DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 179818

JAPAN ELECTRIC GENERATION & TRANSMISSION CO. LTD.

Application for Maintenance Work

Kind of Work **Repair Work**

Project Number : Plant Number 22-46

Plant Name : Miyazu Thermal Power Plant, Japane Electric Generation & Transmission Co. Ltd.

Plant Address : Aza-Shishizaki, Miyazu-cho, Kyoto Prefecture.

Desctription of work for which funds are requested.

Our Miyazu Thermal Power Plant was constructed in 1936 and the main building (of enforced concrete) which contains the reparations machineries was originally the slate-walled-designed at the backside thereof, with the intention of would-be-faculty-expansion in the later date.

Meanwhile, owing to the ravage made by the Typhoon "Jane" which recently slashed the Kinki Area, the slates-wall of the Boiler-Room is scraped down, resulting in the threatened peril that the key machineries might be drenched at the occasion of rainy weather.

And the emergency measures has been taken with the improvisational covering with the canvas-sheet. But this is mere temporary after all, and can not assure the satisfactory safety for the good custody of the key reparations machineries against the stormy weather.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 179818

Gist of the work is, after all to restore such damaged condition to the normal as it was before the Typhoon-damage.

Justification for request.

The major portion of the justification to be described here is concurrently given in the preceding paragraph. And it must be stressed that to attain the complete custody of the reparations machinery, full fledged recovery must be enforced as soon as possible.

Description of work for which funds are requested.

Main Gate of our plant was toppled down by the ravaging Typhoon "Jane" on Sept. 3, this year, which slashed the Kinki Area. Security measures are now being taken for the purpose of Good Custody for Reparations Plant, nevertheless, to insure the more complete and more satisfactory Reparations-Custody, this broken (toppled Down) gate must be repaired to be restored to the original perfect condition by undergoing the urgently need repair work thereof.

Justification for request.

The major portion of the justification to be described here is concurrently given in the preceding paragraph. And it must be stressed that to attain the complete custody of the Reparations-Plant of our Miyazu Thermal Power Plant, full fledged recovery must be enforced as soon as possible.

SUBJECT: Applicaton for Movement of Reparations Equipment at Kyoto Dispersed Plant of Takatsuki Plant, Kawasaki Industry Co., Ltd., 22-48

THRU : Kinki Liaison and Coordination Office

TO : Chief, Kinki Civil Affairs Region
ATTN: Mfg & Ind Section

Kawasaki Industry Co., Ltd., Kyoto Dispersed Plant of Takatsuki Plant has submitted to us their application for movement of 76 reparations machines exsisted at their plant to parent plant for the sake of centralization.

This centralization was indicated by the inspector of GHQ, at last November, and we consider that the reparations funds will be reduce in future and also the centralization is appropriate to perform a good maintenance of reparations machines.

We hope you will kindly take into your consideration above the matter.

FOR THE GOVERNOR:

M. Nakajima
for M. SHIGE
Chief, Comm & Ind Dept.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 179818

APPLICATION FOR MOVEMENT OF THE REPARATIONS MACHINERY AND EQUIPMENT

12 January 1951

TO : Torazo Ninagawa, Governor of Kyoto Prefecture

FROM : Takumi Konishi, Chief Custodian of Kyoto Dispersed Plant, Kawasaki Industry Co., Ltd., Takatsuki Plant.

I herewith applicate to move the reparations machinery and equipment as follows.

1. Name, Code No. and Location exsisted the Reparations Machinery and Equipment to be moved:

Name: Kyoto Dispersed Plant of Takatsuki Plant, Kawasaki Industry Co., Ltd. (Former Kawasaki Aircraft Co., Ltd.)

Code No.: 22-48

Location: 103 Ochiai-cho, Kisshoin, Shimokyo-ku, Kyoto-shi. (Jujo Plant, Kyoto Kosaku Kikai K.K.)

2. Name, Code No. and Location of the Plant to be moved into:

Name: Kawanishi Branch of Takatsuki Plant, Kawasaki Industry Co., Ltd. (Former Kawasaki Aircraft Co., Ltd.)

Code No.: 32-06

Location: 1176-2 Akutagawa, Takatsuki-shi, Osaka-fu.

3. Reparations Machinery and Equipment to be moved:

76 idle machines keeping up in this plant.
Particulars shown attached list.

4. Methode of Custody at the Plant to be moved into:

I should carry out satisfactorily custody of the reparations equipment under the provisions of Education, and Trade and Industry Law No.1.

5. Reason of Necessity to be moved:

I keep up now the 76 reparations machines (22-48) by renting the partial of Jujo Plant of Kyoto Kosaku Kikai K.K. But when the inspector from GHQ inspected this plant on November of last year, he indicated that the machines should be consolidate to Kawanishi Branch of Takatsuki Plant, Kawasaki Industry Co., Ltd., as parent plant of this plant, by meaning of reduction of reparations funds. And as a result of it, if the movement

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 17802

of the equipment is approved, I believe that the government funds will be able to reduce 27,000 yen per month, of which I have received the payment from the Japanese Government as guards' salary etc. Estimated cost of consolidation is about 150,000 yen, and it is appropriate to five (5) months of reparations funds of this plant. But if the custody is continued in fututre, I believe that the reparations funds will be reduce at the point of general view, and I hereby applicate for the permission of the movement.

Besides it is the same chief custodian both plant of this and Kawanishi Branch. Consequently it is, of course, no objection to the transfer of responsibility of custody and also it is convenient to carry out the custody of equipment. And I expect that I will carry out maintenance of the machines damaged by typhoon after the movement.
