MILITARY RECORD: None

In 1942 (October) had been blackmarketing deisel oil which he was getting through a friend in the Aichi District Shipping Association (AICHI CHIKU KIHANSIEN KUMIIAI). At one time, he had sold oil to pottery manufacturer and police investigated oil smoke from kilns and got the whole story. (Mar.43) Upon his arrest, he confessed. Awaited trial about a year at Nagoya House of Detention. Eventually tried at Nagoya District Court. Had his own lawyer, pled guilty. That time sentence was postponed because of length of period awaiting trial to await second trial. Before final trial bought two sacks of rice from friend who had stolen it. Sentence for two crimes (as of June 45) was 1½ years and 10 months, totaling 2 years, 4 months. Arrived here July 46. Before that was at Nagoya prison.

He says general treatment here is not as good as at Nagoya. For instance, he has only one suit of clothes which he must sleep in (launders them 1/week). Food not very good --vegetables scarce. Bathes 1/week (no soap). Works in office of accountant doing same sort of work he formerly did. Sends two letters/month. Visitors do come to see him.

If he gets sick, he can speak to doctor's assistant, who comes around, or ask to see doctor through guard.

BORN : 25 January 1901

EDUCATION: One year Jr. high (7 years).

OCCUPATION: Farmer

FAMILY : Wife, 4 children

MILITARY RECORD: Superior Private in China

CRIMINAL RECORD: About twenty years was tried for violation of irrigation regulations but was acquitted.

Another farmer had a hoard of rice and he himself was turning all his own in for marketing. In order to show that this person was hoarding rice, he attempted to set fire to the storehouse, and fire was extinguished before any serious damage was done. In resulting police investigation, neighbor blamed this man and he was arrested and taken to Suzuka Police Station 15 January 1946. There he confessed. Treatment there at the hands of guards was ordinary and satisfactory.

Came here 31 January. Has been tried and will receive sentence on 17 October. Has been found guilty of charges of arson.

Guards here seem good and he appreciates treatment given him. Thinks warden is good. Food is no different from what he'd eat at home. Bathes 1/5 days. Wears his own clothes and family brings in clean change occasionally. Has had no experience with medical department, but from what he knows, the doctor and his assistants give good treatment in a kindly manner.

No particular complaints.

MEMORANDUM FOR THE OFFICER IN CHARGE:

Subject: Inspection, Miye Ken Prison,
Tsu, Miye Ken, Japan

In compliance with Message KX-10373, CG VI Army to CG I Corps referring to memorandum from the Office of the Supreme Commander to the Imperial Japanese Government, dated 4 October 1945, subject: Removal of Restrictions on Political, Civil and Religious Liberties, on 16 October 1945 these agents inspected the Miye ~~Prefectural~~ Prison at Tsu and interviewed its governor, Tomatsu MORIGUCHI. - SCAPIN 93

Miye Prison covers an area of 20,000 square yards and the area is enclosed by a 15 foot brick wall. It was built in 1917, and before destruction caused by air r aids in June 1945, it consisted of twenty one- and two-story brick buildings. The central prison building was a two-story brick structure consisting of a main building containing offices and corridors, with two lateral and three rear wings radiating from the rear part of the structure. The two lateral wings were one-story, the three rear two-story. The left lateral wing housed a cell block and a hospital, the right wing housed a messroom and workroom. The three rear wings were used as cell blocks. Numerous smaller buildings surrounded the main building, such as warehouses, workrooms, and another block of cells.

Ten of the buildings were either damaged or destroyed by air raids which occurred in June 1945. And while the prison is extensively damaged, what remains is clean, commodious, and, comparatively speaking, not disagreeable for living purposes. As in all prisons, discipline is very strict.

An inspection of the prisoners showed that they are well fed and quarters, kept clean, and in most respects treated generally as prisoners are in American prisons. The prisoners are ordinarily kept busy within theprison confines with various kinds of employment, such as gardening, cobbling, tailoring, blacksmithing, mat-making, aside from the regular duties of prison maintenance. However, they are farmed out in groups of ten to private employment upon request through the Home Ministry.

According to Tomatsu MORIGUCHI, governor of the prison, the prison is staffed by 100 guards and attendants with himself responsible for its proper operation. He has been governor since December 1944. MORIGUCHI further stated that Miye Prison is used to house prisoners who have been sentenced to terms up to 7 years, and is generally populated by individuals from Miye Ken, although it is not used exclusively for Miye prisoners. It is a general prison, to which are committed persons from any part of Honshu, but because of its location the predominant number is from Miye Ken. Convicts whose sentences range from 7 years to life are sent to Okayama Prison, and the prisoners to be executed are sent to Nagoya. The prison does not have a solitary confinement section. Unruly inmates are confined to their cells in shackles. The prisoners are fed three meals a day, although for the past two years the ration has been reduced from its previous standard. The prisoners' diet consists mainly of vegetables, many of which are raised in the prison yard.
