VICTOR BARRETO

Our feature star model in this issue is our man on the cover, handsome, young Victor Barreto. Vic was photographed at the age of 19 in the varied photos that are in this issue. Of Spanish-South American descent Vic has thick wavy black hair, sparkling eyes, appealing smile and a truly natural physique as well as blessed with an ingratiating personality. In this

magnificent young man we truly have a great discovery. Hollywood has already shown interest in Vic and whether he chooses to follow a thespian career or not, we feel sure that he will be recognized as potentially great in whatever field he sets his mind on. He excels in swimming and diving and is enthusiastic about his fine record collection of classical and symphonic music. We hope to have lots more to show on Vic. Future issues will show his progress and more photos as long as we are able to photograph this outstandingly radiant "star model."

(A brilliant selection of Vic's photos available, See page 34.)

JACK DEAL

Among the outstanding star models of all time, the name of Jack Deal stands out as one of the truly great, and is considered by many to

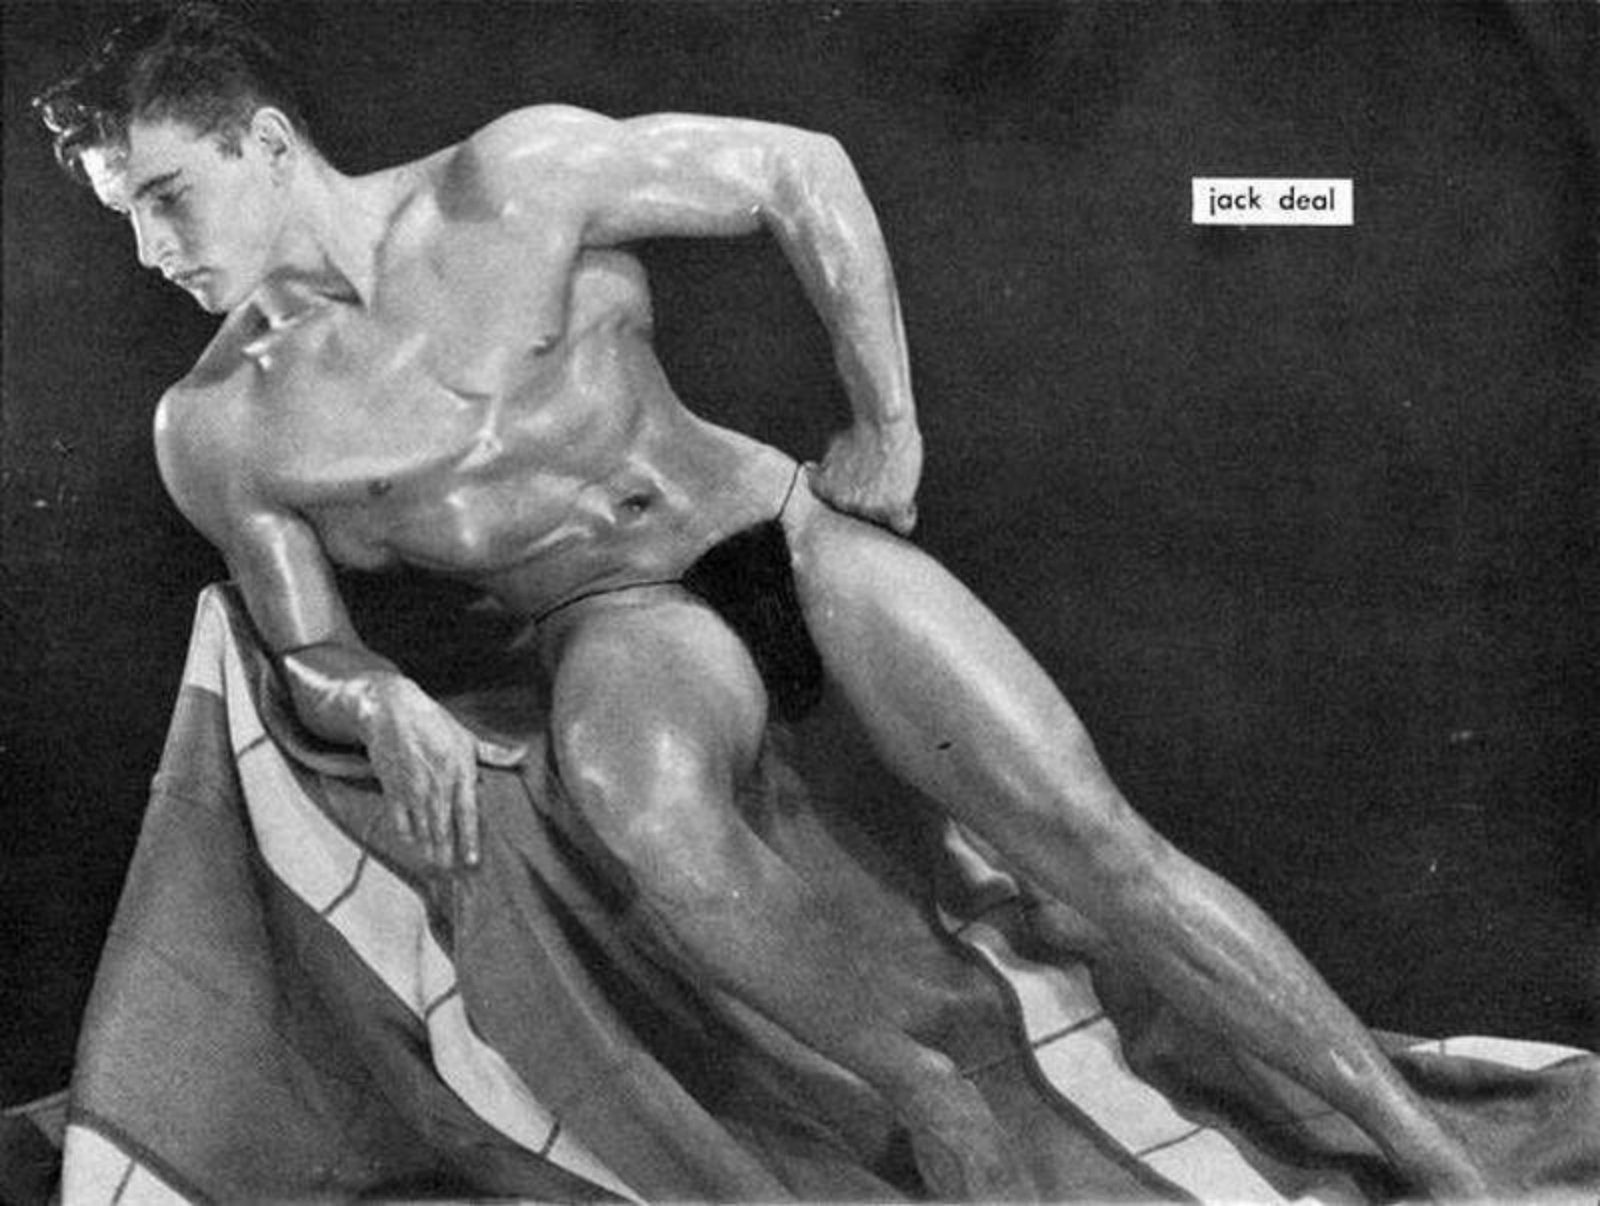

be the greatest of all physique models. Jack has been photographed exclusively by LON who discovered him while he was in the U.S. Navy and sunning himself on a local beach near New York. He hails from York, Penna. The photos shown here are considered by critics to represent the ultimate in posing and photography.

(a wonderful selector set of Jack Deal Photos. See page 34 for details)

Featuring

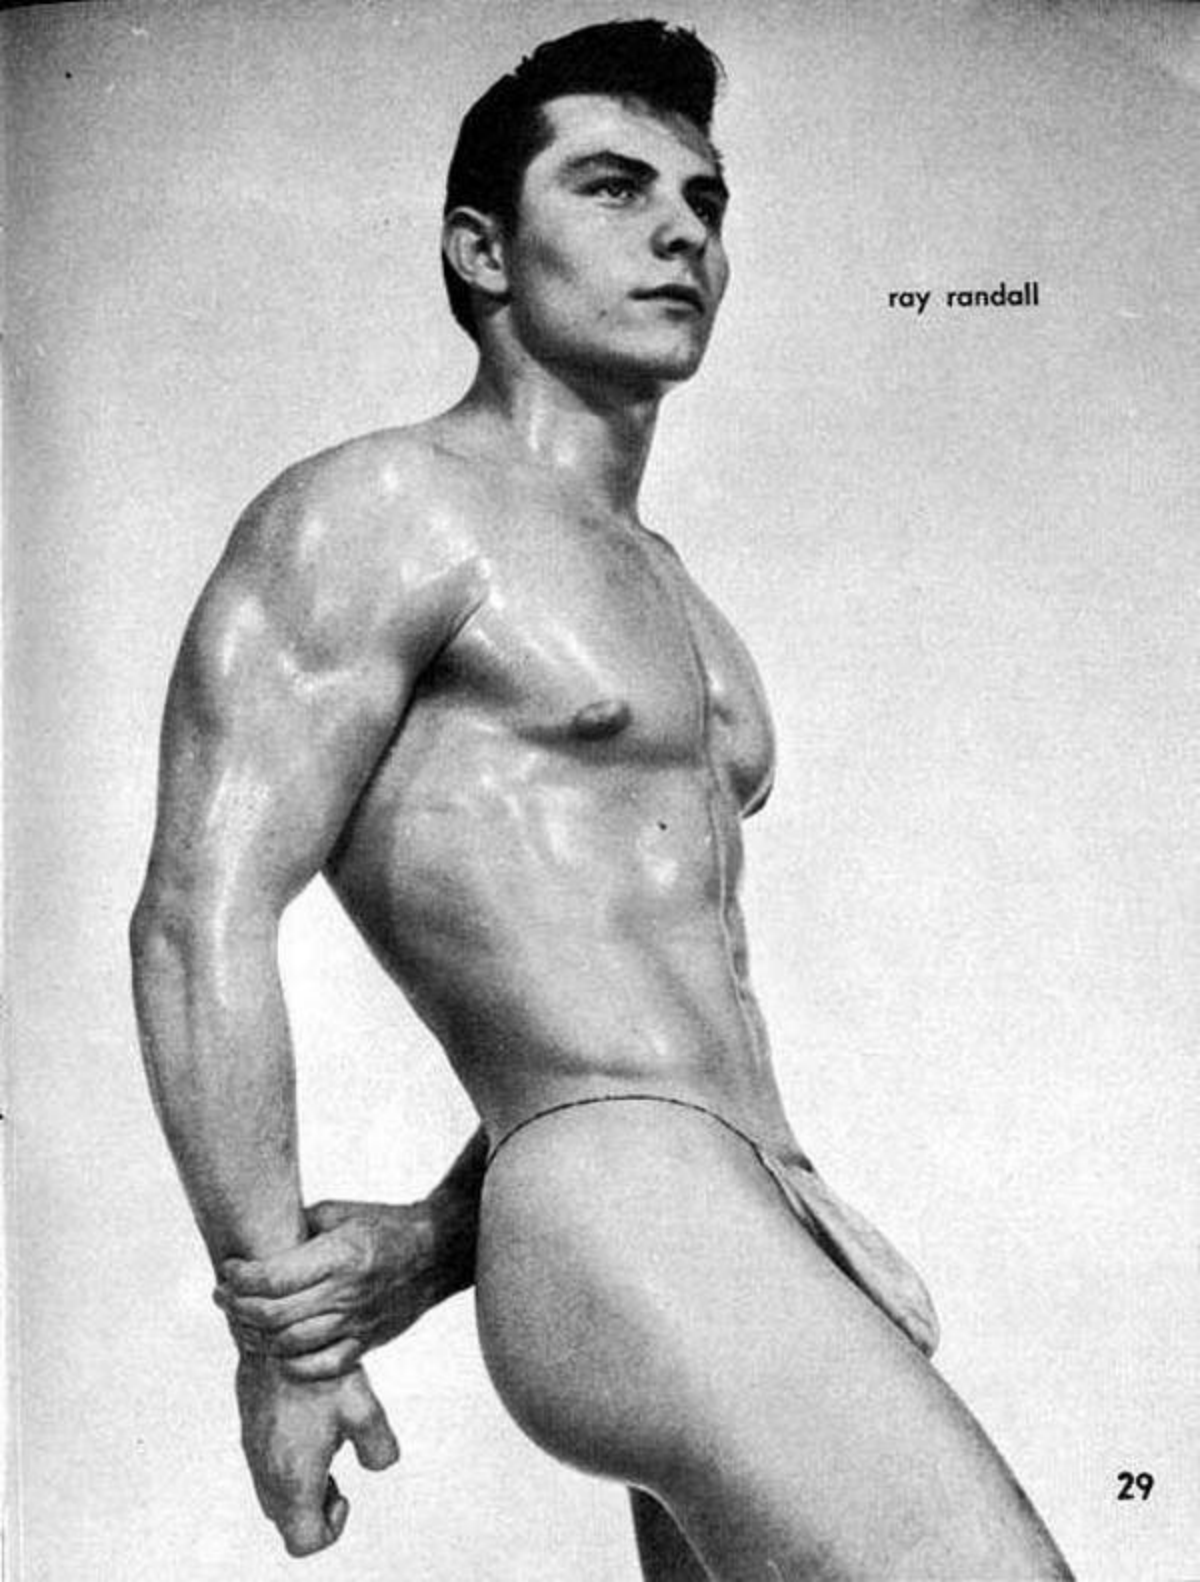

RAY RANDALL and JIM MacFAYDEN

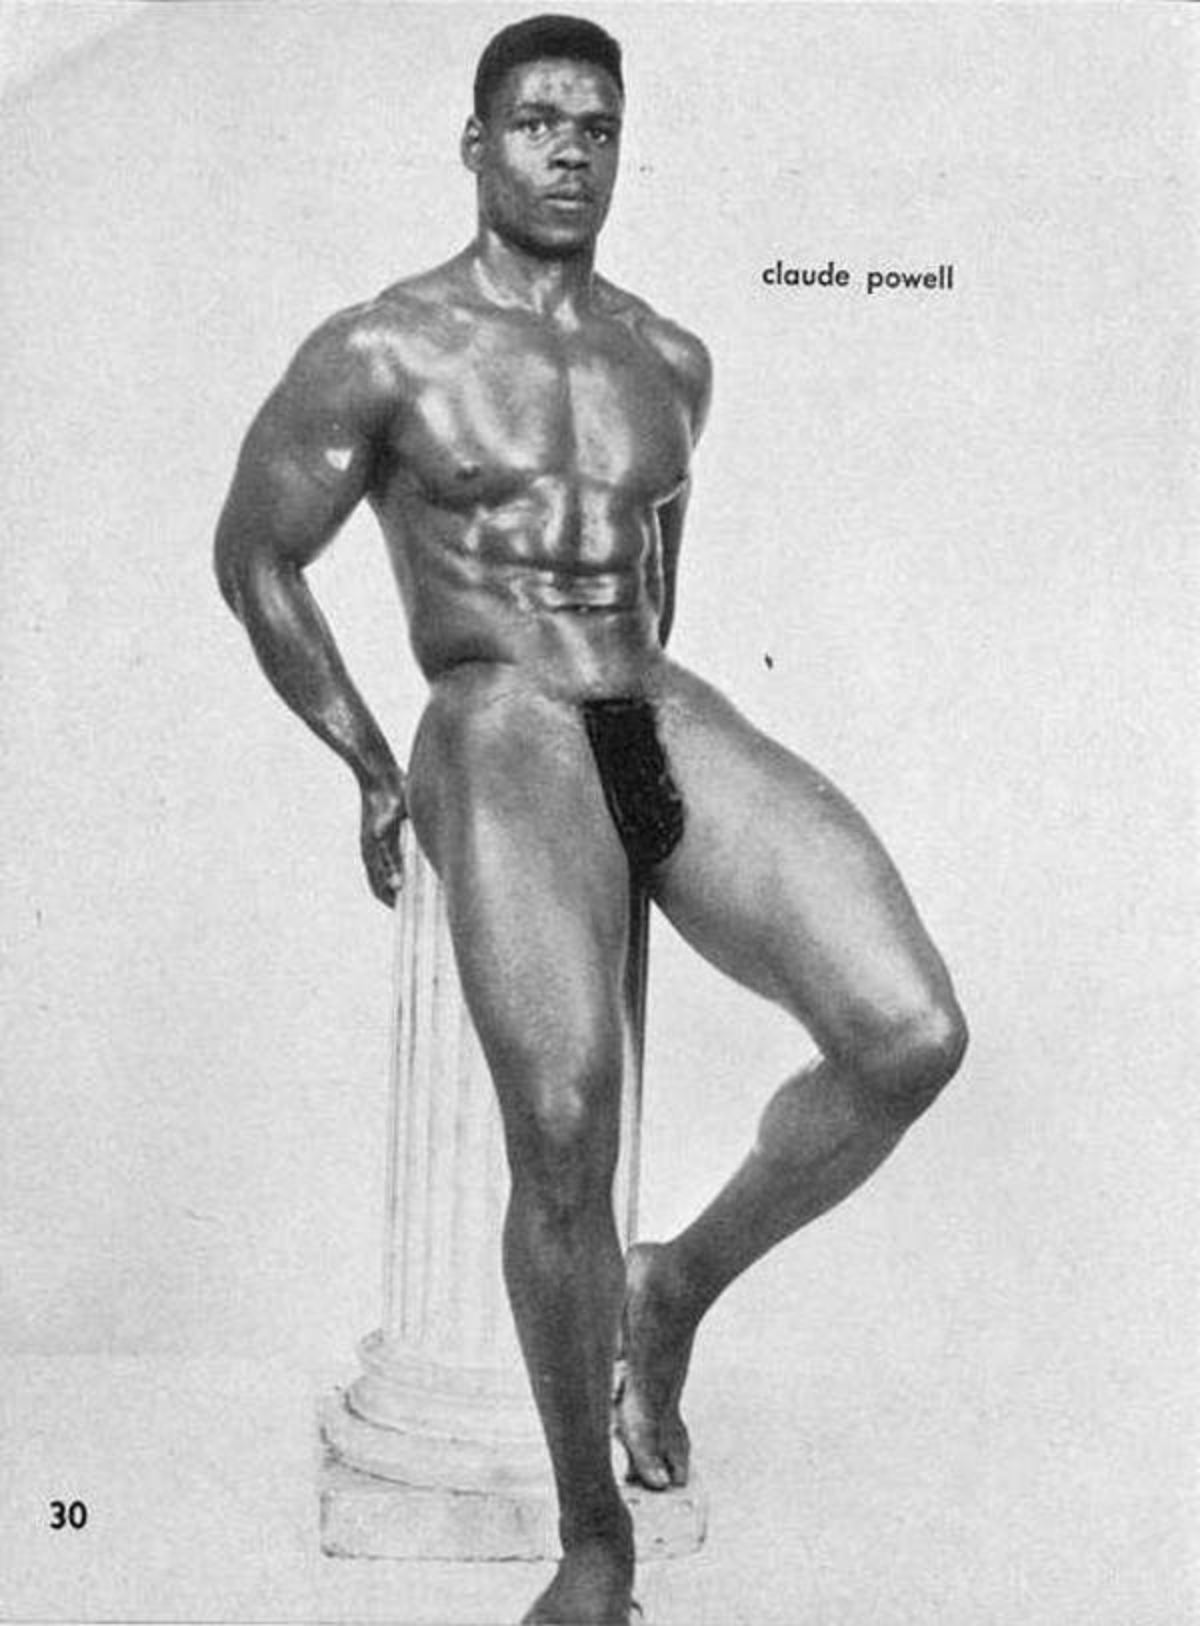

ray randall

A black and white photograph of a highly muscular Black male bodybuilder, Claude Powell, posing on a classical column. He is shirtless, wearing only black briefs, and is leaning against the column with his right hand on his hip and his left leg raised and resting on the column. The background is a plain, light-colored wall.
