 Hymn of Dedication,.....High School and Audience  
 Tune—America.

All hail auspicious day	Treasures of earth's best thought
In which we come to pay	Will to these halls be brought
Honor to thee.	By tongue and pen,
House of our hope and prayer,	Through many a coming year
House of our thought and care,	Loved ones will gather here
With full glad hearts we bear	To learn to serve and cheer
Love's loyalty.	Their fellowman.
The redwood and the pine	Our Father, wise and kind,
The ocean and the mine	God of the human mind,
Have tribute paid.	To thee we call.
While power of hand and mill	Train hand and head and heart
And human thought and skill	To do life's noblest part;
Subservient to our will	Thine is the power, the art,
Thy walls have made.	Be in us all.

Benediction,.....Rev. Geo. Atkinson  
 Planting of the Palm.

## REFLECTIONS.

The editor has made many trips to San Francisco for business or pleasure and each one brings some new point of interest to view. This last one was exceptionally satisfactory in this respect. The first of a long list of engagements was the lecture by Bishop Fowler, on Abraham Lincoln. Bishop Fowler is said to be one of the finest orators in America, and it was indeed a treat to listen to his masterly treatment of that great life, lived in the midst of great events. To those of us who regard the story of that period as a sort of ancient history, a vivid and thrilling account from the lips of one to whom that time is as yesterday, is an experience to be coveted.

We heard the Bishop a second time in a brilliant delineation of the character of the nations now interested in the great war. His residence for a time in Russia, when he established Methodist church in St. Petersburg, gave him a pronounced bias in favor of the Russians, in which he did not have the sympathy of the audience to any great extent. However his argument was carefully built and listening to the orator was almost like watching the piling up of beautiful stones into a splendid structure, so exquisite was his language and so orderly his results. We confess however that we enjoyed much more the pulling down of the splendid structure by Dr. Smythe the next night, when in his impassioned manner, he extracted out those beautiful stones, one at a time, amid the vociferous applause of his hearers, in presenting the cause of Japan.

A trip on the Ocean Liner, Santa Rosa, out through the Golden Gate, almost to the Farallones, was a pleasure which we enjoyed in common with many other excursionists. A rough sea made the pleasure a little painful to some of the passengers and cut the trip short of the desired point. Through the kindness of officers, every part of the boat was visited and curiosity gratified with the greatest courtesy.

We arrived in dock at 6 o'clock, having been gone 4½ hours, and visiting interesting points such as the Lightship, Seal Rocks, and Cliff House, Fort Point, Presidio, Point Bonita, The Heads, Tiberon, Sausalito, Alcatraz and Angel Islands and the

592 passengers felt well paid for the unusual trip.

"To strike or not to strike" was a question earnestly debated by the carmen Saturday night, and visitors were greatly relieved when a three days truce was declared. The demands of the carmen for recognition of the union seemed reasonable to us and we were glad to see them receive the concessions demanded. We found the men extremely willing to help strangers find their way about the city, a fact which helped to win our sympathy.

Of course there was the inevitable trip to Golden Gate Park and the Cliff house. The former is an inexhaustible mine of restful pleasure, but the Cliff House being for revenue only is always a disappointment. A painful sight there was a quartette of young people with glasses of liquor before them. It seems a pity the city does not own this fine site for a pleasure resort also.

The missionary exhibit at Central church was educative, showing the clothing, utensils, toys, gods, and weapons of Turks, Chinese, Japanese, African and Korean, with the additional advantage of missionaries to explain and answer questions.

Sunday morning, we heard Dr. Homer Stuntz of the Philippines, who may be a bishop before General Conference is over. Aside from the religious value of his discourse, the clear idea received of the people of the Philippines was more than worth while. Great things may be expected of them under the kindly rule of Uncle Sam. Dr. Spencer from Japan, in the evening, had much that was new to tell of the Japanese, well-known as they are to us of the Pacific Coast.

Perhaps the greatest pleasure of all was the visit with friends and relatives who were in the city at the time. We were made at home by Mr. and Mrs. J. D. Leslie, who live in the heart of the down town district in order to be near the Peniel Mission work in which they are so much interested. Preparations were being made then for the meetings to be held by Dr. Carradine this week on Third street, near Market. These missions are designed especially for the floating population and there is no way of computing the good they do to this class and others through them.

We had also a two day's visit

## Agriculture in Rural Schools.

There has been a great deal of talk lately in regard to the teaching of agriculture and horticulture in the rural schools. Doubtless great good could be accomplished in this way if there were teachers qualified for the work; but the so called normal schools turn out too many drilled automata and do little in the real teaching of nature. If the country school teachers could all be given a short course in agriculture and horticulture at the state colleges of agriculture we might after a while have men and women prepared to take up the work in an elementary way in the rural schools; but as the short courses in these colleges mostly come in the winter months, when the teachers are employed, there arises a need for summer schools for the purpose. These might be made a strong force in the progress of nature teaching. With teachers enthused for the work there would soon come some application of what they have learned in the planting and beautifying of the school grounds. There is nothing like the actual work in planting trees and flowers and caring for them to make children fond of nature and her products, and there is nothing better calculated to drive the young people from the farm than the comfortless and ugly school houses and their ill kept surroundings. Getting the young people interested in plant life will then be apt to draw them to the farmers' institutes, and the institutes will never accomplish what they should in the education of the farmer till they catch him young enough.—Practical Farmer.

## Down on the Farm.

Let others grieve, as grieve they will, the lonely lot and solemn,  
Monotonous existence that a farmer has to live,  
And funny scribblers fashion stories, column after column,  
Upon the round of lonely life the homestead has to give.  
I'll still believe, in spite of these, there's happy days and cheering  
To occupy a fellow's thoughts and keep him out of harm;  
And backed I am in this belief by memories endearing—  
There's lots of sunshine here and there and fun around a farm.  
If humor you'd appreciate you must not be dyspeptic,  
Your liver needs must well perform its functions every day,  
It must not ever enter opposition diametric  
To your enjoying happy things that chance to come your way.  
And since there's so much gout in town and chronic stomach trouble  
And long drawn faces quite enough to summon up alarm,  
I can not help but say, although I prick some writer's bubble,  
There's more of sunshine here and there, and fun around a farm.  
The height of fun is measured by our powers of enjoyment  
I say, and healthy livers set that measure pretty high!  
A hearty laugh's for vocal chords a mighty good employment,  
A lively tune's the best of things to time one's labors by;  
There's too much stooping over desks and counters in the city,  
There's too much hollowness of chest and flabbiness of arm,  
Too little joy—too much close air and stuffy—more's the pity;  
While, oh, there's sunshine everywhere, and fun around a farm.

Five thousand of the public school children of Missouri are being taught the rudiments of agriculture and it is expected that as soon as competent teachers can be secured agriculture will be taught in all the rural schools of that state. In teaching these branches in the public schools special attention is paid to beautifying the school grounds, as well as the yards and lawns of the children's homes. The school grounds are planted in flowers, shrubs, vines and trees, and the work is done by the pupils. The Missouri State University will issue bulletins to be used as textbooks in teaching the children agriculture. In this matter Missouri has taken an advanced position, and no doubt great good will result and it will not be confined to Missouri.—Maxwell.

**Died--Wm. D. Tuttle.**

**Aged Resident of Watsonville Passes Away at Campbell.**

(Watsonville Pajaronian.)

In Campbell, Cal., on Sunday, May 1st, 1904, an aged and highly esteemed Watsonville man passed to his last reward. William D. Tuttle, a member of the well known Tuttle family of this valley, and himself a familiar figure in the past days of this city, died at the age of 82 years, 8 months and 10 days.

W. D. Tuttle was born August 21, 1821, in Washington county, Pennsylvania. Thence he moved to Wappelo, county, Iowa, where he remained several years before removing to Kansas where he resided near Topeka, until 1874, he came to Watsonville. He was married to Sarah Ann Rouse during their early years and lived a life of happiness until her death in this city, Nov. 28, 1889. Four children were born of the union: Milton, who died here about two years ago; Elizabeth (Mrs. Stephens); Mary, (Mrs. C. A. Cook); and Florence who died here in 1888.

Mr. Tuttle had but recently removed to Campbell where he had purchased a home.

The body was brought here for interment this afternoon at 2:30 p. m. at I. O. O. F. cemetery and was escorted to the last resting place by many friends.

William D. Tuttle throughout his long and useful life maintained an integrity of character which made him worthy the highest esteem of all who came in contact with him, while in the closer relations of the home he displayed an unusual forbearance and tenderness.

**Social Events.**

After a quiet week or two in the social world, several pleasant functions have taken place within the past few days. One of the most enjoyable of these was the party given in honor of the Misses Archibald by Miss Adella Cook at her home on San Tomas Road Friday night. The company was first introduced to a clever guessing game which kept them on the qui vive and prevented any possibility of stiffness or formality. The popular games of "Pit" and "Flinch" made the rest of the evening's entertainment. Dainty refreshments, followed by a short time

of quiet conversation brought the evening's pleasure to a close. The party was given as a farewell to the Misses Archibald who leave this week for a three month's visit in their old home, Nova Scotia, and points of interest in the Eastern states.

A dancing party was given at the lower hall of the Odd Fellows' building Thursday evening of this week, by a coterie of young ladies, whose energy has furnished so many pleasant entertainments in the past. Only about twenty guests were invited thus insuring a congenial company. A delightful time was the satisfactory result of the young ladies' efforts.

Mrs. L. T. Cook entertained the Woman's Foreign Missionary society of the Methodist church at her home Thursday afternoon. Topics of interest to the society were discussed, and by the members who were present in goodly numbers. Refreshments, dainty and delicious were served.

**Short and Deep.**

How restful and sweet to the mind of woman is the knowledge that men do not gossip one with another over the appearance of their fellow creatures; that even their thoughts are far, far above such trivial matters. If it were not for this peaceful assurance, how uncomfortable would be her transit to the post office, for instance, where men are oft times lined up as if to view a parade. Now if their positions were reversed, if man had to run the gauntlet of women, there would be reason for inward qualms; the set of his coat and the hang of his trousers (or vice versa) would be subjects of animated discussion before the victim passed out of hearing. But nature has provided against such contingency by so constituting women that they never divide and give up the middle of the sidewalk; no, men may have to walk in the gutter, but that is a happy alternative. But men, on the contrary, divide to the right and left, and woman treads her way serenely, blessed with the consciousness that the shallowest depths men ever sound are war or politics and so the manner of her going and coming is unnoted and unmarked.

## SILVER BELLS

### Revolution in Bread-Making

We have found the flour that is going to make a revolution in Bread Making.

WHY?

It is made from Blue Stem Wheat and Hard Wheat from Minnesota, and it is blended in such proportions as to produce flour for bread making that has never before been offered in this community.

Silver Bell Flour, the miller tells us, contains 28 per cent gluten.

Housekeepers coming here from the East ask why they can not obtain flour equal in quality to Pillsbury's Minnesota Flour.

The answer is that most California flour is made from Australian Wheat, while Minnesota's best Patent Flour is made from Hard Wheat.

SILVER BELL FLOUR is put on the market with the assurance that it is not excelled in quality by any flour whether made here or in the East. We claim for Silver Bell Flour that it will make from eight to ten more loaves of bread to the barrel than flour made from Australian Wheat and we are going to offer this carload of Silver Bell Flour at the regular prices for our local flour:

Barrel.....	\$5.10
100-pounds.....	\$2.55
50 pounds.....	\$1.30

It is our expectation that every bread maker in Santa Clara county will not rest satisfied with her bread until she has given the Silver Bell Flour a trial.

## LOCAL NOTES.

Mr. Mitchell and Miss Maybury of South Carolina were married at the Methodist parsonage Sunday night. They are relatives of Mr. Mitchell of the Willows.

The meeting next Monday evening of the A. O. U. W. will be an interesting one, inasmuch as Field Deputy Calvert will be present. A short program will be rendered, to be followed by a banquet.

At the annual meeting of the stockholders of the Campbell Fruit Growers' Union held today the old Board was re-elected without opposition. An advance step was taken by the Union when it ordered its Board to proceed to arrange for the establishment of a cannery in connection with its regular work of drying. It was a harmonious and profitable meeting of which we will speak more fully in our next issue.

A very jolly lot of young folks went out to Mrs. S. G. Nelson's last Friday to celebrate the 16th birthday of her daughter, Panilla. Ping pong, flinch and muggins were the chief games of the evening. At a late hour refreshments of ice cream and cake were served and the young people soon left for home, thinking they had had a very pleasant evening. Those present were: the Misses Ruth Wakeman, Jessie Joy, Lulu Vollmer, Katharine Parker, Alice Abbott, Vera Fablinger, Beth Bucknall, Nell Russell, Mary Schuyler, Ada Nelson, Panilla Nelson. Messrs. Ralph Hyde, Merle Lloyd, Richard Parker, Ernest Abbott, Edwin Parker, Willie Martinia, Alden Abbott, George Righter, Stanley Smith, Frank Nelson.

### Letter of Acknowledgement

To the Officers and Members of Pride of the Valley Lodge, No. 315, A. O. U. W.:

I beg to acknowledge with thanks, receipt from the Pride of the Valley Lodge, Ancient Order of United Workmen, of check for the sum of \$2000.00, in settlement of the claim of G. T. Bartlett, a member of your Lodge.

And I desire to return my heartfelt thanks and record my appreciation of the prompt adjustment of the Claim by your Order, and the many acts of courtesy extended by your Lodge and members during my sad bereavement.

Very truly yours,  
Signed, Mrs R. E. Bartlett.

## BLACK - DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHELLE, GA., Jan. 30, 1902. Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent. better.

S. P. BROCKINGTON.

## CAMPBELL

(THE ORCHARD CITY)

Lies 50 miles south of San Francisco on the Santa Cruz division of the Southern Pacific Railway, 5 miles from San Jose, in the famous Santa Clara Valley, the garden spot of the State.

### SCENERY SUPERB

With the Santa Cruz Mountains to the west and south and the Coast Range on the east, a majestic amphitheatre is formed, the beauty of which can not be excelled anywhere. Campbell has an altitude of 195 feet. The cool breezes from San Francisco bay at the north insure an even and comfortable temperature throughout the summer months, while the winters are warm and pleasant. Flowers bloom out of doors the year around.

### EDUCATIONAL ADVANTAGES

Campbell has a population of about 600. It maintains a (third class) post-office which distributes mail to 3,000 patrons, covering over 30 square miles of orchard homes. There are two churches—Methodist and Congregational—a first class High School and Graded School, and within a few miles are two Universities, two Colleges, a State Normal School and several Business Colleges and private schools.

The Stanford University with its marvelous architecture is only 20 miles away.

### NO SALOONS

Campbell has a complete water system of its own. It has electric lights and power for mechanical purposes, which is distributed throughout the orchard district. A telephone exchange serves over 40,000 people. A prohibitory clause in all deeds to property within the town limits, prevents the saloon from being established.

### FINE ROADS AND RESORTS

The Santa Clara Valley boasts of the finest roads to be found in the State. It has over 350 miles of sprinkled rural highways. In attractions for tourists the Santa Clara Valley can not be surpassed. Thirty-two miles eastward over a magnificent mountain road is the famous Lick Observatory on Mt. Hamilton, 4,444 feet above sea level. There are numerous mountain retreats within two hours' drive for those who love the camp and sparkling brook. The sea beach to the southward 27 miles by rail or carriage drive, and through the most beautiful mountain scenery in the world. A trip to the Big Trees, twenty feet in diameter and two thousand years old, will furnish a delightful day's outing.

### MINERAL SPRINGS

The hot springs of Alum Rock Canyon and Congress Mineral Springs are within two hours' drive, giving a panoramic view of the entire valley.

The Almaden Quicksilver Mines, the largest in the world are within easy access by rail or team.

The largest seed farms in the world only 10 miles distant.

### FRUIT CENTER

Campbell's mammoth fruit dryer and packing house is the largest in the world. It has a capacity of over 10,000,000 lbs.

The Campbell Orchard District is noted for the quality of its fruits. For delicacy of flavor and beauty and perfection of color, its cherries, apricots, peaches, apples, plums, grapes and pears, have no equal in their fresh state, and command the highest market price. As cured or dried fruit the Campbell prune, apricot, and peach is shipped to every civilized country on the globe. Nearly one-half of all the prunes grown on the continent are from Campbell orchards. One and a half million cans of fresh fruits are packed in Campbell every season.

The demand for intelligent labor is increasing every year. Families desiring profitable employment in orchards, packing houses and canneries find this an ideal home.

### LAND VALUES MODERATE

Land values are very moderate—bare land brings from \$100 to \$300 per acre and when set to trees sells from \$200 to \$1,000 per acre, according to location and age of orchard. Ten to fifteen per cent is an average net income, while many places yield a much higher rate.

In short a Campbell home is one surrounded with HEALTH, WEALTH AND PLEASURE.
