APPLICATION FOR MAINTENANCE WORK

Kind of Work: Maintenance Work.

Project Number: KAWA 4 HATSU No. 3. Plant Number: 13 - 7.
 Plant Name : Kawanishi Aircraft K.K., Shikoku Office. 13 - 11.
 Plant Address : 551, Yaso-cho, Tokushima-shi.

Description of work for which funds are requested:

The maintenance work is planned for 112 machines out of 898 1st and 2nd class machines located in this plant.

1. Surface Cleaning Work.

Rust removing, oiling, greasing and paper covering for all machines of 112.

2. Partly Dis-assembling Work.

The work is planned for cleaning and greasing of the gears, table mechanism or other parts of 41 machines out of 112 above.

A. Lathe	6'	1
B. Milling machine, Horizontal	No.2	6
C. Milling machine, Vertical	No.2	6
D. Bending machine	3 M.	1
E. Bending machine	2 M.	1
F. Electric Drill	1/4"	26
	<u>Total</u>	<u>41</u>

Justification for request:

1. This plant is 100% non-operating plant.
2. The roof of this plant is in quite bad condition. Countless holes on the zinc roof are just like the stars when looked up. Reindrops fall in through these holes straight to the machines. This is the reason why machines gather rust in spite of greasing and paper covering that have been carefully done.
3. Roof repair work for leakage of rain is scheduled to be finished by the end of March.
4. The maintenance work has not been done since June 1949.
