JAPANESE NAVY

STAFF AND COMMAND LIST

FOREWORD

This Command and Staff List has been compiled from information available to 10 April 1945. The following rules guided the selection of personnel included:

- (a) No one under the rank of Commander has been included with the exception of two Lieutenant Commanders whose positions as CO's of units warranted their inclusion.
- (b) 1 January 1943 was used as the earliest date of an assignment for inclusion in this list. In a few cases an earlier date has been used where it is known that the officer still holds the billet.
- (c) In most cases, destroyed units and units that exist in territory that has been seized by Allied Forces have been omitted.
- (d) In some cases, units have been listed without a commanding officer and/or staff in order to complete a list of fleet and shore based commands.

Each officer's name is followed by his signal number and by the month in which he assumed the command or billet.
