RIT's Urban Thrust

Criminal Justice Program Announced

A unique degree program in Criminal Justice, with particular emphasis on prevention and rehabilitation, will be offered for the first time this fall at RIT.

The program is aimed at training people from all segments of the community for professional positions in criminal justice work at the local, state and federal level,

'Dollars for Scholars'

THE 'SOUND SYSTEM,' featuring Rudy DePalma (above) on trumpet, Tom Pugliese on electric piano, Gary Leaton on drums and Leon Grassi on bass will be featured at the 'DOLLARS FOR SCHOLARS' dance being sponsored by the RIT Women's Club Saturday, March 11 from 9 p.m. to 1 a.m. in the College Alumni Union. Tax-deductible contribution is \$5 per person, including buffet, and reserved "Tables for Ten" are available on request. Proceeds from last year's dance provided scholarships for three RIT students. Tickets and further information can be obtained from Mrs. Carole Smith, campus ext. 2258; Mrs. Edward Todd, 381-7008, and at the Union Desk.

said Dr. Paul S. Bernstein, dean of RIT's College of General Studies.

In announcing the program, Dean Bernstein said it will be structured around a "new and dynamic approach, including cooperative training for students on the job...and a broad, liberal background in criminal law, criminal justice, and law enforcement education."

"We will study the whole system of criminal justice--from the police and courts all the way through to the prison system--with stress on solving problems in criminal justice before they begin," Dean Bernstein said.

The four-year criminal justice program, which will lead to a Bachelor of Science degree in criminal justice, is tailored to meet the needs of three different groups: new college freshmen, who will remain in the program for a full four years; graduates of two-year community college police science programs, and police and other currently-employed criminal justice personnel who want to further professionalize their role.

He said courses will be offered through both RIT's day and evening colleges.

Curriculum in the new program will include both required and elective professional courses and liberal education offerings from RIT's regular General Studies program, Bernstein said.

SCHOLARSHIP COMPETITION attracted more than 100 of the nation's top high school students to RIT Feb. 25-26 with two \$9,000 scholarship prizes to go to the examination winners. Contestants Melvin Smith of Cleveland, Ohio, and Susan Dattilo of Brooklyn, are greeted by Professor F. Kingsley Elder, Physics Department head (left), and Thomas C. Upson, assistant professor in the Mathematics Department (right).

Athletes of the Week

Senior Mike Cahill and freshman Rich Gold have been named co-Athletes of the Week after sparking the RIT varsity swimming team to its first Independent College Athletic Conference title.

Cahill anchored the 400 yard free-style relay, the final event of the meet and the margin of victory as RIT defeated Rensselaer Polytechnic Institute, 57-56, at Troy (Feb. 27).

Gold, a first year printing major, set new school records in required diving against Niagara University (Feb. 22) and set another standard against RPI (164.25).

The next edition of News and Events will cover the period of March 13-19. Deadline for material for that issue is noon, Monday, March 6. Send material to News and Events, c/o Communications Services, or call 2344.

Prime To Direct Business Services

Jon L. Prime, director of Management Analysis and Audit at RIT, has been promoted to the position of director of Business Services, according to James R. Buchholz, vice president for Business and Finance.

Prime, 20 Wincanton Drive, Fairport, will be responsible for the internal business services of RIT. These include management analysis, food services, purchasing, bookstore, general duplicating, mail services, special events and financial advising for student organizations.

"Mr. Prime has demonstrated strong, sensitive leadership both here and in previous institutions served," Buchholz said. "By accepting this new position, he enables RIT to strengthen its many important internal services."

As part of the reorganization, C. Douglas Burns, business manager, has been named to the new position of director of Property Management. He will be responsible for insurance, apartments, ice arenas, tax administration, and property development, management and control.

EVENTS

MONDAY, MARCH 6

RIT-TV: "Welcome to RIT," 9 a.m., Channel 2

LUNCHEON: "New Approaches to Leisure Time Activities for the Handicapped,"
Alumni Room, noon

TUESDAY, MARCH 7

MECHANICAL ENGINEERING SEMINAR: "Introduction to the Stability Analysis of Mechanical Systems using Liapunov's Direct Method," with Richard G. Budynas, assistant professor of mechanical engineering, Room 2139, College of Engineering, 1 p.m.

RIT-TV FILM PREVIEW: "Moods of Surfing" and "Graphic Arts: They Used to Call it Printing," 1:05 p.m., Channel 2

MOVIE: Prison Film, sponsored by College Union Board, noon to 2 p.m., Ingle Auditorium

THURSDAY, MARCH 9

ENVIRONMENTAL LECTURE: "Plant Growth in Irondequoit Creek--Correlations With Nutrient Availability," with Dr. Kenneth G. Harbison, Chemistry Department, University of Rochester, Room 2178, College of Science, 4 p.m.

SCM: Bible Study, sponsored by Student Christian Movement, Conference Room, Sol Heumann Hall, 6-7:30 p.m.

FRIDAY, MARCH 10

TALISMAN FILM FESTIVAL: "Little Caesar," 7:30 and 10 p.m., Ingle Auditorium

SATURDAY, MARCH 11

'DOLLARS FOR SCHOLARS': RIT Women's Club Scholarship Dance, College Alumni Union, 9 p.m. to 1 a.m.

TALISMAN FILM FESTIVAL: "Candy," 7:30 and 10 p.m., Ingle Auditorium

CAPTIONED FILM: "The Manchurian Candidate," 7 p.m., General Studies Auditorium

CAMPUS VISITORS: Arbitrator Trainee Group, sponsored by Center for Employer-Employee Relations, all day, Printing Conference Room

SUNDAY, MARCH 12

TALISMAN FILM FESTIVAL: "For King and Country," 7:30 and 10 p.m. Ingle Auditorium

WORSHIP SERVICES: Roman Catholic Mass, Ingle Auditorium, 10:30 a.m. and 5 p.m.

Fr. Appelby

Protestant Services: South Lounge, Kate Gleason Hall, 11 a.m., Rev. Gibson

Protestant Services: Mezzanine, M-2, College Alumni Union, 6 p.m., Rev. Ryneerson

BOSWELL COFFEE HOUSE: 7 to 10 p.m., Multi-Purpose Room, College Alumni Union

EXHIBITS

WALLACE MEMORIAL LIBRARY: Photographs by Leslie Fried, Doug Skinner and Rob Zuckerman, through March 10

BEVIER GALLERY: "Horizontal & Vertical," featuring sculpture of James R. Herman and Susan J. Carter, March 10-April 7; Monday through Friday, 9 a.m. to 4 p.m.; Tuesday, Wednesday and Thursday, 7-10 p.m.

Fallon, vice president and general manager of the U.S.-Canadian Photographic Division of Eastman Kodak Co., has been elected a trustee of Rochester Savings Bank....Inn on the Campus plans to open late in May, and room reservations are being taken now for commencement on June 10, Innkeeper Robert J. Kohler announces; Call 436-0520 or 454-3063....School of Photographic Arts and Sciences is planning an Alumni Reception from 5 to 7:30 p.m. March 20 at the Conrad Hilton Hotel in Chicago for the Master Photo Dealers' and Finishers' Convention....Long Range Planning Report No. 4, "A College At A Point of Change Analyses of Related Forces in Education," written by Dane R. Gordon, is on reserve in the Wallace Memorial Library.

CCCFD To Offer 'External' Masters Degree

A new Master of Technology degree program that will involve cooperation between RIT and the State University of New York at Brockport has been announced by Dr. Todd H. Bullard, provost and vice president for Academic Affairs.

The program will prepare candidates for teaching technological subjects at community and junior colleges and will be an "external" type of degree program, enabling students to take courses at colleges and universities near their homes.

The program will take from three to a maximum of five years to complete and will allow admission transfer credit for previous work and teaching experience that relate to the program's transfer requirements.

"We believe that this will be the only external graduate degree program in technologies in the nation," stated Dr. Roy I. Satre, Jr., dean of RIT's School of Applied Science and Center for Community College Faculty Development, the two RIT units that will administer the program.

Dr. Satre further stated that the program will start in September, 1972, with about 20 students and is being offered in response to the urgent need for more technical and specialized professional educators at community and junior colleges.

"An additional reason for the new degree," he said, "is that a considerable number of those currently teaching in career programs at two-year colleges do not have advanced degrees. These are often one of the criteria for promotion at their schools."

He emphasized that the program will be offered through evening classes and special summer programs, and will allow students an opportunity to gain increased knowledge in their field of specialization without having to undergo the hardship of spending at least one full year away from their jobs.

Students entering the program will be required to have a Bachelor's degree in either electrical or mechanical engineering, engineering technology, or the physical sciences. Applicants may include industrially employed engineers and technicians who wish to change their career goal to teaching at the two-year college level.

A committee of faculty and staff will evaluate each candidate's qualifications, and a detailed program for completion of the degree will be agreed upon by the co-operating institutions and the student candidate. In evaluating the amount of credit to be awarded for previous course work or work experience, proficiency examinations may also be utilized.

"Portions of the new Master's program may be gained through whatever means the student and his evaluation committee deem admissable," Dr. Satre said. "These may include, but are not limited to, summer institutes, post-graduate courses, and partial programs planned with other institutions near his place of residence."

Dr. Satre said that the cooperative effort between RIT and Brockport is a good example of the type of joint ventures that can be mutually advantageous for members of the newly chartered Rochester Area Colleges Inc.
