take up the road problems of their respective communities.

Our thrifty grocer, T. O. Potts, who is constantly looking out for improvements in his store and delivery service, has recently installed a spacious tea and coffee cabinet in his grocery.

The next meeting of the Improvement Association will be held in the valley clubhouse on Saturday evening, March 3, and will be one of unusually great importance. It should interest all the citizens of La Crescenta sufficiently to attend this meeting.

The subject and the speaker will be announced in the next week's issue of the Tri-City Progress and on the bulletin boards at the La Canada stores. A loyal attendance at all our meetings on the part of all who can do so is a primary condition of the success of our association, and is one way of manifesting the spirit of good citizenship in the community.

Mrs. A. M. Guidinger, the enthusiastic and efficient president of the Parent-Teacher association, in her second term, has presented her resignation, which has been accepted, as she is about to move with her family away from La Canada. Mrs. James T. Penfield, who has been the first vice-president for several terms, is now the acting president. While Mrs. Guidinger will be greatly missed in our valley, the interests of the association will be cared for by Mrs. Penfield.

POULTRY POINTERS

Feed at regular hours and the fowls will always be ready and waiting for their last meal.

Put the windows in the poultry-house low down near the floor, so that the hens will get the benefit of the light and sunshine when scratching for their feed.

The chaff that settles beside the straw stack at threshing time makes a splendid winter litter in which to feed the small grain. Have it about six inches deep all over the hen house floor.

All perches in the poultry house should be built on a level. When built one above another, step fashion, the hens will fight for the higher perches with the result that some

of them will become injured or eggs will be broken in them.

Grit or lime is absolutely necessary for egg production. It is always well to have a large pile of sand and gravel handy, where the fowls can help themselves.

Milk is a good feed for hens. Give all the milk they will consume. The hens will not only lay well, but will keep in a strong, vigorous state of health.

You should no more think of keeping a common mixed flock of mongrel chickens than you would buy or care for chance seedling fruits, wholly unknown and untried.

While the weather is dry the poultryman should store away several barrels of road dust to be used in the dust boxes during the winter months.

Thoroughbred fowls are the only profitable kind to keep, no matter what you keep them for.

Be sure that early pullets and hens that have moulted get plenty of the right kind of food.

The advantage of keeping one breed of poultry is that one can market a uniform product in eggs and stock.

LUMBER CUT CENSUS

California lumbermen cut two hundred fifty million feet more of lumber in 1916 than in 1915, according to District Forester Coert DuBois. To date forty-five mills each cutting ten million or more per year have reported an output of 1,234,000,000 feet. The cut of forty-three of these mills was 1,212,742,000 feet in 1916, while in 1915 the same mills cut 976,410,000 feet.
