ELECTIONS IN ITALY.

The Liberals Have Been Defeated in the
Municipal Contests.

(Associated Press.)

New York, July 3.—The municipal
elections in Rome, Italy, have taken
place after a week's active campaign,
says a cable dispatch from that city pub-
lished to-day in the Herald. The Lib-
erals were much divided and the cler-
icals and moderates made a firm union,
the result being the defeat of the Lib-
erals. Much interest was shown as the
clericals for the first time since 1870
went generally to the polls taking part
in the elections. Many priests also took
advantage of the recent encyclical of the
Pope which practically annulled the rule
of Pope Pius IX., which had been in
force since 1871 and prevented clerical
participation in the elections.

HAVE BEEN POSTPONED.

(Associated Press.)

London, July 3.—Instead of cancelling
the events which had been arranged for
the celebration of the Fourth of July in
London, it has been decided to postpone
them out of respect for the late Secre-
tary of State, John Hay. These events
include Ambassador Whitelaw Reid's re-
ception, for which 200 invitations have
been issued, and the American society
dinner at which Mr. Reid will be the
guest of honor. The reception will prob-
ably result in the greatest gathering of
Americans ever seen in a foreign city.

THE MOROCCAN QUESTION.

Berlin, June 30.—It is semi-officially
stated that notwithstanding the extreme
optimistic views of the French news-
papers regarding an agreement being ar-
rived at between France and Germany
on the Moroccan question, authoritative
circles here are not yet convinced that
the affair will be settled immediately.

MUTINY SPREADING AMONG CZAR'S SAILORS

More Vessels Have Thrown in Their Lot With the Kniaz Potemkine, Which Re- fused to Surrender.

Battleship Which Led Revolt Has Taken Refuge in Rouman- ian Port—Number of Black Sea Warships With- drawn From Service and Crews Sent Ashore.

(Associated Press.)

London, July 2.—It is apparent that
all the crews of the Russian Black Sea
fleet have mutinied.

When Admiral Kruger's fleet reached
Odessa, the admiral signalled the Kniaz
Potemkine to join the squadron. The
Kniaz responded asking the admiral to
come on board. No answer being given,
the Kniaz cleared for action and steam-
ed along the front of the fleet. Admiral
Kruger signalled "head for Sebastopol,"
and the Kniaz "We remain here." The
Georgi Pukhodonozov set the same signal.
The remainder of the fleet departed,
after the Georgi had signalled the Kniaz,
"We wish to hand you our officers."

On Saturday afternoon the Kniaz
headed towards the Roumanian coast,
and has not since been heard from.

On Sunday morning the Georgi sent
forty men ashore to ask for the Emper-
or's forgiveness for having mutinied.

When the Black Sea squadron returned
to Sebastopol a council of admirals
and captains was held, and it was decid-
ed to unguar the machinery and author-
ize the officers and men to go ashore.

There has been no more rioting in
Odessa, though there is still much ex-
citement, and thousands are still leav-
ing.

THE KNAZ POTEMKINE IN ROUMANIAN PORT.

Bucharest, July 3.—The port authori-
ties at Kusteuji Roumania have been in-
structed to call upon the 750 mutineers
who are on board the Kniaz Potemkine
to land from that vessel without arms,
informing them they would be treated as
foreign deserters while in Roumania. In
the event of the refusal of the mutineers
to submit to these conditions or hostile
action against the town, the Roumanian
warships were ordered to use force.

There is much excitement on board
the Kniaz, where differences of opinion
exist between the leaders, some of whom
advocate landing in Roumania, while
others propose to return to Russia and
join the other mutinous ships.

The prefect of Kusteuji permitted a
delegation of the mutineers to enter the
town and purchase provisions. The sail-
ors report that the Black Sea fleet
not only did not try to capture the Kniaz
Potemkine, but that the crews of the
ships openly rejoiced when the rebel
battleship left Odessa.

The crew of the Russian gunboat
Pezonaph now at Kusteuji met some

of the crew of the Kniaz Potemkine,
accompanied by a Russian torpedo boat.

About 300 Roumanian soldiers are be-
ing concentrated at Kusteuji to meet
emergencies, and the cabinet ministers
are proceeding there to-day to deal with
the situation.

AFRAID TO TAKE BATTLESHIP TO ODESSA.

St. Petersburg, July 2.—The situation
in the Black Sea has surprised the Rus-
sian admiralty. It has developed that
the crew of the battleship Ekatarina II
were so mutinous that Admiral Kruger
was afraid to take her to Odessa and
left her behind, the crew being dis-
missed and the ship disarmed.

NO GROUND FOR SUSPENDING TREATY.

London, July 3, 3 p.m.—In the House
of Commons this afternoon, Earl Percy,
the foreign under secretary, replying to
a suggestion that friendly representations
should be made to the Russian govern-
ment proposing a temporary suspension
of the treaty excluding foreign warships
from the Black Sea so that British ves-
sels might safeguard the lives and prop-
erty of the British subjects at Odessa,
said the present circumstances at Odessa
did not afford sufficient grounds for such
a departure from the treaty rules gov-
erning the Black Sea. There was noth-
ing to show that the Russian govern-
ment had no adequate means for pro-
tecting British subjects in common with
the rest of the world, nor that the ar-
rival of British warships would im-
prove the situation.

A private telegram received here from
Odessa says the town is quiet.

WILL NOT BE ALLOWED TO USE TURKISH PORT.

Constantinople, July 3.—The Turkish
officials at Aandoli Kavak, Asia Minor,
at the entrance of the Bosphorus, are
taking precautions to prevent the pos-
sible use of that port by the mutineers
of the Kniaz Potemkine. The Turks will
not permit the battleship to pass through
the Bosphorus after sunset. They even
stopped the Russian gunship at Con-
stantinople with a blank shot when re-
turning with Ambassador Zinovoff after
a short cruise in the Black Sea. Mr.
Zinovoff landed and proceeded to Con-
stantinople, but the gunship was held
until morning.

WILL REMAIN AT WORK.

Decision of the Underground Workers at
Brechin—The Rival Unions.

(Special to the Times.)

Nanaimo, July 3.—The trouble between the
Western Federation and the United Mine
Workers here has reached an acute stage.
Following the announcement of the Mine
Workers that they would call out the men
working at Northfield (Brechin) unless the
Western Fuel Co. recognized the union, the
Federation to-day issued a notice stating
that the Federation has no grievance or
labor trouble with the company at Brechin,
and all persons who could get work were at
liberty to do so.

P. Killen, secretary of the Federation,
said in explanation that this notice was
issued because of the action by the Mine
Workers. The Federation considers it ab-
solutely unnecessary to interfere with
Brechin, as the trouble between the men
and the company is confined to No. 1 mine.
So long as the conditions at Brechin are
satisfactory to the men, any action to stop
work there will simply inflict hardship on
the families of miners and is not justified.

Today's meeting is being held at Brechin
by miners to take a vote on whether to con-
tinue work or go out.

Result of Voting.

Nanaimo, July 3.—At Brechin the under-
ground workers have decided by forty-one
to seven to continue working.

PRELIMINARY HEATS.

(Associated Press.)

Henley, Eng., July 3.—The Vespers pad-
dled over the course to-day and completed
their practice bright, well and very hopeful.
They have not the slightest fear of any-
thing but the Leander, and Manager Thorn
to-day expressed himself most sanguine that
his crew will carry off the grand challenge
cup.

Owing to the large number of entries
three preliminary heats for the Thames
Cup and seven heats for the Diamond
Sculls were rowed off to-day.

NETHERLANDS CABINET.

(Associated Press.)

The Hague, July 3.—The cabinet, headed
by Dr. A. Kuyper, has resigned. The res-
ignation is due to the defeat of the govern-
ment in the recent elections.

THE AMERICA CUP.

Report That Sir Thomas Lipton Has
Decided to Challenge a Fourth
Time.

(Associated Press.)

New York, July 3.—The Tribune says
"Sir Thomas Lipton has decided to chal-
lenge a fourth time for the America cup.
The news comes from England, from
private sources, and there is every
reason to believe that Sir Thomas means
what he says. He declared some time
ago he would wait and see what was the
result of the performance of the Brito-
mar, a boat designed by Alfred Mylne
for the 32 foot class, but chiefly for the
meeting of Herrschoff's latest creation,
the Sanyan, built for Mr. Parley accord-
ing to the new British rule of measure-
ment."

"If the Mylne boat proves a success
at defeating the Herrschoff boat, it was
understood that Mylne will receive an
order at once to design a cup challenger
for Sir Thomas. Mylne was the partner
of the late George T. Watson, and it is
now said that he has the assistance of
all the plans recently used by the de-
ceased designer, which were the result of
many exhaustive experiments with
models intended for America cup chal-
lengers."

V., V. & E. BILL PASSED COMMITTEE OF HOUSE

Clause Adopted Providing For Construc- tion to Begin From Cloverdale Within Two Years.

(Special to the Times.)

Ottawa, July 3.—The consideration of
the V., V. & E. Bill was resumed before
the Commons in committee of the whole
this afternoon.

Mr. Barker, of Hamilton, and Hend-
erson, of Toronto, were under the impres-
sion, though why they could not tell, the
bill was not to come up to-day. Sir Wilfrid
emphatically declared he knew of no
such arrangement.

Clause 3 was then taken up, when
Hon. Mr. Emmerson read the amend-
ment which Hon. G. E. Foster had asked
the government to consider. This
provided that the company should not
have the right to divert their line across
the international boundary unless abso-
lutely necessary to overcome engineering
difficulties, nor until a satisfactory guar-
antee was given that the line from
Cloverdale to Princeton would be com-
pleted in Canadian territory within a
reasonable time. Hon. Mr. Emmerson
added: "In the judgment of the govern-
ment they do not deem it necessary to
impose these restrictions upon this
road."

Hon. Mr. Fitzpatrick offered a sugges-
tion for a provision that a diversion
south of the boundary should be per-
mitted by the Governor-in-council when
the latter was satisfied it was reasonable
to avoid difficulties in necessary construc-
tion.

The committee, however, passed the
clause without further discussion.

Hon. Mr. Fitzpatrick said with sar-
casm his previous suggestion was so well
received that he was encouraged to make
another with reference to clause 4. That
clause provides for agreements with cer-
tain other companies which shall be de-
clared works for the general advantage
of Canada. The minister of justice said
that was legislating in the dark.

The committee adopted it with little
further discussion; and also passed a new
clause offered by R. G. Macpherson
(Vancouver) requiring construction from
Cloverdale toward Princeton to begin in
two years, and proceed continuously
along the route laid down in the British
Columbia charter.

The bill was reported after an hour's
discussion, and after its third read-
ing.

W. T. BUCHANAN DEAD.

Was General Manager of Bank of Mon-
treal From 1881 to 1890.

(Associated Press.)

Montreal, July 3.—W. T. Buchanan,
general manager of the Bank of Mon-
treal between 1881 and 1890, died here
to-day.

Within a few days, however, it became
generally known in Assent that a can-
didate from outside the district would be
also submitted to the votes of the con-
vention, in the person of Hugh Aitken,
of Nanaimo, editor of the Nanaimo
Herald.

This added much interest to the meet-
ing of the convention, which was held
here on the evening of June 28th, and at
which 15 delegates from every centre of
population in the electoral district, from
the hamlets and towns on this West
Coast, from Parkville, Wellington,
Texada, etc., assembled, many of them
at very great personal inconvenience and
loss of time.

The delegates selected Mr. Raper, of
Texada, as their chairman, and after two
hours deliberation it was announced
that Mr. Aitken had received nine votes
and Mr. Bledsoe six. The selection of
Mr. Aitken was then made unanimous.

The members of the local Liberal As-
sociation were then admitted. Mr. Aitken
made a graceful and effective speech, ac-
cepting the nomination as the Liberal
candidate for Alberni. Mr. Bledsoe, in
a speech full of tact and good sense, ac-
cepted his defeat in a manly and straight-
forward manner. He pledged himself to
the loyal and faithful support of the
party, and called upon all his friends to
do their best for the success of the Lib-
eral candidate in Alberni.

Telegrams expressing continued con-
fidence in their leadership were dis-
patched to Sir Wilfrid Laurier, and to J. A.
Macdonald, the provincial party leader.
Many of the delegates made short
speeches, expressing their great satisfac-
tion at the unanimity, good feeling and
party discipline which had characterized

BYE-ELECTION IS TO COME QUICKLY

VOTING IN ALBERNI PROBABLY JULY 22ND

The Liberal Party Feels Confident That It Will Retain Seat in Legislature.

The bye-election in Alberni has been
fixed for Saturday, July 22nd. The re-
signation of W. W. B. McInnes was re-
ceived by Hon. Speaker Pooley on
Thursday, June 29th, and it was dated
June 24th, and mailed from Vancouver
as Mr. McInnes went north.

Acting on this the government has de-
cided to bring on the election as soon as
possible.

A. S. Smith, of Alberni, has been ap-
pointed returning officer and has already
entered upon his duties. Dependent upon
his ability to comply with the require-
ments of the law in the matter of post-
ing proclamations, etc., the election will
be brought on about July 22nd. It is
likely that the nomination will be about
July 15th and election one week follow-
ing.

The constituency is a very scattered
one and entails a lot of work upon the
returning officer in the distribution of
ballot boxes, etc.

It is estimated that not more than
perhaps 250 votes are available for polling
purposes.

The candidates for both parties are in
the field. Hugh Aitken, editor of the
Nanaimo Herald, represents the Liberal
cause, and Wm. Manson, of Nanaimo,
the Conservative party. The campaign
though a short one will be conducted
vigorously.

It is generally conceded that the vic-
tory will be with the Liberals and that
Mr. Aitken will be elected to fill the
place of Mr. McInnes. He is a very
ready speaker and is very popular where-
ever known.

The Alberni correspondent of the
Times, referring to the situation, says:
"For some weeks past, and consequent
upon the fact of the appointment of W.
W. B. McInnes to the Yukon govern-
ment, the voters of this constituency have
been more or less keenly interested in
the prospect of a fight on the part of the
Liberals to retain and the Conservatives
to capture the seat. The electoral
district is one of the most extensive and
widely scattered kind, extending from
the extreme north of the Island, Cape
Scott, to Wellington and Texada Island.

The Conservatives early took the field
with their very popular and formidable
candidate, Mr. Manson, who soon made
his appearance, and during a visit of ten
days, personally called upon every ac-
ceptable voter and raised the spirits of
the local Conservative party to the high-
est pitch.

The local Liberal Association had
much difficulty in ascertaining whether
a vacancy really existed, but after some-
delay a meeting was called, at which it
was decided to invite delegates to as-
semble here from all parts of the con-
stituency at a Liberal convention to
choose a successor to Mr. McInnes.

A very strong feeling existed in Al-
berni as to the desirability of having a
local man to represent us, and this took
practical effect at the meeting of the as-
sociation held on Tuesday, the 13th of
June, for the purpose of choosing dele-
gates to the convention. At this meet-
ing the local men were nominated, and
the subsequent ballot resulted in the
choice of J. W. Bledsoe, who has for
many years resided in, and been very
prominently associated with Alberni.
He is a very effective and persuasive
public speaker, an excellent man of busi-
ness, a man of very varied experience
and undoubtedly a taking personality,
added to all which is the fact that he
possesses the time and means to devote
himself to a political career.

At the above mentioned meeting four
delegates to the convention were chosen
by ballot, presumably pledged to support
the candidature of Mr. Bledsoe.

Within a few days, however, it became
generally known in Assent that a can-
didate from outside the district would be
also submitted to the votes of the con-
vention, in the person of Hugh Aitken,
of Nanaimo, editor of the Nanaimo
Herald.

This added much interest to the meet-
ing of the convention, which was held
here on the evening of June 28th, and at
which 15 delegates from every centre of
population in the electoral district, from
the hamlets and towns on this West
Coast, from Parkville, Wellington,
Texada, etc., assembled, many of them
at very great personal inconvenience and
loss of time.

The delegates selected Mr. Raper, of
Texada, as their chairman, and after two
hours deliberation it was announced
that Mr. Aitken had received nine votes
and Mr. Bledsoe six. The selection of
Mr. Aitken was then made unanimous.

The members of the local Liberal As-
sociation were then admitted. Mr. Aitken
made a graceful and effective speech, ac-
cepting the nomination as the Liberal
candidate for Alberni. Mr. Bledsoe, in
a speech full of tact and good sense, ac-
cepted his defeat in a manly and straight-
forward manner. He pledged himself to
the loyal and faithful support of the
party, and called upon all his friends to
do their best for the success of the Lib-
eral candidate in Alberni.

Telegrams expressing continued con-
fidence in their leadership were dis-
patched to Sir Wilfrid Laurier, and to J. A.
Macdonald, the provincial party leader.
Many of the delegates made short
speeches, expressing their great satisfac-
tion at the unanimity, good feeling and
party discipline which had characterized

the meeting, and they were unanimous
in the cordial expression of pleasure at
the kindness and good fellowship experi-
enced during their visit to Alberni.
After a vote of thanks to the chairman,
which elicited a graceful reply, the meet-
ing broke up, each man confident of vic-
tory at the polls for the Liberal candi-
date.

WASHOUTS ON RAILWAYS.

Trains on Eastern Roads Entering
Denver Are Delayed.

(Associated Press.)

Denver, Col., July 3.—Eastern roads
entering Denver are experiencing the
most serious delay to traffic that has
occurred in several years. All of the
Eastern roads were unable to get their
trains to Denver on time on Sunday, and
those leaving the city had to go so slowly
that they will as a result be late in arriv-
ing at their destination. The trouble is
caused by unexpected delays in the
Nebrawas and Kansas.

The Burlington has 200 feet of track
washed away between Alaphoe and Hol-
brook and it became necessary to use
the Union Pacific tracks. The tie-up is
causing delay in the arrival of delegates
to the Epworth League convention here.

Development of Big Ore Shows on
Centre Star and Le Roi.

Roseland, B. C., July 1.—The develop-
ment of the big ore shows on the Centre
Star and the Le Roi continues with the
most gratifying results. The mine in
the main lode from the ninth level of
the Centre Star is now down 170 feet
below the ninth level, and is in one of
the best grades all the way. Preparations
are under way to extend the main
shaft down from the ninth level in order
to develop this splendid shoot of pay ore.
In the Le Roi the ore has virtually been
proven from the 1,250-foot level to the
1,550-foot level in order to develop the
shoot. These two shoots insure ore in
the two mines for the next two or three
years, and show what deep mining is do-
ing for the camp.

The following are the shipments for the
week: Le Roi, 2,256 tons; Centre Star,
1,200 tons; War Eagle, 1,320 tons; Jun-
bo, 200 tons; Spitree, 75 tons; Lilly May,
30 tons; total for the week, 5,501 tons;
total for the year, 107,804 tons.

WINNIPEG NEWS.

Explosion of Boiler of Locomotive— Laborer's Suicide.

Winnipeg, June 30.—The boiler of a
locomotive attached to a freight train
on the C. P. R. blew up at Kinloch, a
short distance west of Maple Creek, to-
day. Engineer Barrett, Fireman Fitch-
ard and Brakeman Smith, of Medicine
Hat, are reported badly hurt. The loco-
motive was a new one, having been
trued out of the Montreal shops a few
months ago.

A Polish laborer, named Shiebruski,
aged 60, committed suicide this after-
noon, placing a rifle along his body and
pulling the trigger with his toe. His head
was completely blown off. His wife was
asleep in an adjoining room. His health
and poverty were the causes.

ANOTHER JAPANESE LOAN.

Not in Immediate Need of Funds but
Country Looks Ahead.

(Associated Press.)

London, July 3.—K. Takahashi, the
special Japanese commissioner of Japan,
on his arrival here yesterday, definitely
announced that Japan would take the
earliest favorable moment to issue a new
loan in New York and London and on
the Continent. Details regarding the
loan, he said, were unsettled, but it
probably would be \$150,000,000 and
would be secured on the tobacco mono-
poly. He added that Japan was not an
immediate need of funds but it was her
policy to look ahead.

WHEAT IMPORTS.

(Associated Press.)

Liverpool, July 3.—The imports of
wheat into Liverpool last week were
19,000 quarters from Atlantic ports and
154,000 from other ports. The imports
of corn from Atlantic ports last week
were 19,700 quarters.

STEAMER ASHORE.

Passengers Taken Off by Russian
Auxiliary Cruiser and Landed at
Aden.

(Associated Press.)

Aden, Arabia, July 3.—The Russian
auxiliary cruiser Rion arrived here to-
day, having on board 618 persons from
the French steamer Chiod, from Saigoa
for Bordeaux, which is ashore off Cape
Gaidafu at the mouth of the Gulf of
Aden.

The Rion, which was homeward bound
from Batavia, was attracted by the sig-
nals of the survivors, who managed to
get ashore at Cape Gaidafu despite the
hostility of the natives. Only a few
lives were lost during the transfer of the
passengers and crew from the Chiod to
the shore.

ARRESTED AT SEATTLE.

(Special to the Times.)

Seattle, July 3.—E. J. Lewis, an in-
surance agent, who is alleged to be wanted
for forgery in Illinois, was arrested by
the police last night just as he was
boarding an up Sound steamer.

LADIES' TENNIS MATCH.

(Associated Press.)

London, July 3.—In the semi-final
round of the ladies' championship sin-
gles at Wimbledon to-day, Miss Mer-
Stanton, of England, defeated Miss
A. M. Morton.

THE PASSING OF FAMOUS AMERICAN

SUDDEN DEATH OF SECRETARY HAY

A Varied Career—Aide-de Camp to Lincoln, An Author and a Diplomat

Newbury, N. H., July 1.—Secretary of State John Hay died at 12.25 this morning. The signs immediately preceding his death were those of pulmonary embolism.

Mr. Hay's condition during all of Friday had been entirely satisfactory. The bulletin of Secretary Hay's death was signed by Dr. Charles L. Scudder and Dr. Fred T. Murphy.

Mrs. Hay and Mrs. Scudder and Murphy were at the secretary's bedside when the end came. The secretary had good-night to his wife and to his attending physicians about 10 o'clock last night, at the close of one of the best days he has had since his illness.

The local trouble was clearing up satisfactorily, according to Dr. Scudder. The secretary suffered none of the old pains in his chest which characterized his earlier illness. He had been perfectly comfortable all day and happy in the anticipation of leaving his bed for the greater freedom and comfort of a couch.

At 11 o'clock he was sleeping quietly. A few minutes after 12 o'clock he called the nurse, who at once summoned Dr. Scudder. Both Dr. Scudder and Dr. Murphy hastened to the bedside. The secretary was breathing with difficulty, and expired almost immediately afterwards at 12.25.

The body will be taken from Newbury by special train at 11.30 a.m. to-morrow to Springfield, Mass., where the funeral car will be attached to the regular Boston-Chicago train for Cleveland, Mr. Hay's former home. Private services will be held in the chapel at Lake View cemetery, Cleveland, Wednesday afternoon. President Roosevelt has advised Mrs. Hay that he will attend the service.

The King's Telegram. Oyster Bay, L. I., July 1.—The first cablegram received by President Roosevelt from a foreign ruler regarding Mr. Hay's death came from King Edward, which follows:

"London, July 1, 1905. 'To the President:'

"I beg to offer the expressions of my deepest sympathy on the occasion of the death of your distinguished secretary of state, Mr. Hay, whom I had the pleasure of seeing very recently. His loss to the great country over which you preside will be a national one.

"(Signed) EDWARD R. To the cabinet of King Edward, the President replied as follows: 'To His Majesty King Edward VII., London:

"Pray accept my hearty thanks for the expression of your sympathy in our national bereavement. (Sgd.) THEODORE ROOSEVELT."

John Hay was born at Salem, Ind., October 8th, 1826. He was graduated from Brown University in 1858, and on leaving college entered the office of Abraham Lincoln in Springfield, Ill., to study law. In 1861 he was admitted to

the bar, but did not practice. In that same year he went with Lincoln to Washington as one of the President's private secretaries. During the civil war he was also Lincoln's adjutant and aide-de-camp. He served in the field for some time under Generals Hunter and Gilmore. He was brevetted lieutenant and lieutenant colonel.

After the death of Lincoln he was made secretary of legation at Paris, remaining there till 1867, when he became charge d'affaires at Vienna. After holding this post for a year he resigned and returned to the United States, but was sent almost immediately to Madrid as secretary of legation, where he remained till 1870. On his return to the United States he took up journalism and was for a time on the editorial staff of the New York Tribune, and published in its columns his "Pike County Ballads."

After about five years of service on the Tribune he married a daughter of Amasa Stone, of Cleveland, Ohio, and went to that city to live. He devoted himself mainly to literary work, and occasionally took part in politics, writing and speaking in presidential campaigns. In 1879 he accepted an offer from President Hayes to become first assistant secretary of state under Mr. Evarts. He held this position till the end of the Hayes administration. In March, 1881, he took charge of the Tribune work and conducted it with marked success through the trying period of Garfield's assassination and death.

In March, 1897, President McKinley appointed him United States minister to England, and the selection was declared by all without distinction of party, to be most suitable. In London he was well received and did much to bring about friendly understanding between England and the United States. His London experience was most valuable training for the important position which he was appointed to in August, 1898, when he became secretary of state.

Very few of those who have been at the head of the state department have dealt with so many important questions as Secretary Hay, and probably none of them were so thoroughly trained diplomats. He also negotiated and signed the Hay-Pauncefote treaty, and a treaty with Great Britain providing for the submission of the Alaskan boundary question to arbitration. The Hay-Pauncefote treaty, signed November 18th, 1901, replaced the Clayton-Bulwer treaty as an Anglo-American agreement of policy regarding an Isthmian canal, then supposed to be fixed across Nicaragua. It was drawn up by John Hay and Sir Julian Pauncefote, ambassador from Great Britain.

Secretary Hay was known as an author also; his publications including "Pike County Ballads" (1871) and other poems; "Castilian Days," one of the best books on Spain in the English language, and "Life of Abraham Lincoln" (1899), written in collaboration with J. G. Nicolay, an authoritative biography of Lincoln.

On several occasions, owing to illness, Secretary Hay has proposed to tender his resignation, but owing to the large number of important matters connected with his department, he has been prevailed upon to remain. On June 15th Mr. Hay arrived in New York from Europe, having been much improved by his sojourn abroad. At that time, however, the ravages his illness had caused were plainly visible and it was freely predicted that the secretary of state would never again be a well man. Secretary Hay left Washington last Friday for his summer home on Lake Success. He had been in Washington since the preceding Monday after his return from Europe. During his brief stay in Washington Mr. Hay attended actively to business before the state department, and had several interviews with the President on important pending questions.

FLOATING POOLROOM.

Steamer Made First Trip on Lake Michigan Thursday—Racing Result by Wireless Telegraphy.

Chicago, June 30.—The steamer City of Traverse, America's first wireless floating poolroom, has made its initial trip on Lake Michigan and by the admission of the police opened a reign of bliss for race-horse gamblers. The owners of the boat are believed to have performed the smartest gambling trick yet seen in this city, and Chief of Police O'Neill last night said that under a decision, written by the legal advisers of the city, he is powerless to interfere. The jurisdiction of Illinois does not extend into Michigan or Indiana waters, and there is no federal statute prohibiting gambling on federal waters, so that it is believed that the managers of the poolroom have outwitted the law.

When the boat left Chicago it carried 200 passengers, one-third of the legal limit. The steamer was taken to a point 22 miles southeast of Chicago, half way between Michigan and Illinois, and 10 miles north of Iddiana. She was careful to avoid going back into Illinois waters, while gambling was going on on board her, for the reason that several detectives were on board and a raid would have resulted immediately. The boat remained for the afternoon in the open lake.

Just at the time that the boat commenced to make the circles, the wireless telegraph apparatus began to pick up race reports, the second race at Shrewsbury Bay being the first event on which the betting odds were received. The first message was received at 1.45 o'clock and at 2.08 o'clock the result of the race was received. From that time until 5 o'clock the results and betting odds came without interruption both from Chicago and Michigan City. Bets were made and paid as if at the race track. The owners of the boat declare they will make daily trips and expect nobody will interfere.

YOU ARE AILING.

Not quite sick—but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but had enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious! It sharpens the keenest appetites, makes it keen as a razor.

Blood? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy all come from this great restorative. Fifty cents buys a box of 50 tablets at all dealers.

BATTLESHIP FOR JAPS.

The Peresviet, Which Was Sunk at Port Arthur, Has Been Flotated—Tragedies on Czarevitch.

Tokio, June 29.—The Russian battleship Peresviet, which was sunk at Port Arthur, was floated by Japanese yesterday.

Murder and Suicide.

Astoria, Ore., June 30.—Capt. Robertson, of the steamer Sandhurst, which arrived here to-day from Tsingtau, China, states that while he was there he was a witness to a short distance from the disabled battleship, the Czarevitch. Robertson states when he saw of Robertson's defeat was received there, the captain of the Czarevitch committed suicide.

One of the Czarevitch's officers while reading an account of the battle which blamed defeat on the sailors, was overheard by a sailor on the Czarevitch, who picked up a hammer, and saying: "It is such men as you who are to blame," brained the officer.

Town Opened.

Washington, D. C., June 30.—The state department has been advised by the American minister at Tokio that the Japanese military commander has by proclamation opened to the Japanese merchants for trade and travel the following Manchurian towns: Fashiki, Odi, Nohwang, Haicheng, Anshantien, Lyao-hwang, Kaiping, Sengwang and Cheng Saimachi. The information was given the American minister that the action was purely a military measure.

BOUNDARY MINES.

Ore Shipments Last Week Amounted to 16,587 Tons.

Phoenix, July 1.—For the past week the Boundary ore shipments were as under: Granby mines, to Granby smelter, 12,680 tons; Mother Lode, to R. C. Copper smelter, 2,200 tons; Mountain Hope, to R. C. Copper smelter, 358 tons; Emma, to Nelson smelter, 187 tons; Ojo Denoro, to Granby smelter, 132 tons; Skylark, to Granby smelter, 130 tons. Total for the week, 16,587 tons; total for the year, 450,421 tons.

The Boundary smelters treated the following tonnage this week: Granby smelter, 12,940 tons; R. C. Copper smelter, 3,965 tons. Total for the week, 16,905 tons; total for the year, 470,850 tons.

Secretary Hay was known as an author also; his publications including "Pike County Ballads" (1871) and other poems; "Castilian Days," one of the best books on Spain in the English language, and "Life of Abraham Lincoln" (1899), written in collaboration with J. G. Nicolay, an authoritative biography of Lincoln.

On several occasions, owing to illness, Secretary Hay has proposed to tender his resignation, but owing to the large number of important matters connected with his department, he has been prevailed upon to remain. On June 15th Mr. Hay arrived in New York from Europe, having been much improved by his sojourn abroad. At that time, however, the ravages his illness had caused were plainly visible and it was freely predicted that the secretary of state would never again be a well man. Secretary Hay left Washington last Friday for his summer home on Lake Success. He had been in Washington since the preceding Monday after his return from Europe. During his brief stay in Washington Mr. Hay attended actively to business before the state department, and had several interviews with the President on important pending questions.

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases among which are the two greatest destroyers of human life, pneumonia and consumption. Chamberlain's Cough Remedy has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia. Price 25c. Large Size 50c.

ANNUAL CELEBRATION IN TERMINAL CITY

Was a Splendid Success—Thousands of Visitors and a Widely Varied Programme of Attractions

Domestic Day was celebrated in Vancouver on Saturday with the usual enthusiasm. There was a very large attendance of visitors, who all heartily enjoyed themselves. The programme was well varied and calculated to appeal to an equality of tastes. The Vancouver Gun Club held a successful meet at Fairview, and some excellent scores were made.

There was a good turnout at the military parade. The soldiers, consisting of the Mainland militia and the Fifth Regiment, presented an inspiring spectacle which attracted thousands, who lined both sides of the route of parade. The race show at the rooms of the Tourist Association was another enjoyable event of the celebration. In the yacht races the local games between Vancouver and Everett resulted in an even break. The Terminal City won the morning match by three to two, and Everett reversed the situation, in the afternoon by six to nil.

Victoria won the cricket match, the story of which is told by the following scores: Victoria—First Innings. Warden, c Collins, b Crossfield 40; W. York, b Rigby 40; Cobbett, b W. b Hodges 24; L. York, b Jukes 24; Burns, c Collins, b Rigby 10; Tye, c Walton, b Rigby 10; Garnet, b Jukes 23; Rogers, c Rigby, b Jukes 23; Messers, b Jukes 23; Murray, c Hodges, b Jukes 2; Gook, not out 2; Extras 10.

Vancouver—First Innings. Ferris, c Barnacle, b Gook 8; Rhodes, c Tye, b Gook 4; Rigby, c Rogers, b Gook 4; Crossed, c Messies, b Gook 36; Walton, not out 26; Judge, c Hillton, b Gook 2; Hodges, c Hillton, b Gook 0; Suckin, b W. York 25; Jukes, b W. York 0; Collins, b W. York 0; Cline, c Rogers, b Gook 0; Extras 10.

Victoria—Second Innings. L. York, not out 24; Gook, c Judge, b Crossfield 0; Barnacle, b Rigby 8; Cobbett, c Collins, b Hodges 8; W. York, c Rhodes, b Hodges 0; Rogers, b Hodges 0; Garnet, b Rigby 2; Hillton, b Rigby 0; Messies, c Clinton, b Rigby 2; Tye, c Collins, b Hodges 2; Extras 2.

Vancouver—Second Innings. Hodges, c Hillton, b Gook 1; Suckin, c Rogers, b Gook 8; Gook, not out 8; Rigby, c Warden, b Gook 4.

Total for three wickets 22. The Vancouver Jockey Club was certainly to be congratulated on the success of their second day's race meeting at the Hastings track. The results of the different events are given as follows: 1. Trot or pace for horses owned in British Columbia prior to January 1st, 1905; 2.40 class; mile heats; 3 in 5; purse, \$250; Ramford Boy; 3; Starmont, 2; B. C. King, 3.

furlongs; \$150; Eldred, 1; Amaro B., 2; Lady Milora, 3. Time, 1:04.4. 3. Dominion Day handicap, of \$400, guaranteed for 3-year-olds and upwards; 1 1/4 miles; Eldred, 1; Goldfunder, 2; Weirick, 3.

4. Ladies' plate, of \$150, for all ages; weight for age; 7 lbs. under scale; beaten horses this meet allowed 5 lbs.; three-quarters of a mile; Mai Lowery, 1; Vancouver, 2; Doufflet, 3. Time, 1:22. 5. Expressions' race, half mile, a sweepstake with purse added by the V. J. C.; catch weights; January, 1; Dick, 2; June, 3.

6. Consolation purse, for beaten horses at the meeting; 6 lbs. under scale; half mile, \$125; Goldfunder, 1; Seventy, 2; Brigette, 3. Time, 53 seconds. The lacrosse match between New Westminster and Vancouver was won by the Royal City team by a score of twelve goals to nil.

The military road race was won by Elley in 48:50. The celebration wound up in the evening with a celebration dance and a water carnival.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, July 3.—9 a. m.—The summer type of high barometric pressure covers the entire North Pacific slope, and fine warm weather is general throughout this province and southward to California. Rain has fallen in British Columbia and thunderstorms are likely to occur in the Territories to-day.

Forecast. For 36 hours ending 5 p. m. Tuesday. Victoria and vicinity—Light to moderate winds, continued fine and warm during the day. Lower Mainland—Light to moderate winds, continued fine and warm to-day and Tuesday.

Reports. Victoria—Barometer, 30.14; temperature, 52; minimum, 51; wind, calm; weather, clear.

New Westminster—Barometer, 30.12; temperature, 48; minimum, 48; wind, calm; weather, clear.

Kamloops—Barometer, 30.00; temperature, 60; minimum, 56; wind, calm; weather, clear.

Barkerville—Barometer, 30.06; temperature, 49; minimum, 46; wind, calm; rain, .14; weather, fair.

San Francisco—Barometer, 29.98; temperature, 56; minimum, 54; wind, 4 miles S. W.; weather, clear.

Edmonton—Barometer, 29.88; temperature, 54; minimum, 50; wind, calm; weather, cloudy.

PASSENGERS.

Per steamer Umaitilla from San Francisco Miss Drost, Miss Hunter, Miss E. Brock, Miss A. Wilson, J. Silva, Mrs. Wynne, Mrs. Capt Porter and daughter, W. Murray, J. Mosper and wife, Mrs. W. Murray, J. Archibald, Miss W. Johnson, T. Thomson, E. De Fort, Mrs. J. Gannon, J. Gannon, E. Corbett.

CONSIGNEES.

Per steamer Umaitilla from San Francisco—Bowers Rubber Co., Briggs & Chamberlain, C. E. Ross, D. H. Ross, E. O. Prior & Co., P. E. Stewart & Co., G. E. Farwell Bros., D. H. Stewart & Co., G. E. Farwell Bros., Saunders Groc Co., Quong Sing Tai, R. Porter & Sons, R. Angus, R. Baker & Son, Stewart & Co., S. Leiser & Co., Vie Machine Co., Vancouver Portland Cement Co., W. A. Ward & Co., Wilson Bros., Wells, Fargo & Co.

Explained—"I think," said the reporter, "that the public would like to know how you managed to live to such a great age." "By perseverance," replied the centenarian: "I just kept on living."

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When reduced with water and sweetened it is pleasant to take. You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will need it badly; you will need it quickly. Why not buy it now and be prepared for such an emergency? Price, 85 cents.

A VISIT TO THE SALMON TRAPS

STEAMER MAUDE TOOK COMPANY THERE FRIDAY

An Industry of Great Promise Springing Up Along Southern Shore of Vancouver Island

The first lift of salmon by the Capital City Canning & Packing Company of Victoria was witnessed on Friday last by a small party composed of officers of the company and a few guests who were honored with an invitation to be present on the occasion. Although the actual work of lifting the trap has lost part of its novelty because of the successful operation of the same system by Todd, Munroe and others last year the trip on Friday was even more interesting than those made last year, because it offered an opportunity of witnessing what one year's successful though limited operation of the trap system has accomplished. The extent, but above all, the significance of that development is such that even the evergreen battalion of quitters and knockers who are constantly decrying enterprise and new industries could scarcely survive an ocular demonstration of the value to Victoria of the trap fishing industry.

For the sake of these and of all who have not been able to witness what has taken place, but an hour's sail from their own city, it may be wise to set down categorically what has been done, prefacing it with the bare statement that last year only two traps could be installed before fishing commenced, and these were to some extent at least tentative and experimental in character.

That was about a year ago before the fact had been proved that salmon could be taken in paying quantities on the Vancouver Island shore. To-day there are about ten of these traps in position along a shore line of six or eight miles. The first one is encountered at Beecher Bay, another just beyond Sooke, and the remainder between Otter Point and Sherringham Point.

Flying between these traps and Sooke harbor is a small fleet of tugs constantly moving back and forward with scows in tow, and giving activity and life to the scene. Around each trap is employed a considerable number of men, whose duty it is to watch the run, lift when the traps are full and otherwise provide what manual labor the operation of the traps entails.

The bases for this little fleet is the somewhat historic harbor of Sooke—once the scene of considerable industrial development, but of late years almost abandoned by vessels in the regular pursuit of trade. This year that is all changed. On Friday when the party, including the writer, the tug Sadie, Phoenix, Bermuda and Butie were busily plying in and out from their anchorage to the traps. Here the pile drivers, scows, etc., are kept, and all the companies make Sooke their base of operations.

Even this is not all, as the party steamed in to Esquimalt harbor in the evening they could see near the upper end of the bay the roofs of the large canneries which have already been erected to cure the salmon and prepare it for market. The canneries being the most expensive is naturally the last reached. But it is only a question of months before the cannery erected by Todd and Munroe will be followed by similar manufactures to make market-able the fish caught by the other companies. In the meantime the latter find a remunerative market with the Fraser river canneries.

If all this expansion has taken place in twelve months it does not require a very vivid imagination to paint what the next five years will do in developing this new industry tributary to Victoria. Even this, important though it is, is but an index of her trade activities, which are scheduled to follow. On Friday the Capital City Canning & Packing Company's guests assisted in planting in the waters of Sooke harbor three barrels of luscious Eastern oysters. Few men on this coast have studied the propagation of the delectable bivalve being sufficiently satisfied with its consumption. But Messrs. Young, of the New England Hotel, have for years had their own beds at Sooke, and the pains they have taken to keep them stocked with good varieties sufficiently indicated the commercial appreciation they place on the enterprise. These shrewd business men have known for years what expert Kemp and Fraser, fishery expert, discovered, and remarked on Friday that Sooke harbor in the character of the ooze which constitutes its bottom, in the salinity of its waters, in the temperature of the same and in the immunity of the bay from storm, and in the absence of the dreaded star fish is an ideal breeding ground for oysters. Mr. Kemp has been a close student of this branch of the marine life, and cannot understand the indifference of the Canadian people to the pecuniary gain to be derived from the intelligent fostering of the oyster, lobster and clam trade.

As nearly every industry has by-products which themselves afford employment and profit to those who develop them, the trap fishing industry seems bound inevitably to lead ultimately to expansion, along lines just now impracticable, or at best inadvisable. "All fish come to the net" of the trap fisher, but all are not welcome. But it is incredible that men whose enterprise is typified to-day in the costly pilings and nets erected to take salmon will for long wantonly destroy, with the unwelcome dog fish and the other species of salmon, which are valueless for canning purposes.

Having the facilities for taking and curing salmon, they are likely before long to look to other forms of fish life in the year. And just in proportion that they do so will the boat builder, mechanic, sail loft employee and fisherman profit. The trip made on Friday was on the

Every householder in the land is recognizing the benefit of buying pure goods.

Cowan's Cocoa Chocolate and Cake Icings Are Absolutely Pure! THE COWAN CO., Ltd., Toronto

good ship Maude, the old packet which has in days past served almost successive generations as a carrier out of this port. In the old days when she sailed down past Otter Point, Sooke and Alberni, she was a side wheeler with a penchant for a kind of "rolling" against which no police regulation can be levelled. The Maude herself has taken part in the march of progress, for since coming into the hands of Messrs. Bullen she has left their enterprising touch, and now rejoices in a propeller and timber-stanch as those of any ship of her age or of much younger years, in fact, that sails these waters. The Maude, indeed has become rather a marine aristocrat in her old age, for she now carries a most modern wrecking and salvage plant, and has become so useful to the underwriters that she is retained in commission continually by Lloyds. It was by courtesy of H. T. Bullen, who generously placed the Maude at the disposal of the Capital City Company that the trip was made on Friday. The party on board the Maude included D. E. Campbell, president of the Capital City Canning & Packing Company; Capt. J. G. Cox, vice-president; directors, W. Turpel, Capt. William Grant, Richard Hall, M. P. P., Thos. Walker and W. J. Leary who is managing director of the company, and the following guests: W. E. Oliver, of the Bank of B. N. A.; H. B. Thomson, of Turner, Beaton & Co.; H. G. Wilson, of Wilson Bros.; E. H. Williams, N. P. Gowen, E. Fleming, M. J. Young, John Nelson, of the Times, E. G. Taylor, fishery inspector, Gordon Smith and Mr. Kemp, of Prince Edward Island, who is planting the oysters already referred to for the Dominion government.

In order to be at the traps before seven the Maude sailed at the ghostly hour of 3 in the morning, and reached Otter Point by 6.30. Here the tug Butie awaited them, and to her they were transferred in one of the fine dories built for the company by W. Turpel, and which takes no account of chopping seas. A new house boat designed and copyrighted by W. Walker, and which it is hoped may yet float from a whole fleet of Capital City canning tugs, was here broken out from the balyards of the Butie, and the work of lifting the traps at once commenced.

These traps have now been explained by letter press and half told in the Times on a number of occasions, thus rendering almost unnecessary any description of the "traps" into which the fish turn when a school is arrested by its course. The final corral contains the "spiller" net, which is gathered by hand and by simple windlasses on the top of the piling. The final act consists of dropping a net bound with gas piping across the spiller. A line from the steam winch on the tug is then made fast to one side, and in a few revolutions the whole net with its contents is dumped on to the scows. These are filled up with compartments, into which the wriggling fish fall.

The stock of the letter is a row of piling with nets hung thereon running out from shore several hundred yards. At the seaward extremity are situated a succession of water "traps" into which the fish turn when a school is arrested by its course. The final corral contains the "spiller" net, which is gathered by hand and by simple windlasses on the top of the piling. The final act consists of dropping a net bound with gas piping across the spiller. A line from the steam winch on the tug is then made fast to one side, and in a few revolutions the whole net with its contents is dumped on to the scows. These are filled up with compartments, into which the wriggling fish fall.

To see several hundred of these beautiful gamey fish lifted at one operation is a sight full of interest. The run having barely commenced there were not more than six hundred in the Otter Point trap, although the Sherringham Island trap, which is afterwards visited, had already lifted, seemed to contain double that number.

There were about equal numbers of spring and sockeye salmon with the usual quota of piscatorial vagabonds in the form of dog fish, dog salmon and other unnamed varieties, which seemed to puzzle even those who professed expert knowledge on fish life.

On the return trip several hours were spent in Sooke, where the Capital City Canning & Packing Company's tug was employed to deposit the oysters referred to in the beginning of the article. Owing to the fact that the steamer was not reached until 5 o'clock in the evening. As each member of the party had annexed a salmon, and as the party almost filled one of the trays the car for that particular trip became the "Sockeye Unlimited." Some of the specimens weighed 45 pounds.

Throughout the trip the officers of the company spared no pains in attending to the comforts, material and otherwise, of their guests. If through a combination of weak stomachs and head seas some of said guests were not able to properly appreciate their attention the fault does not lie at their door. The breakfast and lunch spread for the delectation of the passengers was above reproach, and even some special dishes in the form of salads and other things were prepared from formulas which have never yet found their way into any cook book—possibly never will. Toasts to the company and its officers were offered by Manager Oliver of the Bank of B. N. A., which were fittingly acknowledged by Messrs. Campbell, Cox and others.

Altogether the outing was one, not of enjoyment alone, but of the most interesting interest to any who wish to more thoroughly study the promise and potentialities of this new industry of Victoria—that of salmon trapping.

The man who built a house and forgot to put in the stairs has been overshadowed by the Swanses corporation. They are building a fire brigade station and have just discovered that they have forgotten to provide room for the horse—London Builders' Journal.

A BROKEN-DOWN SYSTEM.

This is a condition (or disease) in which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be the causes for their occurrence, most numerous, its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigor—strength and energy. To throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the celebrated life-reviving tonic.

Marsden's for delivery of Daily Times.

ALBERNI.

Hon. W. W. R. McInnes has resigned his seat in the Legislature, and the government is going to have a member in that seat before it gets cold. The Premier evidently has a considerable quantity of latent energy in reserve which he can bring into use in a hurry when he thinks his purposes are likely to be served thereby. The purposes of the Premier in deciding so speedily that Alberni might be in a bad way if she were left without representation cannot be partisan, because we know from a diligent perusal of Tory editorials that the Tory party never under any circumstances makes use of electoral machinery to advance party purposes. It never has done that, and while it remains true to its immaculate principles it never will. However, it may be well to remember that Tory principles are not so deeply imprinted into the Tory constitution that they cannot be changed when convenient. As a matter of fact it is well known that the Tory party at Ottawa retained power for years after it has lost the confidence of the people simply and solely through its brazen manipulation of the electoral machinery. It would do the same thing again if it had the opportunity. The McBride government has applied the same principles during the short time it has been in power in British Columbia. It has withheld writs for elections or issued them in haste as seemed convenient or expedient from a party point of view.

The vacancy in Alberni was anticipated and was prepared for in accordance with a deep-laid plot for taking a snap verdict. But the Liberals have not been taken completely by surprise. They have a candidate in the field, and if the electors of Alberni choose the government man in preference to him, such an indorsement of the policy of the administration will greatly strengthen its hands for the future. There can be no mistaking or misapplying the significance of such a result. But when the record of the government is taken into consideration, when the mistakes it has made in its relations with the dictators of the legislature and the mischief that has resulted therefrom as plainly manifest in the conditions of business in the province are taken into consideration—when the unjust and unnecessary burdens it has heaped upon the public are realized with the end of the financial year, as pointed out in a conservative in this issue of the Times—when the political situation and the business conditions created by the McBride government are taken into consideration, there is little hope for a Tory in the Liberal constituency of Alberni.

THAT WATERWORKS REPORT.

This is the season of the year when physical nature rebels instinctively against labor of a too laborious character. A careful study of the report of Engineer Adams bearing upon our present and our prospective waterworks system involves a great deal of labor. That report is such a comprehensive, not to say complicated affair—especially to a layman and novice in engineering technicalities—that we feel none but the most highly endowed members of the Council can possibly have mastered its contents nor digested the facts that may be involved in its adoption. Therefore we would suggest that there is no particular hurry about dealing with the report.

The season of drought is upon us. The recommended reservoir cannot be built this year. The new pipes necessary to give an equality of pressure throughout the lower sections of the city cannot be put down in time to be of any service during the period of water scarcity. That fifty thousand dollars worth of meters cannot be applied at a moment's notice. The waste which distresses the souls of the practical waterworks men at home and abroad cannot be checked immediately. It may be that Mr. Adams on his short-time observations and with the assistance of the data so freely supplied him from all sources has elaborated the only plan by which the citizens of Victoria can be adequately served with water. It may also be that the men of nimble intellect at the council board have hurriedly digested and assimilated that formidable mass of opinions and figures. But, as we have said, there are the ordinary people who desire time to think the whole thing over because they have a more or less direct interest in what may follow. It is unfortunate that there is in the report in question much that is unfit for the eyes of those who pay water rates and other taxes, supporting all municipal services and paying for the intellectual labors of Mayor and Aldermen and experts who desire secretly to regulate things for them. But has the fact not often been proved—is it not being proved to-day in Russia—that ordinary tax-paying people do not know what is good for them? Give them time to realize that which is hid from their eyes—it is not well that they should know. Let them ponder in their dull-witted way over what they have been permitted to see, and they may be prepared to admit that all that has been done has been done for the best.

SECRETARY HAY'S INFUENCE.

John Hay, poet and statesman, rests from his labors. Mr. Hay in his conduct towards nations was regarded by statesmen of his time as a sort of diplomatic iconoclast. He had in his early years been educated in the direct, down-to-earth methods of Lincoln, and the consequence was that when there were international matters requiring adjustment Mr. Hay thought, and acted as though he believed, the straight and quick route to an understanding was the most profitable. The late Secretary of State in Mr. Roosevelt's cabinet, not Mr. Roosevelt himself, was the author and originator of the "new diplomacy." The new "diplomacy" in the hands of a man like John Hay was in very marked contrast to the brusque and insulting conduct of President Cleveland and his colleague, Richard Olney, during the misunderstanding between Great Britain and Venezuela. Cleveland, without any intelligent comprehension of the merits of the case, as was proved afterwards by the decision of the arbitrators, in the language of a national bully practically declared that Great Britain must submit to the course decreed by the United States or fight. Mr. Hay, on the other hand, while under his direction the United States has been admitted to a voice in international affairs becoming her position as one of the foremost nations of the world, has never by word or movement given cause of offence to any state, feeble or powerful. He has lived up to the spirit of the great man in whose presence he learned the plain, straightforward reasons of statecraft and to the spirit embodied in his writings. Further, it is to John Hay more than to any other man that the English-speaking people of the world to-day are indebted for the cordial spirit of fraternity and goodwill that prevails wherever the common language is spoken. Statesmen of Great Britain had long labored in speech and in act to bring about such an understanding; but all their efforts were futile as long as the malignant spirit of reasoning bitterness was kept alive by politicians of the baser sort whose chief aim in life was the gaining of votes. The recall of Lord Sackville-West at the instance of Grover Cleveland was the final exemplification of the spirit of international "know-nothingism." The change of sentiment with the advent of Mr. Hay upon the public stage in prominent positions was almost imperceptible. But the broad spirit of tolerance manifested itself and grew; the overtures of the British were accepted with cordiality on this side; and there is every indication that the feeling so successfully promoted and cultivated by Secretary Hay will live long after his name is forgotten.

Now the Russian ministers who were reported to have surrendered are likely to cause trouble by taking refuge in a part of Roumania. He would be a far-seeing man who could predict with anything approximating accuracy what is likely to happen before Russia's troubles are finally settled.

All records for marriages were broken in King County, Wash., during the month of June. There were two hundred and thirty-five marriage licenses issued, the Seattle Post-Intelligencer says. The heart of the divorce court lawyer will rejoice greatly at this announcement. It means as splendid increase of business for him.

THE PROVINCIAL GOVERNMENT.

To the Editor:—At the recent Conservative meeting in Victoria I notice that Mr. Burrell gives the provincial government credit for its courage in increasing taxation, and for its adjustment of the School Act. What has been done in this matter is

BEAUTIFUL CUT GLASS

A few pieces of rich cut glass give a wonderful sparkle and brilliancy to the dinner table; while for wedding presents, nothing is more highly appreciated than this fascinating ware. We have just put in stock a new and beautiful assortment of fruit and salad bowls, celery dishes, vases, bon bon dishes, water pitchers and numerous other pieces; all of the richest cut, and the prices are remarkably low. We ask you to inspect the same, as we are confident the quality and prices of our goods will commend them to you.

not yet known to many of our citizens, as the shoe will not pinch before 1906; then we will see how many of those who applauded last week will do so next year. The public schools as first established, and for years afterwards, were provided for entirely out of the provincial revenue, until the late John Robson, when Premier, thought it would be a smart thing to place a large share of the cost on the cities of Victoria, Vancouver, Nanaimo and New Westminster, which was most unfair in the face of a provincial public school system. If a strong man armed comes into your house you have to surrender and be robbed. The government has the power to give municipalities authority to lay on taxes, and this it has done with vengeance last session, without the smallest consideration for the city taxpayer, who is overburdened already, having to pay for hospitals, schools, sanitary, sewer rent, interest on debt, roads and streets, and for paying under local improvement plan, in addition to all other taxes. Two mills has been the rate for some time for school purposes, and this very thoughtful and generous McBride government has given authority to increase the rate from two to five mills. If they had, as they should have done, given authority to increase the rate 50 per cent., or three mills, some common sense would have been shown, but to jump at once to 150 per cent., or five mills, shows a strong want of discretion, and common sense. Then to improve matters and make them easier for the taxpayer, the McBride government has cut off the usual allowance per head for each child, and instead allow a part of the salary of teachers. If the city aldermen and school trustees do not show more discretion, common sense and mercy than McBride has done, it will go hard with city taxpayers, who will hereafter have to exercise the greatest care to elect aldermen—and school trustees who will feel the full responsibility, and share in the burdens they impose. All the cities which will feel the pinch should at the next election turn down the candidates supporting McBride.

A CONSERVATIVE TAXPAYER.

"Welcome to America, girlie. This is little of Noo-Yawk." "Pardon, M'sieu Jacques," she cried musically, knitting her brows as she tried to gather his meaning. "Oh, dirn," he declared, turning to Customs Officer Coney. "Say, stranger, this is my wife. I'm just a plain cowboy I'm Deadwood, S. D.—was with Buffalo Bill's outfit in Paree—met her—'nough said, stranger. But she can't talk English, an' I'm fair loosed when it comes to the woolly-wool. But tell her this is the Yew-nited States of America an' the place whar her beloved Jack Jennings first peeked at the daylight. Tell her it's time to say 'Hooley.'" "Officer Coney blinked in amazement and turned for refuge to the passenger list of La Savole, where he read: "M. et Mme. Jennings, Deadwood, S. D." "I'm afraid I can't help you," said the customs officer. "But you can talk English, so here goes to examine the lady's baggage." Mme. Jennings's trunks were opened. "Anything dutiable here?" "Pardon?" cried the dainty Parisienne wife of Jack Jennings, of Deadwood, turning to the cowboy for information. "Ask her if there's anything dutiable here," said Coney, absent-mindedly turning over the trills and furbelows that lay from the trunk. "Durn it, stranger," said Jennings, irritably, "I'm just after telling you I can't. You ask her. It's your ranch lyar."

JOB WORTH THE GETTING.

The Speakership of the British House of Commons is a good job. With his salary of \$25,000 a year, it carries the use of a magnificent residence in the Palace of Westminster, including the use of various allowances, perquisites and pre-

MINING MEN NOW VISITING CITY

AMERICAN INSTITUTE ACCORDED WELCOME

Addresses Given at Opening Meeting by Local Men—Reception in Parliament Buildings

The members of the American Institute of Mining Engineers arrived according to schedule from Seattle on Saturday morning. In the afternoon the business sessions were opened in the ministers' room, parliament buildings. W. F. Robertson, president of the local committee, opened the meeting. He said he would be brief, and introduced the visitors Sir Henri Joly de Lotbiniere. It was not necessary to introduce him to anyone in the province of British Columbia, where he was so well known and popular. Sir Henri Joly de Lotbiniere said he hoped the trip would not only be profitable to the visitors but a pleasure. The institute could do more for British Columbia than for any other province in the Dominion. The great natural resources with which Providence had favored British Columbia needed men like those who composed the institute to develop it. Premier McBride being introduced extended his welcome to the members. He said that those interested in mining in this province had watched very carefully the proceedings of the American Institute of Mining Engineers. The province of British Columbia was favored to have this world-famed institute visit it. He referred to the rich field for mining engineers in British Columbia. He was glad to greet these international associations, which were doing so much to cement the ties between Canada and the United States. The people of the West would always be glad to welcome the institute back again. They were glad to have them here and hoped they would profit by the trip and enjoy it. Mr. Robert W. Hunt, past president of the institute, in replying to the address, said that the members of the institute forgot the boundary line which separated countries and looked upon the one continent as only portions of the one continent. The United States visitors were portions of the one continent, glad to meet in British Columbia with people who were the same in blood, sentiment and everything else as themselves. Dr. Raymond, the secretary, then outlined the business which would come before the meeting. He explained that of the large number of papers which were down for presentation only a small number would likely be read. The others would be printed and distributed among the members later. W. J. Sutton addressed the institute on the geology of Vancouver Island. He explained that even knowledge of the geology of the Island was difficult to get in consequence of the fact that it was not very fully explored. He traced the geological history from the time when basic volcanic activity prevailed. Violent eruptions from the sea had taken place. Later the granite range along the Mainland was formed, sending tongues across into Vancouver Island. A period of rest followed, when sandstone

shales were deposited in the upper cretaceous period. This was followed by a period of volcanic activity. The Haddington Island stone was the product of this time. The outflow of lava at this time had, by cooling in contact with the bituminous coal bed at Cumberland converted it into semi-bituminous and anthracite coal. The glacial period following took its outlet by way of the Straits of Juan de Fuca in the south and by the northern Puca in the north and the northern Puca. He referred visitors to the glacial markings about Victoria and other parts of Vancouver Island, which were among the best in the world. The speaker then referred to the mineral deposits of the Island, outlining the character of the deposits so far discovered on the Island. The address proved very interesting and upon its completion various questions were asked by different members who sought fuller information relative to the geological formations on the Island. Great interest seemed to be manifested in the fact that bituminous coal had been converted into anthracite by an overflow of lava, and other instances of a somewhat similar character were referred to. Following this, Thomas Kidd, manager of the Tye smelter at Ladsmith, gave a brief outline of the methods employed by him in smelting copper ore carrying a high percentage of barites and zinc. This was referred to only in a general way as the visitors will on Tuesday have the opportunity of seeing the works for themselves and thus study the improved methods introduced by Mr. Kidd. In the evening a reception was tendered the visitors at the parliament buildings. It was held in the assembly room, which was attractively decorated for the occasion. The flags of Canada and the United States were draped together about the entrance and in the niches about the walls flowers were placed. His Honor Sir Henri Joly de Lotbiniere and his staff and the Premier McBride and members of the government, under whose auspices the reception was held, were present. Capt. Miles and a number of officers from the United States ship Boston also attended. On the first floor tables were spread and refreshments served. In spite of the fact that it was a holiday and many were out of the city, there was a very good attendance of ladies and gentlemen who embraced the opportunity of meeting the important visitors. At the suggestion of Herbert Cuthbert, secretary of the Tourist Association, a display of roses was made and at the conclusion of the function these were distributed among the ladies of the party. Yesterday the visiting members of the institute and their lady friends took in different points of interest accompanied by members of the local committee. At 10 o'clock this morning the party left on the steamer Princess May on an excursion, which will occupy the greater part of the day. This is given by the citizens under the auspices of the board of trade. Many citizens accompanied the party on this trip. To-morrow an excursion will be given to Mount Sicker and Ladysmith by way of the E. & N. railway. This is given by General Manager Clemons Livingston of the Tye Copper Company. On Wednesday business meetings will be held. From 4 to 6 in the afternoon a reception will be given the ladies by the Lieut. Governor at Government House. At 11 a.m. the party leaves on the steamer Princess May, for Vancouver, where a day will be spent before starting for Alaska. In Bangkok you travel from the steamer to the hotel on the back of an elephant.

through, while the cowboy stood by with a grin on his tanned face as the dainty Parisian garments came to light. "Say, stranger, it's tough havin' a wife that don't know it when you're tellin' her she's the sweetest thing in the world. She's my sweetheart, all right—ma bong core. Did I get it right that time, girlie?" Mme. Jennings burst out laughing. "Ah, M'sieu Jacques," she cried. "You air so stupid!" "Afterward, as they were about to start away in a cab, Jennings shouted: "Hi, rarsong, cabby, can you talk parly voo woolly-wool?" "Sure!" "Then tell her it's time to whoop. Tell her she's it; that they're goin' to raise a cyclone along of Broadway. Tell her it's Broadway we're comin' to." "Lady, he says you're all to the good," said the cabman. "Oul, oull!" laughed Mme. Jennings. "Je comprend. Ze Broadway—ze grand boulevard. Is, he?" "Whoop! Let 'er go, Bill!" shouted Jack Jennings. And away they went.

STRICT ORDERS.

Albany Journal. The following notice was observed posted in the engine dispatcher's office at the roundhouse in a neighboring town on one of the railroad lines running out of Albany: "Trainmen on passenger trains, must not go through the coaches with overalls on without first taking them off. "F. R. L."

GREAT INVENTIONS.

Chicago Record. The sewing machine, the folding bed, the carpet sweeper, and the gas stove were invented by men, but it was some girl probably who first thought of the hammock.

LITTLE BREECHES.

John Hay. I don't go much on religion. I never said no show; But I've got a middlin' tight grip, sir, On the handful of things I know, I don't pan out on the prophecies, And free will, and that sort of thing, But I believe in God and the angels. Ever since one night last spring, I've seen devils down with some terribles. No my little Gabe came along— No 4-year-old in the country. Could beat him for pretty and strong. Pearl and chipper and assy. Always ready to swear and fight— And I'd larnt him to chew 'erbacker. Jest to keep his milk teeth white. The snow came down like a blanket As I passed by Taggart's store. I went in for a jug of molasses. And left the team at the door. They scared at somethin' and started. I heard one little squall, And hell-to-eph, over the prairie— Went team, Little Breeches and all. Hell-to-split over the prairie! I was almost froze with skeer; But we rousted up some torches And searched for 'em far and near. At last we struck horses and wagon. Snowed under a soft white mound. Upset, dead beat, but of little Gabe. No hide, no hair was found. And here all hope soured on me. Of my fellow-critters' aid— I jest dopped down on my marrow bones. I crotch-fopped in the snow, and prayed. By this time the torches was played out, And me and Iral Parr Went off for some wood to a sheepfold. That he said was somewhat thar. We found it at last, and a little shed— Where they shut up the lambs at night; We looked in and seen them huddled thar. So warm and sleepy and white; And thar sat little Breeches and chirped. As peart as ever you see; "I want a chaw of 'erbacker, And that's what's the matter with me." How did he get thar? Angels! He could never have walked in that storm; They jest scooped down and toted him. To whar it was soft and warm. And I think that savin' a little child And bringin' him to his own Is a derned sight better business Than loatin' around the throne.

When Your Vacation Comes

Before going away be sure your supply of toilet articles is complete. Perhaps you need a tooth or hair brush, or a comb, or tooth powder, or toilet soap, or a soap case, or some of your favorite toilet water or perfume—we would like to supply it, whatever it is.

Speak well of the merchants who serve you, Of goods they handle each day, They are willing to please you, just let them, Don't grumble and hasten away.

Tell tourists that here they can purchase All goods of the very best stock. And in talking them over, now listen, Don't fail to mention "White Rock."

You know of its merits, you've used it, Without it, no home is complete, It's for sale by Pither and Leiser, At the old business stand, Yates Street.

Take in a supply of "SLAB WOOD" before the wet weather sets in. To be had at Lesmon, Goussard & Co.'s mills. Telephone 77. Prompt delivery.

Lifobony Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

The Mutual Life of Canada stands to-day at the head of all Canadian Life companies in the net amount of business in force in Canada gained during the last five years, as shown by the Dominion Government Blue Books. The percentage of profits earned, of its total income for the year 1904 were the highest of any company in Canada, while its expense rate was the lowest. For rates and information apply to A. B. McNeill, special agent, or R. L. Drury, manager, 34 Broad street.

The library returns for June follow: Books issued, 1,227; daily average, 47; highest number issued in one day, 71; new members, 12.

An important meeting of those interested in the Y. M. C. A. summer camp will be held to-morrow evening at 7 o'clock. It is the intention to pitch tents next Saturday afternoon. Any desiring information regarding expenses are invited to attend this meeting.

The Natural History Society will meet this evening in their new quarters in the parliament buildings, under the lands and works department. It is expected that this will be the last meeting before the summer vacation. In accordance with notice given a month ago, Dr. Haswell will move that the constitution be amended in order to admit a new class of membership.

The funeral of the late John Little took place yesterday afternoon from the Salvation Army barracks, Broad street. There was a large attendance and many beautiful floral emblems. Adj. Nelson conducted the services and the following acted as pallbearers: Messrs. A. Derdon, A. C. Arnold, W. McNeill, R. Bromell, W. Shilling and A. Dennis.

According to a special dispatch from Dawson a thousand miles of northern telegraph line have been rendered useless by the sweeping forest fires throughout British Columbia, Yukon Territory and Alaska. Dawson's communication with the outside has been broken several days, save by the interrupted connection via Skagway and the cable. Between Dawson and White Horse the line fell marginer records go she is not on this coast.

Sheik Haaji Tahar's troupe of seven Arabs upon a week's engagement at the Grand theatre to-night. This is a most sensational act, which includes a pantomime of the desert, the Hindoo basket trick, heavy dumbbell exercise, marvellous gun spinning, the dance of the Dervish and concludes with the fastest work ever seen in the city. Besides the Arabs the bill includes Eddie Ernie, champion monoxide dancer and acrobat; Fred Hayden, the concertina king and Bing-Sam and Thornton (Robert and Norma) in an original travesty singing act entitled "After a Husband." F. Roberts will sing the illustrated song "When My Golden Hair is Turned to Silver Grey" and the performance will conclude with a new and interesting line of moving pictures.

PATERSON SHOE CO.'S STORES

Over eight hundred Victorians spent Dominion Day in Vancouver. The exact number of excursion tickets sold for the holiday was 50. This represents one of the largest crowds ever visiting the Terminal City at Vancouver, by the local occasion.

The Baptist convention of British Columbia will be held in Victoria next week. The sessions will be held in Calvary church, beginning on Tuesday evening. The convention embraces all Baptist churches in British Columbia, and delegates from each will be in attendance. The general public will be cordially welcomed at all meetings.

On Saturday the E. & N. railway and local C. P. R. offices were amalgamated, the business of both passing into the management of George L. Courtney, formerly of the former road. Mr. Courtney succeeds Hamilton Abbott in the local agency of the C. P. R. Company, and henceforth the E. & N. railway will be officially known as the Vancouver Island division of the Canadian Pacific railway. Through the change Mr. Courtney will make his headquarters in the office on Government street.

Those members of the Fifth Regiment who intend taking part in the B. C. R. A. matches are requested to attend a meeting to be held in the drill hall on Wednesday night, the 5th inst., at 8.30 o'clock, for the purpose of discussing the question of camping at the Richmond range. The Royal Engineers are cordially invited to attend. The secretary of the Regimental Rifle Association has received a programme of the Manitoba Rifle Association matches. The matches will be held on Sturgeon Creek ridge on August 8th, 9th and 10th. The range on money prizes amount to over \$2,000. The date ought to suit members of British Columbia going to Ottawa.

The Fourth of July celebration at Port Angeles this year will eclipse all former efforts of this lively little town the programme of sports and amusements being particularly interesting. It is expected there will be one or more of the United States battleships in port, and in this case they will be open for inspection and will provide a picturesque illumination at night. The steamer Princess May will run an excursion from this city, making three round trips, leaving the C. P. R. docks at 9 a.m. and 1 and 7 p.m., the fare for the round trip being fifty cents. The Princess May is an ideal boat for an excursion of this nature, having ample deck space.

At the high school to-morrow the students of that institution and those trying for teachers' certificates will enter upon their examinations. It is expected that the candidates will not finish writing until July 11th. The programme announced for to-morrow follows: Junior grade, British history; afternoon, English grammar, intermediate grade, morning, British history; afternoon, English grammar. Senior grade, morning, British history. A large number of Victoria College pupils have announced their intention to try and a number of candidates are looked for from outside ports.

At the organ recital to be held at St. John's church on Wednesday evening next G. J. Burnett will be assisted by the Misses Lugin, Mrs. Lawson, Miss M. Todd, Miss G. Todd, Mrs. Jay, Mr. George Hicks, Mr. Gleason Hicks, Messrs. J. and R. Petch, and the choir. A programme of rare excellence has been prepared for the evening's recital.

Important instructions have been received from J. E. McLeod, superintendent of the mail service with headquarters at Vancouver, by the local postal authorities. Hereafter there will be a mail to and from Victoria to the Sound cities every day in the week, arrangements having been made for a mail on Monday, the day during which Victoria has not had mail communication with the States. For some time past the board of trade has been pressing for this improvement and it is principally due to the efforts of that organization that the change has been introduced.

THE STOCK MARKETS.
(Furnished by F. W. Stevenson.)
Chicago, July 3.—No session of the Board of Trade today. Liverpool wheat market weak, July 3d, lower at 6s. 11½d., September 3d, lower at 6s. 10½d.

New York, July 3.—The organized campaign to advance prices in the Stock market, which has been in evidence the past two weeks, was manifest again today, when the entire market made a substantial advance, some stocks making a new high record. The opening was well over Saturday, and the market firm during the entire session. The close was strong at about the top.

Government bonds strong, railroads irregular. Call loans 2½ per cent.

N. P. OFFICIALS.
Party of Prominent Railroad Men Were in Victoria on Saturday.

Pleasant weather and enjoyable drives over some of the magnificent roads around the city left a most favorable impression about Victoria in the minds of a party of prominent Northern Pacific railway officials who were here on Saturday. The party included Howard Elliott, president of the road; H. J. Horn, general manager of the railway; W. H. Gemmell, general manager of the Minnesota & International Railway Company, a subsidiary line of the Northern Pacific; Third Vice-President C. M. Levy, and A. D. Charlton, assistant general passenger agent of Portland.

Several ladies accompanied the officials, viz. Mrs. Elliott and three children and their governess, Mrs. D. A. Janu- ary and Mrs. John T. Davis, mother and sister of Mrs. Elliott; Mr. and Mrs. B. McK. Jones and Miss Mary Lionberger, all of St. Louis.

TACHTING.

RACES AT VANCOUVER.

The Seattle Yacht Club won the chief event in the international race at Vancouver on Friday. The yachts finishing first in each class were as follows: Class A—Gwendolin, of the Seattle Yacht Club, won 45 minutes from Maple Leaf. Class B—Ariadne, Victoria club, won in 4 minutes 20 seconds from Maddie. Class C—Empress II, of Seattle, won in 1 minute 22 seconds from Two Step. Class D—Tillium, of Vancouver, won by 22 seconds from Margitta, Victoria.

BASEBALL.

BELLINGHAM V. VICTORIA.

On Friday afternoon Victoria defeated Bellingham by a score of 8 to 5. For the first time local fans had an opportunity of seeing Boyle, the pitcher taken on from Seattle. His work was excellent. In the seventh inning he seemed to go into the air and Bellingham got its five runs in this inning. He recovered himself, however, for the two remaining innings and shut the visitors out again. The score was as follows:

four amateur runners to a one mile relay race, having a team that he is confident will hold its own against any British Columbia team.

LAWN TENNIS.

TOURNAMENT NEXT WEEK.

Next week will be a busy one for members of the Victoria club. It is to be marked by the annual handicapped tournament of that association, and according to reports the present holders of championships will have to look to their laurels. During the past few months a number of players have developed exceptionally the form and some really splendid exhibitions are looked for early in the series. The usual club prizes are offered for competition. Entries are being accepted by the secretary, J. Rithet, and he wishes it understood that only those whose names are submitted before Monday will be permitted to participate.

INTER-CLUB TOURNEY.

The return tourney between members of the Victoria club and the James Bay Athletic Association will take place next Friday and Saturday on the Kingston street courts. It is understood that the matches will be conducted in much the same manner as in the recent tournament on the Belcher street courts. If this course is adopted the doubles will take place on Friday and the singles on Saturday. The forthcoming series is expected to develop some exceedingly exciting struggles, as the James Bay representatives are determined to turn the tables on the Victoria club if possible.

THE RING.

WANTS ANOTHER MATCH.

The manager for Tony Vasser, the boxer who tried conclusions with Bert Clarke the other evening, writes to the Times as follows: "I would like you to publish the fact that Tony Vasser, who left Saturday night on the Princess Victoria, is very anxious to get a return match with Bert Clarke, of Victoria. He claims that in the bout with Clark at the Redmond theatre on June 29th he broke his hand in the second round. If he had had his hand in the second round he would have won the bout, and would like a return match to show that he is Mr. Clark's superior."

PROVINCIAL NEWS.

GRAND FORKS.

At an adjourned meeting of the city council the committee appointed to inquire into the advisability of retaining A. E. Savage in the city employ, recommending that he be retained at a salary of \$90 per month, one half of his salary to be paid by the fire department and half by the department of board of public works. At the same meeting it was decided to purchase some five acres of land in a suitable location for a public cemetery.

NELSON.

An estimate made by G. O. Buchanan, commissioner of the lead bounty, places the amount paid for the year at about \$325,000. The amount treated locally will be about 16,000 tons, at \$15 a ton—bounty—amounting to \$240,000. The amount exported to other parts of the province, which is bonused to the extent of \$10 a ton. These sums add to give \$350,000. But for a part of the time the London price of lead has been above \$12 1/2, the highest price at which the full bounty is paid. Mr. Buchanan estimates that the reduction of the bounty for that reason will amount to \$25,000, leaving \$325,000 actually paid.—News.

NEW WESTMINSTER.

A carload of farm machinery left here the other day for Spence's Bridge. Under ordinary circumstances no special interest would be derived, but the carload consists of a grain thresher, No. 6,177, and its appurtenances, the first ever brought into British Columbia. Curiously enough the man who imported the machine was at the depot to see it loaded. It is a Kipp of Chilliwack is the man. Regarding this thresher, Mr. Kipp recalled having, through the consideration of Capt. C. P. Moody, he was able to have it carried from San Francisco as ballast in 1835, in a ship which came to Moodyville for lumber. Mr. Kipp says it cost him just \$1,000 landed at his ranch.

PHOENIX.

Frank Foster, an employe at the Grady's mines was badly injured while at work on Tuesday that he died a couple of hours after being taken to the hospital. With his working partner he was operating a machine drill in a raise between the No. 2 tunnel and the No. 5 tunnel, when without warning a slab of ore came down from above pinning him to the ground and causing such internal injuries that he did not survive. The falling ore must have weighed 500 pounds or more, and it bent the heavy steel bar of the machine. The men were driving an upright hole at the time of the accident, using a six-foot drill, Foster had been employed in the Boundary mines for several years, being last employed at the Mother Lode before coming to Phoenix a comparatively short time ago. He was a young man of about 27 years, and leaves a widow with four children.

OVER THE HILL

At "Burlith" last Friday week Mrs. James Dunsuir gave a very enjoyable dance, at which there were about 40 or 50 guests.

Mr. and Mrs. F. W. Timm, of Vancouver, have been spending a few days in Victoria. Mrs. Timm is a sister of Mr. Leighton McCarthy, M. P.

At present lots of Victorians are visiting the Portland fair, and on Monday last a large number returned from there, some of whom went to play golf and some to see the fair.

Mr. E. Schofield left on Sunday for Portland, where he will attend the annual convention of the American Library Association, of which he is a member.

On the evening of last Friday week Mr. Leveson and his daughter, Miss Ruth Leveson, gave a most enjoyable musical at their home, "Arcades," Pemberton road, in honor of their guest, Miss Schiller.

The marriage last Tuesday of Miss Brooker, eldest daughter of Mr. and Mrs. Brooker, of Bellot street, and Mr. W. B. Sylvester, eldest son of Mr. and Mrs. F. Sylvester, of Ferleigh, Alfred street, was one of the interesting events of the month.

On Monday afternoon Mrs. Pemberton entertained a large number of friends at "Gonzales." The reception was in honor of the officers of the Italian cruiser Umbria, a large number of whom attended. Tennis and other lawn games were played.

Mr. and Mrs. J. L. Hughes, very recently spent some days in town as the guests of Mr. and Mrs. Hamilton Abbott at Elford street.

left for England on Wednesday for a visit. Miss Lottie Bowron left on Saturday morning for her old home in Barkerville in Cariboo district, where she will spend a month's vacation.

Mr. Leslie Bell, of the Bank of Montreal staff in Vancouver, is at his home suffering from a strained knee. A couple of weeks ago while yachting he had the misfortune to twist his knee as that absolute rest for a short time is necessary.

Mr. and Mrs. Fane-Sewell, of Seattle, recently spent some days in town as the guests of Mr. and Mrs. Hamilton Abbott at Elford street.

Dr. and Mrs. Sterling have left the Oak Bay hotel, and have taken up their residence in Belcher street in Mrs. T. W. Stirling's house, which they have leased.

During last week Mr. Jack Bryden, son of Mr. John Bryden, of Head street, was married in Cumberland to Miss Tarbell of that place. Miss Olive Bryden went up and was present at her brother's wedding.

The reception tendered by the government on Saturday evening to the visiting mining engineers and the ladies of their party was a great success, and if one can rely on what the visitors said about it they enjoyed it very much.

A sea mile is about 1.1515, or 1.16, statute mile. To be precise, a sea mile is a minute of latitude; that is, 1.000 of a degree, or 121,000 feet of the earth's circumference, if the earth were a perfect sphere instead of being lumpy.

There was a time when people spent their money for tooth powders, face lotions, hair tonics, etc., but not for a moment of their poor feet which had to bear the weight of the whole body day after day.

Mr. and Mrs. James Dunsuir on Saturday took a party of friends to Portland. They will travel by either the steamer Wellington or the steamer Thistle, and during their stay the party will live on the yacht, and thus escape the hot nights in Portland, which Victorians who are used to cooler weather sometimes find rather trying.

Mrs. J. McK. Smith has taken a cottage at Shawnigan lake, and with her family is now living in it. Mrs. Stanley McK. Smith is with the party.

JOYS OF MATERNITY

A WOMAN'S BEST HOPES REALIZED Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look forward to childless and lonely old age. Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement of the womb or a weakness of the generative organs.

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

Notice is hereby given that the Crystal Laundry Company, Limited, of 85 View street, Victoria, British Columbia, has, by deed bearing date the 20th day of June, A. D. 1905, assigned all its personal property, real estate, credits and effects, which may be seized and sold under execution, to Thomas Melbourne Brayshaw, of No. 17 Broughton street in the City of Victoria aforesaid, as trustee for the benefit of the creditors of the said Crystal Laundry Company, Limited.

Notice is hereby given that the Crystal Laundry Company, Limited, are required to forward to the undersigned, on or before the 21st day of July, 1905, vouchers, bills, receipts, and other documents, together with particulars of security which may be held by them, in respect of the said Crystal Laundry Company, Limited, which will be held at the office of the said Crystal Laundry Company, Limited, at 17 Broughton street, in the City of Victoria aforesaid, at four o'clock in the afternoon on Friday, the 23rd day of June, 1905, in the presence of the undersigned, for the purpose of the disposal of the estate.

Separate sealed tenders will be received by the undersigned, on Wednesday, the 12th day of July, 1905, from any person who may desire to obtain special licenses under the provisions of the "Lumber Act" for the purpose of cutting timber therefrom, of a timber limit situated at Quatsino, on Vancouver Island, known as— 1st. Lot 177, Rupert District, containing 6,422 acres; license fee, \$1,411.

Notice is hereby given that I intend to apply to the Board of Licensing Commissioners, at its next sitting, for a transfer of the license held by me to sell by retail wines and liquors upon the premises known as the Commercial Hotel, situated at the corner of Douglas and Cormorant streets, in the City of Victoria, to J. A. Macdonald, of this city. Dated this 13th day of May, 1905. JAS. STUCKEY

SYNOPSIS OF REGULATIONS FOR DISPOSAL OF MINERALS ON DOMINION LANDS IN MANITOBA, THE NORTH WEST TERRITORIES AND THE YUKON TERRITORY.

Coal.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton at 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location. A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

The patent for a mining location shall provide for the payment of Royalty of 2 1/2 per cent. of the value of the products of the location. Minerals.—Minerals in the N. W. T., excepting the Yukon Territory, are placed in three classes generally as follows: (a) Mining claims generally are 100 feet square; entry fee, \$5, renewable yearly. On the Yukon, snaketown River claims, whether bar or bench, the former being 100 feet long and extending between high and low water mark, the latter being 100 feet long and extending between high and low water mark, the former being 100 feet long and extending between high and low water mark, the latter being 100 feet long and extending between high and low water mark.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Snaketown River where the lessee may dig for and work for water mark on each alternate leasehold. The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease for five miles, the lessee shall be entitled to sufficient water for each five miles for each five miles of river leased. Royalty at the rate of five cents per acre per year shall be collected on the output after it exceeds \$10,000.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease. The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Royalty, \$100 per acre for first year and \$10 per acre for each subsequent year. Royalty, same as above mining. Placer Mining in the Yukon Territory.—Creeks and gulches in the Yukon Territory, not exceeding 200 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 200 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, and bearing notices. Posts must be obtained within ten days. If the claim is within ten miles of Mining Records office, the lessee shall be entitled to each additional ten miles or fraction. The person or company staking a claim must hold a free miner's certificate. The discoverer of new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only. Royalty fee, \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller. No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold an unlimited number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. The claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying fee of \$2. Work must be done on a claim each year to the value of at least \$200. A certificate that work has been done must be furnished each year, if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner. The boundaries of a claim may be defined absolutely by having a survey made and published notices in the Yukon Official Gazette.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having no other claims on the land to be prospecting an area of 1,000 acres for such period as he may decide, the length of which shall not exceed three months. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 400 acres, including the oil well, will be sold to the prospector at the rate of \$1 an acre, and the remainder of the tract reserved, namely, 1,200 acres, will be sold at the rate of \$5 an acre, subject to royalty at such rate as may be specified by Order in Council. Deputy of the Minister of the Interior, Dept. Interior.

CANCELLATION OF RESERVE Notice is hereby given that the reserve, the covering grant and the reserve of the Charlette Group, notice of which was published in the British Columbia Gazette and dated 20th January, 1901, has been cancelled and that Crown lands thereon will be open to sale, pre-emption and other disposition under the provisions of the Land Act, on and after the 21st day of July, 1905. W. S. GORE, Deputy Commissioner of Lands and Works, Lands and Works Department, Victoria, B. C., 20th April, 1905.

NOTICE Notice is hereby given that I intend to apply to the Board of Licensing Commissioners, at its next sitting, for a transfer of the license held by me to sell by retail wines and liquors upon the premises known as the Commercial Hotel, situated at the corner of Douglas and Cormorant streets, in the City of Victoria, to J. A. Macdonald, of this city. Dated this 25th day of May, 1905. (Sd.) MARGARET MAHA WELDON

CAMPERS Everything you need at the camp can be had at our BIG SECOND HAND STORE and AUCTION ROOMS AT BITTANCOURT'S BIGHURCH BUILDING, Cor. Broad and Pandora Streets. PHONE 4906. Don't forget big Auction Sale of Farm Stock on the 28th June. Particulars later.

HARDAKER AUCTIONEER. OPENING TO-NIGHT. Miss Margarita Fischer and Her Company Will Be at Richmond Theatre To-Night.

To-night will mark the opening performance of the Margarita Fischer company. Miss Fischer and her fellow players, 14 in number, arrived on Saturday. The company is conceded to be one of the strongest of dramatic troupes, and during their limited engagement here they will be seen in some of the most successful of late plays. As Felicia in "Mother and Son" to-night, Miss Fischer will be seen at her best. The play will run three nights, with a matinee on Wednesday. The last half of the week will be filled with a new comedy drama entitled "Utah."

HOW VICTORIANS SPENT HOLIDAY THE LOCAL DOMINION DAY CELEBRATIONS. Excursions to Vancouver and Neighboring Resorts Largely Patronized.

Ideal weather marked the 1st of July. Dominion Day, and Victorians took advantage of the opportunity to enjoy the holiday, turning out practically en masse to the different excursions to Vancouver and neighboring resorts. At mid-day Saturday the town presented a deserted appearance, commercial activity being entirely suspended, and the residential portions of the city equally as quiet. It would have been a red-letter day for house-breakers had any such characters set out to make a round-up, but the vigilance of the local police prevented any such occurrence, and, as far as can be ascertained, no residences were entered during the absence of their occupants.

At about 11 o'clock on Friday evening the first excursion boat to leave Victoria for Vancouver, where the 1st of July is always celebrated on an extensive scale, left the inner wharf. The Princess Beatrix was crowded with passengers, among whom were the officers and men of the Fifth Regiment who took part in the military portion of the Terminal City festivities. On Saturday morning the Princess Victoria took another large party of excursionists to the Mainland. Besides the military parade in the forenoon, the Vancouver carnival consisted of a lacrosse match, Vancouver vs. Westminster, in which the latter won by 12 to 0, and a cricket game between Vancouver and Victoria. This was won by the Capital City eleven by quite a margin.

One of the first special trains to leave the E. & N. depot Saturday morning was that secured by the local Eagle, in order to take members of the club and their friends to Ladysmith to pay a fraternal visit to Ladysmith brethren, and, incidentally, to have a good time. The programme was carried out very successfully. A variety of sports took place in which the Victorians participated with considerable credit. In the principal event of the afternoon, a base-ball match between a Victoria and Ladysmith team, the former were victorious by a score of 16 to 3. Holness and Robertson acted as battery for the Victorians, and did effective work, very few hits being secured from the former's delivery. Referees were liberally disposed, and a pleasant day was spent by all attending.

Sunday School Picnics. There were two union Sunday school outings on Saturday—Presbyterian at Goldstream and Methodist at Langford. There were quite a number of summer school pleasure parties. Large crowds attended both the Presbyterian and Methodist affairs, and those responsible for their management are to be congratulated upon the thoroughness of the preparations. Although the trains were packed to their utmost capacity, both going and coming, the pleasure-seekers didn't mind it—the inconvenience and discomfort was all in the day's fun. At Goldstream, after lunch, a number of interesting competitions took place, among which were races for children, girls and boys of all ages, wheelbarrow contests, potato, Victoria Cross, three-legged and shoe races, besides special competitions for old and young ladies, specially ap-

SHIPPING NEWS. Early this morning the steamer Princess May came in from Skagway with rather a small list of passengers. Those aboard were T. Allen and wife, Rev. B. Tolly, Mrs. Tolly, Rev. J. Hawksley, Miss Hawksley, Ellen Williams, A. H. Brooks, H. Pratt, H. Laid and ex-governor A. B. Swinerton of Alaska. Several commercial travellers were passengers as far as Vancouver. They had been through to Dawson and all report that the Dawson mining district is in better shape this year than last. That travel has been so light from there this year is accounted for in many ways. It is said that the miners are able to do more work now during the summer months than they did years ago, that when they wish to order goods that they can do so to meet their exact requirements, and lastly, the population of the Yukon being now stationary are not disposed to travel back and forth so much as they did in former years. According to Dawson advices the American and the Canadian governments are prospecting a great work in the Yukon basin in surveying the gold fields and the more inviting districts for placer and quartz mining. The Squid will deliver all the sockeye salmon to the St. Mungo cannery and the Cascade the spring salmon to the B. C. Packers' Association.

LOCAL NEWS. In the police court to-day there was a large number of drunks as a result of the holiday. Two or three other cases, including an assault as a result of drinking, were also disposed of. The Capital City Canning & Packing mill will forward the catches of their traps at Otter and Sherringham points to the Mainland by the steamers Squid and Cascade. These steamers have arrived for their first loads. The Squid will deliver all the sockeye salmon to the St. Mungo cannery and the Cascade the spring salmon to the B. C. Packers' Association.

THE MINNESOTA'S DAMAGE. A San Francisco dispatch says: "When the Minnesota put into Nagasaki recently on the way from Hongkong to the Sound, it was discovered that the big steamer's stern post was cracked, and necessitates her laying by for temporary repairs, for which it is estimated 60 days will be required. For 60 days during that time the charge on the huge vessel will be about \$20,000. The repair work will add between \$5,000 and \$10,000. Besides that, the steamer's cargo cannot be estimated, but the cost of keeping the vessel idle for so long a time and the possible loss of trade. Altogether, the damage is only meagrely indicated by the \$25,000 in gold coin."

SAILS THIS EVENING. The B. M. S. Empress of China is scheduled to sail this evening for Yokohama and Hongkong. She has a large number of passengers and a full cargo of miscellaneous freight. The list of saloon passengers follows: Rev. J. F. Levy, Wm. Phillips, T. Kato, T. Kenasito, N. L. Drew, S. A. Bourne, P. J. Rosoman, Wm. Jones, D. J. Ricketts, A. Agastino, Angelo Gampo, Geo. Kadowaki, M. Hidalgo, G. W. Chaplin, M. Carr, Oscar Saenger, F. Klein, Dr. F. Farnaski, Miss Nario, Wm. Harris, Miss C. Chaplin, Miss E. Scott, Mrs. W. D. Davidson, Wong Yab, A. Wilson, G. M. Currie, Miss R. D. Hunter, F. Fulton, G. K. Cheney, F. K. Abbenheim, R. Jantz, P. Parkhain, R. Bunting and wife.

MAIL BOATS CALL. There have been three ships of the Pacific Coast Steamship Company's fleet in port in as many consecutive days. The Umattila got in from the Golden Gate on Sunday morning; the City of Puebla sailed for the San Francisco coast last evening, and this morning the Cottage City took her departure for points on the Alaskan coast. The passengers who left Victoria on the Puebla were L. Rostin, wife and son, Mrs. McRae and two children, Miss Mary McDonnell, Miss Ann McDonnell, Master Douglas Prentice, Miss M. Bempster, Mrs. J. K. Black, Mrs. S. Green, Mrs. E. M. Knight, Miss M.

MOVED HEARERS TO TEARS. Portland, June 30.—Judge Bennett consumed all yesterday's session of the court with his defence of Senator Mitchell. So feeling was his plea that at times he had an eye in the room was free from tears. A smuggling case which is probably unique, even in the strange annals of contraband, has just been before the customs court at Marsailles. On board the French steamer Touraine there was found a large quantity of opium smuggled, not by any individual in particular, but by the whole ship's company, and the strange spectacle was witnessed of the heavy fine of \$2,000 being levied on all, every man in the vessel being mulcted in his proportion, assessed according to wages.

REAL ESTATE BARGAINS. First Street, 2 Lots at \$250 each, Size 50x133. Third Street, 1 lot at \$300, front and back ent. Fifth Street, 3 Lots at \$150 each 60x135 each. Yee, 9 Green St. WANTED—To exchange, "Washburn" mandolin and case, almost new, for camera. Address Camera, this office. WANTED—A smart boy for hotel runner. Inquire at this office.

A RETURN TOURNEY. Victoria Chess Club Captured Three Games From Vancouver—Complete Results. The return chess tournament between the Victoria and Vancouver clubs took place on Saturday evening by telegraph, the C. P. R. having kindly placed their wires at the disposal of the rival organizations for the occasion. It resulted in a victory for Victoria, three games being won by the local players and one by Vancouver, while two remain undecided, the umpires having disagreed when it came to which had the advantage in these cases when time was called. A special wire and instrument had been installed at the offices of A. S. M. Innes, a prominent member of the Victoria club, by W. Christie, local manager of the C. P. R., on Saturday afternoon, for the convenience of the local representatives. When play commenced at 8:15 o'clock sharp, the exact time being taken owing to the fact that a time limit of five minutes was placed on each move, the clubs lined up against each other as follows: Gibson (Victoria) vs. Hurst (Vancouver); Gibbons (Victoria) vs. Quinton (Vancouver); Meyers (Victoria) vs. A. C. McCameron (Vancouver); Innes (Victoria) vs. Nurse (Vancouver); Mitchell (Victoria) vs. Brown (Vancouver); Wilmer (Victoria) vs. J. Brydon Jack (Vancouver). Play continued until 10 o'clock. At that time on game that had been played on the Victoria representative, the latter having made a mistake in placing his pieces at the start of the contest which made it impossible for him to continue. Umpire Piper, acting on Mr. Wilmer's behalf, then claimed and was awarded the match. Nos. 1 and 5 boards—Gibson vs. Hurst and Mitchell vs. Brown—also were declared victories for the Victoria club. No. 4 board—Innes vs. Nurse was given to the Terminal City club. When it came to adjudicating the positions of the Victoria and Vancouver players at boards 2 and 3, the umpires—Piper (Victoria) and Sprout (Vancouver)—could not agree. The former asked for a draw at all, contending that if it were possible to continue his matches they would result in local victories. Umpire Sprout took the opposite view and was not satisfied with a draw. He wanted the games declared, wins for the Terminal City club. This Umpire Piper refused. Finally it was agreed to leave the matter entirely in the hands of the umpires to be decided by correspondence.
