Klamath Correspondence.
KLAMATH, Jan. 1,1851

Klamath Correspondence.

Klamath, Jon 1, 1851.

Editors of the Pedie Ness:

I embrace the opportunity of sending you a few lines by the Odd Fellow, bound down to San Francisco. You will regret to hear the loss of the Tarquin, which however, might at that time have come in with the greatest case, had they kept the channel, and the wind not failed them. The Chesapeake however, would have experienced more difficulty in attempting an entrance, which I will endeavor to explain how.

You will recollect that there is a sand beach stretching from the southern shore to the mouth of the river; well, another point or bar has formed outside of this one from the northern shore, long enough to lap over, and to crowd the outlet into the form of the letter S, and apparently to close up the entrance, which however, was still some seventy yards wide, and very deep, as a river at least as large as the Sacramento cannot be stopped up by a sand bar. It may be pushed on one side during the season of storms and swells, for short periods, but as for closing up entirely, is ridiculous?

Yesterday, the outside bar began to break through in the right place, that is straight out; and probably in two or three days we shall have a good entrance. Other storms however may create other changes.

Vessels should be careful in attempting an entrance to the river, at least until Spring when they will be sure to find a good and easy entrance, as good as any on this coast, and generally a fair wind to come in with. Some 20 or 30 houses and stores are now going up here, and things look quite business like. Dr. G. has built a large beat with which he will soon start up the river, to the common of provisions, carrying some 4000 probably realize a handsome speculation. We believe that Klamath is rure place yet, and as soon as we get the channel of the river straightened near the mouth, so as to give the waters a direct outlet, we shall have a small light draught steamer here to ply from All the belotted hands and hand summer.

All the belotted hands and

Regular Democratic Nominations. FOR ALDERMEN. GEORGE W. COFFEE, DANIEL ALDRICH. ASSISTANT ALDERMAN,

HALSEY BROWER. Report of the State Printer.

The report of the present State Printer, J. WINCHESTER, Esq., was presented to the Senate and Assembly on Tuesday last, in compliance with the requirements of the Act defining the duties and fixing the compensation of that officer, passed March 9, 1850. The report states the fact that the present incumbent was appointed to the oftice by the Governor, May 4th, 1850; that the act for the publication of the laws, required the issue of 800 copies in English, and 200 copies in Spanish, in pamphlet form; that the work was commenced about May 15th, and completed some time in August, during which period 78 separate acts were issued, embracing 930 pages: that the pamphlet edition was distributed by the printer, under direction of the Secretary of State, without cost to the public treasury.

The laws ordered to be printed in Spanish, have made but slow progress, in conse quence of the impossibility of obtaining translations more rapidly from the proper officer; that 26 Acts, embracing 448 pages, have translators, for four months, to translate all been printed in addition to those printed by the former incumbent; that these, too, were distributed at the expense of the printer: that in order to facilitate the printing and distribution of the laws, compositors were employed night and day, and presses kept in motion constantly for over two and a half

The amount of work performed under the law, the nature of it, the prices, and the aggregate receipts on the same, are as fol-

By these statements it will be seen that the expense of \$44.325,37 has been incurred present officer up to the close of the year

ducted a discount of 35 per cent., which is could be sold, there remains \$4,75 as the price per 1000 and token. This latter amount is further reduced by the deduction of \$2,50, the rate paid to journeymen per thousand profits of the printer, and for all other contingent expenses-rent, interest, &c.,-the small sum of \$2,25, which no one will consider an extravagant compensation in this country. It is the misfortune of States, as it is of individuals, that when unable to pay as they go, in current funds, they are compelled often to pay double on all their con tracts: and that this has been so in the case of the public printing, cannot be attributed as the fault of the printer."

The State Printer, in order to conform to the altered state of prices, proposes to perform whatever printing may hereafter be ordered by the Legislature, at a reduction of at least 20 per cent, and were the accounts paid in cash, a farther reduction of 20 per cent would be cheerfully submitted to. The prices paid for Spanish printing should not be higher than \$8 per 1000 ems, instead of \$14 60 as fixed by law, and the present offieer suggests this reduction to the Legisla-

In reference to the printing of the bound

volumes of laws, the report says: "Owing to the time required in transcribing the laws in the office of the Secretary of State, as also to the loss of a memorandum of those that had been forwarded, the whole of the "copy" did not reach the hands of the contractor till the first days of October, between which time and the 26th of the same month the printing of the volume of statutes was completed, a portion of them bound, packed, and got under way across the Isthmus-the remainder following in the month of November by the same route. The first lot of the bound volumes has arrived, and been placed in possession of the Secretary of State; and the remainder of the edition is looked for during the ensuing week which, with the least possible delay, will be handed over to the proper departmen

In the performance of this part of his con-tract, the State Printer has used the greatest possible diligence, and both in the quality of the material used, and the execution of the work, no pains or expense have been spared by him. In addition to what was required of him by the law, he was compelled to assume, under the advice of the Secretary of State, the responsibility of engaging a person to prepare the marginal notes, tables of contents, and indexes, which duty, so far as he is able to judge, has been well done. For the expense of this necessary preparation of the "copy" for the volumes, it is believed no provision has been made by

The printing of the volume of the Statutes in Spanish, has not yet been commenced, the translations not yet being made.

"Up to the present period only about half of the acts of the Legislature, passed at its first session, have been translated; and though the State Printer was prepared to execute this portion of the work as promptly as might be, it has not been commenced for the reason stated."

In concluding his report, the State Printer

"The journals and statutes-part of the forbeen brought across the Isthmus at a very heavy extra cost. It would have been a compliance with both the letter and spirit of his contract had these books been shipped by the usual route. But actuated by a desire to have the books delivered at the opening of the present session of the Legislature, and feeling degree of pride in the matter, the State Printer did not hesitate to incur a large extra expenditure to accomplish this object, which course he trusts your honorable body will approve."

# Report of the Surveyor General.

Hon. Chas. J. Whiting, Surveyor-General of the State, made a report on Tuesday, in which he says he has not received sufficient data to make even an approximation to a correet map of the State; that he does not deem it necessary to make any plans for the improvement of the internal navigation of the State, as it is not probable the State will engage in any such improvements at present; that there is no land that he can hear of that belongs to the State. He adds:

"Not having received any reports from the ssessors, I am unable to find any reliable information as to the quantity of arable land in the popular branch. Among these, I may within the State, or the number of horses, cattle, &c. I am not aware of any disease having diminished the agricultural productions of the State. The grasshopper has been very destructive in some localities—and as a preventive I would recommend the extensive introduction of turkeys.

"I have no means of ascertaining the quantity of mineral lands within the State. The amount of gold produced is probaby from three to four millions a months.

He closes his report by recommending the abolition of the office of State Translator, and the appointment of four temporary the laws suited to the wants of the native Californians.

# The Pay of the Police.

It is now two months and a half since the police have been paid the first dollar of their salary, and yet "the powers that be" trifle with the matter when pressed by the prayers of the policemen for immediate pay and relief. Some five or six weeks since, the Common Council passed an ordinance for the pay of the police in audited bills, bearing three per cent. a month, and receivable for all city dues. In this, the two Boards done well, but even this was withheld from the police, for reasons best known to those whose duty it was to make out these bills for the Department. The policemen again petitioned for their pay, and the first Board adopted an ordinance for paying the police in city scrip-making the scrip equal to cash. This act of justice was rendered nugatory by being tabled in the second Board, and in a subsequent meeting, it was referred to the Committee on Police, with instructions to report | Of course this will secure for them success on Monday night last. .

some influence of one or two members of the hitors of the Pacific News board, as well as certain officials out of it. / Your article published a short time since for the printing executed in this State by the Board for want of a quorum, and in the meantime the policemen are actually suffering for want of their salary. Whose fault though two centuries anterior in date. The price now paid for composition, which it was that the police were not paid some is fixed by the act creating this office, is \$7,- weeks since in the audited bills, we leave "to was visited by the renowned navigator, Sir 30 for each thousand ems, and the same for those concerned," and whose fault it is now Francis Drake, as early as the year 1577. each token of press work, which the report that the police cannot even get their pay at In their peregrinations among the hills that says is high But when from this is de- all, we think the public can clearly deter- now overlook the city of San Francisco, som less than the average at which warrants this matter, and it is seriously affecting the credit and honor of our city, and embarrassing hosts of people, not only of policemen, but landlords, boarding house keepers, and others. We do hope the Common Council ems during the last year; leaving for the will effectually settle this matter this even-

> THE DUAL STATEMENTS. - Mrs. KIRBY has published a card in reply to Mr. HAM-BLETON, in which she charges brutality and personal violence on the part of the latter. toward the former, as the cause of the rash act which terminated her existence. This statement is endorsed by that of two others, and also by one from Mr. Coan, who was implicated in the transaction, and who also attempted to "shuffle off this mortal coil," in a summary way. The affair is a lamentable and painful exhibition of theatrical life, the tragedy being already enacted, and the farce now going on-the newspapers the stage, and the public the audience.

It was understood that an attempt would be made last night to drive Mrs. Kirby from the boards of the Jenny Lind Theatre, the impression being general in the community that she is not entirely blameless in the premises. If guilty of what Mr. Hambleton charges, shame on the virtuous wife or mother that would give her countenance in the future. If innocent, let her be protected, even though public sentiment be outraged by opening the play house before the dead had become cold in the grave. We trust that no one will visit the theatre with the intention of creating a mob. Such a resort to express public condemna;ion is reprehensi-

The Public Balance, usually quite courageous and sagacious, still sees the airdrawn dagger of one of "five or six of us," held in terror over the head of us poor editorial hombres who happen to be bold enough to question the conduct of public or private citizens. Having no fears of speedy annihilation, or even of a "prompt rebuke" from any quarter, we cannot sympathize with our neighbor in his fears of the success of an attempt to "muzzle the press"—a project about as easy of accomplishment as would be an who gets in, if they only behave themselves effort to plunge the world in darkness by bottling up the rays of noonday light.

CONTESTED SEAT .- The Committee on Elections in the House, have reported in favor of the right of Mr. R. T. SAUNDERS, the Democratic candidate, as Member of Assembly from Butte county.

From our San Jose Correspondent. SAN JOSE, January 16.

ditors of the Pacific News : The amount of business done by the Legslature daily, is really surprising. The voluminous reports published in the Argus of yesterday, are specimens of the labor done, and yet the six columns of closely printed mer, and the whole edition of the latter-have matter gives the proceedings but in part. The work is done, as I have repeatedly stated, in committee rooms, and whenever a measure not well digested there is proposed, however desirable and anxious the House may be to pass it, I observe that it is almost always sure to fail. As an example, I would mention the resolutions calling upon the United States to defray the expenses of the civil government, or to refund all money collected here, prior to the admission of the State. All parties and all members are anx- been polled 282 votes. The following is the ious to see the measure pass in some shapes but as yet, it is not done, and for no other reason than that it has not been carefully determined and adjusted in the committee-

All attempts at "party legislation," so much to be deprecated, seems to be thwarted in another branch of the Legislature. The Senate have already passed a number of bills through all the necessary forms of legislation; but they are, I think, certain of defeat mention, an act to provide for the collection of demands against the State; an act which, besides being odious in itself, must, by virtue of its own operations, soon become altogether inoperative. It would be in effect the slaughday laid one golden egg.

A very great sensitiveness appears to exist here, in the minds of all. I do not know that points of honor. It begets more of reserve and shyness on the part of men, and I am not sure that it is not productive of many good results. The practice of using ineautious and intemperate language, had become too rife: and, it is to be hoped, it will hereafter be arrested. A degree of restraint, modesty dictates the measure, when prompted by an honest and a generous heart: and did men always obey these promptings, a great amount of evil would be prevented. Legislation at the point of the sword, is certainly to be deprecated, and is sure to be productive of no good. "Arms yield to laws," says the heathen sage, and we have not become too wise to heed the maxim,

Several important measures of the session are coming on apace. The contested elections will soon be decided, and the question respecting the location of the capital will probably follow it. As regards the matter of United States Senator, the Democrats have, I believe, pretty much resolved to go into a caucus, and then unite all their force on the person on whom the primary choice may fall and it is to be hoped that wisdom will guide

This trifling with the question on the part | the important choice. of the Assistants, is said to be the result of san Francisco Two Hundred and Fifty Years

Monday night came, but no meeting of the entitled; "San Francisco Fifty Years Ago," recalls to my mind a scrap from the records of antiquity, and relating to the same spot,

It is a well known fact that this country mine. There is a great wrong committed in of Drake's companions beheld, many strange and accountable sights. An animal unknown to them is thus described :

"We beheld a strange kinde of Conies. their bodyes in bignes as the Barbary Conies, their heades as the heades of ours, the feet of a Maut, and the taile of a Rat, being of great length; under her chinne on either side a bogge into the which shee gathereth her meate when she hath filled her belly abroad. The people eat their bodyes and make great account of their skinnes, for their King's coate was made of them."

The name given to this country by Sir Francis Drake was New Albion, which upon English maps, it retained for many years. The reason for its being so called is thus

"Our Generall called this countrey Noua Albion, and that for two causes: the one in respect of the white bankes and cliffes which towards the sea; and the other because it might have some affinitee with our country in name, which sometime was so called."

But more interesting is the account given of their departure from this country, where, it is declared, "There is no part of earth here to bee taken up, wherein there is not some speciall likelyhood of gold and silver."

"At our departure hence, our Generall set up a monument of our being there; as also of her Maisties right and title to the same, namely: a plate nailed upon a faire great poste, whereupon was ingrauen her Maisties name, the day and yeare of our arrival there. with the free giving up the Province and people into her Maisties hands, together with Highness' picture and armes, in a piece of sexe pence of current English money under the plate, where under was also written the name of our Generall."

Such were the novel proceedings of the great Admiral, upon bidding adieu to the shores of New Albion.

THE ALDERMANIC ELECTION.—The contest for two Aldermen and two Assistants, which comes off on Monday next, has now the appearance of a "scrub race." It is apparently every man for himself, and we would therefore advise each citizen to vote for himself .-A number of good men have been nominated by themselves or their friends, and if there is any choice between them, we trust it will be ascertained in time. We don't care much after they are elected.

THE GOLD HUNTER.—This vessel sailed for Portland, Oregon, yesterday afternoon. We were unable to procure a list of her pascopy of her manifest.

MONTERBY, January 10, 1851.

Editors of the Pacific News: My expectations mentioned in my last mmunication, have been more than fully realized. The election of officers under our City Charter is over-and the Democratic

ticket elected by an overwhelming majority! The election was held on Monday last, in Colton Hall, the following gentlemen acting as judges: Messrs. L. C. CYREEN, G. W. BIRD, E. W. C. CHEVERS; Secretaries, S. R. DUMMER and S. CONOVER. The polls were open at eight o'clock, A. M., and although there was considerable excitement during the whole day, caused by the partisans of either party, still it went off without a single breach of the peace. At four, P. M., at which time the polls were closed, there had

first organization of the Damos	rate of Mon-

terey City, sweeping from the field in their first charge, the entire forces of Whigs and and the "No Party" men!

On Thursday, the Installation of the new Mayor took place, at Colton Hall, when his ter of the good old hen of fable, which every Honor being sworn in by the ex-Mayor, P. A. Roach, and that gentleman having subsequently administered the "oaths" to the other officers, all present proceeded to the store of our new worthy Chief Magistrate, it is epidemie, if not contagious, regarding where the sparkling champagne flowed in most liberally.

A few days since, at an early hour in the morning, a report was spread-not known by whom exactly-that not less than three men were murdered at the Lagoonas, adjacent to our city, where their bodies lay in a shockingly mangled state. So said rumor. Of course horror was depicted on every countenance. Mounted volunteers spurred their fiery steeds to the scene, and to scour the country for the perpetrators of this "foul and bloody deed." The Coroner, vulturelike, scenting the carrion afar off, raised a nag also, and followed his aids with all the speed that a poor broken down caballo would permit. At length all the party arrived at the scene of action; but alas! there was nought, dead or living, to be seen. The coroner, with great presence of mind under the trying circumstances, distributed his men to make a more searching examination, and in but a few minutes he was gladdened with the announcement of one of the inquisitors that the 'bodies' were found. He immediately proceeded to the spot, and after viewing the deceased, whose faces were in most affectionate proximity to mother Earth, he was proceeding to turn one over, when lo he opened wide his sealed eyes, and cried, "que caro, carajo! pendago Americano!!"
The learned official, after partially recovering his astonished senses, made the discovery that they were not dead-no, not even deaddrunk; but only sleeping.

Our quiet, but beautiful little city, has been actually gay during the past week : there being in that space of time three private balls, and a public one; the latter in Colton Hall, and in commemoration of the battle of New Orlearns. It was got up in good style, and was honored by the presence of most of the fair senoritas, who captivated Judiciary Committee. the hearts of the gallant caballeros, not only by their dark brilliant eyes and graceful figures, but by the inexpressibly delightful manner in which they lisp our language.

Fletcher, and Fisk, the former a most notorious character, broke jail some few days since, although both were heavily ironed; the prisoners carrying them They have not been seen since, although tracked a few minutes after they made their escape, and were hotly pursued No blame is attached to the jailer, who is a most efficient officer, but the fact is there can be no possible security for the keeping of prisoners, as long as we have jails built of

By-the-bye, the three Sydney gentlemen who had been in custcdy for the Custom House robbery, have been brought before the County Judge, Hon. Josiah Merritt, and liberated on giving reasonable bail.

It was my intention to write, as I have previously stated, a notice of our mining and agricultural resources: but I find this letter is already too lengthy to allow me too do full justice to such very important subjects; however, I am gleaming some facts and statistics which you shall have certainly, in my next. F. J. M.

The State iron chest being at this time comparatively empty, with little prospect of its replenishment to any useful extent, I beg to suggest to the members of the Legislature now assembled at San Jose, the practicability of rapidly filling it, without interfering in the slightest degree with the present governmental inability to increase the State's indebtedness by pledging merely the

The enactments of the Federal Government have conveyed to each State the waste or overflowed lands within its boundary. These lands, therefore, can now be made available for the exigencies of California at once, by the State Surveyor mapping out and dividing into sections of 160 acres each, at least 25,000,000 acres, on which land warrants, with coupons attached, could be issued, bearing interest until sale of such public lands are made, when these warrants could be redeemed at par. Five millions of warrants, thus issued, chargeable upon the 25,000,000 or whole number of acres surveyed, would be a marketable security, with an unquestionable validity of title, and command at once the attention of capitalists. If the State Comptroller will bring me these land warrants, properly signed and countersigned by Gov. McDougal, I will engage in 30 days, not only to pay the present

F. W MARRIOTT, Loan and Land Agent San Francisco. Jan. 16, 1851.

State debt, but provide the cash for all need-

ful requirements of the State Treasury,

MAIL FOR OREGON .- The Pacific Mail Steamship Company yesterday placed the mail on board the Gold Hunter, an act for which the people of Oregon and our own are sengers, in consequence of the fact that her much indebted, as it is a piece of mail seragents were not careful enough to keep a vice for which they had to pay, instead of CALIFORNIA LEGISLATURE,

Friday, January 15.
IN SENATE.—Mr. Warner wished to offer the following joint resolution: Be it resolved by the Senate, the Assembly concurring, that on Tuesday next, the Legislature proceed to the election of a Senator in the

Congress of the Unitnd States, to supply the vacancy which will take place by the expiration of the term of the Hon. John C. Fremont. Mr. Robinson said—I hope that the resolution will not pass. I, for one, decline to support it. I see no necessity of moving this mat-ter before the Legislature at this time. There

is plenty of time to act upon it. Mr. Douglass moved as an amendment, that instead of Tuesday next, the election should take place on the second Tuesday of February.

Mr. Adams seconded the motion.
Mr. Lippincott observed that they did not know whether the Senate would be in session on the second Tuesday of February. He there-fore thought that the election should be put off till the day before the end of the session

Mr. Douglass said, if they did that, they might not elect a Senator at all. Mr. Woodworth suggested that it should be put off to the tenth day before the close of the

Mr. Heydenfeldt-Who knows when the tenth day will be? Suppose we do not resolve to adjourn till within three days before the close, how will you be able to fix upon the tenth day Mr. Woodworth remarked that till this ques tion was settled, no work would be done in the Senate. There were 13 candidates, he understood, for the office; and he thought they had better dispose of the question, so that the business of the session might be proceeded with.

Mr. Lippincott changed his amendment, so as to read till the last week of the session.

Mr. Lippincott's amendment was then put and carried; five voting in favor of, and five against it

Mr. Tingley said, that inasmuch as the amendment was a little indefinite, and as some Senators might desire to reflect a little more on the subject, he would move that the bill be reconsidered, and the amendment laid on the ta-

This amendment was lost The question recurring on the original reso lution, was also lost, five voting in favor of it, and six against it.

On the motion of Mr. Cook, the following resolution was adopted : Resolved, That the Surveyor General be requested to report to the Senate the peculiarities of each location offered for the seat of government, as required in the 4th section of the act entitled an act to take the sense of the people of California upon the subject of the permanent location of the seat of government. Mr. Green rose to a question of privilege, and

Some of my friends have told me that the first article which appears in the State Jour-nal of this day, refers to me. I desire that it be read.

The clerk here read the article refered to. Mr. Green then rose and said: I rise to say that every insinuation contained in that article is maliciously and wilfully false, if the editor meant them to apply to me. I was a member of Congress the year the capital was removed from Austin to Galveston. I never owned a lot of land either in the city of Austin or Galveston. It was General Houston who was concerned in moving the capital of Texas backwards and for This is a very small matter, but I have thought it proper to expose the misrepresenta-tions. I am a property holder at Vallejo. Every one knows that I am. I paid for all the property I possess there; and I believe it the best place for the State Capital, irrespective of the consideration how my interests may be affected by the change.

Mr. Robinson (from the chair,) intimated that the Senator's name was not mentioned in the article referred to.

Mr. Green remarked, that it was true his name was not mentioned, but his fellow Senators had told him that it was meant for him. If

so, it was a malicious lie.

Mr. Broderick asked and obtained leave to bring in a bill entitled "an act to establish the Recorder's Court of the City of San Francisco," which was read a first time, and on motion of Mr. Van Buren, the rules were suspended, and it was read a second time, and referred to the

The Senate then adjourned.
IN ASSEMBLY.—From James Austin, of San Francisco, for relief for loss of State bonds by fire on the 4th of May last. Referred to a select committee composed of Messrs. Crane, Wethered

A report of Col. Wm. Rogers on Indian difficulties, was received and referred to the Come on Military Affairs.

Mr. Bennett presented a communication from merchants and pilots of San Francisco. Referred to the Committee on Commerce.

The Committee on Elections reported that in consequence of the intention to contest the election in the case of Wm. C. Smith vs. R. T. Sanders, of Butte county, not being filed with the county clerk, and in consequence of other informalities, and of the want of sufficient proof of certain allegations, Mr. Sanders be entitled to his seat as a representative on the floor of the

Assembly.

The Committee on Claims reported adverse to the petition of R. A. Wilson, Criminal Judge of Sacramento county. Adopted.

Mr. Lisle moved a resolution that so much of the Governor's message as refers to the appointment of Judge in the 6th Judicial District, be

referred to the Committee on the Judiciary. A communication was received from the Secretary of State and the Comptroller of State, showing that the State Printer had used all diligence possible under the circumstances, in performing the work of the public printing. A motion was made to print sixty copies of the

report of the Treasurer, and carried; and the same was reconsidered and lost. A motion to print the report of the Surveyor General, was lost

A motion to print sixty copies of the memo-rial from the Court of Sessions of Sacramento county, respecting expenditures during disturbances in the city of Sacramento, in August

last, was carried. The bill (Senate bill No. 4,) to repeal an act to provide for the inspection of steamboats, was taken up and referred to the Committee on

More Furious Riding .- The police made several arrests on Wednesday last, for furious riding through the streets, and the violators of the law were summarily dealt with by the Recorder. We are told that in one of these cases, the officer who made the arrest was browbeaten and abused by the defense, both before and after the trial; and every indignity attempted to be heaped upon him, and that without allowing him to stand upon his rights. If officers are not to be protected by their superiors, in the discharge of their duty, and even humiliated and wronged for so doing, we fear that they will not hereafter exert themselves to put a stop to this reckless practice of furious riding, lest they should arrest some one that will have more considera tion shown him in his violation of law than the officers received for doing their duty.

METHODIST CHURCH, SOUTH .- We are requested to state that the exercises of the Methodist Episcopal Church, South, in this city, will be resumed on next Sabbath, at 11 o'clock, A. M., and at half-past 3 o'clock, P. M., in the Superior Court Room, recently occupied by the Presbyterian congregation. No one thing is so valuable as the

vice of the Pacific News .- [Picayune. "And no one thing is so" value-less as the paper, principles, profits, patronage, and pickings of the Picayune.

BY LAST NIGHT'S BOAT.

News from the Sacramento Valley. Up-country papers of yesterday morning, were brought to our office last night by

The Sacramento papers contain nothing of particular interest. The efforts of the officers of justice seem to be mainly directed to the horse thieves, some one or two of whom are daily arrested.

A Catholic Church is about being erected at Marysville.

FROM NEVADA CITY. - We learn that business in this inland city is again reviving, and that large numbers of miners are returning to commence operations in the cayote diggings. This description of mining, is said to be already carried on to a large extent, as several streams of water have been brought to the diggings in ditches, for a distance of about six miles, thus affording facilities for washing, which was heretofore supposed could only be supplied by rain.
One of the companies connected with this water operation, has invested \$10,000 in it, and two hundred "Long Toms" are now supplied through the agency of this newly-constructed water-

We also learn, that a few days ago, gold was discovered in a mountain in the vicinity of Nevada, which had been unexplored heretofore, and which promises to be rich as any yet worked.

The miners have also adopted a new plan of operating in these diggings. Instead of sinking shafts, they commence at the base of the hills and dig tunnels, and this mode of operating appears to obviate much of the difficulty and hard work, heretofore attendant upon their

A large vein of quartz Fock exists near Nerada, which we are informed by reliable authority will pay about forty cents to the pound, and a number of persons are turning their attention to this description of work. A quartz grinding machine on a large scale, was sent up there a few days ago.—[Times.

Record of the City Courts.

WEDNESDAY, January 15, 1851 SUPREME COURT .- Hon. H. A. Lyons and N. Bennett, Associate-Justices, Sunol et al. vs. Hepburn, et al.—Opinion of

e Court by Justice Bennett. This cause was tried in the Court of First Instance of San Jose, before a jury. The jury were unable to agree, and the parties stipulated that a verdict should be entered in favor of the defendants, saving to the plaintiffs the same rights which they would have had in case the jury had actually rendered a wordist for the jury had actually rendered a verdict for the defendants. In strictness, the stipulation should be regarded in the same light as a verdict.

This is a possessory action. It is based solely upon the ground that the plaintiffs were in possession of the land on which Hepburn entered, at the time of his entry, and not upon the ground that they held the property or dominion therein by a valid title. To enable the plaintiffs to maintain the action they must establish two facts: Ist, That they were in actual possession at the time of the intrusion complained of; 2d, That they are entitled to be reinstated in the possession from which they claim to have been illegally evicted. Judgment affirmed and ordered accordingly. Crittenden and Randolph for appellant. Lockwood for ap-

Attorney-General, ex rel. James Hagan vs. Edward A. King.—Submitted on motion. Norton counsel for plaintiff.
Selim E. Woodworth vs. Wm. Fulton and Da-

vid Hersch.—This action is brought to recover possession of a lot of land in San Francisco. At the commencement of the suit, the defendants were in actual possession of the premises, having entered without force, fraud or any clandestine means, and claiming to be bona fide occupants of the same, under a written conveyance to them. The claim of the plaintiff is based upon two grounds: 1st, that he has a perfect title to the lot; 2d, that he was once in ssession of it.

To maintain his first position, he relies upon a grant from an Alcalde of San Francisco, bearing date the 15th of April, 1847. This grant was made by an American Alcalde, not appointed by one holding office under the Mexican gov-ernment, to a citizen of the United States, during the continuance of the war between the United States and Mexico. The question is, whether the Alcalde has a right or power to dispose of the real estate of the vanquished to a citizen of the victorious country. Judgment eversed with costs.

Alanson Smith, Andrew E. Tharpe and Chas. H. StJohn, were admitted to practice as Attorneys and Counsellors in this court. SUPERIOR COURT .- Hon. J. Caleb Smith.

Clark vs. G. Simpton, et al. - Cause continued by consent of parties until Saturday. Corbett vs. Stack & Wilson. - Cause continued

by consent of parties until Saturday. Callard vs. Mattheuse.—Cause continued till to-day at the cost of defendant. Smith, Clarke and Wilson for plaintiff. McHenry for defend-

Before Judge SHATTUCK .- G. Callard vs. Ann Mattheuse.—The Court having considered the demurrer in this cause, it is ordered that the same be overruled. Smith, Clark and Wilson for plaintiff. McHenry for defendant. Cepida vs. Cima.—On motion of counsel for plaintiff, it is ordered that this cause be rein-

stated upon the docket. Hubert for plaintiff. James McElwain vs. Timothy G. Phelps and James Dows.—Verdict for plaintiff in the sum of \$449 50. Wm. Smith for plaintiff. Munford and Bull for defendants.

John Roach vs. James W. Jenkins.—Final judgment in the sum of \$662 78, with interest on \$332 88, at the rate of ten per cent. per year, and \$329 90, at the rate of ten per cent.

er month. Judah for plaintiff. PROBATE COURT. - Hon. R. N. Morrison In matter of the estate of E. J. Walsh, de-

ceased. Ordered that Thomas Mehegan expose for sale all the personal property now in his possession belonging to said estate. In matter of the estate of C. B. White, deceased. On proof of the publication of notices, and examination of witnesses, ordered that the will of E. B. White, now on file, be admitted to Probate, and that Joseph T. White and William H. Orington, who are named therein, be ap-

pointed executors on filing bond in the sum of In matter of the estate of W. L. Carman, deceased. Ordered that the will now on file be admitted to Probate, and that letters testament-ary issue to Theodore Adams and James R. olton, on filing bond in the sum of \$5000.

In matter of the estate of E. J. Walsh, deeased. Ordered that special letters of adminmas Mehegan, on filing istration issue to The ond in the sum of \$6000. In matter of the estate of R. W. Lamb, de-

Ordered that H. T. Hann be appointed executor on giving bond. DISTRICT COURT.-Hon. Levi Parsons, pre-

Platner & Smith vs. F. Kribner-Motion to dismiss attachment under advisement.
