## Graduating Exercises at Campbell Schools

High School and Grammar School Have Annual Commencement and Send out Classes

The annual Graduating Exercises of the schools of Campbell were held last week, the exercises of the High School being held Thursday evening and those of the Grammar School Friday evening. Ten students were graduated from the High School this year. We are reproducing their pictures

knowing their parts very well, and their delivery very much better. The graduates, eleven in number are:- Anna Heinzen, Mabel Oliver, Albert Austin, Pearl Townsend, Amy Farley, Roy Thompson, Alice Duncan, Margaret Hinchliffe, Earl Cooke, Ira Brown, Carl Scholz. Before the class Song was given

### Notice to Fruit Growers.

Notice to fruit growers of Campbell and vicinity. We have the agency of many of the largest canneries and commission merchants of San Francisco, Oakland and Los Angeles. We will be in position to handle a large portion of the

## Petition has 63 Names

Meeting Held at Coffee Club Tuesday night and Fire Commissioners Named

Another mass meeting of the citizens of Campbell was held Tuesday night at the Coffee Club at which much was done towards forming the fire District. The meeting was called for eight o'clock but owing to the small number present was not called to order until 8:45 p. m. President Sawyer occupied the chair and E. R. Kennedy held the "quill." After the reading and approval of the minutes of the previous meeting, the Committee on securing names for the Petition gave its report. There are 63 names on the

Santa Clara-Los Gatos Road on the west, and from Mr. Relfe's place on the north to and perhaps including Sunnyside.

Names were then proposed for Fire Commissioners and after three ballots Messrs. Sharp, Lloyd and Relfe were selected to be proposed to the County Supervisors as Commissioners.

As there was no further business to come before the meeting, adjournment was taken.

Mr. N. J. Johnson of Ames, Nebraska visited his uncle and aunt Mr. and Mrs. Donaldson last week, and also his uncle J. B. Waterman of Los Gatos. He had been making a tour of the coast, touching at Vancouver, B. C., Seattle, Portland, San Francisco and Los Angeles, and was well pleased with the country.

The Campbell Coffee Club opens today for its fifth year under the management of the local W. C. T. U.

Found—A little brown and white spotted dog. Has good collar on. The owner can have same by calling at W.W. Stewart, Central Av.

Now what do you think about it. Here Dr. Minor goes off to San Francisco and gets married, comes back here, just as if nothing had happened, and thinks nobody knows anything about it. They do though. The girl in the case was Miss Alice Dixon of San Jose. They were married last Thursday and returned to Campbell Wednesday of this week. They will reside at Dr. Minor's place on Campbell Avenue.

### WANTED

BIDS FOR PAINTING Campbell Grammar School, outside and roof, one coat, no trimmings, labor only. Mail bids to trustees, P. O. Box 179 - Campbell Cal. not later than July 14th. Right reserved to reject any or all bids.

here although it takes almost all the space we have. The exercises were held in the Assembly Hall. Friday evening the Grammar School held their exercises in the High School Assembly Hall. The decorations were very simple but attractive, being green and white, the green being formed by ferns, pepper branches, etc., and the white, carnations, the class flower. The Class Motto "A Step Higher" was artistically placed over the stage with the decorations for a background. The program, taken as a whole, was better than that of the high school, the young folks

by the graduates. Prof. Graves apologized to the audience, saying that the song would perhaps be a disappointment owing to lack of practice, but no apology was needed. The song was very well done and if hardly any practice was had there must be very good material for a Glee Club in the High School next year.

Mr. Christianson of Mt. Vernon Washington, has bought out Mr. Claver's shoe business. Mr. Christianson is a very good shoemaker and will be welcome here.

Be careful of fire on the Fourth of July.

green fruit in this section. As we will not have a regular agent in the field, it would be well for the growers to call on us before disposing of their fruits.

R. K. Thomas  
At the Campbell Fruit Growers' Union.

## COAST EVENTS OF PAST WEEK TERSELY TOLD

Interesting News Items From States Bordering On the Broad Pacific.

Assemblage of Paragraphs That Present Important Occurrences in Condensed Form.

**San Jose.**—The cornerstone of the new State Normal School was laid here last week with impressive ceremonies.

**San Francisco.**—June 23 was the hottest day of the year; in fact, the hottest day since July 7, 1905, when the thermometer got up to 98 degrees. It reached 94 degrees.

**Willows.**—The Supervisors of Glenn county declare that they will call an election to be held in October to vote on the saloon question, which has been agitating the whole county for some time.

**Washington.**—The Civil Service Commission announces that examinations for the departmental service in Washington will be held this fall as follows in California: San Francisco, September 8, October 5, 13 and 23; Los Angeles, September 8, October 13 and 21.

**San Francisco.**—Seth A. Scott, former manager of the Thirty-day Short-hand School, who was recently convicted of arson, was sentenced by Judge Cabanis to ten years in San Quentin. Scott was convicted of having set fire to the building at 25 Third street, occupied by the school, on February 21, 1909.

**San Jose.**—The Milpitas Cannery, conducted by the California Fruit Canners' Association, and which packed principally asparagus and other vegetables, was a total loss by fire last week. The damage is estimated at \$150,000. Work was in progress at the cannery at the time of the fire and there was a wild stampede to escape from the burning building.

**Sacramento.**—Ten thousand baskets of Sacramento valley fruit will be distributed by the Sacramento Lodge of Elks during the sessions of the Grand Lodge in Los Angeles. The baskets will be donated for the purpose and already much of the fruit has been promised. All the Sacramento valley is uniting with the local lodge in its effort to exploit the resources of this section.

**Vancouver, Wash.**—Ah Ying, a Chinese restaurant keeper of San Francisco, and Fay Freeman, a white girl and milliner, also of that city, were married here last week after attempting in vain to secure a license in both California and Oregon. The ceremony was performed by Rev. B. F. Brooks, pastor of the Methodist church, in the parsonage, and was witnessed by Chin Yam, a restaurant keeper here.

**Vallejo.**—More than 250 cases of condemned powder from the army posts in San Francisco were thrown in the Carquinez straits, between this city and Benicia, last week. The powder had been sent to the government, but was not up to the standard. This method was adopted as the easiest in getting rid of the powder. Uncle Sam now has \$3,000,000 worth of powder stored at the local naval station.

**Honolulu.**—Sugar planters here resent the statements of a number of Spaniards who departed from the islands some time since and are reported stranded in San Francisco, where they complained of unfair treatment. The planters declare that the men were given houses, lands, wages and the other perquisites usually granted to plantation laborers, and that they left against the advice of the Spanish consul to go to Mexico, lured by false promises.

**Stockton.**—A movement has been started in this city for the express purpose of educating the laymen into how to properly treat tuberculosis. Through the instrumentality of City Health Officer Dr. S. W. R. Langdon several physicians have organized what is termed the Anti-Tuberculosis League, and have invited everyone in Stockton to become members. It is to be in the form of an auxiliary to the Red Cross Society and will lend all assistance possible in improving the condition of consumptives.

## DESTRUCTIVE FIRE TEACHES LESSON TO TOWN TRUSTEES

Sausalito Will Install First-Class Apparatus to Fight Flames.

**Sausalito.**—The recent devastation by fire of property in old Sausalito has taught the town officials a lesson, and to prevent being caught again they have decided on the formation of a first-class fire department, befitting the size and property values of the town. Before another month Sausalito will have five fire stations, divided into three divisions, each commanded by a chief, under the general direction of the fire chief. Each station will be provided with a hosecart and 500 feet of hose, and two chemical engines and two ladder companies will be located at the central station. An up-to-date fire-alarm system is also planned for, and Fire Marshal Jacques Thomas and Fire Chief Al Jewett have already enrolled 200 members for the newly organized department.

### Sausalito Puts Lid on Gamblers.

**Sausalito.**—The local poolroom question seems to be settled for all time, the Board of Trustees having decided to grant no licenses, even for the sake of making a test of the validity of the state law. "Sausalito is not anxious to have the poolrooms open again," said Supervisor Louis C. Pistolesi, who is also a member of the Board of City Trustees. "We have decided to do away with them and their consequences and do not believe in reviving the evil. So long as the state law is in force Sausalito will not be the one to test it, and should an attempt be made to open one of these places its promoters will soon find out that they are violating not alone a state law, but also a city ordinance, which we are going to enforce to the fullest limit."

### Japanese Chased by Officers.

**Los Angeles.**—Tracked by immigration officials for two weeks across the desolate sands of the Arizona desert, suffering intolerable tortures from the torrid heat, thirst and hunger, being finally compelled to kill one of their pack burros, drink its blood and use the flesh for food, two Japanese, charged with being illegally in the United States from Mexico, were driven to bay in a box car a short distance east of Needles, captured and taken to jail. They were sent to Los Angeles for trial.

### Another Rebellion in Morocco.

**Tangier, Morocco.**—Advices from Fez indicate that the internal peace of Morocco is again threatened by the depredations of the rebel Roghi. Another factor is the series of raids conducted by the Sultan's rebellious brother, Mulai Kebir, at the head of the Zennour tribesmen. The Sultan has organized a flying column of 2000 men to pursue Roghi and the Europeans are preparing to flee.

### Boys Start Fire in Vallejo

**Vallejo.**—Some 200 men, women and children battled for over an hour one day last week in the northern section of town to save their homes from being destroyed by fire. The blaze was started from a small grass fire, which some boys had built near the water front, and it got beyond their control and soon swept over the hill toward the houses below.

### Fatally Mangled by Mower.

**Santa Barbara.**—Two-year-old Frank Ochoa had his right arm at the shoulder and his left leg at the knee cut off today by a mowing machine at Lompoc. The child was playing "hide and seek" and hid in the barley field and was unseen by the harvester, H. D. McCabe, whose machine ran over the child, inflicting fatal injuries.

### To Make Cheese From Sheeps' Milk.

**Biggs.**—D. Damascus of San Francisco, representing a company of Greeks, has had shipped to this place a complete equipment for a dairy and cheese factory which will consume the milk of 8000 sheep in the manufacture of a special variety of cheese. The company expects to milk 5000 sheep daily.

### Lost \$113,000 at Faro.

**New York.**—Marshall Bell of Newburgh, N. Y., filed a voluntary petition in bankruptcy in the United States District Court, stating his liabilities as \$113,000, with no assets. Bell declares he lost \$110,000 at faro and gave notes to this amount.

### Grandson of General Lafayette.

**Eaton, Pa.**—Among those present at the seventy-fourth commencement exercises of Lafayette College was the Comte de Lafayette of Paris, a great grandson of General Lafayette, for whom the college was named.

## Eastern Lemon Dealers Oppose California Growers

**Washington, D. C.**—Senator Flint has learned that the tariff committee of the New York Fruit Exchange has begun a campaign against the increase of the lemon tariff and that it is urging fruit dealers everywhere to circulate a petition to their Senators to have the duty kept at the Dingley rate of 1 cent a pound.

Flint believes that many dealers will stand by the California growers rather than by the importers and he is having a counter petition circulated among them. He will also have the California growers send on facts and figures showing the actual profits they have made to prove that the claims of exorbitant profits are fallacious.

The tariff committee makes an extended argument to prove to the dealers that the increase of the duty really means that the jobbers will have to pay fixed charges of \$2.42 per box in addition to 75 cents per box for

the fruit, \$3.17 per box. Allowing for damage in transit, the selling price is put at \$3.50 per box. "This means," says the circular, "that the fruit jobbers in New York or other Eastern ports will be obliged to pay for California lemons from \$3.50 to \$4 per box."

Chicago dealers, it is claimed, will pay \$4 to \$4.50, while dealers in the Missouri river valley and the West can expect to pay \$5 and \$5.50 for the lemons they purchase at all seasons of the year, and during the summer prices will reach an altitude heretofore unknown to the trade. Reference is made to "the California citrus fruit trust" and other loose, misleading and false statements are made. It is also asserted that there is a "proposed" combination between the California and Florida growers. No effort will be spared by all the friends of California to combat this latest effort to harass the lemon growers.

## Table Grape Growers Assured of Profitable Season

**Stockton.**—San Joaquin county table grape growers are being offered \$25 for tokays, and it is understood that West & Sons, connected with the California Wine Association, will pay \$9 a ton for wine grape yields. It is estimated that there are about 25,000 acres of table grapes in bearing this season and about half as many wine grapes.

In that section west of Lodi where the Mokelumne recently flooded the lands the old vines are yielding all of 75 pounds each, and the general yield in that section will be heavy.

Since the heavy frost of May 15, however, in some sections the grapes were damaged, and since that time have been dropping from the vines. The tendency of the bunches is long

and not well filled. This will add materially to the packing, as such bunches pack to best advantage.

The cut worms have done some damage to the younger vines in small areas, but the damage is very much distributed. Owing to there being no late rains, the cuttings are suffering materially.

With wine grapes selling at \$9, the growers will make net about \$3 a ton. Tokays will prove very profitable.

By reason of the San Joaquin County Grape Growers' Association a saving of at least \$35,000 will be made the growers. The association purchased the entire amount of shoo, nails, sulphur and other needed supplies and then sold to the individual growers at cost price.

## Farmers' Lessons to Be Given in Tabloid Form

**Berkeley.**—Instruction by postal card is the latest innovation of the department of agriculture of the university. If the plans of the university faculty of this department mature, this method of instruction will be followed to supplement the work of the agricultural demonstration train which travels throughout the State at stated intervals.

Aside from the cheapness of the plan over the present method of issuing bulletins at great expense, the time element is one of its most important features. Under the present method it is necessary for the manufacturer to be sent to the State printer

at Sacramento, the proofs being sent here for correction and again sent back.

This entails a great loss of time and often bulletins of vital importance at one time are worthless if issued later.

The cost of the present bulletin method is also a drawback, and on account of the present lack of funds many bulletins are now tied up in the State printer's office awaiting publication.

It is planned to limit the number of words on the card to 500, which will be plenty in most cases to give the farmer a comprehensive command of the message of the university authorities.

## State Veterinarian Says Water Troughs Spread Glanders

**Sacramento.**—State Veterinarian Dr. Charles Keane has advised that all public watering troughs be abandoned as the most effective means of fighting the spread of glanders. In giving this advice, Dr. Keane knows that he is likely to bring down the wrath of the people of the entire state upon his head, because of the public sentiment which has long been in favor of establishing numerous watering troughs for animals. Dr. Keane, however, is

prepared to back up his stand by good, sound logic and facts that show how the fatal disease is spread. His first step in the matter was a few days ago, when he sent a letter to the Board of Supervisors of San Francisco asking that body to pass an ordinance forbidding the maintenance of watering troughs. Similar letters will be sent to other governing bodies, for it is from them that the State Veterinarian looks for help in his radical change of things in the matter.

## Complete Water System Now Owned by Vallejo

**Vallejo.**—The Board of Trustees and the Board of Works in joint session accepted the new municipal reservoir constructed in Wild Horse valley by Contractor Louis Moreing of Stockton. The new lake will hold 750,000,000 gallons of water and will cost the city about \$80,000, including the \$15,000 paid for the site. This new reservoir and the old lake give the city a supply of 1,100,000 gallons of water a day, or enough for two years. This

system also supplies the Mare Island Navy Yard. The benefit of municipal ownership to the consumer is shown in the figures of the Navy Department, which purchases water for the warships that visit San Francisco and Vallejo. The water here is pure mountain crystal and costs the government only 18 cents per 1000 gallons. The water that the Spring Valley company supplies San Francisco costs almost double that amount and is far poorer in quality.

## DELINQUENT TAX NOTICES MAY BE SENT ON POSTALS

Postoffice Department Makes Ruling of Importance to Property Owners.

**Sacramento.**—State Controller A. B. Nye has received a communication from Senator Flint at Washington to the effect that Tax Collectors can send postal cards through the mail giving notice when taxes are delinquent. Senator Flint felt the necessity of writing the letter because the general opinion seems to prevail that the rules of the Postoffice Department, as they apply to dunning notices sent through the mail, also include notices of tax payments. Senator Flint got his information from the Postoffice Department at Washington in response to numerous inquiries.

The laws of California do not require Tax Collectors to mail notices to taxpayers, but many of them do it to facilitate collections.

### Thief Pleads He Was Hypnotized.

**Willows.**—John Johnson, who was arrested at Orland recently on a charge of burglary, and who admitted entering a room in the Hotel Royal at that place and taking a number of articles of wearing apparel and jewelry, claims that he committed the crime while under the influence of A. J. Leopold, a hypnotist, and that he was not responsible for the acts he committed. Johnson was a "subject" of Leopold and traveled with him, being frequently "put to sleep" in show windows to advertise the hypnotist's meetings.

He made such an impression on the court that the charge of burglary was reduced to petty larceny, and to this charge Johnson pleaded guilty and was sentenced to serve ninety days in the County Jail, thus escaping from a penitentiary sentence.

### Apples Left to Rot on Ground.

**Alturas.**—It is estimated that hundreds of tons of as choice apples as can be grown anywhere in California will this season be allowed to rot on the ground or be fed to hogs in this county because they cannot, under existing traffic conditions, be shipped out at a profit. The Nevada-California-Oregon Railroad levies such an excessive rate on all shipments made over its line that, with the wagon haul of sixty miles or more added, no profit can be made on apples shipped from here, no matter how choice.

### "The House of Seven Gables" Sold.

**Salem, Mass.**—The "House of Seven Gables," around which Nathaniel C. Hawthorne wove one of his best-known and most characteristic tales, has been purchased by Mrs. George R. Emmerton and will be turned into a house for settlement work. The house was built in 1662 and originally had seven gables. In remodeling it forty years ago most of these gables were removed and much modernized.

### S. P. Invades Mexico.

**Trenton, N. J.**—The Southern Pacific Railway of Mexico was incorporated here last week with an authorized capital of \$75,000,000, divided into 750,000 shares at \$100 each. The object of the company is to build a railroad in Mexico under concessions granted by the republic of Mexico to J. A. Nagle, representing the Southern Pacific Railroad Company.

### Drops Railway Prosecution.

**Washington.**—The Attorney-General directed the dismissal of the government's suit against the New York, New Haven and Hartford and the Boston and Maine railways and others for violating the anti-trust laws. The Massachusetts Legislature has expressly authorized the consolidation of those roads.

### Diver Faints Under Water.

**Redondo.**—Charles Alexander, a diver from San Pedro, fainted under water while examining the wreck of the tug Pelican. He remained submerged fifteen minutes unconscious before his attendants became alarmed and drew him to the surface. They had to work three hours to revive him.

### Cut Rates on the Nome Run.

**Seattle, Wash.**—The bitterest fight ever witnessed on the Nome run is expected this year. Last week the Alaska Steamship Company announced an excursion rate of \$75 to Norton Sound and return, covering a voyage of 25 days, the lowest on record.

### Ten Millions for Census.

**Washington.**—On the eve of the expiration of the current fiscal year the House authorized an emergency appropriation of \$10,000,000 for defraying the expenses of taking the thirteenth decennial census.

## WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres  
Compiled in Pithy Form  
For Busy Readers.

Here You Will Find a Resume of  
Happenings in Almost Every  
Part of the Earth.

**Lagranja, Spain.**—Queen Victoria last week gave birth to a daughter. She was married to King Alfonso in May, 1906, and how has three children.

**Bozeman, Mont.**—The state convention of the Episcopal church of Montana adopted a canon providing for the pensioning of the Montana clergy or their widows after a service of twenty years.

**Christiania.**—Walter Wellman and the other members of the expedition that is to make an attempt to reach the North Pole by balloon left here a few days ago for Spitzbergen, from where it is proposed to make the start.

**Peking.**—The Peking branch of the International Banking Corporation, the first American bank in the East to join the group of British, French, German and Japanese institutions in existence here since 1902, was opened here last week.

**Washington.**—Secretary of the Treasury MacVeagh has drafted an amendment to the tariff bill making the tax on oleomargarine, colored or uncolored, 2 cents flat instead of as now, 10 cents colored and a quarter of a cent uncolored. This will stir up the dairying interests.

**Denver.**—Mark Woodruff, former State Register of Lands of Colorado, was arrested a few days ago under an indictment charging him with the embezzlement of funds from the sale of school lands amounting to about \$15,000. Woodruff was apprehended at Platteville and has been sought for many months.

**St. Petersburg.**—Because of the prevalence of cholera in this city the cabinet has decided that the government will undertake the drainage of St. Petersburg and the reorganization of the water supply. Fifty million dollars will have to be realized by a loan for the work, which, it is estimated, will be completed in fifteen years.

**Cambridge, England.**—Last week a number of degrees were conferred by Oxford University. Among the recipients were Oliver W. Holmes, Associate Justice of the Supreme Court of the United States; Earle Gray, Governor-General of Canada, and George Ellery Hale of California, who was given the degree of doctor of science.

**Kiev, Russia.**—The Governor General of Kiev has issued orders prohibiting persons unknown to the police or not holding passports from residing within three miles from the railway at Kiev and other points, on pain of \$250 fine or three months' imprisonment. The Emperor and Empress will pass over this railway on the way to Pottava to attend the celebration soon to be held there.

**Detroit.**—Outdoor schools for all children who are physically below par and who for one cause or another find difficulty in keeping up with their classes were recommended by Dr. Edward Bercher Hooker of Hartford, Conn., before the American Institute of Homeopathy, in annual session here. He was emphatic in his statement that if such schools were provided in a short time the slow pupil of today would be unknown.

**Chicago.**—An order for 1,000,000 pounds of beef was received from the British War Department in London last week by one of the large stock yards firms. This order is regarded as indicating the complete reinstatement of this country's meat supply upon its former solid basis, as it is the second received since the packing disclosures of four years ago. The first order was issued in February for 3,000,000 pounds for July delivery.

**Chicago.**—Three dollars and fifty cents represents the total expenditure on each of forty-seven handsome gowns, with lace garniture and trimmings, worn by forty-seven girl graduates of the Wentworth Public School last week. The Wentworth graduates have broken all records for economical gownmaking. They have done all the work themselves under the general direction of the sewing teacher in the school. One day each week for the last two months has been devoted by the girls to the making of their graduation gowns.

### NOTABLE ENGINEERING FEAT.

Norway's New Railway is One of Which It May Be Proud.

The new railway which crosses the great mountain chain of South Norway, linking Bergen with Christiania and the rest of Europe, is an achievement of which Norwegian engineers have every reason to be proud. Not that it is the highest mountain line in Europe. There are three tunnels in Switzerland all higher than the highest part of the Bergen railway, but the difficulties to be surmounted in Norway were infinitely greater than those in Switzerland, by reason of the latitude of the district to be traversed. The Norwegian line is between the 60th and 61st degrees of north latitude, with the snow line a little below 5,000 feet, and, in carrying the track through the magnificent Hallingsdal, an uninhabited and uninhabitable region had to be crossed.

Finse is the highest point reached by the line, and for some distance, although the view is constantly intercepted by tunnels, there are openings amongst the snowy mountain tops, with their livid glaciers, through which some of the finest valleys in Norway are momentarily visible. For five years a gang of 1,100 men has been working night and day on this part of the line. These men are housed in small wooden cabins dotted about amongst the rocks, and the material for them and for the station house at Finse had to be carried up on the backs of men and horses from Flaam, 4,500 feet below. Elsewhere, station houses and hotels are built of wood. Finse stands in so exposed a position that its station walls, inner and outer, are of stone, over three feet thick. For eight months of the year Finse is snowed up and inaccessible. The plateau is swept by storms of such violence that the snow is piled in huge drifts, with which the snow plows are wholly unable to cope, and before October the greater part of this section of the line will, for this reason, have to be covered in.

The snow plows in use on the Bergen line are made in Christiania and are of 900 horse power, driven by locomotives of 700 horse power, but cannot be employed if the snow is more than three yards deep. To regulate the drifting snow, therefore, an ingenious system of movable wooden screens will be in operation during the coming winter, but by October 14 the little station houses and hotels will all have laid in supplies of every kind sufficient for eight months' consumption, and thus be independent of the train service.

Even amongst the ice and snow of places like Gjello and Finse, cups of hot soup, or hot coffee, with sandwiches of Norwegian pattern made of excellent bread, butter and cheese, may be had at very low prices. Each furnished passenger seizes what he can reach, helps himself with a ladle from the bowl of cream near the door, and eats and drinks on the graveled patch outside the station house.

**In Two Words.**  
They had seated themselves at a lunch counter.  
"What are you going to eat?" asked the doctor.  
"Clam chowder," answered the professor.  
"What for?"  
The professor thoughtfully stroked his beard.  
"I want to see if I can't get everything they've got here in short order," he said, looking at the doctor out of the corner of his eye.—Chicago Tribune.

**Wounded Love.**  
"What's McSouse going to law about?"  
"You know he went to one of those sanitariums for inebriates, to please his wife?"  
"Yes."  
"Well, it cured him entirely."  
"What has that to do with his lawsuit?"  
"He claims heavy damages from the sanitarium."  
"What for?"  
"For alienating his affections from booze."  
—Chicago Tribune.

**Worthy of His Hire.**  
"Just the same," said the Pittsburgh man, "we pay our preachers a higher average salary than preachers get in any other town."  
"You ought to," responded the Cincinnati man. "You have tougher material to work on than any other town has."  
—Chicago Tribune.

**Just as Easy.**  
Yes, he is able to keep a carriage, is Nelson W. Ardrich;  
He's akin to Standard Oil by marriage.  
And well he may be called rich!  
—Chicago Tribune.

**On Her Way to the Club.**  
"For mercy's sake, whose dirty little boy are you!"  
"Yours, mamma."—Chicago Tribune.

Ireland maintains nearly 400 egg-distributing stations for the purpose of bettering the poultry of the country.

Although there have been 63,453 Chinese admitted into the Transvaal there are but 17,000 there at present.

Fifty more teachers have been employed for the rapidly growing night schools of Manila.

The first street to be lighted by gas was Pall Mall. That was in January, 1807.

The frigate bird, with a record of 300 miles an hour, is the fastest flyer.

The number of automobiles registered in London is nearly 35,000.

French mints coined \$894,000 of Swiss coins during 1906.

### PIN MONEY FOR LADIES.

To earn a little money at home unknown to the men folks is the ambition of many women, both young and old. Of necessity the work must be clean and genteel, and the compensation good. Quite a number of ladies are beginning to realize that a profession like manicuring can readily be learned in two weeks, and the knowledge used for money making at home. A set of up-to-date manicuring utensils is essential to success, and yet the California Institute of Beauty Culture, 830B Market Street, San Francisco, offers to send without payment in advance a complete manicuring set, and a course of lessons so simple that a child who can read and write can easily learn. Ladies who desire to add to their incomes will do well to write to them at once.

**Desperate Resolution.**  
"Harold," said his young wife, "I am just as economical as I know how to be, and still we run behind. I believe it would be better if you took charge of the finances yourself."  
The young husband paced the floor for several minutes in deep thought.  
"Then he spoke."  
"I will, Clara," he exclaimed, his face lighting up. "I've just thought of something that never occurred to me before. I'll ask the boss to add \$5 a week to my salary!"—Chicago Tribune.

**One Dollar by mail, prepaid, for a Palmer Improved Fountain Pen,** barrel of best Para rubber; pen 14 karat gold with iridium point, guaranteed to give satisfaction. Le Count, Clark & Ormond, stationers and printers, 220 Market St., San Francisco.

Have you considered how impossible it is for the half-starved ewe to properly nourish her offspring.

**TEN ACRES OF IRRIGATED LAND** in Glenn County, planted in alfalfa, growing a crop that will pay half its cost every year, is an investment worthy of your consideration. Write the Alfalfa Land Company, 401 Montadnock Building, San Francisco, for a 28-page photographic booklet giving full particulars, and containing much useful information. Writumfort today.

Sheep will readily eat stuff that horses or cattle will only consume upon pain of starvation.

Thirty-three Departments filled to overflowing with the highest grade goods for both sexes at  
**TAFT & PENNOYER**  
Oakland, Cal. Clay, Fourteenth and Fifteenth Sts.

Few men who have not earned it, ever have commanded success.

If you want the best razor in the world, send \$2.50 to Herman Goetz, 34 Kearney St., San Francisco, and receive a special hollow ground ST. FRANCIS razor. Money refunded if not as stated. Outlets of all descriptions ground and repaired.

Feed your rams generously but not too well. An overfed pampered ram is of no earthly use anywhere.

**STATIONERY AND PRINTING**  
Wholesale and retail. Bookbinding. Mann's Loose Leaf Ledgers. Loose Leaf Specials. Payot, Stratford & Kerr, 32 Fremont street, near Market, San Francisco, Cal.

Knowledge and whisky are alike only in this: The more we take of them, the more we want.

**Freckles Can be Removed and a Clear Complexion Acquired**  
Bauer's Kurtz Freckle Salvo positively removes freckles, tan, and sunburn. Keeps the skin smooth and white. Manufactured by Bauer Drug Co., 722 Market St., San Francisco. At all druggists or by mail on receipt of price, 50c per jar.

Some men cloak a lot of evil under a few small and well-paraded virtues.

"Yes, Doctor," said the man, "he comes as regular as a clock, at noon and in the evening. He says it's the best medicine he ever took." "Well," said the Doctor, "if he sticks to Old Gilt Edge Whiskey he'll soon be better."  
—Chicago Tribune.

Sometimes peace follows the death of ambition and happiness reigns in place of unrest.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

He who uses a giant's strength to pull a dandelion will bump the back of his head on a brick.

**AUTOMOBILES CHEAP**  
Buick 22 Horse-power Touring Car, \$600.  
Auburn 24 Horse-power Touring Car, \$650.  
Auburn 24 Horse-power Roadster, like new, \$800.  
Tourist 24 Horse-power Roadster (Double Run), '08 Model, has been run but 500 miles, \$750.  
Auburn 2 and 4 Cylinder Cars, \$1250 to \$1750.  
Send for catalogue. AUBURN MOTOR CAR CO., 519 Golden Gate Ave., San Francisco.

And after all, there is really no excitement in telling a secret to a girl who can keep it.

## CASTORIA

For Infants and Children.  
The Kind You Have Always Bought  
Bears the Signature of *Dr. J. C. Watson*

For all the bad things in life that we do, we receive back, not only the principal, but compound interest, as well.

## LEGS

Artificial limbs, braces for deformities, extensions for shortened legs; abdominal supporters; surgical elastic hosiery; crutches; shoes; trusses. Send for particulars and prices. Dickson-Bull Company, 508 Telegraph Avenue, Oakland, Cal.

### THE TRAMP QUESTION.

What We Can Do to Repress a National Nuisance.

George T. Slade, general manager of the Northern Pacific Railway Company, says, in comment on the ever present tramp question:

"The camps of vagrants are to be seen at bridges and water tanks all along our main line, and vagrants are seen riding on our passenger and freight lines in every conceivable place where they can catch on and be for a time undetected by the trainmen. In many cases there are so many vagrants on a train that it is hazardous for the trainmen to attempt to put them off. These vagrants pilfer cars, set fires along the right of way, occupy empty equipment set out on passing tracks, often building fires inside of the cars which cause confusions, use the company's material for the construction of small shanties which are often fired, terrorize the occupants of section houses in isolated localities, and commit the various usual depredations known to this type."

If we can once realize that vagrancy is a serious and costly problem in our country, we shall begin to take sterner measures for its repression. Some persons may not be too friendly toward the railroads, and yet all agree that if, as one prominent railroad man recently said, tramps and vagrants cost the railroads of the United States \$25,000,000 a year, vagrancy is a question too important to neglect longer. What vagrancy costs in public and private charity, in almshouses, work houses and jails, on the road, in communicable diseases, and in bad examples and strong temptations to the young, no one can compute; yet the aggregate cost in money and in life must be very great.

Day after day appear reports of the arraignment of boy tramps before magistrates in many of our American cities. What can we do? Several things are simple and effective. We can refuse food at the door. We can make work a requirement for a subsequent meal. We can urge that vagrants receive reasonably long sentences when arraigned before magistrates, if they are evidently habitual vagrants. So far as possible co-operation ought to be maintained between railroad police and city police. Unless tramp trespassers upon the railroads are convicted when arraigned in court the railroads have little power to reduce railway trespass. City police should not tolerate evident vagrants upon the streets of the city. We should endeavor to obtain, when possible, more adequate vagrancy legislation. The maintenance of committed vagrants should be a State charge.

**A Winner.**  
Rhett's off for college,  
Again she's after knowledge,  
Rhett is a sweet girl, Rhett is a peach!  
She will study botany,  
Latin and there's not any  
Study Rhett will admit is beyond her reach.

But the glad vacation time  
Is her soul's elation time,  
Time to picnic, swim and row, lounge,  
beside a brook;  
But beside the rowing then,  
But beside the going then,  
Rhett's mother took the time to teach her to cook.  
—Houston Post.

**Didn't Express It.**  
"There are many points about our machine, Mr. Fosdick," the agent was saying, "that you don't find in typewriters usually. For example, the whole line, as you write, is visible—by the way, Mr. Fosdick, have you ever had a visible typewriter in your office?"  
The merchant looked absent-mindedly at the red-haired young woman with the green gown, who was hammering away industriously on the morning correspondence in the outer room.  
"Visible?" he said. "We have one that's more than visible—she's conspicuous!"—Chicago Tribune.

**Those Useless Questions.**  
"Billy, did you ever pick up a live trolley with your bare hands?"  
"Many a time."  
"Didn't it give you a shock?"  
"Give me a shock? It killed me dead every time."—Chicago Tribune.

The chimney swift is truly a bird of the air, for it never alights on a fence or building. It drops into the top of some mid-mouthed chimney and clings to its rough sides with tiny feet.

The reclamation service of the United States has already committed itself to irrigation projects which will involve a total cost of \$90,000,000.

One Japanese firm has calico printing mills covering four acres. Twelve years ago the industry was unknown in that country.

The publishing house of the American Presbyterian Church did a business of over \$700,000 the last year.

The cleansing of London's streets consumes 80,000,000 gallons of water each year.

In the English language the letter "e" occurs 137 times in every thousand words.

St. Louis, Mo., has developed into a very important glass center.

The fan exports of China amount to 11,000,000 a year.

The English army now has 44,000 total abstainers.  
Lynn, Mass., will have 80-cent gas after July 1.

# WHERE TO STOP and SHOP in SAN FRANCISCO and OAKLAND

### AGENTS WANTED

FOR SALE—Champion pedigree Perina (Ansera) kittens in all colors, reasonable. For \$2. Mail Valley, Cal. ROYAL PERSIAN CATTERY.

**In Rum Alley.**  
Dr. Herman L. Daring, superintendent of the Philadelphia City Mission, has for many years devoted his life to the poor. Dr. Daring is the inventor of the pretzel test for street beggars. When a street beggar pleads starvation, you buy him a big German pretzel at the nearest stand. If he eats the pretzel, he is honest; if he refuses it, he is a fraud. Dr. Daring in his work among the poor has learned many odd, quaint things that he relates superbly, for he is a born story teller. In an address at Balla, apropos of the hard, rough lives of the children of the poor, he related a dialogue between two little girls in Rum Alley.  
"Maggie, wuz yev ever kissed?" said the first tot.  
"Only wunst in me life wot I kin remember," said the second. "When I wuz in de Honnyman Hospital wid a broken arm one o' de lady nusses kissed me, an' I blushed like a child."

**Cause of the Rash Act.**  
"You're the editor, ain't you?" asked the caller, a man with thin lips, high cheek bones, and a sharp nose.  
"Yes, sir," answered the man at the desk.  
"What can I—"  
"Well, sir, I've been readin' your paper party regular for about twenty-seven years, but you had an article this mornin'—"  
"That you couldn't indorse? I'm sorry for that, but you know such things are likely to happen now and then, and—"  
"That wasn't what I was goin' to say. That article pleased me so well that I thought I'd come around and subscribe for the paper. How much is it?"—Chicago Tribune.

**Poes to Silence.**  
"There is one thing certain," said the oldest married man in the group.  
"And what's that?" inquired the man who was married last month.  
"If ever the women of this country get the ballot the influence of the silent vote will be promptly and effectually neutralized."—Cleveland Plain Dealer.

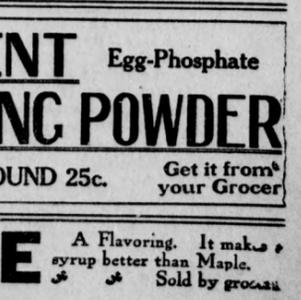

**Extremes of Advertising.**  
"We want to do something big to advertise that new play," said the New York manager.  
"Well," answered the press agent, "which kind of a play is it? One to which you invite the attention of the clergy or the attention of the police?"  
—Washington Star.

**Sometimes.**  
Gilruth—Can anything be broader than it is long?  
Vansaw—Yes; I've seen many a musical comedy that was.

English mercantile marine, which forms more than one-half of the whole world's shipping, brings that country about \$450,000,000 every year.

The British Museum contains books written on oyster shells, bricks, tiles, bones, ivory, lead, iron, sheepskin and palm leaves.

The railway commissioners of New South Wales are adopting a system of electrically synchronized clocks.  
Sixteen millions of mackerel have been landed this season at Newlyn, Cornwall.

**CRESCENT BAKING POWDER**  
A FULL POUND 25c. Get it from your Grocer

**MAINE** A Flavoring. It makes syrup better than Maple
