Mr. Huffleagle gave the following notice of motion for consideration at the next Meeting:—“ Moved by Mr. Huffleagle, seconded by Dr. Grant, that the Secretary of the Society and Editor of the Monthly Journal pay to the Assistant Secretary the amount of the valuable services rendered by him in the receipt of the Journal derived from the additional eight rupees levied from subscribers.”

REPORT OF PROGRESS TOWARDS A TESTIMONIAL TO THE LATE REV. DR. CAREY. The Deputy Secretary intimated to members the satisfactory progress which had been made in the subscription of a testimonial to the memory of the Founder of the Institution. Since the last Meeting of the Society one hundred and nineteen names had been added to the list, and the subscription now amounted to eleven hundred and ninety rupees.

SUGAR CANE DISTRIBUTION—GARDEN SEEDS. A memorandum from the Overseer of the Nursery showing the quantity of Sugar Cane which will should be ready for cutting, was read. It stated, that owing to the late severe gale, the cultivation had sustained so much damage that there was little probability of the supply of Cane this season exceeding sixteen thousand of about one third of the quantity distributed last year.

It may relieve the anxieties of our disinterested contemporary of the Star—who writes on the subject in yesterday's paper—to know that Mr. Stoepeler does propose to conduct the Monthly Journal of the Agricultural Society in the most judicious manner, and they require him to follow out the original plan. He opposed the establishment of the Journal editorially for reasons given, but as it has assumed a form and pressure, he can only deal with it as the Tories dealt with the Reform Bill after it became the law of the land—namely, conform to it with the best grace in the world.

We are challenged by Captain Backhouse of the Artillery, to state our authority for speaking disparagingly of Sir Edward Sugden in a late number of the Englishman. Our answer is, we have none to give! We were on the point of overwhelming Captain Backhouse with a host of examples of misconduct with which various letters during the entire campaign had teemed, when a friend pointed out to us that the whole of the rabble therein stigmatized were irregulars and furnished no part of the service laid in. It is at the same time that we wrote the offensive passages we had in our mind the conduct of Captain Hopkins's corps; the Doonance horse in January of last year in the action with Uckhtar Khan at Candahar; the Jambuzees at Charee Kar; Ferris's people at Pesh Bolak; the Afghans at Joulgah; and in fact in almost every affair since the campaign began.

ry and encouraging, while at the same time it bears ample testimony to the zeal and ability with which the affairs of the fund have been conducted. We perceive, in the course of our estimates, similar institutions have been organized. We wish them every success.

MISCELLANEA. SUICIDE OF CAPTAIN HARRINGTON.—We exceedingly lament to state that Captain H. Harrington, residing at Ryde, died on the 28th inst., at the age of 47, by a cord in his bedroom, and life quite extinct. A coroner's inquest was held on Friday, at Ryde, before Mr. Thomas Sewell, of which W. Hughes Hughes, Esq., was foreman, when it appeared that the deceased for some time past had been occasionally exceedingly depressed in spirits, arising from an apprehension that he would continue to poverty.

ENGLISH GOOD FEELING TO FRANCE.—The Monitor contains a report to the King from the Minister of Marine, recommending that a gold medal should be given to Dr. William Davis, an English physician, of Port Jackson, for his prompt and effectual assistance to a French vessel, the French officer in charge, who had become dangerously ill in consequence of having eaten poisonous berries. The report states, that when Dr. Davis was asked what his charge was, he replied, “I should be ashamed to receive payment for assistance rendered to an English ship of war, and I have the same feeling as it regards a French ship.”

COURT-MARTIAL IN THE TOWER.—On Wednesday the 1st battalion of Coldstream Guards, under the command of Colonel Hall, now stationed in the Tower were mustered upon parade, to hear the finding and sentence of a regimental court-martial on Sergeant Sharp, who had been tried for disobedience of orders and neglect of duty.

RESERVE.—The Dublin Mail contains the following statement in reference to the circumstances under which Wheelaghan, who was to have been executed on Friday last, for the murder of his wife, has had his sentence respited for a few days:—“A curious case has arisen with respect to the miserable Wheelaghan, who was convicted before Mr. Justice Burton at the last assizes of Tullamore, on the clearest testimony of the brutal murder of his wife, and under circumstances of peculiar atrocity.”
