Victory of Totalitarianism and New Order in Europe

Writer - NOMURA, Shigeomi

Gist - The conspicuous victory of Germany at Flanders means the victory of German totalitarianism over liberalism, democracy and individualism of Great Britain and France and over communism of Soviet Russia. Misunderstanding, anxieties still entertained by our nationals, concerning totalitarianism shall be swept away and our nationals must learn what totalitarianism really means.

Name-Attack on A.B.C.D. Formation

Writer - OSHIMA, Ken

Gist - If there are those hostile countries which mistake for cowardliness the attitude of Japan who has patiently evaded the war in spite of the facts that her military operations have been interferred direcly or indirecly and her existence has been oppressed from outside, they might soon experience a deep regret. The instrigue of Anglo-Saxon countries to make Thailand a Yugoslavia in the Far East might be feared to bring a Balkan tragedy to the Orient. It is keenly necessary at this moment to remind what national flag carried the troops which resorted to armed struggle with the country whose fighting power they underestimated

from his family, as compared with the great cause of the Emperor. Such things as the separation from his father, mother, wife or children has no negative influence on the spirit of loyalty.

Songs of Defense

Writer - SAITO, Ryu

Gist - 75 so-called poems of defense. The spirit of sacrifice. To die for the Emperor without giving any considerations to his own personal matters. This is the spirit of Japan. After all his ego becomes the one and the same with Emperor. There exists no more ego. His life and whole existence has meaning and value on account of his being able to render service to the Emperor. Nobody can disturb this unique straightforward relation. This is the sincere devotion and loyalty to the Emperor and source of courage to die for the Emperor. -- Consequently, in Japan, God, the Emperor and National territorial exent is the one and the same thing. To be loyal to the Emperor means love to the country and reverence for God. Consequently, "Kashikomi" means the reverence for the Emperor who is really the living personification of God and to submerge himself into that of the Emperor. It is nothing else than the spirit of loyalty. For that reason, it is really a very small matter to be separated

Writer - HASHIMOTO, Kingoro.

Gist - What is meant by establishment of the East Asia Coprosperity Sphere? It is meant to acquire sufficient materials on which the Yamato race could live and prosper, and to establish an Emperial regime on the sphere. Japan is now taking a leading position in the world, and thence she must destroy any country who is against Japan's leadership. On the completion of the national structure with the Emperor in center, not only the world history is changed, but also the whole globe will be in Japan's hand, that is, our ideal of "HAKKO ICIU" will be realized. The East Asia Coprosperity Sphere, a highly civilized entity will be born, for the first time, on the globe. Then all the peoples of the world will come to tribute to our Empror, what a magnificent picture it will be!

Gist - Modern science is a product of the Western spirit. It is greoceupied with the 'object of study', but true science must direct itself to the study of the 'subject of study'.
The deadlock of Western sience is due to the fact that it has neglected this 'subject of study'.
The charecteristics and raison d'etre of the 'Japanese science' is in its study of the 'subject of study'.

Thinking about the education by Imperial Japanese.

Writer — SAITO, Ryō

Gist — In former times, our country devoted her education only to the point that we tried our best to get something in vain, out of something from the melting pot of the "World Culture", without any deep thinking about foundation and mission of our country. This article excludes the liberalistic looseness, requiring "Japanese Spirit" from the scientific viewpoint and referred to national education to be based upon their fighting spirit. In these connections, teachers should serve as leaders of the Empire under the "Son of Heaven".

Such a policy is very much expected. Especially it is expected of the Tojo Cabinet to comentrate total political powers of people to its best utilization for the strength of Japan. They should abandon the system of making military and civilian members of the cabinet even, so far adopted and must prepare the people for the final war in order to conclude Incident successfully. New determination and effort is naturally needed.

One Example	Date - January 20, 1938 (Responsible publisher - TATEMURA, Jinji)
	Name - History of Japanese Expansion in the Continent
	Writer - INAHARA, Katsuji
	Gist - Invasion by Gen (Ancient China where mongolians dominated) was a national emergency of Japan, but it can be featured that our people was convinced by the event that being a divine country, Japan could not be invaded by the alien. Considering that the Russo-Japanese war broke out owing to the lack of knowledge on the part of Russia and the present Sino-Japanese Incident resulted from the lack of knowledge on the part of Chan Kai-shek and his party, we may think of the stupidity of human being and of the provert "history is repetition." In should not be forgotten that the Korean expedition by Hideyoshi resulted in our self-conscionsness that we would not fail in the armed struggle in the Continent.

Name - The Development of the Japanese and of the Resources in the South

Writer - ITO, Choji

Gist - The most perfect form of existence of a race is a national state. The Japanese must import materials from the Far Eastern countries for her development as a race. When the riches in the East-Asia are thus developed and accumulated, the cultural as well as the economic life of the aborgires will be enhanced rapidly. Thus a new Asiatic culture will be born.

Gist - The administrative organization of the Ministry of Agriculture and Forestry and of the Ministry of Commerce and Industry is now being orientated toward controled economy. Full control must be instituted in all spheres of production, distribution and consumption, while commerce under the free economy system must adapt itself to the controled economy. A state cannot do without some sort of distribution agency. But commerce must now discard its mercantilism and become an agent of distribution for the State. It is not a denial of commerce, but a denial of commerce in its free economy form. Thus the real social function of commerce becomes more Apparent than ever.

Gist- If anything is meant by the myth "Asia is one," strengthening of Japan may be called the first step in the liberation of the Orient from the hand of the Occident. If this liberation has no meaning at all, then the myth cannot be even a myth. If the myth was in existence at the time of Tenshin Okakura, a philosopher at the beginning of the Meiji Era, it must exist even now. Nobody realized so many years that British imperialism has been oppressing Asia as a whole. This came to light so clearly by the present Incident. She is our enemy, the enemy of Asia. We have still been in a dream of Anglo-Japanese Alliance, forgetting about her invasion for so many years. In this connection, the myth at the time of Okakura has been reviewed and still is arround us.
