WHOLESALE PRICE LISTS FOR FLORISTS, SEEDSMEN AND NURSERYMEN

SPRING EDITION 1938

THE "BETTER" MARIGOLDS ARE IN GREAT DEMAND TODAY

Marigold Improved "Harmony"
(Beautiful as Cutflowers and Exceptional for Bedding)

"Improved Harmony" is in a class with Gold Medal winners. While it is listed as a Dwarf French Double variety, it is of a very charming and distinct type. The flowers are quite different from any other Marigold, Scabiosa-like in formation with tubular deep orange center petals flanked by broad velvety dark maroon-brown guard petals. The plants are dwarf,

Tr. Pkt...25c ¼ oz...35c 1 oz...\$1.00 ¼ lb...\$3.00 Lb...\$10.00

TWO VALUABLE MARIGOLDS

The "better" Marigolds are in great vogue today. Following are two of the leaders. Highly desirable as cutflowers and very worth-while for garden show.

Bodger's Marigold Gigantea Improved "Sunset Giants"

(See Colored Illustration on Front Cover)

A prominent horticulturist has said that a flower to be desirable must have one or more of three outstanding characteristics: it must be very showy, or fragrant, or of exceptional size. Marigold Sunset Giants has the happy combination of all three of these characteristics. But most remarkable, instead of the usual Marigold odor these flowers have a definitely sweet fragrance. The flowers are loosely formed, very full centered, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. Sunset Giants is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent double. We are confident that Sunset Giants will take its place in the front rank of the group of half-hardy annuals suitable for garden or cutflower use in any part of the country, and will be a first-class money maker for florists.

Tr. Pkt.....35c ¼ oz....75c 1 oz...\$2.50 ¼ lb....\$8.00

Marigold Dwarf, French Double Improved "Harmony"

(See Illustration Opposite)

about a foot high, compact, exceedingly free blooming, and extremely early. We have had reports of its being in full flower in western New York on July 1st, which is very early for Marigolds. It comes 100% true to type, color and habit. Equally as desirable for cutting as well as pot plants, window boxes and bedding.

NIEREMBERGIA HIPPOMANICA—DWARF CUP FLOWER

(Bodger's Introducer's Description)

Of all the hundreds of new flower introductions which have come under our observation during the course of the past few years, none has caused so much comment from visitors to our farms as this little Dwarf Cup Flower, Nierembergia Hippomanica. With the possible exception of Zinnia Linearis, it will outbloom any flower we have growing. It starts flowering when the plants are only about two inches tall, that is about 15 weeks after the seed is sown, and keeps on right up until the heavy frosts of late fall. It is at all times neat and tidy looking, the young flowers coming and covering the older flowers and seed pods. The lovely lavender blue shade, heightened by a touch of yellow in the center, is most charming. Plants are definitely dwarf, compact—streamlined, if you will—and not over 5 or 6 inches tall, and with a spread of only 8 to 10 inches. Foliage is light gray green, very inconspicuous, and there are literally dozens of flowers in bloom at a time throughout the summer. As an edging plant, for the border along a walk, or to outline beds of larger flowers, it has no equal, while for use in the rockery it is unexcelled and is extremely lovely in a window box or in flower pots. It is a half hardy perennial which will winter over if given some protection. In the southern warmer sections, no protection will be necessary. The plants should be cut back at the end of the season and will send out fresh growth in the spring.

Nierembergia Hippomanica (Dwarf Cup Flower)

A bed of the above, bordered with Dwarf Sweet Alyssum, on our trial grounds the past season was indeed a beautiful sight throughout the summer season.

Forever Loyal to Quality

COMPLETE DETAILED INDEX TO CONTENTS
OF THIS CATALOG ON PAGE 2

TERMS OF BUSINESS

Routing: Please give explicit shipping directions with each order, giving name of Freight, Express and Post Office stations. If no directions are given, we will use our best judgment, but all goods travel at purchaser's risk.

Disclaimer: The American Bulb Company gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds (bulbs or plants) it sells and will not be responsible for the crop.

If the customer does not accept the goods on above terms, he must return them at once, and money will be refunded or proper credit given. We exercise, however, the greatest care to fill our orders with the highest quality possible, as it is our constant aim to give our customers fullest satisfaction.

Discounts: On bills for Flower Seeds, Bulbs and Plants a discount of 2 per cent for payment 10 days from date of bill may be deducted: **5 per cent cash discount is allowed on all orders of Flower and Vegetable Seeds only;** 3 per cent on Bulbs when remittance accompanies the order, except items specially quoted or priced. All other goods are strictly net as are also bills for goods supplied under special quotations unless otherwise agreed upon.

Parcel Post: We will be pleased to send such items as can be mailed by Parcel Post; customers to remit for postage. We do not deliver any goods free at Wholesale Prices.

Prices: This list cancels all previous offers.

Unknown correspondents desiring to open an account will please furnish three references to parties in the trade with whom they have had credit relations, and sufficient time to investigate same; otherwise cash must accompany order.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

All goods are offered subject to crop failures, shortages or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to advance prices without notice.

EARLY ORDERS WILL, WE BELIEVE, PROVE MUTUALLY
ADVANTAGEOUS

CHICAGO AND NEW YORK

HOW TO IMPROVE GERMINATION OF FINE SEEDS ESPECIALLY DURING HOT WEATHER SEASON

Mix "Sorbex". (The Finest Peat Organic) with soil in seed flats and pots.
Soil for Seed Flats. A perfect mixture for the tender germinated seedlings is one part "Sorbex" to two parts screened garden loam—by volume. Prepare this mixture several days in advance of sowing seeds to allow the "Sorbex" time to absorb some moisture. If time is a factor, moisten the "Sorbex" somewhat before mixing with the soil.

"SORBEX." Per 10-bushel bag.....\$2.90
(Follow this by applying "Formaldehyde" or "Ansul Dust")

What Causes Damping-Off? Few growers realize that such diseases as "Damping-Off" and rots of seedlings are caused by living germs. Disease producing germs live normally in the soil and on seeds. The only successful way of preventing these diseases is to sterilize the soil and disinfect the seed.

(Excerpt from Florists' Review, issue of January 24, 1935)

Formaldehyde for Damping-Off. Dr. C. E. F. Guterman of the department

of plant pathology (Cornell University) told of recent developments in the control of damping-off of seedlings. The use of formaldehyde for treating soils for seed planting was recommended where it is not possible to use steam as a means of sterilization. It was shown that two scant teaspoons of commercial (forty per cent) formaldehyde mixed with about ten teaspoons of water make sufficient solution to treat one average-size flat of soil. The soil is spread out on the bench and sprinkled with the formaldehyde solution. It is then thoroughly mixed and placed in the flat. After the soil has stood twenty-four hours, the seeds may be planted. One pint of formaldehyde is ample to treat fifty flats of soil.

LIQUID FORMALDEHYDE. Qt....95c Gal....\$2.95 60-lb. kegs...\$9.90
ANSUL DUST. Also a popular remedy for Damping-Off control:

A. B. C. "Private Stock" Petunias at Lake Shore County Club, Glencoe, Ill.

The scene opposite depicts a bed of fifteen hundred (1500) Petunias "A. B. C. Private Stock Mixed" (Eriksson's strain) planted from 3-inch pots on grounds of Lake Shore Country Club, Glencoe, Ill., 1937. This bed was truly "A sight to behold" all summer long. Note even growth of plants, approximately 12 inches high. This dwarf superbissima strain is in a class by itself. (See center of this book for colored illustration and price of seed.)

INFERIOR SEEDS ARE A WASTE OF THE GROWER'S MONEY

New Aster Curled and Interlaced
"Blue and White"

ASTER CURLED AND INTERLACED
"Blue and White"

The color is a deep blue, with a white stripe showing on the outer edges of each of the inner petals. The outer petals keeping to a solid deep blue. This variety is the Curled and Interlaced type of the Giants of California group. It throws large flowers five to six inches across and with its long strong stems is ideal for florist work. Tr. Pkt.....50c ¼ oz.....\$1.25

NEW ASTER WILT-RESISTANT GIANT COMET
"Illusion" (Bodger)

(Recommended by "All America Council")

Still another new color in a wilt-resistant Aster, **Illusion**, is a soft, pastel shade of apricot pink, especially fine for cutting and most effective when used in combination with some blue flower, such as the Chinese Forget-Me-Not. The plants are upright, about two feet tall and very free blooming. Since the individual stems are short, it is customary to cut the whole plant as a unit when using the flowers for bouquets. The strain is wilt-resistant and will flower during mid-August. Tr. Pkt.....50c ¼ oz.....75c

NEW ASTER WILT-RESISTANT IMPROVED
CREGO TYPE "Enchantress"

(Recommended by "All America Council")

An entirely new color in Asters. A luscious shade of lively salmon-rose. Tr. Pkt.....50c ¼ oz.....75c

NEW BEGONIA (Semperflorens Type) "Scandinavia"
(Eriksson's Description)

A new, large flowering pot plant Begonia, originated in Sweden and introduced by Ernst E. Eriksson, Riverside, Ill. The habit of this Begonia is very outstanding. The easiest and fastest growing Semperflorens Begonia I have ever seen. You will be surprised to see how soon you have to space them and what a wonderful branching, free flowering and lasting habit it has. The colors are about 70% Pinks, 20% Reds and 10% in-between, outstanding colors, all very clear. They have dark green foliage, are absolutely self cleaning and the shedded flowers do not spot or rot the foliage. Think of it! They can be used for any purpose, as a house, combination or bedding plant. For florists large or small, a real money maker. Sow seeds in October and November for Mother's Day purpose and in January for Memorial Day and any time in Summer and early Fall for Winter blooming. Every pot plant grower in this country and Canada should try this Begonia. Tr. Pkt.....\$1.50 3 Tr. Pkts.....\$4.00

New Begonia Multiflora Fl. Pl.
"Mrs. Helen Harms"

RECENT NOVELTIES AND SPECIALTIES

NEW AGERATUM FAIRY PINK

Ageratum Fairy Pink is a dwarf compact Ageratum of a delightful soft salmon rose pink color. It begins blooming when not more than 1½ to 2 inches high and continues to grow until it has formed a solid compact mass of blooms. Its maximum height when it is in full bloom is not greater than five inches.

Tr. Pkt.....35c ¼ oz.....\$2.50

AMARYLLIS "Diener's Mammoth Hybrids"

Growers should find much of interest in Amaryllis culture from seed and we believe a most favorable surprise from the above named strain is in store for the producer when flowering period arrives. Crimson Star. Richest crimson with white petals. Tr. Pkt.....75c

BEGONIA MUTIFLORA FL. PL.

"Coppery Gold" (Benary)

The leaves, like those of Helen Harms, are small, narrow and longish; the rounded flowers are somewhat larger and better filled. Many flowers are like tiny roses, which are nominally very effective when opening. The combination of colors is wonderful: the foundation of old gold or golden yellow merges into copper red or coppery salmon and is usually tinged with carmine. The seedlings produce about 80% doubles; they bloom profusely and uninterruptedly from July onwards until the frost comes. Tr. Pkt.....\$1.00

BEGONIA MULTIFLORA FL. PL.

"Mrs. Helen Harms"

"Mrs. Helen Harms", the richly-flowering, sunproof, yellow bedding plant, takes a prominent place amongst the double multiflora Begonias.

In the past it has only been possible to propagate this delightful Begonia by means of cuttings, and consequently the tubers were very expensive. It was, therefore, the aim of every Begonia grower to produce this valuable variety from seed.

Today we are in position to offer seeds from "Helen Harms" which produce 90% to 95% double-flowering plants. The flowers, about 1½ inches in diameter, are the same deep canary yellow as those grown from cuttings; the foliage has likewise remained small, narrow and oblong. Tr. Pkt.....\$1.00

SCHIZANTHUS "MOTHER'S FAVORITE" IS HIGHLY RECOMMENDED FOR POT PLANTS

Recent Novelties and Specialties

NEW BEGONIA Semperflorens Heterosis "Snow"

This new, snow white, profusely flowering hybrid is outstanding on account of its resistance to heat, drought and excessive moisture. The plants bloom well during unfavorable weather and retain their fresh, pure white appearance. These pure white medium sized flowers show up well against the rosy stems and light green leaves. The bushy plants grow about 10 inches high. At the official Begonia trials (Germany), this new hybrid proved to be the best white Begonia. Tr. Pkt.....\$1.00

CHRYSANTHEMUM, "Golden Crest"

(Hardy Annual, 3 to 4 Feet)

Golden Crest is as great a step forward in Chrysanthemums as was Radio in Calendulas and Jubilee Gem in Cornflowers.

Golden Crest has the robust constitution of the Coronarium varieties, making vigorous and strong, well-branched plants 3 to 4 feet in height. The flowers are produced so freely that one plant will carry as many as 50 to 60 blooms. The foliage is of an attractive silvery green, contrasting admirably with the bright butter-yellow flowers. The most outstanding feature of this Novelty is, however, the formation of the flower. The petals are quilled and, as will be seen by the illustration on this page, this quilling has a beautifying effect, which raises **Golden Crest** far above the level of other Chrysanthemums. In contrast to other Coronarium Chrysanthemums, this really outstanding novelty produces 100% of double flowers. Tr. Pkt.....50c

Chrysanthemum "Golden Crest"

CALENDULA (Crested) "Orange Fantasy"

(Award of Merit by "All America" Council)

Orange Fantasy Calendula is unique—a form never before seen in this favorite flower. Outer petals are long, the inner petals short, curled and interlaced to form a heavy crest which surrounds a large, mahogany-bronze center. Flowers grow 3¾ inches across and are of a deep but pleasing bronzy or coppery orange with petals edged deep mahogany-red. 15 inches tall. Tr. Pkt.....25c

New Calceolaria "Flower Cloud"

CALCEOLARIA HYBRIDA "Flower Cloud"

indicates its descent from the rugosa type by its extraordinary mass of bloom. Over a hundred "Lady's Slippers" about 1 in. large, on the center stem form large dense bouquets which, joined later by several hundred blossoms on the numerous side shoots, form giant umbels, aptly described as "Clouds." It starts flowering somewhat later than the multiflora nana and earlier than the rugosa Calceolarias and lasts for weeks in undiminished glory. The striking, brilliant light yellow show plants, on an average 12 ins. high, must appear very desirable to every spectator. Besides yellow, there are varying shades of brown and orange. The hardiness of flowers and foliage makes transport easy, and use in the open possible, and increases its value as a market plant.

Tr. Pkt.....\$1.00 1/128 oz.....\$4.00

CALLIOPSIS "Golden Crown"

(Award of Merit by "All America Council")

Enlarged Drummondii of rich orange-yellow or gold, about a third larger than Golden Wave; with double rows of petals. It has a pleasing fragrance and is nice for cutting; with 12-inch wiry stems.

Tr. Pkt.....35c

CHRYSANTHEMUM, Segetum "Zebra"

Annual Chrysanthemums are some of the most profitable annuals, being also modest in their requirements and easy to grow. They bloom continuously.

Chrysanthemum Segetum "Zebra" is the first definite two-colored variety in the Chrysanthemum segetum class. The tips of the petals of these medium-sized blooms, 2 inches across, are mahogany red, encircling brilliant yellow. A gay combination of colors, peculiarly attractive. The color contrast is considerably increased by means of a dark disc. **Chrysanthemum Segetum "Zebra"** is particularly suitable for borders and edgings on account of its dwarf and spreading growth and it is valuable as a lasting flower for cutting purposes.

Tr. Pkt.....50c

COSMOS Extra Early Colossal Flowered

"Sensation Crimson"

Colossal flowered **Crimson**, a color hitherto not found in the Sensation group.

An identical replica of Pink and White, as regards habit and size of flower; **Crimson** has the same deep color as that found in the smaller flowered Mammoth single crimson.

Rounding out the color class of the Sensation group, **Crimson** is the shade greatly needed in this very popular Florist cut flower. Tr. Pkt.....\$1.00

See alphabetically arranged page in this book for listing of Cosmos "Sensation" Pink, White and Mixed.

Chrysanthemum Segetum "Zebra"

BUDDLEIA'S "CHARMING" AND "HARTWEGI" PROVIDE EXCELLENT CUT FLOWER MATERIAL.

SPECIAL QUANTITY DISCOUNT
 Special 5% Discount
 from prices quoted above on orders for 5,000 seeds or more.

Cyclamen—Sow seed from August to October. All soil, flats and pots should be steam sterilized to destroy troublesome soil pests. Soil mixture of 3 parts silt loam, 1 part well rotted manure ½ part acid peat and ½ part sand has given satisfactory results. The soil for potting

into 4-inch and larger pots should contain additional fertilizer in the form of 4-12-4 and horn shavings at the rate of a 4-inch pot per wheelbarrow. When plants are in finishing sizes, additions of ammonium sulphate or urea in liquid form, every two weeks for approximately six weeks time.

Cuphea Firefly

CUPHEA "FIREFLY"

In our quest for a plant which is dwarf, compact, neat in habit, and showy for modern gardens, it is a joy to discover Cuphea Firefly. A newcomer this season, Firefly has all the characteristics needed in a dwarf, compact plant. The flowers are small and delicately formed, fiery cerise red in color, and are freely produced on compact plants which reach a height of about 10 inches. The general effect of a plant when in full bloom is a ball of fire, recommending itself at once as a subject for the rockery, for window boxes, for flower pots, or as a border or edging variety. It is a tender annual flowering readily in twelve to fourteen weeks from seed, and blooms profusely throughout the summer months.

DELPHINIUM

NEW V. AND R. STRAIN

Hand-pollinated seed direct from Vetterle & Reineit. Mildew resistance, solid woody stems, fine large spikes, large flowers that will not shatter, are among the features claimed for this strain. Has obtained quite a vogue with California growers.

Tr. Pkt..\$1.00 1/8 oz..\$2.00
1/4 oz..\$3.50 1 oz..\$12.00

SPECIAL Note: We have recently imported from Blackmore & Langdon (England) a large collection of their choicest named varieties in various colors and shades. Each variety in separate package and containing not less than 100 seeds, which we offer at \$1.25 per package or 5 varieties for \$5.00. If you are desirous of producing Hardy Delphiniums that will create a sensation when in bloom, allow us to make up a selection. We promise that you will be agreeably surprised with the results obtained from same.—A. B. C.

New V. and R. Delphinium Interspersed With Adiantum Fern

DELPHINIUM

Blackmore and Langdon's Gold Medal Strain Exceptional for Cutflowers and Garden Show

We believe everyone will agree that there are no better Delphinium strains to be found anywhere than those developed and sold by Blackmore and Langdon of Bath, England. Their famous Delphiniums have been admired by connoisseurs from all parts of the world, they have been exhibited at all the important horticultural shows and exhibitions, and have been granted literally hundreds of medals, prizes, certificates and awards. To those who are acquainted with Blackmore and Langdon's Delphiniums no more need be said, and to those who have never grown these famous Delphiniums we recommend most urgently that this very valuable strain be incorporated in the Delphinium list.

IPOMOEA (Moonflower) "Heavenly Blue"

The Most Beautiful of All Flowering Vines

Clarke's Improved Early Flowering Strain. Clarke's strain is well known and widely used throughout the United States. It is early flowering and makes a sparse growth of foliage. When growing Ipomoeas, care should be taken to plant them in a dry, sandy location, and fertilizer should never be applied.

Clarke's Early-Flowering "Heavenly Blue". A good seller when offered in small pot plants for setting out in the garden in spring.

Tr. Pkt...15c Oz...75c Lb...\$8.00

Ipomoea (Moonflower) "Heavenly Blue"

Provide a supply of "Heavenly Blue" Moonflower, in 3-inch pots, for sale to your garden planting customers. This unusually beautiful vine, when in bloom, will be "the talk of the town" and prove an outstanding advertisement for your firm.

New Russell Lupins

NEW MIRACLE FLOWERS "Russell Lupins"

(PERENNIAL)

Extraordinary colors; many new shades never before seen in Lupins, self blues, pinks, reds, yellows, maroon, purples, etc. Bicolor such as violet and white; blue and yellow; red and bronze; red and white; purple and cream; blue and white; yellow and orange; pink and white, etc., the standard one color, the keel another.

Individual flowers above average size, upright standards of some being an inch across. The flower spike resembles a closely set, well rounded column of sweet peas. All flowers on spike open at one time from top to bottom.

Awarded the coveted Gold Medal at the Cheltenham Flower Show of the Royal Horticultural Society in June, where the Russell Lupin display monopolized the attention of the audience.

Flowers keep well when cut. Can be grown most anywhere.

NEW LARKSPUR "Cinnabar Cockade"

"Cinnabar" is a rich brilliant rose red. Plants are compact and symmetrical, throwing long spikes of very double flowers. "Cinnabar" has the same graceful habit as Blue Cockade.

This variety with its brilliant color and long tapering spikes will, we believe, soon be the Florists' favorite for cut flower purposes.

LILIUM LONGIFLORUM PRAECOX "White Queen"

The cult of the Liliium family has experienced an immense impetus of recent years, and we are pleased to be able to supply this beautiful Lily, which, with its long snowy-white pendant flowers, is remarkable for the celerity with which it can be raised from seed. The plants begin to bloom well within 12 months from the time of sowing. The flowers are of exquisite form and very freely produced. This new Lily has proved itself an excellent market plant. It received an Award of Merit from the Royal Horticultural Society in 1932.

A. B. C. "DE LUXE" MIXED PANSY IS THE BEST DWARF STRAIN OBTAINABLE.

MARIGOLD, Tall Single French, "Flaming Fire"

The long-stemmed, brightly colored, large single flowers, 2 inches across, vary in color at different seasons; at times they are flaming red and other times red and yellow. The variations in color and pattern of this Marigold are inherited and constitute what is known as a variegation. Plants are much branched, 2½ feet tall, come into bloom in about 12 weeks, and continue to bear most profusely all through the season.

New Marigold
"Flaming Fire"

MARIGOLD, Burpee Gold Odorless Foliage; Carnation-like Flowers

Here is truly a Marigold with a host of things to commend it—even, rich deep orange color, large flowers, 3½ inches across, beautiful Carnation-like form, attractive habit, uniformity of color and blooming time, full doubleness with no singles, earliness, and above all absolute freedom from the usual Marigold odor. Flowers somewhat resemble Guinea Gold, being made up of loosely arranged rays or petals which are shallowly fluted. Tr. Pkt.....25c

MARIGOLD, AFRICAN, Little Giants Mixed

(Introducer's Description)

From our Trial Ground—the most unique Marigold novelty of the decade. A Marigold that will average only a height of 15 inches and yet will actually produce a head of twenty to thirty-five beautiful four-inch flowers.

Little Giants throws blooms varying in form from the informal Carnation type to the perfect *Fistulosa* globe. The plants are very closely compact and the stems short. Its foliage is a beautiful dark bluish green.

Although **Little Giants** range in height from 10 to 15 inches, a fraction percentage of taller plants will show up. However, these are easily detected at the transplanting stage as they all have light colored foliage—**Little Giants** being a deep bluish green. **Little Giants** is strongly recommended for bedding and pot plants, especially the latter—as it will bloom a head of twenty-five flowers all at the same time. Color ranges from a yellow to a very bright orange, with many shades in between.

Tr. Pkt.....35c ¼ oz.....\$1.25 Oz.....\$4.00

DON'S GIANT WINTER FLOWERING PANSY

Pansies at Their Loveliest

One of the most important horticultural introductions of recent years. Plants grow 2½ to 3½ feet high, with six to eight strong upright stems bearing numerous good sized blooms on flower stems ten to twelve inches long.

Sow in July-August

Seed should be sown under glass in July or August, and the plants benched in the greenhouse about October. Set the plants twelve inches apart in the bench and support in the same manner as Carnations. They may also be grown in 6-inch pots sunk in the bench if desired.

A Wealth of Bloom from December to May

The color range is excellent, and if the blooms are kept cut as they mature the flowering period will continue from December well on into the spring. Our illustration shows some of the plants grown in pots and exhibited at the Chicago spring flower show by Mr. Fritz Bahr, where they attracted considerable favorable attention.

Recent Novelties and Specialties

Passiflora Coerulea Grandiflora
"Passionflower"

PASSIFLORA COERULEA GRANDIFLORA

The large and numerous flowers of *Passiflora coerulea grandiflora* give an especially evident representation of the "Implements of the Crucifixion," making it thus a very interesting plant. Among all "Passionflowers" this climber is the most frost-resisting species, so that it may resist also in the northern countries in protected places on south walls, if covered in winter. Not only for its particularly large flowers, but also for its beautiful foliage, this *Passiflora* is recommended as one of the most interesting climbing plants. (Sow seed early.) Tr. Pkt.....75c

PRIMULA SINENSIS (Double-Dazzler)

The world-wide popularity of our novelty of three years ago, the single form of *Primula Dazzler*, has caused a demand far above our most sanguine expectations. It is probable that no novelty of recent years has been listed so freely by seedsmen at home and abroad. Growers of decorative plants for market have given unstinted praise to the value of *Dazzler* as a pot plant. It is, therefore, with more than usual pleasure that we announce the advent of a double form, which comes perfectly true from seed. *Double Dazzler* makes an even better market plant than our original introduction, for the flowers lift themselves more above the foliage and are produced in even greater profusion. As can well be imagined, the duplication of the petals adds considerably to the beauty of the plant and emphasizes the vivid orange-scarlet coloring of the flowers.

New Salvia "Blaze of Fire"

NEW SALPIGLOSSIS Light Blue and Gold (Improved)

We now offer a great improvement in Salpiglossis Light Blue and Gold Improved. It is the same uniform height as the Emperor group, about 3 feet tall. It is free flowering with numerous branches of very large flowers. The color is a clearer, richer light blue with beautiful gold veinings.

Tr. Pkt.....25c Oz.....\$2.50

SALVIA "Blaze of Fire"

(The Scarlet Salvia Novelty of the Year)

This novelty vies with Chrysanthemum Golden Crest for first place in the 1937-38 Flower Seed Novelties. By many, **Blaze of Fire** will, we are certain, be named the "Novelty of the Year" if not the decade, when it has been grown and flowered.

It far surpasses Harbinger in earliness. The flowers are the most brilliant and vivid scarlet imaginable, and the habit is ideal for bedding. **Blaze of Fire** is without query the earliest and most dwarf of all Scarlet Salvias, blooming ten to fourteen days before Harbinger, and it is much brighter in color than that variety. We recommend it to our customers with every confidence, for we are sure of its merit, and the fact that it will quickly become one of the most popular of all bedding plants. Tr. Pkt.....50c

SALVIA "New Dwarf Gem"

A miniature scarlet Salvia desirable for borders, rock gardens, etc.

Tr. Pkt.....50c

SALIVA PATENS "Mauve Queen"

The great popularity of the beautiful **Salvia Patens** makes it certain that there will be a very wide demand for this novelty. It is of exactly the same habit and growth as Patens, but the flowers are of a beautiful helio-mauve. **Mauve Queen** comes perfectly true from seed, and we specially recommend it as a variety of outstanding merit. Tr. Pkt.....50c

For complete list of Salvias please refer to alphabetically arranged pages in this book.

New Early Flowering Snow White Snapdragon

"BEZDEK'S WHITE WONDER"

For Under-Glass Culture. Introduced by A. B. C.

By far the best pure white Snapdragon we have ever seen, possessing long flowering spikes on strong wiry stems. Produces continually throughout the winter months without shattering its flowers. The Chicago Flower Trade having merchandised "White Wonder" for the past two years have invariably declared it the white cut-flower Snapdragon "par excellence". (Advance orders for this valuable new kind are advisable.)

Stock, Giant of California "Sequoia"

NEW SCABIOSA GRANDIFLORA ROSETTE

As a result of many years' selection and painstaking care, we have created a glorious new color in Annual Scabiosa. **Rosette** is a beautiful shade of deep rose heavily suffused with salmon. The flowers are extra large and the stems are long and stiff. This glorious, glowing new color will undoubtedly make Rosette a most popular flower for the garden and also with the florist for cutting. It is a fitting companion to Loveliness, Peach Blossom and Shasta, all of which have received Awards of Merit from the Royal Horticultural Society.

Tr. Pkt.....25c Oz.....\$2.00

TITHONIA SPECIOSA GRANDIFLORA FIREBALL (Bodger)

Dazzling as a ball of fire poised high above other flowers, **Fireball** is, undoubtedly, the last word in brilliance of color in a fall blooming plant. Many who have known and enjoyed *Tithonia Speciosa* have considered it the brightest possible flower for fall use. With the introduction, however, of **Fireball**, this older variety is entirely overshadowed. **Fireball** is a very brilliant, vibrant shade of scarlet orange, the petals in dazzling contrast to the clear yellow center. The gaily colored flowers are single, very large, 4½ to 5 inches in diameter, and are carried on fine long stems. The plants are very tall, some reaching a height of 8 or 9 feet, with a fairly heavy growth of grayish green, wooly foliage. They are, however, neat in appearance, filling in well from the very base of the plant to the top, and unlike the older *Tithonia Speciosa* do not become ragged looking. In southern warm districts, seed should be sown in late spring outdoors, while in the northern sections it should be started indoors and the plants set out after danger of frost has passed. *Tithonia Fireball* is a tender annual, flowering late in the season, and is not subject to plant diseases. It is extremely showy in the garden and an excellent new cut flower variety. The flowers will keep five or six days when cut. We have every confidence that **Fireball** will be one of the headline flowers of the 1938 season. Tr. Pkt.....50c ¼ oz.....75c Oz.....\$2.75

Tithonia Speciosa Grandiflora Fireball

NEW SCHIZANTHUS

(Butterfly Flower)

"Mother's Favorite"

(See Inside Back Cover for Illustration)

Price—Mixed Colors: Tr. Pkt.....\$1.25 3 Tr. Pkts.....\$3.00

"**Mother's Favorite**" is "tops" as a pot plant for Mother's Day and spring sales. Also of exceptional value for cut flowers, this new strain is in a class by itself. A high temperature is not required for *Schizanthus*, even in the winter months. For early blooming sow August-September.

Note below what Holm & Olson, the well-known retail florists and growers of St. Paul and Rochester, Minn., think of this grand new *Schizanthus* "Mother's Favorite."

American Bulb Co., Chicago

Rochester, Minn., June 22, 1937.

In regard to the *Schizanthus*, we have grown "Mother's Favorite" very successfully as a pot plant. Seeded about the middle of January, planted in 2¼-inch pots, and when ready pot three in a 7-inch pan, and this makes a very fine plant for Mother's Day. These are rapidly becoming very favored by the public, as they, even under such unfavorable conditions as in a hospital, develop to the last bud and present a mass of blooms that last for weeks.

If seeded in early December they will be ready to bear April 1. I am sure it is a very valuable addition to our spring pot plants.

Very truly yours,

Signed, HOLM & OLSON CO.,

Per H. Thompson, Mgr.

ANTIRRHINUM (Snapdragon)

(Greenhouse Grown Seed)

Varieties Desirable for Greenhouse Culture

In sowing Snapdragon seed, always bear in mind that failure in germination usually results either from covering the seeds too thickly with soil, allowing the flats to dry out while germination is under way or not applying sufficient shade up to the time the seedlings appear. With ordinary care, Snapdragon seed will germinate freely if covered but lightly and the surface of the flats kept moist and dark. One way to do this is to keep the soil surface about 1 inch below the edge of the flats. Then lay three or four pieces of laths across the top of the flats on which place burlap. This, if kept wet, will provide the required shade as well as keep the surface moist.

The following are the season's best new introductions.

Bezdek's White Wonder. Unquestionably the best pure white cut flower Snapdragon on the market today. Introduced by A. B. C.

Schrock's Orchid. Each, \$2.00 per Pkt.; 3 Pkts. of one or both, \$5.00

We can also supply the three new varieties:

Westover White. A fringed, pure white. Tr. Pkt. \$2.50

La France. La France rose-pink. Tr. Pkt. \$2.00

Rose-Pink Cheviot Supreme (Windmill). Fairly deep rose-pink. Very uniform in color and habit. The product of a specialist who has worked years perfecting this strain.

1/2 Tr. Pkt. (1000 seeds) \$1.25 Tr. Pkt. (2000 seeds) \$2.00

For out-door cut flowers and general garden culture. The following "Malmaison type" Snapdragons are highly recommended for cut flowers, and garden show as well. (See colored illustrations in the center of this book. Malmaison type).

Royal Cerise. Beautiful cerise color.

Royal Rose. There is apparent in every flower that quality of tone and velvet sheen that reminds one of the texture of the rose.

St. George. A new shade of orange cerise. Most outstanding.

Price, each of above exceptional varieties:

Tr. Pkt.50c	3 Tr. Pkts.	\$1.25
---------------	------	------------------	--------

SPECIAL NOTE!

If you merchandise small plants to the public for garden planting, don't fail to include the three new "Malmaison" Snapdragons listed above. We are sure that they will make friends for you when blooming period comes around.

These strains have been produced through crossing the late-flowering kinds with original and entirely rust-proof strains. They are almost 100 per cent rust-proof under conditions that completely rust destroy the regular kinds. They are not quite so true to color as are the regular class but very nearly so. We strongly recommend them.

STANDARD OUTDOOR VARIETIES

(Not Winter-Flowering or Rust Resistant)

MAJESTICS

An extra large-flowered class of fairly compact growth. Fine for spring flowering if started early enough to draw up the stems.

ASTERS

Bodger's True "Rot or Wilt-Resistant" Strains. Can You Afford To Plant Any Other Kind!

(Florists' Review, issue August 1, 1935. Reporting market conditions from Nashville, Tennessee.)

Asters are coming in steadily now and are of excellent quality for this early in the season. The resistant strains of asters are proving a real boon to florists in the south. Prior to the introduction of the resistant types, it was practically impossible to grow asters here, except under glass, and even these were not overly successful.

SPECIAL NOTE! Growers contemplating Aster production for cut-flowers will, we believe, find it much to their advantage to confine exclusively to the "wilt resistant" strains. The small difference in cost of seed as against the "regular" quality is of little moment as compared to possible difference in crop results.

12 "Resistant Strain" Asters that are considered to be really worth while, both for the florist grower and home garden planter as well.

Asters Like "Running Start"

Florists should have greater success with asters if they give them a "running start" on the season. In other words, asters need a longer season than the majority of the popular flowers of this area, and it has been found beneficial to plant them inside sometime after mid-March.

The young plants should be transplanted when they have grown large enough to be easily handled and when the ground and climate have become warm. Treated in this manner they should bloom comparatively early.

GENERAL LIST OF WILT-RESISTANT ASTERS

Queen of the Market

Medium sized flowers. Blooms in July. The earliest Aster of quality.

	Tr. Pkt.	¼ oz.	Oz.
White	\$0.35	\$0.50	\$1.75
Flesh Pink. Not recommended for market.....	.35	.50	1.75
Dark Blue.....	.35	.50	1.75

ASTERS, WILT-RESISTANT (Continued)

Following Are Desirable Wilt Resistant Asters of "AMERICAN COMET" Type.

- Astermum Lavender. Fairly dark azure blue.
 - Astermum Rose Pink. Bright rose-pink of upright growth. Excellent market color.
 - Astermum White. Earlier but not so full or large as Crego White.
 - Comet Blush Pink. Valuable for earliness and light color effect.
 - Comet Light Blue. Fine size and good cut flower shade. Highly resistant.
 - *Crego Azure Blue. Attractive light blue, medium size, excellent color.
 - *Crego Blue Flame. A rich fairly deep blue with extra large, fully double flowers on good stiff stems.
 - Crego Deep Rose. Rich deep rose. Do not confuse this with Rose Pink.
 - Crego Orchid (Cattleya). This is a very rich subdued rosy lavender—a true "Orchid" shade and original in Asters.
 - Crego Peachblossom. Attractive light lavender-pink—Phlox Pink color.
 - Crego Shell Pink. Very fine bright shade.
 - Crego White. Large, full and clear color.
 - *Ostrich Feather Peach Blossom. An attractive, fairly deep rose pink. Excellent for market.
 - Crego and Comet Types Mixed.

ASTERS

Bodger's Famous "Regular" Strains

SPECIAL NOTE

In soil that is clean and rot is not to be considered our "Regular" Strains of California Asters, listed below, will be found generally satisfactory. However, if in doubt, plant "Bodger's Wilt-Resistant" Strains. The small difference in cost of seed is of little moment compared to crop results.

Imbricated Pompon (Improved)

These small Pompon Asters have the past few years had great vogue with California growers and the past season were introduced to Eastern retailers, with the result that they are now generally acceptable and highly thought of as cut flowers.

	Tr. Pkt.	¼ oz.	Oz.

Mixed20	.30	1.00

Improved Giants of California, Curled and Interlaced

(Also known on the Chicago Cut Flower Market as "Chicago Giant Beauty.")

This new Aster is somewhat of the Crego and Beauty type, but is practically non-lateral, producing flowers of immense size without disbudding and of wonderful substance on strong, stiff stems 20 to 24 inches long, acclaimed by wholesale and retail florists as the ideal of cut flower Asters.

Deep Rose, White, Peach Blossom.

Each of above. Tr. Pkt.....	35c	¼ oz.....	75c	Oz.....	\$2.25
Mixed, all colors. Tr. Pkt.....	35c	¼ oz.....	75c	Oz.....	\$2.25

Super Giant Los Angeles

Award of Merit 1934 All-America Selections.

Los Angeles, Bodger's introduction of a few seasons ago, is still one of the most popular and best selling Asters on the market. The first introduction in the modern Super Giant class, the flowers are fully double, 6 to 8 inches across, graceful and delicately interlaced. The long, stiff stems are basal branching and strictly non-lateral, bearing the large flowers smartly upright. Don't overlook this fine Aster.

Tr. Pkt.....	35c	¼ oz.....	75c	Oz.....	\$2.50
--------------	-----	-----------	-----	---------	--------

Super Giant El Monte

Two seasons ago we introduced the sensational new Super Giant Aster Los Angeles, a delicate shell pink color. Extremely popular in the cooler climes, a more rugged color was desired in the warmer lands. This wish is met completely in our new companion Super Giant, El Monte, the only really large flowered crimson Aster. Deep glowing crimson, composed of abundant quantities of daintily interlaced plume-like petals, the flowers are extremely large and fluffy, borne on heavy non-lateral, basal branched stems. It is very early blooming, coming in before the California Giant varieties, and remaining in flower over a long period. Although not wilt-resistant, we highly recommend El Monte to you. Plant El Monte for your earliest Giant Aster. Tr. Pkt.....

Tr. Pkt.....	35c	¼ oz.....	80c	Oz.....	\$2.75
--------------	-----	-----------	-----	---------	--------

Ball White

A choice white cut-flower Aster. (For cut-flowers, however, we recommend the wilt-resistant Ball White.)

Tr. Pkt.....	35c	¼ oz.....	50c	Oz.....	\$1.75
--------------	-----	-----------	-----	---------	--------

Boltze's Dwarf Bouquet

Choice for pot plants. Mixed colors.

Tr. Pkt.....	25c	¼ oz.....	50c	Oz.....	\$1.50
--------------	-----	-----------	-----	---------	--------

Single Southcote Beauty

Free flowering strain of branching habit. Height, 2 ft. Blooming in early September. Desirable for bedding. For cut-flowers we recommend the "Single Chinensis Strain" offered under the heading of "Resistant Strains."

	Tr. Pkt.	¼ oz.	Oz.
Dark Blue or Purple	\$0.25	\$0.50	\$1.50
Light Blue or Mauve25	.50	1.50
Light Rose25	.50	1.50
Scarlet25	.50	1.50
White25	.50	1.50

Aster, Improved New Giant California Sunshine

(About one-half natural size)

NEW ASTER "CALIFORNIA GIANT SUNSHINE" IN SEPARATE COLORS

Alpenglow

Color charting this Aster in Ridgway, we have the following: Guard petals, Rosolane purple, quilled petals, pale rose purple; center, Premuline yellow.

Blue Moon

The guard petals are the same beautiful light blue color so much admired in Aster California Giant Light Blue. The quilled petals are several shades lighter, while the center is an amber yellow.

Moonbeam

The blooms of this Aster are snow white, with a small center of soft orange.

Rainbow

A bright rose-pink Aster of a true California Giant habit. The stems are long, strong and non-lateral. The guard and quilled petals are the same color, a delightful shade of bright rose-pink, with a center of soft orange.

Stratosphere

A rich dark blue, which might be compared in color to Light Purple in the California Giants. The guard petals are pansy violet and the quilled petals are lavender, with the center a charming shade of orange. Price, each of above:

Tr. Pkt.....	35c	¼ oz.....	90c	Oz.....	\$3.00
--------------	-----	-----------	-----	---------	--------

Golden Yellow. Tr. Pkt.....10c Oz.....30c
- BACHELOR BUTTONS**
(See Centaurea Cyanus).

BEGONIAS

FIBROUS ROOTED

For greenhouse pot plants or summer bedding. While easily grown on from cuttings, such plants are hardly ever as good when grown from seed. As a bedding plant there is nothing more satisfactory; also excellent as a pot-plant, and for a "filler" with other plants.

BEGONIA SEMPERFLORENS

- "Eriksson's New Scandinavia." A new, continuous flowering, Semperflorens Begonia with a wonderful branching habit, and many other good qualities. Sow seed in January for Memorial Day; in May or later, for winter; October or November, for Mother's Day purpose. Red and pink shades, mixed. Tr. Pkt....\$1.50 3 pkts. for....\$4.00
- Albert Martin.** Bright carmine, extra large flowered. Tr. Pkt.....50c 1/32 oz.....\$1.00
- Christmas Cheer.** Extra large-flowered crimson-scarlet. Tr. Pkt.....\$1.00 1/64 oz.....\$1.50
- Christmas Pink.** This variety is of same habit as Christmas Cheer and equally as good. Tr. Pkt.....\$1.00 1/64 oz.....\$1.50
- Darling (New).** According to our trial of it, this is one of the choicest Semperflorens Begonias that has come from Germany for a long time. Of compact growth, 8 to 10 inches, with large, light rose colored flowers about the shade of Glory of Erfurt. We have had this in full flower for Christmas. Tr. Pkt.....\$1.00 1/64 oz.....\$2.25
- Elegant (New).** White attractively edged crimson, clear green foliage that contrasts well with the flowers. Tr. Pkt...\$1.00 1/64 oz...\$2.00
- Erfordi.** Pink. Tr. Pkt.....50c
- Fire Sea or Blaze of Fire.** Extra dwarf compact habit. Large fiery red flowers with green foliage. Good. Tr. Pkt...\$1.00 1/32 oz...\$2.00
- Glory of Erfurt.** Large bright carmine. Tr. Pkt...50c 1/32 oz...\$2.00
- Glow.** Dark red flowers; foliage light bronze; free blooming and compact. Tr. Pkt.....75c 1/32 oz.....\$2.50
- Gustav Knaake.** Glowing salmon-pink, resembles Melior. Tr. Pkt.....\$1.00 1/32 oz.....\$1.75
- Lightning.** Extra large flowers measuring 2 inches across and of deep carmine-scarlet shade—an extra deep bright shade in Begonia. Tr. Pkt.....\$1.00 1/64 oz.....\$2.50
- Radio.** Extra large carmine-scarlet, green foliage. Excellent. Tr. Pkt.....\$1.00 1/32 oz.....\$2.50
- Salmon Queen.** Salmon red. Tr. Pkt.....50c 1/32 oz.....\$1.50
- Scarlet Queen.** Large flowered glowing scarlet, dark bronze-green foliage. Tr. Pkt.....50c 1/32 oz.....\$1.50
- Vernon.** Deep blood-red and dark leaved. Tr. Pkt.....25c 1/16 oz.....50c
- Semperflorens Mixture.** Tr. Pkt.....25c 1/8 oz.....50c
- BEGONIA "Westport Beauty"**—A beautiful addition to this family. Supplied in plants only. (See Plant Pages in this book).

BEGONIAS (Continued)

BEGONIA GRACILIS

This type produces very compact little plants that are literally covered with flowers.

- Carmen.** Bright pink flowers with richly contrasting bronze foliage. Tr. Pkt.....\$1.00 1/64 oz.....\$1.75
- Enchantress.** A new Begonia of great value to the florist. (Better than Prima Donna.) Of compact growing habit; pale green foliage; flowers large and of bright pink color. Unusually free flowering. Tr. Pkt.....75c 1/64 oz.....\$1.75
- Indian Maid.** Has the same deep bronze foliage of Carmen with bright deep scarlet flowers producing a highly attractive combination. Tr. Pkt.....\$1.00 1/64 oz.....\$2.50
- Luminosa.** Deep scarlet with reddish brown foliage. Tr. Pkt.....75c 1/32 oz.....\$1.75
- Luminosa Compacta.** From the middle of July onwards the small dark brown foliage is hidden by the mass of medium sized bright scarlet blossoms. This new variety, coming true from seed, is very useful for beds, borders, edgings and also as pot plants. Tr. Pkt.....\$1.00 1/64 oz.....\$2.00
- Mignon.** Brilliant salmon-scarlet, semi-dwarf. Tr. Pkt.....50c 1/32 oz.....\$1.75
- Prima Donna.** Limpid rose shading to carmine. Very excellent variety. Tr. Pkt....\$1.00 1/32 oz....\$2.50 1/16 oz....\$4.00
- Tausendschoen (Gracilis).** Lustrous rose. Tr. Pkt.....75c Said to be the best bedding variety in existence.
- White Pearl.** Best white, light green foliage. Tr. Pkt.....50c 1/32 oz.....\$1.50

BEGONIAS (Double Flowered)

- Coppery Gold (New).** Double flowered. Many flowers are like tiny roses which are very effective when fully opened. Color: old gold merging into copper red or coppery salmon, usually tinged with carmine. The seedlings produce about 80% doubles. Blooms from July until frost. Tr. Pkt.....\$1.00
- Mrs. Helen Harms (New).** The flowers are about 1 1/2 inches in diameter and of a deep canary yellow. A worthy addition to this new family. Tr. Pkt.....\$1.00

TUBEROUS ROOTED BEGONIAS

- Single. Large Flowering. Mixed.** Tr. Pkt....50c 1/32 oz....\$2.50
- Double. Large Flowering. Mixed.** Tr. Pkt....\$1.00 1/64 oz....\$6.00
- Lloydii.** Easily grown from seed and enjoys a fairly warm temperature, ideal for hanging baskets because of its pendulous habit. Nice 4 inch pot plants can be flowered late June from a January sowing. Tr. Pkt.....\$1.00
- Narcissus-flowered Mixed.** Comes 80% true to a large semi-double Narcissus-like flower, and contains yellows, pinks and salmon-reds. Tr. Pkt.....\$1.00
- Lloydii.** A pendulous habit adapts it very well to hanging basket work. Mixed colors. Tr. Pkt.....\$1.00 1/64 oz.....\$5.00

*BELLIS PERENNIS (Double English Daisy)

The Giant sorts are of the largest size. The flowers of the other sorts are smaller but produce very freely.

BLUE LACE FLOWER (Improved Didiscus Coeruleus)

A very much improved strain of this valuable cut-flower. Excellent for bouquets. Flowers continually from July until frost. A money-maker for florists. Tr. Pkt.....20c Oz.....80c 1/4 lb.....\$3.00

*BOCCONIA (Plume Poppy, Tree Celandine)

- Cordata.** Foliage glaucous green; bears many spikes 2 to 3 feet long set with cream-colored flowers; 6 to 8 feet. Easily raised from seed. Tr. Pkt.....10c Oz.....40c 1/4 lb.....\$1.25

*BOLTONIA (False Chamomile)

- Asteroides.** Pure white. Tr. Pkt.....35c Oz.....\$4.20
- Latisquama.** Pink, tinged lavender. Tr. Pkt.....25c Oz.....\$2.00

BRACHYCOME IBERIDIFOLIA (Swan River Daisy)

- A free blooming annual with small flowers.
 - Azure Fairy.** Azure blue. Early and free flowering. Tr. Pkt.....25c Oz.....75c
 - Mixture.** Shades of blue, pink and white. Tr. Pkt...15c Oz...65c
- You may deduct 5% on Flower Seed purchase, if cash accompanies order.

BROWALLIA

Very useful flowering annuals.

Browallia Speciosa Major. Color brilliant ultramarine blue, suitable for pot plant, bedding and border work. For outdoor work seeds should be sown in February, or later, shifted in pots, and planted out in May. Plants will bloom all summer.

Tr. Pkt.....40c 1/32 oz.....\$1.00

Speciosa Major Alba. Same as above but pure white.

Tr. Pkt.....50c 1/64 oz.....\$1.50

Viscosa Compacta Sapphire. Excellent pot plant. Compact grower. Dark blue flowers with white eye. Tr. Pkt...35c 1/16 oz....\$1.00

CACALIA (Tassel Flower)

Coccinea. Scarlet. Tr. Pkt.....15c Oz.....50c

CALCEOLARIA

Our strain of these is produced by the foremost specialists of the world.

A. B. C. Triumph Mixed. A special florists' selection. Medium dwarf in growth, producing an exceptional assortment of colors and shades. Highly recommended. Tr. Pkt.....\$1.00

New Calceolaria, Indian Prince. This is a new color selection from the popular Multiflora Nana strain, retaining the fine dwarf, free-flowering habit. The color is a rich dark scarlet with an orange suffusion, a color that will contrast richly with the new Golden Tiger of the same class. Tr. Pkt.....\$1.00

Golden Tiger. Bright, golden yellow flowers with dark brownish red dots, masses of small substantial blooms spread in plenty above the foliage. Multiflora Nana type. A most desirable new kind. Tr. Pkt.....\$1.00

Cloth of Gold. Medium large flowered, rich pure golden yellow. Tr. Pkt.....\$1.00 1/64 oz.....\$3.25

Albert Kent. Immense trusses of golden yellow flowers with maroon blotches. Tr. Pkt.....\$1.00 1/64 oz.....\$2.50

Hybrida Multiflora Nana. Dwarf compact growth. Medium size brightly colored flowers in choicest mixture. A great favorite with the trade. 1/2 Tr. Pkt....50c Tr. Pkt....\$1.00 1/64 oz....\$4.50

Hybrida Grandiflora Mixed. A special mixture of varied colorings. Grows about 18 in. high. Large flowered, vigorous growth. Tr. Pkt.....\$1.00 1/64 oz.....\$2.00

Albert Kent Hybrids. A much liked mixture of varied colors. Tr. Pkt.....\$1.00 1/64 oz.....\$3.25

Kelway's Perfect Model. A fancy large flowered mixture. Tr. Pkt.....\$1.00 1/64 oz.....\$2.25

Hybrida Grandiflora Tigrina. Large flowered "Tigered" or spotted mixture. Tr. Pkt.....\$1.00 1/64 oz.....\$2.50

Rugosa Hybrids Mixed. Comparatively small flowers. Provide pot-plants and desirable for cutting. Tr. Pkt.....\$1.00

CALCEOLARIA HYBRIDA "FLOWER CLOUD"

indicates its descent from the rugosa type by its extraordinary mass of bloom. Over a hundred "Lady's Slippers" about 1 inch large, on the center stem form large dense bouquets which, joined later by several hundred blossoms on the numerous side shoots, form giant umbels, aptly described as "Clouds." It starts flowering somewhat later than the multiflora nana and earlier than the rugosa Calceolarias and lasts for weeks in undiminished glory. The striking, brilliant light yellow show plants, on an average 12 inches high, must appear very desirable to every spectator. Besides yellow, there are varying shades of brown and orange. The hardiness of flowers and foliage makes transport easy, and use in the open possible, and increases its value as a market plant. Tr. Pkt.....\$1.00 1/128 oz.....\$4.00

FELTHAM SCARLET

This is one of the most striking colors among the splendid hybrid Calceolaria which we introduced last year under the name Feltham Glory, and we have decided to issue it separately. The plants are fairly dwarf and compact in habit and the flowers of a rich dark scarlet, which will make a glorious show in the greenhouse and a bright display in a somewhat sheltered position in the open ground. Tr. Pkt.50c

CALENDULAS

A. B. C. IMPROVED SENSATION

Considered by many to be the best Calendula for cut-flower purposes. Flowers very large, deep orange with scarlet sheen, light center.

Tr. Pkt.....25c 1/4 oz.....60c 1/2 oz.....\$1.00

1 oz.....\$1.50 2 oz.....\$2.75 4 oz.....\$5.75

Calendula A. B. C. Improved Sensation

CALENDULAS (Continued)

FRILLED BEAUTY

The flowers are large and full, completely double, with good stiff petals which are semi-rounded in appearance, giving good body to the flower. Stems are long and fine for cutting, while the plant makes a strong heavy growth. The color is a deep orange. You will be entirely satisfied with Frilled beauty.

Frilled Beauty. Tr. Pkt.....25c 1/4 oz.....35c Oz.....\$1.00

IMPROVED ORANGE SHAGGY

Deep orange shading lighter at the center, exceedingly graceful and informal in appearance, it is a striking contrast to the formal Calendulas in general use. The plants are free flowering, neat and compact, bearing long stems which make the fringed petaled flowers equally useful in the garden or for cutting.

Tr. Pkt.....15c 1/4 oz.....35c Oz.....\$1.00

CHRYSANTHA OR SUNSHINE

The large double flowers are an exquisite shade of clear buttercup yellow, with long loosely arranged petals which droop somewhat to give the rounded appearance of a Chrysanthemum.

The Ball Calendulas

New Crop Seed Supplied to Us by Geo. J. Ball, Inc., West Chicago, Ill., in his Original Sealed Packages

ALL of the following uniformly priced as follows:

Tr. Pkt.....40c 1/4 oz.....60c Oz.....\$2.00

2 oz.....\$3.50 4 oz.....\$6.50 Lb.....\$20.00

Ball's Masterpiece. Clear rich orange with an attractively contrasting dark brown center. This is our most popular standard cut-flower variety.

Ball's Long Orange. The standard long-stemmed orange with light center. Preferred by many growers for its long stem.

Ball's Sensation. Long-stemmed orange with light center. This is a selection from Long Orange that seems to do particularly well for some growers.

Ball's Lemon Queen. Clear medium deep yellow with a dark brown center that contrasts most effectively. Generally preferred yellow.

Ball's Gold. Deep golden yellow, long-stemmed and large flower with light center. Stem, size, and color in this are outstanding.

Ball's Supreme. Light shade of orange with a richly contrasting brown center, not extra long-stemmed but freer flowering than any of the above.

Ball's Apricot. Rich apricot or straw color with a finely contrasting brown center. Same habit as Ball's Supreme, from which it is a selection. Inclined to occasionally produce orange petals with the apricot. Some should be grown for variety.

Note: Unit price on weight lots will apply in combination with two or more of above varieties. For instance, on 1/4 oz. each of four varieties, instead of 60c each, or \$2.40 for the four, the ounce price of \$2.00 will be accepted.

Ball Calendula Mixture.

Tr. Pkt.....35c 1/4 oz.....50c Oz.....\$1.75 Lb.....\$18.00

Calendulas, "A. B. C. Sensation," "Masterpiece," "Long Orange," and "Gold" are particularly recommended.—A. B. C.

CALENDULAS (Continued)

The following are desirable kinds for bedding. (Not recommended for cut flower production).

Lemon Queen. Light or lemon yellow.

Radio. Bright orange with quilled petal. Of compact growth and distinctly effective for bedding.

Radio Golden Beam. Clear yellow Radio.

Sunshine. Semi-double, bright yellow and of upright growth. We find this identical with the variety Chrysantha.

Orange King. Dark centered orange, of compact growth and valuable for bedding.

Price: All the above bedding varieties.

Tr. Pkt.....15c Oz.....60c 2 oz.....\$1.00

CAMPANULA

CAMPANULA

CANTERBURY BELLS (New Annual, Single)

Bring Spring to the garden in September.

Many years of careful selection have at last given us an Annual Canterbury Bell which blooms from seed in less than six months. It should now be possible to have this beautiful flower in bloom at almost any time of the year. The plant grows from two to two and a half feet tall, each plant having from six to eight spikes of blooms. Seed planted in February blooms in July.

Angelus Bell. Deep Rose.

CANDYTUFT (Annual)

If you have grown annual candytuft before and found it a poor seller, it is more likely that you had too much of the white variety. Try in its place a few of the colored varieties, such as Pink, Rose, Carmine, Lavender and Crimson and be convinced that this annual is of much use in the florist's establishment in the spring. It will take about five months to bring them into flower indoors. Plans may be made accordingly, taking into consideration the period cut flowers will be of most use to the individual florist. A good time for one planting is soon after the winter holidays as space becomes available. Some growers sow the seed singly, planting out later at the distance of a foot apart.

A. B. C. SPECIAL GIANT HYACINTH FLOWERED

White. Particularly recommended for under glass; provides excellent cut flowers.

CHRYSANTHEMUM

Annual chrysanthemums are important florist's plants, being useful in many ways in the flower shop and, at the same time, they are inexacting in their cultural needs. A number of annual species or plants which are treated as annuals are mentioned in the literature, but two kinds, *C. carinatum*, and *C. segetum*, cover most of the material now in general commerce. These are all easily grown, coming into flower quickly, and the modern kinds are mostly pleasing colors, making good cutting material outdoors in summer or under glass in winter. Perhaps the most popular species at present is *C. segetum*, especially the Star varieties, such as Evening Star (golden yellow), Eastern Star (light yellow with a dark disc and yellow ring), and Morning Star (immense flowers of an attractive primrose).

SEGETUM— Tr. Pkt. Oz.

CINERARIAS

CINERARIA (Cremer's Prize)

Produces somewhat smaller blooms than does "Eriksson's" with plants of good height and is of such high sale value that growers, in our opinion, will not go amiss in planting liberally of both. Has taken first prize at the Philadelphia Show for the past three years. The originator is constantly improving the strain.

COREOPSIS (Perennial Calliopsis)

***Lanceolata Grandiflora.** An extra fine strain of this useful golden yellow, hardy perennial. Tr. Pkt. . . 15c Oz. . . 30c 1/4 lb. . \$1.00

***Lanceolata Grandiflora Mayfield Giant.** The plants are taller and more vigorous than the type. The individual flowers are larger and stems are longer and stiffer. Tr. Pkt. . 15c 1/4 oz. . 30c Oz. . 75c

***Lanceolata Grandiflora Double Yellow.** (Double-Flowering Coreopsis). This double and semi-double form is just as easy to grow as the single, and the extra petalage adds a further charm to the flower.
Tr. Pkt. 20c Oz. 75c

COREOPSIS GRANDIFLORA DOUBLE SUNBURST (PERENNIAL)

Much of the beauty of early summer gardens is due to the brilliant golden yellow of Coreopsis plantings. There is nothing that can take its place at that time of year when yellows are so scarce, and when variations in the type are produced, they are welcomed gladly. Sunburst is a pleasant change from the well known single form, retaining its beauty of color while augmenting its effect of brilliance through the doubling of petals. The double flowers are large, 1 1/2 to 2 inches across, deep golden yellow, and are excellent for cutting as well as for garden decoration. The flowers are fine keepers, and the plants are very easy to grow. The strain is remarkably true, coming 80% double, as illustrated. Tr. Pkt. . . . 20c 1/4 oz. . . . 35c Oz. . . . \$1.00

COSMOS

Sensation (Novelty). A new very early giant flowering variety. Blooms large, 4 to 6 inches across. Height, 6 feet.

Tr. Pkt. 1/4 oz. Oz.
Pink \$0.25 \$0.45 \$1.50

White25 .45 1.50

Crimson. (1938 novelty) 1.00

Mixed. Pink and white25 .45 1.50

AT THE UNIVERSITY (Columbus, Ohio)

1937 "SHORT COURSE"

Henry Rosacker, Minneapolis, stated his firm has found the Sensation Cosmos to be a valuable and profitable crop when grown in a cloth house and spaced 15 x 15 inches. The first bud should be pinched out to induce branching and the subsequent flowers kept disbudded.

Orange Flare. Vivid orange with light green foliage. Blooms in less than four months from sowing. Tr. Pkt. . 25c 1/4 oz. . 40c Oz. . \$1.00

COSMOS (Continued)

COSMOS (Early Flowering Varieties)

- Begins to bloom early July and continues till frost.
- Extra-Early Express.** Flowers in 45 days; 2½ feet; crimson, pink, white, or mixed. Tr. Pkt.....20c Oz.....75c

DELPHINIUM Continued on Next Page

DELPHINIUM BELLADONNA "CLIVEDEN BEAUTY" HIGHLY RECOMMENDED FOR CUT FLOWERS

Delphinium, Blackmore and Langdon's Gold Medal Hybrids

DELPHINIUM, HARDY

BLACKMORE AND LANGDON'S GOLD MEDAL STRAIN

Exceptional for Cut-Flowers and Garden Show

We believe everyone will agree that there are no better Delphinium strains to be found anywhere than those developed and sold by Blackmore and Langdon of Bath, England. Their famous Delphiniums have been admired by connoisseurs from all parts of the world, they have been exhibited at all the important horticultural shows and exhibitions, and have been granted literally hundreds of medals, prizes, certificates and awards. We are proud to announce that we have arranged with Messrs. Blackmore and Langdon for the distribution of seed of their famous Gold Medal Strain of Delphinium, seed imported directly from the originators.

The flower spikes, as may be seen from the accompanying illustration, are extremely heavy, full flowered, and exceptionally long, while the plants reach a height of from 4 to 6½ feet, depending on the variety. To those who are acquainted with Blackmore and Langdon's Delphiniums no more need be said, and to those who have never grown these famous Delphiniums we recommend most urgently that this very valuable strain be incorporated in the Delphinium list. Tr. Pkt. \$1.00 ¼ oz. \$2.00 Oz. \$7.00

SPECIAL NOTE—We have recently imported from Blackmore & Langdon (England) a large collection of their choicest named varieties in various colors and shades. Each variety in separate package and containing not less than 100 seeds, which we offer at \$1.25 per package or 5 varieties for \$5.00. If you are desirous of producing Hardy Delphinium that will create a sensation when in bloom, allow us to make up a selection. We promise that you will be agreeably surprised with the results obtained from same.—A. B. C.

BLACKMORE AND LANGDON'S GOLD MEDAL STRAIN

(Seed produced in America). A good average strain.

Tr. Pkt. 50c ¼ oz. 90c Oz. \$3.25 4 oz. \$9.00

DELPHINIUM (Continued)

DELPHINIUM (Hardy Larkspur)

WREXHAM HOLLYHOCK-FLOWERED HYBRIDS

Enormous spikes of large single and double blooms in all the glorious shades of blue found only in Delphiniums. The graceful spire-shaped spikes are not unlike Hollyhocks. A truly magnificent strain.

Gold Medal Hybrids. A splendid strain of mixed hybrids. (¼ lb., \$5.50) \$0.25 \$1.50

Belladonna Improved (Cliveden Beauty). A very select strain of strong, vigorous habit. Large flowers of brilliant iridescent turquoise blue. (¼ lb., \$7.00) .40 2.00

BELLADONNA

The original or "Regular" Strain.

Tr. Pkt. 25c ¼ oz. 50c Oz. \$1.65 4-oz. \$5.00

LAMARTINE

Fairly deep extra bright marine-blue, considerably deeper than Belladonna and with its same free-flowering habit. Equally suited to indoor forcing or field conditions. Mildew resisted by smooth leaves. If you grow Delphinium, don't be without this outstanding new variety.

Tr. Pkt. 50c ¼ oz. \$1.25 Oz. \$4.00

Bellamosum. A rich, deep blue form of Belladonna. (¼ lb., \$7.00) \$0.25 \$1.75

Chinense, Blue. Intense gentian blue.20 .75

Chinense, Album. White.20 .75

Elatum, Iceberg. A well-known strain with showy, large, pure white flower trusses. (¼ oz., \$1.50) .50 4.50

Elatum, Summer Cloud. A particularly fine strain with long spikes solidly set with pure white blooms. (¼ oz., \$1.50) .50 4.50

Chinense, Blue Butterfly, Improved. (Annual). Rich ultramarine blue; height 1 foot. Excellent for the rock garden.20 .75

White Butterfly. (Annual).20 .75

Cardinale. Large, brilliant scarlet.40 2.50

DIANTHUS

Sweet Wivelsfield. A new, hardy annual of wonderful colorings. The flowers are larger than Sweet William and are borne in trusses. This perpetual flowering Dianthus is bound to win instant favor both as a cutflower of lasting quality and as a new spring bedding plant. Tr. Pkt. 20c Oz. 75c

New Double Sweet Wivelsfield. A sensational plant—a great improvement on the original Sweet Wivelsfield, which proved such an enormous success when sent out by us some four years ago.

Tr. Pkt. 50c ¼ oz. \$1.00

Delight (New). This is a hybrid between Sweet Wivelsfield and Dianthus Roysii. Flowers continuously out of doors from June until October, producing flowers about one-half inch in diameter, not in trusses but in alternating spikes in great profusion. There is a bewildering range of colors. Dianthus Delight is an easy growing plant which will stand many degrees of frost. Excellent for cutting. Tr. Pkt. 75c 3 Tr. Pkts. \$2.00

HEDDEWIGII

Double Japanese Pinks. 10 inches; free flowering. Fine for rock gardens. Tr. Pkt. Oz.

Violet.15	.60	6.00
Mixed. All colors.....	.15	.50	5.50

*HELIANTHUS (Hardy Sunflower)

Dwarf Chrysanthemum Flowered. Contains a fair proportion of fully double flowers. Tr. Pkt.....10c	Oz.....20c
Russian or "Oscar Wilde." Large single sunflower.	
Oz.....10c	Lb.....50c

HELIOPSIS (Orange Sunflower)

**Scabra Excelsa*. Rich chrome yellow flowers turning to a bright yellow as they mature. These are almost double, having from 4 to 5 rows of petals. They are produced very profusely. The plant is of robust growth, about 3 feet high, and makes an effective display of flowers from July to the end of August. Tr. Pkt....20c Oz....75c

HELIOTROPE

Can be bloomed from seed in four months.
Lemoine's Giant. Excellent large flowering strain.

Tr. Pkt.....25c Oz.....\$1.25

***HEUCHERA (Coral Bells)**

Sanguinea. One of the finest hardy perennials. The flowers are rich, bright, coral red. The leaves are light green and slightly hairy. Excellent for cutting; 30 inches.

Tr. Pkt....50c 1/8 oz....75c 1/4 oz....\$1.25 Oz....\$4.50

***HIBISCUS (Giant Mallows)**

A wonderfully improved form of our native Marshmallow in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. Our colors are saved from segregated plants and will come true.

	Tr. Pkt.	Oz.	1/4 lb.
<i>Giant Dark Red</i>	\$0.15	\$0.60	\$2.00
<i>Giant Mallow Pink</i>15	.60	2.00

<i>Setosa (Brazilian Morning Glory)</i> . Red.....	.10	.30	..

Ipomoea "Heavenly Blue". Clark's Improved Early Flowering Strain. Clark's strain is well known and widely used throughout the United States. It is early flowering and makes a sparse growth of foliage. When growing Ipomoeas, care should be taken to plant them in a dry, sandy location, and fertilizer should never be applied. One of the most admired flowering vines at the Chicago Century of Progress, 1934. This climber made a beautiful showing on the back wall of the Horticultural Building. A color of pure, unrivalled beauty.

Clark's Early-Flowering Heavenly Blue. A good seller when offered in small pot plants for setting out in the garden in spring.

Tr. Pkt.....25c Oz.....75c Lb.....\$8.00

Ipomoea Quamoclit. Cardinal climber. Tr. Pkt....15c Oz....60c

KALANCHOE

Blossfeldiana (Globulifera Coccinea). A succulent plant that is very easy of cultivation. The flowers are similar to *Bouvardia* in form, and in color they are very bright scarlet. Tr. Pkt.. 60c 3 Tr. Pkts...\$1.50

CULTURE FOR KALANCHOE

Propagated easily from seed. Sow in January and prick off when large enough. Place two plants in a pot; this will make for business. Plants pinched in June and July will not flower as early as those not pinched. Plants should be made up similar to *Poinsettias*. Shade from Aug. 16 to Oct. 15 will produce plants for Christmas if grown in a 60-65 deg. house. No specific recommendations as to soil or fertilizer. Time of later bloom controlled by temperature.

KOCHIA

Summer Cypress or Mexican Fire Bush Childsi. Improved strain. Tr. Pkt.....10c Oz.....20c

LANTANA

Desirable for bedding, pot culture, vases. Seed must be sown with bottom heat and early.

Dwarf Compacta, Mixed. Tr. Pkt.....15c Oz.....60c

LARKSPUR

An important cut flower both for greenhouse and outdoor culture. Moderate temperature and a moist soil are necessary to obtain good germination. Seed frequently fails to start at all in hot weather. The Base Branching class, also known as the Imperial or Spiral, improves the original Stock-flowered in being somewhat longer stemmed. The Hyacinth-flowered type produces but one non-branching flower spike. They do well on a raised or shallow bed where the growth can be hardened some, but on a deep ground bed, especially if grown cold, they produce hollow stems that break easily in handling.

Three New and Valuable Introductions

Larkspur Giant Imperial Cattleya. This is a late flowering, branching from the base habit (two to three weeks later than other sorts) which lengthens the flowering season. The color is a rich rosy lilac and full double flowers are closely spaced on four to five foot stems. Highly commended by the Royal Horticultural Society after trial at Wisley, England, 1934.

Tr. Pkt.....25c Oz.....75c 1/4 lb.....\$2.50 Lb.....\$8.00

Larkspur Giant Imperial Dazzler is in full bloom seven to ten days earlier than any of the other varieties. The flowering spike is very long with closely spaced mammoth flowers of a vivid lustrous carmine color. Dazzler will make an ideal florists' variety for earliness and its long flowered spike, also for the home gardener who loves grace and brilliancy.

Tr. Pkt.....25c Oz.....75c 1/4 lb.....\$2.50 Lb.....\$8.00

Larkspur Giant Imperial Sweet Lavender. A delightful shade of rich lavender blue, the flowers are very large, full double, closely spaced on a long flowering truss. Sweet Lavender is an outstanding new shade of great merit. Highly commended by the Royal Horticultural Society after trial at Wisley, England, 1934.

Tr. Pkt.....25c Oz.....75c 1/4 lb.....\$2.50 Lb.....\$8.00

*Vera. Well-known fragrant hardy perennial. Always in good demand. Tr. Pkt.....20c Oz.....75c

*LEPTOSYNE STILLMANII

Golden yellow, fine for cutting. Flowers in six weeks.

Tr. Pkt.....	15c	Oz.....	75c
--------------	-----	---------	-----

*LIATRIS (Blazing Star, Gay Feather)

Pycnostachya. Most showy and attractive with its long spikes of rosy purple flowers from July to September; 5 feet.

Tr. Pkt.....	25c	¼ oz.....	40c	Oz.....	\$1.25
Scariosa. Deep purple flowers on graceful stems 3 to 4 feet high.					
Tr. Pkt.....	25c	¼ oz.....	70c	Oz.....	\$2.50

LILIUM

Philippine Formosanum (Selected Pure White Strain). A truly remarkable Lily with umbels of large, white, long-trumpet-shaped flowers, like an Easter Lily. Will bloom in 6 to 8 months from the time seeds are sown. Very fragrant. 2 to 3 feet.

Tr. Pkt.....	30c	Oz.....	\$1.75
--------------	-----	---------	--------

Regale. This wonderful Lily is easily grown from seed, flowering the second season. Tr. Pkt.....20c Oz.....50c ¼ lb.....\$1.75

Tenuifolium (Coral Lily). Bears in profusion medium-sized flowers of perfect form and of dazzling coral red. Excellent for the rock garden or for forcing; 1 to 2 feet; May. Perfectly hardy.

Tr. Pkt.....	30c	Oz.....	\$1.50
--------------	-----	---------	--------

LONGIFLORUM PRAECOX

"White Queen"

(Originators "True Strain" Seed)

The cult of the Liliium family has experienced an immense impetus of recent years, and we are pleased to be able to supply this beautiful Lily, which, with its long snowy-white pendant flowers, is remarkable for the celerity with which it can be raised from seed. The plants begin to bloom well within 12 months from the time of sowing. The flowers are of exquisite form and very freely produced. This new Lily has proved itself an excellent market plant. It received an Award of Merit from the Royal Horticultural Society in 1932. Tr. Pkt.....\$1.00

LINARIA

Fairy Bouquet. Compact growth, large flowers in many distinct colors. Blooms early. Flowers resemble miniature snapdragons.

Tr. Pkt.....	20c	¼ oz.....	35c	Oz.....	90c
--------------	-----	-----------	-----	---------	-----

*Cymbalaria (Kenilworth Ivy or Mother of Thousands). Lavender and purple. A charming, neat, hardy perennial trailing plant.

Tr. Pkt.....	30c	Oz.....	\$1.50
--------------	-----	---------	--------

LINUM (Flax)

*Perenne (Blue Flax). A desirable plant for the border or rockery. Light graceful foliage and large blue flowers all summer long. Grows 18 inches high. Tr. Pkt.....15c Oz.....40c ¼ lb.....\$1.25

Flavum. Yellow, June-Sept.; 2 feet. Tr. Pkt.....	40c	¼ oz.....	\$1.00

MARIGOLD

Lieb's Winter Marigold. Sensational Cutflower Novelty.

The Originator's Improved Strain Now Obtainable from Seed.

New Winter Cut Flower, deep brown with golden yellow crested center. Flowers five weeks after planting, continuing five months. Flowers are of wonderful keeping quality and have a distinctly sweet odor.

The Best Paying Bench Space in Your Greenhouses.

For best results seed should be sown from July up to December. Plant in any house that can be kept free from frost. Fine to follow Mums. Plant 10 by 10 inches and pinch back once. No insect pests.

Brown and Yellow. Tr. Pkt.....

Sunshine. Yellow. Tr. Pkt.....

Marigold, Tall African "All Double"

MARIGOLD (Continued)

Australian Tree

This is another desirable Winter Flowering Marigold with long stems. Color: Golden yellow and mahogany.

Tr. Pkt.....	.25c	1/2 oz.....	.60c	Oz.....	\$1.00
--------------	------	-------------	------	---------	--------

Bodger's Gigantea "Sunset Giants" (Carnation Flowered)

(See colored illustration on front cover)

"Marigold Sunset Giants" is a Novelty from California; it is said to have the largest known flowers in the "Marigold" group, averaging 5 inches and some flowers attaining a size of 7 1/2 inches across; they are produced in great profusion. Instead of the usual "Marigold" odor these flowers have a definitely sweet fragrance. They are loosely formed, very full centered, with broad, heavy petals gracefully overlapping to make a flower of great depth and even larger than Dahlia Flowered Zinnias. "Sunset Giants" is a mixture ranging from deep orange through golden orange, deep golden yellow, light yellow, lemon yellow, and a delightful new shade of primrose. The strain comes from 60 to 65 per cent double. The plants are normally 3 1/2 to 4 feet high, but under favorable conditions have been known to grow as much as 7 feet high. Excellent for cutting.

Tr. Pkt.....	.35c	1/4 oz.....	.75c	Oz.....	\$2.50	1/4 lb.....	\$8.00
--------------	------	-------------	------	---------	--------	-------------	--------

New Marigold Chrysanthemum Flowered Hybrids

(Waller-Franklin.)

These new Hybrids consist of many new and distinct types of Marigolds, varying in size of bloom from two to four inches in diameter. Some of these types have petals which are very quilled and in-curved and which remind one of miniature American Beauty Asters in orange and yellow. There are also the imbricated types which have from four to five rows of flat petals and in the center there are many small quilled florets.

These beautiful types are quite variable and are most desirable. The beautiful colors are most fascinating and can best be described as containing all shades of orange and yellow. The plants are about three feet high, supporting masses of flowers on fine stems for cutting.

Tr. Pkt.....	.25c	Oz.....	\$3.50	1/4 lb.....	\$12.00
--------------	------	---------	--------	-------------	---------

"Harmony"

(See colored illustration on inside front cover)

A remarkable break in the dwarf French section of Marigold, which differs from all existing forms in its habit and the shape and coloring of its flowers, the latter, almost suggesting those of a Scabiosa, are of a bright golden-yellow, bordered with rich maroon-red, a most striking and effective combination of tints. The plants being about 12 inches high and of very bushy habit, form excellent material for cutting and bedding. We consider this a most important, new introduction in the Marigold family. Tr. Pkt.....

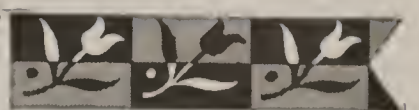

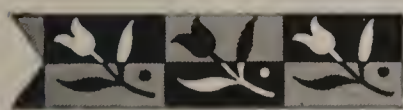

1/4 oz.....	.35c	Oz.....	\$1.00
1/4 lb.....	\$3.00	Lb.....	\$10.00

Macdonald's "Little Giants"

(See illustration and complete description in Novelty Pages of this book) Strongly recommended for bedding and pot plants, especially the latter.

Tr. Pkt.....	.35c	Oz.....	\$4.00
--------------	------	---------	--------

MARIGOLDS "HARMONY" AND "SUNSET GIANTS", CHOICE FOR CUTTING.

Marigold "Guinea Gold"
(Carnation Flowered)

MARIGOLD (Continued)

African Dwarf

Golden Queen. A dwarf, large-flowered, full double, light orange of imbricated or carnation type of flower. Varies in height with us from 12 to 14 inches outside to 2 feet under glass, and comes around 80% double. From seed sown January 9 we flowered this variety April 15 on a raised 6-inch bed. Tr. Pkt....25c 1/4 oz....40c Oz....\$1.50

Carnation Flowered

Loosely ruffled petals and size of this group suggests carnations. Very popular for summer cutting and greenhouse forcing.

Sunset Giants. The largest flowering strain of Giant Marigolds. We have noted plenty of 7-inch flowers of this variety under California conditions. Mixture of colors from lemon-yellow to clear orange. Loosely formed flowers with Giant African growth, though somewhat uneven. Tr. Pkt.....50c 1/4 oz.....\$1.25 Oz.....\$4.00

Yellow Supreme. Creamy lemon-yellow, loose petaled, 2- to 3-inch flowers produced on nice stems for cutting. 2 1/2 feet. Tr. Pkt....25c 1/4 oz....40c Oz....\$1.25 4 oz....\$4.00

Guinea Gold. Light attractive orange-colored flowers, about 2 inches, and very freely produced throughout the summer. No retail grower should be without a row of this and Yellow Supreme. 3 ft. Tr. Pkt....25c 1/4 oz....50c Oz....\$1.50 4 oz....\$5.00

New Marigold "Golden Eagle"

Very similar in habit, flower size and type to the well known Guinea Gold. The color, however, is a rich golden yellow, midway between Yellow Supreme and Guinea Gold. If you have grown these two, the value of this new color, especially for outdoor cutting, can be visualized and appreciated. Tr. Pkt....50c 1/4 oz....\$1.00 Oz....\$3.50

FRENCH MARIGOLDS

Tall Small-Flowered

Double Scotch Gold Striped. Highly effective and true but rather late flowering for early frost sections. 2 1/2 ft. Tr. Pkt.....20c 1/4 oz.....35c Oz.....\$1.00

Tall French Double

Pulchra-Plena. Brown and gold. Tall growing and excellent for culture, either under glass or in the open. We highly recommend this for cutting. Tr. Pkt.....15c Oz.....50c

Single Josephine. Small dark brown. 2 ft. Tr. Pkt....15c Oz....50c

Dwarf Small-Flowered

Most valuable class to flower in small pots for spring combinations. For this use sow early in January and carry on in a warm house. Also this class is largely used in outdoor work.

Dwarf Royal Scot, All-Double (New). (Waller-Franklin description). For many years we have been working on striped French Marigolds and we now have an achievement of which we are very proud. We offer the trade a new strain of Dwarf Striped French Marigold. Growth, dwarf and bushy, every plant of a uniform shape and height of about 10 to 12 inches. Color is rich mahogany and gold in uniform stripes. In addition, we offer practically absolute doubleness in each plant. Tr. Pkt.....25c Oz.....\$2.00 1/4 lb.....\$7.00

MARIGOLD (Continued)

(Dwarf Small Flowered)

Improved Harmony. Medium size Scabious-like double flowers. Deep orange center with maroon-red outer petals. Quite striking and distinct. Valuable for cutting and bedding. 14 to 18 in. Tr. Pkt.....25c 1/4 oz.....35c Oz.....\$1.00 1/4 lb.....\$3.00 Lb.....\$10.00

Electric Light. Double to semi-double, about the size of Legion of Honor. Attractive for bedding. Tr. Pkt....25c 1/4 oz....50c Oz....\$1.50

French Double Striped. Orange and yellow striped and mixture of colors. A very excellent bright mixture, and with us gets into flower fairly early. Fully 80% double, uniformly 16 to 20 in. Tr. Pkt.....25c Oz.....75c

Double French Monarch Strain. A bright mixture of mahogany, orange and yellow. Around 75 to 80% full double, nicely formed flowers. Flowers of this strain are more attractive than the Dwarf French mixed that follows, but they are also about 2 weeks later flowering and in sowing this should be remembered. 14 to 16 in. Tr. Pkt.....20c Oz.....75c

Dwarf French Double Mixed. A very colorful mixture. Excellent for combinations or bedding. Tr. Pkt....15c Oz....50c Lb....\$4.50

Robert Beist. Extra deep rich mahogany-red, medium size. Fully 80% double. Fairly uniform in height, 16 to 20 in. Tr. Pkt....20c Oz....50c

Monarch Golden Ball. Light golden orange and nearly 100 per cent double. Easily the finest in this color. 12 to 15 in. Tr. Pkt.....20c Oz.....75c

Pallida. Double lemon or light yellow. Nearly 100% double and uniform. 12 in. Tr. Pkt.....20c Oz.....65c

Fire Cross. Single dwarf light orange, resembles Legion of Honor except that the yellow on outer edge of petals is a deeper golden shade. Also we find Fire Cross some earlier flowering and more compact. A valuable outdoor variety. 12 to 14 in. Tr. Pkt.....20c Oz.....60c

Legion of Honor. A well known dwarf single. The lemon-yellow in this variety contrasts brightly with the mahogany center. Both the above two dwarf singles are valuable for early flowering in small pots. Tr. Pkt.....15c Oz.....50c

Signata Pumila, Little Giant. Very small bright orange-colored flowers freely produced on dwarf, uniformly compact growth. 6 in. Excellent for edging. Tr. Pkt.....25c 1/4 oz.....40c Oz.....\$1.40

"Flaming Fire" (Tall, Single French)

(See illustration in Novelty Pages of this book).

The long stemmed, brightly colored flowers, 2 inches across, vary in color at different seasons, at times they are flaming red and other times red and yellow. Plants are much branched, 2 1/2 feet tall, come into bloom in about 12 weeks, and continue to bear most profusely all through the season. Tr. Pkt.....25c

Miscellaneous Large-Flowered

Crown of Gold. Clear yellow, small-flowered, about 1 1/2 inches with cushioned center and outer guard petals, in form resembling Dixie Sunshine. Tr. Pkt.....25c

Dixie Sunshine. Medium size, bright yellow, fully double, ball shaped. Nice for cutting and garden decoration, but one of the latest flowering kinds on the list and sometimes caught by early frost before flowering in our latitude. 3 ft. Tr. Pkt.....25c

MARIGOLDS (General List)

Giant African Class

3 feet. Large, double-flowered; a valuable class for cutting.

All-Double Orange. Not quite so large as Prince of Orange, the percentage of doubles will run much higher, 80 to 85%, with a few semi-doubles. We prefer the All-Double strain. Tr. Pkt....25c 1/4 oz....50c Oz....\$1.50 4 oz....\$5.00

All-Double Lemon. Same high double percentage as in All-Double Orange. The demand for these colors usually calls for about 25% of the All-Double Lemon. Tr. Pkt....25c 1/4 oz....50c Oz....\$1.50 4 oz....\$5.00

All-Double Mixed. Mixture of both above colors. Tr. Pkt....25c 1/4 oz....40c Oz....\$1.35 4 oz....\$4.00

Prince of Orange. For size and perfect flowers the finest Giant African strain. 60% fully double, balance all single. Tr. Pkt.....25c 1/4 oz.....50c Oz.....\$1.50

Lemon Queen. Same as Prince of Orange in lemon color. Tr. Pkt.....25c 1/4 oz.....50c Oz.....\$1.50

Golden Emblem. Rich golden yellow mid-way between orange and lemon. An attractive addition to the Giant African type. Tr. Pkt.....25c 1/4 oz.....40c Oz.....\$1.50

A. B. C. "SUPREME" QUALITY PETUNIAS

RECENT INTRODUCTIONS

New "All Double" Petunia

"ORCHID BEAUTY" IMPROVED

A NEW "ALL DOUBLE" PETUNIA OF HIGH VALUE, EXCEPTIONAL FOR POT PLANTS AND BEDDING

Given an Award of Merit By the 1937 "All-America Council"

The All-Double Petunia "World Beauty," illustrated on next page, has proved so highly popular with the trade and public as well that the introducers of this valuable kind have striven for several years past to produce an orchid-colored variety of the same type and of equal value. We are glad to say that this has now been accomplished, and while there is, as is the fact with most Petunias, some slight variation in

shading of same, the effect of "ORCHID BEAUTY" IMPROVED is 100 per cent outstanding. We predict that this new introduction will obtain as keen a vogue as has "World Beauty" and the All-Double Mixture.

Since the supply of "Orchid Beauty" seed is comparatively small this year, we suggest early ordering.

Tr. Pkt. (600 seeds).....\$2.00 1/2 Tr. Pkt. (300 seeds).....\$1.25

Highest All-America Award Winner 1938

"SALMON SUPREME"

A color long wanted in Petunias. The flowers, when first opening, are of a rich coral-salmon, changing as they mature to a glistening soft salmon-pink. They grow 2 inches across and are deeply five-lobed. We have placed it in the hybrida nana compacta group, although the plants

are perhaps somewhat more spreading. They have a uniform height of about 1 foot and a spread of about 1 1/2 feet. Profuse branching, unusually floriferous. Tr. Pkt.....75c

Hybrida "Elf"

This new shade in Petunias is a valuable addition for balcony and window-box decorations. The plants, about 18-20 inches high, are bushy. The thin but strong stems produce masses of medium sized flesh pink blooms. This delicate colored Petunia will be generally welcome for use in groups and beds. Tr. Pkt.....50c

"Topaz Rose"

(Special Mention by All-America Council)
Hybrida type, 2 inch flowers of clean, light cerise red or topaz rose, running true and with strong Petunia scent. A good grower, 15 to 18 inches tall and fairly upright. Continuous bloomer and holds color quite well in hot sun. Tr. Pkt.....50c

Hybrida Grandiflora Fimbriata

("Golden Jubilee")

German (Grower's) Description

A sport from my "Miranda" variety. Both have the finely fringed and delicately crinkled petals of bright carmine tinged with scarlet. Golden Jubilee, however, has a golden throat with light bronze colored markings. This golden yellow center gives the flower a gay and festive character, comparable to the golden trimming on a state robe. Every plant produces numerous blooms measuring about 3 1/2 inches in diameter. Tr. Pkt.....\$1.00

"Blue Gem" (Nana Compacta)

(Recommended by All-America Council)

True violet-blue, dwarf, with perfect ball shaped growth. A real good addition to the dwarf blue family.

Tr. Pkt....75c 1/4 oz....\$2.00 Oz....\$7.00

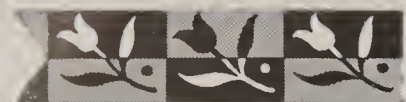

UNSOLICITED TESTIMONIAL

October 2, 1937.

Humboldt, Tenn.

"I will also want some more of 'World-Beauty' Petunia. Was much pleased with them last spring. My customers raved over it.
(Signed) C. H. Hardison."

Flower Seeds

A. B. C. OFFERS THE NEWEST "STYLES" IN PETUNIAS

New All Double Flowering Fringed Petunia, "World Beauty," Original Strain
(Named and Introduced by the American Bulb Company)

The Significance of "What's New" to the Florist

Increased Sales—More Profit

For the American public at large, the phrase, "What's new?" is rapidly becoming one of the most popular forms of greeting. To the florist, however, this expression has far greater significance, for he often interprets it in terms of dollars and cents. Accordingly, the florist who answers the question, "What's new?" with saleable merchandise soon discovers more customers, increased sales, and greater profits.

As a means to this end we recommend to growers liberal plantings of the newer strains of Petunias, particularly "World Beauty" (Original Strain) introduced and named by A. B. C., All Double "De Luxe" Mixed, A. B. C. (Eriksson's Strain), "Private Stock" Mixed, "Bountiful Portland Varieties," "A. B. C. Celestial" (Originator's German Strain), as well as the other new kinds illustrated and described in this list. "World Beauty" has especially proved to be a wonderful money-maker for the trade, and we believe florists will find it worth while to culture same in a large way.

"All Double" "World Beauty" . . . The "Queen" of All Petunias

Illustrated Above

Produces (from seed) practically 100% large double fringed flowers of the most beautiful rosy carmine color, wonderfully free blooming plants of the dwarf, compact growth which makes this grand new sort particularly desirable for pot plants as well as bedding. World Beauty has really created a sensation wherever shown. A few plants in bloom for demonstration to the public early in the season will undoubtedly result in an active and most profitable demand for this new favorite.

For Mother's Day

"World Beauty" has proved to be an ideal pot plant and a worth-while profit provider. We introduced "World Beauty" to the trade and are again securing our seed supply from the originator, thereby insuring our customers the true variety. Sow seed early and follow with successive plantings up to March 1st next. We say by all means if you culture Petunias, do not leave "World Beauty" off your list. It is unquestionably the "last word" in Double Petunias.

Price of "World Beauty" Seed, Original Strain:

500 seeds . . . \$1.25 1,000 seeds . . . \$2.00 3,000 seeds . . . \$5.00

Some of the Numerous Unsolicited Testimonials We have Received in Connection with Petunia "World Beauty," Etc.

American Bulb Co.
Dear Sirs:
Your seeds have been a constant source of joy. The Petunias are the envy of all local growers. In exhibits they have just stopped trying to compete, for with the "World Beauty" we have been awarded the blue ribbon for the past four years.
(Signed) R. M. ENOCH,
Washington, Pa.

American Bulb Co.
Dear Sirs:
Your World Beauty Petunia is a winner! As a pot plant it "sold itself" the past spring and when short of Carnations I used same for funeral work. After placing stems in the water a few hours the blooms remained firm for a long period.
Yours very truly,
(Signed) KABOT GREENHOUSES.

Niles, Ill.
American Bulb Co.
Gentlemen:
The Petunia seeds purchased from you have a wonderful germination. I have better than 90%, so here goes another order.
(Signed) HARRY L. BATESON.
Long Beach, Calif.,
May 15, 1937.

A. B. C. PETUNIA "WORLD BEAUTY" MEANS REAL PROFIT FOR THE GROWER

PETUNIAS

A. B. C. "PRIVATE STOCK"
(Eriksson Strain)

Single Large Flowering Dwarf Fringed and Ruffled Mixed

The "De Luxe" of Single Petunias

A very much improved strain of "hand pollinated" large flowering dwarf Petunias, produced under glass by that eminent florist-grower, Mr. Ernst Eriksson, Riverside, Illinois (originator of "Primula Malacoides Erikssoni"), and which, we believe, is the choicest mixture of Dwarf Large Flowering Mixed Petunias obtainable. Exceptional for pot plants, porch and window boxes, bedding, etc.

FOUR-WAY LODGE

COCOANUT GROVE (Miami) Florida

November 16, 1936.

Your A. B. C. "Private Stock" Petunias (Eriksson strain) are the most remarkable single Petunias that I have ever grown. From 1 trade packet last season I raised about 900 plants in 5-inch pots and every plant produced flowers 6 inches and over in diameter and a great variety of the most beautiful color shades besides made that set of plants outstanding from beginning to end.

New Orleans, La., April 6, 1937.

American Bulb Co.

Dear Sirs:

It may interest you to know that Eriksson's "Private Stock" mixture of single Petunias are "the talk of the town." Both Chas. Eble, florist, and Lake View Nursery have plants with numerous flowers on them measuring 4 to 6 inches across.

Yours truly,

(Signed) ERNST POPPERS,

A. B. C. Representative.

Type of Dwarf Petunia A. B. C. "Private Stock"
(Eriksson Strain) Single Dwarf Mixed (Actual Size)

All-Double "De Luxe" Petunias

(VICTORIOUS STRAIN)

Giant Fringed Dwarf Mixed

Same type as "World Beauty" illustrated on inside front cover, but in choicest mixture. This notable strain produces 100 per cent Double Flowering Petunias mostly of the Giant Fringed Type; the percentage of somewhat smaller flowering Doubles does not, as a rule, exceed 25 per cent; the remainder will be all large flowering fringed Doubles. The flowers are very large, often measuring 5 inches across. Exquisitely ruffled and fringed, and contain a good range of brilliant colors. In addition to their desirability for pot plants and bedding they likewise provide valuable summer cut flowers for the retail grower.

"Madonna" or "Snowball". 4 in. Height 10 in. We believe this to be the best Double White-Fringed Petunia. 1/2 Tr. Pkt.....75c Tr. Pkt.....\$1.50 3 Tr. Pkts.....\$4.00

Choice Small Flowered Double Petunia "Double Rosy Morn" Dwarf

This beautiful small-flowered Double Pink Petunia has come into the greatest favor, especially as a pot plant. However, since seed produces only a nominal number of double flowers, it is well to sow early and take cuttings from the true double. The single flowers produced from this strain are, however, equal to the highest type of Rosy Morn, and all available. Tr. Pkt....\$1.00 1/64 oz....\$1.75 1/32 oz....\$3.00

PLEASE NOTE: Highly bred double Petunia seed is not as vigorous in growth as is that of single strains. To some extent this lack of vigor extends to the seed. Seed of our All-Double strains has been carefully tested in soil, and, if carefully handled, we know it will germinate 60 to 70 per cent. For this reason and because of its high cost we cannot entertain claims of non-germination of this seed. If handled with due care, we know it will grow. Cultural hints (supplied free with each order) if consistently followed, will, we believe, insure good germination of all Petunia varieties listed in this book. A. B. C.

A. B. C. DE LUXE PETUNIAS

Blue. Tr. Pkt..... 35c 1/16 oz..... 60c 1/8 oz.....\$1.00

WHEN PLANTING SMALL SEEDS

If small seeds such as those of Petunias, are mixed with finely sifted soil, better results are obtained than by broadcasting the seed and covering with soil. The soil should be well firmed, then covered with burlap, and watered with a fine spray. It is necessary to spray once or twice a day to keep the ground damp. In a short time the seeds sprout. As soon as they come through the soil the burlap should be removed.

A. B. C. DE LUXE PETUNIAS (Continued)

Large Single Petunias

(Petunia Hybrida Grandiflora)

Ruffled and plain-edged varieties. Excellent for growing in beds or pots. The large blooms are produced very freely.

New Pure White Dwarf Petunia A. B. C. Improved "Snowstorm"

(An A. B. C. Introduction)

12 inches high, Improved "Snowstorm" is a pure white developed along the line of our "Private Stock" Mixed color strain. Flowers are the same size, 3 to 4 inches in diameter. The same free-blooming habit makes this new variety particularly desirable as a pot or bedding Petunia. Don't overlook this valuable new kind for the coming spring. "Snowstorm" is unquestionably the "Queen" of all White Petunias.

Tr. Pkt. (1,000 seeds).....\$1.25 5,000 seeds.....\$5.00

Improved "Star of California"

Balcony type. Violet-crimson, white star.

A most desirable variety that comes quite true from seed.

1/4 oz.....	\$1.25	Oz.....	\$4.75

"Bountiful Strain" Portland Petunias Single, Large Flowered

(Fringed and Ruffled)

Originator Strains, Seed from Hand Pollinated Plants

Free flowering strong upright growths. Now very popular with the trade. Especially "Elk's Pride," which is the most outstanding of all purple varieties.

All flowers are hand pollinated and the seed carefully gathered by hand when ripe, not before, so that every seed has full germinative power. Colors run true almost without exception, but nature still seems to insist upon a small percentage of reverts to small flowers. Infinite care and time seem unable to eliminate this natural trait in Petunias.

Apple Blossom. Light pink.
Elk's Pride, Improved. Royal purple.
Lilac Beauty. Soft lilac.
Pride of Portland. Deep rose.

Ruffled Heliotrope. Soft heliotrope.
Scarlet Beauty. Bright scarlet.
White Beauty.
Mixed Colors.

A. B. C. Improved "Snowstorm"
(One-third Natural Size)

New Pure White Dwarf Petunia A. B. C. Improved "Snowstorm"

(Illustrated above)
(An A. B. C. Introduction)

The White Petunia You Have Been Waiting For

12 inches high, Improved "Snowstorm" is a pure white developed along the line of our "Private Stock" Mixed color strain. Flowers are the same size, 3 to 4 inches in diameter. The same free-blooming habit makes this new variety particularly desirable as a pot or bedding Petunia. Don't overlook this valuable new kind for the coming spring. "Snowstorm" is unquestionably the "Queen" of all White Petunias. Tr. Pkt. (1,000 seeds) . \$1.25 5,000 seeds. \$5.00

New Fancy Petunia—Ruffled Nana Compacta, "Martha Washington"

A new break in Petunias. Martha Washington is a ruffled or frilled nana compacta. Its growth is about 9 inches high and it forms a perfect ball effect, literally smothered with lovely frilled blooms about 3 inches in diameter. Its neat, compact habit has never before been seen in Petunias.

The color is quite remarkable. The frilled portion of the flower is a beautiful blush pink and the center portion is strongly veined a rich wine-red deepening in the throat, which is large, to dark violet; the whole forming a striking contrast of colors. Award of Merit All-America Selections, 1935. Highly Commended R. H. S. (England) 1935. Tr. Pkt..... 50c 1/32 oz..... \$1.50

HYBRIDA NANA COMPACTA PETUNIAS

Hybrida or Bedding Petunias

Dwarf Compact Type (1 ft.)

(Petunia Hybrida Nana Compacta Erecta)

Considered the Most Satisfactory Dwarf Bedding Class

Celestial Rose, Improved (Originator's German Strain). This is a big improvement over that old favorite, Rose of Heaven. Beautiful, rich, satiny, deep rose and unusually free blooming. This originator's strain comes practically 100 per cent true. Our customers have been highly pleased with this Originator's German Strain.

Tr. Pkt..... 50c ¼ oz..... \$2.75 Oz..... \$10.00

Miniature Nana Compacta

This group comprises neat, compact plants about 6 inches high and 8 inches in diameter, fully covered with a mass of flowers.

"Gem" Petunias—a miniature small-flowered class of ideal rounded, compact, very free-flowering habit. 8 to 10 inches in height. Desirable for edging.

Rose Gem (New). Clear deep rose. Tr. Pkt..... 35c 1/64 oz..... \$1.25

Pink Gem. Compact, rose-pink flowers. Tr. Pkt..... 25c ¼ oz..... \$1.00

Creeping Petunia

Parviflora. Creeping habit with diminutive pink flowers, valuable as a cover and excellent for rock gardens. Tr. Pkt..... 25c ¼ oz..... 50c

Dwarf Erfurt, Large-Flowering Fringed

Beautifully fringed flowers. Plants compact, excellent for pot plants and bedding.

Dainty Lady. So-called "Yellow Petunia" (the nearest approach to yellow). Tr. Pkt..... 50c

Gaiety (New). Dwarf growth with daintily fringed pink and white flowers. Tr. Pkt..... 50c

Gottfried Michaelis. Amaranth-red. Tr. Pkt..... 50c

Lace Veil (New). Fringed dwarf. White. Tr. Pkt.... 50c 1/64 oz.... \$1.50

Pepita. Carmine and white. Dwarf. Tr. Pkt..... 50c

Setting Sun. Brilliant rose, compact growth. Valuable for pot plants. Tr. Pkt..... 50c 1/64 oz..... \$1.50 1/32 oz..... \$2.50

Clear Pink. Exactly the same as "Setting Sun" except color, which is soft "LaFrance pink." Tr. Pkt..... \$1.00

	Tr. Pkt.	¼ oz.	Oz.
Celestial Rose. American grown seed. A good average strain of this desirable variety... (½ oz., 75c)	\$0.35	\$1.25	\$4.00
Chicago Blue. A beautiful, rich-colored blue which withstands bad weather admirably. Highly recommended60		
Adonis. Purple-rose, white throat, small free flowering	.25	.40	1.35

THREE NEW SNAPDRAGONS

New "Cut and Come Again" Snapdragon
"St. George" (Malmaison)

New "Cut and Come Again" Snapdragon
"Royal Cerise" (Malmaison)

New "Cut and Come Again" Snapdragon
"Royal Rose" (Malmaison)

Three New Snapdragons Highly Recommended for Bedding or Cutflowers

DWARF ANTIRRHINUM SNAPDRAGON

"MALMAISON TYPE"

"Malmaison" has been acclaimed the finest of all Antirrhinums for bedding. (Also desirable for cutting). Free-flowering, erect and so sturdy that they stand up against almost any adverse weather conditions, these three "Royal Rose," "Royal Cerise," and "Saint George," are varieties which can be recommended without hesitation for all purposes to which Antirrhinums lend themselves.

"ROYAL ROSE"

"Royal Rose" is truly a regal variety. The color is almost impossible to describe and must be seen to be appreciated, for even to say that it is the deepest and richest rose imaginable does not do it justice. There is apparent in every flower that quality of tone and velvet sheen that reminds one of the texture of the Rose.

As with "St. George," the spike is dense, and the individual flowers placed closely together. Tr. Pkt.....50c 3 Tr. Pkts.....\$1.25

ROYAL CERISE

Same type as "Royal Rose" but a beautiful cerise shade.

Tr. Pkt.....50c 3 Tr. Pkts.....\$1.25

"ST. GEORGE"

The color of "St. George" is orange-cerise, but of a new shade, which makes it absolutely distinct from all other varieties. The spike is dense and the pips are placed closely together, making a perfect general and colorful effect. The individual flowers are large and compare very favorably with any known commercial variety.

Tr. Pkt.....50c 3 Tr. Pkts.....\$1.25

SPECIAL NOTE!

If you merchandise small plants to the public for garden planting, don't fail to include the three new Snapdragons listed above. We are sure that they will make friends for you when blooming period comes around.

PANSY

A. B. C. "De Luxe" Fancy Colored, Large Flowered Mixture
(Our Exclusive Introduction)

PANSY

A. B. C. "De Luxe" Mixture

Will satisfy your critical trade both as to size and variation of coloring. Truly the "last word" in Pansy mixtures, and is our exclusive strain.

A superb strain of fancy Pansies of the largest size and the richest and most varied colors. New crop contains several shades of beautiful reds.

The seed is hand-picked from personally selected plants and will germinate 100 per cent. Very robust, stocky plants, having a wonderful root system that will not heave. The result of many years' selection, this is unquestionably the world's finest strain of fancy Pansies, and will bloom two weeks earlier than any other strain. If you are looking for "the unusual in Pansies" and your trade will pay the price for product, here it is. We have searched the world over to find a better mixture. However, thus far we have been unable to improve on "A. B. C. De Luxe."

This exceptional mixture is highly recommended for cut flowers, likewise for spring plant sales. Numerous growers have told us that "De Luxe" Pansy plants in flower virtually sell themselves and command a premium over stock produced from other so-called "fancy" mixtures. You will, we are quite sure, make no mistake in confining your Pansy cultures to A. B. C. "De Luxe" Mixed.

PAPAVER NUDICAULE (Iceland Poppy)

Desirable for greenhouse forcing. Sow seed in January. Also succeed well outdoors.

El Monte. A new variety of California introduction. Large flowers of deep tangerine orange. Strong wiry stems, making an excellent cut flower. Tr. Pkt.....

Sandford's Giant Strain. A new giant strain with blooms measuring up to 5 inches in diameter, carried on stems 2 feet long. Contains many lovely colors. Tr. Pkt.....

THE EMPRESS

Bodger (Introducer's) Description

Our new Nudicaule Poppy, The Empress, is truly queen of the Iceland Poppy family. Distinct from all other strains, it is remarkable first for flower form—large, full, well formed flowers, with broad overlapping petals deeply fluted or wrinkled, giving an effect almost of doubleness, an illusion which is most delightful. Secondly, the color range is unique lovely shades of salmon rose and creamy pinks never before seen in Nudicaule Poppies, fascinating tones to intrigue the imagination. The flowers are carried on good strong stems, which make them fine for cutting. Tr. Pkt.....

THE EMPEROR

Bodger (Introducer's) Description

The Emperor is without a doubt the best orange iceland Poppy available, the same type as The Empress, with extremely large fluted petaled flowers, many with an extra row of petals. The color is remarkably true, the same shade as our El Monte, deep tangerine orange, but the flowers are larger, and are borne on very long strong stems. We highly recommend The Emperor. Tr. Pkt.....

PRIMULA MALACOIDES

"Improved Erikssoni"

"The Pot Plant of the Hour"

Disseminated by the American Bulb Company. Awarded rating of "Special Merit" at the Florist Club Authority Test, as made at the New Jersey Agricultural Experiment Station, Brunswick, N. J.

"Erikssoni" has proved itself practically invaluable. Due to the fact that Primula Malacoides "Improved Erikssoni" being non-infectious, this desirable show plant is now freely admitted by hospitals, etc., and generally accepted by the public without question. A good selling point when offering "Improved Erikssoni" to your trade.

PRIMULA MALACOIDES

"IMPROVED ERIKSSONI"

Seeds produced by the originator, Ernst Eriksson, Riverside, Ill., and supplied in his original packages. Accept no substitutes.

Appleblossom. A true appleblossom shade, pink and white. Very worth-while.

Brilliancy. Opens lavender-pink, changing to crimson-red.

Riverside. A true light rose pink (seed from the third generation of plants). Comes 75% true. A real new color in Malacoides.

Prices of above 3 varieties:

500 seeds.....\$1.00 2,000 seeds.....\$3.00

ERIKSSON'S STANDARD VARIETIES

Wonder Baby. A most beautiful pink.

Baby Rose. Very deep pink, some almost red.

Baby Doll. A deep pink with frilled flowers.

New Baby. Near lavender-pink; the strongest grower with the largest flowers.

Salmon Beauty. True salmon.

Snow King. The pure white the trade has long been waiting for.

Choice Mixture (of above).

Prices (of all standard varieties and mixed):

Tr. Pkt. of 800 seeds...\$1.00 2,000 seeds...\$2.00 1/64 oz....\$5.00

Complete cultural directions, compiled by Mr. Eriksson, furnished free with each order.

SPECIAL NOTE! For best results, plant the variety "Snow King" one plant to 4-inch pot and 3 plants to a 5-inch to 6-inch pot, 4 to 5 plants in a 7-inch pot.

SPECIAL NOTE! Important to the Grower: Protect yourself! The success that has obtained during the past few years for "Eriksson's Improved Malacoides" has resulted in numerous offerings in the market of Malacoides under the title (Eriksson's Strain). Protect yourself by securing the originator's greenhouse produced new crop seed in ERIKSSON'S ORIGINAL PACKAGES, with complete cultural directions.—A. B. C.

VARIOUS PRIMULAS

PRIMULA CHINESE GIANT

A Startling New Chinese "Dazzler." From Hurst & Son, seed merchants and growers of London, England, comes a "really startling novelty in flower seeds." It is a Chinese Primrose (*Primula Sinensis Fimbriata*) which the firm has named Dazzler in recognition of its striking and unusual color; "orange red," as seen in the setting sun, is suggested as the only term that accurately describes it. It is claimed that a well-grown specimen will carry well over 20 flowers open at one time; also that while handsome under all circumstances, the blossoms are especially effective under artificial light. Tr. Pkt.....\$1.00

SINENSIS STELLATA

Indispensable for general decorative work. The plants are very floriferous and bloom for a long period. A good keeper and the flowers remain fresh in water for a long period.

Giant blue Star. Giant Salmon Pink Star, Giant White Star.

Tr. Pkt. (250 seeds).....50c

KEWENSIS

Various Sorts. (Verbena scented yellow primrose). Of strong growth; long spikes of yellow flowers. For greenhouse culture.

Tr. Pkt.....50c

Primula Malacoides "Erikssoni"

PRIMULA OBCONICA

Owing to the rapid loss of germination in this class of Primula seed, we have it put up by our German grower in sealed glass containers. This removes all question of seed germination if carefully handled. In sowing this seed do so in sandy, well-drained, sterilized soil. While uniform moisture is necessary, seed rots because of soil being kept too long after watering.

Better Days. A valuable new color. Deep carmine red. The darkest and one of the most valuable Obconica yet introduced. Very large flowering and the compact, well branched growth is very symmetrical and the mass of flower heads show evenly above the dark green foliage on strong stems. Tr.Pkt....\$1.25 1/64 oz....\$3.25

Tr. Pkt. (100 seeds).....\$1.00

CHRISTMAS CHERRY

Hlavacek's Masterpiece. Cleveland Cherry. More compact than the old type and produces much more freely of fruit. A very pronounced improvement over the old form. Grows more compact than above and produces the scarlet berries in greater profusion.

Tr. Pkt.....35c Oz.....\$2.00

STATICE

Bonduelli. Similar to *Sinuata*. Yellow.

Tr. Pkt.....15c Oz.....25c Lb.....\$2.25

Sinensis. 18 inches. Pure white with canary-yellow. Quite attractive.

Tr. Pkt.....25c Oz.....75c 4 oz.....\$2.50

Suworowii. Russian or Rat-tall Statice. Excellent for spring cutting from either large pots or beds or can be sown in January for a late spring crop. Tr. Pkt.....20c Oz.....70c 4 oz.....\$2.00

RAT TAIL STATICE, SUWOROWII

Provides a showy pot plant and is excellent for cutting. Sow seed in January for May blooming.

Sinuata Statice. Largely used outdoors but can be forced indoors. We have found a location for the growing of this seed that matures it better and gives more satisfactory germination than we have had in the past.

Lavender Queen (New). The flowers are a beautiful clear bright lavender, quite distinct from any of the other colors, and will doubtless rival them all in their usefulness for winter bouquets and the other uses for which the species is so generally employed. Tr. Pkt.....35c

Market Grower's Blue. Blue Statice are of interest to every market grower of flowers, and it was their importance to the cutflower trade that led us to pay particular attention to the selection of an ideal blue variety. Tr. Pkt.....35c Oz.....\$2.00

Puberula (New). A most desirable Statice for pot plants. Dark violet; 6 inches high; flowers 5 months from seed. Tr. Pkt..50c Oz..\$3.50

Atrocoerulea (New). Clear Delphinium blue. Very distinct new color. Tr. Pkt.....25c Oz.....50c

Kampf's Tall Improved. Extra long-stemmed, deep blue. The best blue cutting variety. Tr. Pkt.....20c Oz.....45c Lb.....\$4.00

True Blue. The standard blue. Tr. Pkt..15c Oz..30c Lb..\$2.75

Rosea Superba. Tr. Pkt.....15c Oz.....30c Lb.....\$3.00

White. Tr. Pkt.....15c Oz.....25c Lb.....\$1.90

New Hybrid Mixture. A mixture of the above colors as well as new shades that add a bright variation to the mixture.

Tr. Pkt.....25c Oz.....50c Lb.....\$5.00

***STATICE (Sea Lavender)**

Splendid hardy perennials either for the border or rockery, producing panicles of minute flowers which can be dried and used for winter bouquets.

Caspia. The most beautiful of all perennial Sea Lavenders. Very vigorous in habit, with 3 foot stems carrying innumerable lilac flowers. A beautiful subject for table decoration. Tr. Pkt....50c Oz....\$2.50

Dumosa. Dense clusters of pure silver gray blooms; 30 inches. Tr. Pkt.....40c Oz.....\$2.00

Latifolia. Purplish flowers. Tr. Pkt.....25c Oz.....\$1.00

STEVIA

Serrata. Fragrant white flowers. Tr. Pkt.....30c Oz.....\$1.50

FLORISTS' STOCKS

GIANT COLUMN (Non-Branching Double Excelsior)

This new type produces one enormous spike 2 to 3 feet in height and is especially adapted for greenhouse culture, as the plants can be grown close together. We have discontinued listing the other separate colors in this type, due to its being practically impossible to obtain seed that will prove satisfactory and give a high percentage of doubles. Those listed are, in the opinion of most florist growers, the only reliable colors to grow.

FLORISTS' STOCKS

A. B. C. "SPECIAL FLORISTS' STRAINS"

"The World's Best Double"

GIANTS OF CALIFORNIA

*Indicates Most Popular Colors and Shades

This magnificent new group is so marked in improvement that we believe they will head the list in florists' forcing Stocks in the very near future. Giants of California are very early flowering, with a high percentage of double mammoth flowers and have the branching habit of the Bismarck. If planted close they will nearly attain the height of the Column Stock, approximately 2½ to 3 feet. We can with confidence recommend this strain to the florist grower.

SUNFLOWER (See Helianthus)

EARLY OR WINTER FLOWERING SWEET PEAS

SHIRLEY TEMPLE

WALLER-FRANKLIN

(Introducer's Description)

This Sweet Pea, which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie, plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie. The flowers are the largest we have ever seen on any Sweet Pea and it has long stems with four very large blooms on each stem. This new Sweet Pea is so charming and dainty that it deserved the most appropriate name we could find. With the kind permission of Mr. and Mrs. Temple, it is named in honor of their daughter, the charming and lovely little cinema favorite, Shirley.

DAPHNE

(Excerpt from Florists' Review, Issue of April 8, 1937)

PRIZE-WINNING

EARLY-FLOWERING SWEET PEA

"Exhibited by the Ferry-Morse Seed Co., San Francisco, Cal., at the recent International Flower Show in New York, the early-flowering Sweet Pea novelty, Early Daphne, shown here, was awarded a silver medal. This new Sweet Pea is a soft salmon pink on a cream ground. The flowers are of great size, with beautifully expanded and waved standards. Many of the blooms are duplex and borne on long and stout stems.

Price: Oz.....	\$1.50	¼ lb.....	\$5.00	Lb.....	\$17.50
----------------	--------	-----------	--------	---------	---------

WINTER SWEET PEAS

The following 16 varieties are, we believe, the "cream" of the early-flowering Sweet Pea family.

Ball Rose Improved. Because of its deep bright rose color, this is highly recommended. Fairly strong growth and free flowering habit.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.30	Lb.....	\$4.00
-----------	------	---------	------	-----------	--------	---------	--------

Ball Orange Improved. Pure orange without cerise shading. No clear orange variety is sun-proof, and the growth and flower stems of such are comparatively short. **Balls Orange Improved** belongs in this list because it is the only pure, early flowering orange.

½ oz.....	.30c	Oz.....	.50c	4 oz.....	\$1.50	Lb.....	\$5.75
-----------	------	---------	------	-----------	--------	---------	--------

Ball White. Strong growing, long-stemmed, white-seeded pure white. We prefer not to sell white-seeded Pea seed because of the ease with which it rots unless sown in moist soil and not watered until germinated, and therefore recommend the variety "Hope" in its place.

½ oz.....	.25c	Oz.....	.35c	4 oz.....	\$1.25	Lb.....	\$4.50
-----------	------	---------	------	-----------	--------	---------	--------

Bridesmaid. Extra light rose or silvery pink. Bridesmaid introduces a new shade in Early Peas and a most delightful one for either mid-winter or spring. Extra large flowers and long-stemmed.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.35	Lb.....	\$4.50
-----------	------	---------	------	-----------	--------	---------	--------

Boon. Very pleasing even salmon-rose pink. Extra large flowered. Shows up well at the end of the season. There is an increasing appreciation and demand for this color class, and such outstanding varieties as Early Boon are responsible for it.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.35	Lb.....	\$4.50
-----------	------	---------	------	-----------	--------	---------	--------

Harmony. We continue to find this the best lavender. Long-stemmed, vigorous growth and with some rose shading.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.30	Lb.....	\$3.50
-----------	------	---------	------	-----------	--------	---------	--------

Hope. While not as pure in color as Ball's White, Hope is practically clear white with the strong advantage of being black-seeded.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.30	Lb.....	\$4.00
-----------	------	---------	------	-----------	--------	---------	--------

Josie. Longest stemmed, clear rose-pink. A shade darker than Majestic Rose. Its very strong growth makes it the most productive variety in any color and requires more head room. We find the stems somewhat thin during prolonged dark weather, but this promptly disappears with normal conditions.

½ oz.....	.20c	Oz.....	.35c	4 oz.....	\$1.30	Lb.....	\$4.00
-----------	------	---------	------	-----------	--------	---------	--------

Laddie Improved. Extra long stemmed, rose.

½ oz.....	.20c	Oz.....	.30c	4 oz.....	\$1.00	Lb.....	\$3.50
-----------	------	---------	------	-----------	--------	---------	--------

Majestic Rose. Some growers find this the preferred clear rose-pink. While it is not as long-stemmed or productive as Josie, the stems are heavier and a trifle longer than Holscher.

½ oz.....	.20c	Oz.....	.30c	4 oz.....	\$1.25	Lb.....	\$3.50
-----------	------	---------	------	-----------	--------	---------	--------

SWEET PEAS Continued on Next Page.

"DAPHNE" IS TRULY AN OUTSTANDING NEW SWEET PEA FOR THE FLORIST

EARLY OR WINTER FLOWERING SWEET PEAS

(Continued)

Mrs. Hoover. Continues to be the best extra long-stemmed blue. Like Josie it is extra strong in growth, requiring 12-15 feet of head room when planted early on ground beds.

½ oz. 20c Oz. 30c 4 oz. \$1.50 Lb. \$3.50

Mrs. Holscher. Very good rose pink.

½ oz. 20c Oz. 30c 4 oz. \$1.00 Lb. \$3.50

Sequoia. Extra large, long-stemmed, fairly deep salmon-rose. Under spring weather conditions this is the most attractive variety on the list and shows up well all winter. Don't miss it.

½ oz. 20c Oz. 35c 4 oz. \$1.35 Lb. \$4.00

Triumph. Extra long-stemmed, lilac-mauve. A comparatively new and valuable cut flower color and an effective one in many kinds of cut flower work. Clearly improves Mauve Beauty and Cattleya.

½ oz. 20c Oz. 35c 4 oz. \$1.35 Lb. \$4.00

SPECIAL NOTE! If in the market for Sweet Pea Seed in quantity, please write for special prices.—A. B. C.

WINTER FLOWERING SWEET PEAS

Standard List—All priced as follows:

½ oz. 20c Oz. 30c 4 oz. 90c Lb. \$3.40

Starred (*) varieties especially recommended.

American Beauty. Extra large, long-stemmed American Beauty Rose.

Amethyst. Rich bright purple.

Annie Laurie. Bright shade of rose-pink. Medium size.

Apollo. Salmon-cerise, long-stemmed. Fine for spring.

Attraction. Rich salmon-rose, long-stemmed.

Aurora. Orange-scarlet striped. Novelty color. Fine.

Balls Blue. Bright mid-blue, extra free flowering.

Ball's Orange. The standard clear deep orange.

Ball Rose Queen. Extra long-stemmed rose-pink.

Blue Bird. Mrs. Hoover is better.

Bright Light. Vivid orange-scarlet.

Cattleya. Rosy lilac. Triumph better.

Chevalier. Dark rose.

Columbia. Pink and white bicolor.

Eileen. Rich deep pink, large and long-stemmed.

Eldorado. Light orange.

Eleanor Blue. Light blue, for spring flowering only.

Fascination. Attractive cream-pink.

Flamingo. Orange-salmon. Long-stemmed.

Fragrance. Orchid-lavender, prefer Harmony.

Giant Rose. Well-named but not long-stemmed.

Glitters. Pride much better.

Greeting. Lavender.

Grenadier. Poppy-scarlet. Rather heavy shade.

Harlequin. Bicolor chocolate. Attractive novelty.

***Heather Bell.** Rosy lavender, medium size but free.

Indigo Blue. Dark shade of clear blue.

***Jeanne Mamitsch.** Clear rose, long stems.

Lavanda. Lavender.

Louise Gude. Bright rose. Medium size.

Maroon Prince. Dark maroon, rather heavy.

Michigan. Large lavender.

Mrs. Kerr. Salmon.

Oriental. Black-seeded cream.

Pink Profusion. Rose-pink.

***Pride.** Extra long-stemmed brilliant cerise.

Prosperity. Soft glowing rose-cream.

Red Bird. Crimson red.

Snowstorm. Prefer black-seeded kinds. Medium size.

Spring Song. Salmon-pink. Medium stem.

***Success.** Extra bright deep rose-pink.

Sunray. Light cerise, fine long-stemmed.

Susanna. Rather heavy. Carmine-red.

Torch. Orange-salmon.

Vogue. Light bluish lavender.

Vulcan. Prefer early Bright Light.

***White Harmony.** Extra long-stemmed black-seeded.

Zvolanek's Rose. Laddie is much better.

A. B. C. Early Mixture. A combination of above colors, including a large proportion of the standard kinds.

Any Above Priced at: ½ oz. . . 20c Oz. . . 30c 4 oz. . . 90c Lb. . . \$3.40

NOTE! If in doubt as to the best varieties of Sweet Peas for your purpose, we shall be glad to make selection.—A. B. C.

STANDARD LIST OF LATE OR SUMMER FLOWERING SWEET PEAS

This class is also sometimes sown with indoor Earlies started late or after Mums. The Lates do not climb up with the Earlies, branching freely until the Earlies begin to give out after which the Lates take their place. All of the following priced as follows:

Oz. 20c 4 oz. 60c Lb. \$1.75

***Ambition.** Finest deep lavender.

Ascot. Medium light clear pink.

Austin Frederick Imp. Large rosy lavender.

***Avalanche.** Finest white-seeded white.

***Beatall.** Sparkling pink, suffused salmon.

Blanche Ferry. Rose and white bicolor.

Blue Bird. The finest clear blue.

***Blue Flame.** Deep blue.

***Bonny Briar.** A distinct improvement on Pinkie in depth of color.

***Campfire.** Sun-proof deep scarlet.

Chieftain. Rich satiny mauve.

***Chinese Blue.** A solid bright blue; the brightest and, we believe, the best blue variety.

Commander Godsall. Deep violet-blue.

***Constance Hinton.** Black-seeded white.

Crimson King. Fine sun-proof crimson.

Debutante. Soft salmon-shaded peach-pink.

Doreen. Large rich carmine.

Elfrida Pearson. Clear light pink.

***Fiancee.** Soft salmon-pink on white. A choice cut flower combination.

Fluffy Ruffles. Cream-pink.

***Giant White.** Pure white.

***Gigantic.** The largest and finest black-seeded white.

***Gleneagles.** Clear even lavender.

Hawlmart Lavender. Finest light lavender.

Hawlmart Pink. Rose-pink, shaded salmon.

***Headlight.** Scarlet shaded deep cerise and orange. Sun-proof and highly attractive.

***Heavenly Blue.** Delphinium-blue.

Hebe. Large rose-pink.

Hercules. Deep rose-pink.

Hero. Cerise.

Lady Loch. Light blush-pink, flushed salmon, extra large, and of cut flower value.

Lady Ruffles. Large ruffled soft pink.

Loveliness. Rich rose-pink on cream. Extra large and choice for cutting.

***Magnet.** An improved Miss California.

Mary Pickford. Fine cream-salmon-pink.

Mastercream. Black-seeded, extra large cream.

Matchless. Deep cream.

***Mavis.** Rich salmon-cerise with orange shading, partly duplexed and sun-proof.

Miss California. Large salmon-rose.

Model. Best black-seeded white.

Olympia. Deep purple.

***Pinkie.** The finest rose pink, strong grower.

***Pinnacle.** Deeper rose pink than Pinkie; a fine commercial color.

***Powerscourt.** Finest lilac-lavender.

Royal Purple. Large rich purple.

Royal Scot. Sun-proof orange-scarlet.

***Springtime.** Silvery white, suffused rose. Very attractive cut flower color combination.

Supreme. Soft delicate pink.

The Clown. Crimson and white.

Warrior. Deep bronze-maroon.

Welcome. Deep bright scarlet, sun-proof.

Youth. Light picotee-pink.

SWEET WIVELSFIELD (Dianthus)

Hardy annual with a great variety of colorings. Trusses similar to Sweet William but flowers are larger and more varied. Provides excellent cut flowers as well as a beautiful bedding plant.

Tr. Pkt.....15c Oz.....75c
 New Double Sweet Wivelsfield. Tr. Pkt.....50c

TAGETES

Signata Pumila. Good bedding plant; flowers golden-yellow.
 Tr. Pkt.....15c Oz.....60c

Signata Pumila Little Giant (New). Very dwarf, orange. Tr. Pkt...25c

THALICTRUM (Meadow Rue)

***Aquilegifolium Album.** Elegant Columbine-like foliage and masses of feathery white flowers during June and July; 3 feet.

Tr. Pkt.....40c Oz.....\$2.00

***Dipterocarpun.** Its dainty, graceful sprays of flowers, elegantly arranged on stems 4 feet high, are invaluable for cutting. The flowers are a charming shade of violet-mauve, which is brightened by a bunch of lemon yellow stamens and anthers.

Tr. Pkt.....40c Oz.....\$2.00

THERMOPSIS

***Caroliniana.** A showy tall growing hardy perennial, producing in June and July long spikes of Lupin-like yellow flowers. 3 feet. Excellent for cutting. Seeds germinate slowly.

Tr. Pkt.....40c Oz.....\$2.00

THUNBERGIA (Black-Eyed Susan)

Mixed. Tr. Pkt.....15c Oz.....50c

Gibsoni. A beautiful new graceful climber for covering pillar and trellis work in greenhouses, or may be flowered outdoors in mild climates. Tr. Pkt.....50c

THYMUS

***Serpyllum (Wild Thyme).** A dwarf perennial with fragrant foliage. Of creeping habit and unexcelled for rock gardens and between stepping stones. Lovely small purple blooms during the summer.

Tr. Pkt.....50c Oz.....\$3.00

TITHONIA SPECIOSA

(Mexican Sunflower). Tr. Pkt.....25c

TORENIA

Fournieri. Excellent for spring pot plant sales. Medium blue with dark blotches on lip. Very rich\$0.25 \$0.65 \$2.25

Fournieri Compacta. Dwarf form of above. Excellent for bedding or pots.....(1/8 oz., 50c) .25 .85 ...

TORENIAS

Every florist that grows bedding plants and material for porch and window boxes and is not now handling any of the Torencias should investigate the possibilities of these plants. That they are not well known is shown by their absence from so many gardens. And that they deserve far more attention than they now get, is evident from their good behavior under average garden conditions.

TRACHELIUM COERULEUM

Large heads of small blue flowers resembling Gypsophila. 18 inch. Tr. Pkt.....35c

***TRITOMA**

(Red-Hot Poker, Flame Flower, Torch Lily). **Early Flowering Hybrids.** These are easy to grow from seed and they will come into blossom quite quickly. The seed we offer has been saved from a splendid collection. Tr. Pkt.....30c Oz.....\$1.25

TROLLIUS (Globe Flower)

***Trollius Ledebouri (Globe Flower).** Seed should be frozen over winter for proper germination.

Golden Queen. Large orange flowers, 3 to 4 feet. Very fine early flowering variety. Tr. Pkt.....50c 1/8 oz.....\$1.35
Orange. 24 inches. Tr. Pkt.....50c 1/4 oz.....\$1.35

TUNICA

***Saxifraga.** A pretty tufted plant with light pink flowers produced all summer. Useful either for the rockery or the border.

Tr. Pkt.....15c Oz.....60c

VALERIANA (Valerian)

***Mixed.** Showy, hardy border plants producing large corymbs of red or white flowers. Fine for bouquets. Mixed colors; 2 feet.

Tr. Pkt.....15c Oz.....60c

VENEDIUM

Fastuosum. Brilliant orange with a glistening dark center.
 Tr. Pkt.....40c Oz.....\$3.00

Fastuosum Hybrids. A most interesting and attractive mixture of colors ranging from silvery white down through various shades of cream and orange salmon. Tr. Pkt....40c 1/4 oz....\$1.25 Oz....\$3.50

VERBENAS

A. B. C. GIANT FLOWERING

A magnificent new strain of Verbenas of robust compact habit and free blooming. The trusses are immense, the individual florets measuring fully an inch in diameter.

SPECIAL NOTE

At the 1935 Wisley Trials in England, Waller Franklin Seed Co., of Guadalupe, Calif., and from whom we obtain supplies of seed, obtained awards for Verbenas, Salmon Pink, Etna and Spectrum Red, also Royale and Violet Bouquet were highly commended. These trials are highly competitive and such awards are indicative of the high value of our giant strain of Verbenas. Tr. Pkt. 1/4 oz. Oz.

- Beauty of Oxford Hybrids.** A valuable new strain.
 Rose pink to rose red shades.....\$0.40 \$0.60 \$2.00
- Cerise Queen.** A beautiful shade of soft salmon cerise. Quite new in Verbenas..... .25 .60 2.00
- Etna.** Intensive Geranium red, with small creamy-yellow eye..... .30 .50 1.50

- Choicest Giant Flowering Mixture**..... .25 .40 1.25

HYBRIDA DWARF COMPACT, ERECT GROWING

This group is very neat and compact in habit. It is a continuous bloomer particularly adapted for bedding and borders.

- Carmine Ball.** Bright. 10 in. Tr. Pkt...35c 1/4 oz...75c Oz...\$2.75
- Fireball.** Bright scarlet. 6 in. Tr. Pkt...35c 1/4 oz...75c Oz...\$2.50
- Snowball.** White. 6 in. Tr. Pkt...25c 1/4 oz...65c Oz...\$2.25

NEW VIOLET BOUQUET (Nana Erecta)

The plant is eight inches high and eight inches in diameter. The color of the flower when it first opens is a deep violet tinged with garnet, changing to deep violet as the flower gets older. The eye is cream, making a rich color combination. The diameter of the flower head is two and one-half to three inches and the individual florets are three-fourths inch in diameter.

Violet Bouquet. Tr. Pkt.....35c 1/4 oz.....85c Oz.....\$3.25

NEW HYBRID DANNEBROG

Medium-sized flowers of intense scarlet with contrasting large white eyes, very compact growth, thus useful for bedding. Showy and attractive. Rich, sparkling color comes true to type.

Tr. Pkt.....25c 1/4 oz.....75c Oz.....\$2.50

LEMON VERBENA (Fragrant)

Tr. Pkt.....35c 1/4 oz.....75c Oz.....\$2.75

ERINOIDES (Moss Verbena)

Purple. Somewhat spreading habit. Excellent as a cover on dry soil. Tr. Pkt.....25c 1/4 oz.....35c Oz.....\$1.25

White. Tr. Pkt.....25c 1/4 oz.....35c Oz.....\$1.25

VERBENA VENOSA HELIOTROPE BLUE

Tr. Pkt.....25c 1/4 oz.....40c Oz.....\$1.00

VERBENA (New Venosa Lilacina)—Sow Early

Verbena Venosa, known in the catalogues as a perennial, is one of the most useful "blue" flowers one can grow. It is excellent as a cut-flower. In color, the flowers are delicate lavender-blue. One of this verbenas' qualities is its drought resistance. It will endure the most trying of seasons. The compact and bushy habit of the plant is inviting and it grows from 12 to 18 inches in height. Those who grow it will be well repaid with its beauty and attractiveness as a border plant. Also very desirable for cutting.

This verbenas must be treated as an annual. If possible, sow the seeds under glass in early Spring. The plants will flower in four months' time, continuing to bloom until frost. It is a strong grower, perfectly hardy and very free flowering, being literally covered with flowers throughout the season.

For a striking bedding combination the above verbenas bordered with Tagetes Little Giant combines a combination of blue and gold that is hard to beat. Used extensively in the Chicago Parks. Also this Verbena when bordered with Sweet Alyssum provides a "happy combination."

New Venosa Lilacina. Tr. Pkt....35c 1/4 oz....75c Oz....\$2.50

VERBENA VENOSA "LILACINA" PROVIDES AN EXCEPTIONAL BEDDING PLANT

VERONICA (Speedwell)

- ***Maritima (Longifolia).** Long spikes of blue flowers from July to September. Tr. Pkt...30c Oz...\$1.50
- ***Repens.** A useful rock or carpeting plant with light blue flowers, May-June. Tr. Pkt.....50c Oz.....\$2.50
- ***Spicata.** An elegant hardy border plant growing about 1½ feet high. Has long spikes of bright blue flowers in June and July. Tr. Pkt.....30c Oz.....\$1.50

VINCA (Periwinkle)

- Vinca Rosea.** Periwinkle. Requires a warm house and an early start. 12 inch.
- Pink Alba Oculata,** white with rose eye. **Delicata,** soft pink. **Alba Pura,** pure white.
- Mixture.** Each: Tr. Pkt...20c ¼ oz...30c Oz...75c

VIOLAS (Miniature Pansies)

As easily grown as Pansies, and they call for the same treatment. Particularly adapted to bedding because of their dwarf, free flowering habit. Varieties (*) are especially recommended.

Comparative Zinnia Flower Types

BODGER'S FAMOUS "GOLD MEDAL" ZINNIAS FOR CUT FLOWERS AND GARDEN SHOW

Few flowers have exhibited greater improvement at the hands of hybridizers than the Zinnias, and their improvement has been matched with a corresponding increase in public favor. For those getting started with Zinnias, it should be emphasized that the nature of the plants demands plenty of warmth. This is explained by the fact they are native to Mexico. This temperature requirement also, of course, applies to their seed germination, which will be a certain failure in a cold, wet soil. The warm end of a Carnation house or, say, a temperature of around 55 to 60 degrees nights will germinate it. In warm climates Zinnias have high florist value. By sowing around March 1st, Zinnias can be flowered to perfection during May in a Carnation house temperature. By sowing outdoors as late as August 1st, in well-enriched soil and protected with water, they can be had in fine shape right up to frost. To bring out their wonderful colors calls for long sunny days. For this reason they are not profitable as a mid-winter greenhouse crop. Don't overlook the margin in growing Zinnia seedlings for home gardeners. They are liable to become drawn and hardened in pots—better and more easily grown by broadcasting in an open bed.

- Dahlia-Flowered Class.** Generally accepted as the largest and finest of the Giants. They improve the Giant Mammoth in being more incurved and rounded, though not entirely true to this type.
 - Canary Bird.** A rich primrose-yellow.
 - Crimson Monarch.** Large crimson-red.
 - Dream.** A fine deep lavender.
 - Eldorado.** Salmon-apricot.
 - ***Exquisite.** Fairly deep rose. Valuable for cutting.
 - Giant Attraction.** Brick red.
 - ***Golden Dawn.** Golden yellow, dark center.
 - Golden State.** Rich orange-yellow.
 - Illumination.** Deep rose-pink.
 - Lemon Beauty.** Light lemon yellow, turning russet as it ages.
 - Luminosa.** Bright deep pink with a suffusion of salmon.
 - Meteor.** Clear deep rose.
 - Old Gold.** Deep and lighter shades of old gold.
 - Old Rose.** Real old rose color.
 - ***Oriole.** Orange and gold, excellent.
 - Polar Bear.** Large white.
 - Purple Prince.** Large deep purple.
 - Scarlet Flame.** Well named, glowing color.
 - Youth.** A beautiful soft rose self.

"LILIPUT" ZINNIAS PROVIDE DAINTY CUT FLOWERS

A PAGE OF ZINNIAS

GIANT MAMMOTH TYPE

Size and general effect of this class closely approaches the Dahlia-flowered, the difference being in a flat or imbricated placement of the petals. A very popular class of Giant Zinnias.

Brightness. Bright deep rose.

Cerise Queen. Choice cerise-rose.

Daffodil. Bright canary yellow resembling Narcissus King Alfred in color. Very fine.

Enchantress. Light rose, deep rose center.

Golden Queen (Lemon Queen). Same color as Golden Dawn.

Grenadier. Same color as Dahlia-flowered Crimson Monarch.

Lavender Queen. Same as Dream in the Dahlia-flowered class.

Miss Willmott. Medium light pink, nice soft shade.

Orange King. Similar in color to our Ball Orange Calendula.

Orange Queen. Golden orange.

Pink Profusion. Light pink shade, lighter than Miss Willmott.

Purity. A very clean white.

Rose Queen. Bright rose, deeper and brighter than Brightness.

Salmon Queen. Salmon rose.

Scarlet Queen. Best real scarlet in this group.

Violet Queen. Same color as Purple Prince in Dahlia-flowered.

Prices, Separate Colors: Tr. Pkt. 20c ¼ oz. 30c

½ oz. 60c Oz. \$1.00 Lb. \$11.00

SPECIAL OFFER: One trade packet each of the above 12 varieties for \$2.00.

MIXED. A mixture of all Giant Mammoth type.

Tr. Pkt. 15c ¼ oz. 30c ½ oz. 50c Oz. 85c Lb. . . . \$10.00

ZINNIA ELEGANS PUMILA DWARF DOUBLE (Cut and Come Again)

A most desirable type for bedding as well as cut flowers, and desirable for growing in greenhouse or under cloth, particularly the variety "Salmon Rose."

Canary-Yellow.

Fire Ball. Very bright scarlet.

***Salmon-Rose.** Extra choice for cut flowers.

Golden Orange.

Each, Separate Colors: Tr. Pkt. 15c Oz. 50c

Mixed. All colors. Tr. Pkt. 15c Oz. 50c

ZINNIA PUMILA DWARF DOUBLE SPUN GOLD—Bodger

Spun Gold is one of the delightful, soft pastel shades so much in demand at the present time. The flowers, which are medium-sized, 2½ to 3 inches in diameter, are ideal for cut flower use. The soft yellow combines beautifully with lavender, blue or pink shades for a soft treatment, or with the brighter reds and orange shades for contrast. The plants, which are neat in habit, grow 12 to 18 inches in height with strong stems of medium length, and are unusually free flowering. The common name for this type, Cut and Come Again, gives an idea of the free blooming habit. The more flowers picked, the more will be produced. The strain is early blooming, producing flowers about 45 days after planting.

Tr. Pkt. 25c Oz. 75c ¼ lb. \$2.50

Colossal or New Giants. Not recommended. "Dahlia Flowered" or "Giant Mammoth" types are much preferable.

LILLIPUT ZINNIAS

Lilliput or Pompon Class. Have obtained the greatest favor for cut flowers—especially the variety "Salmon Gem." They fit in extremely well for small vase decoration and cut flower work generally. Flowers about size of a large button type Pompon 'Mum. Highly effective for cut flower work, especially nice when the stems are lengthened under glass or cloth houses.

Canary Gem.

Crimson Gem.

Purple Gem.

Golden Gem.

***Salmon Gem.**

Scarlet Gem.

White Gem.

***Rosebud.** Clear deep rose-pink.

This neat little Pompon type is, we believe, the most valuable one for cut flower work. Either cloth or greenhouse protection is necessary to draw out the stems. Such protection seems to reduce the size of the Giants while it increases some that of the Pompons.

***Valencia.** Attractive burnt orange.

Each, Separate Colors: Tr. Pkt. . . 15c ¼ oz. . . 25c Oz. . . 75c Lb. . . \$8.00
(Combination of varieties to make up pound, at lb. rate).

Mixed, All Colors: Tr. Pkt. . . 15c ½ oz. . . 40c Oz. . . 60c Lb. . . \$7.50

SPECIAL OFFER: Trade packet of each of the 9 Lilliput varieties for \$1.10.

MISCELLANEOUS TYPES

ZINNIA NEW FANTASY MIXTURE

AWARD OF MERIT WINNER

OF 1935 ALL AMERICA SELECTIONS

Fantasy is the most fascinating new Zinnia type introduced to the flower world for many years. The very informal, shaggy appearing flowers are graceful and interesting, quite distinct from the stiff, formal Zinnias to which we are accustomed. The rounded medium sized flowers are composed of a mass of shaggy ray-like petals which give a delicate and refined appearance, large enough to satisfy the desire for mass color, yet small enough to lend themselves gracefully to flower arrangement. The color range includes the brightest shades of reds, yellow and orange, as well as the popular pastel pinks and cream.

Fantasy, Star Dust. Rich deep golden yellow with the same shaggy petaled formation in the mixture.

Tr. Pkt. 35c ¼ oz. 60c Oz. \$1.75

***Haageana Hybrids.** An especially valuable class for bedding. Very free flowering, compact growth. Small semi-double flowers that have some value for cutting. Attractive colors.

Tr. Pkt. 25c ½ oz. 80c Oz. \$1.50

Scabious-Flowered. Fairly tall and long-stemmed variety, with flower formation resembling Scabiosa. Comes 50 per cent true to this type.

Tr. Pkt. 20c ¼ oz. 50c Oz. \$1.75

GRACILLIMA (Red Riding Hood)

Miniature bright crimson flowers about half the size of Lilliputs. 1 foot high, splendid for bedding. Tr. Pkt. . . . 15c ½ oz. . . . 30c Oz. . . . 75c

EARLY WONDER

A new race of dwarf, early flowering Zinnias, producing masses of Pumila type flowers on long nearly leafless stems.

Tr. Pkt. ¼ oz. Oz.

Fiery Salmon Cerise Pink \$0.25 \$0.50 \$1.75

Rose Pink25 .50 1.75

Finest Mixed25 .50 1.75

Gypsy (New). Burnished orange25 .50 1.75

CUPID

Small button-like flowers, dwarf, 1 foot, well formed plants. At the 1937 F. T. D. Convention, Philadelphia, Pa., these miniature Zinnias combined with Feathery Red Celosia were used for rather effective corsages.

Pixie, Bright Yellow, Tiny Tim, Rich Scarlet, Snow Drop, Pure White, Finest Mixed. Each of above:

Tr. Pkt. 25c ¼ oz. 50c Oz. \$1.50

LILLIPUT "TOM THUMB" MIXTURE

4 to 6 inches. Desirable for rock gardens, pot plants and bedding. A good range of colors. Mixed. Tr. Pkt. 25c Oz. \$1.25

Picotee Delight Type. A fairly tall growth and attractive flower formation, curled or ruffled petals, makes this class well suited to cut flower uses. Comes fairly true to flower type. Tr. Pkt. ¼ oz. Oz.

Golden Ray (New). Golden orange with brick-red markings \$0.25 \$0.40 \$1.35

Salmon-Rose. Attractively shaded light to dark salmon-pink25 .40 1.35

Mixed. A good mixture20 .35 1.25

Crown o' Gold Type. A distinctive class, base of each petal shaded light or yellow, while carrying out the individual flower color from the base coloring to the tip. Tr. Pkt. ¼ oz. Oz.

***Desert Gold.** A highly attractive yellow, the light and darker shading contrasting effectively \$0.25 \$0.40 \$1.50

Mixed. An attractive mixture of cut flower colors25 .30 1.00

ZINNIA LINEARIS

The most unusual and interesting of the newer Zinnias is the little dwarf variety, Linearis. The flowers, which are single, are a lovely shade of golden orange, with a delicate lemon yellow stripe through each petal, while the center is dark brown in the young flowers, turning golden orange as the pollen develops. It is extremely early blooming, commencing to flower when the plants are about 6 inches tall and keeping on right through the season until the late frosts of autumn. Tr. Pkt. 25c Oz. \$2.50

Diener's "Ventura" Tomato—New Blight-Resisting
(See Next Page)

Grow VEGETABLE Plants For Home Garden Trade

A. B. C. "SUPREME" QUALITY VEGETABLE SEEDS

Numerous florist-growers throughout the United States annually realize a handsome profit in the supplying of vegetable plants to their home garden customers; especially tomato plants, for which there is usually a large demand in suburban sections and the smaller towns. Take advantage of this opportunity to increase your spring sales. Our list of varieties is such as are best adapted to home garden culture; however, we can supply all desirable sorts of vegetable seeds in commerce and at market prices. Send us your list of needs and be assured that you will receive the same high grade as we supply in florists' flower seeds.

NOTE: Where not otherwise quoted, we supply 1/2 oz. at ounce rate.

SPECIAL NOTE: In the event that you do not find in our listing of VEGETABLE SEEDS the desired kinds we will be glad to supply such, if obtainable and at market price.—A. B. C.

TOMATO**

"VENTURA"
(Diener's Description)
"Ventura" is the most perfect Tomato produced so far, as it is very early. The fruit is as smooth as an apple, having a weight of four to eight ounces. Its flesh is of a fine tomato color and is very solid when ripe, so much so that it keeps solid for several weeks without spoiling or rotting, being immune from Fungi. It can be shipped in a ripe condition to very long distances. "Ventura" has a very delicious taste, it being a seedling of the Diener

tomato, which is known for its wonderful flavor when canned. It is extremely free bearing.

(Prices on Grass Seed Subject to Market Changes)

A. B. C. "Supreme" Quality Miscellaneous Spring Bulbs

TUBEROUS-ROOTED BEGONIAS "True Belgian Strain"

For Pot Plants and Bedding. Also the Double Forms are desirable as cutflowers (the stems to be wired).

An early-flowered batch of the showy Tuberous-Rooted Begonias will always be appreciated. And as the tubers are offered either in separate colors or in mixture at reasonable rates, there is no reason why every country florist doing a retail business should not handle a few of them. Both double and single-flowered types may be had. The tubers when received may either be potted at once in a mixture of loam, extremely old manure and sand or placed in peat moss on a bench and lightly sprayed until the top growth and roots start. Usually 4-inch pots will answer well for the tubers, although if larger plants are desired, they can later be given a shift.

These Begonias will grow better if kept fairly warm at this season, 55 degrees at night not being too much. Avoid wetting the foliage as much as possible, and later in the season, as the sun grows in power, some shading during the hottest part of the day will prove beneficial. Not only are the large-flowered Begonias useful as potted plants, but later they are excellent to plant in window or porch boxes where there is considerable shade, as well as for bedding out in positions that are so shady other bedding plants will flower little if at all.

Florists on the West Coast recently found a profitable outlet for Double Tuberous Begonia blooms by utilizing them for corsages and table decoration (the stems being wired). This new fashion is now sweeping the country, the flowers commanding a price on a par with that of Orchids and Gardenias.

Amaryllis, Giant American Hybrid

AMARYLLIS

Giant American Hybrids

The value of Amaryllis depends on the quality of the strain. We buy our bulbs from several sources of known reputation and mix these strains ourselves, thus making certain that you get the best obtainable. Every bulb we ship is of flowering size and many produce more than one flowering stem.

Strong Northern Texas Grown—True to Name Large Flowering Cannas

DORMANT ROOTS, 3 to 5 Eyes

Ambassador. Brilliant red, bronze foliage; 4 feet.
A distinguished looking Canna. Flowers vivid cherry-red; has luxurious tropical foliage prettily bronzed and makes a splendid color contrast with its brilliant blossoms.

City of Portland. Deep pink. Green foliage. 3½ feet. Extra good flower. Does not fade.

Hungaria. 3½ feet. La France pink.

King Midas. Clear yellow, green foliage. The finest and largest yellow Canna in existence.

Mrs. Alfred Conard. One of the very best Cannas in commerce today. Large, exquisitely shaded salmon-pink flowers are produced in great abundance on robust, upright stalks. We consider this as superior to all pink flowered Cannas. 4 feet.

King Humbert. This remarkable Gold Medal Canna has been the sensation of the past ten years and is the greatest favorite today. Handsome, broad, tropical foliage. Scarlet flowers; bronze leaves. 4 feet.

Yellow King Humbert. 4 feet. An orchid-flowering sport of the well-known King Humbert. Flower a deep, rich yellow, softly spotted and blotched with bright red. Some plants occasionally give a scarlet or scarlet striped flower, which we consider an improvement rather than a detriment. Green foliage.

The President. 4 feet. This immense new flaming scarlet has come into wider use more quickly than any other Canna. The President leads the red varieties in the quality and also the quantity of its bloom. The foliage is rich green and burn-proof in the hottest weather.

All the following varieties offered at the special low price of: 100.....\$4.00 1000.....\$32.00

Golden Standard, "C." One of the best novelties to date. Large bronze cactus on perfect stems. Profuse early bloomer and wonderful keeper when cut.	.75	8.00	...

Large Flowering Types Cont. Page 56

"Easter Greeting"

A Very Worth-While New Cut Flower Dahlia

This wonderful Dahlia is a cactus type, dwarf compact grower, literally covering itself with a glistening white bloom. We have grown this for two summers and are well pleased with it. "Easter Greetings" is a very profitable variety to plant in the open ground for cut flowers throughout the summer. It is an early flowering variety, in bloom with us three or four weeks before any other Dahlia, which makes it profitable from a commercial standpoint, due to its long blooming period.

Offered in 2½-inch Pot Plants only. Delivery beginning April 15, 1938.

Price per 100...\$20.00 Per 1000...\$190.00
NOTE: Large flowering Dahlias continued on next page.

NOTE: ALL DAHLIAS OFFERED (WITH EXCEPTION OF "EASTER GREETING") ARE STRONG ROOT "DIVISIONS" READY FOR PLANTING

Temperature for Forcing Gladiolus

The best temperature is carnation house temperature (50° to 52° F.) Cooler temperatures to start with are satisfactory, as the Gladiolus starts slowly and will not take kindly to any increase in heat before the bud shows, except the natural increase in heat which the sun gives during bright winter days and in spring.

PICARDY

Picardy has proved to be the most outstanding cut flower Gladiolus introduced in the past decade and this very worthwhile variety has created no end of unusually favorable comment from the trade and public as well.

	Per 100	Per 1000
1 1/2 inch and up.....	\$2.10	\$16.00
1 1/4 inch and up.....	1.80	13.00

IMPORTANT to the Forcer

Please bear in mind the fact that Gladiolus Bulbs which we supply for forcing under glass have been especially cultured and are scientifically treated for that purpose. Under reasonably normal conditions growers should obtain worthwhile results from such stock.

FORCING GLADIOLUS

The care of the Gladiolus after they are started is very simple. Clean culture and careful attention to watering, and caution in not trying to hurry with additional heat is about all that need be mentioned. Exact timing of gladiolus is not practical, but they have a special merit as a cash crop for planting any time between January 15th and March 30th.

Gladiolus planted in March will come into bloom in a less number of days than those planted in January. Late January planted bulbs, on an average, will require about 115 to 120 days to come into bloom. Late February plantings will require about 90 to 100 days. Often the same variety of bulbs planted January 15th to February 15th will come into bloom about the same time. The percentage of blindness is greatly increased in the early plantings. For this reason, it is unwise to plant before January 15th. The use of electric light mornings and evenings will not cost more than additional heat and will hasten flowers and help prevent blindness.

Do not rely on any one variety as it has been proven that with the Gladiolus the very one that does the best one year may prove disappointing another, so it is best to have several varieties. It is also wise to treat the bulbs before planting with corrosive sublimate. The standard formula is 1 ounce to 8 gallons of water. Wooden or earthenware containers only can be used. Bulbs should be left in solution 2 to 3 hours and dried off somewhat before planting.

LILIUM CANDIDUM ("Madonna Lily")

Delivery September

Imported French Grown

Note! Liliium Candidum is nowadays primarily planted outdoors, bulbs being set soon after their arrival from France. (Cover them not more than 2 inches.) In days gone by, Liliium Candidum was largely cultured under glass, although this plan is still followed to some extent. However, they must be grown cool, never more than 55 degrees at night. Liliium Candidum and Delphinium Belladonna bloom at the same period outdoors and provide a most "happy combination."

LILIUM RUBRUM (MAGNIFICUM) IS NOW CULTURED BY MANY GROWERS THE YEAR AROUND

A. B. C. LILY HEADQUARTERS

A. B. C. "Supreme" Quality Valley Pips LILY-OF-THE-VALLEY PIPS

Re-selected Exhibition German Pips

A. B. C. "Supreme" Quality Lily-of-the-Valley is, we believe, too well known to require any commendation on our part. 100.....\$5.00 250.....\$11.00 500.....\$21.00 1,000.....\$40.00 Valley Pips from cold storage. For immediate delivery. Besides its cut flower worth, Lily-of-the-Valley has an important sales value in the merchandising of Pips to the public for planting in various receptacles. Can be bloomed inside of four weeks' time in moss, sand or soil. A few started Pips, 12 or so, in a fancy bowl, displayed in your store will, no doubt, create interest among your customers, especially so when you demonstrate their ease of culture and the short period required to bring them into bloom. (Prices on application.)

LILY-OF-THE-VALLEY CLUMPS

For Outdoor Culture

A permanent investment for your "Garden Planter" customers. Dozen.....\$3.00 100.....\$20.00

HARDY LILIAM TENUIFOLIUM

This most desirable narrow-leaved slender Lily grows about 18 inches high, producing pendulous flowers somewhat resembling miniature Lilium Rubrum, and are brilliant scarlet, flowering outdoors in June. They should be planted about 4 inches deep and 3 inches apart.

For under-glass culture they can be planted in a Darwin tulip bulb pan, set 4 inches deep, since they are a stem rooting type. They come into bloom in approximately 14 weeks. Also, owing to their slender stems and fine, narrow foliage, Lilium Tenuifolium can be planted between carnations right in the benches.

Bulbs of Lilium Tenuifolium are now obtainable at a low price, and we believe that florists will find them profitable, especially growers who operate in conjunction a retail store, as they are exceptional for basket work, etc.

PRICES: Strong blooming bulbs — 100.....\$7.00 1000.....\$60.00

Write for special price on quantity.

LILIAM TENUIFOLIUM. AN EXCELLENT CUT FLOWER — ALSO DESIRABLE AS A POT PLANT

LILIAM BATEMANNAE

This excellent species is one of the very best of the upright flowered Lilies, having flowers of rich apricot, unspotted and with gracefully recurring petals. Blooms in the open during August. Plant 6 inches deep; provides desirable cut flowers under glass. Per doz.....\$1.70 Per 100.....\$11.00

LILIAM HANSONI

A choice Korean species bearing many handsome yellow flowers with thick petals. It is very hardy and easily grown but should be planted in partial shade. Plant 6 inches deep. Height, 3 to 4 feet. Blooms in the open. Succeeds well under greenhouse culture.

PLANTING TABLE FOR COLD STORAGE LILIUM GIGANTEUM ... AND FLOWERING DATES

PLANTING DATE		FLOWERING DATE	
January 1st	May 15th	April 15th to 25th	August 20th
January 15th	June 1st	April 25th to May 5th	September 1st
February 1st	June 15th	May 15th to 30th	September 15th
February 15th	July 1st	June 1st to 10th	October 1st
March 1st	July 15th	June 10th to 30th	October 15th
March 15th	August 1st	July 1st to 10th	November 1st
April 1st	September 1st	July 15th to 30th	November 25th
April 15th	September 15th	August 1st	December 15th to 25th
May 1st	October 1st	August 10th	January 1st to 10th

Lilium Speciosum Rubrum "Magnificum" planted on the above named dates will take six to eight weeks longer to flower than Lilium Giganteum.

Lilium Rubrum "Magnificum" should be planted June 15th to July 1st to flower for Christmas.

The above, however, are all approximate flowering dates. If extremely warm weather exists meantime they may flower a week earlier. It largely depends on weather conditions.—A. B. C.

COLD STORAGE GIGANTEUM ARE COMPARATIVELY SCARCE THIS YEAR. ORDER EARLY FOR SHIPMENT WHEN DESIRED.

The Regale Lily

THE REGALE LILY

Desirable for both pot and out-door culture. Some growers have found this exceptional Lily to be profitable for Easter sales. Grown 3 to 6 plants in a suitable pan.

LILIUM PHILIPPINENSE FORMOSANUM

A distinct Lily of refined and graceful appearance, with long, grassy foliage and exquisitely shaped long, wide-mouthed trumpet flowers of the purest white, slightly colored externally with reddish brown. This outside coloration fades as the flower matures. Blooms September. Height, 3 to 6 feet. Plant 8 inches deep.

Per doz.....\$1.25 Per 100.....\$9.00

Cultural Directions—These Primulas will be shipped the first part of January. They should be immediately potted in 4-inch pots and placed in a cold house 34 to 40 degrees and kept moist. The first of February they should be transferred to warmer temperature, 45 to 50 degrees. The soil should never be allowed to dry out; instead, it should be kept moist continuously. These Hardy Primroses will flower to perfection from the 15th of February on and will sell themselves.

PELARGONIUM

"Azalea." Rosy red. Two upper petals darker with blotches and lighter colored lower petals. Free bloomer and very large flowers and clusters. Strong grower. A great favorite with the trade. 2-inch. Per 100.....\$10.00 (If interested in other varieties of Pelargoniums, please write for our special list).

PHILODENDRON, "SILVER SHEEN", A MOST DESIRABLE PLANT FOR RETAIL SALES.

Begonia "Marjorie Gibbs"

BEGONIAS

"Marjorie Gibbs," "Melior" and "Lady Mac." Produced by a specialist. 2 1/4-inch plants for delivery May-June, 1938. Prices on application. Early orders advisable, especially for "Marjorie Gibbs".

The New Double Begonia "Westport Beauty"

A new, outstanding Begonia of semperflorens type, with perfectly double flowers which do not drop.

The large rose-pink flowers are carried in graceful clusters of eight or ten, and are produced in great profusion.

The result of a cross between Begonia multiflora and Begonia semperflorens, "Westport Beauty" is practically ever-blooming. A well-flowered plant may be had in a three-inch pot, while by keeping the buds picked off, it can be grown to six-inch size.

Making an exceptionally pretty pot plant, of easy culture, it will prove invaluable for holiday sales, especially for Mother's Day.

As a bedding plant, "Westport Beauty" tops all other Begonias.

Easily propagated by cuttings, it grows rapidly with no more care than required by bedding Begonias.

Awarded: Certificate of Merit at The Chelsea Show, England, May, 1936.

First Prize at the Dresden Exposition, Germany, 1936.

Price—2 1/2-inch pot plants.

Per 25.....\$6.00 Per 50.....\$10.00 Per 100.....\$20.00

FICUS ELASTICA "RUBBER PLANTS"

Strong, moss rooted cuttings. This desirable house plant is again coming into favor with the public. (Price on application.)

PHILODENDRON "SILVER SHEEN"

A climbing genus that has been taken up by the florists' trade in a large way, since this plant adapts itself unusually well to the unnatural conditions of the average home better than most any other plant. A very large demand has ensued from the public. It is particularly suitable for sun parlor decoration, but does equally well in any part of the house, even in comparatively dark situations. Can be grown successfully in pots or hanging baskets, but seems particularly "happy" in wall pockets. "Silversheen" is a keen improvement over the green-leaved variety "Cordatum", grown in the manner indicated opposite it provides a wonderful and lasting "show plant" for your retail show window decoration, and the smaller plants find a ready sale to the public.

Hardy Perennial Plants for The Florist

NURSERYMAN AND SEEDSMAN

Quality Supreme

For many years we have maintained our connections with one of the largest perennial growers, who specializes in growing superior quality plants. During these years we kept close watch of the types that are best suited for the florists, either for planting outdoors for summer cut flower purposes or the proper plants established and cured for forcing purposes.

ASTER FRIKARTI

(Wonder of Staffa)

Lavender-blue flowers from 2 to 2½ inches across, produced from June 1st until the middle of November. Does exceedingly well in light shade and comes to perfection in full sun. A constant rich display of flowers is kept up the entire summer. Flowers are excellent for cutting. For spring, well established 2-inch pots. Per 10.....\$2.25 Per 100.....\$18.00

ARTEMESIA "Silver King"

Unquestionably one of the best all around decorative plants. Its bright silver-colored stems and foliage are of great value as a filler for bouquets, sprays, baskets, or all sorts of floral pieces. By cutting and drying the stems it is very valuable in the winter for filler. It is a showy plant in the perennial border or among shrubbery. Height, 30 inches. Per 10.....\$1.00 Per 100.....\$7.00

CHRYSANTHEMUMS

(New Early Korean Hybrids)

The striking features of this set of Koreans is that they flower about two weeks earlier, the range of colors is entirely different and many of them are semi-double. These are very beautiful outdoors in early fall. They can also be developed to make beautiful flowering pot plants for your fall sales.

When you receive our well established 2-inch pot plants they should be shifted into larger pots and pinched. A little later on in the summer they should be pinched again and re-shifted to larger pots. With this method you will develop mammoth plants; many of them will carry five to six hundred flowers to a large pot. Our customers who have developed these in pots for their last fall's trade state that they never in their history in the business saw anything like it and they realized good profits.

Clio. Dwarf compact plant of pleasing habit, producing masses of deep carmine rose duplex flowers.

CHRYSANTHEMUMS (Continued)

Fortuna. Very vigorous plant of medium height and covered with unique curly petaled ox-blood flowers 3 to 4 inches in diameter. Very striking.

Hestia. The nicely formed semi-double flowers are very freely produced on compact bushy plants of medium height. The color is a very delicate rose pink with a white halo around the small yellow disc.

Juno. Very dwarf compact plant, producing an abundance of single flowers opening a coppery red, and fading with age to a salmon flesh.

Niobe. A vigorous, healthy plant of dwarf compact habit. Flowers over 2½ inches in diameter, of a clear glistening white with yellow disc are freely produced, fully covering the plant.

Nysa. A large rather tall upright plant growing 2½ to 3 feet in height and producing a great abundance of single flowers 3 inches in diameter. The color is a very clear rosy lilac.

Psyche. Very dainty 4 to 5 inch single blooms are produced with wiry stems on strong healthy plants of medium height. Color, a clear, lively shell pink.

Sappho. Compact, dwarf plant covered with good sized pure yellow single flowers.

Thalia. A compact bushy plant growing 18 to 24 inches in height. The duplex flowers are of a lively orange shade and excellent form.

Vesta. A plant of medium height and great vigor, literally covered with flowers over 2½ inches in diameter, of a deep golden orange shade, almost a duplex.

All of the above varieties, strong established 2 inch pot plants ready for shipment from the 15th of March on.

Per 10.....\$1.50 Per 100.....\$12.00

NOTE: We have a most complete line of Hardy Chrysanthemums, really up-to-date kinds, supplied from 2-inch plants, at reasonable prices. Write for Free Detailed List. Ready February 15, 1938.

Delphinium "Blackmore and Langdon Hybrid"
Forced in a 9-in. Pot.

For forcing we supply specially treated Delphinium Belladonna and Bellamosum.

DAISY "Double White Swan"

Pure white double flowers on strong wiry stems 24 to 30 inches in length, in bloom for Memorial Day. It is unquestionably the best double cut flower variety for florists cut flower purposes in existence today. For best results outdoors we recommend early spring planting. In addition to the outdoor cut flower value, this plant is also excellent for forcing. Within the last three years there were large quantities of this variety forced in various sections of the country and we have received wonderful reports. The good strong field grown clumps produce quantities of very desirable double white Pyrethrum-like flowers of good size, which find a very lively demand. For forcing, strong selected field grown clumps: Per 10.....\$2.00 Per 100.....\$15.00

DELPHINIUM

Delphinium Belladonna. The most continuous blooming of all, never being out of bloom from June first until cut down by hard frost. The clear turquoise blue of its flowers is not equalled for delicacy and beauty by any other flowers.

BUDDLEIAS "CHARMING" AND "HARTWEGI" PROVIDE EXCEPTIONAL CUT FLOWERS. (SEE INSIDE BACK COVER).

Hardy Perennial Plants for The Florist (Continued)

NEW HARDY CHRYSANTHEMUM

"Achievement"

New Chrysanthemum "Achievement"

DELPHINIUM BELLADONNA (Continued)

2-year field grown, especially selected for forcing: Per 10...\$1.50 Per 100...\$12.00
 1-year field grown, especially selected for forcing. Per 10...\$1.25 Per 100...\$8.00
 1-year field grown, suitable for outdoor planting for cut flower purposes.
 Per 10...\$1.00 Per 100...\$7.00

Delphinium Bellamosum. This is a dark blue form of the popular light blue Belladonna, with which it is identical in habit and growth, freedom of bloom, but with intensely rich, deep blue flowers. 2-year field grown, especially selected for forcing:

Per 10...\$1.50 Per 100...\$12.00
 1-year field grown, especially selected for forcing:
 Per 10...\$1.25 Per 100...\$8.00
 1-year field grown, suitable for outdoor planting for cut flower purposes.
 Per 10...\$1.00 Per 100...\$7.00

Delphinium Blackmore and Langdon Hybrids. It is still considered the leading strain of Hybrids by critical growers. Provides a range of colors well divided in the pale shades of Indigo with a strong run of the most delicate shades of rose, double and single. 2-year field grown, especially selected for forcing:

Per 10...\$2.00 Per 100...\$15.00
 1-year field grown, especially selected for forcing:
 Per 10...\$1.75 Per 100...\$12.00
 1-year field grown, suitable for outdoor planting for cut flower purposes:
 Per 10...\$1.50 Per 100...\$10.00

This variety is especially adapted for pot plants, also for an excellent showing outdoors. It has the characteristics of Amelia in its habit of growth but it is a Pompon variety, the color being a beautiful shade of bronze. It is double to the center and as it fades out it takes on a pinkish cast. This is an exceptionally early variety, the terminal buds coming into bloom September 5th, which is about 30 days ahead of Amelia or Pink Cushion. Achievement is the last word in an early flowering garden variety of Chrysanthemum and it has wonderful possibilities. It is without question the most beautiful dwarf Hardy Chrysanthemum in existence today.

Price: Per 10...\$3.00 Per 100...\$25.00 Per 1000...\$225.00

DICENTRA (Bleeding Heart)

Spectabilis. With maiden hair fern-like foliage and with graceful stems hanging full of little heart-shaped flowers, Dicentra

Spectabilis provides a most desirable pot plant for St. Valentine's Day and Easter sales. About 60 days are required to bring them into bloom. Start at 45 degrees and advance to 55 degrees. Large forcing roots: Per 100...\$25.00
 Medium forcing roots: Per 100... 20.00
 (25 at 100 rate.)

FUNKIA

Undula Variegata. Potted about February they will in a few weeks provide most attractive pot plants. The handsome white and green foliage makes this Funkia ideal for use in combination pots and boxes for Easter, etc. Per 10...\$1.50 Per 100...\$10.00

EUPATORIUM

Coelestinum (Hardy Ageratum). A fine perennial closely resembling the Ageratum, flowers a lavender blue, flowering from August to frost. A fine perennial for florists' use. 12 to 24 inches. Per 10...\$1.00 Per 100...\$7.00

GYPHOPHILA

Gypsophila Bristol Fairy. Our plants were grafted during the summer months, established in 2-inch pots, rested in cold frames and shifted to 3-inch pots the first of January. They will be in excellent condition for shipments for outdoor planting from the first of April on. The above methods of handling assure you of receiving a superior type.

Strong 3-inch pot plants: Per 10...\$2.00
 Per 100... 15.00
 Exceptionally nice field grown roots:
 Per 10...\$2.50 Per 100... 20.00

GYPHOPHILA (Continued)

Gypsophila Repens Bodgeri. This plant is enjoying an ever increasing popularity. Since it is an ever-bloomer, it is possible to cut flowers with 8 to 12 inch stems throughout the entire summer, very often when other Gypsophilas are off crop. Bodgeri is also a very pretty little border plant, producing double white flowers which later turn to shell pink. Well established 2-inch pots:
 Per 10...\$1.50 Per 100...\$12.00

Gypsophila Rosy Veil. A novelty of European introduction, similar in habit to Bodgeri, but with flowers of a somewhat more pronounced pink color. Well established 2-inch pots:
 Per 10...\$2.00 Per 100...\$15.00

HELENIUM

"Riverton Gem." Old gold suffused with bright terra cotta, changing to wall-flower red. Makes a beautiful contrast in floral pieces with other late summer flowers. Grows to a height of 3 to 4 feet and blooms from August until October.
 Per 10...\$1.50 Per 100...\$10.00

LYTHRUM

"Roseum Superbum." Bright rosy-red flowers are produced on 3-foot stems during August and September. They are very attractive when used in connection with other flowers during the late summer months.
 Per 10...\$1.50 Per 100...\$10.00

LIATRIS

"Spicata." Grows to a height of 24 to 30 inches, producing violet-red flowers on spikes from 12 to 15 inches in length. It flowers about three weeks earlier than any other Liatris. It is very attractive when used in arrangements with Delphinium Belladonna or other seasonal flowers.
 Per 10...\$1.50 Per 100...\$10.00

Hardy Perennial Plants for The Florist (Continued)

New Gypsophila "Bodgeri"

PHLOX

"Miss Lingard." Pearly white flower, with delicate pink eye. Very remarkable bloomer, producing two or three crops of flowers during the season; indispensable as a cut flower for florists' use. It is the best early White Phlox known. Strong established 2-inch pot plants: Per 10.....\$1.50 Per 100.....\$10.00

"Pink Lingard." In character this is exactly like the well known Miss Lingard. In the three years that we have grown it, we have never noticed any mildew or disease of any type attacking this wonderful new Phlox. It should be grown together with the well known white sort as it makes a wonderful companion. The flower heads are immense in size and due to its desirable shade, it blends in wonderfully well with almost anything that you may have in flower at that time. It is an excellent cut flower. 2-inch pot plants, strong established. Per 10.....\$1.50 Per 100.....\$10.00

PYRETHRUMS (Named Varieties)

Pyrethrums are too well known. Therefore, it is not necessary to go into detailed descriptions. However, we cannot help but stress the point that the real good double and semi-double varieties will be considered unusual for a long time. For cutting purposes Pyrethrums

PYRETHRUMS (Cont.)

are in a class by themselves and they are always striking in the better types of floral decorations. The following varieties are not too plentiful today. Therefore, we advise that you make early reservations. While we have fair quantities, we do not expect that we will have enough to run through the entire spring shipping season.

Buckeye. A strong grower producing large double red flowers on stems 24 to 30 inches in length. 2-inch pots:
Per 10..\$2.00 Per 100..\$15.00

Miami Queen. A strong grower producing semi-double pink flowers of a very desirable shade. 2-inch pots:
Per 10.....\$2.00 Per 100.....\$15.00

Trojan. A strong grower. A very lovely semi-double dark pink. 2-inch pots.
Per 10.....\$2.00 Per 100.....\$15.00

Huntington's Scarlet. A strong grower; the finest single scarlet with a touch of gold in the center. Due to their exceptionally large size, the flowers are very striking and attract attention. We consider this variety so outstanding that it really deserves a place among the better Pyrethrums. 2-inch pots:
Per 10.....\$2.00 Per 100.....\$15.00

Princess Margaret. A strong grower, semi-double. Anemone flowered with crested center. Color is a bright clear pink, very desirable. 2-inch pots:
Per 10.....\$2.00 Per 100.....\$15.00

Rose Glory. Strong grower, a beautiful deep rose, double of medium size. 2-inch pots:
Per 10.....\$2.00 Per 100.....\$15.00

PHYSOSTEGIA

"Grandiflora Vivid" (Tall Type). Similar in color to the well known Grandiflora Vivid except that this variety grows to a height of 30 inches. The flower spikes are also larger and the color a little more striking. It continues to bloom throughout the entire months

PHYSOSTEGIA (Continued)

of July and August. In floral arrangements this variety stands out. Due to its desirable color it blends in well with other flowers. This is really a worthwhile Physostegia.

Per 10.....\$1.50 Per 100.....\$10.00

TRITOMA

"Pfitzeri." The rich orange flowers are always in big demand on the cut flower markets. We have never known any surplus of real good Tritomas. If grown in fairly rich soil, a plant will produce several first class quality flowers. Tritomas should be included in every planting of summer cut flowers.

Per 10.....\$1.50 Per 100.....\$10.00

VERONICA

"Blue Fay." Grows to a height of 18 inches, producing light blue flower spikes on 18 inch stems. This Veronica is very attractive, due to its color, which works in wonderfully well with flowers during the month of September.

Per 10.....\$1.50 Per 100.....\$10.00

TWO VALUABLE NEW CUTFLOWER BUDDLEIAS

BUDDLEIA HARTWEGI

(A 1937 Introduction)

Buddleia vies with Delphinium for first place in the hardy cutflower perennial family. While Buddleias have always held a prominent position in the category of hardy plants, it is only since the introduction of the newer kinds of same that this valuable family has "come into its own." The two latest introductions now outshine all previous and should be cultured freely.

Buddleia Hartwegi (1937 Introduction) as a summer cutflower plant and as an ornamental lawn shrub is very worthwhile. The large, bright lavender panicles have remarkable substance and harmonize in arrangement with other summer flowers. The flowers do not "sunburn," and the tip flowers on the panicle open before the basal flowers have faded. The individual flowers are closely spaced on the panicles, imparting a compact and pleasing appearance. The foliage is very heavy and is rich dark green.

Price: 2 1/4-inch Pots, \$2.00 per 10. Per 100, \$15.00. (25 plants at 100 rate).

DREER'S NEW PINK BUTTERFLY BUSH "CHARMING"

(A 1938 Novelty)

The flowers in open sunshine are as near a pink as the Paul Neyron Rose, and they come into bloom making a solid round head, opening full length. In every way, "Charming" is a very striking Buddleia.

Under electric lights it is distinctly beautiful when used with other flowers. Due to its clear pink color, in basket work or the larger types of floral designs it can be used as the main flower and most any other small flowers can be used for trimming. It blends beautifully with practically everything. We suggest the pinching off in July of the first flower spikes showing, to aid the development of side shoots, which will bring better flowers later in the

New Cutflower Buddleia Hartwegi

season. (This also applies to Hartwegi). Price: 3-inch pot plants, Doz., \$4.00. Per 100, \$30.00. 2-inch pot plants (for lining out), per 100, \$18.00. Per 1000, \$150.00.

New Schizanthus "Mother's Favorite"

NEW SCHIZANTHUS

(Butterfly Flower)

"Mother's Favorite"

(Illustrated at the Left)

"Mother's Favorite" is "tops" as a pot plant for Mother's Day and spring sales. Also of exceptional value for cut flowers, this new strain is in a class by itself. A high temperature is not required for Schizanthus, even in the winter months. For early blooming sow August-September.

Note below what Holm & Olson, the well known retail florists and growers of St. Paul and Rochester, Minn., think of this grand, new Schizanthus "Mother's Favorite."

Rochester, Minn., June 22, 1937.

American Bulb Co., Chicago

In regard to the Schizanthus, we have grown "Mother's Favorite" very successfully as a pot plant. Seeded about the middle of January, planted in 2 1/4-inch pots, and when ready pot three in a 7-inch pan, and this makes a very fine plant for Mother's Day. These are rapidly becoming very favored by the public, as they, even under such unfavorable conditions as in a hospital, develop to the last bud and present a mass of blooms that last for weeks.

If seeded in early December they will be ready to bear April 1. I am sure it is a very valuable addition to our spring pot plants.

Very truly yours,

(Signed) HOLM & OLSON CO.,

Per H. Thompson, Mgr.

Price—Mixed Colors: Tr. Pkt. \$1.25 3 Tr. Pkts. \$3.00

CHICAGO

AMERICAN BULB CO.

NEW YORK

DEPEND ON AMERICAN BULB COMPANY FOR YOUR GLADIOLUS NEEDS

Picardy

The "Queen" of all Gladiolus

Special Note: "Picardy" is equally as valuable for forcing as outdoor culture.

"PICARDY"

The "Queen" of the Gladiolus Family

Ours is the original strain—the dark salmon-apricot color that has carried "Picardy" to the all-time top for cutflower Glads. Immense flowers on long spikes. The most amazing blooms in the flower world today, acclaimed by the trade, and public as well, as the "ideal" Gladiolus both for exhibition and cutflowers.

"CONSENSUS OF OPINION"

We Believe That the Following Expresses the Sentiment of the Trade at Large With Regard to the Queen of Gladiolus

"PICARDY"

(Excerpt from "The Florists' Review" Issue of October 21st, 1937, Entitled "Comments of a Country Florist")

"There are few greenhouse owners who do not grow at least a part of the gladioli they need. I do not know of any end of the growing game that is more fascinating. I must concede leadership in the commercial line to Picardy for a salmon pink, and probably Minuet as a lavender pink and Dr. Bennett as a good red. All over the country for two or three years now Picardy has been almost the only large salmon pink gladiolus in the market. Everybody seems to want it. Having immense spikes, with the greater part of the whole spike open at one time, it is gorgeous in the extreme."

Special low prices for True Northern Grown "Picardy" bulbs, clean and healthy:

	Per 100	Per 1000
1st size, 1½ inch and up.....	\$2.10	\$16.00
2nd size, 1¼ inch and up.....	1.80	13.00

25 bulbs at 100 rate. 250 at 1000 rate. Write for prices on quantities. When many other varieties "went begging" in various markets the past season, "Picardy" maintained a good price value.
