LILIUM LONGIFLORUM, Japan Grown

Our Japan growers are instructed to avoid early digging and give us only ripened bulbs, such as should, with reasonable care, give good results when forced under glass. While we cannot make any guarantee as to the result of forcing Lily Bulbs, our Japan growers understand this stock as well as any exporters from that country.

GIGANTEUM, Dark Stem

This variety has proven for the past three seasons to be the best of all-round Lily of the Japanese sorts for Easter forcing. A strong, robust grower, it seems to resist the Lily disease, growers seldom losing over 10 per cent. The large, long trumpet flowers are equally good for pot plant or for cut; has been successfully forced for earliest Easter, and if grown properly we see no reason why it cannot be forced for early Easter of 1911.

PRICES:

9 to 11 inch (200 to case).....	Per 100, 10 50	Per 1000, 95 00

MULTIFLORUM TYPE.

While this variety has not given perfect satisfaction the past two seasons, through mixture of type and disease, many florists prefer it for Easter forcing. We believe the decreased demand will allow our growers to be more careful in roguing their fields, and bulbs delivered this fall will be truer to type than those delivered in previous years.

LILIUM FORMOSUM.

This variety comes from islands of the Japanese coast, and has been tested by a number of growers the past season, with varied results. It makes a strong, rapid growth, and plants are more uneven in size than usual in Japan stock. This, however, we do not consider a drawback, as nearly every grower has a demand for pot plants as well as cut lilies.

So far, it has proven to be practically free from disease. Our bulbs are secured from first hands and are the best we know of.

LILIUM HARRISII, Indispensable for Early Forcing.

While we do not claim that our "Harrisii" are absolutely free from disease, or that every bulb will produce a perfect plant, we do claim that our growers' efforts, in the way of spraying and roguing, are producing results, our stock being now freer from disease than ever before, and of genuine "Harrisii" type. In fact, the best general crop grown on the Island of Bermuda.

We will supervise the packing and shipping of the crop through our own representative, thus insuring careful grading, and preventing mixture of Longiflorum and other objectionable types.

LILIUM CANDIDUM.

"THICK PETALED."

It is known to most growers of this Lily that there are two strains. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "Thick Petaled" *Candidum* variety, and they have given our customers excellent satisfaction.

NARCISSUS PAPER WHITE
GRANDIFLORA

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable, and the grade of these which we offer under the name of "Star Brand" is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading "Fancy" is a selected grade from the general stock.

- Paper White, Grandiflora, Vaughan's "Star Brand"** (about 1000 bulbs in case). Per 100, \$1.75; per 1000, \$11.00.
- Paper White, Grandiflora Fancy** (about 1250 bulbs in case). Per 100, \$1.25; per 1000, \$9.00.

- Paper White** (Totus Albus), first size. Not desirable.

DOUBLE VARIETIES

Alba Plena Odorata (The Double Poeticus). Splendid for planting outdoors for flowering during May, right up to Decoration Day. Florists can make money planting a few thousand. They thrive in any good and moderately light soil. Flowers are large and very fragrant. Not recommended for forcing. Per 100, 75c; per 1000, \$5.50.

Orange Phœnix (Eggs and Bacon), white and orange. Per 100, \$1.10; per 1000, \$9.50.

Sulphur Phœnix, white and sulphur yellow. One of the best for cutting and unexcelled for funeral work. As this bulb generally throws two to three flowers, it is a profitable variety to grow, notwithstanding the high price. Per 100, \$1.50; per 1000, \$13.00.

DOUBLE VON SION, True Dutch

We have a reputation of supplying the best "Yellow Daffodils" in America, having secured our supply for years in one locality, where it is known that these bulbs can be grown to better advantage than in any other part. We contract yearly for the stock of one large grower, and in this way secure the pick of the crop, supplying bulbs that will be equal to or better than those delivered by any other dealer. Our double-nose bulbs are especially fine, and will throw from two to three first-class flowers, especially recommended for growing in pans.

WE OFFER 4 SIZES OF VON SION

Von Sion, Mother Bulbs. We only get a limited quantity of these. The bulbs are extra large in size, and will throw three to five flowers each. Per 100, \$3.50; per 1000, \$28.00.

Von Sion, XXX Mammoth Double-Nosed Bulbs, largest and finest roots our growers can select for us. Each bulb will bring two and more flowers. Per 100, \$2.20; per 1000, \$18.50.

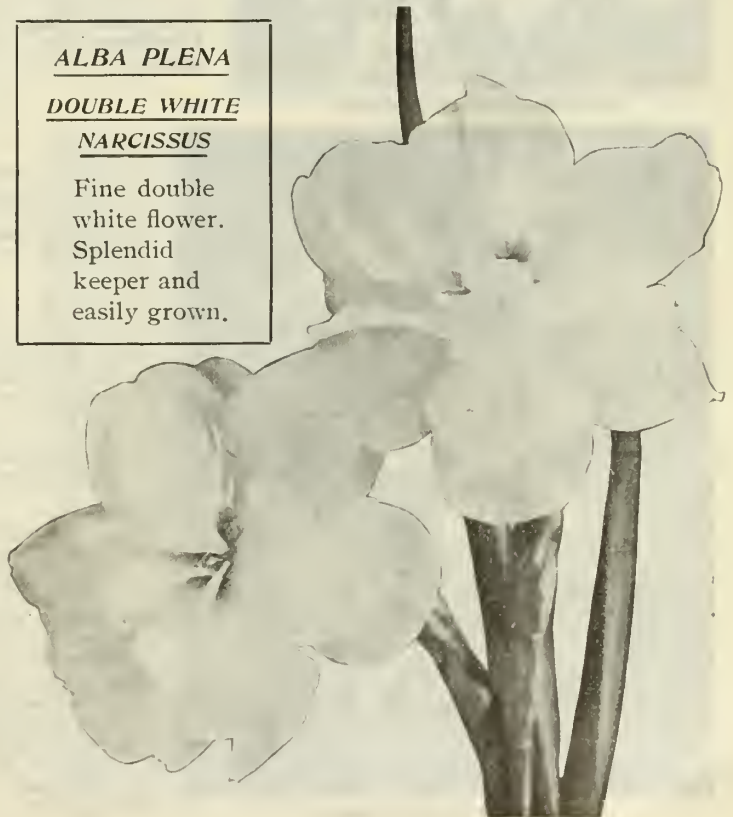

Von Sion, Fancy Selected Bulbs. Per 100, \$1.30; per 1000, \$12.00.

Von Sion, First Sized Bulbs. Per 100, \$1.00; per 1000, \$8.00.

LILY OF THE VALLEY.

In packing and grading the Lily of the Valley Pips for our trade, pips of one type and style of growth, raised on the same soil, will be branded separately so that the customer receiving a certain number and brand from us and forcing it to his satisfaction can depend on the same grade right along until sold out and will be advised by us when the grade is changed. This we believe will be much more satisfactory to the forcer than the former indiscriminate method of delivering all kinds and shapes of Valley under one brand, the planter never knowing what kind of a pip would open up in the next case received.

VAUGHAN'S LONDON MARKET BRAND.

We introduced this select forcing pip to our Florist customers some years ago and it has given excellent satisfaction. The pips are large and plump with long fibrous roots. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited. Per 100, \$1.75; per 1,000, \$14.00; per case of 2,500, \$34.40; per 5,000, \$67.50.

PREMIUM BRAND.

This is a high grade pip for late forcing and should not be compared with regular Hamburg stock offered at much lower prices. Per 100, \$1.50; per 1,000, \$12.00; per case of 2,500, \$29.40; per 5,000, \$57.50.

INTERNATIONAL BRAND.

This is a good every day forcing Valley Pip, Hamburg grown, first size. Per 100, \$1.25; per 1,000, \$10.00; per case of 2,500, \$24.40; per 5,000, \$47.00.

COLD STORAGE VALLEY PIPS.

SHIPMENT FROM NEW YORK ONLY
Our stock in Chicago being exhausted.

Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and plenty of foliage.

When orders are placed with us for cold storage stock, we set same aside, but can not be responsible for not being able to produce the pips if same have been destroyed by fire or any other cause beyond our control. We accept no responsibility whatsoever for results in forcing.

SPIRAEA.

We are very careful to import good large Spiraea clumps which have large, plump eyes, as these are the only kind that will give satisfaction when forced.

NEW PINK SPIRAEA, QUEEN ALEXANDRA.

Entirely new departure in Spiraeas introduced three years ago for the first time. Of a clear pink color with dense compact spikes, the plants are most attractive and equally as strong and vigorous as the white varieties. One of the most interesting novelties of recent years. Per doz., \$2.00; per 100, \$12.00. In New York, per doz., \$1.80; per 100, \$11.50.

ASTILBOIDES FLORIBUNDA.—New, strong and more developed than the common Astilboides, from which it is a sport, produces large, pure white plumes and is unquestionably one of the best Spiraeas. Per doz., 90c; 100, \$6.50; in New York, doz., 85c; 100, \$6.00.

ASTILBOIDES SUPERBE.—A splendid new variety which makes a beautiful shaped plant with abundant flowers (20 to 30 on a good plant) on strong stalks. Per doz., 95c; 100, \$7.00; in New York, doz., 90c; per 100, \$6.50.

BLONDIN.—One of the best varieties for Easter. Per doz., 90c; 100, \$6.50; in New York, doz., 85c; 100, \$6.00.

COMPACTA MULTIFLORA.—Grows from 6 to 10 inches in height, and produces larger and finer plumes than Japonica. It is about two weeks earlier. Per doz., 85c; 100, \$6.00; in New York, doz., 75c; 100, \$5.50.

GLADSTONE.—Without question one of the best "Spiraea" on the market. Make a healthy, vigorous plant with spikes of flower borne well above the foliage. Order early, as supply for past 2 years has been very short. Per doz., \$1.30; 100, \$9.00; in New York, doz., \$1.25; 100, \$8.50.

JAPONICA.—Extra strong clumps. Per doz., 75c; 100, \$5.00; in New York, doz., 65c; 100, \$4.50.

Auburn, Wash.—The first lot of Valley, planted April 1st, is just coming into bloom, and would like to say that these are the finest we have ever grown.

The most valuable Nephrolepis of the Ostrich Plume type. Not only is it of dwarfier and more compact habit than the N. Elegantissima, but the pinnae being more deeply divided give the plant a much more graceful appearance.

VAUGHAN'S CUT FLOWER MIXTURE

This mixture is put up by ourselves and contains mostly light colored sorts. Pansies are as easily grown as violets, require less care and bring better returns. Trade pkt 50c, 1/4 oz \$1.00, 1/2 oz \$2.00, oz \$8.00.

VAUGHAN'S "GIANT PANSY MIXTURE"

Embraces besides all the separate shades and colors, five special strains not listed elsewhere, and which can only be had in this and our International mixture. VAUGHAN'S INTERNATIONAL PANSIES

THE WORLD'S BEST.

Vaughan's International Pansy Mixture was first prepared and offered by us in 1859. We import from all the best European sources, and personally inspected the fields of French and German specialists of their finest strains. These with the best American types made up the collection. Each year has added to the quality of its flowers the variety of its colors. We buy every year novelties of known merit to improve the mixture. This is the reason it is always complete, always the latest and always the best mixture as we believe. We add to all the Pansy Mixtures which we now buy more than fifty per cent of the choicest named kinds obtainable, each in rightful proportion. We thus know what it will produce. This is one of the specialties which has established and held the reputation of Vaughan's Flower Seeds, and this is one which we maintain most carefully, not alone as to quality, but in vitality and germination. You are beginning right in Pansy growing when you start with Vaughan's International Mixture. Trade pkt 50c, 1/4 oz \$1.50, 1/2 oz \$5.00, oz \$10.00.

SWEET PEAS

If sweet peas are wanted for Christmas, sow the seed in well ventilated houses, not before August 15th nor after August 25th. This sowing will bloom from November 1st until April. For the main crop in January or February, sow about September 15th. If the best sweet pea flowers are wanted for Easter (April 16th, in 1911), sow the first part of November.

WINTER FLOWERING SWEET PEAS

New Seed Ready in August

MASTICA for glazing greenhouses.

The use of "Mastica" avoids the necessity of repeatedly re-glazing the houses, saving much time and expense. With "Mastica" can be used in or use outside with a machine. Broken glass can be easily removed and replaced by new without the breakage of other glass, which usually occurs with hard putty. One gallon will cover about 290 running feet (one side). Price, Per gal., \$1.25; 6 gals., \$7.00; 10 gals., \$11.25; 22 gals., \$23.40.

MASTICA MACHINE. Each, \$1.25; 5 for \$5.50.

GLAZING PUTTY. Twemlow's Old English.

By using this putty, greenhouses can be glazed in half the time and for less money than if ordinary putty is used. It will take five gallons to glaze a house 100x20 feet at a cost of \$6.00, against 200 lbs. ordinary putty which will cost about \$7.00. Being semi-liquid it can be put on with an ordinary putty bulb very quickly, and as it never becomes hard, broken glass can always be removed without any danger to the other lights. Per gallon, \$1.45; 5 gallons, \$7.00; 10 gallons, \$14.00; 25 gallons, \$31.25.

PUTTY BULB. Scollay.

A useful tool similar to the well-known Scollay Sprinkler, with a tube instead of spray for applying liquid putty in glazing greenhouses. Each 90c; 3 for \$2.55; doz., \$9.50. If by mail, add 10c. each for postage.

Excellent for use in gardens, greenhouses and orchards; also for whitewashing and spraying poultry houses; fitted with a Bordeaux nozzle, and can be changed from a solid stream to a spray. Mastin Compressed Air Sprayer. The Mastin Automatic Spraying Machine may be filled to within six inches of the top. A few strokes of the pump will give sufficient force to empty the machine. The pump is provided with an automatic mixing device, which keeps the solution in the tank well stirred up, resulting in a spray carrying the same strength of solution from start to finish. The sealing or locking device securing the pump in the tank is simplicity itself, sealing the machine perfectly, with the minimum of time and labor. The Spray Nozzle will produce a spray that is truly mist-like.

Price—3-gallon galvanized steel tank, brass pump and connections, three feet of hose, spray cock, two spray nozzles, shoulder straps, complete \$6.50
Same in brass, complete 8.50

Auto Spray. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved by the addition of the "Auto Pop" shown in illustration. Briefly described the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control.

Price; Galvanized iron reservoir, \$4.50; with Auto Pop, \$5.40; solid copper reservoir, \$6.75; with Auto Pop, \$7.65. Brass Extension Rod, in 2-foot lengths, each, 35c; Galvanized Extension Rod; in 2-foot lengths, 25c.

We maintain the highest grade Holly Branches in the market. Every case personally inspected by our own agent, who has been 18 years in our service; men who gather and pick our Holly are equally well experienced. While other shippers sometimes handle as choice holly as Vaughan's XXX Brand, yet ours has averaged **THE BEST, one year with the other.** Our prices are sometimes 50 to 75 cents higher. Our values are more than **Double.**

Per case, \$5.00. For larger lots write. Burlap-lined for Pacific Coast shipment, 50 cents extra.
