Please Peruse the Following:

55 Pinckney St., Boston, Mass. Feb. 1901.
I am very glad to get four more packages of that wonderful Never Shrink. I have used it in washing my white goods also. I have also used it in washing my children's stockings and I find it acts like a charm. The delicate colors come out bright, and the material does not fade or shrink. I am very glad to know where I can procure more of this valuable powder.
MRS. E. B. STILLING.

Haverhill, Mass. Dec. 1900.
I am greatly surprised and pleased with the results obtained by the use of Never Shrink. Washed a dress waist of delicate colors and it is just like new. Have also washed my white woolen gloves. I would not hesitate to use Never Shrink on any goods.

The advisability of holding marriage
ceremonies among hardened criminals at the
State prison has been brought into
question this week. Quiet, modest looking
young women are not always what is
indicated on the surface. They can carry
guns, saws, axes and other implements,
and another pair of villains who choose to
kill, rob and assault.

For more than four hundred years navigators,
explorers and scientists have been
seeking a northwest passage or an open
polar sea. The passage has at last been
made, the discovery was made by the
Swedish explorer, Dr. Erik Nordenskiöld,
his crew from the Atlantic to the Pacific
ocean by way of a passage of the
North Pole. Amundson was two
and a half years in making his way
while the route may never be used to
any extent as a means of ocean travel,
much has been added to the world's
general knowledge in the scientific and
geographical way. The trip was made in a
small fishing sloop and the eight men who
comprised the crew live to tell the story.

John W. Weeks, member of
Congress for the 12th Mass. Congressional
district, has an eye not only for the
interests of his own district but for the
whole New England states, and has got
Boston and there is no reason why it
should not come and a good sufficient
reason why it should. The old castle at
the foot of State street has long outlived
its usefulness and the commercial
interests of New England demand something
which comes nearer meeting the present
condition of commerce as well as better
accommodation for and preservation of
valuable documents.

The leading characters in the celebrated
"dreadful case" are now serving a sentence
to the full extent of the law, and as
the judge who sentenced them re-
marked: "The city is the law is not
more severe." The long drawn out case
of Mary Rogers has come to an end, and
the act which led to it had no mitigating
circumstances. The repeated assaults
upon unprotected women and other crimes
call for more law and order, less preaching
of "Let him without sin cast the first
stone." If his brother be a thief, the
law that are spiritually blind
"Restore such in me," less carrying of
bouquets and dances to criminals, less
effort on the part of lawyers to get new
trials after a party has again and again
been convicted of villainous crimes, and
more safeguards to life and property.

HIGH SCHOOL NOTES.
LOVELL'S CORNER

LaForet Lincoln, '05, has recently
accepted a position with the General
Electric company of Lynn.
The first boys' basketball game of the
season was played at Braintree, with
Braintree high school last Friday after-
noon. The game should have been played
at Weymouth, but Braintree refused to
come to Weymouth for matters of
going to Braintree. Weymouth won 14
to 10. The lineup was as follows:
Weymouth: Dr. W. A. Drake, captain of the school
committee, Miss Clark, teacher at
Jefferson school, Weymouth Centre, and
A. Loretta Cronin, '01, also teacher at the
Jefferson school.

Smoking Customs.
Among the heathens of Africa it is
the custom for the people when smok-
ing to take a link of twig, which they
bind into the form of a semicircle and
then bury in mud. This is well pound-
ed down, and when the earth is with-
drawn, leaving a hole which answers the
purpose of a pipe. Tobacco is placed
in the excavation.
The Hawaiian natives habitually
swallow the smoke, and a few whiffs
are enough to produce intoxication.
This drawback, however, has its com-
pensating advantage, since the exhaus-
tion of a single pipe is enough to pro-
duce wholesome insobriation, as it is
passed from mouth to mouth.
The Kathian smoke tobacco, a
specimen of hemp, in a water pipe re-
sembling the hookah.

A Solemn Oration.
When a certain well known comedian,
who prided himself on his fun making
ability, was "starring" in Edinburgh
his landlord, who seldom attended any
of his performances, asked him
if he would oblige him with a "pass
for the playhouse." This favor was
readily granted, and the "gentle man"
donned his best black suit and wit-
nessed the comedian's two greatest
humorous impersonations. Meeting his
landlord the next morning, the comedi-
an asked him if he liked the perfor-
mance.
"Well," said the Scotsman, "it pleased
me in fact, but I consider you played
much more naturally than I do."
"Well, then, I had a hard job to keep
myself from laughing."

When I feel inclined to read poetry,
I take down my dictionary. The poetry
of words is quite as beautiful as
that of things. The author may not
range the words effectively, but their
shape and luster have been given by
the attrition of ages. Bring me the
finest simile from the whole range of
imaginary writing, and I will show you
a single word which conveys a
more profound, a more accurate and
a more eloquent analogy—"Attendant
of the Breakfast Table."

The Family Scraphook.
Mrs. Sauer to Willy: "You minister
calls to see Mr. Sauer. Willy, is your
father to go? Willy, yes, he's upstairs
looking over your scraphook. Mrs.
Sauer (puzzled): "You mean my family
account book? Willy: "Well, it's all the
same. He and you always have a
scrap every time he goes over it."

Never Give Up.
"He—My motto is, 'Never give up.'
She—Yes, I've frequently noticed it in
a crowd of street cars.—Philadelphia

Bakers' Marks
There is a story of an old lady who made up a batch of mince and apple pies.
Wishing to be able to distinguish one kind from the other she marked the
mince pies T M for "tis mince" and the apple
pies T M for "taint mince."
The baker's marks on the ordinary run of
bakery products are of little more value for
proof of identification than the marks on the old
lady's pies.
But HERE is a trade mark that really iden-
tifies—that enables you to distinguish the world's
best baking—the Biscuit, Crackers and Wafers
made by the NATIONAL BISCUIT COMPANY.
This trade mark appearing in red and white on
each end of a package guarantees the contents to be
of highest quality—pure, clean and fresh. To learn something of what this
trade mark means try a package of either of the products mentioned below.

Lemon Snaps
An appetizing nibble with the flavor of the refreshing lemon. A revelation in modern baking.

Butter Thin Biscuit
Unique little biscuit in much favor with those who want something different.

Graham Crackers
Possessing the rich, nutty flavor of graham flour—unlike any graham crackers you ever tasted.

R-R-R.
From the cradle to the grave nine out
of every ten of the people in civilized
countries have more use for reading,
writing and arithmetic than for all other
branches of education combined; in fact,
many have little or no use for others save
as a temporary recreation.
A few nights ago we were unexpectedly
called on for a few remarks at a meeting
of the Educational association of this
town, and spoke of a lack of interest in
these branches and some thought the
picture was overdrawn, but, as the saying is,
"it was taken from life."
We are a firm believer in Weymouth
teachers and Weymouth schools and think
the work of the teachers will compare
favorably with the cities and towns in the
state and at the same time we are not
alone in our opinion as to the three R's
as is evidenced by the following article
which we copy from the Boston Herald of
last Sunday.
SAY PUPILS DON'T LEARN FIGURING.

College and high school students of the
present day are ignorant of common
arithmetic, according to many members

ers in New England, who held their third

Hall.

—The fair of the Ladies' Social Union of the Congregational church which was held in Old Fellows opera house last week, was brought to a close last Friday night. There was a large attendance and the entertainment was one of the best of the series. Mrs. Arthur M. Raymond had charge of the entertainment which consisted of a concert by the Apollo quartet of Boston, composed of Walter E. Paine, first tenor; Edwin E. Holden, second tenor; Fred E. Kendall, baritone, and Charles Delmont, basso. Mr. Kendall, who is a first-class impersonator, as well as a soloist, gave some excellent solos which were loudly cheered. Mr. Paine, who is known as "The Male Patti," rendered solos that would easily pass as coming from a woman's throat. He wore a green satin gown of the latest cut and a single wig which gave him the appearance of the real Patti. His acting was excellent and his selections were loudly applauded. Besides their part in the quartet selections, Messrs. Holden and Delmont rendered solos which brought forth much applause from the audience. Miss Ethel P. Raymond acted as accompanist. Nearly all the articles which were offered for sale were sold and all departments report a good sum netted.

GATHERED UP.
"Be frank and explicit. That is the
right line to take when you wish to con-
quer your own mind and to confuse that
of others."
"Although I work a good many hours
a day," says Inventor Edison, "my life is
a very quiet and restful one. I do not
worry, I am fond of fun, and I like good
fellows. I do not want to deal with mean
or men whose lives are devoted to get-
ting money."
Til for Tat.
"And what did you say?" asked the
caller, "when he told you that your pie
wasn't like the pie his mother used to
make?"
"Well," replied the hostess, with a
look of the head, "I made a few remarks
like the mother used to make."
It is noted that in Boston the other day
a young lawyer, who spends most of his
time trying to see busy and prosperous,
went out for a while, leaving on his door
a card neatly marked "Will be back in an
hour." On his return he found that some
evident person had inscribed underneath,
"What for?"

Feeding of Roots in Winter.
The countries that lead in quality of
live stock use roots as food for the ani-
mals. England, which gave us our best
breeds, would never have done so but for
her large crop of turnips. The English
market reports give prices of beets, man-
gels and turnips as regularly as do our
journals for grain and hay. In some sec-
tions of this country the root crop is be-
coming an important one, but we rely
mostly on corn, which produces not only
a largely of grain, but also of fodder:
hence it is cheaper to grow corn than
roots, but better results will be ob-
tained if roots were added to the corn,
hay and fodder. Labor-saving imple-
ments now cheapen the cost of producing
roots, compared with former years, and
with the use of roots the food is more

Rebuked from the Pulpit.
Preaching in Westminster Abbey, Canon
Wilberforce told a good story of the ce-
lebrated Welsh preacher, Christmas Evans,
who dared publicly to express his thank-
fulness for Jenny Lind's beautiful sing-
ing. A member of his congregation, a
straightlaced Calvinist, standing on the
steps of the pulpit, asked the preacher
whether a man dying at one of Jenny
Lind's concerts would go to heaven.
"Sir," replied Mr. Evans, "a Christian
who dares to heaven wherever he dies, but
a fool remains a fool even on the pulpit
steps." Even the sober abey congrega-
tion could hardly stifle its enjoyment of
this repartee.

New Year's Sing.
To the Members of the Old Stoughton
Musical Society:
The executive committee of the Old
Stoughton Musical Society, having at
heart the welfare of the Society, have
noted with regret, that the time-honored
custom of meeting annually on Christmas
day is conflicting more and more seriously
with the professional engagements of its
best singers and musicians, and the family
gatherings of its most loyal members.
The modern Christmas has become
essentially a "Children's" day. Your
committee does not deem it expedient that
our society should compete any longer
with the children for the possession of the
day. There can be but one ultimate
result to such a contest.
We propose to meet these changed con-
ditions with a change in the annual meeting of
the Old Stoughton Musical Society, to be
held in Stetson Hall, Randolph, at 3 p. m.,
with Public Rehearsal at 7 p. m., on January
1st, 1906, and we urge every loyal mem-
ber to so arrange his (or her) affairs
that he (or she) will be present at that
time and place.
Come and bring your singing friends
with you as candidates for membership.
(Stoughton Collection, Jubilee '72, with
Appendix.)
Let us make the first "New Year's
Sing" a good one. We shall look for you
and feel personally disappointed if you
are not there.

WEYMOUTH GAZETTE.

PUBLISHED EVERY FRIDAY BY THE GAZETTE PUBLISHING COMPANY, WEYMOUTH, MASS.

Subscription Price \$2.00 per year in advance.

FRIDAY, DEC. 29, 1906.

Brush up your eyes for what you will need next year and the year begins on Monday.

It is not too late to do some absent friend a kindness and give them a Happy New Year by sending them a year's subscription to the Gazette.

We take this occasion to wish all our friends and patrons a Happy New Year and to announce that we hope to make the Gazette more valuable in the future than it has ever been.

The holiday trading season is nearly over, and it has been a season of more than usual activity with all our merchants.

Hamilton is happy. Last week the governor with his gold-braided staff visited that town, and according to the Register, which has occurred, but once before in the history of the town, and it was incorporated many, many years ago.

The Peace conference at Portsmouth set off the long-drawn-out conflict between Russia and Japan, but it did not give place to Russia, and her internal affairs are today more menacing to the welfare of the empire than any foreign war could be.

Congress is having a two weeks' vacation, but the members will hardly devote the time to preparing new bills and resolutions as over 1,000 were presented during the three weeks Congress was in session, and they will last until after March without any additions being made.

A man in Hyde Park has made himself so unpopular that he is rumored that a petition is in circulation, asking him to leave town. We heard a number of years ago of a similar petition being circulated in a town in Illinois, and the party who headed it, put on a new level asking that he be appointed, postmaster of the town sent it to Washington and got the appointment. In this instance, however, Bro. Mosley may have no fear, as history will not repeat itself in this case.

The most universal holiday of the year for all the world has come and gone and the prophecy of Him who said "And I will lift up my hand against all men who are never more nearly being fulfilled than it was during the Christmas season."

Farwell 1905. We part with you with regrets; you have been kind to us; you have given us 365 days of health and comfort; you have given us three meals a day of life-sustaining food; you have given us 365 nights of refreshing sleep; you have continued to us many kind old friends and added to them many new ones; in fact, you have done as well or better than many of the years which went before you. You now leave us, but we will always speak well of the year of our Lord 1905, and welcome 1906 with open arms.

A Food to Work On. Work! Work! Work!!! Lots of energy is needed to keep up the pace. In the struggle, the man with the strong body and clear brain wins out every time. The man of to-day needs something more than mere food; he needs a food that makes energy—a food to work on. Although some people may not realize it, yet it is a fact, proved and established beyond doubt, that soda crackers—and this means Uneda Biscuit—are richer in muscle and fat-making elements and have a much higher per cent. of tissue-building properties than any other article of food made from flour. That this is becoming known more and more every day is attested by the sale of nearly 400,000,000 packages of Uneda Biscuit, the finest soda cracker ever baked. An energy-giving food of surpassing value—sold in a package which brings it to you with all the original flavor and nutriment perfectly preserved. Truly the food to work on. Whoever you are—whatever you are—wherever you work—Uneda Biscuit. NATIONAL BISCUIT COMPANY
