

THOMPSON'S BANK NOTICE AND COMMERCIAL REPORTER

BY J. THOMPSON, BANKER, NO. 2 WALL STREET, NEW YORK.

Published at No. 12 Spruce street,

NEW YORK, NOVEMBER 5, 1853.

[We have no Travelling Agent.

TO CORRESPONDENTS.
 ALL letters communicating with the
 "BANK NOTICE AND COMMERCIAL REPORTER,"
 must be directed to the Editor, and the
 Proprietor's name and residence are particularly
 requested to be inserted, as well as the name
 of the City.

J. THOMPSON,
 No. 2 Wall st., cor. Broadway, N. Y.

Autographical Detector.

THE REVISED EDITION OF THE AUTOGRAPHICAL DETECTOR is now out, and is the only work which will enable any person to detect a counterfeit note or bill in five or six days. Price per copy, \$1.00. No. 12 Spruce Street, N. Y.

J. THOMPSON.

No. 2 Wall st. cor. Broadway, N. Y.

DURING the past week the Banks have put the screws on tighter than ever, and the result has been that they have lost more than they have gained. They contracted their discounts to \$2,453,000, and lost in deposits \$3,190,000.

This fact convinces us that the contraction at an end, for our Bank officers have sufficient sagacity to know that their depositors can extend facilities so long as our Banks are able to pay.

The week has been one of great excitement in Wall street, and there is evidently a diffusion of more confidence.

Confidence is scarce, and the country Banks do not feel the pressure and do not curtail their business, and there is the fullest confidence in the circulating notes of all the Banks.

We scarcely know of a Bank that may be said to be doubtful.

Stocks are on the advance, but the improvement will be slow until there is more confidence in the future.

It is our opinion that now is the time for those who wish to invest in Stocks, to act promptly.

The practical operation of the Clearing House bears full weight of all our small Banks, and enables our large ones to pay. It is to be regretted that it is oppressive for all settlements of all balances must be made every day.

If a large Bank in Wall street thinks proper to contract, and thereby gets balances against the other Banks, there is but two alternatives to contract also, or to contract Spruce.

We find that the whole money movements of the city can be controlled by one Bank.

In looking at the reports just published it will be seen that the Merchants' Bank holds \$1,340,000 of specie, against a discount line of \$2,310,000, while the Bank of Commerce holds \$218,000 of specie against a discount line of \$7,398,000—these are leading Wall street Banks.

The Bankers & Dealers' Bank holds \$81,000 against a discount line of \$1,600,000, and the Drovers' Bank holds \$23,000 in specie against \$1,100,000.

We have named these Banks, not with a view to expose their management, but to show the truth of the position we have taken, and whenever one large Bank sees to contract, all the Banks in the city must follow suit or be long ducks at the Clearing House. We would suggest to

the disappointed applicants for discounts, to look carefully at the Bank reports and see whether his own Bank or some less liberal institution has been the cause of throwing his name off.

New Bank.

THE SANBORN BANK, Farmington, Me., has recently gone into operation, with Samuel Beecher its president, and Thos. G. Jones, cashier. Capital, \$50,000.

THE STATE OF NEW YORK—In a liquidation, at Kingston, Ulster County, N. Y., which has recently commenced business, Jacob Burham, president, R. M. Leonard, cashier. Capital, \$100,000—secured by New York stocks.

SPECULATIVE STOCKS.—NO. IV.

PHOENIX Mining and Manufacturing Company. This Company were generally known as "Phos. and Coal Co.," own some 22,000 acres of rich soil, and mineral lands, situated on both sides of the Potomac River, in the States of Maryland and Virginia. The principal object of this Company is mining, but there are numerous views of iron on their lands, which it is thought can be worked to very great advantage, should it ever be thought to more profitable than the Coal mines.

The Coal is semi-bituminous, and known to market as Cumberland Coal. The Richmond & Ohio Railroad passes within a few hundred feet of the mines of the Company, so that facilities of getting the coal to market, and the cost of mining, holding, and transportation to New York, is estimated at \$1 per ton.

The capital is \$1,000,000. Shares \$100 each.

Some of the members of the Company are well known, as the Party, Veitch, and the other speculative operators in Wall street, but it is to be regretted that the rest of the members, "Samuel L. Mitchell" to the present, have been taken up a good deal for no real investment, as but few there is not very little of the Stock on the market. Occasionally some is sold at the Stock Board at about 10 to 16.

Banks Withdrawing.

THE QUEEN CITY BANK and the BANK OF LEXING & SIMONS, at Springfield, six months after the circular notices issued by said Banks, must be presented at the Auditor's office of the State of Illinois, in Springfield, Ill., within six years from date, or the \$25 deposited for the redemption of the Bonds will be given up and said institutions.

THE DIRECTORS OF OSWONDERA COUNTY BANK have decided to close their business on the first of January next, and not re-open until the General Banking Law—so says the Syracuse Standard.

THE BANK OF NEW ORLEANS, organized under the General Banking Law, has adopted the plan proposed by the Legislature of Louisiana, commenced business on the 1st inst. with a capital of \$1,000,000.

LATEST COUNTERFEITS.

CITY SUBSCRIBERS.
 Are requested to send their names to No. 12 Spruce Street, of any delay or neglect on the part of our carriers of the Reporter.

Exchange on California.
 The American Bank of New York, N. Y. has issued drafts on San Francisco, California, for the purpose of facilitating the purchase of gold and silver.

As these drafts are payable in gold, and the price of gold is now so high, it is thought that the purchase of these drafts will be profitable to the holder.
