

MediaWiki based Open Source Content Services Platform

What is a CSP?

- ECM → Content Services Platform (Gartner)
- “Content services platforms help organizations manage and control important documents, records and related content items.”

The Wiki Way

The Wiki Way?

- Like a Wikipedian or like a Knowledge Worker
- To meet business goals or to share knowledge

Content Services Platform

Critical capabilities according to Gartner

Business Application Enablement

Analytics and Reporting

Delivery Model

Search

Platform

Content Security

Content Management

Collaboration

Administration

SMW

Semantic MediaWiki

And our customers (organizations, companies) want it 'out-of-the-box'

What do we think should be in the box

- Spaces
- Semantic data (SMW, Cargo)
- Search (Faceted search)
- Access control and permissions
- Logging

What do we think should be in the box

- Wiki management
- Forms
- Content sharing
- DevOps practices

What does out-of-the-box mean for our customers?

- Proven
- Integrated
- Supported

So let's do what we're supposed to do

- Not only build good stuff, but also
- Join forces
- Discuss and align
 - How about each Wednesday?

Questions

- Do you want to join the weekly, one-hour CSP meeting?
- What subjects do you want to discuss?
- What would be a good time for you (how about 5:30PM CET?)
- What is your email address

Questions?
