At 0700 on 28 February 1945, four FM-2s took off from parent ship U.S.S. LUNEA POINT (CVE94) on Target Combat Air Patrol over Iwo Jima, Volcano Islands. The flight was led by Lieutenant William A. JAMES, USNR.

After patrolling on station, the flight was ordered to make strafing attacks on enemy troop concentrations in caves and ravines on the north eastern edge of the island. The target was located and high speed strafing runs were made. The strafing was accurate but damage could not be assessed. One fire was started - either a truck or a small building.

No aerial or AA opposition was encountered and all planes returned safely to base on schedule.
